**PORTFOLIO DETAILS**

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc (CGMI). In most cases, these values are as of 03/31/12, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at [www.smithbarney.com](http://www.smithbarney.com).

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold. **Please Note:** unrealized gain/loss is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

**Money fund**

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

**PORTFOLIO DETAILS**

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc (CGMI). In most cases, these values are as of 03/31/12, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at [www.smithbarney.com](http://www.smithbarney.com).

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold.

**Please Note:** unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

**Money fund**

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

**PORTFOLIO DETAILS**

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc (CGMI). In most cases, these values are as of 03/31/12, but in some cases CGMI's sources are unable to provide timely information. Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income assuming the current dividend divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold. **Please Note:** unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

**Money fund**

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

*Our Investment Research & Analysis (CIRA) ratings may be shown for certain closed-end funds. Because the research report contains more complete information regarding the analyst's opinions, analysis, and rating, you should read the entire research report and not infer its contents from the rating. The Investment Rating code (1-3) is based upon CIRA's expectation of the security's performance relative to its peer group of closed-end funds. The Risk Rating (1-M, H or S) represents the fund's expected risk, taking into account the quality and liquidity of the underlying securities, financial leverage, and foreign currency exposure. **PORTFOLIO DETAILS**

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc (CGMI). In most cases, these values are as of 03/31/12, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at [www.smithbarney.com](http://www.smithbarney.com)

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold.

**Please Note:** Unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

**Money fund**

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

**PORTFOLIO DETAILS**

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc (CGMI). In most cases, these values are as of 03/31/12, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at [www.smithbarney.com](http://www.smithbarney.com)

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income assuming the current dividend divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold. **Please Note** unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

**Money fund**

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Because the research report contains more complete information regarding the analyst's opinions, analysis, and rating, you should read the entire research report and not infer its contents from the rating. The Investment Rating code (1-3) is based upon CIRA's expectation of the security's performance relative to its peer group of closed-end funds. The Risk Rating (1-M, H or S) represents the fund's expected risk, taking into account the quality and liquidity of the underlying securities, financial leverage, and foreign currency exposure. **Money fund**

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

**Please Note:** Unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

**Money fund**

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

**Money fund**

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Certain mutual funds may not be transferable to other broker-dealers. For further information, please refer to the fund's Prospectus or call your Financial Advisor.

Yield is the current distribution annualized, divided by the fund's net asset value at the end of the statement period. Distributions may consist of income, capital gains or the return of capital. Distributions and current dividend for funds are based upon information provided by an outside vendor and are not verified by us. "Tax-Based Cost vs Current Value" is being provided for information purposes only. "Cash Distributions (since inception)" when shown, may reflect distributions on positions no longer held in the account and may not reflect all distributions received in cash due to but not limited to the following: investments made prior to 1/1/89, asset transfers, recent activity and certain adjustments made in your account. "Total Purchases vs Current Value" is provided to assist you in comparing your "Total purchases" excluding reinvested distributions with the current value of the fund's shares in your account. "Fund Value Increase/Decrease" reflects the difference between your total purchases and the current value of the fund's shares, plus cash distributions since inception.
