#### INTRODUCTION

1. The Executive Director submits herewith his budget estimates for the administrative and programme support services for the United Nations Fund for Population Activities for the year 1981.

2. The Budget estimates have been prepared in accordance with the UNFPA Financial Regulations and Rules approved by the Governing Council and, accordingly, have been submitted to the Advisory Committee on Administrative and Budgetary Questions (ACABQ) for examination and comment.

3. The 1981 budget presentation groups major organizational units in programmes according to the way in which they contribute to the implementation of the UNFPA's mandate. The programme budget breakdown follows closely the functional divisions of the Fund. Functional divisions provide the primary basis for preparing the programme budget and for accounting and reporting on budget execution. The Executive Director submits his budget estimates in a programme budget format following the programme budget structure presented to the Council in June 1979 for the 1980 administrative and programme support services budget (DP/398) to ensure comparability of the 1981 budget estimates with the 1980 appropriations and the 1979 expenditures. Tables summarizing the 1981 budget estimates by budget section and object of expenditure as compared with 1980 estimates and 1979 expenditures are included in Annex A.

4. The 1981 budget presentation includes detailed information on quantitative workload indicators for those operations of the Fund that can be quantified. As in previous budget submissions, a great deal of effort has been made to refine workload measurement so as to highlight the work of the Fund and the developments which render necessary the proposed increases in the staff. The quantitative indicators can, however, point only to some of the organization's output. The workload data are not all-inclusive, as many of the activities carried out by the staff are not easily quantifiable, and the degree of increase of complexity of the Fund's activities is not reflected in the increase of transactions performed. Workload indicators are presented for each organizational unit of the Fund, showing actual 1979 data, estimates for 1980 and projections for 1981. Tables on staffing proposals which include proposed new posts and reclassifications are presented for each organizational unit in each programme.

5. Although UNFPA has a closer relationship in terms of organization and programme with UNDP than with the United Nations Secretariat, the Executive Director is studying changes in the nomenclature of various organizational units of the Fund along the system of organizational nomenclature formulated by the Secretary-General in 1977 and submitted to the General Assembly at its thirty-second session. The planned changes will not have budgetary implications for 1981. The presentation for the 1981 administrative budget includes changes in the nomenclature of the geographical sections of the Programme Division, which have now been renamed geographical branches. At the next session of the Governing Council, the Executive Director will report on the organizational and nomenclature changes affecting other units of the Fund.

6. The budgets of the UNFPA field co-ordinators are included in the Chapter II of this document for information purposes only, and are not contained in the appropriation estimates for the administrative budget. The cost of field co-ordinators are charged to the programme budget as agreed by the Governing Council at its twenty-fifth session.1/

7. UNFPA's anticipated resources in 1981 from voluntary contributions are estimated at \$155 million. Investment, and miscellaneous income for the year is estimated at \$4 million. Income for 1981, therefore is estimated at \$159 million, an increase of \$20 million (14.5 per cent) over 1980 anticipated resources and of approximately \$38 million (32 per cent) over 1979 contributions.

8. The 1981 budget estimates include recommendations for eight additional Professional posts, fourteen General Service posts, and for the reclassification of fifteen Professional and four General Service staff. Table A shows the proposed UNFPA headquarters staffing table for 1981 as compared with the authorized posts for 1980, while Table B shows a summary of the proposed posts for 1981 by organizational unit. A justification for each of the requested posts is included in the appropriate section in Chapter I. The request for additional posts is based entirely on the need for UNFPA to cope with an expanding volume and complexity of programme activities.

9. The Executive Director's recommendation for reclassification of the staff in 1981 includes the reclassification of the Assistant Executive Director from the Director level (D-2) to the Assistant Secretary-General (ASG) level. The size, complexity and scope of the UNFPA Programme and the responsibilities of the Assistant Executive Director in the management of the overall operational activities of the Fund, as compared with the responsibilities of officials at the ASG level in other Organizations of the United Nations system fully warrants this reclassification. Responsibilities of the Assistant Executive Director include:

(a) Act as Officer-in-charge of the Fund in the absence of the Executive Director and the Deputy Executive Director;

(b) Chair the Project Review Committee and the Policy and Programme Committee in the absence of the Deputy Executive Director;

(c) Direct the Programme Division including planning, development, formulation and appraisal of programmes and monitoring of project implementation and development of operational policies;

(d) Maintain liaison with bilateral donors on programmes;

(e) Direct the relationship with the Organizations of the System, particularly with respect to programme formulation and implementation;

<u>1</u>/ Economic and Social Council, Official Records, 1978 Supplement No. 13, decision 25/31, II, para 3.

| Evaluation office  | -                  | -   | -   | 1   | -   | 2   | 1   | 1     | 5            | 1   | 3               | 4             | 9     |
| TOTAL  | 1                  | 2   | 1   | 10  | 13  | 25  | 16  | 18    | 86           | 30  | 63              | 93            | 179   |

(f) Present programmes to the Governing Council;

(g) Maintain liaison with recipient countries with respect to programme activities;

(h) Direct all field staff, including UNFPA co-ordinators and other UNFPA staff attached to UNDP Resident Representative offices, and UNFPA regional liaison offices;

(i) Represent the Fund at meetings and conferences; and

(j) Advise the Executive Director on all aspects of managing and administering the Fund.

