What is Top Config?

HP's Top Config is an online build-to-customer-order program which simplifies the configuration, quote and order processes, delivering exactly the PC the customer wants at a competitive price in a reduced time.

HP's channel partners benefit from suitable availability without requiring specific in-house resources and, at the same time, achieve a better margin. The program is expanding to include corporate notebooks and industry standard servers throughout FY05.

1) Through Top Config, HP's objective is to achieve direct-like agility and operational efficiency with the reach, convenience, services and personalization of the channel.

2) HP's Top Config program means customers get products configured to match their needs with the serviceability and reliability associated with using their trusted HP partners ? at a highly competitive price and with fast turnaround time.

3) Top Config is one of our key channel go-to-market drivers.

Whilst it boasts direct-like agility, all orders are through our channel partners. Top Config is a key differentiator HP and our partners can bring to customers.

Value for Customer

? Configuration I want
