ACKNOWLEDGEMENTS

The Studbook Keeper wishes to thank all the people and organisations that have assisted with the Studbook compilation.

Dr. Laurie Marker and Bonnie Schumann compiled and analysed the data with the assistance of Earthwatch and other volunteers. The Studbook Keeper also wishes to thank Laurie Bingaman-Lackey for her assistance in data clean-up and connecting previously unknown ISIS links with the Cheetah Studbook data.

The following organisations have supported the publication of the International Cheetah Studbook and are greatly appreciated: The Cheetah Conservation Fund in Namibia, Africa, CCF/UK, CCF USA, and NOAHS Center at the National Zoo in Washington, D.C.

Last, but not least, thanks to the facilities that contributed information on their cheetahs for the 2002 studbook, your continuing co-operation is greatly appreciated.

SECTION A

Introduction

INTRODUCTION

The 2002 International Cheetah Studbook is the twelfth edition of the world registry for captive cheetah. This edition of the International Cheetah Studbook combines all information available for the period 1 January, 2002 to 31 December, 2002.

The captive population on 31 December 2002 was 1 340 (695.644.1) animals in 241 facilities in 51 countries. The captive population of cheetahs live in eight geographical regions. Figure 1 shows the percentage of cheetah living in these regions as of the end of 2002. Table 1 is a breakdown of the eight regions by country and includes the number of facilities and the number of cheetah in each country for 2002. In addition 43 cheetahs are found in unknown locations (primarily sales to game dealers where the final destination was not submitted to the studbook keeper).

This edition of the Studbook includes the major changes in the captive population from 1 January, 2002 through 31 December, 2002 (Section B). Section C is a summary of the captive population of cheetah, by studbook number, at individual facilities as of 31 December 2002.

Also included in this edition are all additions (Section D), 2002 births (Section E), 2002 deaths (Section F) and 2002 transfers (Section G). Under Section F is an additional subsection titled “Assumed dead in 2002”. These animals have not been reported dead, but have been removed by the studbook keeper as it is assumed they are dead. Unfortunately the studbook keeper has no recent information on them. Section H is a Studbook listing of all live animals as of December 31, 2002. Section I is a complete studbook through 31 December 2002.

Unknown location	43	22	21	0	
2002 Total - 51 countries, 241 facilities, 1340 (695.644.1)					

From January 1, 2002 to 31 December 2002, 296 new animals were registered (see Section D). These additions include historical information on 101 animals previously registered as T-numbers, newly imported wild-caught animals, and births during this period. One litter born at Munster in 2001 was registered in 2002. Of the new additions, 50 (20.30.0) animals were wild caught. Of these animals, 44 (19.25.0) went to two facilities in Namibia. Three (0.3.0) cheetahs were caught in South Africa and went to one facility. One (0.1.0) cheetah apparently from Somalia went to a facility in the United Arab Emirates. One cheetah hand-raised in Kenya was recorded as being owned privately.

2002 STUDBOOK INFORMATION

The captive cheetah population on December 31, 2002 was 1340 (695.644.1) animals in 241 facilities in 51 countries. Of the 1340 animals, 69% or 926 (497.429.0) are captive-born and 28% or 372 (179.193.0) are wild born (see figure 6). This figure shows a decrease by 42 animals in the number of captive- born animals in the population compared to 2001. The number of wild-born animals also decreased by 36 animals compared to the population of wild-born animals in 2001.

Figure 2. Age/Sex Structure of the 2002 Captive Cheetah Population for Wild-Born (WB) and Captive Born (CB). (Of these live cheetah, 1 is over 20 years of age and is believed to be a non-reported death).

Successful parentage was reported in 2002 with animals as young as two years old and as old as 15 years. The majority of successful breeding for both sexes occurs between three and 10 years of age. The data are relevant in assessing the age structure of the 2002 population. As shown in Figure 2, 53% or 712 (362.350) of the 2002 population are within the prime breeding age bracket (>3-<10 years of age). Of the animals in this age bracket, 34% or 210 (101.109) are wild born. The percentage of sub-adult animals (0-<3 years of age) is 20% or 266 (152.114) animals, of which 18%, 49 (24.25) animals are wild-born. Twenty four percent or 320 (162.158) animals are older than the usual breeding age (>10) of which 35% or 113 (54.59) are wild-born.

During 2002, 118 (71.41.6) cubs were born in 43 litters in 15 facilities in nine countries (see Section E). Table 3 lists these litters of cubs and facilities. These births represent a decrease in productivity from 2001 when 137 cubs were born. Of the 118 cubs born, 24 (10.9.5) died under 1 month of age, which represents a 20% infant mortality. Five (2.3.0) cubs died between one month and six months of age. Total cub deaths less than six month of age were 29 (12.12.5), which represents a 25% cub mortality, much the same as in 2001.

Table 3 – 2002 Births by Facility

FACILITIES	NO. LITTERS	NO. CUBS	NO.CUB DEATHS UNDER A MONTH	NO BREEDING M/F
Bogor	1	1 (0.1.0)	0 (0.0.0)	1.1
Cincinnati	1	2 (1.1.0)	1 (0.1.0)	1.1
Dvurkralove	3	6 (2.3.1)	2 (0.1.1)	2.2

Munster	1	5 (3.1.1)	1 (1.0.0)	1.1
Oudtshoorn	5	9 (6.3.0)	3 (2.1.0)	3.4
Peaugres	7	19 (13.5.1)	12 (7.4.1)	3.4
Pret DW	11	34 (26.8.0)	0 (0.0.0)	6.11
Sharjah	2	3 (2.1.0)	0 (0.0.0)	2.2
*Singapore	1	4 (2.2.0)	0 (0.0.0)	1.1
Wass BR C	1	3 (1.2.0)	1 (0.1.0)	1.1
15 FACILITIES	43	118(71.41.6)	24 (10.9.5)	30.38

*Indicates first time breeding success

On a facility basis, 15 of the 241 facilities that held cheetah in 2002 had reproductive success. As shown in Table 3, 14 of those facilities had previous reproductive success, and one of the facilities had success for the first time in 2002. There were 30 males and 38 females that were reproductively active during the year. The age distribution of successful breeders in 2002 is presented in Figure 7, and the age distribution of all breeding animals alive at the end of 2002 is presented in Figure 8. This data is relevant in assessing the age structure of the 2002 population presented in Figure 6. At the end of 2002 there were 164 (73.91) proven breeders alive in the captive population. During 2002, only 68 animals, 4.7 % of the captive population successfully bred and 11% of these (18) were wild-caught animals.

Figure 3. Age Distribution of Animals that Successfully Reproduced in 2000.

Of the 1340 cheetahs alive in the 2002 population, 130 animals are proven breeders or animals that have bred at least once. This number permits the computation of the effective breeding size (N_e) for the 2002 population using the formula:

$$N_e = \frac{4 \times M \times F}{M + F} = 67$$

Where M is the number of breeding males and F is the number of breeding females. This value (N_e) is equivalent to 5% of the captive population.

Figure 4. Age Distribution of Proven Breeders Alive as of 31 December 2002

Deaths reported in 2002 totalled 122, including cub deaths (see section F). Figure 9 shows the age at death of captive-born and wild-caught cheetah by sex in 2002. Of the animals that died, 34% or 41 animals were within the prime breeding age group ($\geq 3 \leq 10$ years of age); 39% or 48 animals were under 3 years of age, of which 79% or 38 were under 1 year old; and 27% or 33 were over 10 years of age.

Figure 5. Age at Death of Captive-Born (CB) and Wild-Born (WB) Cheetah, 2002

Of the 118 (71.41.6) cubs born, 24 (10.9.5) died under 1 month of age, which represents a 20% infant mortality. 5 (2.3.0) cubs died between one month and six months of age. Total cub deaths fewer than six month of age was 29 (12.12.5), which represents a 25% cub mortality, a much the same as the previous year.

During 2002, 78 known facilities transferred animals either into or out of their facilities. 41 facilities transferred 90 (51.39) cheetahs to 55 facilities (see Section G). There are 13 new facilities holding cheetah, and 28 facilities that are no longer holding cheetah. Many of the facilities removed are the ones holding cheetahs assumed dead due to their age. Unfortunately no new information was received on these animals (see deaths Section F). Since the end of 2001, there has been a decrease of 36 animals in the world's cheetah population.

THE STUDBOOK

The International Cheetah Studbook has the purpose of registering all cheetah in the world held in both zoological and private facilities and providing information about existing animals by publishing the studbook contents thus creating the preconditions for selecting breeding animals.

The 2002 studbook data includes all cheetahs known to be alive as of 31 December 2002. The International Studbook has added captive animals around the world. It includes wild-caught and captive-born animals, which were alive in 1980 and after, as well as founders with live offspring from 1980. Each registered animal has a studbook card.

The data on the following pages has been computerized using the International Species Inventory System's (ISIS) Sparks Studbook Program. The information was compiled from various sources: Bi-annual questionnaires sent to all facilities holding cheetah; International Species Inventory System (ISIS); and importantly, personal communications. Excellent cooperation has been obtained from many facilities, and it is hoped that the data is accurate and complete. The Cheetah Studbook Keeper makes entries based on reported evidence and must assume that all information received from breeders is correct. Owners and holders of cheetahs are urged to check the studbook for accuracy and if there are any discrepancies, the studbook keeper would appreciate notification.

REGISTRATIONS PROCEDURES

The following are procedures used by the studbook keeper for registering new animals into the studbook and guidelines for the holding institution, owners, breeders and animal dealers. These guidelines are necessary conditions to achieve the best possible procedures for reporting new acquisitions, additions to inventories (birth and imports), and deletions (transfers out of inventories and deaths).

Registration

To register an animal, the studbook keeper is supplied with information about the sex, name, date and place of birth, and all previous owners and dates of transfer of ownership. If the parents are known, please include name studbook number, date of birth and origin of both dam and sire. Also, if animal has produced any offspring, please give sex, date of birth, mate and description for all cubs born.

Once all this information has been gathered, the studbook keeper will issue it a consecutively assigned "studbook number" in the International Cheetah Studbook.

- Cheetahs caught in the wild will be assigned a studbook number by the studbook keeper.
- Cheetahs born in captivity will be assigned, by the studbook keeper, a breeder number in addition to their studbook number.
- The breeder number includes a set of initials that correspond to an abbreviation of the facility name followed by a number. The breeder numbers are assigned by the studbook keeper according to the sequence of births in that

breeding facility. All cheetahs born at the facilities are continuously registered, including stillborn and deceased. Numbering in a litter starts with the males and ends with ones of unknown sex.

- The studbook and house name are the same unless otherwise recorded by the breeder.
- The studbook card will be sent to the animal owner to accompany the animal until its death. One copy of the studbook card remains with the studbook keeper.
- The studbook card is the same colour for all sexes.

Additions To Inventory

- The studbook keeper must be kept informed of all additions, births or transfers in (requested within one month).
- For animals caught in the wild, documents must be sent to the studbook keeper indicating date and place of capture, supplier and dates of arrival, including an estimated date of birth and the parents.
- For animals born in your facility, report to the studbook keeper the complete litter including stillborn and deceased young; indicate the date of birth and the parents.
- Offspring and changes of ownership will be entered onto the studbook card by the owner.

Deletions From Inventory

- The studbook keeper must be kept informed of any deletions – transfers out of facilities and deaths (requested within one month).
- If registered cheetahs are sold or transferred, the studbook card must be sent to the new owner and change of ownership be reported to the studbook keeper (including full address details). Be extremely careful when transferring cheetahs through animal dealers and send studbook cards directly to the new owners.
- The studbook card should be returned to the studbook keeper after the animal's death with the appropriate information, date, place and cause of death, necropsy report and disposition of carcass.
- The end of the studbook year is the 31 December every year. A bi-annual report of all changes in animals during the year must be sent to the studbook keeper by July 31 (for the period of 1 January – 30 June) and 31 January (for the period of time from 1 July- 31 December). Bi-annual questionnaires will be sent to all the facilities for completion and returned to the studbook keeper.

STUDBOOK FORMAT

Order of listing: all cheetahs are listed in order of their studbook number.

Dates: Dating system used for birth date, transfers and death date is: day, month, year.

Studbook Number: Starting with number 1, these numbers were assigned sequentially in chronological order in the North American Regional Cheetah Studbook. Since some changes in dates occurred since the first Volume in 1983, the changes were left where they are already numbered. Within each year studbook numbers were assigned as the studbook keeper was notified of births or acquisitions and, therefore, are not necessarily listed in chronological order.

Starting with studbook number 611, the International Cheetah Studbook is in chronological order with new international additions. As changes have been made, the changes where they were already numbered. It is strongly recommended to tattoo all animals in the inner thigh with their studbook number. Please notify the studbook keeper as animals are tattooed.)

Sex: M for male; F for female; U for Unknown

Name: The names of the animal are left up to the breeders and owners.

Breeder Number: The breeder number includes a set of initials that correspond to an abbreviation of the facility where the animal was born, followed by a number which is the individual's number in sequence of births in that breeding facility. The breeder number is assigned by the Studbook Keeper. (See Breeder Facility abbreviations at the end of this sections.)

Date of Birth: Each animal's birth date; "Y" after birth date indicates estimated birth date.

Sire and Dam: The studbook numbers of the parents are listed if the parents are known, otherwise listed as "WILD" if the animal was wild-born or "UKN" if unknown, or "MULT" if there is unknown possible multiple selections. When known, the multiple selections are listed in section K.

House Number: The number used by holding facility to register the animal with ISIS (The International Species Inventory System, c/o Minnesota Zoological Gardens, 12101 Johnny Cake Ridge Road, Apply Valley, MN 55124, USA), or the individual number used by individual facility.

Location: The Institution holding the individual as of the date specified and not necessarily the owner. In

most cases, institutions are listed by the city where the institution is located, followed by country.

An institutional list is available in section D.

Since: Arrival date to the facility holding the individual animal or death date.

Status: Indicates Capture, Birth, Transfer, and Death and relates this transaction of the individual animal to the date in the “since” column.

Tattoo: Indicates the individual’s tattoo number or the microchip number. It is strongly recommended to tattoo all animals in the inner thigh with their studbook number. Please notify the studbook keeper, as animals are tattooed.

Inbreed: This number represent the inbreeding co-efficient for each animal.

Comments: Includes cause(s) of death reported through necropsies or causes listed on returned studbook

cards; “Living Status Unknown” for living or death status which is not known or confirmed; “Assumed Dead” for animals that are believed not to be living and confirmation is not available; “Same As” identifies animals that have been registered twice. Other comments are encouraged and will be included

BREEDER NUMBERS – BREEDING FACILITY ABBREVIATIONS

The following is an alphabetical listing of the abbreviations used in the breeder numbers assigned to the facilities as at 31 December 2002.

ABQ – Albuquerque, Rio Grande Zoo, New Mexico, USA
AKI – Akiyoshida Safari Land, Mitou, Miya, Yamaguchi, Japan
ALS – African Lion Safari, Cambridge, Ontario, Canada
AM – Amersfoort Dierenpark, Amersfoort, Netherlands
AS – Oita African Safari, Nishinoda, Ajimu, Usa, Japan
AW – Adventure World, Shirahama, Wakayama, Japan
AZ – Audubon zoo, New Orleans, Louisiana, USA
BP – Binder Park Zoo, Battle Creek, Michigan, USA
BZ – Burger Zoo, Arnhem, Netherlands
BB – Safari Park Beekse Bergen, Hilvarenbeek, Netherlands
BZG – Belfast Zoological Gardens, Belfast, Northern Ireland
CC – Cango Wildlife Ranch, Oudtshoorn, South Africa
CCZ – Caldwell Zoo, Tyler, Texas, USA
CIN – Cincinnati Zoological Gardens, Cincinnati, Ohio, USA
CLS – Lion Country Safari, Laguna Hills California, USA
COR – Cheetah Outreach, Cape Town, South Africa
COL – Columbus Zoo, Powell, Ohio, USA
CMZ – Cleveland Metroparks Zoo, Cleveland, Ohio, USA
CZ – Colchester Zoo, Essex, Great Britain
DEW – De Wilt Cheetah Breeding and Research centre, South Africa
DPZ – Dickerson Park Zoo, Springfield, Missouri, USA
DV – Desmond Varaday, Middleburg, South Africa
DZI – Dublin Zoo, Ireland
DZ – Dusit Zoo, Bangkok, Thailand
EAF – Endangered Animal Foundation, Huzein, Netherlands
ED – Edinburgh Zoo, Edinburgh, Scotland
FLS – Lion Country Safari, West Palm Beach, Florida, USA
FR – Fossil Rim Wildlife Ranch, Glen Rose, Texas, USA
FWP – Fota Wildlife Park, Carrigtwohill, Ireland
FWZ – Fort Worth Zoo, USA
GIL – Frank Gilbert, Cheetahs Unlimited, Phoenix, Arizona, USA
GLS – Lion Country Safari, Stockbridge, Georgia, USA
GSW – Gunma Safari World, Tomioka, Gunma, Japan
GZ – Glasgow Zoo, Glasgow, Scotland
HAN – Hanssen, Okonjima, Namibia
HAZ – Hanoover Zoo, Hannover, Germany
HCP – Central Zoo, Himeji, Toyotomi, Hyogo, Japan
HG – Hans Greulich, Bad Oeynhausen, Germany
HOE – Hoedspruit Cheetah Project, Hoedspruit, South Africa
HOW – Howlets Zoo, Great Britain
HZ – Honolulu Zoo Hawaii, USA
JAC – Jackson Zoo, Mississippi, USA
JGB – Jaderberg Zoo, Germany
JZG – Johannesburg Zoo, South Africa
KA – Kaunas Zoo, Lithuania

KAT – Apeldoorn, Netherlands
 KR – Krefeld Zoo, Germany
 LP – Lincoln Park Zoo, Chicago, Illinois, USA
 LOW – Bill Lowe, Beaver creek, Wisconsin, USA
 MAK – Breeding Centre for Endangered Arabian Wildlife, United Arab Emirates
 MHZ – Munchener Tierpark, Germany
 MIA – Miami Metro Zoo, Florida, USA
 MON – Montpellier, Parc Zoologique Henri De Lunaret, France
 MOR – Morocco Zoo, Morocco
 MOS – Moscow Zoo, Russia
 MOZ – Montgomery Zoo, USA (* Breeder number changed from MZ to MOZ as was
 the same as Memphis Zoo)
 MUL – Mulhouse Zoo, France
 MUN – Munster Zoo, Germany
 MZP – Marwell Zoo, Hants, Great Britain
 MZ – Memphis Zoo, USA

EXECUTIVE SUMMARY

CCF has continued to be very active during the 2002. Collaborative biomedical research included conducting gastric biopsies and sperm collection on both captive and wild cheetahs, and developing a faecal hormone lab to monitor reproductive cycles. The sperm collection team went “travelling” this season, and CCF collected sperm from cheetahs housed at several farms and game lodges across Namibia. At the end of 2002 CCF is housing 23 non-releasable cheetahs.

Three litters of Anatolian Shepherd Livestock Guarding Dogs were born in 2002 and puppies placed throughout the year have been monitored. Two of the litters were born during December 2002 and these puppies will be placed in early 2003.

A puppy was imported from South Africa on a breeding exchange programme in July, but unfortunately the puppy was cryporcid and therefore not suitable for breeding. Plans have been made to place the puppy as a working dog in early 2003 and to acquire a replacement breeding male.

CCF continues to be very active in attending meetings and conferences related to conservation issues as well as carrying out its education and community reach programmes. CCF talked to more than 22,000 students and learners during 2002 and conducted outreach to schools all over the country. Staff also attended a number of regional agricultural shows throughout the country.

In addition, the Education Centre had more than 3,000 visitors, including day visitors, learners and youth groups.

Several Namibian and international students have conducted their research and in-service

training at CCF, in addition, several CCF staff members haven taken various work-related courses. Numerous research papers have been submitted to journals for publication. Training was provided at CCF for University of Namibia students as well as students from Round River Conservation Studies and students from the USA and South Africa. At present, one CCF staff member is participating in an under-graduate and another in a graduate degree course. Two staff members completed their studies, one a Ph.D. and the other a B-Tech.

CCF's bush project has been formally incorporated as CCF Bush Pty Ltd, a Namibian company not for gain. Contract harvesters have been employed and around 70 hectares of bush was felled. Extensive chipping trials will begin in early 2003. In the meantime, CCF conducted collaborative biodiversity projects on designated research plots.

CCF's research and conservation programme in Kenya has continued to lay solid groundwork in research, education and outreach of conservation of cheetahs and its habitat. CCF also continues to work closely with individuals and organisations worldwide and in particular with groups in Iran, Botswana and South Africa on cheetah conservation.

I. INTRODUCTION

The Cheetah Conservation Fund (CCF), founded in 1990, has as its mission “to be an internationally recognised centre of excellence in research and education on cheetahs and their eco-systems, working with all stakeholders to achieve best practice in the conservation and management of the world’s cheetahs”. CCF undertakes basic research regarding cheetah and their habitat; maintains a major public education programme and creates and disseminates education materials worldwide; conducts programmes of community upliftment and predator conflict resolution; assists in the management of captive and free-ranging cheetah throughout the world; and publishes scientific papers on its research findings.

CCF's base of operations is in Namibia, which has the largest and one of the few sustainable populations of free-ranging cheetah in the world. The cheetah's survival depends on a total ecological system of farmland management, prey species management, and habitat stability. CCF's Namibian focus is to work with livestock farming communities in order to develop ways to reduce conflict. This is achieved by devising a conservation plan that secures habitat for the species, while still accommodating farmers' land use needs.

CCF carries out scientific research programmes in areas such as cheetah population biology, cheetah ecology, cheetah health and reproduction and human impacts on the cheetah. CCF researchers develop, test, and promote alternative land management practices such as: conservancy development, non-lethal predator control, relocation of problem cheetahs, and eco-tourism. Additionally, CCF conducts both Namibian and international education programmes to raise awareness of the cheetah's endangered status. These illustrate ways in which the species can be protected and encourages worldwide support.

II. ORGANISATIONAL STRUCTURE

The Cheetah Conservation Fund is an international organization with registered organisations in Namibia, the United States, Canada and the United Kingdom. In 1991 CCF became a Namibian Voluntary Trust, with a Namibian Board of Directors comprised of leaders in the local community, business, agriculture and government sectors. In 2002, the Namibian Board completed the registration of the Cheetah Conservation Fund as a not-for-profit Section 21 Company. In 2002, CCF Canada registered as a charity in that country. Additionally, there is an International Science Advisory Board that assists in planning and advising on research projects. CCF's Executive Director is assisted in the management and operations of CCF by a core professional staff, short-term volunteers, and students.

CCF's International Research and Education Centre is the base for all CCF's activities. The Centre is located near Otjiwarongo, Namibia on the farms Elandsvreugde, Osonanga, Boskop (Khayam's Kopje), Cheetah View, Bellebeno, and Jan Helpman totalling 39,000 hectares. The farm base is in prime cheetah habitat and a wildlife friendly area, with

neighbouring farmers who believe in conservation ethics. This ensures a large prey population, which is important for the cheetah population.

CCF is an active member of the Waterberg Conservancy, which encompasses over 200,000 hectares of private farmland surrounding the Waterberg Plateau Park - a national game park dedicated to rare and endangered species. The Conservancy's farmers cooperatively manage the Conservancy's wildlife for long-term sustainability. This in turn provides habitat and prey base for the cheetah.

III. PROGRESS DURING REPORTING PERIOD: January – December 2002

A. Facility Developments

Through a grant from Annie and Bob Graham, the farmhouse and workers houses on Khayam's Kopie (Boskop) were renovated and two farms, Bellebeno and Jan Helpman, adjoining CCF were purchased. CCF professional staff and research associates moved into Boskop in February. Bellebeno is a game farm and Jan Helpman a livestock farm. Over 200 head of cattle were bought and placed on Jan Helpman, half of them as a short-term loan by Dr. Laurie Marker. CCF's cattle from Cheetah View were moved to Jan Helpman to consolidate livestock management. Additional grazing has been leased to neighbouring farms on Boskop and Jan Helpman.

In addition, three workers houses were built on Elandsvreugde for farm staff, complete with running water and generator power. Electrical and water systems both on Elandsvreugde and Boskop were upgraded.

With the assistance of Raleigh International, new cheetah holding pens were constructed and one large pen was split into two.

Through a grant from Dr. Bruce Brewer, the main CCF dam was enlarged – this dam feeds the Centre's main borehole and, as such, is critical.

B. Research

CCF staff conducts field research to gather data on distribution, behaviour, biology, demographics, livestock/cheetah interactions and health of cheetahs. Farmers participate in the research through live capture of cheetah on their farms, assist in collecting biological samples and measurements, ear tagging, radio collaring and release. They also report on other cheetah/livestock interactions.

CCF collaborates with international researchers and institutions, such as experts in genetics, reproduction, veterinary medicine, pathology and conservation. An extensive database has been developed with new data continually added. Several papers have been accepted for publication, including one in the *Journal of Mammalogy*, titled Morphology, Physical Condition and Growth of the Cheetah and two by *Biological Conservation* titled

Aspects of the management of cheetahs, *Acinonyx jubatus jubatus*, trapped on Namibian farmlands and Demography of the Namibian cheetah, *Acinonyx jubatus jubatus*.