10. The major part of the UNFPA administrative and programme support services budget is composed of salaries, wages and common staff costs. The cost of the 1981 staff establishment has been computed on the basis of the rates prevailing at the time of the preparation of the estimates:

(a) in the case of the Professional category and above, salary scales approved by the General Assembly with effect from 1 January 1977; and

(b) in the case of other categories of staff, salary scales approved by the Secretary-General with effect from 1 August 1979.

Projected posts adjustment and allowances were estimated in conjunction with the appropriate United Nations Service. For the 1981 staff establishment, based on prior experience, the Executive Director proposes a deduction for savings, arising from turnover of staff, and for delays in recruitment of approximately \$187,016, or  $\frac{1}{4}$  per cent of the total salaries and wages estimate.

11. On a net basis, the 1981 UNFPA budget estimates for administrative and programme support services amount to \$8,521,147. This represents a net increase of \$1,848,450 or 27.7 per cent over the 1980 appropriations of \$6,672,697. The 1981 budget estimates (net)as compared to the 1980 appropriations (net) and 1979 expenditures are presented in Table C, according to the classification by programme objective. The 1981 budget estimates for administrative and programme support services represent 5.4 of the total budget of the Fund in 1981. If the costs of the UNFPA field co-ordinators and liaison officers are added, this percentage would be 8.9 of total 1981 resources.

12. Table D shows both increases in real terms and increases attributable to inflation in the 1981 budget estimates by major object of expenditure categories, as compared to the 1980 approved appropriations by the same object of expenditure classification. Each individual object of expenditure item has been thoroughly reviewed and estimated on a realistic basis for each organizational unit, taking into account the voluminous increases in operational activities of the Fund, as well as likely inflationary price increases. Each of the items, such as travel, consultants, temporary assistance, overtime, staff training, hospitality, office equipment and supplies, and rental and maintenance of premises has been closely examined.

| NET INCREASE  | 1 172 964 | 675 486   | 1 848 450 | 16.0 | 11.7  |

····

Operating expenses, such as rental and maintenance of premises utilities, communications and contributing to joint administrative activities have been projected on the basis of contractual rates or arrangements.

As indicated in Table D, inflationary increases in the 1981 administrative 13. and programme support services budget are projected at the average rate of 11.7 per cent and amount to \$675,486 or 36.5 per cent of the net increase in the 1981 budget. Increases in real terms are projected at the rate of 16 per cent and amount to \$1,172,964 or 63.5 per cent of the net increase of which \$524,350 or 28.4 per cent, of the net increase will finance new posts and \$43,230 will cover reclassifications. Increases in salary scales for the posts established in 1980 amount to \$240,821, or 13 per cent, of the total increase and are projected at the rate of 7.6 per cent. Savings arising from turnover of staff, which allow also for a delayed recruitment factor are estimated at a lower level compared to the 1980 estimate; the difference amounts to \$16,251 and is reflected as a cost in real terms in the 1981 estimates. Increase in temporary assistance and overtime are small (\$16,500) and due primarily to inflation. Common staff costs for the established posts in 1980 amount to \$217,178 or 11.7 of the net increase and are projected at the rate of 15.3 per cent. Increases in travel and transportation are only \$35,000 and follow inflationary increases in international travel cost. Increases in other operating expenses amount to \$643,500, or 34.8 per cent of the total increase, and are projected at the average rate of 68.1 per cent. The major increase in operating expenses results from the increase in the budgetary provisions for rental and maintenance of the UNFPA premises from \$507,600 in 1980 to \$990,000 in 1981. In 1981 the UNFPA headquarters will occupy an estimated floor space of 55,000 square feet, at the cost of \$18.00 per square feet per annum, including costs for alterations of premises, cleaning and maintenance. Increases in the reimbursement to the United Nations and UNDP are estimated at \$111,620, or 6 per cent of the net increase in the 1981 budget.

#### SUPPLEMENTARY APPROPRIATIONS FOR THE 1980 ADMINISTRATIVE AND PROGRAMME SUPPORT BUDGET

14. In accordance with the UNFPA Financial Regulations and Rules approved by the Governing Council, supplementary estimates, prepared in a form consistent with the annual budget estimates, may be submitted by the Executive Director to the Governing Council. Consequently, the Executive Director recommends that the Governing Council approve supplementary estimates in the amount of \$100,000, for the 1980 administrative and programme support services budget, as follows:

| Programme   | Approved<br>appropriation | Supplementary appropriation | Total<br>appropriation |
|---|---------------------------|-----------------------------|------------------------|
| Executive direction and management<br>Administrative and public information | 913 864                   | 10 000                      | 923 864                |
| support services  | 1 913 710                 | 30 000                      | 1 943 710              |
| Programme planning, appraisal and monitoring                                | 3 845 123                 | 60 000                      | 3 905 123              |

15. Supplementary appropriations for the 1980 budget are required to meet an unforeseen level of expenditures in connexion with the moving of the UNFPA headquarters from the present premises at 485 Lexington Avenue into new quarters in the vicinity of the United Nations Secretariat and UNDP by the end of August 1980. The supplementary appropriation will cover movers' fees, installation of telex, telephones and intercom systems, electrical outlets and other electrical installation, and costs relating to adaptation to new premises, entailing partitioning, carpentry, carpeting, curtains and miscellaneous charges not previously included in the 1980 budget estimates.

