

Overview

Flexible Configuration Choices for HP ConvergedSystem 700x

1. (0) or two (2) HP SN3000B 24-port SAN switches or Two (2) HP SN6000B 24-port SAN switches or Two (2) HP SN6000B 48-port SAN switches
2. Two (2) or Four (4) HP 5920AF-24XG switches and two (2) or four (4) HP 5120-24G switches
3. Zero (0) to six (6) HP ProLiant DL360p Gen8 E5-v2 management servers per compute rack
4. One (1) to four (4) HP BladeSystem c7000 enclosures, Virtual Connect FlexFabric; four (4) to sixteen (16) HP ProLiant BL460c Gen8 E5-v2 server blades per enclosure (up to 64 BL460c Gen8 servers total)
5. One (1) Storage component of either HP 3PAR StoreServ 7000 series or 10000 series

NOTE: The HP ConvergedSystem 700x is flexible in its configuration, based on a common, scale-out architecture that includes from 1 to multiple racks, 4-64 blade servers, 0-12 rack servers and multiple storage options. The combinations available deliver the right mix of price performance to meet unique customer requirements. Selection of server and storage components is made at the time of ordering from a number of controlled choices based on validated configurations of HP Converged Infrastructure that can be sized and optimized for physical or virtualized application workloads.

NOTE: HP 3PAR configurations listed for HP ConvergedSystem 700x are based on recommended options. Custom 3PAR configurations may be developed and used by consulting an HP 3PAR specialist.

What's New?

- HP ConvergedSystem 700x delivers increased flexibility and scalability via a single, common architecture
- Updated SAN switch options

Overview

- New options for processor and memory choices in BL460c Gen8 E5-v2 blades
- New options for memory choices for DL360p Gen8 E5-v2 servers
- New options for storage configuration and SAN fabric
- Updated switching with HP 5920 and 5120 network switches with IRF capability
- Support for single rack or multiple rack deployment models on Microsoft
- Default support for Windows Server 2012 Datacenter and System Center 2012 Datacenter SP1
- HP ConvergedSystem 700x for Microsoft Deployment Accelerator Service
- New Single Rack configuration configured with one (1) c7000 enclosure and StoreServ 7000 storage with optional Flat-SAN connectivity
- Option to retain internal disk storage when selecting boot from MicroSD on BL460c Gen8 servers
- Updated SAN Fabric to SN3000B or SN6000B SAN Switches
- Option for SATA DVD ROM in DL360p Gen8 servers for HP ConvergedSystem 700x on VMware
- StoreServ 7400 configurations now default to 24A 1PH Intelligent PDU cores for ease of power management control
- Update to VMware vSphere 5.1U1
- Update to Insight Management 7.2 and associated vCenter plugins

At A Glance

HP ConvergedSystem 700x provides customers the fastest path to optimized infrastructure, delivered on a common platform that provides broad scalability as well as the flexibility to move to the cloud when ready. The end-to-end solution is covered by HP Proactive Care support and can be sourced entirely from HP, inclusive of VMware software licenses, Windows and System Center software licenses if needed. Key features and benefits include:

- **Flexible architecture and easy expansion** - The system is based on a common architecture of HP Converged Infrastructure that delivers new levels of flexibility in the configuration of compute and storage components. The variety of combinations provides an ability to uniquely meet a broader set of unique requirements, and expansion to accommodate additional capacity needs is made easy by simply scaling out the system with additional compute and storage nodes.
- **Complete, optimized system** - HP ConvergedSystem 700x is built on the latest HP Converged Infrastructure technology including HP BladeSystem servers, HP 3PAR StoreServ storage, and HP Networking, optimized and pre-integrated, creating an ideal platform for a wide variety of business applications. When ordering HP ConvergedSystem 700x for Microsoft, the system includes Microsoft Deployment Accelerator Service to integrate and setup the Microsoft Private Cloud environment. When ordering HP ConvergedSystem 700x for VMware, the system is optimized and pre-integrated with VMware vCenter Server and vSphere Enterprise Plus, creating an ideal virtualization platform for business applications.
- **Ready for the Cloud** - HP ConvergedSystem 700x extends to the cloud with a clear upgrade path to HP Matrix Operating Environment (MOE) or other management stacks. HP ConvergedSystem 700x for VMware extends to the cloud with a clear upgrade path to HP Matrix Operating Environment (MOE) or to the VMware vCloud Suite. It can optionally be ordered and configured with vCloud Suite for immediate support of VMware-based cloud deployments. HP ConvergedSystem 700x for Microsoft includes a deployment acceleration service to deliver a complete Microsoft Private Cloud environment.
- **Integrated storage** - HP 3PAR StoreServ storage and software platforms support multiple levels of integration with vSphere or Windows Server 2012 Datacenter, providing a doubling of VM density to improve performance and scalability, and TCO savings of up to 50%.
- **Simplified, consolidated management** - HP Insight Control and HP Matrix Operating Environment (MOE) provide administrators increased control and insight into the total solution. HP Insight Control for VMware vCenter Server integrates the manageability features of HP Converged Infrastructure products into the VMware vCenter management and monitoring console. This combination provides administrators increased control and insight from a single pane of glass. - HP Insight Control for System Center integrates the manageability features of HP Converged Infrastructure products into the System Center 2012 Datacenter SP1 management and monitoring console.
- **Pre-built system, implement on-site** - The system is pre-integrated in the HP factory based on extensively tested configuration guidelines. Included implementation services quickly get the system up and running to peak performance, reducing the risk of disruption to the existing environment Along with the included HP ConvergedSystem 700x for Microsoft

Overview

Deployment Accelerator Service to provide a turnkey solution for deploying a Microsoft Private Cloud.

