System Recovery for Microsoft Windows XP systems only	Each unit is shipped with a recovery kit containing Operating System Recovery and Driver/Application Recovery discs. These discs allow users to either recover or repair the notebook operating system and select drivers without losing personal data. The Operating System disc also provides the option of reinstalling the operating system software provided with the notebook.	
Client Management Software	HP Client Manager Software (CMS) provides asset tracking, alerting, diagnostics, and SoftPaq distribution for HP business desktops, notebooks, and workstations. HP CMS is the foundation for HP Client Management Solutions. For more information and to download HP Client Manager Software, please refer to the HP website at http://www.hp.com/go/easydeploy .	
SMBIOS Version 2.3.4	System Management BIOS, previously known as DMI BIOS, is used to store system management information.	

Standard Features				
HP Local Recovery Provided by Altiris	Provides data and system file protection for HP business PCs to enable fast recovery of information that is accidentally deleted or if the system becomes corrupted. Designed for disconnected or seldom-connected users, Local Recovery protects your HP computer's data and system state by taking scheduled snapshots, which are then stored in a protected area on the local hard disk. System backup and disaster recovery is now simple and fast for all users, regardless of connectivity. For more information and to download, please refer to the HP website at http://www.hp.com/go/easydeploy .

Memory

Up to 2048 MB of 400-MHz or 533-MHz DDR2 SDRAM Two DIMM slots DIMM sizes supported: 256 MB, 512 MB, or 1024 MB Maximized dual-channel performance requires SODIMMs of the same size and speed in both memory slots.

	• 1024 MB (1024 MB x 1 or 512 MB x 2)
	• 512 MB (512 MB x 1 or 256 MB x 2)
Standard Memory	• 256 MB (256 MB x 1)

Optional MemorySupport for up to 2048 MB of memory is available (with the installation of optional DDR2 SDRAMUpgradesmemory kits). Both memory slots are user accessible. Please refer to the Hardware and Software Guide
for installation procedures.

Up to	Slot 1	Slot 2

NOTE: This chart does not represent all possible memory configurations. Due to the non-industry standard nature of some third-party memory modules, we strongly recommend using only HP branded memory modules to ensure compatibility. If you mix memory speeds, the system will perform at the lower memory speed.