16. UNFPA presently occupies approximately 34,840 square feet at 485 Lexington Avenue (19th, 20th, 21st and part of 22nd floors). Unfortunately, UNFPA has been unable to obtain additional floor space of about 20,000 square feet in its present building for 1980 and following years, as originally foreseen in early 1979 during the budget preparation for 1980. The new management of the building has not agreed to negotiate an extension of the present lease, which was signed in May 1977, under favourable cost terms. In order to provide urgent additional office space for various operational activities, temporary space of 2500 square feet has already been obtained at 345 East 46th Street, starting in March 1980, while all operations of the Fund will be moved into new premises by the end of August 1980.

17. At its twenty-fifth session, the Governing Council agreed that the Executive Director shall be authorized to transfer credits between programmes of the 1978 and 1979 budgets, within reasonable limits, with the concurrence of the ACABQ (Decision 25/31 II, para. 2). The Executive Director requests the Governing Council to authorize him to continue this practice to transfer credits between programmes of the revised 1980 budget and the 1981 budget.

#### RECOMMENDATION OF THE EXECUTIVE DIRECTOR

18. It is recommended that the Governing Council approve the 1981 budget estimates as submitted, and record such approval by the inclusion of the following text in its report:

#### "The Governing Council,

Having considered the 1981 budget estimates for administrative and programme support services of the United Nations Fund for Population Activities,

(a) <u>Approves</u> appropriations in the amount of \$8,521,147 net as submitted in document DP/483 to be allocated from the resources of UNFPA to finance the 1981 programme budget as follows:

| Programme   | <u>\$</u> |
|---|-----------|
| Executive direction and management<br>Administration and public information | 1 051 528 |
| support services  | 2 424 139 |
| Programme planning, appraisal<br>and monitoring                             | 5 045 480 |
| Total net   | 8 521 147 |

(b) Approves supplementary appropriations in the amount of 100,000 as submitted in document DP/483 to be allocated from the resources of UNFPA to finance the 1980 administrative and programme support services budget, as follows:

| Programme  | <u>\$</u> |
|--|-----------|
| Executive direction and management                     | 10 000    |
| Administrative and public information support services | 30 000    |
| Programme planning, appraisal<br>and monitoring        | 60 000    |

(c) <u>Agrees</u> that the Executive Director shall be authorized to transfer credits between programmes of the revised 1980 budget and the 1981 budget, within reasonable limits, with the concurrence of the Advisory Committee on Administrative and Budgetary Questions."

#### 1. BUDGET ESTIMATES BY PROGRAMME OBJECTIVES CLASSIFICATION

19. The over-all programme objective of UNFPA is to assist, directly or indirectly, developing countries in undertaking population programmes and activities. The UNFPA accomplishes this task by offering financial assistance to Governments, inter-governmental organizations and other organizations and entities at the international and country level to implement projects in the areas of basic data collection, population dynamics, formulation and implementation of population policies and programmes, family planning, communication and education, multi-sector activities and other population programmes.

20. In carrying out its mandate, UNFPA is responsible for the following functions:

(a) To build up, on an international basis, with the assistance of the competent bodies of the United Nations system, the knowledge and the capacity to respond to national, regional, interregional and global needs in the population and family planning fields; to promote co-ordination in planning and programming, and to co-operate with all concerned;

(b) To promote awareness, in both developed and developing countries, of the social, economic and environmental implications of national and international population problems; of the human rights aspects of family planning; and of possible strategies to deal with them, in accordance with the plans and priorities of each country;

(c) To extend systematic and sustained assistance to developing countries at their request in dealing with their population problems; such assistance to be afforded in forms and by means requested by the recipient countries and best suited to meet the individual country's needs; and

(d) To play a leading role in the United Nations system in promoting population programmes and to co-ordinate projects supported by the Fund. <u>2</u>/

21. The following general principles are followed and applied by UNFPA in making allocations of its resources:

(a) To promote population activities proposed in international strategies, particularly the World Population Plan of Action;

(b) To meet the needs of developing countries which have the most urgent need for assistance in the area of population activities in view of their population problems;

(c) To respect the sovereign right of each nation to formulate, promote and implement its own population policies;

2/ Economic and Social Council resolution 1763 (LIV).

(d) To promote the self-reliance of recipient countries; and

(e) To give special attention to meeting the needs of disadvantaged population groups.  $\underline{3}/$ 

22. The 1981 budget estimates are presented in a programme budget format, as were the estimates presented to the Council for the 1980 budget (DP/398). As in the previous years, the programme budget breakdown follows the existing functional divisions of the UNFPA secretariat. Organizational units furnish a framework to develop the budget estimates and serve as focal points for management and review of organizational requirements in relation to basic functions of the Fund. The 1981 budget format groups existing functional divisions into three programmes: I. Executive direction and management; II. Administration and public information support services; and III. Programme planning, appraisal and monitoring. Table I-1 provides a summary of the total estimated direct costs by programmes for 1981. Gross salaries and wages are adjusted for turnover of staff and include other personnel costs, such as temporary assistance, consultants and overtime. Common staff costs include the various allowances and benefits which staff members receive under the United Nations personnel system. Travel and transportation include travel on official business of headquarters staff; other service costs include general operating expenditures.