1. Population Biology

Between 1 January and 31 December 2002, CCF worked on 100 (59M.40F.1UNK) cheetahs. Of these, 35 (19M.16F) were tagged and released back into the wild, 45 (29M.16F) were captive animals receiving annual physical examinations at CCF and other captive facilities in Namibia, and 20 (11M.8F.1UNK) were necropsies. In addition, one tagged cheetah was reported shot but no necropsy could be performed.

A veterinarian confirmed two female cheetahs that were tag-and-released, pregnant; one had 15-month old cubs and the other was caught at a play tree. A third female was lactating and released back on the same farm she was caught the next day.

CCF now houses 23 cheetahs (versus 17 at the end of 2001—2 resident cheetahs were euthanased and one died of a chest infection in 2002; 9 new cheetahs are now housed at CCF). New resident cats include a mother and two male cubs that are considered non-releasable, as the female is very old with extremely worn canines came from a guest lodge where they were caught. Two other adult male cheetahs were also collected from this guest lodge; one was in such poor condition it was euthanased, but the other male was tagged and released back into the wild. Two other males that are now housed at CCF were collected from a different guest farm that could no longer house them due to pending new legislation on minimum enclosure sizes. Four cheetahs are being held temporarily at CCF, which were found to be wearing CCF ear tags. They had been caught and sold by a game farmer in 1998, about 6 months after being tagged-and-released by CCF. These cheetahs are to be re-housed once their owner rebuilds facilities. However, CCF questions whether new housing will be built and is therefore now assuming responsibility for them.

CCF unsuccessfully applied for two export licenses to the Tswalu Game Reserve in South Africa for some of its resident cheetahs. Other cheetahs held at CCF cannot be released back into the wild, and are only suitable for export to captive facilities, which is not currently allowed in Namibia.

CCF's captive cheetahs were used for testing scent-baited hair snares to possibly use for in wild cheetah census methodology, as currently, there has been no census technique developed for use on wild cheetahs. The use of scent-baited hair snares, combined with mark-recapture genetic analysis has been a successful census technique for other wild cats. Round River students used CCF's captive cheetahs to test three commercial scent lures: Tomcat, Canine Call, and Weavers Solution, and also tested Eternity and Obsession by Calvin Klein, canned pink salmon, canned sardines, cheetah anal secretions, and female and male cheetah faeces. All scent lures were tested on 14 of CCF's wild-caught cheetahs. Scent-baited hair snare trials resulted in very little hair deposited for any scent lure used nor was rubbing behavior observed in wild-caught cheetahs that has been reported in other wild cats, or captive cheetahs. These results

suggest that alternative methods should be tested and implemented for census of Namibian cheetahs.

2. Health and Reproduction

In January, veterinary technician, Jane Fink, joined the CCF team for one year through support of White Oak Conservation Center. Her duties included training Namibian students and in particular, a Master Degree student from University of Namibia, Josephine Henghali. Procedural protocols for the clinic were established, as well as long-term relationships with new vendors for clinic supplies at discounts. The Columbus Zoo donated a cold sterile tray and instruments for the clinic.

Of the 45 captive cheetahs worked on, 23 were resident cats at CCF, some of which were worked on multiple times. All CCF's captive cheetahs received annual physical examinations in February where they were vaccinated and all were endoscoped.

In October, CCF organised and hosted an Anaesthesia and Immobilization workshop that was facilitated by Dr. Tubbesing, a veterinarian from Windhoek. In addition, an EKG machine was obtained for CCF from Dr. Tubbesing.

2.1 Health Issues – Gastritis

In collaboration with Drs. Linda Munson and Karen Terio from the University of California Davis, faecal cortisol levels in relation to effects of stress on captive and wild cheetahs, and the level of gastritis in these animals, are being determined.

Internationally, cheetahs suffer from gastritis, an inflammation of the stomach that is caused by spiral bacteria and impacts negatively on the animals' health. Stress is implicated as one of the possible causes of this disease. The research will provide a greater understanding of the disease and how it affects captive animals.

Research collaborator, veterinary pathologist and member of CCF's Scientific Advisory Board, Dr. Munson and veterinarian Dr. Scott Citino, President of the US Zoo & Wildlife Veterinary Association from the White Oak Conservation Center, visited CCF in January to endoscope all resident cheetahs and train five local veterinarians, as well as CCF staff, on the procedure. The Morris Animal Foundation has funded the gastritis study on wild cheetahs, and Olympus donated an endoscope and light source to conduct the research. In 2002, 30 gastric biopsies were collected on resident cheetahs, and 22 were collected on free-ranging cheetahs that were tagged-and-released.

2.2 Necropsies

Necropsies enable thorough examination and collection of internal organs and tissues, to facilitate certain studies on overall health and diseases that would not otherwise be possible. Therefore, CCF asks to have access to dead cheetahs, whether as a result of trophy hunting, by hits, or shot by farmers.

In 2002, CCF performed 20 (11M.8F.1UNK) necropsies. Nine cheetahs were shot by farmers or killed by herders for suspected livestock predation and a further two cheetahs were killed by domestic dogs; one of the cheetahs shot was due to a cage trauma wound – it had a broken leg. One other cheetah died as a result of capture on game farms/lodges, due to extended stay in a trap cage, one was hit by a car, and two were trophy hunted.

Three necropsies were on resident CCF cats. CCF euthanased two of its cheetahs: one very old female who had started seizing and was found to have a tumour behind its eye and a cancerous spleen, the other, a male, sustained a chronic foot injury which failed to heal. The third cheetah, a male, died of an undiagnosed chest cavity infection.

Dr. Laurie Marker worked with Dr. Munson in April, as well as with Drs. Warren Johnson and Steve O'Brien on several papers including the health status of the cheetahs. Three papers have been submitted for publication, of which two have been accepted for publication including Lymphosarcoma associated with Feline Leukaemia virus infection in a captive Namibian cheetah, and Dental anomalies and incidence of palatal erosion in Namibian cheetah; the last paper, A Serosurvey of viral infections in wild Namibian cheetahs has been submitted. Additionally, a genetics paper entitled: Patterns of molecular genetic variation in Namibian cheetah will be submitted for publication in early 2003.

2.3 Reproduction

Dr. Adrienne Crosier of the Smithsonian's National Zoo joined CCF in February. She arrived with Dr. Budhan Pukazhenthii to continue developing a reproductive physiology lab at CCF and conduct semen cryopreservation studies. Dr. Crosier is a post-doc at the National Zoological Park with research collaborator, Dr. David Wildt, who is a member of CCF's Science Advisory Board. Dr. Crosier worked on expanding CCF's Genome Resource Bank (GRB) and trained CCF staff and UNAM Master's student, Josephine Henghali, in the basics of semen collection and processing, and evaluation of vaginal cytology samples.

To date, 86 semen samples have been collected, including 46 collections on CCF resident cheetahs and leopard, of which 23 samples were frozen for the GRB. A further 6 out of 10 samples on wild males were adequate to be frozen for the GRB. Dr. Crosier and CCF staff travelled to seven captive facilities in Namibia to conduct 25 reproductive examinations on captive male and female cheetahs, leopards and lions.

Of the cheetahs collected, 15 semen samples were used for a Glycerol Toxicity Cryopreservation Study. The results of this study were presented in a poster at the 9th International Symposium on Spermatology meeting held in Cape Town. The manuscript will be submitted for publication in early 2003. Dr. Crosier also used 13 cheetah samples for a Raffinose Cryopreservation Study, and also presented an abstract and poster of these results at the same conference.

CCF was partially sponsored by Olympis for the purchase of a new microscope, with the balance of the cost of the scope being supported by the White Oak Conservation Center. This new microscope will enhance CCF's reproductive physiology programme. Whilst in the US in December, Dr. Crosier travelled to White Oak Conservation Center to present her research and training accomplishments to keepers and veterinarians.

2.4 Endocrine Lab Set Up at CCF

In collaboration with Dr. Terri Roth of the Cincinnati Zoo and Dr. David Wildt of the National Zoo, a faecal hormone (endocrine) lab was developed at CCF. CCF supporter Susan Babson acquired the donated equipment, and the lab was set up in July 2002. CCF staff and volunteers have been collecting faecal samples from resident CCF cheetahs to be run in the lab.

CCF's Masters student, Josephine Henghali, was trained by Cincinnati Zoo's Dr. Monica Stoops, and has now run more than 25 plates of essays of estradiol hormone. The running of these hormones coincides with 30 days of cheetah oestrous cycle observations carried out on CCF's resident female cheetahs by volunteers and staff.

The faecal samples will be evaluated for oestrogen levels to determine if the females are experiencing normal oestrous cycles. In addition to the faecal hormone data, behavioural observation data also was collected to support the endocrinology data. Hormone cycles and behavioural observations will be correlated.

3. Cheetah Ecology

Since 1993, CCF has radio-collared over 55 cheetahs. The animals have provided information on home ranges, and often on a group of cheetahs, such as males in coalition or females with cubs. Radio-collared animals are tracked weekly by air. The data is used to show farmers actual cheetah movements on their land; for example, an individual animal may be seen over several farms. Since much data has already been collected, this research has been reduced. Analysis of this data is complete and a paper entitled Factors Influencing the Spatial Distribution of Cheetahs on North-Central Namibian Farmlands is in preparation for submission to a journal early in 2003.

Four (1M.3F) cheetahs were radio-tracked for most of 2002. Of the three females, one was collared in 2001 (when she was relocated with one cub) and she has subsequently had a litter of five cubs now seven months old, confirmed by visual from the air. Her collar is still transmitting; the other three signals were lost towards the end of the year. A fifth female cheetah was collared during 2002, but she died from an undetermined cause. One male cheetah that had been tracked for nearly three years was re-collared in 2002 and then was found death from an undetermined cause several months later.

In collaboration with Round River Conservation Studies, and utilising past radio-tracking data, plot-level habitat characteristics for male cheetah coalitions on two commercial ranches were identified. Using individual ranches as sample units, areas of high-use were

identified using radio-telemetry locations to calculate 30% probability kernels. Twenty-five randomly placed plots in both high and low-use areas on two farms and measured shrub density, height, ground cover, hunting visibility and relative prey abundance. Although shrub density did not vary significantly between high and low-use areas, hunting visibility and shrub height distribution was significant on both farms, and for one of the farms, high-use areas were found to have higher prey density. These data suggest cheetah may be utilising areas with higher prey density and better hunting visibility and there may be trade-offs between these factors, presumably as behavioural adaptations to maximise hunting efficiency. These findings support our previous findings and suggest that identification of specific habitat characteristics can prioritise ongoing habitat restoration and predator conflict mitigation efforts.

4. Ecosystem Research

Assessment of the Namibian farmland ecosystem for long-term habitat viability for the cheetah and its prey is a part of CCF's on-going research. The farmlands support a rich prey base, as 70% of the country's game inhabits these areas. CCF assesses the farmland ecosystem and monitors the wildlife prey base available to predators in CCF's primary research area.

4.1 Game Monitoring and Prey Habitat Preferences

To assist in developing a game monitoring programme for the Waterberg Conservancy, CCF began ongoing wildlife monitoring on its farms, designed to understand game density, movement, demographics and habitat utilisation.

Earthwatch volunteers assist with this research on a monthly basis. Monitoring involves visual road counts, tracking and counting spoor, categorizing vegetation, densities and distribution and soil analysis. CCF also tracks rainfall, daily temperatures and uses fixed point photography.

Data collected since 1995 has been analysed and a final manuscript entitled Assessing Ecological Impacts of Bush Encroachment on Namibian Farmlands has been submitted to a journal for publication.

4.2 Full Moon Waterhole Count

The Waterberg Conservancy held its 6th Annual August Full Moon Waterhole Count. Due to lack of rain, there were fewer waterholes this year. Mainly youth groups and farm staff assisted in the Waterhole count. The results are currently being analysed by CCF.

4.3 Bush Encroachment Bio-diversity Studies

CCF has been awarded a USAID grant to improve cheetah habitat through utilisation of the thickened bush that has overtaken the north-central Namibian farmlands, which covers much of the cheetah farmland habitat. Dr. Bruce Brewer, CCF's General

Manager, leads the project. Dr. Richard Jeo, Senior Ecologist, and Research Assistant, Matti Nghikembua have been actively conducting research on designated plots. CCF's Chairman, Dr. Arthur Bagot-Smith, represents the CCF Bush project on a nimbly formed government Wood Biomass Utilisation Committee.

The environmental impact assessment of the project served as a training opportunity for African environmentalists. Five government and non-government officials from Tanzania, Zimbabwe, Mali, Zambia and Namibia involved in environmental impact assessment in their host countries, came to Namibia to use the examinations of the CCF Bush project as a test case. Their assessment of the project was positive.

The project was formally incorporated as CCF Bush Pty Ltd, a Namibian Section 21 Company not-for-gain. Office and laboratory/shop facilities have been located in Otjiwarongo. Assets now include a chipper, tractor and a pickup truck. Contract harvesters were employed and approximately 70 hectares of bush was felled. Negotiations continue with USAID staff, preparing for the purchase of the refining plant.

A Namibian based experimental bush combine (bush thresher) was leased for harvest trial and to delineate the boundaries of 50 one-hectare experimental plots. These plots were later harvested at various rates using several methodologies in order to establish baseline economic data, such as yield per hectare and cost per felled ton. Extensive chipping trials to establish economic parameters will commence in early 2003.

During the course of the year, biodiversity projects were conducted at CCF farms in collaboration with Round River Conservation Studies and students from the Polytechnic of Namibia. CCF also conducted a trial to determine the moisture content of the harvested bush, and is working on developing a protocol for such a trial. CCF's Matti Nghikembua has completed his B-Tech, with a final paper entitled Habitat Correlates of Small Mammals Density and Diversity on Northern Namibian Commercial Farmlands.

In December, two Agriculture students (one from Neudamm Agricultural College and one from the University of Namibia) joined CCF on a temporary basis to assist with the fieldwork. The team has been active both at Cheetah View plots and on the economic plots on CCF's main farm, thus far collecting 43 plots for vegetation data. All students undergo extensive training on field research methods.

As a follow up to the National Forestry workshop in March, attended by CCF, the Ministry of Environment and Tourism's Forestry Directorate requested CCF to prepare a paper entitled The Cheetah Conservation Fund (CCF) Bush Project: Bush Encroachment, Cheetah and Local Biodiversity.

In addition, CCF participated in a wood fuel consumption survey in Otjiwarongo. About 15 households and businesses were interviewed and Round River Conservation Studies analysed the results.

C. Human Impacts

Livestock loss to cheetahs is an economic and emotional issue. While farmers perceive cheetahs as having an excessive economic impact on their livestock and wild game industries, many Namibian farmers have done little, from a management perspective, to alleviate their problems in a non-lethal manner. By addressing the farmer's conflicts with predators, CCF is devising a conservation and management strategy that benefits both humans and cheetahs, thus ensuring the species' survival on livestock farms. Over the years, CCF has seen great awareness and better farm practices.

1. Livestock Guarding Dogs Programme

CCF's Livestock Guarding Dog programme (LSGD) has continued to grow with over 144 Anatolian Shepherds working with livestock on both communal and commercial farms at the end of 2002. Anatolian Shepherds provide a method of non-lethal predator control that protects the farmer's livelihood, while conserving predator species. The dogs are monitored by CCF in a bi-annual evaluation, and monthly for puppies during the first six months. Two papers have been submitted to journals for publications, entitled Evaluating the Effectiveness of Livestock Guarding Dogs as a Method of Conflict Resolution and Survivorship of Livestock Guarding Dogs: Implications for Human-Predator Conflict Resolution.

1.1 Puppy Placements

Since 1994, 171 puppies have been born of which 154 were placed as livestock guardians. During 2002, 26 puppies were born, and 16 were placed with farmer's livestock. Some of these placements were from a litter born at the end of 2001. Fifteen puppies that were born in late 2002 will be placed in early 2003, of which 10 were born at the CCF farm, and five at the farm of Carla Meyer's who has been helping CCF to breed Anatolians. Of the puppies born and placed during the year, nine puppies were placed on commercial farms and seven on communal farms, one puppy died at birth and one went to South Africa for a breeding exchange.

As of January 2003, all puppies born will be sterilised at the age of eight weeks prior to being placed.

1.2 Follow Up on Prior Placements

CCF's Fanuel Ekondo visited adult dogs in communal farming areas, and completed vaccinations and check ups on puppies placed on communal farms. He also brought in all seven dogs placed with communal farms in 2002 for spaying and castration. CCF supports the medical costs of dogs living on communal farmlands.

A total of eleven dogs were returned to CCF or taken from their owners due to negligence or ill treatment. Nine of these were successfully re-homed, and two, which were

unsuitable as working dogs, were placed as pets. A further five dogs were reported to have died.

1.3 Collaboration with Other Breeders

In 2002, collaborations were developed with two Livestock Guarding Dog breeders in South Africa. In January, Mr. Cyril Stannard from the Grootfontein Agricultural Research Station in Middelburg, South Africa visited CCF for a week. Mr. Stannard is setting up an Anatolian breeding project and will be monitoring and researching the effectiveness of Anatolians working in South African farming conditions. The aim of his visit to CCF was to see the dogs working on Namibian farmlands and learn how CCF places and monitors the dogs.

During his stay, Mr. Stannard went along to three farm visits, providing him with the opportunity to speak directly with farmers who have received dogs from CCF. Mr. Stannard also visited the Uitkomst Agricultural Research Stations, a similar institution to his own. CCF agreed to a breeding exchange with Mr Stannard and an eight-month-old bitch was donated to his programme in exchange, at a further date, for a puppy unrelated to our breeding stock at a future date.

CCF staff visited Mr. Johan Steyn in Bloemfontein, South Africa, to deliver an Anatolian puppy and to see his breeding and working dogs. Mr. Steyn, who breeds and sells Anatolians, provided an unrelated puppy in exchange to CCF in 2002. Unfortunately, the puppy was not suitable for breeding, as it was found to be cryptorcid at 5 months of age. The dog was castrated and will be re-homed on a farm as a working dog.

1.4 Donations

Dr. Crosier organised the donation of Hills Science Diet dog food for the LSDG programme. This was a one-time donation from Dr. Bill Schoenherr of Hills Pet Food, and Dr. Eric Van Heugten and Mrs. Kimberly Ange from North Carolina State University. Brigitte Darthch, the Windhoek based dog food distributor donated a bag of Science Diet puppy food to each puppy placed. The new owners also received a measuring cup, food bowl and a leaflet.

1.5 CCF's Farm - Livestock and Dogs

CCF's farm provide the opportunity to practice and experiment with optimum methods of livestock and farming management practices, and one of CCF's farms is an active cattle and small stock farm has livestock for Livestock Guarding Dog breeding. CCF has two major small stock herds (goats and sheep) each with breeding groups of Livestock Guarding Dogs. CCF's resident breeding male, Caesar, was treated twice for warthog wounds and had part of his tongue removed due to a cancerous tumour.

Two students from the Neudamm Agricultural College underwent a training programme on CCF's model farm to learn about farm management practices, including non-lethal predator control.

During the year, 19 sheep were donated to a neighbouring farmer for losses incurred on his small stock by cheetahs, 15 goats were sold at an auction and two young billy goats and one sheep ram were acquired. Additionally, a new breeding bull was purchased for CCF's cattle herd. At the end of 2002, CCF farming operations has, in total, 253 cattle, 147 goats and 193 sheep

2. Contact with Farming Communities

In the past year, CCF presented talks at the Etosha Southern Boundary Problem Animal Meeting, Etosha Conservancy, Helmeringhausen Farmer's Association, the Erongo Mountain Nature Conservancy, the Witvlei Farmer's Association, and the Namatanga Farmer's meeting. The talks provided a brief outline of CCF's research and focused on the correct identification of predators causing problems, and solutions including livestock management practices and non-lethal predator control. A staff member attended a course on Boer goat judging and did a presentation on Livestock Guarding Dogs, with particular reference to the Anatolian. CCF staff attended the Otavi, Otjiwarongo and Platveld Farmers Association Meetings, but did not do presentations

CCF attended this year's Agricultural shows in both the communal and commercial farming areas: Otjinene, Talismanus, Okondjatu, Okamatapati, Gobabis, Grootfontein and Otjiwarongo. These shows present an ideal opportunity to raise conservation awareness and promote good livestock management. In addition, independent farm visits were carried out to farmers who were experiencing predator problems with livestock or game. Numerous farmers were consulted by telephone and information was posted to them. In many cases farmers were put into contact with other farmers to share information on, in particular, the use of donkeys to protect cattle.

CCF staff also attended a meeting in Windhoek with representatives from MET, NARREC, REST and the Namib Rand Nature Reserve to discuss the sharing of information between organisations.

Through direct contact with individuals, farmer association meetings, and a bi-annual Farmer's Newsletter, CCF informs the community of its progress and encourages it to remain actively involved in all aspects of its programmes. CCF's Cheetah Survival on Namibian Farmlands is given to all farmers who come in contact with CCF. In 2001, through grants from the Cincinnati based Cotswold Foundation and the International Cheetah Conservation Foundation this book was translated into Afrikaans and published in 2002.

During this reporting period, two newsletters were produced and mailed to over 3,000 people in Namibia, and about 800 internationally, updating them on CCF's activities and

research findings. The mailing costs for the newsletters were under-written by NamPost and an anonymous donor.

3. Large Carnivore Management Association

CCF staff regularly attends meetings of the Large Carnivore Management Association. The Group consists of members from MET, NGO's, farmers and veterinarians concerned with carnivore conservation. Issues that have been dealt with in the last year include legislation on carnivores, captive holding, the value of live animal exhibits at agricultural shows, trophy hunting, and guidelines for animal use in the film industry. CCF's Bonnie Schumann has been elected as the Association's Secretary for 2002.

4. Waterberg Conservancy

CCF remains active in the Waterberg Conservancy and hosted the Conservancy's AGM. CCF's Dr. Laurie Marker was elected as the ecology representative for the group. CCF continues to promote and support eco-tourism within the Conservancy. During the year, the Conservancy addressed the possibility of creating a sub-division for the East and West areas. In addition, CCF has been working with MET to develop a Rhino Conservancy. A group from MET's Rhino Custodianships programme visited CCF's lands to evaluate it for holding rhinos and recommended that CCF become a Rhino Custodian.

5. Conservancy Association of Namibia (CANAM)

CCF's Director, Dr. Laurie Marker, serves on the executive committee for CANAM as vice-chair. CANAM is an umbrella body for the promotion of conservancies in Namibia. Conservancies encourage sustainable utilisation of natural resources through co-operative management, based on sound conservation principles. During the reporting period, Dr. Marker attended six Ex-com meetings, and attended the AGM. In addition, two special meetings were held, one open to all conservancies to discuss game count methodologies. The other was an invited meeting to review the proposed new wildlife laws. Detailed recommendations were subsequently submitted to MET.

Conservancies and their wildlife management techniques will continue to be extremely important for long-term cheetah conservation. CANAM continues to grow and the new executive committee appears active and committed to seeing the organisation grow.

D. Education Activities

Public education and the development of an active grassroots constituency are integral components of CCF's overall cheetah conservation programme. CCF is educating farmers, teachers and the public about the need and methods to conserve Namibia's rich biodiversity and the role of the cheetah and other predators in healthy ecosystems. Public education and the development of national pride in the cheetah are critical to its survival.

1. Schools and Community Education

During 2002, nearly 25,000 learners and youth group members attended a CCF programme, either at the Centre or through outreach programmes. The number also includes daily visitors to the Centre.

1.1 Education Outreach

Over the last year, CCF talked to around 23,000 students and more than 700 teachers in the country, with May being a quiet period due to exams. CCF staff visited schools in Tsumeb, Otjiwarongo, Windhoek, Rehoboth, Okahandja, Okakarara, Grootfontein, Swakopmund, Walvis Bay, Opuwo, Ruacana, Outapi, Oshakati, Ongwediva and Talismanus.

Students were generally excited to take part and the demand for presentations at schools continue to increase, especially in rural areas. Interestingly, in rural schools Afrikaans was preferred to English. CCF will continue to teach mostly in English but several other Namibian languages are used.

In addition, CCF gave a presentation to 20 Peace Corp volunteer teachers; of which many agreed to help CCF with planning school visits in their various regions during 2003.

1.2 CCF's Field Research and Education Centre

CCF's Field Research and Education Centre continues to receive visitors from schools, regional youth groups, youth officials, tourists, teachers, health officials, farmers, conservation and agriculture extension officials, students and the general public.

CCF's Research and Education Centre provides on-site public education and student training to local students of all ages and Namibian and foreign university students. It allows students to be exposed to CCF's integrated research programmes on the cheetah's ecology, habitat and prey base, and the demonstration of CCF's non-lethal livestock/predator management techniques. Participants are exposed to the issues affecting the survival of the cheetah, by participating in various interactive activities and presentations. Various issues are presented regarding factors that affect conservation efforts at community level.

