

Kensington®

Brighter Solutions for a Mobile World

Education Solutions

smart. safe. simple.™

Productivity and Protection for Electronic Learning

Classroom Deployment

Our line of tablet products helps ensure teachers are able to provide maximum protection, security, and productivity for their students during classroom time.

Bring Your Own Device

When students are responsible for their own device, Kensington can provide them peace of mind with accessories that ensure their device will make it through the school year intact.

Common Core Standards

We also offer solutions that support requirements for Common Core Standards Testing. Our intuitive and reliable products help optimize test results, while offering easy installation and maintenance.

The Kensington Advantage

We strive to make working with us smart and simple. Kensington's [Education Pricing](#) allows you to take advantage of generous bid discounts on laptop and tablet accessories for quantities as low as one unit.

Tablet Solutions for Teachers and Students

Don't lose a minute of valuable learning time because of broken or stolen tablets. Protect and secure your iPads, Galaxy Tabs, or other devices with our innovative solutions.

Fact: 30% of iPad deployments in the UK are in Education.*

Kensington KeyFolios — Performance without the Fingerprints

In the classroom and on the go, the Kensington KeyFolios deliver productivity and the protection the education environment demands. A Bluetooth® keyboard is the ultimate productivity booster and offers extended battery life for less maintenance. Each keyboard pairs with a single device to ensure scholastic integrity and a built-in stand adjusts to your preferred position. No matter which KeyFolio you choose, you'll have complete screen and case protection for your tablet.

Rugged Cases, Ready for Any Adventure

Let's face it, kids will be kids. That's why we designed the Kensington Rugged Cases specifically for the K-5 environment, where accidental damage can occur at any time. Each model features a tough, padded case and a thick, sturdy handle that also doubles as a two-way stand. For added theft protection, check out the Rugged Security Cases.

Fact: 5-10% of school iPads are damaged annually
