### Which DW Hardware series is right for you?

DW has several series to offer! From heavy-duty steel construction to standard medium weight hardware. Visit [dwdrums.com](http://dwdrums.com) for info.

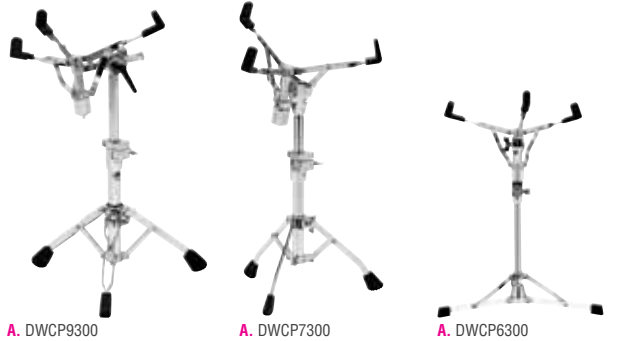

**9000 SERIES** – The industry-standard, industry-leading line - our most popular hardware. Heavy-duty steel constructions means it's built to withstand the punishment of long tours, but it's long list of patented, innovative features is what keeps drummers coming back. Plus, with optional factory accessories, 9000 Series hardware can be customized just the way you like.

**7000 SERIES** – Made especially for the working drummer; perfect for the weekend trap case. Includes all the features you'd expect from DW, but without the added weight. Lighter-gauge tubing and single-braced tripod legs are easier to carry, but without sacrificing sturdiness or strength.

**6000 SERIES** – Sleek, retro styling and modern features - the perfect compliment to any Jazz, Classics or even rock set-up. A versatile aluminum flushed-base design can be locked flat or raised for easier placement around the kit. Some of today's most notable players swear by 6000 hardware because it's lightweight, yet tough enough for touring.

**5000 SERIES** – A line of no-frills heavy-duty hardware created for every drummer, 5000 Series hardware simply gets the job done in the studio or on stage. Features like integrated memory locks, double-braced tripods and fine-toothed cymbal tilters make them sturdy and drummer-friendly.

**3000 SERIES** - A range of standard, medium weight hardware to suit varying musical styles. Light enough for the working drummer, but heavy-duty enough for heavy-hitters. DW quality and dependability at a price most drummers can afford.

## Which DW Pedal series is right for you?

Visit [dwdrums.com](http://dwdrums.com) for info.

**9000 SERIES PEDALS** – These industry standard pedals are also the most popular choice for the world’s top professionals for a reason: floating rotor technology makes them quick and responsive, while the adjustable cam makes them versatile enough for any musical environment. A groundbreaking design and DW quality has helped to make 9000 pedals our most sought after pedals today. Plus, with optional factory accessories, 9000 Series pedals can be customized just the way you like them.

**5000 SERIES PEDALS** – No-frills, heavy-duty pedals that get the job done in the studio or on stage. Our original pedal evolved into this, one of the most played pedals ever. An aluminum hex shaft with dual-chain sprocket offers that unmistakable 5000 feel and all-metal construction means that 5000 pedals can last a lifetime.

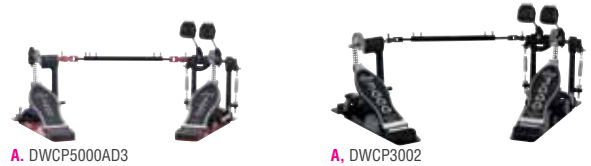

**3000 SERIES PEDALS** – For every drummer. Features like dual-chain turbo drive, bearing rocker assembly, 101 2-way beater and heavy-duty all metal construction, with a price tag that’s in reach for more drummers. We think well made pedals shouldn’t be just for the pros, but for all drummers.

**2000 SERIES PEDALS** – Entry level line of pedals, designed for students, weekend warriors, and working drummers. Trademark DW all-metal construction and playability make the 2000 Series the perfect choice for bargain savvy drummers who want the features of a tried and true USA engineered pedal.

**MODERN CUT**

High-Decibel design cuts through the loudest music. The sheer attack of APX cuts through any music. Super-bright, tonally tight, focused and aggressive beyond belief, these cymbals rip through rock-heavy grooves and blistering power chords like a laser through darkness. With APX, nothing gets in your way.