/...

 $\underline{3}$ / General Assembly resolution 31/170.

#### A. Programme I. Executive direction and management

23. The executive direction of the Fund is carried out by the Executive Director, who is assisted by the Deputy Executive Director and by the Assistant Executive Director, who is also the Chief of the Programme Division.

24. The Executive Director is responsible for the overall direction and management of UNFPA within the legislative mandate and guidelines established by the Fund's governing bodies (the General Assembly, the Economic and Social Council, and the Governing Council of UNDP).

25. The Deputy Executive Director is responsible, on behalf of the Executive Director, for the activities of the Fund, most particularly activities relating to formulating proposals concerning UNFPA's policies, plans, and programmes, and for UNFPA's information and evaluation activities. The Assistant Executive Director is responsible for UNFPA operational activities.

26. Programme I includes the Office of the Executive Director which assists the Executive Director and Deputy Executive Director in internal management of the Fund's activities, co-ordination of the Fund's activities with the United Nations, with UNDP, and with other Organizations of the United Nations system; it also maintains the Fund's external relations, particularly with Governments. The Office is responsible for co-ordinating and preparing statements and reports to UNFPA's governing bodies as well as of the many documents and reports UNFPA is required to submit to these bodies, including the Executive Director's Annual Report. The office also prepares the Inventory of Population Projects in Developing Countries Around the World and the Guide to Sources of International Population Assistance. The Office of the Executive Director's other major responsibilities include: fund raising, including the annual Pledging Conference, correspondence with Governments and preparation of reports on the status of pledges; and making preparations for, as well as providing coverage of, meetings of United Nations bodies and of other meetings and conferences requiring the Fund's participation. In addition, the Office also performs the editorial review of UNFPA papers, circulars, etc., and reviews all outgoing offical correspondence for completeness and for compliance with established rules and procedures. The Office also serves as the Fund's focal and liaison point for activities such as technical co-operation among developing countries.

27. Table I-2 provides a summary of the total estimated direct costs for 1981, appropriations for 1980 and expenditures in 1979 for Programme I, Executive direction and management, and table I-3 shows the 1981 staffing proposals. Workload projections for the Office of the Executive Director are shown in Table I-4.

#### TABLE I-2

#### Summary of total estimated direct costs Programme I. Executive direction and management

28. Adjustments reflected in the 1981 staffing proposals of the Office of the Executive Director are shown in table I-3 and include one new Professional post at the P-1/P-2 level and one new General Service post at the G-2/G-4 level, as well as reclassifications of two Professional posts, from P-3 to the P-4 level, and of one General Service post from G-4 to G-5 level. Justifications for these requests are as follows:

(a) The addition of an Assistant Reports Officer at the P-1/P-2 level is requested to assist in performing the expanding editorial review functions of the Office and in collecting and collating data and otherwise assisting in the preparation of research reports and background position papers for meetings and for statements to UNFPA's governing bodies. A G-2/G-4 Clerk/Typist is requested to assist the professionals of this office in their functions, especially the Fund's External Relations Officer.

(b) The reclassification of two officers from the P-3 to P-4 level are requested to reflect (i) the increasing level and complexity of responsibilities of the External Relations Officer in assisting the Executive Director in maintaining the Fund's relations with Governments and the Fund's relationships with the United Nations, UNDP, the Organizations of the system, and others: and (ii) the level of responsibilities of the Assistant to the Deputy Executive Director who assists the Deputy in the preparation and review of UNFPA documents and statements related to policy issues and programme development, and in performing various internal as well as external liaison functions.

\* Galleys and/or page proofs for Arabic, French and Spanish editions of International Population Assistance are due in March 1980 which will require a considerable amount of work in supervising proofreading, liaison with the printer, etc.

(c) The reclassification of a General Service Post from G-4 to G-5 is requested to reflect the growing level of responsibilities that the incumbent began performing in 1979 as an administrative and fund-raising reports and tabulation assistant after UNFPA became a formal participant in the Pledging Conference for Operational Activities

#### B. Programme II. Administration and public information support services

29. The Administration and Public Information Support Services Programme is carried out by two functional divisions: The Administration and Finance Division and the Information and Public Affairs Division. Table I-5 provides a summary of total estimated direct costs for 1981, as compared with the 1980 appropriations and the 1979 expenditures.

#### TABLE I-5

#### 1. Administration and Finance Division

30. The Administration and Finance Division comprises the Personnel Section, the Budget and Management Analysis Section, the Finance and Accounts Section, the Library Unit, and the Administrative Services Unit. Table I-6 shows the 1981 estimated direct costs, as compared with the 1980 appropriations and the 1979 expenditures.

31. The Administration and Finance Division, under the supervision of a Division Chief, furnishes budgetary, financial, personnel, management analysis, library, and administrative support services. It is the principal liaison point on these

matters with UNDP and other Organizations of the United Nations system. The Division is responsible for the co-ordination and preparation of organizational, administrative, and financial policies and procedures; the drafting of financial and administrative documents for external bodies; the approval and certification of administrative, financial, and personnel actions; the operation of the UNFPA financial system; the direction of UNFPA treasury operations; the analysis and refinement of the computerized UNFPA management information system (UNFPA/MIS); and the provision of library and administrative services.

