

BG Performance Oil Service

FOR MOTORSPORTS

This 3-part kit, PN KE04-N1C8, safely and effectively cleans hard-working motorcycle engines and fuel systems by removing carbon deposits and varnish buildup.

BG Engine Performance Concentrate is a high-quality engine protectant and oil fortifier.

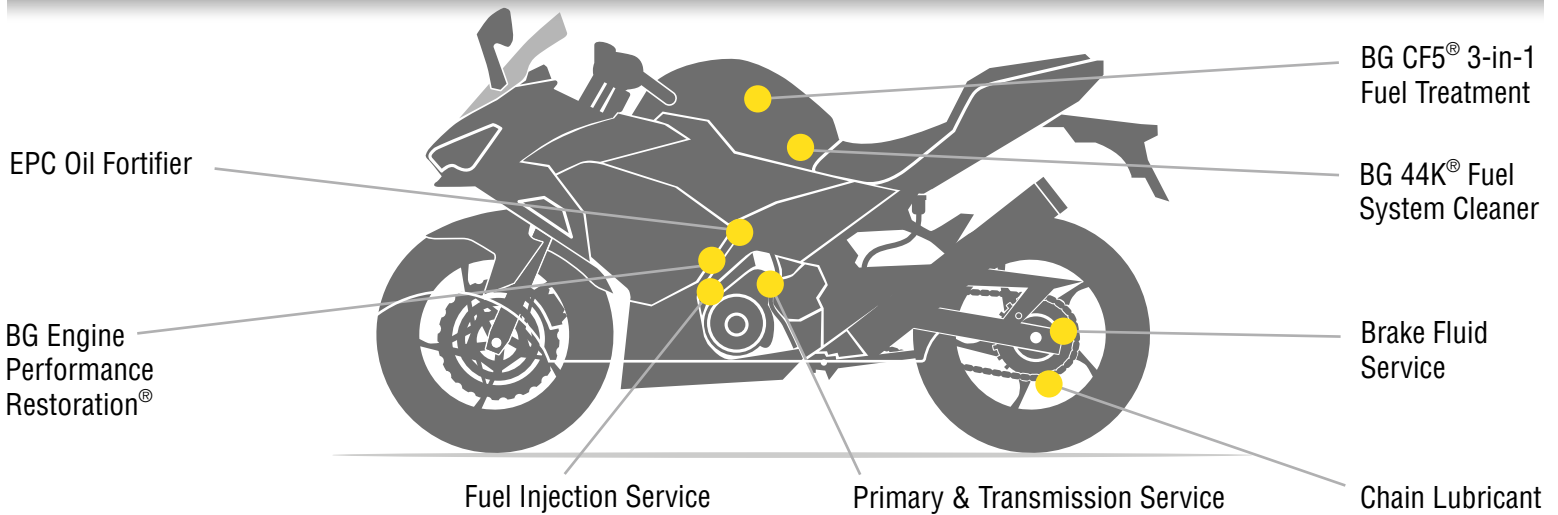

BG EPR® is a world-class engine cleaner.

BG 44K® is the #1 fuel system cleaner in the U.S.A.

- Restores peak performance
- Prevents costly repairs and downtime
- Protects against premature wear
- Restores fuel economy

SYSTEM SERVICES FOR MOTORSPORTS

BG ENGINE PERFORMANCE CONCENTRATE Provides engine component protection during extended high-temperature operation. Enhances and prolongs the performance of additives in engine oil.

BG EPR® Restores engine performance by cleaning piston rings while restoring compression, removing carbon deposits and cleaning oil passageways.

BG 44K® FUEL SYSTEM CLEANER Professional grade fuel system cleaner removes deposits from injectors, intake valves, and combustion chambers, and restores fuel system performance.

BG CF5® 3-IN-1 FUEL TREATMENT Stabilizes fuel and protects against the effects of ethanol while providing an effective maintenance level cleaning detergent.

BG HIGH PERFORMANCE 4-STROKE OIL A A revolutionary synthetic blend engine oil formulated to provide maximum protection. Designed for air and water-cooled engines.

BG FUEL INJECTION SERVICE The BG VIA® installs the cleaner through the fuel rail to perform the most thorough cleanup of fuel injectors and combustion chambers.

BG SYNCRO SHIFT® II Effective for use where engine oil, ATF, or API GL-4 gear oil is specified as service fill.

BG ULTRA-GUARD® An API GL-5 synthetic gear lubricant. Excellent marine, on-road, and off-road lubricant.

BG MOTORCYCLE CHAIN LUBE Developed specially for roller chain lubrication; recommended for all applications where an adhesive oil lubricant is needed.

BG IN-FORCE An ion-activated penetrating oil; stops rust, and lubricates and frees rusted parts. It can also be used in assembly applications.

BG FUEL SYSTEM DRIER Absorbs moisture that accumulates from condensation in the fuel tank, holds it in suspension until it is burned with fuel.

BG THROTTLE BODY & INTAKE CLEANER Removes deposits from the butterfly/throttle valve, throttle body, and idle air control valves of the air induction system.
