## 40-Inch Interactive Whiteboard & Display

**InFocus**  
*Collaboration That Works*

Ready to capture and share  
your ideas wherever and  
whenever they occur

# DigiEasel

**InFocus**  
Collaboration That Works

## The professional alternative to paper, ink, and dry-erase

Part #: INF4030p, INF4030CBp  
K-12 Part #: INF4030, INF4030CB

Draw, write, and capture notes or share your device's screen on DigiEasel's bright, colorful 40" interactive touch display—all at an unbeatable price.

DigiEasel's versatility helps you collaborate and prepares you to capture the next big idea, whenever or wherever it strikes.

DigiEasel works in either portrait or landscape mode.

### Key Features

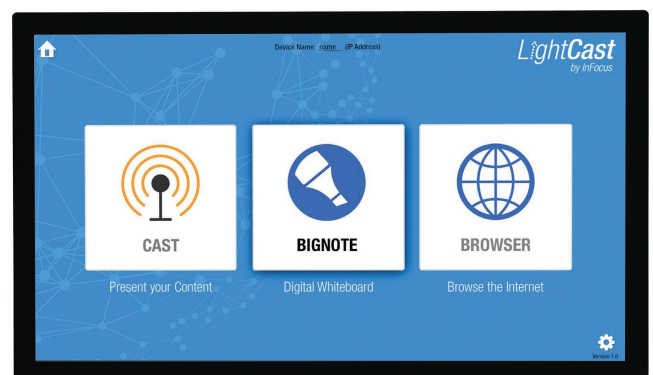

- Beautiful 1080p capacitive touch display in portrait or landscape orientation
- Draw on a massive whiteboard canvas and save and share the results
- Multiple colors, shapes and backgrounds are available to help you communicate your ideas
- Wirelessly display your device's screen or browse the web (INF4030CB/INF4030CBp only)
- Display your notebook via HDMI, VGA, or component video
- Impress your visitors with a professional, high-tech tool that's fun to use

### Use It Anywhere

Great ideas and conversations can happen anywhere, anytime. Be ready to capture that information with DigiEasel. At 40 inches, DigiEasel is our most versatile interactive whiteboard and display. Choose from portrait or landscape mode to fit the need of any boardroom, classroom, huddle space—or anywhere you collaborate.

### Go Digital for a Great Value

Leave those smelly pens, stained dry-erase boards, and warped flip charts behind. DigiEasel elevates your meeting space with the professional look and technological power of an interactive whiteboard at an ultra-low cost. Make collaboration easier and more efficient with a whiteboard display solution for today's fast-paced digital world.

INF4030CB/INF4030CBp model shown above

The DigiEasel platform can react to your presence just by lifting the stylus from its docking station.

## Get the Most Out of Your Whiteboard

Stop taking photos of your old dry erase board and step up to a digital whiteboard. You'll never lose an idea and your meetings will be more efficient and productive.

- Capture and save whiteboard notes electronically
- Email information directly from the DigiEasel (INF4030CB/INF4030CBp)
- The whiteboard scrolls seamlessly as you need additional space, allowing room for free-form drawings, diagrams, and notes
- Write or draw with a complete collection of digital pens, highlighters, shapes, and lines from a continuous spectrum color wheel
- Use it with or without a stylus
- Paste images onto the whiteboard or add useful custom backgrounds, such as a grid or a calendar
- Multiple point touch allows multiple people to write or draw at the same time
- No calibration required

## Touchscreen Display

Your DigiEasel is also a touch-enabled display device for your computer. Simply plug in your PC, Mac, or Chromebook and control it from the display via touch. Plus, numerous ports are available to connect the DigiEasel with other systems and peripherals.

- Display via HDMI, VGA, or component video and enable touch via USB
- RS232 port for integration with room control systems
- Audio input and output ports allow for quality sound

## Wireless Collaboration

Make meetings and lessons of all types more efficient and engaging with the wireless collaboration solution from InFocus. Easily connect and share content from any mobile device without wires or cords. Our wireless collaboration solution comes packed with powerful tools and useful features to make team work easier than ever before.

- Robust and reliable connection via special apps with extra features:
  - Annotation from your smartphone or tablet mobile device
  - Built-in support for cloud drive services
  - Use your device's camera as a document camera
- See content from four devices at once with QuadView
- The Moderator feature empowers teachers to control a classroom full of student devices and choose who is presenting
- The Follow feature lets the audience follow along with the presented content from their own device
- Connect natively with AirPlay or Miracast, or via Chrome extension
- On-board video decoding displays HD video seamlessly, even at high resolutions
- Connect to your network to create a new, secure wireless access point

\*Check with your manufacturer for Miracast or AirPlay compatibility on the specific version of your device's OS.