32. The major functions of the organizational units of the Administration and Finance Division are as follows:

(a) The Personnel Section carries out personnel functions with regard to UNFPA headquarters staff and field co-ordinators such as recruitment, transfer, assignment and promotion, separation, career development and training; handles all administrative and financial matters concerning recruitment and fielding of consultants; advises on current personnel matters and provides staff counselling; and co-operates with other divisions of UNFPA on personnel matters.

(b) The Budget and Management Analysis Section undertakes administrative management analysis and develops UNFPA financial policies and procedures; prepares the administrative budget and monitors and certifies expenditures, including travel authorization; reviews and prepares periodic reports on the status of funds in the administrative budget; reviews programme budgets in terms of adherence to the financial rules and regulations and establishes and maintains financial and accounting policies and procedures. (c) The Finance and Accounts Section prepares and interprets financial statements, schedules and reports; administers the computerized UNFPA/MIS and furnishes data on the status of funds in project budgets; examines and certifies field offices' accounts for directly executed UNFPA projects and monitors project expenditures; oversees the maintenance of the UNFPA accounts and the preparation of the UNFPA annual accounts by the UNDP Accounts Section and their audit by the United Nations external auditors; and oversees all UNFPA treasury operations performed by the United Nations Treasurer.

(d) The Administrative Services Unit handles and co-ordinates with other United Nations sections messenger services, internal moves, telephone changes, maintenance repairs, etc.; processes, in co-operation with other United Nations services, requests for purchases of office equipment, supplies and vehicles for UNFPA Co-ordinators and other direct procurement; reproduces and distributes UNDP and UNFPA circulars and documents; and operates the registry at headquarters.

(e) The Library Unit administers the UNFPA collection of population books and periodicals; provides all library services to UNFPA headquarters staff, field co-ordinators and other users; and maintains contact with key population libraries to retrieve and interchange information on population matters.

33. Adjustments reflected in the 1981 staffing proposals in the Administration and Finance Division are shown in table I-7, and the distribution of posts by sections in table I-8. The staffing proposals for 1981 include new posts for two professionals at the P-1/P-2 and P-3 levels, one General Service post at the Principal level (G-5) and five General Service staff at other levels. Justification for these requests are as follows:

(a) An Administrative Officer (at the P-3 level) and an Assistant Administrative/ Finance Officer (at the P-1/P-2 level) are needed to handle all the general administrative and financial matters in connexion with the development, implementation and monitoring of accounting and information systems for projects and programmes funded by UNFFA and co-ordinate this exercise with similar systems in UNDP and the Executing Agencies of UNFPA-funded projects.

(b) A Principal Accounts Clerk (at the G-5 level) is needed to carry out the examination of accounts for directly executed projects (now about 30 per cent of all UNFPA projects); maintain the increasing level of programme budget and finance records; and assist in the preparation of financial schedules for internal use.

(c) Four administrative and finance clerks (at the G-2/G-4 level) are required: (i) to assist in the administration of the computerized UNFPA financial information system and record and maintain project budgets issued to Executing Agencies, UNDP field offices and non-governmental organizations; (ii) to process and co-ordinate procurement and travel services with other United Nations divisions; (iii) to operate a telex service at UNFPA headquarters and assist in other internal administrative services; and (iv) to process payment vouchers for programme consultants and other obligations for goods and services in support of UNFPA-funded projects.

(d) A messenger (at the G-2 level) is required to provide messenger services to the United Nations and UNDP headquarters.

(e) Reclassifications are requested from P-2 to P-3 for a Finance Officer and from G-4 to G-5 for a Finance Assistant to reflect the level of responsibilities and increasing workload in the administration of the computerized UNFPA financial system and the issuing of project budgets by UNFPA headquarters; and for a Senior Accounts Clerk from G-4 to G-5 to reflect the level of responsibilities in the administration of the Payments Unit, entailing the preparation and processing of all headquarters payments for goods and services against the accounts of the administrative budget and of all projects executed by the Fund.

### 2. Information and Public Affairs Division

34. The Information and Public Affairs Division consists of the Editorial, Publications and Media Relations Section, and the Public Affairs Section. Table I-10 shows the 1981 estimated direct costs as compared with the 1980 appropriations and the 1979 expenditures.

#### TABLE I-10

<u>Estimated direct costs</u> Information and Public Affairs Division

35. The Information and Public Affairs Division, under the supervision of the Division Chief, is responsible for the production and distribution of UNFPA publications; liaison with newspapers, press agencies, radio and television; liaison and programme development in the field of information and population awareness with non-governmental organizations and private groups; and implementation of special projects initiated by it or assigned to it.

36. The functions of each of the units are:

(a) The Editorial, Publications and Media Relations Section prepares and edits UNFPA publications including news bulletins intended for general distribution; co-ordinates technical arrangements regarding the production and distribution of other UNFPA documents and publications; produces, edits and distributes special publications, radio and television programmes and other audio-visual material; promotes liaison and programme development with media organizations as well as research organizations on preparation of publications and information material on population themes; provides liaison with newspapers, press agencies and other media outlets; and plans and prepares all information and public information activities including briefings for press, visiting groups and individuals.