- **Solution level support** - Personalized and Proactive - HP offers Proactive Care with Personalized Support Option and Proactive Select to support the complete solution, including the HP hardware, software, VMware software and Microsoft software.

The HP ConvergedSystem 700x is built on well-established HP technologies and services including:

- HP ProLiant DL360p Gen8 E5-v2 Rack Mount servers
- HP BladeSystem c7000 Platinum Enclosure
- HP ProLiant BL460c Gen8 E5-v2 Server Blades
- HP 3PAR StoreServ 7000 or 10000 series Storage
- HP 3PAR InForm Operating System Software 3.1.2
- HP 3PAR 7200/7400 Application Suite for VMware
- HP 3PAR Recovery Manager for vSphere
- HP 3PAR Plug-In for VMware vCenter
- HP Networking 5900 and 5100 series switches
- HP SN3000B and SN6000B series SAN switches
- HP 642 42U i-Series Shock Racks
- HP Virtual Connect FlexFabric
- HP Insight Control v7.2 - including iLO Advanced, HP Insight Control licenses, HP Insight Control licenses for VMware vCenter, and HP Insight Control Licenses for System Center management packs.
- HP Factory Integration through HP Factory Express provides hardware integration, validation, and on-site installation.
- HP Proactive Care provides a single source support for the HP VirtualSystem Foundation system.
- HP Proactive Care provides a single source support for the complete HP VirtualSystem for VMware system, including the VMware software.
- HP Proactive Care provides a single source support for the complete HP ConvergedSystem 700x for Microsoft system, including the Microsoft OS and application software.
- HP ConvergedSystem 700x for Microsoft Deployment Accelerator Service to integrate and install the Microsoft Private Cloud management software and deliver a certified and compliant Microsoft Fast Track Private Cloud solution.

Software

HP ConvergedSystem 700x software The HP ConvergedSystem 700x comes standard with HP Insight Control v7.2 software licenses.

The HP ConvergedSystem 700x comes standard with HP Insight Control v7.2 software licenses. The HP ConvergedSystem 700x for VMware comes standard with HP Insight Control v7.2 software, the HP Insight Control plug-in for vCenter, VMware vSphere 5.1 Enterprise Plus and VMware vCenter Server Standard. HP Insight Control is installed and configured at the customer site. VMware software is factory installed for convenience and licenses are included, if purchased with the solution. VMware license registration and acceptance of the End User License Agreement (EULA) takes place onsite at time of installation. For customers that have existing VMware ELAs (Enterprise License Agreements) - please inform your sales team so that you are able to take advantage of your site license. For a complete Solution Level Support experience from HP, customers will need to purchase their VMware licenses from HP. This will include HP support covering the VMware software. Microsoft Windows Server 2008 R2 Enterprise Edition is included on the management nodes. Customers will need to supply OS licensing for the VMs they deploy.

VMware vSphere, vCenter Server, vCloud Suite HP and VMware together provide powerful integrated solutions for customers who want the confidence of deploying VMware virtualization and cloud software on certified systems with comprehensive services and seamless support. The long-standing partnership between HP and VMware, based on over 12 years of collaboration in engineering, sales, and marketing, has resulted in leading market positions and customer successes across a wide range of industries including financial services, health care, telecommunications, manufacturing and the public sector.

VMware vSphere and vCenter are preinstalled on the HP ConvergedSystem 700x for VMware and necessary licenses are included, unless removed from the order based on an existing customer ELA. For customers that maintain ELAs (Enterprise License Agreements) for VMware software - please inform your sales team that your ConvergedSystem 700x should take advantage of your site license. . For a complete Solution Level Support experience from HP, customers will need to purchase their VMware licenses from HP. When purchasing licenses with HP ConvergedSystem 700x for VMware, one (1) VMware vSphere Enterprise Plus license per socket is included by default. Please ensure that you meet minimum entitlement requirements for your particular configuration. Additional VMware vSphere Enterprise Plus licenses can be purchased through HP at the time of order.

For customers that are ready today to deploy a private cloud based on VMware technologies, the HP ConvergedSystem 700x for VMware can optionally be ordered with VMware vCloud Suite, with installation occurring on-site when ordered with the HP Installation Service for VMware vCloud.

For more information on VMware software licensing and packaging from HP, see: http://h18004.www1.hp.com/products/quickspecs/12307_div/12307_div.html#Overview

For more information about VMware vSphere Enterprise Plus, see:

<http://www.vmware.com/products/datacenter-virtualization/vsphere/overview.html>

For more information about VMware vCenter Server, see:

<http://www.vmware.com/products/vcenter-server/overview.html>

For more information about VMware vCloud Suite, see: <http://www.vmware.com/products/datacenter-virtualization/vcloud-suite/overview.html>

HP ConvergedSystem 700x for Microsoft The HP ConvergedSystem 700x for Microsoft comes standard with HP Insight Control v7.2 software and the HP StorageWorks Management Pack for System Center Operations Manager. Additionally both the Windows Server 2012 Datacenter and System Center 2012 Datacenter SP1 software licenses can be purchased from HP as part of the solution.

