## Portégé® X30T

# Powerful Tablet, Versatile Laptop.

Our newest 2-in-1 detachable laptop–the Portégé X30T–is the prime example of the modern computer. Compact, powerful and versatile, the Portégé X30T is equipped with a variety of mobile-centric technologies all designed to handle the most complex business tasks. Powered by an 8th generation Intel® Core™ U-Series Quad-Core processor and Windows 10 Pro, the Portégé X30T modern form factor incorporates a sleek, detachable keyboard with a robust collection of ports and a secondary battery, along with a 13.3-inch diagonal, high-resolution display for a superior Windows Ink™ experience. What else would you expect from the laptop expert?

Quad-Core performance

Full array of ports

Battery life rating up to 15.3 hours

13.3" diagonal detachable display

**Windows 10**

Windows 10 Pro means business.

## Product Features

### We Design, Manufacture and Engineer Our Laptops

We are the only major laptop manufacturer with the ability to write our own BIOS, develop, engineer, manufacture and extensively test laptops in-house to optimize system components and provide the security and quality simply found nowhere else.

### Multifactor Authentication

*Face Recognition*

An IR camera supports Windows Hello™ with password-free, enterprise-grade secure authentication using face sign-in.

*Fingerprint Reader*

The Synaptics® SecurePad™ offers convenience without compromising security by replacing complex passwords with the touch of a finger.

*Smart Card Reader*

Harden security with an additional authentication factor by using physical cards with a built-in microprocessor.

### Detachable Keyboard

Fully loaded with a spill-resistant design, backlit keys, large ClickPad, a second battery and a robust collection of ports, including HDMI®, VGA, Ethernet and two USB 3.0 ports.

### USB Type-C™

With reversible plug orientation, the ultraversatile USB-C (Gen 2) port supports display and power delivery.

**TOUGHBODY**

### MIL-STD-810G Strong

Featuring a premium Magnesium alloy casing and honeycomb reinforcement, this laptop has been tested using the MIL-STD-810G methodology for drops, vibration, shock, dust, altitude, temperature, humidity and solar radiation.