(b) The Public Affairs Section maintains and promotes liaison with non-governmental organizations and private groups which are of interest and concern to UNFPA; assists in the planning of special conferences and meetings sponsored or supported by UNFPA; co-ordinates UNFPA input into special conferences and meetings sponsored or supported by UNFPA; and assists in programme promotion and development in the non-governmental sector in the field of information and public awareness.

37. The workload of the Information and Public Affairs Division includes the following:

(a) The Division prepares and distributes a large number of publications and audio-visual aids as shown in table I-II. The table also shows the expected number of publications to be distributed in 1981 - a growth rate of at least 20 per cent compared to the previous year;

(b) In addition to publications, the Division handles media and non-governmental organization projects with an annual budget close to \$1.8 million allocated to about thirty organizations. In 1981, it is expected that allocations to media and non-governmental organization projects will reach \$2.5 million.

38. The Executive Director's staffing proposals for the Information and Public Affairs Division for 1981 are shown in Table I-7, and include a request for the post of a Distribution Clerk at the G-4 level to assist with (a) the processing of enquiries and requests for UNFPA publications; (b) the maintenance of the UNFPA mailing list in four official languages (English, French, Spanish and Arabic); and (c) the co-ordination of distribution arrangements for UNFPA publications and audio-visual aids. In addition, a reclassification of a General Service post from G-4 to G-5 for an Editorial Assistant is requested in recognition of the experience of the incumbent in performing this function.

#### 1. Programme Division

40. The Programme Division consists of seven organizational units. The Technical Review and Interregional Projects Office, the Plans and Operations Office, the Africa Branch, the Asia and Pacific Branch, the Latin America and Caribbean Branch, the Mediterranean and Middle East Branch and the Europe Branch. The Division is headed by the Assistant Executive Director. Table I-13 shows the 1981 estimated direct costs, as compared with the 1980 appropriations and 1979 expenditures.

41. The Programme Division is responsible for programme planning, developing new programmes and projects for UNFPA funding, assisting Governments upon request in programme and project preparation, appraising and making funding recommendations on all incoming requests for financial assistance, monitoring the implementation of all approved projects and developing policies and guidelines in technical areas.

42. The functions of each of the branches in the Programme Division are as follows:

(a) The Technical Review and Interregional Projects Office analyzes country, regional, interregional and global programmes and projects from a technical point of view; processes all new interregional and global projects submissions; undertakes analyses of reports on planning, programming, monitoring and evaluation of projects and programmes; participates in UNFPA missions and develops recommendations for technical activities on a country, regional or interregional basis; and studies and develops programme operational policies related to technical areas of UNFPA work and prepares occasional review papers with programme implications;

(b) The Plans and Operations Office collects and synthesizes information on country and regional programmes; co-ordinates the selection, placement and career development of the UNFPA co-ordinators; advises on project budgetary and procurement practices; develops recommendations on programme operational policies; participates in and/or co-ordinates negotiations leading to multi-bilateral funding arrangements; and prepares the UNFPA work plan for submission to the Governing Council.

(c) The geographical branches of the Division have responsibility for all planning and programming of country and regional activities; supervise the implementation and reporting for all country and regional programmes and projects; participate in and/or co-ordinate planning, programme development and monitoring missions; maintain contacts with UNFPA field co-ordinators, UNDP Resident Representatives, Government officials, international agencies and non-governmental organizations on programme matters; process new project requests and reprogramme ongoing projects; analyze the technical, management and cost elements of project

proposals; negotiate and review plans of operation, before final project approval and allocations are made; and prepare project documentation for submission to the UNDP Governing Council.

43. Adjustments reflected in the 1981 staffing proposals in the Programme Division are shown in Table I-14, the distribution of posts by offices/branches is provided in Table I-15 and annual estimates of quantitative workload are shown in Table I-16. The Executive Director's staffing proposals for the Programme Division for 1981 include additional posts for four Professional staff, one at P-4 level and three at the P-1/P-2 level; five General Service staff at levels G-2/G-4; and reclassifications of eleven Professional posts, one from D-2 to ASG level, two posts from P-5 to D-1 level, four from P-4 to P-5 level, three posts from P-3 to P-4 level and one from P-2 to P-3 level. Justification for the reclassification of the Director level post (D-2) to Assistant Secretary-General level is presented in the introductory part of this document. Justifications for new posts and reclassifications of professionals in this Division are as follows:

(a) The Office of Plans and Operations requires an additional Planning and Operations Officer to participate in the preparation of the four-year programme of the Fund and the UNFPA Work Plan for submission to the Governing Council, as well as to co-ordinate negotiations leading to multi-bilateral funding arrangements.

(b) Three Professional posts at the P-1/P-2 level are requested for Programme Officers to strengthen the geographical branches of the Division in the Africa, Asia and Middle East branches. The new officers will enable the geographical branches of the Division to cope with the increasing workload and responsibility for planning and programming of country and regional activities, for following and reporting on country and regional projects and for processing of new project requests and reprogramming of ongoing ones.

(c) Five Programme Clerks at the G-2/G-4 level are requested to strengthen the clerical support for the programme monitoring activities of the Division in the geographical branches. The Programme Clerks will help to maintain programme records and assist the professionals of the Division on programme related activities and in the preparation of internal documentation for project assessment.