On average, CCF's Centre had two to three groups of visitors each day, totalling close to 2,000 visitors during the year – the majority of the day visitors were from France, Germany, South Africa, France and the Netherlands, however, more Namibians appear to be visiting. Visitors are highly impressed by CCF.

1.3 Youth Forums and Schools

Organised education programmes at CCF are designed mainly for groups accommodated at the either CCF's Wilderness Camp or tented Camp Lightfoot. CCF hosts school and

community groups, exposing them to different environmental education activities including a Nature Trail, team building activities, games, and other environmental awareness activities. Groups usually spend two nights with CCF. All participants are exposed to CCF research and conservation efforts by presentation and to the Namibian farmland ecosystem through the nature trail. Team-building activities are designed to highlight the importance of team efforts in conservation. Role-play and drama are also included in the programmes and include scenarios of livestock and predator management.

During the year, four school groups stayed at CCF's campsites, 10 schools visited CCF on site for day visits, and 20 youth groups stayed at CCF. All these groups were accommodated at Light Foot campsite. A total number of 634 learners and 625 out-of-school youth took part in the Centre-based programmes coming from throughout Namibia, including Rehoboth, Windhoek, Khorixas, Tsumeb, Keetmanshoop, Otjinene, Oshakati, and international groups from UK and Germany.

The learners, youth, teachers and youth officials that have visited give positive feedback about their stay at the Centre. Many of the visiting youth report that it is not only their first opportunity to see wildlife, but their first trip outside their village and towns. For other youth members, who came from farms with high predator populations, CCF's education programme provides another perspective on the reality of farmland predators, as they often see cheetah and leopards, but mostly perceive them negatively. During a CCF visit, youth see the cheetah in a more positive situation and as the predators that are trying to survive in a difficult and limited habitat.

One key objective of the youth forum visits is to see how various activities can be coordinated and how they can contribute to environmental conservation. Apart from being exposed to CCF programmes and presentations, the youth are also asked to identify local and regional environmental problems, their causes and effects. Issues identified by the groups that affect conservation development include lack of commitment by youth and inadequate support from local businesses, community and authorities.

One of the greatest challenges CCF faces is assisting groups to obtain funding to visit the CCF Centre. Although the Centre is free of charge to student groups, it is unable to provide transport or food for the groups. Even this extra cost, preliminary for transport, is difficult for many youth and school groups to obtain due to the limited access to funding. The need for increased transport funding is vital to make the Centre accessible to more farmers and youth in Namibia.

1.4 Education Workshops

In June, Dr. Laurie Marker participated in a vision workshop on the needs for a science centre in Namibia. The workshop was held at Ongava in cooperation with the Smithsonian's National Zoo, Wilderness Safari's and Ned and Diane Twinning. Over 30 people attended the workshop including university professors, community and education officers and directors from Namibian NGO's, government officials, and tour companies.

The group was tasked to develop curriculum that could be used in Namibia for training conservation scientists and natural resource managers.

CCF hosted two teacher's workshops in 2002. In June over 30 educators attended a workshop held at CCF, including 13 educators from 4 countries, NGO environmental educators from NARREC and Namibian Environmental Educators Network (NEEN), and ministry representatives. The workshop was sponsored by the Cincinnati Zoo in collaboration with the Smithsonian's National Zoo, and Cheetah OutReach with the goal of how to integrate predator conservation and the role of predators in a healthy ecosystem into Namibia's schools and communities. A follow-up workshop was held in December with six of the teachers attending. The teachers joined CCF's education and community outreach staff to review the July teacher's workshop document and review curriculum that had been developed since July.

CCF staff also attended the annual Science Fair in Windhoek, sponsored by NamWater and by learners from various schools in Namibia. CCF was invited in order to exhibit the use of science in conservation to the learners.

1.5 Library Development

For the second year, members of CCF's Seattle, Washington (USA) Chapter, who have become special 'Friends of Rogate', donated over 200 books to the Rogate Primary School in Otjiwarongo. These book donations have provided the opportunity for the school to develop a library. The Namibian Broadcast Corporation (nbc) news crew was present to record the donations of the books.

2. Education and Training at CCF

In December 2002, CCF's Dr. Crosier travelled to the White Oak Conservation Centre in Florida to present CCF research and training accomplishments to the veterinary and keeper staffs. CCF's staff assisted in organising a Conservation Biology course to be held at the University of Namibia and CCF in January 2003. Ned and Diana Twining on behalf of the African Conservation Science Centre, will sponsor the course in partnership with University of Namibia, Smithsonian National Zoological Park and CCF.

2.1 CCF Staff Education

In December, CCF's director, Dr. Laurie Marker, completed her thesis and defence of her Ph.D. at Oxford University in the Zoology Department's Wildlife Conservation Unit, known as WILDCRU, under the supervision of predator specialists Drs. David McDonald and Gus Mills. Most all chapters of her Thesis entitled, Aspects of Namibian Cheetah (*Acinonyx jubatus*) Biology, Ecology and Conservation Strategies, have been submitted for publication in various journals.

CCF's Education Officer, Matti Nghikembua finished his B-Tech in Natural Resource Management at Polytechnic of Namibia. His final paper entitled Habitat Correlates of

Small Mammal Density on Namibian Commercial Farmlands (Cheetah Conservation Fund) was completed.

Fanuel Ekondo, Assistant Farm Manager, has completed his first year in a B-Tech programme at Polytechnic of Namibia in Agriculture.

Josephine Henghali, a Masters Degree student from the University of Namibia, completed more training in veterinary clinic procedures including animal handling and monitoring, faecal evaluations, procedure set ups, blood drawing and processing techniques, data entry and inventory control. She also was trained in how to collect, evaluate, process and store sperm, and is learning how to evaluate vaginal cytology using domestic dog and cheetah smears.

Gebhardt Nickanor attended an environmental education supplemental course in South Africa. Siegfriedt !Aebeb is enrolled in a community development correspondence course.

2.2 CCF In-service Training and Field School

A CCF hosts group from institutions of higher learning and assists in teaching at CCF's field school and provides in-service training for local and international undergraduate students.

Timoteus Shapaka completed his six-month training at CCF. He was a second year student from the Polytechnic of Namibia, enrolled in the National Diploma in Natural Resource Management (Conservation) programme. During his training, two research projects were completed: an ecology project on seedling survival and an animal behavior project on CCF captive cheetah. Timoteus assisted with Education Centre duties, game counts, and the bush project.

Melle Orford working in collaboration with CCF completed a Masters Degree in Environment and Development, in February 2002, at the University of Natal in South Africa. Her research involved a comparison by repeat survey of farmer-related threats to cheetah survival on specific commercial farms in central Namibia to measure changes in farmer-related threats to cheetah survival over time. Of the original 241 farmers interviewed by Laurie Marker in 1991, a sub-sample of 31 farmers in the Seeis, Hochveld and Omitara were re-interviewed between July and October 2001.

In January, Beata Muteka, a third year BSc Agriculture student from the University of Namibia completed her 3-week attachment training. In November, two University of Namibia BSc Agriculture students from the Neudamm Agriculture College completed a six-week internship and practical work experience at CCF. Both students undertook practical and theoretical training and worked with CCF's cattle, goats and sheep, as well as working on CCF's Bush Project.

Working with Dr. Martin Mbewa from the University of Namibia's Biology Department, CCF hosted 25 students for a week in August as a part of their Arid Land Ecology Programme. CCF staff assisted in teaching game count techniques and vegetation/habitat collection methodologies, which also consisted of conducting a plant identification session. The students were exposed to research aspects such as study design, data collection, and analyses.

Eight students from throughout North America completed the fifth course of Round River Conservation Studies field school at CCF between September and November learning conservation biology, ecology, and the natural history of Namibia under the guidance of CCF Senior Ecologist Dr. Richard Jeo. Round River Conservation Studies is accredited through Utah State University and focuses on predators and monitoring of prey species.

Two students from University of Oregon's Global Graduates programme conducted three-month internships with CCF. A student from the University of Natal in South Africa conducted research at CCF on behaviour analysis of captive cheetahs correlating behaviour to reproductive hormones. During their time at CCF all interns participated in all aspects of CCF activities.

3. Namibian Environmental Educational Network (NEEN)

CCF's Matti Nghikembua is on the NEEN steering committee and attended several meetings during the year. The network is in a planning and preparation process for hosting the 21st International for the Environmental Education Association of Southern Africa (EEASA) conference in 2003. These meetings were mainly aimed at organisational and preparatory aspects of EEASA and reviewing the strategic plan of NEEN for 2003.

E. Eco-Tourism

CCF has been one of the key players in assisting the Otjiwarongo Tourism Association in regional marketing. The organisation is planning its "Meeta Cheetah" campaign and continues to promote and encourage tourists and tour groups to visit the "Cheetah Capital of the World", and overnight in the Otjiwarongo area, the heart of cheetah country.

F. Government Meetings

In May, Laurie Marker and along with CCF Namibia's Board Chairman, Dr. Arthur Bagot-Smith, and delegates from the Cincinnati Zoo, including CCF Board members Carl and Cathryn Hilker, met with the Namibian President, His Excellency Dr. Sam Nujoma, to update him on the cheetahs he donated to the USA. The President was highly complimentary of CCF.

In April, the Namibian Ambassador to the USA, the Honourable Leonard N. Iipumbu and Laurie Marker, had a two-day visit to Cincinnati, Ohio (USA) to see the four Namibian cheetahs that had been donated. A special ceremony honouring the Namibian

Ambassador and Namibian Cheetah Project was held at Cincinnati Zoo, where he met civic and business leaders and was given the key to the city of Cincinnati.

G. International Programmes

The Fund assists in international programme development and adapts model programmes developed in Namibia for use in other countries, distributing CCF materials and information throughout Africa and the rest of the world. CCF's director, Laurie Marker, is a member of the Core Group of the IUCN's Cat Specialist Group, and maintains international communications on the status of cheetah populations worldwide, including their relationship with man and threats to their survival.

1. Cheetah Conservation Fund - Kenya

CCF Kenya is lead by Senior Research Assistant Mary Wykstra. Over the past year, good collaboration has been developed. The Kenyan Wildlife Service (KWS) approved a three study of "Cheetah Conservation and Human Impact in Kenya". Subsequently, Tom Cholmondeley, Chairman of the Nakuru Wildlife Forum (NWF) has provided housing on the Delamere Estates for CCF researchers based in Kenya. A local Kenyan, Cosmos Wambua, holding a BSc in Natural Resource Management has been hired as a Research Assistant. In addition, Meridith Evens, a Masters student from Florida State University spent six months conducting fieldwork along with an undergraduate student who spent three weeks at CCF Kenya. Through a grant from the Bay Foundation and CCF Washington Chapter Chairwoman, Suzanne Garrison-Clise, a 4-wheel drive truck was purchased.

Over the last year, CCF Kenya has been active in networking with Nakuru Wildlife Forum stakeholders and surrounding communities to develop confidence and cooperation. The group has also made initial contact interviews with 30 farmers in the Central Rift Valley to analyse issues, attitudes and management practices. Cheetah sightings, livestock and land management and predator conflict issues were researched in line with game counts to evaluate wildlife habitats.

Cheetah in Kenya appear to be viewed as having minimal threat to livestock compared to lion, leopard, jackal and hyena. Some farmers have difficulty identifying differences between cheetah and leopard. Very little is done, however, to alleviate predator conflict problems in a non-lethal manner.

The CCF Kenya team has initiated an Environmental Education Program for primary schools in the Nakuru region, and developed a plan for secondary schools and special interest groups in cooperation with East African Wildlife Society, World Wildlife Fund, Kenya Wildlife Service and Wildlife Clubs of Kenya. The focus is to educate students on the plight of the cheetah and its role, as well as that of other predators, in the ecosystem.

During the year, a presentation was given to 40 students from the Canadian Field Studies in Africa programme. This is a full time course in biology and conservation management

with Langara University in Vancouver. Presentations were also made to tourists and tour operators from both Park East and Fun Safaris to share the work of CCF Kenya with them. The lecture fees from these groups have assisted with supporting CCF Kenya's efforts. An article was featured in the East African Wildlife Society's SWARA magazine introducing CCF Kenya, and CCF was featured in a newsletter for a PR organisation for artists and filmmakers.

2. Iranian Cheetah Conservation

In January, three Iranians visited Namibia to learn more about CCF's conservation and research programmes. The objective of the visit was to provide training.

Mr. Anoshirvan Najafi, the Deputy Director of the Department of Natural Environment & Biodiversity (DOE), along with Mr. Ali Joorabchian, the National Project Manager for the Conservation of Asiatic Cheetah Project and Mr. Behzad Rahgoshai, the Assistant Project Manager worked side-by-side with CCF staff for a week. These Iranians are responsible for undertaking the cheetah rescue project in Iran where less than 50 cheetahs are now found. This project is supported by a United Nations Development Programme (UNDP) grant entitled "Conservation of the Asiatic Cheetah, Its Natural Habitat and Associated Biota" in the I.R. of Iran. CCF has been asked by the UNDP to participate in an Inception Mission to Iran in 2003, which will guide the conservation planning.

While at CCF, the Iranian team learned cheetah capture techniques, darting, handling, management of wild caught cheetah, sample collection, radio-tracking, data processing, management of captive cheetahs, game and livestock management techniques and environmental education techniques used here in Namibia. In addition, they were able to visit the Etosha National Park, and meet with members of the WWF Life Programme to discuss communal resource management and met with several CCF Board members. They left Namibia with a wealth of information.

3. Botswana Training

In June, CCF hosted three cheetah conservationists from Botswana. The team was made up of the government's problem animal researcher, the project's veterinarian, and the main biologist for the Mokolodi cheetah project, Rebecca Klein. The Mokolodi group is actively developing a cheetah project to assist with the conflict between farmers and cheetahs and will use CCF's protocols modelled after the CCF Namibia programme.

The group worked side-by-side with CCF staff for a week learning capture techniques, darting, handling, management of wild caught cheetah, sample collection, radio-tracking, data processing, management of captive cheetahs, game and livestock management techniques and environmental education techniques. One of CCF's long-term volunteers, Ann Marie Houser, has joined the Mokolodi team.

4. Captive Cheetah Management - International Cheetah Studbook

CCF's Director, Dr. Laurie Marker, is the Keeper of the International Cheetah Studbook. In October the 2000- 2001 International Cheetah Studbook, was finalised and mailed to all captive cheetah facilities with the help of student research assistant, Karin Bierbaum. This is the eleventh edition of this world registry. This edition of the International Cheetah Studbook combines all information available for the period of 1 January 2000 to 31 December 2001, ending with a total captive cheetah population of 1376 (710M.666F) cheetahs in 264 facilities in 52 countries.

In November, one of the 10 cheetahs that were donated from Namibia to the USA in April 2001 gave birth to two cubs at the Cincinnati Zoo. However, one had congenital defects and died and the other cub was pulled for hand raising, since single cubs do not survive due to lack of stimulation resulting in poor milk production. Since then, the dam has been re-bred, along with the other female housed at the Cincinnati Zoo and at least two of the cheetahs housed at White Oak Conservation Centre have bred. The cub is to be sent to Fossil Rim Wildlife Centre in Texas, to be integrated into a litter of cubs that was born two weeks after this cub.

5. Global Cheetah Interest Group

CCF staff worked on editing the document from the 1st Global Cheetah Workshop held in 2001, which came out in May 2002, as well as editing the document from the 2002 Workshop. In July, five members of CCF attended the 2nd Global Cheetah Workshop held in South Africa. Several international attendees to the conference visited CCF either before or after the Workshop.

H. CCF Organisational Activities

1. Development and International Fundraising

1.1 Namibian Trust

CCF's Namibian board has met four times during the past year. In March, the Board spend the weekend at CCF's Centre learning more in-depth about the various programmes. Additionally, under the guidance of Board member Mike Hill, one day was devoted to scoring CCF's programmes and looking critically at CCF's future.

In July, USA board members Bill and Pat Miller, Carl Hilker and Vance Martin, met with CCF Namibia board and discussed the various programmes. During the past year, CCF Namibia has completed the process of becoming a Section 21 Company, not for gain, and has placed all CCF's farms within a Land Trust administered by the Section 21 Company.

1.2 Annual Fund Raising Dinner

In July, CCF's 4th annual fundraising dinner, "A Celebration of Speed and Elegance", took place at the Windhoek Country Club and was attended by more than 350 people. Guest speakers included Dr. Abraham Iyambo, Minister of Fisheries and Marine Resources, representing His Excellency, President Dr. Sam Nujoma, and Dr. Richard Jeo, CCF's Senior Ecologist. Kenya conservationists, Kuki Gallmann, author of "*I Dreamed of Africa*" was the keynote speaker.

Two awards were presented during the dinner, including the 3rd Annual Cheetah Conservationist of the Year Award going to the Rolf Ritter family. The other award, for General Conservation, was presented to Blythe and Rudi Loutit of "Save the Rhino Trust" for their efforts in rhino conservation. In a surprise announcement, Mr. Rolf Ritter, presented Dr. Laurie Marker with a Certificate of Honour on behalf of the Sandveld Conservancy acknowledging her work and dedication to cheetah conservation.

1.3 US Foundation and Fundraising Activities

CCF continues to receive most of its funds from the United States. In April, CCF's Executive Director attended the US CCF Board meeting in Palo Alto, California, which was attended by all but two members of the US Board. A consultant was invited to the Board meeting to assist in bring the Board together into a stronger working team. The two-day meeting presented the Board with some challenges in organisation and future direction.

While in the US, the Cincinnati Zoo and Cathryn and Carl Hilker hosted both the Namibian Ambassador and Laurie Marker for three days of major activities, including meeting with the Editorial Board of the Cincinnati newspaper, meetings with business leaders and a dinner for the major donors and Board members of the Cincinnati Zoo.

Between October and November, CCF's Executive Director, Dr. Laurie Marker, conducted her annual fundraising and lecture tour. During the tour, she visited 3 countries (USA, Canada and Spain), 11 states and 15 cities. Several of CCF's Chapters held very successful events that brought in many new cheetah friends, as well as support for CCF's work. Highlights at these events included the Big Cat Big Party in Portland where Laurie presented retired Director of Wildlife Safari, Frank Hart with a Life Time Achievement Award. The Washington DC group held a very successful evening where Cathryn Hilker brought her cheetah and Anatolian Shepherd, which are a part of the Cincinnati Zoo's Cat Ambassador programme, to meet CCF supporters. Cathryn also brought this pair to New York for the Chase Foundation Annual Dinner where Laurie was honoured for her long-term efforts. At Cincinnati Zoo, the 3rd Angels of Music was held which brought together over 750 people for the fundraising event, along with five Broadway musical stars. In addition to these major fundraising events, Laurie was a guest speaker at the Predator Coalition Alliance's annual meeting in Yellowstone National Park, and was one of several conservationists at the first Wildlife Conservation Network's weekend in the San Francisco Bay area. In addition, Laurie gave a

presentation at the Annual EarthWatch Principal Investigator's Conference in Boston, Massachusetts.

Laurie also attended the US CCF board meeting in Florida. The two-day meeting presented the Board with some challenges in funding, organisation and future direction. Due to financial difficulties, CCF USA will be cutting back on some of its services and there will be major staff changes in 2003, and CCF Namibia will also restrict its programmes as well as trying to increase funding opportunities.

1.4 UK Fundraising

CCF UK held their Annual General Meeting in June 2002. Also in June, the Friends of Conservation (FOC) in London held a fundraising event for CCF. Following this, two meetings were held between FOC and CCF UK, to discuss further funding possibilities. In December, CCF's Executive Director met with members of CCF UK's board and representative FOC where a joint agreement was developed to partner with FOC in fundraising activities in the UK.

1.5 South Africa's Cheetah Outreach

Cheetah Outreach has continued to support the efforts of CCF through their educational outreach programmes and direct financial support. CCF is now assisting Cheetah Outreach by encouraging support for a major renovation project in 2002 at the Spier Wine Estate. Presently, most of the funds have been secured for this project.

I. International Meetings and Conferences

1. Cat Specialist Core Group Meeting

In October, Dr. Laurie Marker attended the Annual Core Meeting of the IUCN Cat Specialist Group, in Spain. This annual meeting had two primary goals: (1) to push the group's common and lasting business, and (2) to meet with the Cat SG members of the region and to review the status and conservation needs of the regional cat populations.

In Spain, the Core Group was asked to attend and assist in facilitating an international meeting for the Iberian Lynx (the most endangered cat species). In addition, the Core Group reviewed the progress of the Cat Specialist Group in 2002, and discussed plans for 2003.

2. Society for Conservation Biology Conference (SCB)

In June, Matti Nkgeumbu, Amy Dickman and Dr. Laurie Marker attended the annual SCB conference in Kent, UK. They presented two papers entitled, Cheetah Removal on Namibian Farmlands, Reasons, Rates and Conservation Implications, & Assessing the Ecological impact of Bush Encroachment on Namibian Farmland, and one of CCF's Round River Conservation Studies collaborators presented a paper on research conducted

at CCF. The conference provided a valuable opportunity to meet and discuss conservation issues with other researchers from around the world.

3. Vortex Workshop

In November, Dr. Laurie Marker and Amy Dickman attended a Vortex Workshop hosted by the Pretoria Zoo and the IUCN Conservation Breeding Strategy Group (CBSG). The three-day workshop gave participants a background in the use of the computer programme, Vortex, to model the long-term viability of small populations. The programme was used to model the sustainability of Namibia's cheetah population using CCF's demographic data.

4. People and Wildlife Conferences: Conflict or Co-Existence

In the latter half of the year, CCF staff attended three conferences on people and wildlife conflict. In October, Dr. Laurie Marker was an invited speaker at a conference in Yellowstone National Park in the USA, on predator coexistence. The title of her talk Namibia: Livestock and the Cheetah.

In December, Dr. Laurie Marker and Amy Dickman attended a wildlife conflict conference in London where they met with various members of the Cat Specialist Group. A few days later, Amy attended a third workshop in Oxford on the same subject and presented a poster by she and Laurie Marker entitled Cheetah Removal on Namibian Farmland, Rates, Reasons and Conservation Implications. Human and wildlife conflict issues are increasingly becoming an important issue in conservation, and CCF is recognised as a leader and model in resolving conflict.

5. Pan African Association of Zoos, Aquariums and Botanical Gardens (PAAZAB)

Mandy Schumann attended the annual PAAZAB conference in May in South Africa and presented a paper on entitled Cheetah Conservation Fund, In-situ and Ex-situ. PAAZAB members are interested in Africa's conservation programmes.

J. Media and Public Relations

CCF has continued to gain publicity in international and Namibian media, through news items and feature articles in the print media, and in television and radio broadcasts.

In January and February two international photographers and journalists spent time at CCF for articles that were published in UK and Germany. In addition, two TV programmes were filmed at CCF, one for a popular French station, and the other, which was an hour special by the Cincinnati Zoo on their support of CCF's work in Namibia.

Three additional TV programmes were filmed at CCF. During September, a popular Norwegian travelogue programme on Norway's TV2 station was filmed along with Nomados, a Berlin based video production team, for a travel themed

TV/Broadband/DVD series, which focuses on the environment and culture and is aimed at families, children and schools. In November, the BBC spent a week at CCF filming a programme called Animal Sanctuary with the popular presenter, John Craven that was broadcast in the UK at peak time Christmas/New Year 2002. A BBC website and an article in a large circulation Sunday newspaper (the Sunday Mail) complemented the work, was published in January 2003.

Several national and regional newspaper and magazine articles were published as a result CCF's Executive Director, Laurie Marker, having been chosen as one of this year's Audi Terra Nova Award Nominees. Laurie was chosen as one of the four nominees for 2002 at a ceremony in March in South Africa with Audi representatives and Dr. Ian Player, Audi's Patron of the Terra Nova awards. Each year candidates are nominated by the public and four finalists selected, who each receive R10,000 from Audi to help with their ongoing work.

By contact with journalists and sending regular news releases, CCF's profile in the Namibian media has been kept high. CCF achieved much coverage for the Annual Fundraising Dinner in July, the Waterberg Conservancy Annual Waterhole Count, and had articles in publications produced specially for the World Summit on Sustainable Development in August. These were distributed at the Summit, thereby reaching an international readership, and within Namibia. CCF also had an article in Conservation 2002 on CCF's bush project, an excellent annual publication, which reaches a worldwide audience by being distributed at main tourist outlets in Namibia.

In addition, several journalists, photographers and film crews have visited CCF gaining material, which will reach international readerships/audiences within the next six months. These include articles to be written for UK, Italian and South African publications and websites.

Approaches have been made to several UK magazine editors in order to publicise CCF within the UK, and gain support for CCF UK. To date, this has resulted in features on CCF in two popular magazines, Global Adventure and Cat World. Cat World has agreed, in addition, to a quarterly contribution from CCF. Approaches such as these will continue over the coming months.

Another focus has been including CCF in Travel Guides to Namibia. CCF will have editorial and advertising space in several guides produced within Namibia and South Africa, as well as international guides.

Adverts were developed for free advertising space granted in Africa Geographic magazine for the three month period, October to December, and complementary space was granted in others: South Africa, and Namibia Tourist and Leisure Destinations Solutions.

Finally, Laurie's fall lecture tour in North America was well covered, by media in the towns and cities she visited.