## Holy China

Developed with Red Hot Chili Peppers drummer Chad Smith. With SABIAN innovation and forward-thinking cymbal design, this is truly a modern Chinese cymbal. With its 48 holes, large raw bell, high profile and wide lip, this is truly a monster of loudness and cut! Smaller holes create a smooth attack minus the lows and distortion of larger O-Zone holes. Crafted from pure SABIAN B20 Cast Bronze

**TOM DRUMSET DRUMHEADS**

**A. EC2 SST Tom Batter**

The EC2 features a Sound Shaping Technology ring mounted underneath two plies of 7-mil film. By controlling edge vibration (instead of eliminating it), the ring isolates and damps higher overtones, enhancing low-end and attack, and enabling a broader tuning range. The coated version delivers additional warmth, focus, and depth, plus a unique translucent appearance.

**E. Hydraulic Tom Batter**

Hydraulics feature two plies that sandwich a thin layer of oil and give the fat, deep, and short sound pioneered by early 70's rock and roll. The oil decreases sustain and enhances attack and low-end. Additionally, Hydraulics are famously easy to tune, making them a perfect fix for troublesome drums and younger players looking for instant sound.

## BASS DRUMSET DRUMHEADS

TOP 10

### A. EMAD Batter Clear Bass

An ideal balance of punch, power, and low-end... the EMAD is a 10-mil 1-ply head that employs an externally mounted adjustable damping system with two interchangeable damping rings that allow the player to adjust attack and focus. On an empty drum and tuned high, the EMAD delivers a centered pitch that reinforces the bass line.

MODEL	DESCRIPTION	LIST
BD18EMAD	18" EMAD Clear	\$77.00
BD20EMAD	20" EMAD Clear	\$80.00
BD22EMAD	22" EMAD Clear	\$84.00

BD22EMADCW	22" EMAD Coated White	\$84.00

### B. EMAD2 Batter Clear Bass

With a sharp attack and a focused and pronounced low-end, the EMAD2 is a 2-ply version of the popular original. The combination of a 7 mil outer ply and 10 mil inner ply offer extreme durability, while the two interchangeable damping rings allow the player to adjust sustain and feel. Together, they offer control, low-end, and articulation.

MODEL	DESCRIPTION	LIST
BD18EMAD2	18" EMAD2 Batter Clear	\$77.00
BD20EMAD2	20" EMAD2 Batter Clear	\$80.00
BD22EMAD2	22" EMAD2 Batter Clear	\$84.00
BD24EMAD2	24" EMAD2 Batter Clear	\$88.00

### C. EQ4 Batter Clear Bass

Warm with a pronounced low-end, the 10-mil 1-ply EQ4 provides durability and punch across a wide tuning and dynamic range. The width of the internal control ring varies in proportion to head diameter, allowing smaller drums to resonate when tuned high. The coated version delivers additional warmth, focus, and depth.

MODEL	DESCRIPTION	LIST
BD20GB4	20" EQ4 Clear	\$63.00
BD22GB4	22" EQ4 Clear	\$68.00
BD22GB4C	22" EQ4 Coated	\$68.00

### D. EQ3 Batter Bass

Controlled low-end rumble and a focused attack characterize the EQ3 bass head. Two plies of 6.5-mil film with an internal overtone control ring and a removable EQ muffle ring give the head versatility. Tuned high, it will provide ample resonance, but with increased control, articulation, and pitch focus. The coated version delivers additional warmth, focus, and depth.

MODEL	DESCRIPTION	LIST

### E. EQ2 Batter Clear Bass

With extra slap and ample boom, the extra-durable EQ2 is a 2-ply head with a 6.5-mil outer ply and a 10 mil inner ply, an internal overtone control ring, a removable EQ muffle ring, and dry-vents. Its thick sound will punctuate the heaviest Samba and anchor the biggest big band.

MODEL	DESCRIPTION	LIST
BD20GB2	20" EQ2 Clear	\$82.00
BD22GB2	22" EQ2 Clear	\$89.00

### F. EQ1 Batter Clear Bass

Warm and round with a full sustain, the 10-mil 1-ply EQ1 utilizes an internal removable EQ muffle ring, a fixed internal overtone control ring, and dry vents to provide a pre-EQ'd sound. When tuned high, it produced a controlled but ambient sound that's ideal for jazz but without the papery sound typical of a plain 1-ply. The coated version delivers additional warmth, focus, and depth.

