

SecureBack™ M Series Modular Enclosure for iPad®

K67783WW

Product Description

Add security and robustness to your iPad Point of Sale (POS) system while maintaining the iPad's sleek profile and ease of use with the Kensington SecureBack M Series Modular Enclosure for iPad. iPad POS systems are providing a host of opportunities for businesses, restaurants, hotels, spas and other hospitality industries. This new iPad enclosure technology is ideal in any environment because it elevates customer service and customer engagement while providing new opportunities for data mining.

However, iPad POS systems do have some significant challenges. Only Kensington addresses the critical issues of security and robustness that the iPad POS environment demands.

The Kensington SecureBack M Series Modular Enclosure for iPad is the perfect way to preserve mobility and aesthetics while protecting your iPad from theft. It's completely compatible with the iPad 4th gen, iPad 3rd gen and iPad 2. What's more it works seamlessly with the ClickSafe keyed lock (lock sold separately), for security in just one click with no keys and no fiddling.

The SecureBack M Series Enclosure wraps your iPad in a robust, low-profile case that protects the iPad from bumps and scratches. There are also built-in cover plates for the power button and volume control to prevent unwanted use. To preserve the iPad's clean lines, there are both pass through and enclosed power cord routing options. The SecureBack M Series Modular Enclosure for iPad is also VESA mountable with the included VESA screws for ideal placement.

Protect your iPad investment while adding robustness and security with the SecureBack M series Modular Enclosure for iPad.
