

SATELLITE A350/A350D

The 16" cinematic entertainer

The Satellite A350/A350D provides a true cinematic experience thanks to its new 16" HD display with a 16:9 aspect ratio, letting you enjoy movies and games in their intended format. Bundled with high-quality Harman Kardon® stereo speakers and Dolby® Sound Room™, the laptop delivers truly immersive audiovisual quality. The integrated dual HDDs* turn the Satellite A350/A350D into a serious mobile media centre with ample storage for movies, photos, games or MP3 files or just to store sensitive data on two separate disks for even higher security. The durable casing features an eye catching new design imprinted using Toshiba's special Fusion finish. And its unique mix of innovative Toshiba EasyMedia features makes communication, entertainment and computing smarter and easier. Just take a closer look!

Illuminated, feather-touch instant-on buttons – our Toshiba EasyKeys – give you the most intuitive access to multimedia entertainment.

Harman Kardon® stereo speakers and Dolby® Sound Room™ with Dolby® Control Center™ create sensational audio, endowing you with a world-leading digital lifestyle on the move.

16" TruBrite® HD display with 16:9 aspect ratio means a perfect widescreen DVD movie experience, with no annoying black bands above and below the picture.

INTENSIFY YOUR SENSES

Leading-edge graphics technology, including the latest ATI Mobility Radeon™, produces the best multimedia images and the most realistic visuals.

KEEPS GOING WHILE IT SLEEPS

Charge a mobile phone, PDA, MP3 player, gaming console or other device even when the laptop is turned off.

COOL COMMUNICATIONS

The integrated 1.3 megapixel web camera enables instant face-to-face video chats with friends, plus the failsafe security of Toshiba Face Recognition software.

Toshiba recommends Windows Vista® Home Premium.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Please check your system specifications to ensure optimal results. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis.