K. Visitors to CCF

During the past year, CCF had several special groups visit its Centre including several members of CCF's Science Advisory Board; Dr. Linda Munson, Dr. Sanjayan Muttulingam, Dr. Richard Estes, Jack Grisham, and Dr. David Wildt, as well as several members of the Global Cheetah Forum.

A group of executives and Board members of The Nature Conservancy (TNC), the largest NGO in the world, visited in September, accompanied by CCF Scientific Advisory Board member Dr. Sanjayan Muttulingam, who is also the Lead Scientist for TNC. TNC does not yet have a programme in Africa and were shown CCF to see how a successful conservation project can work in Africa.

A group of 26 Synergos Institute Senior Fellows were in Namibia as guests of the Rossing Foundation to attend the Institute's third annual meeting and attend a conference on partnership building, which CCF's executive director was invited to attend. The Synergos Institute is a non-profit organisation based in New York that works with local partners around the world to fight poverty. One of its activities is a Senior Fellows programme to bring together leaders at the pinnacle of their field of organised philanthropy to share their knowledge and experience related to the art and science of grant making for social change.

Following the Conference, the Senior Fellows visited CCF to learn about its community and education programmes on cheetahs, their habitat, and how conservation can help support local communities. CCF's innovative capacity building and training programmes help Namibians join in conservation efforts for economic change.

Raleigh group co-ordinators from around the country visited CCF for a day following their phase with Raleigh International. In addition, tour groups from the Natural History Museum in New York, the Philadelphia Zoo and the Washington DC National Zoo visited CCF.

L. Volunteer Programme

Volunteers are the backbone of CCF's programmes. In 2002, nearly 80 volunteers assisted including 44 Earthwatchers. EarthWatch volunteers have been assisting CCF since 1996 and four volunteers participate on a monthly basis for a two-week period.

In addition, three groups from the British youth development organisation, Raleigh International, each spent three weeks at CCF. The groups, composed of 12 volunteers each, and undertook finalising new cheetah quarantine holding pens begun by Raleigh teams in 2001, and the fencing of another cheetah holding pen.

Many other long-term and short-term volunteers were at CCF during the year. Some are volunteers from our US chapters, whilst others had related experience in animal or veterinary care, as well as business and marketing.

M. CCF Staffing

In September 2002, Johan and Tanya Britz joined CCF and replaced Edgar and Heike Dedig as Farm Manager and Accountant. Previously, Johan was a lecturer at Neudamm Agricultural College in Agriculture and Wildlife Management.

CCF's permanent staff includes:

Dr. Laurie Marker – Executive Director
Dr. Bruce Brewer – General Manager
Dr. Richard Jeo - Senior Ecologist
Siegfriedt Bandu !Aebeb - Community and Youth Relations Officer
Johan Britz - Farm Manager
Tanya Britz - Accountant
Amy Dickman - Senior Research Assistant
Fanuel Ekondo - Research Assistant and Assistant Farms Manager
Matti Nghikembua – Research Assistant & Education Officer
Gephardt Nikanor - Education Assistant
Bonnie Schumann – Senior Research Assistant
Mandy Schumann - Research Assistant
Mary Wykstra -Senior Research Assistant - Kenya
Cosmos Wambua – Ressearch Assistant - Kenya

CCF also supports twenty-one Namibian farm and domestic workers.

IV. PLANNED ACTIVITIES: January - December 2003

During the next 12 months CCF will:

- Continue work with farmers in cheetah related issues and reducing conflict.
- Continue with a tag-and-release programme and biomedical sampling.
- Collaborate with the Smithsonian Institution's National Zoo in reproductive physiology studies on male cheetahs at CCF's Centre.
- Collaborate with University of Davis and Namibian veterinarians on stress related disease research and collection of gastric biopsies. In February, all CCF's resident cheetahs will again be endoscoped and annual physicals conducted
- Continue radio-tracking programme, but the radio-tracking programme is being phased out.
- Continue work with the Large Carnivore Management Association.

- Continue work with the Global Cheetah Forum.
- Work with USAID, and the Ministries of Agriculture, Environment and Tourism and Trade and Industry on bush encroachment related research and bush industry development.
- Continue work with the Conservation Association of Namibia (CANAM) the Waterberg Conservancy and communal conservancies in wildlife, habitat monitoring, eco-tourism activities and promoting the concept of conservancies.
- Continue to expand the Livestock Guarding Dog Programme through breeding, placement and monitoring of dogs.
- Continue to expand CCF's community development programme with emphasis on youth groups.
- Continue to conduct educational assembly programmes in schools throughout Namibia and distribute and evaluate student activity books in collaboration with the Cincinnati Zoo.
- Host another semester of the Field College on Cheetah View in cooperation with Round River Conservation Studies.
- Host a three-week Conservation Biology and Wildlife Management course in cooperation with University of Namibia, the African Conservation Science Centre, and the Smithsonian Institution's National Zoo.
- Work with University of Namibia in developing a certification programme for Conservation Biology courses.
- Continue with student internships in co-operation with Namibia's Polytechnic and the University of Namibia and Oregon's Global Graduate Programme.
- Continue as a field station for Earthwatch and work with Earthwatch volunteers.
- Continue work with CCF's Namibian fundraising committee to recruit partnerships with local businesses.
- Assist with the development of CCF UK.
- Participate in the Inception Mission with the Iranian Cheetah Recovery Programme through United Nations Development Programme (UNDP).
- Assist Iran and Kenya with developing cheetah programmes in their countries as well as Botswana, Zimbabwe and South Africa.

- Publish peer reviewed scientific papers on CCF's research.
- Continue to host national and international journalists.
- Develop a strategy for Rhino Conservation on CCF and Waterberg Conservancy properties.
- Travel to the United States and the United Kingdom for fundraising and lectures.

EXECUTIVE SUMMARY

2003 has been a year of change and intense activity at CCF. Facilities are continuously improved: Eleven captive cheetahs were moved to the new 64-ha holding pen, while rhino infrastructure has progressed significantly.

Collaborative biomedical research involved work on 121 cheetahs compared to 100 in 2002. Gastric biopsies on captive and wild cheetahs increased from 52 in 2002, to 75 during this reporting period, while the number of semen samples stored in the Genome Resource Bank grew from 59 to 108. Eight scientific papers have been published this year, while eight more were submitted. As of 31 December 2003, CCF is housing 26 non-releasable cheetahs, compared to 23 in 2002.

Data on the Namibian farmland ecosystem is growing, with 51 game counts held on CCF farms this year. In addition, CCF coordinated the annual Full Moon Waterhole Count through the Waterberg Conservancy. The CCF Bush plant, our bush encroachment initiative, is now nearly ready to begin production of bush logs, and a marketing consultant has begun work to market and sell the bush logs internationally.

Four litters of Anatolian Shepherd Livestock Guarding Dogs were placed this year: 14 on commercial farms and 20 on communal farms. One puppy was kept at CCF as a breeding bitch. All puppies were vaccinated and monitored on schedule, while adult livestock guarding dogs were monitored as needed. CCF is currently developing a GIS map highlighting the location of all placed Livestock Guarding Dogs.

CCF's model farm welcomed two students from the Neudamm Agricultural College for six-week internships, and closed the year with 31 more cattle heads, 12 more goats, and 45 more sheep, for a total of 284 cattle, 149 goats, and 193 sheep.

Contact with farming communities is key to CCF's programmes. In 2003, CCF attended or made presentations at approximately 10 farmers' associations and conservancy meetings, in addition to individual farm visits. CCF also participated in eight agricultural fairs. The issue of predator problems was addressed directly, and through newsletters and media articles. CCF also continued to play active roles in organisations such as the Large Carnivore Management Association (LCMAN), the Waterberg Conservancy, and the Conservancy Association of Namibia (CANAM).

Developing a national pride in the cheetah through community-based conservation education is another important element of CCF's programmes. In 2003, 14 school groups visited CCF's Centre and Museum for day programmes, compared to 10 in 2002. The number of schools that stayed at CCF's campsites increased to 14 in 2003, for a total of 517 learners. Similarly, CCF hosted youth groups on its campsites for a total of 109 youth. The number of visitors to the Education Centre remained high at approximately 2000 in 2003.

As the second half of the year brought a shift in CCF's education focus as less schools were visited during this period, resulting in a decrease in the number of students reached through school visits. In addition, a virtual tour of the Education Centre has been published on CCF's web page for further outreach, and a new Education Officer was hired in December.

In collaboration with UNAM, the Smithsonian Institution (SI) of Washington, DC, and the African Conservation Science Centre, the first Conservation Biology & Wildlife Management training course was held in January, for 19 course participants. Along these lines, an Environmental Education course in collaboration with SI, Environmental Education and Conservation Global, is being organised for January 2004.

A key activity during this period was CCF's participation in the Environmental Educators Association of Southern Africa (EEASA) Conference in June. At this conference, we held a workshop that dealt with developing and implementing predator conservation into the formal curriculum and non-formal education in Namibia and throughout the SADAC region. As a result, a curriculum was submitted and is currently being reviewed by a panel led by the National Institute for Education Development (NIED). Participation in other workshops includes a Teacher Training Workshop, a Peace Corps teacher's meeting, and a workshop to evaluate the effects of HIV/AIDS on conservation. CCF also helped to organise and instruct a Game Capture and Translocation Course in September.

CCF held its first course on *Integrated Livestock and Predator Management* for 42 participants. The course, organised in collaboration with RISE Namibia, was intended for communal conservancy members, and extension officers of the Ministry of Environment and Tourism (MET). Because of the positive feedback, a manual based on the course topics is being compiled. The document will be printed in English and Afrikaans, and will be distributed to communal farmers, as well as to conservation and agricultural students.

Several Namibian and international students have conducted their research and in-service training at CCF. In addition, two CCF staff members graduated with a B-Tech from Polytechnic of Namibia as well as two students that completed their 6-month in-service training from the same institution, and two other staff members are working towards their Master's Degrees. CCF is also working with a Master's student from University of Natal. Training was provided at CCF for University of Namibia students, as well as students from Round River Conservation Studies, and three students from University of Oregon's Global Graduates programme.

As a member of the Otjiwarongo Tourism Forum, CCF is playing a key role in eco-tourism and the promotion of Otjiwarongo as the "Cheetah Capital of the World." The Forum is now in the process of publishing a business directory to attract investors to Otjiwarongo. CCF continues to host international visitors from renowned organisations around the world, and encourages them to stay within the Waterberg Conservancy.

CCF's research and conservation programme in Kenya has continued to lay solid groundwork in research, education and outreach of conservation of cheetahs and their habitat. In 2003, CCF Kenya conducted programmes in 24 schools, and made 16 presentations to tourists on the Great Cheetah Census campaign. In July, CCF Kenya hosted a workshop for 40 experts and supporters of cheetah conservation, with a follow up meeting in December.

CCF also continues to work closely with individuals and organisations worldwide, and in particular with groups in Iran, Botswana and South Africa on cheetah conservation.

Our fifth annual fundraising dinner and silent auction in Windhoek attracted 300 guests. The Namibian Prime Minister, Hon. Theo-Ben Gurirab, was the guest of honour, while Dr. Patrick Bergin, President & CEO of the African Wildlife Foundation, acted as the key note speaker.

CCF's Director travelled to the US three times this year to deal with CCF USA business, as well as for fundraising and lectures. Her fall tour, which also included Canada, covered 25 cities, with some 30 well-attended lectures and ample media coverage. While the US continues to be the major source of funds for CCF, efforts continue through CCF UK, CCF Canada, and Cheetah OutReach in South Africa.

The Director also attended five important international meetings and conferences, including the American Zoo Association (AZA) Annual Conference, and the World Parks Congress (WPC) in South Africa. The WPC is held once every 10 years, and Laurie was involved in the development of a new task force that deals with Human-Wildlife Conflict.

CCF's Public Relations efforts resulted in significant media coverage and feature articles internationally and in Namibia. Three film crews visited CCF in 2003, including one led by Jack Hannah of the Columbus Zoo and Busch Gardens, and another one by Peter Gros. Peter Gros is hosting an Animal Planet's Mutual of Omaha Special on Cheetahs of Namibia, filmed at CCF for several weeks in 2003 and scheduled to air in March 2004.

Volunteers continue to lend their expertise to CCF, either through EarthWatch, Raleigh International, or CCF's own Volunteer Programme. In 2003, 43 EarthWatch volunteers, 100 Raleigh team members, and 41 CCF volunteers were welcomed at CCF, including students, and professionals in animal or veterinary care, as well as various business fields.

At the end of 2003, CCF professional staff consists of 18 members, including two based in Kenya, as well as a veterinary technician and a reproductive physiologist sponsored by White Oak Conservation Center and the Smithsonian Institution, respectively. CCF also employs 19 farm and domestic workers.

I. INTRODUCTION

The Cheetah Conservation Fund (CCF), founded in 1990, has as its mission “to be an internationally recognised centre of excellence in research and education on cheetahs and their eco-systems, working with all stakeholders to achieve best practice in the conservation and management of the world’s cheetahs”. CCF undertakes basic research regarding cheetah and their habitat; maintains a major public education programme and creates and disseminates education materials worldwide; conducts programmes of community upliftment and predator conflict resolution; assists in the management of captive and free-ranging cheetah throughout the world; and publishes scientific papers on its research findings.

CCF's base of operations is in Namibia, which has the largest and one of the few sustainable populations of free-ranging cheetah in the world. The cheetah's survival depends on a total ecological system of farmland management, prey species management, and habitat stability. CCF’s Namibian focus is to work with livestock farming communities in order to develop ways to reduce conflict. This is achieved by devising a conservation plan that secures habitat for the species, while still accommodating farmers’ land use needs.

CCF carries out scientific research programmes in areas such as cheetah population biology, cheetah ecology, cheetah health and reproduction and human impacts on the cheetah. CCF researchers develop, test, and promote alternative land management practices such as conservancy development, non-lethal predator control, relocation of problem cheetahs, and eco-tourism. Additionally, CCF conducts both Namibian and international education programmes to raise awareness of the cheetah’s endangered status. These illustrate ways in which the species can be protected and encourages worldwide support.

II. ORGANISATIONAL STRUCTURE

The Cheetah Conservation Fund is an international organisation with registered organisations in Namibia, the United States, Canada and the United Kingdom. In 1991 CCF became a Namibian Voluntary Trust, with a Namibian Board of Directors comprised of leaders in the local community, business, agricultural and government sectors. In 2002, the Namibian Board completed the registration of the Cheetah Conservation Fund as a not-for-profit Section 21 Company, while CCF Canada registered as a charity in that country. Additionally, there is an International Science Advisory Board that assists in planning and advising on research projects. CCF’s Executive Director is assisted in the management and operations of CCF by a core professional staff, short-term volunteers, and students.

CCF’s International Research and Education Centre is the base for all CCF’s activities. The Centre is located near Otjiwarongo, Namibia on the farms Elandsvreugde, Osonanga, Boskop (Khayam’s Kopje), Cheetah View, Bellebenno, and Janhelpman, totalling 39,000 hectares. The farm base is in prime cheetah habitat and a wildlife friendly area, with

neighbouring farmers who believe in conservation ethics. This ensures a large prey population, which is important for the cheetah population.

CCF is an active member of the Waterberg Conservancy, which encompasses over 200,000 hectares of private farmland surrounding the Waterberg Plateau Park - a national game park dedicated to rare and endangered species. The Conservancy's farmers cooperatively manage the Conservancy's wildlife for long-term sustainability. This in turn provides habitat and prey base for the cheetah.

III. PROGRESS DURING REPORTING PERIOD: January – December 2003

A. Facility Developments

CCF developed and finished a new holding pen for captive cheetahs on the farm Bellebenno, where 11 non-releasable female cheetahs were moved. This pen was developed to allow more space for captive cheetahs and conform to the new government specifications on size, which is one hectare per cheetah, and Raleigh International assisted in the construction of the handling and feeding enclosures attached to the 64- hectare facility.

In the first half of 2003, a fence line was been laid out, and bush cleared for a perimeter fence that will enclose approximately 14,000 ha for a rhino fence. With the support of a grant from Bush Gardens, Raleigh International worked on the rhino sanctuary infrastructure. They built two natural water holes, and made improvements to a building that will serve as an anti-poaching patrol post. Raleigh also renovated two workers' houses during this reporting period.

B. Research

CCF staff conducts field research to gather data on distribution, behaviour, biology, demographics, livestock/cheetah interactions, and health of cheetahs. Farmers participate in the research through live capture of cheetah on their farms, assist in collecting biological samples and measurements, ear tagging, and release. They also report on other cheetah/livestock interactions.

CCF staff, assisted by volunteers, work directly with farmers on cheetah issues and collaborates with other researchers and institutions from the United States, Europe, Namibia and South Africa. This collaboration has allowed experts in genetics, reproduction, veterinary medicine, pathology and conservation to work with CCF thus expanding the use of this valuable data.

An extensive database has been developed, with new data continually being added. All samples are meticulously stored and serve as a reference database for future studies.

Eight papers were published during this period, including one in the *Journal of Mammalogy*, titled Morphology, Physical Condition and Growth of the Cheetah and two

by *Biological Conservation* titled Aspects of the management of cheetahs, *Acinonyx jubatus jubatus*, trapped on Namibian farmlands and Demography of the Namibian cheetah, *Acinonyx jubatus jubatus*. Eight more papers were submitted for publication, including Evaluating the effectiveness of livestock guarding dogs as a method of conflict resolution to the *Journal of Rangeland Management*. For a full list of papers, see the appendix at the end of this report.

Dr. Laurie Marker worked with Drs. Warren Johnson and Steve O'Brien on a genetics paper entitled: Patterns of molecular genetic variation in Namibian cheetah that will be submitted for publication in 2004, and with other authors on several other papers including: Factors affecting leopard (*Panthera pardus*) spatial ecology, with particular reference to Namibian farmlands; Factors influencing the spatial distribution of cheetahs (*Acinonyx jubatus*) on north-central Namibian farmlands; Notes on the spatial ecology of caracals (*Felis caracal*), with particular reference to Namibian farmlands; Conserving large carnivores outside protected areas: using the Namibian cheetah *Acinonyx jubatus jubatus* as a case study.

1. Population Biology

Between 1 January and 31 December 2003, CCF worked on 121 (76M, 44F, 1UNK) cheetahs. Of these, 29 (21 M, 8 F) were tagged and released back into the wild, 83 (52M, 30F, 1UNK) were captive animals receiving annual physical examinations at CCF and other captive facilities in Namibia, and 9 (4 M, 5 F, 1UNK) were necropsies. Two wild female cheetahs caught in a game farm near Gobabis are now in holding, and are due to be released pending recovery from a tendon injury that occurred to one of them in the trap cage.

One interesting case refers to two male cheetahs caught at a play tree. One of the cheetahs had an old injury to its knee, restricting movement to the leg, and may not have survived without its brother. Since both cheetahs were in excellent condition otherwise, and no confirmed losses of livestock to cheetahs were reported, the decision was made to tag and release both of them.

Five four-month-old cheetahs (2M 3F) were unable to be released. Three (1M 2F) were confiscated from a tourist show farm where they had been for two months. All three were showing severe signs of calcium deficiency, with hip, humerus, and anklebone fractures. All three are responding well to supplements however, two underwent orthopaedic surgery to correct the damage. The other two (1M 1F) were caught a month after their mother was shot for attacking a farm worker; she tested positive for rabies. Two cubs were emaciated when caught, and now are in quarantine and recovering well. A third cub died at the veterinary office the day of pick up by CCF from severe pleurisy and pneumonia.

One other cheetah also died in holding just a few days after arriving at CCF due to pleurisy. This cheetah was captured on a farm without a family and was too young to be on her own.

During 2003, one female and five young male cheetahs were placed on loan at Amani Lodge, where they are housed in a 10-hectare enclosure for tourism purposes. Another resident male was loaned to Aloegrove Safari Lodge.

CCF now houses 26 cheetahs versus 23 cheetahs at the end of 2002.

2. Health and Reproduction

In January, veterinary technician Jane Fink left CCF after her year of service, and was replaced by veterinary technician Audrey Pickup. Like Jane, Audrey is supported by White Oak Conservation Centre, and has worked in training Namibian students.

Of the 83 captive cheetahs worked on, 22 exams were performed at AfriCat, seven at Naua Naua, two at Aloegrove, one at Auas Game Lodge, and the remaining 51 at CCF.

2.1 Health Issues – Gastritis

Collaborative research continues with Drs. Linda Munson and Karen Terio, from the University of California Davis, investigating faecal cortisol levels in relation to the effects of stress on captive and wild cheetahs and the levels of gastritis in captive and free-ranging cheetahs.

Between 1 January and 31 December 2003, a total of 75 gastric biopsies were collected. Of those, 39 were collected on resident cheetahs, 20 were collected on free-ranging cheetahs that were tagged-and-released, and 16 were collected on captive cheetahs at other facilities. Dr. Arthur Bagot-Smith and Dr. Mark Jago carried out the majority of the endoscopies.

In June, one of CCF's non-releasable cheetahs began exhibiting health problems, vomiting, loss of appetite and lethargy. After de-worming and antibiotic treatments, she showed no improvement. She was transported to the Otjiwarongo Veterinary Clinic where a laparotomy concluded that she was suffering from a pyloric stenosis, an abnormal narrowing of the pylorus, which obstructs the flow of food from the stomach to the small intestine. Surgery was performed and she has made a full recovery.

2.2 Necropsies

Necropsies enable, thorough examination and collection of internal organs and tissues, to facilitate certain studies on overall health and diseases that would not otherwise be possible. Therefore, CCF asks to have access to dead cheetahs, whether as a result of trophy hunting, hit by cars, or shot by farmers.

Among the nine necropsies performed during the year, one cheetah was a resident at CCF that arrived in October 2002. She had a chronic foot injury that would not heal and was subsequently euthanised. There was a male shot for suspected calf predation, and a female cheetah shot by a 15-year-old farmer's son after one calf had been lost to predation by cheetah. Unfortunately, there were at least four cubs seen with her when she was shot, from the description provided by the boy, they were too young to survive on their own. Subsequent attempts by the farmer to capture the cubs have failed and their fate remains unknown.

2.3 Reproduction

Between 1 January and 31 December, Dr. Adrienne Crosier, a Post-Doctoral Reproductive Physiologist with the Smithsonian's National Zoological Park, in collaboration with CCF's Science Advisory Board member, Dr. David Wildt, worked on expanding CCF's Genome Resource Bank (GRB) and training CCF staff and UNAM Master's student, Josephine Henghali, in the basics of semen collection and processing, and evaluation of vaginal cytology samples.

Working with Dr. Mark Jago, the CCF team travelled to AfriCat/Okonjima, Naua Naua Game Lodge, and Alogrove Safari Lodge in Namibia to conduct a total of 19 reproductive examinations on captive male cheetahs and lions. In addition, working with Dr. Ulf Tubbesing and CCF staff, she travelled to Auas Game Lodge to conduct semen collections on two captive cheetahs.

During 2003, Dr. Crosier and CCF staff conducted a total of 76 semen collections on cheetahs and lions. This includes 32 CCF resident male cheetahs, 17 captive male cheetahs in other facilities, 20 wild-caught cheetahs, five lions residing at two nearby farms, one leopard, and one aardwolf.

Resulting from these collections, a total of 49 sperm samples were frozen for storage in the CCF Genome Resource Bank, which now contains a total of 108 sperm samples: 80 samples from captive cheetahs, 22 samples from recently wild-caught cheetahs, 3 samples from captive lions, 2 leopards and 1 aardwolf. These collections also provide information on the effects of diet, age, season, and repeat collection on cheetah semen quality.

During the first half of 2003, a total of 23 sperm samples were collected and analysed for the Cheetah Glycerol Toxicity Cryopreservation Study. The study examined the effects of adding antioxidants on cheetah sperm post-thaw quality. The manuscript entitled Effect of Glycerol Exposure and Temperature at Glycerol Addition on Cheetah (*Acinonyx jubatus*) Sperm Cryopreservation has been written and is awaiting final edits before submission for publication. Dr. Crosier also started data analysis and manuscript preparation for the study examining Cheetah (*Acinonyx jubatus*) Seminal Quality.

Finally, Dr. Crosier submitted a research and training grant to the National Science Foundation entitled Sperm Cryobiology in the Namibian Cheetah (*Acinonyx jubatus*) in collaboration with the Cheetah Conservation Fund.

3. Cheetah Ecology

CCF ceased its current radio-tracking programme this year. The programme was started in 1993 and represents one of the longest ongoing radio-tracking programmes of cheetahs. The results of this programme, that encompassed a study area of 17,928 km² and 42 radio-collared cheetahs, would not have been possible without the assistance and participation of Namibia's farmers. The paper entitled Factors influencing the spatial distribution of cheetahs (*Acinonyx jubatus*) on north-central Namibian farmlands on CCF's radio tracking is being finalised for submission for publication. Further evaluations will determine where and how future studies will be conducted.

4. Ecosystem Research

Assessment of the Namibian farmland ecosystem for long-term habitat viability for the cheetah and its prey is a part of CCF's on-going research. The farmlands support a rich prey base, as 70% of the country's game inhabits these areas. CCF assesses the farmland ecosystem and monitors the wildlife prey base available to predators in CCF's primary research area.