(d) The Executive Director requests the reclassification from P-5 to D-1 level of the Chiefs of the Africa and Mediterranean and Middle East Branches, in line with the plan proposed to the Council at its twenty-sixth session to reclassify all the geographical Branch Chiefs to D-1 level, as the programmes handled by these branches grow in size and complexity. The programme and management responsiblities of these two major branches of the Programme Division fully warrant this request. Branch Chiefs are responsible for the development and implementation of programme planning activities, the programming and monitoring elements of a large number of projects and programmes at the country and regional levels, as well as the supervision of a large professional and clerical staff.

(e) The reclassification of a Technical Officer from P-4 to P-5 is requested for a specialist in population education and communication in recognition of the enlarged responsibilities and workload of the incumbent in this field. The increasing programme size and complexity in the field of population education and communications fully warrant this request.

(f) The reclassification of eight Programme Officers posts, three posts from P-4 to P-5 for Senior Programme Officers, and four posts from P-3 to P-4 for experienced officers in the geographical branches and in the Office of the Chief of Programme Division and one post from P-2 to P-3 for an officer in the Latin America Branch in recognition of the increased responsibilities and experience in technical and administrative project matters in rapidly growing population programmes.

### 2. Office of Policy Analysis and Statistics

44. The Office of Policy Analysis and Statistics is concerned with major population issues connected with the over-all, long-term policies of the Fund. It is responsible for the collection and analysis of relevant data on population assistance; collaboration with other institutions and organizations in studies and research on topics of concern to the Fund; analysis of the proceedings and resolutions of various international organizations for their implications to UNFPA; preparation of substantive reports; and technical advice to the Executive Director. The Chief of the Office supervises two sections, the Policy Analysis Section and the Statistical Section. Table I-17 provides the 1981 estimated direct costs, as compared with the 1980 appropriations and the 1979 expenditures. Table I-14 shows the staffing proposals for 1981.

45. The functions of the sections within the Office of Policy Analysis and Statistics are as follows:

(a) The Policy Analysis Section identifies major policy issues relevant to the work of UNFPA and develops alternatives; collects and analyzes relevant data and interprets research findings on population that are related to policy formulation and implementation of population programmes; initiates the preparation of substantive reports and sector papers highlighting developments in the areas of population assistance covered by UNFPA; collaborates with universities and other academic institutions in initiating or undertaking special studies for the Fund; maintains liaison with appropriate divisions of other United Nations, international and non-governmental organizations on policy analysis and statistical matters of interest to UNFPA; and convenes and participates in policy analysis and statistical seminars relevant to the work of the Fund, and disseminates the findings.

(b) The Statistical Section prepares a glossary of UNFPA population programmes; maintains and disseminates fact sheets on all relevant aspects of UNFPA activities; develops special tabulations and analyses of UNFPA programme data; collects and analyzes statistical reports on population assistance provided by multilateral, bilateral and non-governmental organizations; collects and analyzes data on national inputs into population programmes; and maintains demographic and socio-economic data for regions and countries.

#### Estimated direct costs Office of Policy Analysis and Statistics

46. Adjustments reflected in the 1981 staffing proposals in the Office of Policy Analysis and Statistics include a new professional post at the P-1/P-2 level for an Assistant Policy Research Officer. The professional officer will be responsible for the preparation of reports on population issues, in relation to development efforts as perceived by Governments, and on the formulation and implementation of population policies. The officer will also assist in the preparation of data sheets and summary information for the publication of policy compendia for all countries. An additional G-2/G-4 clerk/typist is also included to assist the professionals in this office.

47. Table I-18 shows highlights of the work programme of the Policy Analysis and Statistics Office for the period 1980-1981. The Office will conduct a series of policy guidelines studies, consisting of a review of the literature and of currently available methods, the development of case studies and the convening of ad hoc technical meetings. The findings of the studies will be used to develop policy guidelines for UNFPA assistance.

#### 3. Office of Evaluation

48. The Office of Evaluation is concerned with the substantive evaluation of programmes and projects funded by UNFPA, so as to determine the extent to which UNFPA programmes are meeting their goals, and thus improving the quality of UNFPA programmes and projects. Table I-19 provides the 1981 estimated direct costs, as compared with the 1980 appropriations and the 1979 expenditures. Table I-14 shows the staffing proposals for 1981.

49. The Office of Evaluation, under the supervision of its Chief, undertakes external and internal evaluation as objective and independent in-depth analyses of UNFPA-funded programmes and projects or of specific problem areas within them; acts as the secretariat for missions for external evaluations and disseminates the evaluation reports; analyzes and makes recommendations on evalution reports to the Policy and Programme Committee; participates in the decision-making process on requests for UNFPA funding, based on the experience gained through evaluations; is responsible for substantive and procedural aspects of UNFPA evaluation systems; and co-operates on matters of evaluation with countries and organizations.