HP Insight management **HP Insight Control**

- HP Insight Control is essential server management software that

Software

software

HP Insight Control plug-in for vCenter

enables you to fully utilize the management capability built into your ProLiant servers. The combination of HP ProLiant with Insight Control delivers the best managed servers in the industry. For more information, see: www.hp.com/go/insightcontrol.

HP Insight Control for System Center

- HP Insight Control for VMware vCenter adds integrated extensions to make the ProLiant management information available through the vCenter console, and also adds health monitoring and alerts, proactive virtual machine management, and ProLiant OS deployment and update capabilities. For more information, see: www.hp.com/go/icvc.
- HP Insight Control for Microsoft System Center delivers ProLiant lifecycle management within the context of Microsoft System Center. It combines an integrated set of HP extensions to bring native manageability of HP hardware to System Center customers. Licensed as part of HP Insight Control, these extensions deliver comprehensive system health monitoring and alerting, configuration management, OS deployment, driver and firmware updates, and proactive virtual machine management in a flexible, easy to install package.

HP Integrated Lights-Out 4 (iLO 4)

Version 7.2 brings support for Microsoft System Center 2012 Datacenter SP1 and Windows Server 2012 Datacenter.

- Insight Control for System Center web page

- Insight Control for System Center Solution Brief
 - <http://h20195.www2.hp.com/v2/GetPDF.aspx/4AA3-9196ENW.pdf>
- Insight Control for System Center Technical White Paper
 - <http://h20000.www2.hp.com/bc/docs/support/SupportManual/c03020752/c03020752.pdf>
- HP Insight Control remote management, featuring HP Integrated Lights-Out 4 (iLO) Advanced, provides comprehensive lights-out remote management capabilities for ProLiant servers, including high-performance virtual keyboard, mouse, and video for routine and emergency remote administration, remote access to server power control and event logs, virtual media for simple deployment and update of remote servers, and single server power measurement and regulation. For more information, see: www.hp.com/go/iLO.

Other Services

Warranty services

The HP ConvergedSystem 700x is covered by a global limited warranty and supported by HP Services. Beyond the warranty, Proactive Care is the recommended and default offering, providing 24x7 hardware and software support with 6 hour call-to-repair. See Step 2 in "How to Order" section.

NOTE: Warranty varies by component. Server Warranty includes 3-Year Parts, 3-Year Labor, 3-Year Onsite support with next business day response. Warranty repairs may be accomplished through the use of Customer Self Repair (CSR) parts. These parts fall into two categories: 1) Mandatory CSR parts are designed for easy replacement. A travel and labor charge will result when customers decline to replace a Mandatory CSR part; 2) Optional CSR parts are also designed for easy replacement but may involve added complexity. Customers may choose to have HP replace Optional CSR parts at no charge. Additional information regarding worldwide limited warranty and technical support is available at: <http://h18004.www1.hp.com/products/servers/platforms/warranty/index.html>.

HP Financial Services

To support customers' transition, HP Financial Services (HPFS) can help in a way that you may not have considered. HPFS can help you invest in your business while preserving precious capital.

For more information, contact your local HP Financial Services Representative. In the United States, call 1-888-277-5942. In Canada, dial 1-800-HP-LEASE. For more information please visit: www.hp.com/hpfinancialservices for links to HP Financial Services around the world.

End-of-life management and recycling

Hewlett-Packard offers end-of-life HP product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to: <http://www.hp.com/go/green>. To recycle your product, please go to: <http://www.hp.com/go/green> or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: <http://www.hp.com/go/green>. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.

Installation, Startup and Support Services

HP ConvergedSystem 700x Services

The following services are included with all HP ConvergedSystem 700x systems:

- Factory integration services to rack and cable the hardware infrastructure, based in part on customer data collected with the Customer Intent Document (CID) to ensure that system is built and ready for datacenter integration (see NOTE below).
- Installation and Startup Services (via HP Factory Express service Level 4) start up services, including:
 - Unpack system and inspect for damages
 - Connection of HP ConvergedSystem 700x into customer network environment
 - Basic configuration of the network uplinks to the customer environment and connection verification
 - Assistance with license redemption and End User License Agreement (EULA) acceptance assurance
 - Review equipment and basic processes, including process for placing calls to request support
- 3yr HP Proactive Care 6hr Call-to-Repair with Personalized Support Option is the recommended support level. It provides a single source support for the complete HP ConvergedSystem 700x. Additional support levels and services are available for additional operational and resource assistance and coverage in mission critical environments. See Step 2 in How to Order section below.

NOTE: Customer is required to provide cables for uplinks.

NOTE: The factory integration services included in this solution require a Customer Intent Document (CID) to assist with the configuration and successful installation and implementation of the solution. The CID Reference ID# is required to be in place prior to sale.

NOTE: HP ConvergedSystem 700x does not include advanced data center network integration services. Some customers that do not have networking expertise internally may require Network Integration Services. For these customers, it is highly recommended that a custom network integration service be arranged with HP TS Consulting. For more information, please contact your TS sales representative.