MODEL	DESCRIPTION	LIST
BD20GB1	20" EQ1 Clear	\$82.00
BD22GB1	22" EQ1 Clear	\$89.00

### G. Hydraulic Batter Bass

A classic sound, short in sustain. Tension it tight for a real thump or loose and slappy. Two plies sandwich a thin film of oil that suppresses unwanted overtones.

MODEL	DESCRIPTION	LIST

## SPECIALTY DRUMSTICKS

## B. Broom Sticks

Made from actual broomcorn, the Broomsticks produce a sound that is between brushes and Hot Rods. You'll get more volume than with brushes, but less "attack" than with Rods. The rubber bands are adjustable for different sounds.

MODEL	LIST
PMBRM	\$32.95

## C. Multi-Percussion

Wood tip / felt butt. This 5A diameter stick has a 1" hard felt ball on the butt end. For a variety of applications when you need to switch sounds quickly.

MODEL	DESCRIPTION	LIST
TXSD5	M, 16-1/4" x .551"	\$33.95

## D. GNT Giant Sticks

These "Giant Sticks" are 36" long and 1" in diameter. Pull these babies out for a ballad and watch the reaction!

MODEL	DESCRIPTION	LIST
GNT	36" x 1"	\$54.95

## E. Rods

### Cool Rods

For a more delicate sound. Great for small rooms and quiet "unplugged" gigs.

MODEL	LIST
C-RODS	\$25.95

### Hot Rods

When sticks are too loud and brushes are too soft Hot Rods are the perfect balance.

MODEL	LIST
H-RODS	\$25.95

### Lightning Rods

For more "attack" and a bright cymbal sound.

MODEL	LIST
L-RODS	\$25.95

### Thunder Rods

The ultimate in strength and durability. Thunder Rods provide that patented "rods" sound. Perfect for the heaviest hitters on the planet.

MODEL	LIST
T-RODS	\$25.95

### Viper Rods

With a small diameter, solid maple shaft and bamboo bristles with a plastic core, the Viper Rods are perfect for quieter gigs where subtly is essential. The Viper Rods are the revolutionary line of Rods.

MODEL	LIST
V-RODS	\$38.95

### Rocket Rods

The Rocket Rods are constructed with bamboo dowels surrounding a foam core. They feature solid maple handles and a movable "O" ring. The result is a unique feel, excellent rebound and added durability.

MODEL	LIST
R-RODS	\$34.95

### Stealth Rods

The Stealth Rods are made with nylon bristles and feature solid maple handles and a movable "O" ring. These nylon bristles produce a sound that is somewhat softer than our traditional Hot Rods.

MODEL	LIST
S-RODS	\$36.95

## F. Practice Sticks

The X-Beat practice sticks are a pad and stick combined into one! You can practice on any hard surface or use on your drumset or marching drums to get a unique muted sound.

MODEL	DESCRIPTION	LIST

## DRUMSET DRUMSTICKS

### A. American Classics® Hickory

The American Classic® line combines tradition and Vic Firth style. With bold designs for fuller sound, the Classics are turned from select hickory – a dense wood with little flex for a more pronounced sound. Hickory is also capable of withstanding a great deal of shock, making it highly durable.

#### Kids Sticks

Engineered for the very young drum set player – ages 3 to 8.

A. Signature Sticks

The designs reflect the artist's musical requirements in terms of balance, feel, sound projection and cymbal color. All colored sticks feature a clear, natural tip. Listed alphabetically by last name.

Ask your sales representative about our imprinting program!

Table with 3 columns: MODEL, DESCRIPTION, LIST. Lists various signature stick models like SCA, PP, SGB, SCB, STB1, SMC, etc.

B. Signature Sticks 12 Pack

Contains 2 pairs each of the new signature series sticks from Blackman, Spears, Igoe, Ramone, Schneider, and Questlove.

Table with 2 columns: MODEL, LIST. Shows PNEWSIGS for \$200.00.

