Bien que nous sommes tous achalandés, je voudrais prendre un instant pour vous souhaiter, au nom de toute l'équipe de la Division des fournitures et Ingram Micro Canada, des joyeuses fêtes et une bonne année.

Bien que l'économie fasse les manchettes de tous les journaux, vos clients ont des attentes vis-à-vis un niveau de service élevé. L'annonce contient des informations au sujet de leurs produits les plus populaires. Si vous êtes à la recherche d'autres produits, nous vous invitons a communiquer avec votre représentant de vente. Dans la section de Toner, nous sommes fiers d'ajouter la gamme de produits de LCS.

Nous voulons aussi annoncer à tous nos clients de fournitures d'imprimantes à grand format, qu'Ingram Micro est maintenant le distributeur en exclusivité des consommables d'HP. Votre premier choix en fournitures cherche toujours a améliorer son service à ses clients et cet exclusivité souligne cet engagement !

# DESIGNED WITH THE ENVIRONMENT IN MIND.

At HP, we're committed to the environment.

We provide inventive, high-quality products and services that are environmentally sound – from the very first stages of product design through manufacturing and distribution, customer use and recycling.

Our recent packaging innovations for Original HP LaserJet and inkjet cartridges alone were estimated to have reduced greenhouse gas emissions by over 37 million pounds of CO<sub>2</sub> in 2007.<sup>1</sup>

In addition, since 1991 we have offered the HP Planet Partners program that provides free and convenient return and recycling of Original HP print cartridges.

To learn more, visit [hp.ca/recycle](http://hp.ca/recycle) or call 1-800-474-6836.

Thank you for your commitment to the environment.

## WHAT DO YOU HAVE TO SAY?

<sup>1</sup>Estimates are based on projected 2007 print cartridge sales in the United States and Canada. ## TRADE COMPLIANCE INFORMATION

As an outreach to our customers who resell technology, computer, telecommunications, electronic and other "dual use" products, this information sheet is intended to make sure you are aware of important trade compliance regulations. The information provided below is for our Canadian customers, and is primarily related to Canada's Export Control rules and International Trade Canada's Export and Import Control Bureau (EICB) rules. To insure you understand the regulations of your specific country, please consult with the appropriate local trade compliance agency. It is the responsibility of the Reseller to ensure that its resale transactions do not violate the export control regulations enacted by U.S., or local government law.

### Product Classification:

Pursuant to Canada's Export and Import Control Act and Regulations, companies and individuals may be liable for fines, and subject to forfeiture and imprisonment for exporting, assisting or facilitating export of goods prohibited subject to the Export Control List (ECL) or Area Control List (ACL) without a permit. These products include but are not limited to computer products containing high levels of encryption functionality, certain network infrastructure products used in high volume telecommunications and information management, or products exported to foreign government end-users. You must understand the product classification to determine if there are any restrictions on the export or re-export.

### Customer Base Compliance Screening – Know Your Customer

Products purchased from Ingram Micro must not be sold to any person, entity or business listed on any of the denial lists published by authorities governing the transaction, including the local government. It is illegal for a U.S. company or its foreign subsidiaries to conduct export business with a company or individual listed on the U.S. Government's Table of Denial Orders, Entity List, Specially Designated Nationals List or the Debarred List.

## RENSEIGNEMENTS SUR L'OBSERVATION DES LOIS RÉGISSANT LE COMMERCE

Ce document a été rédigé pour tous nos clients revendeurs de produits technologiques, informatiques, électroniques et de télécommunication, ainsi que d'autres produits dits à double usage. Notre but est de nous assurer que le revendeur est renseigné au sujet des lois régissant le commerce canadien et international. L'information qui suit est destinée aux clients canadiens et porte principalement sur les lois du Canada régissant le contrôle des exportations et sur les lois gérées par la Direction générale des contrôles à l'exportation et à l'importation (DGCEI). Prière de se référer à ces deux organismes afin de s'assurer de bien comprendre les lois. Il revient au revendeur de s'assurer qu'il n'enfreigne aucune loi promulguée par les États-Unis ou tout autre gouvernement.

### Classification des produits

Conformément à la Réglementation sur le contrôle des exportations et des importations : encourt des amendes, voit ses biens susceptibles de confiscation et est passible d'une peine d'emprisonnement quiconque, entreprise ou particulier, exporte, aide à exporter ou facilite l'exportation, sans licence, de biens prohibés figurant sur la Liste des marchandises d'exportation contrôlée ou sur la Liste de pays visés par contrôle. Ces marchandises comprennent, mais ne s'y limitent pas, les produits informatiques dotés de fonctionnalités de chiffrement très avancées; certains produits consacrés à l'infrastructure réseautique et employés dans la gestion de l'information et des télécommunications à volume important; et tout produit exporté vers les utilisateurs finals d'un gouvernement étranger. Le revendeur doit déterminer la classification des marchandises en cause et s'assurer qu'elles sont admissibles à l'exportation ou à la réexportation.

# TRADE COMPLIANCE INFORMATION

## Destination Country Screening

Canada's ACL controls exports to "listed countries". The listed countries change from time to time, and currently one country, Myanmar (formerly Burma), is on the list. In addition, all U.S. origin goods are controlled. If such goods are to be exported to U.S. embargoed destinations, Canada requires a permit issued by the U.S. Government, indicating that the U.S. Government approves the export. The U.S. embargoed countries include Cuba, Iran, North Korea, Libya, Sudan & Syria. For further information, please contact the nearest U.S. Embassy or Consulate.

## Non-Proliferation of Weapons of Mass Destruction (WMD)

Canada has a long-standing nuclear proliferation policy and is a participating state in the Wassenaar Arrangement. The Export Control List prohibits the export of nuclear, nuclear related, missile, chemical biological, or converted weapons without a permit.

## High Risk for Diversion Screening Guidance

A firm or an individual may not "knowingly do anything" to cause or to assist or aid or abet any shipment or transference or diversion prohibited by the Export and Import Permits Act (EIPA).

# RENSEIGNEMENTS SUR L'OBSERVATION DES LOIS RÉGISSANT LE COMMERCE (suite)

## Contrôle de la clientèle – Sachez qui sont vos clients

Aucun produit acheté chez Ingram Micro ne peut être vendu à un particulier, à une entité économique ou à une entreprise figurant sur la Liste de personnes proscrites publiée par les autorités, y compris les fonctionnaires locaux, régissant la transaction. Il est illégal pour une entreprise américaine ou pour une de ses succursales à l'étranger de faire affaire avec une société ou un particulier se trouvant sur une des listes américaines suivantes : Table of Denial Orders, Entity List, Specially Designated Nationals List, Debarred List.

En cas d'exportation de telles marchandises vers des pays soumis à un embargo par les États-Unis, le Canada exigera un permis obtenu auprès du gouvernement américain. Cuba, l'Iran, la Corée du Nord, la Libye, le Soudan et la Syrie sont actuellement soumis à un embargo américain. Pour tout renseignement complémentaire, se référer à l'ambassade américaine ou au consulat américain le plus près.

## Non-prolifération d'armes de destruction massive

Le Canada possède une politique de longue date en matière de dissémination d'armes nucléaires et est un état parties à l'Entente de Wassenaar. La Liste des marchandises d'exportation contrôlée interdit l'exportation d'armes nucléaires, d'armes liés au nucléaire, de missiles, d'armes chimiques, d'armes biologiques et d'armes modifiées à moins que le revendeur détienne une licence pour ce faire.

## Risques de détournement

Une entreprise ou un particulier ne peut sciemment faire quoi que ce soit qui puisse occasionner, faciliter,