HP ConvergedSystem 700x for VMware Services

The following services are included with all HP ConvergedSystem 700x for VMware systems:

- Factory integration services to rack, cable, and configure the hardware and software (including VMware vSphere and vCenter) infrastructure, based in part on Customer Intent Document (CID) to ensure that system is built and ready for datacenter integration (see NOTE below).
- Integration services into customer data center, using customer settings such as IP addresses, hostnames, and other information needed for datacenter integration.
- Installation and Startup Services (via HP Factory Express service Level 4) start up services, including:
 - Unpack system and inspect for damages
 - Connection of HP ConvergedSystem 700x into customer network environment
 - Basic configuration of the network uplinks to the customer environment and connection verification
 - Assistance with license redemption and End User License Agreement (EULA) acceptance assurance
 - Installation of HP Insight Control (and associated components)
 - Basic solution level functionality testing
 - Review equipment and basic processes, including process for placing calls to request support
- 3yr HP Proactive Care 6hr Call-to-Repair with Personalized Support Option is the recommended support level. Additional support levels and services are available. See Step 2 in How to Order section below.

NOTE: Customer is required to provide cables for uplinks.

Installation, Startup and Support Services

NOTE: The factory integration services included in this solution require a Customer Intent Document (CID) to assist with the configuration and successful installation and implementation of the solution. The CID Reference ID# is required to be in place prior to sale. Before issuing a purchase order against this solution, please contact your HP sales representative to engage an HP Engagement Project Manager (EPM) who will manage the CID process.

NOTE: HP ConvergedSystem 700x for VMware does not include advanced data center Network Integration Services. Some customers that do not have networking expertise internally may require Network Integration Services. For these customers, it is highly recommended that a custom network integration service be arranged with HP TS Consulting. For more information, please contact your TS sales representative.

HP ConvergedSystem 700x for Microsoft Services

The HP ConvergedSystem 700x for Microsoft solution has been designed to deliver a rapid time to value between the time the platform is purchased through delivery and on-site setup. As part of the customer experience that is delivered with the HP ConvergedSystem 700x for Microsoft there are several services that are included as part of the solution including the following:

- Factory Express Level 5 (FE5) Integration
 - With FE5 each HP ConvergedSystem 700x for Microsoft order will have a project manager assigned to provide dedicated service to ensure each HP ConvergedSystem 700x for Microsoft is delivered according to the customer requirements within the predefined flexibility of the solution. The FE5 PM will work with the customer to coordinate details for datacenter integration including power and cooling requirements, floor space, licensing options, and more as part of the customer intent discussion.
 - Factory integration of the solution including racking, cabling, and configuring the hardware infrastructure to ensure that system is built and ready for datacenter integration
- On-site startup and integration services which include:
 - Unpacking the system and validation of the HP ConvergedSystem 700x for Microsoft state and health
 - Configuration of the HP 3PAR StoreServ storage array.
- HP ConvergedSystem 700x for Microsoft Deployment Accelerator Service, including:
 - Connection and integration of HP ConvergedSystem 700x for Microsoft into customer network environment
 - Setup and configuration of the compute cluster(s)
 - Configuration of the System Center Management Servers including installation of the following Microsoft System Center 2012 Datacenter SP1 components:
 - SQL Server cluster
 - System Center Virtual Machine Manager cluster
 - System Center Operations Manager
 - System Center Service Manager
 - System Center Orchestrator
 - System Center AppController
 - Installation of HP Insight Control for System Center and HP StorageWorks management packs
 - Basic validation of the Microsoft Private Cloud environment (for example creation of new VMs from a service template)
 - Delivery of As-Built documentation to the customer as part of the review and handover of the turnkey solution

3yr HP Proactive Care 6hr Call-to-Repair with Personalized Support Option is the recommended support level. Additional support levels and services are available. See Step 2 in How to Order section below.

Installation, Startup and Support Services

Connecting the HP ConvergedSystem 700x solution in the datacenter

Compute Rack

Each compute rack has two (2) 5920 top of rack switches with up to four (4) network uplinks per switch to connect to the datacenter as shown here. Transceivers and appropriate cables need to be ordered or provided separately. Both 10Gb and 1Gb options are supported. For transceiver options refer to the HP 5920 Network Switch QuickSpecs. http://h18004.www1.hp.com/products/quickspecs/14260_div/14260_div.pdf

Storage

There are two connectivity requirements for the storage rack, connectivity of the Service Processor and connectivity of the management ports on the controllers. There are CAT5 Ethernet cables included in the storage component for this connectivity which may be modified as necessary

How to Order

NOTE: The HP ConvergedSystem 700x includes all HP hardware, HP software, and factory integration, onsite installation and startup, and 3 years of hardware and software support services.

NOTE: The HP ConvergedSystem 700x for VMware includes all HP hardware, HP software, and VMware software components as well as factory integration, onsite installation and startup, and 3 years of hardware and software support services. All hardware components are factory integrated and have been localized to US English. ConvergedSystem 700x for VMware comes with vSphere 5.1 Enterprise Plus, vCenter Server Standard, Insight Control v7.2, Insight Control v7.2 for vCenter plug-in, Factory Express level 4 configuration and onsite integration as defaults. Customers that have ELAs (Enterprise License Agreements) covering vSphere 5.1 U1 Enterprise Plus and vCenter Server Standard are not required to purchase these licenses from HP.