C. American Sound® Hickory

The new American Sound® drumsticks are a take off on our most popular hickory American Classic® models, featuring the shaft and neck specifications of the 7A, 8D, and 5A, 5B, 2B and ROCK, but with a full round tip. This tip change creates a completely different sound for each model, bringing increased focus and clarity to the drums and cymbals.

Table with 3 columns: MODEL, DESCRIPTION, LIST. Lists models AS7A, AS8D, ASSA, ASSB.

D. American Jazz® Hickory

Developed for for ultimate rebound on the drum and ride cymbal, the line is comprised of six models which feature a long taper in the shaft for that great feel! The neck specifications are sizeable enough to create dark cymbal sounds, and the small tear drop tip keeps everything in focus.

Table with 3 columns: MODEL, DESCRIPTION, LIST. Lists models AJ1 through AJ6.

E. American Custom® Maple

Select rock maple for a light, fast-playing stick with great flex and rebound. Perfect for playing lighter types of music, or for a beefier stick without a lot of weight.

Table with 3 columns: MODEL, DESCRIPTION, LIST. Lists models SD1 through SD12 and SD2N, SD4N.

F. American Heritage® Maple

American Heritage® drumsticks feature the dimensional specifications of our most popular American Classic® models, but are crafted in maple rather than hickory for greater rebound and flex. This series allows drummers to have the feel of their favorite American Classic model but with a lighter and more "airy" sound - especially on cymbals.

Table with 3 columns: MODEL, DESCRIPTION, LIST. Shows AH5A for \$14.50.

### A. Drumsticks - Hickory

Nylon tip sticks from Regal Tip are iconic. They were invented and perfected by the Calato family nearly 50 years ago. Made in the USA from American Hickory, these sticks are where it all began! Play a nylon tipped stick from Regal Tip and never look back.

Play harder and longer with Regal Tip's Wide Series Nylon Tip drumsticks. Available in 5A, 5B, 7A, and Jazz models, the wider taper allows players to play their style, and have a durable stick for other venues. A wider stick, a Regal Tip nylon tip, and our famous finish ---What else could a drummer want?

### B. Blasticks

Blasticks come with either thermoplastic dowels or wooden handles. They are softer than sticks, harder than brushes. They play like sticks but produce a soft and full sound. They are great for gigs when you want to play hard but not blow through the band. Adjustable "sound rings" allow you to slide the rings up and down the plastic bristles to produce different sound punctuations depending on your playing situations.

### A. American Hickory Drumsticks

Hickory is the most popular wood used for making drumsticks. Hickory is denser, heavier and more rigid than Maple. Hickory can also absorb a great amount of shock, which reduces hand and wrist fatigue. Dark, or “brown” hickory, is found closer to the tree’s center and is slightly denser and heavier than “white” hickory. Wood Tip.

These musical tubes are ideal for solo fun, family time, or classroom use. Virtually no learning curve. Teaches the three primary musical elements: rhythm; melody; and harmony. Packaged in a mesh bag with header card and instructional insert. The standard octave tubes range in length from 12" to 24". The bass octave models extend in length up to 4 ft.

**A. Chromatics Set**

Our lowest priced set consists of the five sharps/flats for our standard octave. It forms a different pentatonic scale which has its own pleasing sound and combines with our Diatonic Scale to create a full chromatic octave of 12 notes.

MODEL	LIST
<b>BWCG</b>	\$16.98

**B. C Major Pentatonic Scale**

Consists of 6 notes: C-D-E-G-A-C. This set is great for people less familiar with music, as all the notes sound good together.

MODEL	LIST
<b>BWPG</b>	\$19.98

**C. C Major Diatonic Scale**

Consists of 8 notes: C-D-E-F-G-A-B-C. The diatonic scale allows more songs to be played and is preferred over the pentatonic scale by most music educators and people more familiar with music.

MODEL	LIST
<b>BWDG</b>	\$24.98

**D. Bass Chromatics Set**

Consists of the 5 sharps/flats for our bass octave. This set combines with the Bass Diatonic Scale to yield a lower chromatic scale, or combines nicely with the Chromatics Set for an extended range of notes.

MODEL	LIST
<b>BWKG</b>	\$32.98