4.1 Game Monitoring and Prey Habitat Preferences

To assist in developing a game-monitoring programme for the Waterberg Conservancy, CCF continued ongoing wildlife monitoring on its farms, designed to understand patterns and trends of game density, movement, demographics, and habitat utilisation.

EarthWatch volunteers assist with this research on a monthly basis. Monitoring involves visual road counts, tracking and counting spoor, categorizing vegetation, densities and distribution, and soil analysis. CCF also monitors weather patterns such as rainfall, temperature, and correlates these with its ecological research.

Data collected since 1995 has been analysed and a final manuscript entitled Assessing Ecological Impacts of Bush Encroachment on Namibian Farmlands has been submitted to the Journal of African Ecology for publication.

A total of 51 game counts were conducted during this reporting period, and all data was entered into the database, in addition to the annual Full Moon Waterhole Count. Additionally, CCF conducted eleven spoor-tracking surveys, all of which have been entered onto the database. A Master's student from the Ministry of Environment (MET) has been working with CCF's director on analyzing the spoor count data from 1995 to 2003.

4.2 Full Moon Waterhole Count

The August 2002 Waterberg Conservancy Full Moon Waterhole Count results were completed by Ezequiel Fabiano, CCF intern from UNAM. CCF staff worked with Conservancy members to plan the 2003 Waterhole Count held on 12–13 July 2003. CCF was responsible for conducting participants' orientation, preparing record sheets and identification guides and transporting counters between Otjiwarongo and CCF, as well as placing counters at most waterholes. About 70 counters participated in the waterhole counts consisting of youth volunteers, EarthWatch volunteers, Waterberg Conservancy workers, Daktari farm students, and CCF staff.

Prior to the Full Moon Waterhole Counts, CCF conducted at least six replicate strip counts around all of its farms. These consisted of three counts before the waterhole counts, and three after the waterhole counts. The results of the strip counts were analysed, and will be compared with the waterhole count results.

4.3 Giraffe Identification and Census

There is a population of approximately 35 giraffe on the CCF game farm, Bellebenno. CCF staff and volunteers began conducting a giraffe census and identification project. A giraffe identification booklet was created, using photos and identifying markings and is being updated as identification continues. The long-term goal will be to habituate the giraffe for eco-tourism and begin to understand the herd dynamics and population structure. Over time, CCF is looking at releasing some of these giraffe onto their farm within the Waterberg Conservancy.

4.4 Bush Encroachment Bio-diversity Studies

Harvesting of thickened bush progresses by the efforts of CCF Bush employees. By August a team of 10 harvesters and chippers had been employed.

One of CCF's Research Assistants has begun her wood use surveys in the North as a part of her Master's degree.

To ascertain reliable methods and conditions for drying wood chip, CCF conducted mini surveys to estimate the moisture content for the chipped wood at CCF. Results obtained indicated moisture content of about 7 % – 8 %. These results are likely to be affected by factors such as rainfall, and relative humidity of the atmosphere. Future experiments link with the Ministry of Agriculture laboratories.

An assessment for biomass estimates, woody species, and density was conducted during January within the CCF economic plots. In addition, bird surveys were conducted at CCF's farm Cheetah View, and CCF economic plots by a bush team consisting of Maija Nghikembua, and Salmo Djuulume. Preliminary reports for the bird surveys and bush were compiled. In addition, we also demarcated the sample areas by means of a GPS, and

metal posts for future reference purposes. CCF's Bush Project director met with the Energy Directorate of Mines and Energy to discuss biomass initiatives, and with a multi-ministry group trying to reform and broaden the charcoal industry.

In addition to our own research staff evaluating areas, we have met with the Research Director and Acting Director of Forestry, and have requested that their teams verify our findings.

Our revised variable costs sheets indicate that we will need about 60 tons of harvested bush per day of log production in the plant. At the Namibian guesstimate (yet to be verified) of 10 tons per hectare, that means harvesting 6 hectares per day. For job-creation purposes this is good news. It would require about 30 harvesters if done all manually.

A USA-made chipper arrived in August and the chipping team began scaling up both harvesting and chipping dramatically. Prior to the American chipper, we made some progress using the less expensive South African model and believe we can eventually lease that out to an entrepreneur.

During the past six months, a building in Otjiwarongo has been leased and the bush log process plant has been fabricated using locally trained welders and equipment purchased from South Africa. The installation of the necessary electrical transformer was completed in December. We are still in discussions with the municipality of Otjiwarongo for registration as a manufacturing facility; this will be complete after the plant is in operations. A marketing consultant will join the CCF Bush team in January to develop the sales and marketing plan.

We currently employ 14 Namibians for the bush project.

C. Human Impacts

Livestock loss to cheetahs is an economic and emotional issue. While farmers perceive cheetahs as having an excessive economic impact on their livestock and wild game industries, many Namibian farmers have done little, from a management perspective, to alleviate their problems in a non-lethal manner. By addressing the farmer's conflicts with predators, CCF is devising a conservation and management strategy that benefits both humans and cheetahs, thus ensuring the species' survival on livestock farms. Over the years, CCF has seen greater awareness and better farm practices.

1. Livestock Guarding Dogs Programme

CCF's Livestock Guarding Dog programme (LSGD) has continued to grow with 119 Anatolian Shepherds working with livestock on both communal and commercial farms through December 2003. Anatolian Shepherds provide a method of non-lethal predator control that protects the farmer's livelihood, while conserving predator species. The dogs

are monitored by CCF in a bi-annual evaluation, and monthly for puppies during the first six months.

1.1 Puppy Placements

Since 1994, over 200 Anatolian Shepherds have been placed as livestock guardians. A total of 34 puppies were placed during 2003: 15 from two litters born in December 2002, and 19 from litters born in June and September 2003. A total of 20 puppies went to communal farms, while 14 were placed as commercial dogs. Of the commercial dogs, one will be placed as a breeding bitch in Karasburg, in the south of the country. In addition, CCF kept one as a breeding bitch. All other puppies were sterilised and given their first vaccinations at the age of eight weeks prior to being placed.

1.2 Follow Up on Prior Placements

CCF vaccinates and checks up on puppies placed on communal farms at 12 weeks of age, while commercial puppies are followed up with telephonic progress reports at 3 and 6 months of age, or randomly when necessary.

During 2003, CCF's Mandy Schumann made commercial farm visits to follow up on some placements, while telephonic progress calls were made throughout the year.

As for communal farms, CCF staff performed 11 checks on adult dogs, and completed vaccinations and check ups on 24 puppies. CCF supports the medical costs of dogs living on communal farmlands. In addition, CCF was requested to collect a 6-month old dog from a communal farm in Okakarara. The dog had tick fever, was treated at CCF, and returned to the farm after about one week.

It should be noted that, while the demand for Anatolian Shepherds in communal areas is on the rise, a lot of effort is needed to encourage farmers to care properly for their guarding animals throughout their lives to yield good results. This includes proper feeding and nutrition.

A total of ten dogs were returned to CCF or taken from their owners due to negligence or ill treatment. Five of these were successfully re-homed, one was transferred ownership but remained at the same farm, while four were unsuitable as working dogs, and were placed as pets. A further seven dogs were reported to have died.

1.3 Collaboration with Other Breeders

In January 2003, CCF obtained a new male puppy from a breeder in South Africa that will be used as a new breeding male. This puppy is being raised with CCF's goatherd.

1.4 Donations

Science Veterinary Diet continues to donate a 2 kg bag of puppy food and a bowl for every puppy placed. CCF's director recently discussed the donation of all dog food for the LSGD programme with IAMS Dog Food Company when she was in the US. Negotiations will continue.

1.5 CCF's Farm - Livestock and Dogs

CCF's farm provides the opportunity to practice and experiment with optimum methods of livestock and farming management practices, and one of CCF's farms is an active cattle and small stock farm. In addition, one farm is used for grazing donkeys that are used as feed CCF's non-releasable cheetahs. CCF has two major small stock herds (goats and sheep) each with breeding groups of Livestock Guarding Dogs.

During January, two students from the Neudamm Agricultural College underwent a training programme on CCF's model farm to learn about farm management practices, including non-lethal predator control. The students also assisted with CCF Bush project research.

At the end of this reporting period, CCF farming operations had, in total, 248 sheep, 159 goats, and 284 cattle. In addition, five horses and five donkeys are being used for farm work.

1.6 CCF LSGD GIS Map

CCF's Matti Nghikembua is developing a GIS map for the past and current location for all LSGD placements on the communal and commercial farms in Namibia. The GIS map will highlight their current locations, as well as areas where dogs were relocated, or where they died. We expect to complete the map by the early 2004.

2. Contact with Farming Communities

This year Agricultural shows were attended by CCF in both the communal and commercial farming areas. CCF was represented at the following shows: Otjinene, Talismanus, Okondjatu, Okamatapati, Gobabis, Grootfontein, Otjiwarongo and Windhoek. These shows present an ideal opportunity to raise conservation awareness and promote good livestock management. During these several day shows, CCF staff talked with hundreds of Namibians.

Between 1 January and 31 December, CCF staff made presentations to commercial farmers' associations at Omitara and Okahandja, and attended Platveld meetings, of which CCF is a member. In September, CCF presented talks to members of a commercial conservancy, Swakoptal, concerning Predator Friendly Beef.

CCF visited the northwestern and western communal areas following requests for help with predator problems from communal farmers in these areas. The Elephant Corner conservancy is investigating alternative solutions to predator conflict, with particular

reference to the cheetah, and has included predator conservation in their conservancy mandate. However, in order to promote tolerance of the cheetah by the community, livestock conflict issues need to be addressed.

CCF's Community Development Officer spent several days in one of the communal areas in the Grootberg area, and conducted a survey. The survey looked at livestock and predator management issues as well as the farmers' attitudes towards wildlife in the area.

CCF's Fanuel Ekondo conducted a survey in 2 of the 4 emerging communal conservancies in the eastern communal land (Otjozondjupa region). The duration of the survey was 10 days and 45 villages were visited in the Okondjatu and Okakarara districts. The survey looked at livestock and predator management issues as well as the farmers' attitudes towards wildlife in the area. This survey was the basis of Fanuel's B-Tech thesis.

Staff also addressed communal farmers in Uis in the southwest, as well as the Khorixas area and to MET extension officers. The talks provided a brief outline of CCF's research work and also focussed on the correct identification of predators causing problems as well as various solutions including livestock management practices and non-lethal predator control that can help reduce losses.

Predator conflict and solutions were discussed at length during these meetings, resulting in a request for a training workshop for the community game guards, known as shepherds. Although appointed as game guards, these members of the community have no training concerning identifying the culprits of livestock predation, tracking, and livestock management. In collaboration with ex-CCF employee, Don Muroa, now working at RISE (an NGO working with communal conservancies in the area), CCF organised a workshop at the end of July for 42 participants from communal conservancies.

Independent farm visits were carried out to farmers who had not caught cheetahs but who were experiencing predator problems with livestock or game. This provided the opportunity to discuss various cheetah and livestock issues with the farmers concerned. In one case the calf losses proved to be from leopard and not cheetahs as the farmer suspected, while it appeared that a cheetah had caught some goats.

CCF staff continued to deal with multiple calls from farmers looking for information and discussing predator problems. Packages consisting of articles on problem animals, the newsletter, and the book published by CCF are sent to all farmers contacting CCF. In many cases farmers were put into contact with other farmers to share information on the use of donkeys to protect cattle, in particular.

Through direct contact with individuals, farmer association meetings, and a bi-annual Farmer's Newsletter, CCF informs the community of its progress and encourages it to remain actively involved in all aspects of its programmes. All farmers CCF deals with

are given a copy of CCF's book entitled *Cheetah Survival on Namibian Farmlands*, which has been published in both English and Afrikaans.

During 2003, newsletters were produced in February and September and mailed to over 3,000 people in Namibia, and about 800 internationally, updating them on CCF's activities and research findings. Numerous articles were written for the press, Agriforum and Outjo Extension Newsletter; the Outjo articles were translated into Afrikaans by CCF staff. A press release issued by CCF on this year's calving season gave way to an interview with Namibian national radio and an interview with NBC TV.

3. Large Carnivore Management Association (LCMAN)

CCF staff regularly attends LCMAN meetings. During 2003, CCF hosted August meeting. The Group consists of members from the Ministry of Environment and Tourism (MET), NGOs, farmers, and veterinarians concerned with carnivore conservation. Issues that have been dealt with include legislation on carnivores, captive holding, the value of live animal exhibits at agricultural shows, trophy hunting, and guidelines for animal use in the film industry. CCF's Bonnie Schumann was re-elected as the Association's Secretary for 2003.

4. Waterberg Conservancy

CCF remains active in the Waterberg Conservancy and hosted the Conservancy's AGM. CCF's Dr. Laurie Marker was elected as the ecology representative for the group, and coordinates the data collection from the 24-hour full moon waterhole count. CCF continues to promote and support eco-tourism within the Conservancy.

During the year, the Conservancy addressed the possibility of creating a sub-division for the East and West areas. In addition, CCF has been working with MET to develop a Rhino Sanctuary. A group from MET's Rhino Custodianships programme visited CCF's lands to evaluate it for holding rhinos, and recommended that CCF become a Rhino Custodian.

5. Conservancy Association of Namibia (CANAM)

CANAM is an umbrella body for the promotion of conservancies in Namibia. Conservancies encourage sustainable utilisation of natural resources through co-operative management, based on sound conservation principles. During 2003, Dr. Marker attended 4 Ex-Com meetings serving as the Vice-Chair of CANAM, and at the AGM in May she was elected as the new Chairwoman of CANAM.

At the AGM, CCF made two presentations; the first was about CANAM joining CCF towards the promotion of 'Predator Friendly Beef' (Cheetah Country Beef) that would be marketed with a price premium. CANAM agreed to work in partnership towards the goals of developing this programme. As a result, a meeting was held with CANAM Ex-Com and members of Meat-Co on this programme.

The second presentation at the AGM was to present an idea as to how to promote conservation and land use on a national level. In general, CANAM was willing to have CCF investigate the idea with other conservation organisations throughout the country. Both the Predator Friendly Beef, and the conservation initiatives will be a focus for CANAM during the next year.

CCF director lead a vision workshop for CANAM in November to identify CANAM's goals for the future. This led to another meeting that was held in December, to bring stakeholders together to discuss the commercial conservancy working closer with the communal conservancies. This meeting had as a basis to bring together a working group to promote conservation and land use on a national level.

Conservancies and their wildlife management techniques will continue to be extremely important for long-term cheetah conservation. CANAM continues to grow and the new executive committee appears active and committed to seeing the organisation grow.

D. Education Activities

Public education and the development of an active grassroots constituency are integral components of CCF's overall cheetah conservation programme. CCF is educating farmers, teachers and the public about the need and methods to conserve Namibia's rich biodiversity, and the role of the cheetah and other predators in healthy ecosystems. Public education and the development of national pride in the cheetah are critical to its survival.

1. Schools and Community Education

Between 1 January and 31 December, over 9000 people attended a CCF educational programme, either at the Centre or through outreach programmes. This number includes learners, teachers, youth group members and day visitors.

1.1 Education Outreach

During the first half of 2003, CCF talked to over 5700 students and 70 principals and teachers in schools in Windhoek, and throughout the Erongo and Khomas regions, for a total of 40 presentations. The second half of 2003 brought a shift in focus and needs, and therefore education outreach programmes in schools decreased. During this time, CCF reached approximately 680 children, and 30 teachers and scout leaders during two important educational events.

Students were generally excited to take part in CCF's programme, and the demand for presentations at schools continues to increase, especially in rural areas. Interestingly, in rural schools Afrikaans was preferred to English. While several other Namibian languages are used, CCF will continue to teach mostly in English. To this end, two

student activity books were finalised with Cincinnati Zoo and will be published for use in 2004 school programmes.

In July, CCF was invited to take part in the Khorixas Region Science Fair held at the Westside High School in Swakopmund. The Fair was attended by 590 learners. CCF staff participated in the jury panel for Biology and Marine projects for grades 1–5 students. Learners from different schools from the Khorixas Educational Region exhibited their projects that day. Learners entered different categories such as Biology, Mathematics, and Water. CCF also put up a stand to showcase its programmes.

In August, CCF and the Namibian Environmental Educators Network (NEEN) assisted the National Scouting Movement in presenting Environmental Conservation activities at their National Scout Camp. The scouts were divided in different groups, and each group collected samples of plants and animals. The samples produced an inventory of the biodiversity found on the farm. The event presented CCF with a unique opportunity to meet and communicate with 92 children in a conservation setting outside CCF. At the same time, CCF was able to meet nearly 30 scouting representatives and teachers from around the country, and to convey its conservation message to non-formal environmental education organisations.

1.2 CCF's Field Research and Education Centre

CCF's Field Research and Education Centre continues to receive visitors from schools, regional youth groups, youth officials, tourists, teachers, health officials, farmers, conservation and agriculture extension officials, students and the general public.

The Centre provides on-site public education and student training to local students of all ages, and Namibian and foreign university students. It allows students to be exposed to CCF's integrated research programmes on the cheetah's ecology, habitat and prey base, and the demonstration of CCF's non-lethal livestock/predator management techniques. Participants are exposed to the issues affecting the survival of the cheetah by participating in various interactive activities and presentations, and to factors that affect conservation efforts at community level.

On average, CCF's Centre had two to three groups of visitors each day, totalling nearly 1900 visitors during 2003. The majority of the day visitors were from the European Union and South Africa; however, more Namibians appear to be visiting CCF. Visitors are highly impressed by CCF.

Among those visiting the Centre were 39 soldiers from the Ministry of Defence's Otjiwarongo Military Base. This was a significant visit for both the soldiers and CCF. Also, 15 students from the Polytechnic of Namibia's Nature conservation department were hosted for a day visit.

Finally, CCF published a virtual tour of its Research and Education Centre on its web page.

1.3 Youth Forums and Schools

Organised education programmes at CCF are designed mainly for groups accommodated at the either CCF's Wilderness Camp or tented Camp Lightfoot. CCF hosts school and community groups, exposing them to different environmental education activities including a Nature Trail, team building activities, games, and other environmental awareness activities. Groups usually spend two nights with CCF. All participants are exposed to CCF research and conservation efforts by presentations, and to the Namibian farmland ecosystem through the nature trail. Team-building activities are designed to highlight the importance of team efforts in conservation. Role-play and drama are also included in the programmes and include scenarios of livestock and predator management.

Between 1 January and 31 December 2003, 14 school groups stayed at CCF's campsites, and 5 youth groups. A total number of 517 learners and 109 out-of-school youth took part in these 3-day Centre-based programmes coming from throughout Namibia, including Khorixas, Otjiwarongo, Oshakati, Usakos, Windhoek, Outjo, Walvis Bay, Gobabis, Kalkfeld, and Swakopmund. In addition to this a school from Australia stayed at CCF for 4 days in September to learn and also helped with several work projects around the Centre. All overnight groups were accommodated at Light Foot campsite. In addition, 14 schools visited CCF on site for day visits.

The learners, youth, teachers and youth officials that have visited give positive feedback about their stay at the Centre. Many of the visiting youth report that their visit at CCF is not only their first opportunity to see wildlife, but their first trip outside their village and towns. For other youth members, who came from farms with high predator populations, CCF's education programme provides another perspective on the reality of farmland predators, as they often see cheetah and leopards, but mostly perceive them negatively. During a CCF visit, youth see the cheetah in a more positive situation and as the predators that are trying to survive in a difficult and limited habitat.

One key objective of the youth forum visits is to see how various activities can be coordinated and how they can contribute to environmental conservation. Apart from being exposed to CCF programmes and presentations, the youth are also asked to identify local and regional environmental problems, their causes and effects. Issues identified by the groups that affect conservation development include lack of commitment by youth and inadequate support from local businesses, community, and authorities.

One of the greatest challenges CCF faces is assisting groups to obtain funding to visit the CCF Centre. Although the Centre is free of charge to student groups, it is unable to provide transport or food for the groups. Even this extra cost is difficult for many youth and school groups to obtain due to their limited access to funding. The need for increased transport funding is vital to make the Centre accessible to more farmers and youth in Namibia.

1.4 Education Workshops

CCF participated in the Environmental Educators of Southern Africa (EEASA) conference during June 2003. At this international conference, CCF held an afternoon workshop that dealt with developing predatory conservation education and its implementation into the formal curriculum and non-formal education. The first part of the workshop included papers by CCF and Cheetah OutReach on implementing Predator Conservation in the Education Curriculum.

CCF presented a paper entitled *Challenges Facing Predator Conservation Education in Namibia*, drawing on the lessons learned from CCF's education programme, and on challenges facing predator conservation in Namibia, and in developing and implementing predator education. Cheetah Outreach Education Officer Dawn Glover presented a paper entitled *Predator Conservation Education In South Africa*. A panel discussion followed on lessons learned by other people involved with education in both formal and informal programmes and presented by Karen Knot from the IRDNC, David Sampson from NEID, and Sue Benedette from FAO.

The third part of CCF's workshop was a round table to discuss how to get predator education into the formal curriculum in Namibia and throughout the SADAC region, and how to get Predator Education into non-formal education nation and region wide. Over 10 invited participants along with CCF education staff joined in the round table discussion.

CCF student volunteer Carola Zardo, from Cheetah Outreach in Cape Town, worked actively on coordinating CCF's participation in the Conference, as well as its workshop.

As a result of this workshop, in August 2003 CCF staff members Gebhardt Nikanor and Matti Nghikembua, with CCF volunteer Ron Gray, met with the curriculum developers at National Institute for Education Development (NIED) in order to discuss requirements for submitting curriculum materials. The curriculum was submitted to NEID in September for a panel review. CCF is currently following up with NIED in order to receive feedback concerning the outcome of the panel review.

CCF was invited to present a Teacher Training Workshop at the Windhoek Teacher College on the 21 October 2003. About 70 teacher students participated in the program. CCF's presentation focused on recommended predator education activities, which correspond to the formal education curricula for grades 5 – 7, and the use of the CCF's Teachers' Resource Guide. The college expressed interest in having CCF back for future workshops.

In November, CCF was also invited to participate in a panel of discussion. The aims of the panel were to familiarise the new Peace Corps volunteers with the role of various NGOs in Namibia, and to develop contacts with relevant NGOs. About 20 people participated in the CCF presentation. Peace Corps has extended an invitation to CCF to attend a ceremony in Okahandja on the 9 January 2004.

1.5 Library Development

In May, CCF staff presented learners at the Rogate School in Otjiwarongo with more books and art supplies as well as a check for N\$1400. These items and the check came from pen-pal school children in Cincinnati, Ohio, USA. Through CCF, a long-term friendship between Rogate and schools in Ohio has taken place since 1994.

The recent donations came from The Greater Cincinnati Academy, a private school of 30 children. One of the students, Rachel Samuels, a 13 year old, raised the money through bake sales of cookies and cupcakes at her school. The cookies sold for N\$2.00 (\$0.25 US) each, so she raised the money for Rogate 'one cookie at a time.' The Rogate School will use the money for their school improvement projects. The book donations have provided the opportunity for the school to develop a library.

The Namibian Broadcast Corporation (NBC) news crew was present to record the donations of the books.

1.6 Guide for building hides

During this reporting period, CCF was approached by the Ogongo Agricultural College and the Ministry of Environment and Tourism (Ondangwa / Oshakati) to provide guidelines for constructing game viewing blinds. All relevant information, consisting of pictures, required materials, and a basic design outline, were forwarded to the College, and the Ministry.

2. Education and Training at CCF

2.1 Conservation Biology Field School

The first Conservation Biology & Wildlife Management training course for Namibian undergraduate and post-graduate students was held in January as a result of a collaborative effort between the University of Namibia (UNAM), the Smithsonian Institution of Washington DC, USA, the Cheetah Conservation Fund (CCF) and the African Conservation Science Centre.

The 19 course participants included students from the University of Namibia, Polytechnic of Namibia, and representatives from the Ministry of Environment and Tourism (MET) and Wilderness Safaris. The course director was Dr. Martin Mbewe of UNAM, and the course co-ordinator was Dr. Rudy Rudran of the Smithsonian Institution National Zoological Park Conservation & Research Centre. Both Drs. Laurie Marker and Adrienne Crosier from CCF worked closely in course coordination while at CCF.

Half of the course was spent at CCF, where most of the practical components took place, while most of the lectures took place at UNAM. Course participants were accommodated at CCF's Cheetah View Field Research Station. Course components encompassed

principles of both *in-situ* and *ex-situ* conservation, including lectures and field excursions in genetics and field ornithology, laboratory modules, trainee seminars and mini-research projects conducted by the students themselves.

Expertise on Namibian flora and fauna was provided by local guest speakers such as Dr. Hu Berry of the CCF Scientific Advisory Board; Dr. Ulf Tubbesing, private veterinarian from Windhoek; Dr. Betsy Fox from the Ministry of Environment and Tourism; Dr. Keith Leggett of the Desert-Dwelling Elephant and Giraffe Research Project of Namibia; Blythe Loutitt from Save the Rhino Trust; and the staff of the Cheetah Conservation Fund which gave research presentations and practical examples of conservation in action.