NOTE: The HP ConvergedSystem 700x for Microsoft includes all HP hardware, and HP software, as well as factory integration, onsite installation and startup, delivery of the HP Deployment Acceleration Service, and 3 years of hardware and software support services. The HP ConvergedSystem 700x for Microsoft SKU DOES NOT contain the necessary licenses for Windows Server 2012 Datacenter and System Center 2012 Datacenter SP1. Customers that have ELAs (Enterprise License Agreements) covering Windows Server 2012 Datacenter and System Center 2012 Datacenter SP1 are not required to purchase these licenses from HP. For customers that do not have these licenses they can be purchased from HP as an addendum to the order.

NOTE: Management servers are mandatory for the HP ConvergedSystem 700x for VMware order to ensure complete provisioning and initial installation and setup. Customers integrating HP ConvergedSystem 700x for VMware into existing VMware vCenter and/or centralized management environments may use their IT resources, Channel Partners, or HP Services to customize the management environment and redeploy the DL360p Gen8 servers in the event that HP ConvergedSystem 700x for VMware-specific management servers are not desired.

NOTE: While a single SKU is utilized for ease of ordering, the HP ConvergedSystem 700x for Microsoft is not a single SKU system. The SKU number associated with the system configuration triggers the inclusion of all required and optional components of the solution at the time of ordering.

NOTE: While a single SKU is utilized for ease of ordering, the HP ConvergedSystem 700x for VMware is not a single SKU system. The SKU number associated with the system configuration triggers the inclusion of all required and optional components of the solution at the time of ordering.

NOTE: Customers may choose to configure virtualization host servers within HP ConvergedSystem 700x for VMware with up to 512GB of DDR3 memory.

NOTE: Customers may choose to configure virtualization host servers within HP ConvergedSystem 700x for Microsoft with up to 384GB of DDR3 memory.

NOTE: All hardware components are factory integrated and have been localized to US English. ConvergedSystem 700x comes with Insight Control licenses, Factory Express level 4 configuration and onsite integration as defaults.

NOTE: HP ConvergedSystem 700x always uses blanking panels to fill all remaining empty front panel U-spaces in the rack. This arrangement ensures proper airflow. Using a rack without blanking panels will result in improper cooling that can lead to thermal damage.

NOTE: Storage part numbers and quantities vary based on configurations chosen. For specific details refer to the HP 3PAR StoreServ 7000 and StoreServ 10000 QuickSpecs.

StoreServ 7000 QS: http://h18000.www1.hp.com/products/quickspecs/14433_div/14433_div.html

StoreServ 10000 QS: http://h18004.www1.hp.com/products/quickspecs/14103_div/14103_div.html

How to Order

Step 1: Order HP ConvergedSystem 700x configuration. Select the appropriate level of compute and storage components to meet your performance needs.

Models **HP ConvergedSystem 700x configuration includes the following:** 727178-B21

One (1) or two (2) HP 42U 1075mm i-Series Shock Racks and one (1), two (2), or three (3) 3PAR racks and includes:

- One (1) to four (4) HP BLc7000 3 IN LCD ROHS Enclosure (virtualization host). Each enclosure is configured with:
 - One (1) HP 6X 2400W Platinum Efficiency FIO Power Supply bundle
 - One (1) 6x HP Active Cool 2000 Fan Bundle
 - Two (2) HP c7000 Onboard Administrator with KVM Option
 - Four (4) to sixteen (16) HP ProLiant BL460c Gen8 Server. Each server is configured with:
 - Two (2) HP BL460c Gen8 Intel® Xeon® Processors (Choices below)
 - HP BL460c Gen8 E5-2650v2 kit
 - HP BL460c Gen8 E5-2670v2 Kit
 - HP BL460c Gen8 E5-2690v2 Kit
 - HP BL460c Gen8 E5-2650Lv2 Kit
 - HP BL460c Gen8 E5-2643v2 Kit
 - Up to 384 GB of memory (default 256GB) with the following memory options:
 - HP 16GB 2Rx4 PC3-14900R-13 Kit
 - HP 8GB 2Rx4 PC3-14900R-13 Kit
 - HP 16GB 2Rx4 PC3L-12800R-11 Kit
 - HP 32GB 4Rx4 PC3L-14900L-13 Kit
 - One (1) HP 2GB Flash Backed Write Cache for P-Series Smart Array
 - Zero (0) to Two (2) 6G SAS SFF SC Enterprise Hard Drive with the following options:
 - HP 300GB 15K HDD
 - HP 600GB 10K HDD
 - HP 900GB 10K HDD
 - Zero (0) to One (1) HP 4GB Micro SDHC Flash Media Kit
 - One (1) HP FlexFabric 10Gb 2P 554M FIO Adapter
 - Optional FlexFabric Mezz (slot 2)

AND

- Zero (0) to twelve (12) HP ProLiant DL360p Gen8 Server (Management Station). Each server is configured with:
 - Up to 768 GB of memory (default 256GB) with the following memory options
 - HP 16GB 2Rx4 PC3-14900R-13 Kit
 - HP 8GB 2Rx4 PC3-14900R-13 Kit
 - HP 16GB 2Rx4 PC3L-12800R-11 Kit
 - HP 32GB 4Rx4 PC3-14900L-13
 - Two (2) Intel® Xeon® E5-2690v2 (2.9GHz/8-core/20MB /135W)
 - One (1) HP 2GB Flash Backed Write Cache for P-Series Smart Array
 - Zero (0) to eight (0-8) 300GB 6G SAS SFF SC Enterprise Hard Drive with the following options:
 - HP 300GB 15K HDD

