- ◆ Intel Core i7 processor with fast 256GB solid state hard drive
- ◆ Wireless mouse and keyboard (US layout) included
- ◆ Add a digital whiteboard with optional [BigNote](#) software (FREE 30-day trial)

The Power of a PC at Your Fingertips

Interact with your content on a multi-touch display with intuitive gestures. Personalize the Start screen on the same Windows desktop you've used before. Use, add, and arrange apps from the Windows Store, then multi-task by snapping two apps side-by-side. Enhanced features help you easily connect to your networks, access files in the cloud, encrypt data, and more.

The Tablet Experience ... Magnified

Tablets are fun. Touch is intuitive. The InFocus BigTouch lets you see and share that enjoyable tablet experience with a brilliant 1080p HD display that shows off your content with incredible brightness, color and clarity. The multi-touch screen delivers exceptionally accurate touch, swipe and Windows gestures such as tap, slide, swipe, pinch, and rotate for a global view of your screen.

How Will You Use BigTouch?

The form factor of BigTouch combined with the user experience and flexibility of a Windows PC means its use is only limited by your imagination. Schools can benefit from a bright, engaging display that keeps students' attention and a Windows desktop that's intuitive for students, staff, and IT. The HD display and ease of use make BigTouch a great fit for hospitals, clinics, labs,

and administrative offices. Hotels can use the display to help guests learn about amenities, browse maps, view restaurant menus and make reservations.
