## WELCOME TO ACCESSORISE WITH WESTCOAST CATALOGUE

WESTCOAST

Every day, Westcoast get enquiries about accessories. We are an organisation that carries a significant range suited to the hardware we sell and our customers' demands, but it would be impossible to stock everything in this vast and ever changing category.

Hence I am delighted to introduce the 2014 Spring / Summer Accessorise with Westcoast Catalogue showcasing a wide range of accessories that Westcoast carry. The dress featured on the front cover is designed by British fashion designer, Lyndsey Clark. It is one of a kind and features Fellowes mouse mats, Transcend USB sticks and Belkin Cables amongst other products available at Westcoast.

Local photographer, Mia Rasselkaf and models including Kristina Guberman (modelling the tech dress) were used to produce what we hope proves to be a useful guide. Rebrandable versions of this catalogue are available so please do get in touch if you are interested in getting hold of one with your brand on it.

Finally I would like to wish you every success in continuing to grow your business and remember to attach accessories with every sale you make.

Yours faithfully,

**Alex Tatham**  
Managing Director

**Belkin**  
Belkin Advanced Secure 2-Port DVI-I & USB  
Belkin's Advanced Secure DVI-I KVM Switch offers superior security and data protection by providing true data path isolation between systems and networks. It is fully compatible with legacy and new government systems and exceeds NIAP security requirements. Using uni-directional data paths with optical diodes, it prevents peripherals from being used to leak information from one computer system to another.