How to Order

- HP 600GB 15K HDD
- HP 900GB 15K HDD
- One (1) HP 82Q 8Gb Dual Port PCI-e FC HBA
- One (1) HP FlexFabric 10Gb 554FLR-SFP+ FIO Adapter
- Zero (0) to One (1) HP 9.5mm SATA DVD ROM Jb Kit
- Two (2) HP 750w CS Platinum Power Supply Kit
- Optional 2nd HBA, 10G or 1G network card

AND, one of the following storage options (Please see StoreServ 7000 and StoreServ 10000 QuickSpecs for complete details):

- HP StoreServ 3PAR 7200 2 Node
- HP StoreServ 3PAR 7400 2 Node
- HP StoreServ 3PAR 7400 4 Node
- HP StoreServ 3PAR 10400 2 Node
- HP StoreServ 3PAR 10400 4 Node
- HP StoreServ 3PAR 10800 6 Node

AND

- One (1) HP Virtual Connect Flex Fabric 10/24 ENT Ed BLc7000 Opt per enclosure (pair + Virtual Connect Enterprise Manager license)
- Two (2) HP 5920AF-24XG Switch per compute rack
- Two (2) HP 5120-24G EI Switch with 2 Slots per compute rack
- Zero (0) to two (2) HP SN3000B 24-port SAN switches or Two (2) HP SN6000B 24-port SAN switches or Two (2) HP SN6000B 48-port SAN switches
- HP Intelligent Mod PDU with following options
 - 24A NA/Jpn Core
 - 40A NA/Jpn Core
 - 32A INTL Core
 - 3ph 40A NA/Jpn Core
 - 3ph 24A NA/Jpn Core

- One (1) HP Insight Control v7 Enc FIO Bundle 16 License (per enclosure)
- One (1) Insight Control v7 ML/DL/BL FIO Bundle License (per DL360p Gen8)

HP ConvergedSystem 700x for VMware configuration includes the following:

721223-B21

One (1) or two (2) HP 42U 1075mm i-Series Shock Racks and one (1), two (2), or three (3) 3PAR racks and includes:

- One (1) to (4) HP BLc7000 3 IN LCD ROHS Enclosure (virtualization host). Each enclosure is configured with:
 - One (1) HP 6X 2400W Platinum Efficiency FIO Power Supply bundle
 - One (1) 6x HP Active Cool 2000 Fan Bundle
 - Two (2) HP c7000 Onboard Administrator with KVM Option
 - Four (4) to sixteen (16) HP ProLiant BL460c Gen8 E5-v2 Server. Each server is configured with:
 - Two (2) HP BL460c Gen8 Intel® Xeon® E5-2600 v2 series Processors

How to Order

- (Choices below)
 - HP BL460c Gen8 E5-2650v2 Kit
 - HP BL460c Gen8 E5-2670v2 Kit
 - HP BL460c Gen8 E5-2690v2 Kit
 - HP BL460c Gen8 E5-2650Lv2 Kit
 - HP BL460c Gen8 E5-2643v2 Kit
- Up to 512 GB of memory (default 256GB) with the following memory options
 - HP 16GB 2Rx4 PC3-14900R-13 Kit
 - HP 8GB 2Rx4 PC3-14900R-13 Kit
 - HP 16GB 2Rx4 PC3L-12800R-11 Kit
 - HP 32GB 4Rx4 PC3-14900L-13 Kit
- One (1) HP 2GB Flash Backed Write Cache for P-Series Smart Array
- Zero (0) to Two (2) 6G SASFF SC Enterprise Hard Drive with the following options:
 - HP 300GB 15K HDD
 - HP 600GB 10K HDD
 - HP 900GB 10K HDD
- Zero (0) to One (1) HP 8GB Micro sd EM Flash Media Kit (726116-B21)
- One (1) HP FlexFabric 10Gb 2P 554M FIO Adapter

AND

- Two (2) HP ProLiant DL360p Gen8 Server (Management Station). Each server is configured with:
 - Up to 768 GB of memory (default 256GB) with the following memory options
 - HP 16GB 2Rx4 PC3-14900R-13 Kit
 - HP 8GB 2Rx4 PC3-14900R-13 Kit
 - HP 16GB 2Rx4 PC3L-12800R-11 Kit
 - HP 32GB 4Rx4 PC3-14900L-13
 - Two (2) Intel® Xeon® E5-2690v2 (3.00GHz/10-core/25M Cache/130W)
 - One (1) HP 2GB Flash Backed Write Cache for P-Series Smart Array
 - Six (6) to eight (8) 6G SAS SFF SC Enterprise Hard Drive with the following options
 - HP 300GB 15K HDD
 - HP 600GB 15K HDD
 - HP 900GB 15K HDD
 - One (1) HP 82Q 8Gb Dual Port PCI-e FC HBA
 - One (1) HP Ethernet 1Gb 4-port 331T Adapter
 - One (1) HP FlexFabric 10Gb 554FLR-SFP+ FIO Adapter
 - Zero (0) to One (1) HP 9.5mm SATA DVD ROM Jb Kit
 - Two (2) HP 750w CS Platinum Power Supply Kit

