About us...

Über uns...

Herzlich Willkommen bei TRIO

Trio Leuchten zählt zu den führenden Anbietern für dekorative Wohnraumleuchten in Europa. Auf einer Betriebsfläche von über 20.000 qm sorgen rund 120 engagierte Mitarbeiter für reibungslose Unternehmensabläufe und exzellenten Kundenservice. Leistungsstärke, Kundennähe und ein hohes Maß an Flexibilität sind die Eckpfeiler unseres Erfolges. Immer am Puls der Zeit realisieren wir immer wieder neue Lichtideen, die begeistern und Spaß machen. Viel Erfahrung, das Gespür für Trends, sowie der kreative Dialog mit unseren Kunden sind beste Voraussetzungen für aktuelle Sortimente, die sowohl qualitativ als auch preislich überzeugen. Bei aller Innovationsfreude bleibt bei uns eins immer gleich: Die Verlässlichkeit! Mit vielen Partnern arbeiten wir seit über 20 Jahren erfolgreich zusammen. Ein partnerschaftliches Miteinander und die Kontinuität in den Geschäftsbeziehungen sind Merkmale, die eine Zusammenarbeit für alle Seiten zu einem Gewinn machen.

Ihr TRIO-Team

Welcome to TRIO

Trio is one of the leading suppliers for decorative lighting in Europe. On a surface of more than 20.000 sq. meters, 120 committed employees take care of an excellent customer service and make sure business processes run smoothly. Engagement, a high level of flexibility and a close relationship with our customers are the basis of our success. With a keen eye for trends, we create new lighting ideas, which inspire and make fun. Our long experience in lighting, the continuously looking for trends and the creative dialogue with our customers are the most important drivers for our collections, which combine convincing quality with attractive prices. Next to our drive for innovation, one motto always remains top of mind in our company: reliability! Since more than 20 years, we have built successful relationships with many of our partners. Partnership and continuity in the business relation are the key success factors for mutual success.

Your TRIO team

The harmony of light

Comfort and efficiency thanks to LED

The factor of light for your wellbeing

The wellbeing factor of your home is highly influenced by the light. The LED technology has conquered the private homes and has given a new quality to the light. LEDs are energy saving and can today be used almost for every light application whether it concerns decorative lighting in the living area or demanding workplace lighting. Thanks to their special light-technical qualities LED luminaires offer many possibilities to lighten up rooms well-balanced and harmoniously. With the presentation of our new 2014/2015 collection we would like to underpin further our LED competence, and present to you the newest "LED highlights" in many variations, different styles and materials.

Licht ist harmonisch

Lichtkomfort und Effizienz dank LED

Wohlfühlfaktor Licht

Der Wohlfühlfaktor des Wohnens wird maßgeblich vom Licht beeinflusst. Die LED-Technik hat den privaten Wohnraum erobert und dem Licht eine neue Qualität gegeben. LEDs sind sparsam und können heute fast für jede Lichtenwendung eingesetzt werden, ob es sich um dekorative Beleuchtung im Wohnbereich oder um anspruchsvolle Arbeitsplatzbeleuchtung handelt. Dank ihrer besonderen lichttechnischen Eigenschaften bieten LED-Leuchten viele Möglichkeiten, Räume ausgewogen und harmonisch zu beleuchten.

Mit der Vorstellung unserer neuen Kollektion 2014/2015 möchten wir unsere LED-Kompetenz weiter unter Beweis stellen, und präsentieren Ihnen die neuesten „LED-Highlights“ in vielen Variationen, unterschiedlichen Stilrichtungen und Materialien.

State of the art light Uncompromising quality

Our LEDs deliver what they promise

The slightest variation in production of white LEDs can lead to undesirable colour divergences and early failures. Our LED luminaires deliver the performance they promise while we equip our products of the latest generation with Osram light-emitting diodes achieving the highest quality and reliability as well as a homogeneous colour temperature.

The Osram Opto Semiconductors LEDs guarantee the highest international standards. Efficiency improvements are never made at the expense of these quality standards. Hence, every single LED is tested at Osram Opto Semiconductors and classified according to brightness and colour (binning). Osram LEDs deliver the declared light output (lumen values) and light colour (Kelvin values); they do not discolour on short notice and stand for excellent light performance and a high life time span.

Licht ist fortschrittlich

Kompromisslose Qualität

OSRAM
LED TECHNOLOGY INCLUDED

Unsere LEDs halten, was sie versprechen

Bei weißen LEDs führen schon geringste Produktionsschwankungen zu unerwünschten Farbabweichungen und frühzeitigen Ausfällen. Damit unsere LED-Leuchten halten, was sie versprechen, rüsten wir unsere Produkte der jüngsten Generation mit Leuchtdioden der Marke Osram aus und erzielen so ein Höchstmaß an Homogenität, Qualität und Zuverlässigkeit.

Osram Opto Semiconductors setzt mit seinen LEDs die höchsten internationalen Standards. Effizienzsteigerungen werden nur unter konsequenter Einhaltung hoher Qualitätsansprüche umgesetzt. Daher wird bei Osram Opto Semiconductors jede einzelne LED getestet und nach Helligkeitsgruppe und Farbort fein sortiert. Osram LEDs halten die angegebenen Lumenwerte und Lichtfarben (Kelvinwerte) ein, verdunkeln oder verfärben sich nicht nach kurzer Zeit, und garantieren hervorragende Lichtergebnisse und hohe Lebensdauer.

Die angegebenen Werte Lumen/Watt (lm/W) beziehen sich jeweils auf eine Lichtquelle. Um den gesamten Lichtstrom/Energieverbrauch der Leuchte zu ermitteln, sind die Werte mit der Anzahl der Lichtquellen zu multiplizieren.

The mentioned data lumen/watt (lm/W) are based on one light source. In order to calculate the total light output/energy consumption of a luminaire, these have to be multiplied by the No. of light sources.

Die angegebenen Werte Lumen/Watt/Energieeffizienz basieren auf dem technologischen Entwicklungsstand zum Zeitpunkt des Erscheinens dieses Kataloges. Aufgrund der Innovationsgeschwindigkeit in der LED-Technik können sich die Werte innerhalb des Gültigkeitszeitraumes ändern.

The mentioned data lumen/watt/energy efficiency are based on the technological stage of development at the publication date of this catalogue. Driven by the speed of development within the LED technology, these data may change within the catalogue's validity period.