Other course instructors from the Smithsonian Institution included Dr. David Wildt, Head of the Department of Reproductive Sciences; Dr. Rob Fleischer, Head of the Genetics Programme at the National Museum of Natural History; Dr. Jon Ballou, population geneticist; Jon Beadell, population geneticist; and Craig Saffoe, cheetah keeper.

CCF staff is helping to organise an Environmental Education course, a collaborative effort between the Smithsonian Institution, Environmental Education and Conservation Global, and the Cheetah Conservation Fund, to be held in Namibia in January 2004.

CCF received two other groups of about 50 students from the Natural Resource Management, and fisheries departments of the University of Namibia. The groups were accommodated at Cheetah View Field Research Station, one group stayed for four days and the other two days. The students were exposed to field research methods, data analyses, CCF projects, and the scientific and management aspects of cheetah conservation in Namibia. The University would like to continue with the CCF visits because of the theoretical and practical nature of CCF's research.

In collaboration with RISE Namibia (Rural-People's Institute for Social Empowerment in Namibia), CCF hosted and presented a training course titled *Integrated Livestock and Predator Management* at CCF in August this year. CCF initiated the course following requests for training from some of the communal conservancies CCF visited earlier this year.

Forty-two participants attended the course, consisting of 35 shepherds (community game guards) representing five communal conservancies, four MET extension staff members, two RISE staff members, and one CCF staff member. The five communal conservancies represented were =Khoadi //Hoas, Tsiseb, Doro !Nawas, Torra and Otjimboyo. Otjizondjupa's Regional Councillor, the Honourable Lukas Hifitikeko, opened the course on Monday night, while NACSO (Namibia Community Based Natural Resource Management Supporting Organisation) helped sponsor the course.

The three-day course covered topics ranging from correct predator spoor identification, livestock management to reduce losses, livestock husbandry and wildlife management. The 42 participants were given the opportunity to put theory to practice and test their tracking skills by investigating mock predator kill sites in and around CCF's goat kraal

during practical training sessions. Spurred on by Don Muroua's (of RISE) convincing performance of an irate farmer who had just lost a prize goat to an unknown predator, teams of participants used their Predator ID Sheets developed by REST (Rare and Endangered Species Trust) to figure out which predators had taken the livestock.

Johan Britz, CCF's farm manager, taught participants in the lecture room and kraals about livestock quality and selection, and discussed ways to improve calving percentages and to reduce livestock losses to predators. Dr. Arthur Bagot-Smith discussed livestock health and disease issues with participants, while Harry Schneider-Waterberg, chairman of the Waterberg Conservancy, discussed integrating livestock and wildlife management in conservancies and the value of conservancies.

CCF's Fanuel Ekondo dealt with the selection of livestock guarding dogs and Mandy Schumann lectured on correct predator ID, including looking at killing techniques and spoor identification. Field trips included an afternoon visit to REST where Maria Diekmann discussed the plight of the Cape Vulture in Namibia, the role of scavengers and the effects of the injudicious use of poisons on the environment.

At the beginning, and then again at the end of the course, participants filled out questionnaires CCF developed to assess how much participants had learned. All participants completed questionnaires during practice exercises, and later reviewed them to identify problem areas.

CCF and RISE received positive feedback from all the course participants. The game guards will go back to their communities and share what they have learned so that livestock and predator management can be integrated into conservancy actions.

A manual has been compiled from the course contents and steps are underway to get it printed in both English and Afrikaans. This document will then be available as an informative guide to integrated predator and livestock management for farmers, conservation and agricultural students.

In September, CCF participated in a workshop to determine collaborative interest and input for the proposed project to evaluate the effects of HIV/AIDS on conservation in Namibia, and helped to organize and instruct at the Game Capture and Translocation Course held in September 2003.

2.2 CCF Staff Education

CCF's Education Officer, Matti Nghikembua, who finished his B-Tech in Natural Resource Management at the end of last year, and Don Muroua, CCF former employee, both graduated from Polytechnic of Namibia. Siegfriedth !Aebeb, CCF's Community Development Officer was enrolled in a community development correspondence course.

Research Assistant, Josephine Henghali, a Master's Degree student at the University of Namibia, completed more training in veterinary clinic procedures, including animal

handling and monitoring, faecal evaluations, procedure set ups, blood drawing and processing techniques, data entry and inventory control. Due to her training during the previous year in collecting, evaluating, processing and storing sperm, Josephine is now able to carry out this procedure on her own. During this period, she has been learning how to evaluate vaginal cytology using domestic dog and cheetah smears. Josephine continues with her studies through a scholarship from the African Wildlife Foundation (AWF), including an extensive survey in northern Namibia to evaluate human attitudes towards wildlife, investigating the depth of knowledge of the health issues of livestock, and asking questions about wood use for fuel.

CCF's Fanuel Ekondo concluded a survey in 2 of the 4 emerging communal conservancies in the eastern communal land (Otjozondjupa region). This survey was the basis of Fanuel's B-Tech thesis, and is currently being reviewed by the Polytechnic of Namibia.

Research Assistant Mandy Schumann initiated work towards a Master's Degree in Conservation with a paper preliminarily titled Evaluating Human/Predator Conflict Resolution Techniques with Namibian Conservancies with Special Reference to the Cheetah.

Finally, CCF's Director is working with Master's student Raili Hasheela in the completion of her degree. Raili started her Master's in Environment and Development at the University of Natal, South Africa, in January 2003, and expects to obtain her degree by March 2004. Her research paper is entitled Evaluation of the Spoor Count Technique for Estimating Cheetah *Acinonyx jubatus* Abundance in Namibia.

2.2 CCF In-service Training and Field School

CCF hosts groups from institutions of higher learning, and assists in teaching at CCF's field school by providing in-service training for local and international undergraduate students.

Corris Kaapehi and Kaangu Nguasananongombe, two second year students from the Polytechnic of Namibia enrolled in the National Diploma in Natural Resource Management (Conservation) programme, completed their six-month training at CCF. During their training, two research projects were completed: Determining Species Richness and Diversity in Bush-Encroached and Recently-Burnt Areas at Farm Cheetah View, and Examining Habitat Use by Mammals (Herbivore & Carnivore) in Recently Burnt, Bush-Encroached Areas in Farm Cheetah View. In addition to their main research papers, the students assisted with the Education Centre duties, game counts, and all other areas of CCF's programmes.

In January, two University of Namibia BSc Agriculture students from the Neudamm Agriculture College completed a six-week internship and practical work experience at CCF. Both students undertook practical and theoretical training, and worked with CCF's cattle, goats and sheep, as well as on CCF's Bush Project.

Between February and May, five American students and one student from the University of Namibia completed the Utah State University accredited Round River Conservation Studies course, which is based at the Cheetah Conservation Fund's field station, Cheetah View. The aim of the course is to teach undergraduates about applied conservation biology and various field biology techniques. Two of CCF's staff members, Amy Dickman as programme manager, and Josephine Henghali as an assistant, were involved in running the course.

Three students from University of Oregon's Global Graduates programme, Jessica Rubado, Debra Laroe and Tanya Neff, conducted their three-month internships with CCF. All interns participated in all aspects of CCF activities.

Two students were accepted for the 2004 internship with Polytech: one natural resource management, and one agriculture student. Both students are expected to participate fully in CCF programs, and to submit a research and a general report upon the completion of their training. The students are expected to arrive during the first week of January 2004.

2.3 Collaboration with Educational Institutions

CCF's Director continues to talk with educational institutions internationally to develop partnerships for the future. In October, professors from the Worcester Polytechnic in the US visited CCF and met with General Manager Dr. Bruce Brewer to discuss possible expansion of a collaborative programme with CCF.

3. Namibian Environmental Educational Network (NEEN)

CCF's Matti Nghikembua is on the NEEN steering committee, acting as Secretary of the committee during this reporting period. The network hosted its 21st International for the Environmental Education Association of Southern Africa (EEASA) conference in 2003. Preparations for the conference took a great deal of time and Matti attended several planning meetings before the Conference. In addition, the NEEN Chairman, past CCF Education Coordinator, Graeme Wilson, spent time at CCF in planning.

About eight steering committee meetings were attended between 1 January and 31 December 2003. The focal issues for these committee meetings were: NEEN's membership base, management and administration, NEEN priorities –especially those of the coordinator, and the sustainability of the organisation. The NEEN AGM will take place on the 2 – 3 February 2003. Having served for two terms in the Committee, Matti will not stand again for nomination.

E. Eco-Tourism

As a member of the Otjiwarongo Tourism Forum, CCF has been one of the key players in assisting the Forum in regional marketing. The organisation promotes and encourages tourists and tour groups to visit the "Cheetah Capital of the World", and overnight in the

Otjiwarongo area, the heart of cheetah country. The Mayor of Otjiwarongo, Mr. Otto Opinge, officially launched the town's official campaign in Windhoek last July.

As part of this campaign, the Forum developed bumper stickers, and a billboard welcoming people to visit Otjiwarongo, the "Cheetah Capital of the World. The "Meetah Cheetah" campaign, in planning for over 18 months, was launched with the first two community fibreglass cheetahs painted in March. CCF staff and volunteers joined members of the Otjiwarongo Tourism Forum in encouraging the community to paint squares on the two cheetah forms during the campaign kick off during the 'Paint A Cheetah Day'.

Approximately 30 nearly life-sized fibreglass cheetah models are being sold to individuals and institutions, with CCF leading this effort by visiting local businesses and encouraging them to buy the moulds. The mould owners are then requested to paint their cheetah or have artists do it for them. To this end, CCF has urged the Tourism Board to enlist the assistance of members of the newly opened Otjiwarongo Arts Centre. These artworks will be displayed throughout Otjiwarongo. Internationally, the Otjiwarongo Tourism Forum is working closely with its sister city in Toronto, Canada, to link the Meetah Cheetah Campaign with their "Moose is Loose" campaign.

The Otjiwarongo Tourism Board is also in the process of publishing a comprehensive Otjiwarongo Business and Investment Guide, and CCF has supplied a map of its facilities to be published on the centre page of this guide, along with an Otjiwarongo City Plan. Finally, CCF is also assisting, in a consulting role, with the planning and organisation of a Cheetah Festival scheduled to take place in Otjiwarongo in July 2004.

Early in the year, CCF made two presentations at the Mokuti Lodge for a group visiting from the Stanford University.

CCF encourages international visitors to stay within the Conservancy if they visit CCF. CCF staff introduces visiting groups to its many programmes, and organised cheetah runs for their enjoyment.

In January, Joyce Basel from Fun Safaris from the US, the leading tour operator dealing with US zoos, brought a FAN group of zoo directors to visit the Waterberg Conservancy.

Among the groups visiting CCF in 2003, a tour group from the San Diego Zoo, the Binder Park Zoo, the Columbus Zoo, the American Museum of Natural History, the People's Trust for Endangered Species and two groups from the Cincinnati Zoo spent a couple of days at CCF and the Conservancy. The groups from Cincinnati Zoo included many personal friends of Cathryn Hilker, who lead one of the tours. The other one included Cincinnati Zoo Board members, and was led by the Cincinnati Zoo director, Gregg Hudson. CCF staff conducted many special activities for the Cincinnati groups, including hikes on the base of the Waterberg Plateau, cheetah runs, and lots of photo opportunities. In addition to this, CCF hosted a braai for the Cincinnati board members to meet members of the Otjiwarongo business community. Both the United States

Ambassador and the Deputy Minister of Agriculture attended the dinner at CCF, along with several of CCF Namibian board members.

More recently, CCF began collaborating with a travel booking agent, 'nuevas ideas CC', who will handle all information and reservation requests for CCF and the local community.

F. International Programmes

CCF assists in international programme development and adapts model programmes developed in Namibia for use in other countries, distributing its materials and information throughout Africa and the rest of the world. CCF's director, Laurie Marker, is a member of the Core Group of the IUCN's Cat Specialist Group, and maintains international communications on the status of cheetah populations worldwide, including their relationship with man, and threats to their survival.

1. Cheetah Conservation Fund - Kenya

CCF Kenya is led by CCF Senior Research Assistant Mary Wykstra and research assistant Cosmas Wambua. Over the past 12 months, good collaboration has been developed. Through effective networking with Kenya Wildlife Services (KWS) in the farming communities, CCF Kenya staff was frequently contacted with reports of cheetah sightings and problems. Several cases were investigated over this six-month reporting period.

During this time, CCF-Kenya along with CCF-Namibian intern, Ezequiel Fabiano, analysed data that had been collected in 2002 from stakeholders within the Nakuru Wildlife Forum (NWF) and surrounding communities. The report was submitted to KWS.

CCF-Kenya continued its game counts and habitat analysis in the NWF, including semi-annual Forum-wide counts, and specific monthly counts on the Soysambu Sanctuary and Delamere Estates.

CCF-Kenya staff continued to network in the Machakos Wildlife Forum (MWF), Laikipia Wildlife Forum (LWF), and in the Tsavo (Taita Taveta Wildlife Forum) and Samburu regions to lay groundwork for comparative interviews. Fourteen interviews were conducted in the MWF and LWF districts.

CCF-Kenya continued to develop its education programme in the Nakuru region. During this reporting period, CCF-Kenya conducted Environmental Education Programs on cheetah and predator awareness with 24 schools reaching more than 200 students in the Nakuru and Gilgil Municipalities (19 primary and 5 secondary schools). CCF Kenya printed 20,000 primary and 20,000 secondary school activity pages that are being distributed by Friends of Conservation, Wildlife Clubs of Kenya, and KWS.

CCF-Kenya staff made 16 presentations to tourists through local and international tour operators during the first 6 months of 2003. In addition, tourism campaign brochures (“The Great Cheetah Census”) were printed and launched in affiliation with the Friends of Conservation and supported by a grant from the Angel Fund from the Cincinnati Zoo for a general tourism awareness campaign.

KWS continued to monitor the cheetah in the Masai Mara. KWS plans to conduct genetic testing on the Mara cheetah now that they have an idea of the distribution within the Park. CCF-Kenya assisted in developing protocols for the biomedical sampling to ensure methodologies are consistent. Additionally, CCF-Kenya actually participated with KWS in biomedical collection of cheetah in the Masai Mara Reserve.

In July, CCF Kenya hosted a workshop on Cheetah Conservation in Kenya. Nearly 40 people attended the workshop that brought together international cheetah experts and Kenyans interested in cheetah conservation, including several members of the Kenyan Wildlife Service, representatives from four of Kenya’s Wildlife Forums, three NGO’s including officials of the African Wildlife Foundation and Save the Elephant Trust, along with the Director of the Serengeti Cheetah Project, Dr. Sarah Durant, and the Executive Director of the Cheetah Conservation Fund, Dr. Laurie Marker and Senior Research Assistant Amy Dickman.

The workshop aims were to put Kenya’s cheetah research into a global context, and to bring people together who are interested in cheetah conservation in Kenya and to encourage cooperation between existing and proposed projects through linkages and following guidelines set by the Global Cheetah Master Plan. The topics of discussion at the workshop included Research, Management, and Education.

CCF’s Director Dr. Laurie Marker, guest speaker at the workshop, presented information on the Global Cheetah Master Plan, model programmes developed in Namibia for cheetah outside protected areas and the future of cheetah throughout its range, as well as an international perspective on the difficulties of captive breeding and management, important as a backup to the wild population.

Mary Wykstra and Cosmas Wambua talked about their cheetah research on ranch/farm land outside of protected reserves and parks focusing on the Nakuru Wildlife Forum area and the Machakos area. Several members of KWS also made presentations. Martin Mulama, Assistant Director of Research and Planning gave an over view of the current research projects in Kenya. Bernard Kuloba, head researcher for the Mara Cheetah Research Project, presented results from the past year’s studies, including the identification of over 35 cheetahs in the Mara ecosystem. David Konas, KWS researcher discussed his census finding of cheetah in the Samburu and Marsabit areas. Dr. Adeela Sayyid, Curator of the Nairobi Orphanage and SafariWalk and veterinarian for the Mara cheetah research project presented the protocols for biomedical collections and condition of the Mara cheetahs she has handled. KWS and CCF have cooperatively initiated collection of biomedical samples of cheetah in the Masai Mara and developed a protocol for collection in other regions. With increasing information on cheetah/human conflict

issues it is important for CCF and KWS to continue working cooperatively to develop protocols for handling capture, sampling and relocation of problem cheetahs.

Other talks were presented by Dr. Sarah Durant and Dr. Fumi Mizutani. Dr. Durant talked about the long-term cheetah research conducted in the Serengeti National Park. Where Dr. Mizutani talked about human and predator conflict issues in the Lakipia area.

There are several individuals and organisations that have expressed an interest in assisting with the development of research, conservation and education programmes through out Kenya. In order to promote consistency in data collection and presentation, CCF and KWS used this workshop as a gathering of the interested parties to discuss cooperative programmes for the general conservation and education for the long-term survival of Kenya's cheetahs.

A follow up workshop was held in December with 20 participants. Goals for 2004 were set and included conducting a more detailed cheetah census campaign throughout the country. CCF's Senior Research Assistant, Bonnie Schumann, spent a month in Kenya in December to work with the CCF Kenya staff.

2. Iranian Cheetah Conservation

With less than 50 cheetahs left in Iran, a project supported by a United Nations Development Programme (UNDP) grant entitled "Conservation of the Asiatic Cheetah, Its Natural Habitat and Associated Biota" in the I.R. of Iran continues to gain momentum. CCF has been asked by the UNDP to participate in an Inception Mission to Iran in January 2004, which will guide the conservation planning. The Iranian biologists responsible for the project remain in close contact with CCF.

3. Botswana Training

In April, one of Cheetah Conservation Botswana (CCB) staff spent a couple of weeks at CCF Namibia for continued training in addressing farmers and cheetah/livestock conflict issues. Then, one of CCF's staff members, Mandy Schumann, travelled to Botswana and together they visited several farms and began collecting survey data on farming practices and conflict issues. In addition CCF staff inspected CCB's new field base of operations and cheetah pens in Jwaneng.

In December, CCB's Annemarie Hauser visited CCF. During her visit, CCF provided her with educational and laboratory materials, as well as a draft of CCF's manual on Integrated Livestock and Predator Management for possible adaptation in Botswana.

4. Captive Cheetah Management - International Cheetah Studbook

CCF's Director, Dr. Laurie Marker, is the Keeper of the International Cheetah Studbook. The 2002 International Cheetah Studbook is in the process of being finalised. The Studbook was reviewed while at the Global Captive Cheetah meeting in April. Its

analysis indicated that the global captive population was declining by 5% annually, and this demographic crisis was addressed internationally.

In April 2003 one of the 10 cheetahs that were donated by Namibia to the USA sired a litter of five cubs at the White Oak Conservation Centre in Florida. All five cubs are doing very well and their dam is raising them. In addition, a single cub from the Columbus Zoo was fostered with this litter and has adapted well to his new foster family.

In December 2003 one of the ten cheetahs that were donated by Namibia to the USA sired two litters at the White Oak Conservation Centre in Florida. The female who gave birth to the first litter in early December is also one of the ten Namibian cheetahs. Her four cubs are doing very well and are being raised by her. The second litter consisted of one cub that was stillborn.

G. CCF Organisational Activities

1. Development and International Fundraising

1.1 Namibian Trust

CCF's Namibian Trust, a recognised Section 21 Company, held its first board meeting in March. The old board structure, a voluntary organisation, will remain active while the new Trust gains momentum.

CCF held a board meeting in August and finalised both its Land Trust and Section-21 Company.

1.2 Annual Fund Raising Dinner

In March, planning for CCF's 5th annual fundraising dinner, "A Celebration of Speed and Elegance," began. The event took place on 19 July at the Windhoek Country Club with nearly 300 people in attendance. This year's guest of honour was Namibian Prime Minister, the Hon. Theo-Ben Gurirab. Dr. Patrick Bergin, President and CEO of the African Wildlife Foundation, was the keynote speaker. The silent auction was very successful. Three awards were presented during the dinner, including the 4th Annual Cheetah Conservationist of the Year Award, which for the first time was presented also to a communal farmer. The awardees this year were commercial farmer Timm Miller and communal farmer Petrina Hîkas. The third award, a general conservation award, was presented to Garth Owen-Smith and Margy Jacobson from IRDNC (Integrated Rural Development and Nature Conservation).

1.3 US Foundation and Fundraising Activities

During the past six months, CCF's Executive Director, Laurie Marker, was in the United States three times to deal with CCF USA business, and for fundraising activities and lectures. CCF continues to receive most of its funds from the United States.

In February, Laurie Marker met with CCF USA board members, Charlie Knowles, Vance Martin, and Pat Miller to discuss possibilities for the future of CCF, as CCF USA President, Vance Martin, has asked to put a plan in place so he can resign from his responsibilities as President. Another meeting was held with Board and Scientific Board members, Drs. Stephen O'Brien, David Wildt, and Susie Ellis to discuss CCF's scientific programmes. In addition, another meeting was held with CCF board members Annie Graham, Bobby Haas, Vance Martin, Dr. Stephen O'Brien and Laurie Marker to discuss strategies for fundraising and CCF USA's future.

In June, Laurie Marker attended the CCF US Board meeting in Cincinnati, Ohio, which was attended by all but one member of the board. Prior to the board meeting, Laurie met with Scientific Board members, Drs. David Wildt and Susie Ellis, and Stephen O'Brien to develop a presentation for the board entitled: Cheetah Conservation Fund - Past, Present and Future, which looked at lessons learned, and goals for the strategic plan over the next five years.

The June Board meeting at the Cincinnati Zoo was forward thinking towards a new future for CCF, as the Cincinnati Zoo's Director, Gregg Hudson, offered to support a professional strategic plan, which will be completed by the next board meeting in October. The plan will include a staging process that relieves Vance Martin from his CCF USA presidential responsibilities, and develops a new model for CCF's operations and a fundraising strategy.

In September/October, CCF's director travelled to 13 states and gave 30 some lectures in over 25 cities. Highlights of the trip included being one of the presenters in a cheetah workshop talk given at the American Zoo Association (AZA's) annual conference, a key note speaker at the American Association of Zoo Keeper's (AAZK) annual conference, key lectures in Boston at Worcester Polytechnic, the oldest Polytechnic in the US, Tufts University, University of California at Irvine, the University of Arizona, the Phoenix Zoo, the Woodland Park Zoo and Microsoft in Seattle, the Oregon Zoo, Franklin Park Zoo, Little Rock Zoo, Safari West in California, and the Wildlife Conservation Network's 2nd annual weekend. In addition to there CCF USA Chapters in several cities hosted fund raising events and community lectures which raised a lot of awareness and funds to help CCF continue its goals. Another highlight of the tour included a trip to Calgary where Dr. Marker was presented as one of the Chevron Texaco Conservationists for the year and attended the awards dinner.

In October, new CCF Chairwoman, Annie Graham, hosted the CCF Board meeting at her ranch in Montana. Further discussions took place between CCF board members and the Cincinnati Zoo's Director, Greg Hudson, on the new model for CCF's operations, which will transfer to Cincinnati by the latest in July 2004 as well as a fundraising strategy being developed by Scott Schultz, a consultant to the Cincinnati Zoo.

1.4 UK Fundraising

CCF UK held their Annual General Meeting in February 2003 and a MOU between the Friends of Conservation (FOC) in London, CCF UK and CCF Namibia was signed. In May, CCF's Executive Director Laurie Marker met with FOC to discuss fundraising plans for 2004.

Jonathan Hodrien of Friends of Conservation (FOC-UK), and CCF UK Trustee Peter Stewart, visited CCF in November. The visitors discussed plans for CCF's Director's 2004 Fundraising tour to the UK, as well as other potential fundraising strategies, particularly in the area of eco-tourism from the UK.

1.5 South Africa's Cheetah OutReach

Cheetah OutReach has continued to support the efforts of CCF through their educational outreach programmes and direct financial support. CCF is now assisting Cheetah OutReach by encouraging support for a major renovation project scheduled for 2004 at the Spier Wine Estate. Presently, most of the funds have been secured for this project.

Annie Beckhelling of Cheetah OutReach visited CCF in December. Her visit presented CCF with a good opportunity to discuss Cheetah OutReach's support of CCF's efforts, as well as progress of their renovation project at the Spier Wine Estate. In addition, Cheetah OutReach will take one of CCF's re-homed Anatolian Livestock Guarding Dogs as Ambassador of this programme in South Africa.

H. International Meetings and Conferences

1. Global Captive Cheetah Workshop

In April 2003, Laurie Marker attended a Global Captive Cheetah meeting at the Fossil Rim Wildlife Center in Glen Rose, Texas. The meeting objective was to work collectively in the development of a joint-management program for the captive cheetah community, as well as to address husbandry issues faced by all captive managers. Twenty representatives from cheetah facilities in South Africa, Holland and the US, along with key scientists working on cheetahs were in attendance.

A proposal to consider regional cheetah-breeding centres was made. This model system would establish multiple regional breeding centres with partner facilities that would work together and pool resources to ensure a genetically and demographically viable, self-sustaining cheetah population. The proposal will be forwarded to all regional coordinators for further discussion in order to get consensus on this innovative management concept for global metapopulation management.