AND, one of the following 6 storage options: (Please see StoreServ 7000 and StoreServ 10000 QuickSecs for complete details)

- HP 3PAR StoreServ 7200 2 Node
- HP 3PAR StoreServ 7400 2 Node
- HP 3PAR StoreServ 7400 4 Node

How to Order

- HP 3PAR StoreServ 10400 2 Node
- HP 3PAR StoreServ 10400 4 Node
- HP 3PAR StoreServ 10800 6 Node

AND

- One (1) HP Virtual Connect Flex Fabric 10/24 ENT Ed BLC7000 Opt per enclosure
- Two (2) or Four (4) HP 5920AF-24XG Switch
- Two (2) HP 5120-24G EI Switch with 2 Slots
- Zero (0) to two (2) HP SN3000B 24-port SAN switches or Two (2) HP SN6000B 48-port SAN switches
- Four (4) to Twenty (20) HP Intelligent Mod PDU with following options: 24a Na/Jpn Core or 40a Na/Jpn Core or 32a INTL Core or 3ph 40a Na/Jpn Core or 3ph 24a Na/Jpn Core or 3ph 32a Intl Core or 3ph 48a Na/Jpn; plus Three (3) or (Four (4) or Six (6) HP 5xC13 Intelligent PDU Ext Bars G2 Kit (pair)
- One (1) HP Insight Control v7 (C6N33A) Enc FIO Bundle 16 License (per enclosure)
- Two (2) Insight Control v7 (C6N36A) ML/DL/BL FIO Bundle License
- One (1) HP Insight Control for vCenter v7.2
- Two (2) Integrate Lights Out 4 Standard Blades Edition
- One (1) VMware vCenter Server Std 3yr, 9x5 (BD725A) (included as default, may be removed in case of existing and valid ELA)
- Two (2) VMware vSphere Enterprise Plus 1P 3yr 9x5 Nm Lic per server (BD715A) (included as default per server, may be removed in case of existing and valid ELA)

Two (2) Microsoft Windows Server 2008 R2 Enterprise Edition 10 CAL (included as default in the management nodes and may be removed at customer request)

HP ConvergedSystem 700x for Microsoft Solution

727177-B21

HP ConvergedSystem 700x for Microsoft defaults to one compute rack and one storage rack as follows:

One (1) or two (2) HP 42U 1075mm i-Series Shock Racks and one (1), two (2), or three (3) 3PAR racks and includes:

- One (1) to four (4) HP BLC7000 3 IN LCD ROHS Enclosure (virtualization host). Each enclosure is configured with:
 - One (1) HP 6X 2400W Platinum Efficiency FIO Power Supply bundle
 - One (1) 6x HP Active Cool 2000 Fan Bundle
 - Two (2) HP c7000 Onboard Administrator with KVM Option
 - Four (4) HP BLC VC FlexFabric 10Gb/24-port
 - Four (4) to sixteen (16) HP ProLiant BL460c Gen8 Server. Each server is configured with:
 - Two (2) HP BL460c Gen8 Intel® Xeon® Processors (choices below)
 - HP BL460c Gen8 E5-v2 2650 Kit
 - HP BL460c Gen8 E5-2670v2 Kit
 - HP BL460c Gen8 E5-2690v2 Kit
 - HP BL460c Gen8 E5-2650Lv2 Kit
 - HP BL460c Gen8 E5-2643v2 Kit
 - Up to 384 GB of memory (default 256GB) with the following memory options:
 - HP 16GB 2Rx4 PC3-14900R-13 Kit
 - HP 8GB 2Rx4 PC3-14900R-13 Kit

How to Order

- HP 16GB 2Rx4 PC3L-12800R-11 Kit
- HP 32GB 4Rx4 PC3-14900L-13 Kit
- One (1) HP 2GB Flash Backed Write Cache for P-Series Smart Array
- Two (2) 300GB 6G SAS 15K rpm SFF SC Enterprise Hard Drive
- One (1) HP FlexFabric 10Gb 2P 554FLB FIO Adapter
- One (1) HP FlexFabric 10Gb 2P 554M Adptr

AND

- Two (2) HP ProLiant DL360p Gen8 Server (Management Station). Each server is configured with:
 - Up to 768 GB memory (default 256GB) with the following memory options
 - HP 16GB 2Rx4 PC3-14900R-13 Kit
 - HP 8GB 2Rx4 PC3-14900R-13 Kit
 - HP 16GB 2Rx4 PC3L-12800R-11 Kit

 - Two (2) Intel® Xeon® E5-2690v2 (3.00GHz/10-core/25M Cache/130W)
 - One (1) HP 2GB Flash Backed Write Cache for P-Series Smart Array
 - Six (6) to eight (8) 6G SAS SFF SC Enterprise Hard Drive with the following options
 - HP 300GB 15K HDD
 - HP 600GB 15K HDD
 - HP 900GB 15K HDD
 - One (1) HP 82Q 8Gb Dual Port PCI-e FC HBA
 - One (1) HP FlexFabric 10Gb 554FLR-SFP+ FIO Adapter
 - One (1) HP 9.5mm SATA DVD ROM Jb Kit
 - Two (2) HP 750w CS Platinum Power Supply Kit
 - Option to include a 2nd PCI card for additional DC requirements from the following:
 - HP 82Q 8Gb Dual Port PCI-e FC HBA
 - HP Ethernet 1Gb 4-port 331T Adapter
 - HP FlexFabric 10Gb 554FLR-SFP+ FIO Adapter

