## Model #: B140-110

### DVI over Cat5 Remote Extender / Repeater Unit

#### Highlights

- Both extends and expands your Tripp Lite DVI over Cat5 installation, allowing you to locate multiple monitors at different points in a chain of up to 700ft.
- Up to 4 remote units (3 remote/repeaters and 1 receiver) can be connected together, providing video to up to 4 remote displays in a full chain
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

#### Description

Tripp Lite's B140-110 remote/repeater unit both extends and expands your DVI over Cat5 installation, allowing you to locate multiple monitors at different points in a chain of up to 700 ft.. With Tripp Lite's standard transmitter and receiver units (B140-101X), a single DVI monitor can be located up to 200ft. from the source. By inserting the B140-110 remote/repeater unit in between, the signal can be regenerated and extended to another monitor up to an additional 700 ft. away. A monitor can be connected to both the remote/repeater and the receiver, allowing the signal to be transmitted to both points in the chain. Up to 4 remote units (3 remote/repeaters and 1 receiver) can be connected together, providing video to up to 4 remote displays located at different points in the installation.

#### Applications

- Both extends and expands your Tripp Lite DVI over Cat5 installation, allowing you to locate multiple monitors at different points in a chain of up to 700 ft.

#### System Requirements

- Computer with DVI video output
- Monitor / TV / Projector with DVI video input
- A B140-101-X, B140-1A1-WP, B140-002, or B140-004 extender/splitter local unit

#### Package Includes

- B140-110 Extender / Repeater Unit
- AC Power Adapter
- Mounting Hardware
- Screwdriver for Equalization Adjustment

#### Features

- Insert the B140-110 in between the local transmitter and remote receiver units of your B140-101X extender kit
- Insert the B140-110 in between the local transmitter and remote receiver units of your B140-1A1-WP extender kit
- Connect the B140-110 to an available port on a B140-002 or B140-004 extender/splitter
- Built-in Equalization control for video image adjustment
- Includes mounting hardware for Wall, Rack, or Pole mounting
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases
