Form 990, Schedule A, Part III - Statement about Activities

**Line 3a Statement about scholarships**

The Hitchcock Foundation (the Foundation) makes awards for research and for general health programs. Funds of the Foundation are available for research grants to persons with a formal affiliation to Dartmouth-Hitchcock Medical Center or Dartmouth College, including physicians, nurses, therapists, and administrators.

The Hitchcock Foundation awards fellowship funds through the Helmut Schumann Fellowship, The Tiffany Blake Fellowship and the Joshua B. Burnett MD Clinical Research Fellowship.

The Helmut Schumann Fellowship encourages teaching of patient care intended to promote healthful living through "total health care". The Fellowship is awarded to those who exhibit a strong commitment to primary prevention and health promotion. The Fellowship application protocol requires that the applicant have a clear definition of measurable objectives by which the success of the Fellowship can be determined. The protocol submitted must include a detailed description of the program to be developed, statement of anticipated progress in the requested time, a detailed budget for the proposed program and must identify the direct or potential clinical applications of the plan. All applicants must include references and must receive approval from the Chairman of the applicable department. The program will be evaluated for merit by the Hitchcock Foundation's Schumann Fellowship Review Committee.

The Tiffany Blake Fellowship was established to aid the career development of young investigators ( up to Assistant Professor level) interested in conducting research at Dartmouth-Hitchcock Medical Center. Candidates for the Tiffany Blake Fellowship must have a doctoral degree or its equivalent. Applicants are required to submit a research plan which identifies the research to be conducted and its relevance to health care. The applicant must explain the specific aims of the research and demonstrate how the fellowship will contribute to their objectives. The Fellow is expected to devote a minimum of 80% time and effort to the Fellowship project. The candidate must receive approval from the chairman of the department in which the applicant plans to work during the one-year period of the fellowship. Applicants are evaluated for scientific and technical merit by the Fellowship Review Committee.

The Joshua B. Burnett M.D. Clinical Research Fellowship was established to support the career development of young investigators committed to clinical research. The Fellowship provides support for one year of supervised study and research for clinically trained professionals who show the potential to development into productive investigators focusing on clinical research. This area of research includes 1) mechanisms of human disease; 2) therapeutic interventions; 3) clinical trials, and; 4) the development of new technologies. The candidate must have completed their clinical training and hold a clinical doctoral degree or its equivalent. Only those applicants deemed to have the highest scientific merit will be considered. Applicants are evaluated for scientific and technical merit by the Fellowship Review Committee.

**Line 3a Statement about student loans**

The Hitchcock Foundation established the Revolving Loan Fund in 1959 to assist Residents and Fellows in hospitals affiliated with the Dartmouth-Hitchcock Medical Center with emergency or unforeseen expenses. All repayments and interest on loans are returned to the Revolving Loan Fund, thus the Fund and its benefits are perpetuated for future applicants.
