HP 4-Port Powered USB Card

KH888AA

Introduction

Eliminate the need for external supply bricks to power USB peripherals in your retail locations. The HP 4-Port Powered USB Card's unique cabling allows USB devices to receive power from the HP rp5700 Point of Sale System.

Make your HP rp5700 Point of Sale system peripherals more dependable and reliable with the HP 4-Port Powered USB Card. Now you can connect self-powered USB devices such as barcode scanners, receipt printers and signature capture devices to the HP rp5700 Point of Sale system, without having to power these devices with cumbersome power supply bricks.

The HP 4-Port Powered USB Card is a PCI form factor card which features three 12V ports and one 24V port for devices such as receipt printers. All ports include integrated cable locking mechanisms, which are also compatible with standard non-powered USB devices.

Key Benefits

- Connect multiple powered USB devices to your HP rp5700 Point of Sale system
 - Plug and play
 - Eliminate individual power supply bricks for USB devices
 - Award winning HP Service and Support
 - 3 Year Warranty when installed in a new rp5700 Retail POS System
-

Compatibility

The HP 4-Port Powered USB Card is compatible ONLY with HP rp5700 Point of Sale Systems.

NOTE: Not all models are available in all regions.