2. American Zoo Association Annual Felid Tag Meeting

In April, CCF's Director attended the AZA's Annual Felid Tag meeting in the United States. A slide presentation was given on CCF's activities to the US cat specialists.

3. Pan African Association of Zoos, Aquariums and Botanical Gardens (PAAZAB)

Research Assistant Mandy Schumann attended the annual PAAZAB conference in June in South Africa.

4. American Zoo Association (AZA) Annual Conference

CCF's director attended the annual AZA conference in Columbus, Ohio and attended the Cheetah SSP meeting, Felid Tag meeting, and participated in a cheetah workshop during the conference. The AZA conference is one the largest gathering of zoo professionals in the world and presented a good opportunity to discuss CCF's programmes with potential donors and collaborators.

5. World Parks Congress (WPC)

In September, CCF's director was invited to attend the World's Park's Congress in Durban, South Africa. This Congress is only held once every 10 years and can be attended by invitation only. Laurie was involved in the development of a new task force on Human Wildlife Conflict and spent three intense days discussing issues surrounding this topic and recommending direction for this Task force to take. In addition, she was a part of a group that looked at the interface between livestock and wildlife disease risks in Africa. There has been extensive follow up with both groups after the meeting.

6. Society for Conservation Biology

Two papers were presented on CCF's research at the Annual conference of Conservation Biology, in Duluth, Minnesota including: Cheetah (*Acinonyx jubatus*) habitat characteristics on commercial farms in north-central Namibia, by Muntifering, J., T. Hurska, L. Perlow, R. Jeo, A. Dickman and L. Marker, and Failure of scent-lures to elicit rubbing behavior in wild-caught namibian cheetah (*Acinonyx jubatus*), by Patterson, A., Noson, A., Dickman, A., Marker, L. and Jeo, R. M.

I. Media and Public Relations

CCF has continued to gain publicity in international and Namibian media, through news items and feature articles in the print media, and in television and radio broadcasts.

In January, a UK still photographer, Harry Harrington visited CCF for three weeks to document programmes and activities for collaborative magazine articles. His photos have been made available for CCF presentations. Two other independent still photographers from Germany and Switzerland visited CCF later in the year.

In February, Olaf Claus of the German TV station ZDF visited CCF for two days. During his stay, he conducted interviews with CCF staff, visited the farms, and joined on a tracking flight.

In April, Jack Hannah, a well-known US celebrity and Columbus Zoo's Director Emeritus visited CCF with a film crew. During his visit, the crew was able to go along with CCF staff on a cheetah rescue. The programme, called Jack Hannah's Animal Adventures, will be shown across the US later in 2003.

In July and November, a film crew from Grenada Bristol in the UK spent several weeks at CCF filming an Animal Planet TV special on Namibian cheetahs for Mutual of Omaha's Wild Kingdom. The show will be aired in March of 2004. Mutual of Omaha's host Peter Gros joined the crew during the November shootings.

Several national and regional newspaper and magazine articles were published as a result CCF's Executive Director, Laurie Marker, having been chosen as one of this year's Audi Terra Nova Award Finalists. She was honoured at a ceremony in January in South Africa with Audi representatives and Dr. Ian Player, Audi's Patron of the Terra Nova awards.

By contact with journalists and sending regular news releases, CCF's profile in the Namibian media and elsewhere has been kept high. CCF achieved much coverage in Namibia, as well as in the Friend's of Conservation Newsletter, for its activities around the 'Meetah Cheetah' campaign. The annual "Celebration of Speed and Elegance" fundraising dinner also received ample coverage. In December, the Namibian Broadcasting Corporation (NBC)'s Good Morning Namibia TV show hosted CCF's Laurie Marker and Mandy Schumann, who discussed the Livestock Guarding Dog Programme, among other topics. Resulting from a press release regarding calving season in Namibia, NBC Radio conducted two separate interviews on predators and farming practices with Laurie Marker and Dr. Arthur Bagot-Smith, respectively, for their German broadcast.

Laurie Marker's Chevron Texaco Conservationists of the Year award attracted some media coverage, internationally as well as in Namibia. In addition, while in Canada, Laurie was interviewed for two major radio programmes, National Public Radio and an environmental radio station from Los Angeles. There was also a lot of media coverage throughout the US as Laurie conducted her annual lecture tour in the various cities.

Internationally, interviews were given for a UK/USA magazine called Best Friends, Animal Wellness Magazine, Journal Für die Frau (Austria), and Travel Africa (UK), where an article entitled "Cheetah Teacher," written by a former volunteer, was published in the Fall. Other articles written by former volunteers included "France's Cheetah Challenge" on The Mag (UK) in August, and "African Wildlife Beckons Student" on the International Education, Experience, and Employment newsletter fall issue.

Approaches made to several UK magazine editors in 2002 resulted in features on CCF in two popular magazines, Global Adventure and Cat World. Another focus has been including CCF in Travel Guides to Namibia. CCF will have editorial and advertising space in several guides produced within Namibia and South Africa, as well as international guides.

J. Visitors to CCF

During the past six months, CCF had several special groups visit its Centre including Drs. Linda Munson and David Wildt from CCF's Science Advisory Board, as well as members of CCF's Canadian Board, CCF USA, CCF UK, CCF Oregon Chapter, and Cheetah OutReach, along with other supporters and Chapter members.

Finally, in November, a representative of the Rolex Conservation Awards (Switzerland) spent two days at CCF, to interview its Executive Director, and learn more about its programmes. This visit arose from CCF's award application submitted to Rolex in July 2003.

K. Volunteer Programme

Volunteers are the backbone of CCF's programmes. During 2003, 38 EarthWatch volunteers assisted CCF. CCF has been working with EarthWatch since 1996, and four volunteers participate on a monthly basis for a two-week period.

In addition, five groups from the British youth development organisation, Raleigh International, each spent three weeks at CCF. The groups, composed of 20 volunteers each, undertook the building of the new 64-hectare cheetah pen on CCF's Bellebenno farm, as well as working on the rhino sanctuary infrastructure including two natural water holes, a horse pen, and other building improvements for CCF's preparation for participation in the Namibian Rhino Custodianship programme.

In January, Judith Walls, a repeat CCF volunteer from a business background visited CCF. During this time she assisted with CCF's 5-year strategic plan, and agreed to coordinate CCF's volunteer programme. Judith's responsibilities include ensuring that all applicants' address are sent to CCF USA for the database; ensuring that all volunteer applications are channelled through her; coordinating with CCF USA and CCF Namibia on volunteers' payments; and linking with Friends of Conservation (FOC) in the UK to set up a collaboration for UK applicants. Judith also surveyed past volunteers on how they raised funds to volunteer with CCF, and worked with CCF's Webmaster in publishing funding suggestions on CCF's web page for potential volunteers.

In 2003, CCF received 278 queries about volunteering. Of these, 49 people were accepted. CCF welcomed 41 long- and short-term volunteers that included international students and professionals in various fields. Some are volunteers from our US chapters, whilst others had experience in animal or veterinary care, as well as business and marketing. One of these volunteers, a Keeper from Cincinnati Zoo, served for a period of three weeks in August.

In May, CCF brought on a past EarthWatch volunteer for a three-month stay to help with organisational and human resources development. Also in May, CCF brought on a two-month volunteer who continued with the development of our 5-year strategic plan and our Bush Project business plan.

In June, another past EarthWatch volunteer came on board for two 3-month periods to assist with grant writing, administration, and the coordination of CCF's annual fundraising dinner. In the same month, CCF brought on a two-month volunteer to assist with CCF's Environmental Education and curriculum development, while another volunteer with web advertising background helped with the design of CCF's virtual tour of the Education Centre for the web page.

In December, a one-month volunteer with business experience joined CCF to assist with CCF Bush and with fundraising efforts by the Oregon Chapter. Two three-month volunteers with marketing and advertising backgrounds also joined CCF and are assisting with various business and organisational tasks, as well as with CCF Bush.

L. CCF Staffing

In April, CCF added two new employees, Bessie and Max Simon, to oversee its Janhelpman property. Max Simon is a mechanic as well, and has taken over the general maintenance of CCF's vehicles and Bessie manages the livestock on the farm.

In September and October, CCF staff members Fanuel Ekondo and Siegfriedth !Aebob left CCF to take on important positions at regional and national levels, respectively. In November, CCF added an assistant farm manager, Engelhardt Awaseb, and in December, an Educator, Abraham Masadu.

CCF's permanent staff includes:

Dr. Laurie Marker – Executive Director
Dr. Bruce Brewer – General Manager
Johan Britz – Farm Manager
Tanya Britz – Accountant and Administrative Assistant
Amy Dickman - Senior Research Assistant
Dr. Adrienne Crosier – Reproductive Physiology (joint appointment with Smithsonian)
Josephine Henghali – Research Assistant
Matti Nghikembua – Research Assistant & Education Officer
Gephardt Nikanor – Education Assistant
Abraham Masadu – Education Officer
Audrey Pickup – Veterinary Technician
Bonnie Schumann – Senior Research Assistant
Mandy Schumann – Research Assistant
Bessie Simon – Janhelpman Supervisor
Max Simon – Maintenance Supervisor

Engelhardt Awaseb – Assistant Farm Manager
Cosmas Wambua – Research Assistant - Kenya
Mary Wykstra – Senior Research Assistant – Kenya

CCF also employs 19 Namibian farm and domestic workers.

IV. PLANNED ACTIVITIES: January - June 2004

During the next six months CCF will:

- Continue work with farmers on cheetah-related issues and reducing conflict towards cheetahs.
- Continue with tag-and-release programme and biomedical sampling.
- Collaborate with the Smithsonian Institution's National Zoo in reproductive physiology studies on male cheetahs at CCF's Centre.
- Collaborate with University of Davis and Namibian veterinarians on stress related disease research and collection of gastric biopsies.
- Conduct annual health exams and endoscopies on all cheetahs held at CCF Centre.
- Continue work with the Large Carnivore Management Association.
- Continue work with the Global Cheetah Forum.
- Work with USAID, and the Ministries of Agriculture, Environment and Tourism, and Trade and Industry on bush encroachment-related research and bush industry development. The first logs will be produced in early 2004.
- Continue work with the Conservation Association of Namibia (CANAM), the Waterberg Conservancy, and communal conservancies in wildlife and habitat monitoring, eco-tourism activities, and promoting the concept of conservancies.
- Continue to expand the Livestock Guarding Dog Programme through breeding, placement and monitoring of dogs.
- Continue to expand CCF's community development programme with emphasis on community game guards. A workshop on predator identification is planned for April.
- Continue to conduct educational assembly programmes in schools throughout Namibia and distribute and evaluate student activity books in collaboration with the Cincinnati Zoo.
- Work with the Ministry of Basic Education, Culture and Sports in the developing and adoption of predator conservation in the national school curriculum.

- Host a two-week Environmental Education course in cooperation with Smithsonian Institution's National Zoo in January.
- Plan a month long Conservation Biology course in cooperation with the Smithsonian Institution's National Zoo for May or June.
- Plan a three-week long teachers training workshop in cooperation with the Cincinnati Zoo and the Miami University for August.
- Host University groups at Cheetah View in cooperation with University of Namibia.
- Continue with student internships in co-operation with Namibia's Polytechnic, the University of Namibia, and Oregon's Global Graduate Programme.
- Continue as a field station for EarthWatch and work with EarthWatch volunteers.
- Continue work with CCF's Namibian fundraising committee to recruit partnerships with local businesses.
- Plan and execute CCF Namibia's annual fund raising dinner in July 2004.
- Assist with the development of CCF UK and conduct a two-week long lecture and fundraising trip to UK in May.
- Participate in the Inception Mission with the Iranian Cheetah Recovery Programme through United Nations Development Programme (UNDP) in January.
- Assist Iran and Kenya with developing cheetah programmes in their countries, as well as Botswana, Zimbabwe and South Africa.
- Publish peer reviewed scientific papers on CCF's research.
- Continue to host national and international journalists.
- Develop a strategy for Rhino Conservation on CCF and Waterberg Conservancy properties.
- Travel to the United States for fundraising and lectures in February and May.

Marker visits Iran for Asiatic Cheetah Workshop

BY BONNIE SCHUMANN
CCF Staff Member

DR. LAURIE MARKER IN IRAN WITH A LOCAL IRANIAN HERDER.

tus of the species and plan long-term conservation strategies with stakeholders throughout the cheetah's Iranian range. The merging of national and international experts with local communities laid the foundation for a week of productive meetings and dialogue regarding the future of the cheetah in Iran, Marker said.

While in Iran the fear is that there are 'too few' cheetah left, the hope is that there are enough dedicated people to turn the situation around. Here in Namibia, farmers often talk

IRAN

ASIATIC CHEETAH:

- There are now only fewer than 100 surviving cheetah in Iran
- The remaining Asiatic Cheetah are found on the edge of Dasht-e Kavir – a large area of desert and shrub steppe, which is the last stronghold of the Cheetah in Asia
- Main threats to the survival of the Asiatic Cheetah are habitat disturbance and degradation and illegal killing or poaching of cheetahs
- The Project "Conservation of the Asiatic Cheetah, Its Natural Habitat and Associated Biota in the I. R. Iran" has been running since September 2001 in collaboration with the Wildlife Conservation Society (WCS), the Cheetah Conservation Fund (CCF) and the International Union for Conservation (ICUN). The project is funded by a grant from the United Nations Development Programme (UNDP) GEF

What do Iranian goat herders and Namibian cattle farmers have in common? Why, cheetahs, of course!

From Otjiwarongo cattle country to the dusty plains of Iran, cattle farmers and goat herders grapple with the age-old conflict that has been raging between livestock-owning humans and meat-hungry predators.

Namibia is the undisputed cheetah capital of the world, while Iran is home to the last remaining free-ranging cheetah outside Africa, thought to number no more than 100 individuals.

Dr. Laurie Marker, the Cheetah Conservation Fund (CCF) executive director, undertook the long journey to Iran to participate in an International Workshop on the Conservation of the Asiatic Cheetah. Marker met with Iranian government officials, conservationists (from around the world), Iranian camel herders and smallstock owners to seek solution to the problems facing the Iranian farmers and the last few representatives of the Asiatic cheetah.

The last half-century has seen a rapid decline of the world's last Asiatic cheetah, The cats are now extinct throughout the majority of their historic range, including Russia, India and the Middle East.

The final populations of the critically endangered Asiatic cheetah occur in the fragmented territories on the outer-ring of Iran's Kavir desert.

The workshop served as an opportunity to examine past efforts, assess the current sta-

YOU'RE INVITED!

Reflections
A GALA CELEBRATION OF SPEED AND ELEGANCE
FOR THE CHEETAH CONSERVATION FUND

Join the Cheetah Conservation Fund at its annual celebration of speed and elegance. This years fund-raising dinner, 'Reflections,' will be held at the Windhoek Country Club on Saturday 24 July. Tickets cost n\$300 per person and include dinner, music entertainment, presentations, awards, a silent auction and special guests and performances.

We are delighted that our International Patron, His Excellency Dr. Sam Nujoma, the President of the Republic of Namibia, will be our guest of honour for our celebration. Help support our diverse programmes and join us for the gala evening. Contact CCF to buy your tickets now!

IRAN: stakeholders meet to discuss cheetah

IRAN STORY *from page 1*

about 'too many' cheetahs. However, on a global scale the cheetah is endangered.

So, many of the planet's species are brought to the brink of extinction, teetering there while we try to 'save them' from ourselves. We need to learn to act while there are still 'too many' to ensure we do not reach the 'too few' or even 'all gone' stage.

Cheetahs face extinction in most of their range countries, having been exterminated in no fewer than 13 countries in the last 50 years. Cheetah numbers have plummeted from an estimated 100,000 to between 9,000 and 12,000 cheetahs today, that in the brief space of 100 years.

Farmers, already facing the burdens of drought, livestock disease and changing political situations, have the added burden of ensuring that Namibia's cheetah population stays afloat and even begins to flourish.

Namibia is home to an estimated 3,000 or more cheetahs, over 90 percent of which are found on commercial farmland.

In Iran, Marker spoke of the many Namibian farmers who have figured out how to live – peacefully – with predators. Namibian farmers serve as models to farmers from countries that have cheetah populations – South Africa, Botswana, Zimbabwe and Kenya.

Iranians have a long way to go, with very little time left for their cheetahs. Namibians, on the other hand, have come a long way. But in both cases there is a lot left to be done so that we all can live together.

Let's not wait, and be complacent with one of the world's most unique and valuable species – the cheetah.

Notes from the director

I'd like to thank you for your interest in the Cheetah Conservation Fund and share with you some of our many highlights and accomplishments in the past year.

With dull moments at CCF few and far between, our time is full with cheetahs and tasks relating to accomplishing our mission – keeping the cheetahs wild and free. However, not all cheetahs can live free, and CCF continues to responsibly care for orphaned non-releasable cheetahs. We currently have 26 cheetahs at the Centre.

Our weeks are active with basic cheetah research. In the past 14 years we have worked on over 650 cheetahs

of which over half have been released back into the wild. In 2003, 29 cheetahs were released back into the wild. All wild cheetahs that come through CCF are measured, and samples are collected from them for an assessment of overall health, disease and genetic studies. Samples have also been included on our Genome Resource Bank where we have banked over 120 cheetah sperm samples to date.

Our staff works actively with farmers and helps deal with wild and captive cheetah issues. We will also continue to be spokespeople for integrated livestock and wildlife management, thus reducing the conflicts between cheetahs and farmers. Conservancy advocacy is an important part of all our efforts, as CCF works in guiding policy that affects cheetah conservation issues and land use for conservation.

This year our programme work will look toward increased economic incentives, including the pro-active marketing of Namibia's beef as 'predator friendly.'

Education continues as one of our most important programmes and we have educated over 100,000 Namibian students. During the past year, over 2,000 students participated in our Centre-based education (overnighting at our tented camp and participating in environmental education). This year our education staff visited almost 10,000 learners at schools throughout the country. CCF is also currently working with the Namibian Ministry of Basic Education to get cheetah and predator conservation into the national curriculum.

Last year we conducted our first workshop for communal herders and a training manual has been developed and will soon be published as a book. In addition, we placed 28 Anatolian Shepherd livestock guarding dogs and currently there are over 120 dogs working on Namibian farms.

Our bush project is another highlight. We continue to do research on the biodiversity of plots, while at the same time our bush plant is nearly complete and in May we hope to be in full production of bush fuel logs - logs that help restore cheetah habitat.

We are busy, and you can imagine that all the work we are doing requires people and resources. On behalf of all the cheetahs, past and present, know you are very important to our efforts in saving the wild cheetah. Without you, the cheetah doesn't have a chance.

ABOUT CCF:

The Cheetah Conservation Fund, a Namibian non-profit organisation, was founded in 1990. CCF aims to save the cheetah and its habitat through multi-disciplinary research, conservation and education programmes.

Bells welcomed as new volunteers

David Bell and Jennifer Newlin Bell are new additions to the Cheetah Conservation Fund (CCF) and will be volunteering until August. Before coming to CCF, the Bells lived in a rural village outside Opuwo in northwest Namibia and were community development volunteers through the United States Peace Corps.

David, who has a business and marketing background, is helping develop the "Cheetah Country Beef" programme and assisting with various training and conservancy efforts.

Jennifer, who has experience in journalism and design, is helping design and edit CCF publications and marketing materials, including Bushblok, CCF's new teacher's resource guide, and its Guide to Integrated Livestock and Predator Management manual.

DAVID AND JENNIFER BELL, FORMER COMMUNITY DEVELOPMENT PEACE CORPS VOLUNTEERS, ARE NOW VOLUNTEERING FOR CCF.

Marker researches the patterns of molecular genetic variation in Namibian cheetahs

Excerpts from Laurie Marker's PhD., 'Aspects of Cheetah (*Acinonyx jubatus*) Biology, Ecology and Conservation Strategies on Namibian Farmlands'

The Namibian cheetah population is the largest population of free-ranging cheetahs. The extent and phylogeographic patterns of molecular genetic diversity were addressed in a survey of 313 Namibian cheetahs from throughout their range.

Size variation among 38 polymorphic microsatellite loci was assessed between 89 unrelated cheetahs from seven regions of the country, and an additional 224 individuals were assessed to investigate questions of paternity, gene flow, geographical patterns of genetic variation, and questions relating to cheetah behavioural ecology.

Differences in microsatellite size variation showed limited regional differentiation supporting the notion of a panmictic population. Small F_{st} values were indicative of high recent gene flow between populations, and may be attenuated in Namibia due to the extensive re-

movals (killing and trapping) of cheetahs by farmers over the past 30 years.

Phylogenetic analyses revealed some population structure, with populations from the same geographic regions tending to cluster together. Measures of genetic variation were similar among all regions and were comparable to

cheetah populations in Eastern Africa.

Relatedness values (R) were calculated among unrelated individuals and among individuals in offspring and sibling groups of known individuals. Most of the previously hypothesized family groups were confirmed by paternity analyses, and 45 new potential sire/dam offspring and 7 sibling groups were identified, which provided information on cheetah social behaviour including dispersal and the success of translocation within the country through reproduction.

Radio-collared female cheetahs were more closely related to the population of cheetahs in the study area than males, an indication that males disperse from their natal home range. The long-term maintenance of current patterns of genetic variation will depend upon retaining habitat characteristics promoting natural dispersal and gene flow of cheetahs.

Recognised geneticist, Dr. O'Brien, visits Namibia

The Cheetah Conservation Fund's (CCF) Science Board member, Dr. Stephen O'Brien, visited Namibia in April. During his visit, he gave several talks in Otjiwarongo and Windhoek on HIV/AIDS.

O'Brien is the head of the Laboratory of Genetic Diversity at the National Cancer Institutes National Institute of Health, in the USA. O'Brien is internationally recognised for his research contributions in human and animal genetics, evolutionary biology, retrovirology and species conservation.

In collaboration with his students, fellows, and colleagues, he has researched areas as diverse as mapping the genome of the cat, to the discovery of CCR5-32, the first human gene showed to block infection by HIV among its carriers.

O'Brien is the author of more than 500 scientific articles that have appeared in publications such as National Geographic Magazine, Scientific American and Science.

O'Brien and Dr. Laurie Marker, executive director of CCF, have been working together on cheetah genetics since 1982 when, through their collaborative research, first dis-

covered the cheetah's limited gene makeup. Since then, O'Brien has been actively involved in CCF's international research activities.

During his visit to Namibia, O'Brien presented seminars to students and staff at the University of Namibia, to the Namibian HIV Clinicians Society and to the members of the Otjiwarongo medical community.

AT LEFT, DR. STEPHEN O'BRIEN, POSES WITH CCF'S CHEWBAAKA. O'BRIEN'S MOST RECENT LITERARY CONTRIBUTION, HIS BOOK ENTITLED "TEARS OF THE CHEETAH," EXPLORES THE MYSTERIES OF SURVIVAL AMONG THE EARTH'S MOST ENDANGERED AND BELOVED WILDLIFE.

SPERM research notes

The Cheetah Conservation Fund (CCF) Genome Resource Bank (GRB) underwent extensive growth during 2003. Last year Dr. Adrienne Crosier, Josephine Henghali and CCF staff conducted a total of 69 electroejaculation procedures on cheetahs. Of these, 20 were conducted on wild-caught animals.

In addition, 17 of these collections were conducted at other captive facilities in Namibia including trips to Naua Naua Game Lodge, Alogrove, Afri-Leo and Africat. At two of these facilities, Alogrove and Afri-Leo, the reproductive physiology team had the opportunity to conduct electroejaculations on five lions.

The GRB at CCF now contains 125 total sperm samples representing cheetahs, lions, leopards and one sample from a gamete rescue conducted on an aardwolf.

The result of a yearlong study based on improving the quality of cheetah sperm following cryopreservation, Crosier has been working on a manuscript entitled "Effect of Glycerol Exposure and Temperature at Glycerol Addition on Cheetah (*Acinonyx jubatus*) Sperm Cryopreservation" which is currently being prepared for submission. The investigation into the unique seminal quality of Namibian cheetahs has 205 semen samples contributing to the dataset and is the result of a 10-year retrospective study. The manuscript from this study "Effects of Age, Season and Captivity on Unique Semen and Sperm Characteristics of the Namibian Cheetah" is also being prepared for submission.

LEOPARD RESEARCH

Andrew Stein, a PhD. candidate and visiting researcher at CCF, is assisted by Bonnie Schumann, in the CCF clinic, to gather information and biomedical samples on his first captured, tagged and released leopard. The leopard was caught on a CCF farm. Stein has caught and tagged four leopards, one female pictured above, since he began his studies at CCF.

Cheetahs undergo annual exams

It was a week of early mornings, late nights and loads of data entry for Cheetah Conservation Fund (CCF) staff members. Darting, doing exams and collecting samples on five cheetahs a day is no easy task.

In February, CCF began its annual health examinations on 25 of its resident cheetahs.

As part of CCF's ongoing commitment to cheetah conservation and research, the week-long exams provided CCF with additional biomedical data on the captive population, and ensured the continued health of all individuals maintained at their facilities.

