

# INF8501

85-inch 4K Touchscreen Display to Engage Audiences

Part #: INF8501

**InFocus**

Connect the 85-inch InFocus JTouch interactive display to your notebook to create a bright, colorful and vivid touch experience in stunning 4K resolution.

## Key Features

- ◆ 85-inch touch display with multi-touch technology and brilliant 4K resolution
- ◆ Anti-glare Gorilla Glass is durable and smooth to the touch
- ◆ Display your computer via HDMI, VGA or component video
- ◆ Enable touch from your PC, Mac or Chromebook via the included USB Type-A cable
- ◆ Add complete wireless display and touch control with our new [LiteShow 4](#) wireless adapter
- ◆ Whiteboard and annotation capability with optional [BigNote](#) software on your PC

## Bring Your Display to Life with 4K

Boost the impact of your content and make every meeting or presentation more engaging, informative and memorable with 4K. More pixels mean more detail and depth for amazingly life-like images. Presenters benefit from crisp, clear images up close, and audiences enjoy vibrant, detailed images—even from the back of a conference room.

## Easy to Connect

Display your PC, Mac, or Chromebook via HDMI, VGA, or component video, then control it from the display via touch. Just enable touch from the computer via USB, and extend the

reach of your computer's USB ports with the easily accessible USB ports on the display.

## Go Wireless

Eliminate cables and speed time to presentation with the InFocus LiteShow 4 wireless presentation adapter. Easily share data, audio, and HD video from multiple computers over a secure wireless connection and enable full wireless touch control of your Windows PC from the display. Guests connect quickly with the LiteShow USB drive, and on-board video decoding provides fast, smooth playback. Compatible with Windows 7, 8 & 10, Mac & iOS and Android mobile devices.