AND, one of the following storage options (Please see StoreServ 7000 and StoreServ 10000 QuickSpecs for complete details):

- HP StoreServ 3PAR 7200 2 Node
- HP StoreServ 3PAR 7400 2 Node
- HP StoreServ 3PAR 7400 4 Node
- HP 3PAR StoreServ 10400 2 Node
- HP 3PAR StoreServ 10400 4 Node
- HP 3PAR StoreServ 10800 6 Node

AND

- The following components are also pulled in as part of the base SKU for the HP ConvergedSystem 700x for Microsoft
 - One (1) HP Virtual Connect Flex Fabric 10/24 ENT Ed BLc7000 Opt per enclosure
 - Two (2) HP BLc VC FlexFabric 10Gb/24-Port Opt
 - Two (2) or 4 (Four) HP 5920AF-24XG Switch (2 per compute rack)
 - Two (2) HP 5120-24G EI Switch with 2 Slots

How to Order

- Two (2) HP HP SN3000B 24-port SAN switches or Two (2) HP SN6000B SAN Switches with appropriate power packs
- Four (4), Six (6) or Eight (8) HP Intelligent Mod PDU with following options: 24a Na/Jpn Core or 40a Na/Jpn Core or 32a INTL Core or 3ph 40a Na/Jpn Core or 3ph 24a Na/Jpn Core or 3ph 32a Intl Core or 3ph 48a Na/Jpn; plus 3 (Three) or 4 (Four) or 6 (Six) HP 5xC13 Intelligent PDU Ext Bars G2 Kit (pair)
- One (1) HP Insight Control v7.2 Enc FIO Bundle 16 License (per enclosure)
- Two (2) Insight Control v7 ML/DL/BL FIO Bundle License
- Two (2) Integrate Lights Out 4 Standard Edition
- HP Proactive Care 6hr CTR HP, plus Proactive Select 30 Service Credits

HP Factory Express Integration Services plus Installation and Startup

Step 2: Choose HP Care Pack Support and Additional Services

HP Service and Support HP 3yr Proactive Care with Personalized Support Option is the recommended support level. For additional choices, select from one of the support offers below.

NOTE: Only 3yr and 5yr Care Pack durations are available to match the software subscription durations of the VMware licenses.

HP Proactive Care - 3yr or 5yr

HP Proactive Care: Keep your systems stabilized and optimized to achieve a high level of appliance availability through a superior call experience with end-to-end case management, advanced technical expertise, and proactive service management. Customize your reactive support level by selecting either 6 hour call-to-repair or 24x7 with 4 hour onsite response.

HP Proactive Care with Personalized Support Option: To enhance your Proactive Care experience, add the Personalized Support option. With this option, an assigned account services manager (ASM) will provide you personalized support. Operational and technical advice helps you meet your IT objectives. The work is guided through an agreed support plan and reviewed twice a year to enable alignment and proper focus on current and emerging issues.

NOTE: Choose from 24x7 or 6hr call-to-repair reactive levels. There is also the option to add Defective Media Retention.

5yr HP Proactive Care 6hr CTR with Personalized Support Option	H1K94A5 +
5yr HP Proactive Care 6hr CTR	H4B58A5#001
	H1K94A5

HP Critical Service - 3yr or 5yr

HP Critical Service: Prevent downtime and maximize availability using ITIL best practices for your mission-critical applications. Our mission-critical services keep your solution available 24x7. Our call to repair reactive support with access to the Global Mission Critical Solution Center enables quick resolution whenever unforeseeable problems occur.

3yr HP Critical Service	HG932A5
3yr HP Critical Service with DMR	HG932A3

HP Proactive Select - 3yr or 5yr

NOTE: Proactive Select can be added to other support offers to have a complete support experience. Proactive Select provides an assigned account support manager who works with you to address technical and operational improvements specific to your business environment.

NOTE: With HP Proactive Select, you purchase service credits today, and choose from around 100 services to consume the required level of expertise and resources later depending on your requirements. For example, help with revision management, or proactive notification of critical network service problems.

NOTE: Available in packages of service credits, redeem them as you go, choosing the proactive services you need to fit your environment and critical IT and business goals.

NOTE: Care Pack Services for different duration and credit sizes are listed below.

HP 3Y Proactive Select 30 credits SVC	HK696A3
HP 3Y Proactive Select 90 credits SVC	HG921A3

NOTE: Operating temperature has an altitude derating of 1.8° F (1° C) per 1,000 ft (304.8 m). No direct sustained sunlight. Upper operating limit is 10,000 ft (3,048 m) or 70Kpa/10.1 psia. Upper non-operating limit is 30,000 ft (9,144 m) or 30.3 KPa/4.4 psia.

NOTE: To review maximum server system power ratings for facilities planning purposes use the HP Power Advisor at: <http://www.hp.com/go/hppoweradvisor>.

Technical Specifications

Environmental-friendly products and approach**End-of-life management and recycling**

Hewlett-Packard offers end-of-life HP product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to: <http://www.hp.com/go/green>. To recycle your product, please go to: <http://www.hp.com/go/green> or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: <http://www.hp.com/go/green>. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.