50. Table I-20 provides estimated annual workload indicators of the Office of Evaluation. It should be noted that the duration of individual evaluations varies considerably: while the evaluation of a country project may in average require four to five months, the evaluation of a large-scale country programme, or of an intercountry programme may last between one and two years. An evaluation is completed only when its government and organizations concerned have taken a position on its recommendations, and when the Executive Director has made a relevant decision. Thus, the conducting of an evalution and the finalization of the report do not normally take place in the same calendar year, and evaluation work does not render itself easily to reporting on a yearly basis. Large-scale evaluations require about eight man/months work of any evaluation officer. Since individual evaluations, however, last considerably longer, an evaluation officer normally has two, sometimes three concurrent assignments. The amount of time required annually in order to implement general recommendations of UNFPA evaluations into UNFPA's programming work cannot be quantified.

| Table I-19   |                                      |  |                                      |  |  |  |  |  |  |  |  |

#### II. UNFPA FIELD CO-ORDINATOR AND LIAISON OFFICER BUDGETS

51. The field co-ordinator posts are not part of a permanent field establishment. They are transferred from country to country as the needs of different country programmes dictate. As approved by the Governing Council at its sixteenth session, the budgets of the UNFPA field co-ordinators are included in the UNFPA administrative and programme support budget document for information purposes only. The field co-ordinators are financed from project funds because they are directly related to projects, and therefore their costs are not included in the administrative budget appropriation requested in other parts of this document. At the twenty-sixth session, the Council reaffirmed that UNFPA should continue this practice.

#### A. Programme objectives

52. UNFPA field co-ordinators are assigned to countries where a number of population projects are under way or contemplated. As a rule, UNFPA tries to place a co-ordinator in every country in which it has, or plans to have a country programme calling for assistance over a number of years. In areas where UNFPA has fewer projects, or where projects are in the formulation stage, co-ordinators are assigned responsibility for representing UNFPA in several countries. Field co-ordinator functions include: furnishing assistance to Governments in project development and design; participating in inter-agency programming and monitoring during the course of implementation; assisting the UNDP Resident Representative on projects executed under direct financing arrangements with national Executing Agencies; and acting as senior adviser to UNDP Resident Representatives on population matters.

53. The field co-ordinators are assigned to the staff of the UNDP Resident Representative, who provides whatever administrative assistance is necessary, such as office space, office supplies and services. A field co-ordinator project budget is prepared by the Resident Representative each year and submitted to UNFPA headquarters for approval. It includes funds for salaries and wages for the field co-ordinator and administrative support personnel, travel and transportation, and equipment and miscellaneous supplies, and services. New field co-ordinators are appointed as employees of the United Nations Development Programme under the 200 series of the United Nations Staff Regulations and Rules.

54. In 1979 UNFPA established liaison officer posts for regional programmes in four regions: Africa, Asia, Latin America and the Middle East and Mediterranean. Regional liaison officer functions include: explaining UNFPA policies and mandates on regional activities to Governments; assisting organizations of the United Nations system and non-governmental organizations in the technical formulation of regional projects; assisting and advising UNFPA Headquarters in the appraisal of regional projects; assisting in the monitoring of regional projects and co-ordinating UNFPA-sponsored meetings to review the regional programme; and maintaining relations with bilateral and other donors to regional population programmes. In 1980 UNFPA liaison officers were posted in Bangkok, Santiago, and Nairobi, and the post in

/...

Beirut was discontinued.

55. Field co-ordinator and liaison officer budgets are financed from project funds, rather than from appropriations in the administrative budget. However, their costs are maintained within the ceiling of 8.9 per cent of the approval authority for the year, established by the Executive Director for the administrative and programme support budget at headquarters and for field co-ordinator and liaison officer budgets in the field. All budgetary information necessary for review of these expenditures is made available in this document.

#### B. Details of expenditure estimates

56. Table II-1 shows a summary of 1981 expenditure estimates of the UNFPA field staff as compared to the 1980 budgets. The number of field co-ordinator and liaison officer posts established for 1980 are 40 and will increase to 42 in 1981. Changes reported in this document include: (i) two new field co-ordinator posts to be established in Mozambique and Papua New Guinea in 1981; (ii) the liaison officer post for regional programmes for the Middle East and Mediterranean region has been discontinued and a new field co-ordinator's office will be opened in the Sudan; (iii) the field co-ordinator in Honduras, included in the 1980 budget estimates, has been replaced by a national programme officer; and (iv) in 1980 a new field co-ordinator's office has been established in China. The total projected expenditures for 1981 for the field co-ordinator and liaison officer posts amount to \$5.5 million, as compared to the 1980 budgets of \$4.8 million, an increase of 15.6 per cent from the previous level, reflecting increases in the number of field posts at the international and national levels and inflationary increases in local salary scales, cost of travel and transportation, office equipment and other operating services (rental of premises, utilities, communications).

#### C. Staffing table

57. Table II-2 and II-3 show the UNFPA field staff in the Professional categories by post level and countries. The UNFPA field staffing table contemplates 39 field co-ordinator posts and 3 regional liaison officer posts in 1981. Geographically, the field co-ordinator posts are distributed as follows: 11 co-ordinators in Africa, 15 in Asia and the Pacific, 6 in Latin America and the Caribbean and 7 in the Middle East and Mediterranean.

|                            | Project personnel<br>co-ordinator |        |        | and programme<br>pport staff Travel |        | Equipment |        | Other<br>Service costs |        | Total  |         | Per cent<br>increase |           |