Dr. Arthur Bagot-Smith conducted the exams with assistance from CCF staff members. Bagot-Smith also serves as Chairperson of the CCF Board of Directors.

Each individual cheetah was anaesthetized to receive a general health exam, including blood collecting, in addition to vaccinations for rabies and other feline viruses. Gastric biopsies were performed, in which tissue samples of the stomach lining were taken to evaluate the presence of gastritis in captive individuals over time.

In addition to the health exams, Dr. Adrienne Crosier also collected semen samples from six adult males for cryopreservation research. Her research will help determine the best methods for freezing and thawing cheetah sperm. The samples will be added to CCF's Genome Resource Bank (GRB).

This year's exams also included the collection of biomedical and morphological data from five cubs that arrived at CCF at the end of October 2003. Fundamental measurements and DNA samples were obtained, and

AT TOP, AMY DICKMAN (CENTRE), WORKS WITH DRs. ADRIENNE CROSIER (RIGHT) AND ARTHUR BAGOT-SMITH (LEFT) DURING 2003 ANNUAL PHYSICALS. **ABOVE**, AUDREY PICKUP AND BAGOT-SMITH CONDUCT CHEETAH ENDOSCOPIES.

each cub received a transponder for identification purposes.

CCF remains committed to maintaining a healthy population of its orphan resident captive cheetahs and all individual cats were shown to be in great health.

International Cheetah Studbook complete

The 2002 International Cheetah Studbook was recently completed by CCF and is the 12th edition of this annual registry.

The International Cheetah Studbook is a comprehensive register of all known captive cheetahs in the world held in both zoological gardens and private facilities. The studbook, which is updated yearly, provides information about existing animals, births, deaths and transfers of cheetahs thus providing information to cooperatively manage the captive population and creating the preconditions for selecting breeding animals.

Dr. Laurie Marker, CCF's executive director, developed the first international studbook in the 1980s, which was the first step in a global master plan for cooperative

management of captive cheetahs.

Marker, along with CCF research assistant, Bonnie Schumann, and EarthWatch Volunteers, analysed data for the 2002 International Cheetah Studbook.

The 2002 International Cheetah Studbook shows that the captive cheetah population on 31 December 2002 was 1 340 (695-644-1) animals in 52 facilities in 243 countries in 8 regions. During 2002, there were 118 (71-41-6) cubs born in 15 facilities and deaths totaled 122.

The management of the world's captive population is important as a backup to the wild population. Captive cheetahs are educational ambassadors to the wild population and introduce the public to the threats facing the species. Through global cooperation cheetahs have a chance to survive.

Peggy: the story of a cheetah and her cubs

Breeding center in the USA boasts third litter of cubs born to a Namibian cheetah

BY KAREN ZIEGLER
White Oak Conservation Center

Peggy arrived at the Cheetah Conservation Fund when she was approximately six months of age. Before her rescue, she had lived in a capture cage for a month with a fractured right foreleg. Surgery was performed at the Otjiwarongo veterinary clinic to repair the fracture.

In April 2001, The Government of Namibia graciously gave 10 cheetahs as a gift to the United States of America.

Four cheetahs went to Cincinnati and six went to Florida. All cats were given to facilities in the States in hopes that the cheetahs could be used in successful breeding programmes and that the cheetahs would add much needed genetic diversity to the international cheetah population.

Peggy and five other cheetahs, all about one year of age, travelled from Namibia and arrived at White Oak Conservation Center in Florida. After her arrival, Peggy was housed alone for a few days while she became acquainted with the other cheetahs through the fence. Four days later, she was introduced to two other cheetahs from Namibia, one being the male, Zaris.

A short time later, Peggy was seen limping. A veterinary exam revealed permanent damage to the growth plates in her wrist, due to a broken leg a year earlier, which would continue to be a chronic problem.

Zaris was chosen as a potential mate for

PEGGY AND ONE OF HER CUBS. PHOTO BY KAREN ZIEGLER, WHITE OAK CONSERVATION CENTER

Peggy and the two were separated at two years of age. After their separation, on the few occasions in which they were given contact through the fence, Peggy and Zaris were seen rubbing faces. When they were reintroduced, however, Peggy became increasingly standoffish, although such behaviour is common with novice females.

Once the cheetahs turned two-and-a-half-years-old, they were officially included in the White Oak breeding program (although pregnancies are unlikely at such a young age).

On 7 December 2003, a litter of four cubs were born to the Namibian pair and all the cubs were in great health.

Peggy is a great mother, keeping a constant watch on her cubs and demonstrating her

protective nature whenever the keepers come within close proximity to the cubs.

The cubs were first handled at four weeks of age, where it was revealed that Peggy had given birth to three males and one female.

These births follow the October 2002 birth of Otji at the Cincinnati Zoo & Botanical Garden. And in May of 2003, cubs were also born to one of the cheetahs given to the United States in 2001.

The birth of Peggy's cubs brings the total number of cheetahs born at White Oak to 70. White Oak Conservation Centre, located in Yulee Florida, has an excellent reputation for breeding cheetahs and other endangered species.

HU AND CONNY BERRY HOLD NATURAL HISTORY TRAINING COURSE

In February, Dr. Hu and Conny Berry (pictured at left) held a natural history training course for CCF staff (pictured below). The Berrys gave presentations on the Namibian flora and fauna, the Waterberg area and the CCF farmland ecosystem.

The group toured CCF's nature trails, youth camps and habitat restoration sights as course activities. The course provided CCF staff with valuable information on methods of presentation for enhancement of the visitor and student experience.

Orphaned cheetah cubs brought to CCF

The cubs were held in small cages. Their bones were brittle and breaking, due to a diet with no calcium.

Until someone called the Cheetah Conservation Fund.

During the final week of October 2003, the Cheetah Conservation Fund (CCF) received information concerning two separate cases of orphaned cheetah cubs in need of immediate attention.

In the first case, CCF received multiple e-mails from concerned tourists who had visited a farm near Okahandja. The individuals relayed that three cubs were being kept at the farm as a tourist attraction, and that all individuals were in poor condition.

After a series of negotiations with the farm owners, the three cubs were handed over to CCF on 28 October 2003. A larger male (Mr. Big) and his two sisters (Samantha and Carey) were found in a small cage where they had been held for two months prior to their rescue by CCF.

All three cubs exhibited signs of severe calcium deficiency, resulting from being fed a diet of boneless meat, maize meal, and no calcium supplements. Cheetah cubs grow at a rapid rate and require a calcium-rich diet to ensure their bones have enough strength to support their body weight.

The three cubs were born in July 2003. The details regarding what happened to their mother are unknown.

Samantha, the smallest of the siblings, was not walking when she arrived at CCF. An x-ray confirmed that Samantha had a damaged pelvis due to crumbling bones. Her bones are now healing although one surgery was required.

Carey, the larger female, underwent two surgeries to correct uneven bone growth in her radius/ulna and a broken ankle. Unfortunately the bones did not heal as hoped and she had to be euthanased in April.

Mr. Big, although having damaged wrists from the poor diet, did not require corrective surgery. His wrists have healed remarkably well with the improved diet.

The rapid improvement in bone density was due to a special diet of minced chicken (raw bone included) and calcium and vitamin supplements that were added to their diet of red meat.

Meanwhile, on 7 October 2003, CCF received a phone call from a distressed farmer near Omaruru.

The farmer said he was forced to shoot a female cheetah after she attacked and severely injured one of his farm workers. The cheetah tested positive for rabies, thus explaining this unusual behaviour. Cheetahs, not being aggressive animals, do not usually attack humans.

Approximately two weeks after this incident, three starving cheetah cubs were observed in the same area where the female was shot. The farmer contacted CCF because he was very concerned about the cubs' welfare. CCF advised the farmer on how to set a trap to try to catch the three cubs. The cubs were captured two weeks later.

When CCF collected the three cubs on

30 October 2003, they were in very poor shape, having been without a mother for almost a month and being only three to four months of age. Despite veterinary care, one female cub died as a result of a severe respiratory infection immediately after capture.

The surviving brother (Tuono) and sister (Tempesta) responded well to a healthy diet and rapidly regained the weight that had been lost. They were placed in quarantine to ensure they were not infected with rabies, and fortunately neither cub required intensive medical attention.

All four rescued cubs are doing well. They were introduced to one another in April and have quickly become friends.

PHOTOS ABOVE, FROM LEFT: MR. BIG, SHOWING THE DEFORMITY IN HIS FRONT LEGS CAUSED BY A LACK OF CALCIUM. THE LEGS HAVE SINCE STRAIGHTENED WITH THE IMPROVED DIET.

Livestock *G*uarding dogs

Turkish Travels & Kangal friends

BY DR. LAURIE MARKER

CCF director

The Kangal is a Turkish breed of dog. It is bred true to colour with a tan coat and distinctive black muzzle. It demonstrates the generations of selective breeding of a dog to protect the livestock of the high Anatolian Plateau against wolves and bears (hence the formidable size of the dogs, males growing up to 75kg).

The nomadic herders migrate with their flocks, sleeping out or in huts along the way. The bond between the herder, dog and the flock, working against the elements and wolves and bears, shows the success that can be achieved farming with livestock in the presence of predators.

In January, I visited Turkey to meet with Kangal (Anatolian) Livestock Guarding Dog (LSGD) breeders to learn more about the use of the Turkish LSGD. Arriving in the worst blizzard in 50 years was quite an experience and I was impressed by the hardiness of these dogs and the varied conditions around the world under which they work. Due to the blizzard, a planned excursion into the Kangal area had to be cancelled. However, my hosts eagerly took me all around Istanbul to meet dog owners and their dogs.

Istanbul was covered in snow, which is not typical of the Kangal area where the dogs work. Turkey is a modern country, and a crossing of the east and west, or "old world" and "new world." My most vivid memory of the trip was the pride of the herders showing me their dogs. And the people were equally proud and excited to hear that their dogs were doing so well in Namibia.

The excursions into Istanbul gave me tremendous insight into the dog's behaviours. Dogs are kept on leads to create a more aggressive and protective dog.

In my continued discussions with the herders, I hoped to gain a perspective on nutrition. The large size of the dogs has proven to be a problem from a nutrition point of view, in Namibia. Many local Namibian mongrel breeds are raised on

A KANGAL IN TURKEY AND TURKISH KANGAL DOG BREEDERS

maize meal, but the Kangal, with its large, fast growing bones, does not do well on such a diet. The Turkish kangals are fed a diet of barley porridge, rich in protein and fat.

In the end, I walked away with a better understanding and appreciation for the breed and for the enthusiastic and passionate dog owners.

A tribute to Boots, CCF's first Anatolian Shepherd

Just over 10 years ago, in January 1994, Boots, a five year old Anatolian, and three younger dogs, arrived in Namibia from the United States as the founding stock for CCF's Livestock Guarding Dog programme. On the 2 April, 2004, Boots was euthanised at CCF due to age related health problems, she was 15 years of old.

This story reflects an overview of Boots' life and the success of 10 years of CCF's Livestock Guarding Dog programme that has helped save cheetahs and other predators, setting an example for non-lethal predator control from Namibia for other countries around the world.

When Boots arrived she was placed on our neighbour, the Schneider-Waterberg's farm with their sheep, on a trial basis. Poor Boots, having just come from a very tame goat farm in Virginia, USA, and being an adult dog already, did not adjust to her new flock of livestock or the Namibian veld. After having her radio-collared and then finding her on the road to Otjiwarongo, we soon realised that her value lay as a breeding bitch.

Due to the lack of an Anatolian breeding male, Boot's first litter was a mix breed, the male being a local guarding dog. Although this litter of mongrels worked exceptionally well, we wanted her next litter to be pure breed Anatolians. One of the pups from this first litter we

got to know very well, Katie, Jimmy Simpson's dog. Katie died of cancer last year, and even with her health problems, continued to go out with her flock right up until the end of her life.

In June, 1994, a second batch of Anatolians arrived from the States, bringing with them a couple prospective breeding dogs for Boots. From these three, over the years, our Livestock Guarding Dog numbers grew.

Flintis, Boot's first mate, was placed with Mr Coetzee and became famous for protecting his flock successfully against baboons, almost at the cost of his own life. Cheetahs became the least of his worries and showed the diligence of this breed to protect their herd.

CCF's two ambassador Anatolian's were from this first litter of Boots and Flintis. One being the runt Koya, was kept as an educational ambassador to introduce farmers and CCF visitors to the concept of Livestock Guarding Dogs.

Koya is still alive, now 9 years old. When she was only three months old, a two week old orphan cheetah arrived at CCF's Centre, Chewbaaka, who became CCF's ambassador cheetah, and Koya's life's companion.

CCF kept a second puppy from this first pure Anatolian litter, the largest female, who was named Zanta. Zanta was kept with CCF's growing demonstration goat herd and as a breeding bitch.

CHEWBAAKA AND BOOTS.

We have learned so much about Anatolian Shepherds from Boots and her two daughters. We now have nine Anatolians at CCF!

Over the years Boots produced four litters, totalling 47 puppies! From her CCF has developed its Livestock Guarding Dog programme and more than 200 dogs have been placed with farmers throughout Namibia to protect smallstock against predators and to promote the concept of non-lethal predator control.

The breed, known as Kangals (or Anatolians) was founded in the Kangal town of the Siva district in Turkey.

Who would have known that Boots would do so much to protect Namibian farmers livestock and to promote the Kangal dog heritage, promoting a partnership between two nations and showing how an old world concept (6000 yrs) can be adapted to a new nation.

The USAID sponsors two educational courses

CCF hosts Applied Environmental Education course and participates in game capture course

APPLIED ENVIRONMENTAL EDUCATION COURSE

In January, the Cheetah Conservation Fund (CCF) welcomed 24 teachers and science professionals from 8 countries, as it hosted a two-week International Applied Environmental Education course.

The course was held at the CCF research centre's conference facility in the visitors centre.

Sponsored in cooperation with The Smithsonian Institution, CCF, Environmental Education and Conservation Global (EECG) and Wilderness Safaris, the course focused on natural resource issues and applications to solving environmental problems.

"Conservation transcends borders and individual lifetimes. Education and training are the tools to sustain biodiversity for the future," said Dr. Laurie Marker, CCF director. "We were pleased to collaborate in this important international course."

The course included presentations by guest teachers from the United States of America including: Joan Haley and Dr. Rudy Rudran of the National Zoological Park's Smithsonian Institution and Ed McCrea and James Massey of EECG.

Additional components of the course included a field trip to Etosha National Park, hands-on activities, as well as a variety of individual and group projects.

Participants travelled to CCF from different regions in Namibia as well as from Nigeria, the United States of America, Peru and Nepal.

The International Applied Environmental Education course was the third in a series of six courses funded through the United States Agency for International Development (USAID).

Topics of past courses included conservation biology and game capture. Additional courses in the series are scheduled for 2004.

EDUCATION COURSE ON GAME CAPTURE AND TRANSLOCATION

Earlier this year, the Smithsonian Institution, Cheetah Conservation Fund, Wilderness Safaris and Dr. Ulf Tubbesing of Windhoek teamed together to conduct a training course on game capture techniques.

The team of local instructors was joined by Dr. Carlos Sanchez and Dr. Rudy Rudran of the Smithsonian Institution, Washington, DC., United States of America.

The course was held for two weeks with participants and instructors from eight countries.

Topics taught during the training course included physiology, pharmacology, ethics and legislation and hands-on practical sessions. The course was held on the Farm Okatumba and at the Harnas Lion Farm.

The game capture course is part of a six-course series sponsored by the United States Agency of International Development (USAID) and has been scheduled again for 2004.

Updated edition of CCF's Teacher's Resource Guide to be printed

CCF is proud to announce the publication of the updated edition of its Teacher's Resource Guide. The guide is currently being printed and will be distributed to teachers throughout Namibia.

The guide, entitled "Cheetahs: a predator's role in the ecosystem," contains lessons, activities, and resource information to aid teachers in presenting environmental-based lessons in a diverse range of subjects. Throughout the lessons, students learn about cheetahs and the problems they face while learning important ecological concepts.

The guide was compiled and new lessons were added by CCF volunteer Ron Gray, a teacher from Salem, Oregon, USA. Gray said he appreciates all of those who donated their time, ideas, and lessons to creating a valuable resource for the teachers and students of Namibia.

Education staff presents to schools

The Cheetah Conservation Fund conducts school outreach programmes to schools within the cheetah's range throughout the year. CCF also provides center-based education where school or community groups can arrange to visit and stay at our research centre.

For 2004, two different regions were targeted for outreach education: Ondangwa East and Otjonzondjupa. A total of 14 schools (8 in Ondangwa East and 6 in Otjonzondjupa) were visited and a total of 1252 learners participated in the outreach presentations.

Presentations have also been conducted in Grootfontein, Tsumeb, Otavi, Kamanjab, Otjo and Otjinene.

Apart from the outreach programmes, CCF also had four different groups that visited CCF's centre for the weekend. Groups come and stay at CCF's Lightfoot Campsite. There is no

fee for groups to stay at our centre, but we do ask for a donation. Swakopmund Secondary School's Environmental club, groups of the Pioneers Boys Secondary School, Paresis School and the Polytechnic of Namibia have visited our centre this year.

CCF conducts education presentations to spread the message of conservation to local communities and the future generation of leaders. We want learners to conserve and appreciate their environment and in turn protect the cheetah and its ecosystem. We also want to give learners the opportunity to learn more about cheetahs and see live cheetahs at CCF.

When CCF conducts education programmes, education officers distribute posters, donate books, teacher's guides and activity books.

Workbooks printed for learners

Superman and Spiderman better look out. There are new justice fighters in the comic strips these days.

Cheetah Conservation Fund (CCF) executive director and staff members, are featured in their own comic strip, "Working Together." This exclusive strip can only be found in CCF's new Activity Guides.

Recently 15,000 copies of "Meet The Cheetah," an activity guide for lower primary students, and 28,000 copies of "Voice For Cheetah," upper primary guides, were printed in Namibia as a joint venture with the Cincinnati Zoo & Botanical Garden and CCF.

The guides will be distributed to students both in the United States and Namibia. In Namibia, the guides are currently being distributed to learners at schools where CCF's education staff gives presentations.

Students in Cincinnati will also receive the guides when members of the Zoo's Cat Ambassador programme visit their schools. The guides are full of fun activities such as puzzles, mazes, word finds, colouring and more.

These activity guides are another set of tools used by CCF and the Cincinnati Zoo & Botanical Garden to educate youth on the importance of the cheetah and the cheetah's ecosystem. Without the help of tomorrow's leaders, this amazing animal will not be around for future generations to enjoy.

The youth are our future. With these educational guides, we hope to ensure a future for the cheetah as well.

NATURE CLUB VISITS CCF CENTRE

During their annual weekend visit to CCF, nature club members from Paresis Secondary School in Otjiwarongo prepare for a game drive in the "Cheetah Bus" with CCF's Gephardt Nikanor. Learners enjoyed activities while learning about cheetahs and their ecosystem. If you would like to visit CCF's Education Centre, contact CCF's education staff.

A LETTER from farmers

How awful to be brought up with the idea that all predators are a farmer's enemy and should be terminated!

Unfortunately, that has been the belief for a very long time. As a result farm workers also need a paradigm shift in this regard.

As a part of our community development projects (including early childhood development and primary health care), we invited staff from the Cheetah Conservation Fund to come to our farm.

We are situated about 80km north of Okahandja (and about 185km from Otjiwarongo!) but on 21 January 2004, CCF came all the way to our farm to educate our farm workers on predator protection.

The farm workers enjoyed it immensely and learned a lot! I do believe they see many things quite differently now!

Last year after we took our son to CCF, he wore his cheetah-chain around his neck all the time and one of our farm workers told our son: "That is the thing that catches the sheep. We must kill it." But now they, too, understand that we can farm and live in peace with predators!

Have a wonderful year. Keep up the good work. God Bless!

Yours truly,

Wikus and Elaine Meyer
Okahandja area farmers

CCF'S RESEARCH ASSISTANT MANDY SCHUMANN AND STUDENTS BERTA HELONDO AND JONAS NGHISHIDI SHARE LIVESTOCK MANAGEMENT TECHNIQUES WITH FARM WORKERS AT THE ERFDEEL FARM.

CCF staff members visit farms

The Cheetah Conservation Fund staff visited the Swakoptal and Otavi Mountain Conservancies to discuss CCF projects and research. CCF also did presentations at the Okahandja and Omaruru Farmer's Associations.

At the invitation of Wikus and Elaine Meyer of the farm Erfdeel, CCF addressed the farm workers and their families on the role of predators and predator identification. (See letter at left written by the Meyers.)

In addition, a number of independent farm

visits were carried out to farmers reporting problems with predators and seeking assistance.

CCF is available at all times to visit farms, farmers associations and conservancy meetings to share information on the research carried out at CCF. CCF would like to thank the above associations and conservancies for their hospitality and patience in filling out survey questionnaires!

For more information on CCF farm worker training courses, call (067)306 225.

BUSINESS DIRECTORY PUBLISHED

Otjiwarongo's new business directory, which features CCF, was published in February. Community members, at right, gathered for the launch of the publication.

Otjiwarongo to host 'cheetah arts festival' in July

In July, Otjiwarongo will host its first ever 'Cheetah Nation Arts Festival.'

The festival, 15-17 July, will be three days of exhibitions (painting and photography), plays/dramas (in English and Afrikaans) Musicals, Herero and Damara dance diaplays, environmental education trips to the Cheetah Conservation Fund's Research and Education Centre, live band

performances and craft exhibits.

The main area of admission is free and plays and concert admission will require a fee.

Main concert on Saturday night features a popular musical stage show that has just finished a run in the West End of London called 'The Blues Brothers- a tribute.'

CCF and CANAM explore 'Cheetah Country Beef' campaign to sell Namibian beef at a premium price

CHEETAH COUNTRY BEEF
free-range predator friendly farming

Farmers and predators can live together. It is not just a dream - people are working to make it so. Many of these people are the farmers themselves. The Cheetah Conservation Fund (CCF) wants to motivate more farmers to live with and care for the predators which are so vital to our ecosystem.

One of CCF's tools of motivation for farmers is the 'Cheetah Country Beef' campaign. Cheetah Country Beef is a concept that is being pursued with Meatco to provide a financial incentive for farmers who practice cheetah friendly livestock management. Interested farmers will be certified and monitored as cheetah or predator friendly and will be paid a premium for their beef. This beef will be marketed in the European Union (EU) to health and socially conscious consumers.

The idea is partnered by CCF and the Conservancy Association of Namibia

(CANAM). Meatco, Namibia's largest meat distributor, is currently meeting to adopt the Cheetah Country process into their programme plan. A final approval will be made soon.

Having farmers become partners in saving predators is vital. Namibia is home to the largest number of free-ranging cheetah, with 20 percent of the world's (less than 15,000) population. Since CCF is located in the heart of Namibia's farmland, we see a responsibility in both saving the cheetah and improving the lives and livelihood of the farmers – our neighbours.

To many, the ecological value of predators does not outweigh the economic (livestock) loss predators cause. The Cheetah Country Beef programme hopes to turn this around.

Ideally, the initial export of Cheetah Country Beef will go to smaller locations such as restaurants and butcheries in the EU. Once the beef is introduced and consumers realise there is a way to contribute to cheetah survival by simply purchasing specialty beef, the product's demand will grow. It is CCF's dream that all Namibian farmers will one day work together to save the animals and environment with which they live.

CCF bush project to produce 'Bushblok' fuel logs

Namibia has the world's largest population of cheetahs. However, 95 percent of the cheetahs live outside reserves and are forced to survive on farmlands. But these farmlands are less than desirable for the cheetah and farmers. Due to over-grazing and unpredictable droughts in the African savannah, the cheetah's homeland has been infested with undesirable bush species.

Since 70 percent of the Namibian population is involved in agriculture, this bush encroachment poses a major livelihood threat to the Namibian farmers as well as to the cheetah and other indigenous wildlife species.

The Bushblok project was born out of research conducted by the Cheetah Conservation Fund (CCF). Funded by the United States Agency for International Development (USAID), CCF developed a habitat improvement project that would be ecologically and economically viable. The project revealed the business op-

portunity of processing intruder bush and compacting it into logs for fuel and heating use.

Bushblok project objectives are to enhance the long-term survival of the cheetah by restoring savannah grasslands, to supply Namibian and international markets with compacted fuel log products, to encourage industries to use intruder bush as a raw material, to employ, train and empower historically disadvantaged Namibians, to provide business opportunities, to provide business standards for harvesting, chipping, processing and packaging, and to provide an alternative to the over-exploitation of native Namibian trees for firewood.

CCF's bush processing plant is currently producing logs and expects to ship logs soon to markets in Europe, South Africa and Namibia.

For information, contact the CCF bush office at (067) 304806.

'Coffee For The World' features CCF on new coffee label

In May, coffee drinkers can buy "Okuti Kawa" and support the Cheetah Conservation Fund. Okuti Kawa is Coffee For the World's newest addition to their conservation-themed coffee bags.

Coffee For the World is an organisation dedicated to exceptional coffee (in stunning packaging) that makes a difference for the world. Bag labels feature conservation organisations and donations from each bag sale supports the featured conservation organisation. The coffee beans come from regions throughout the world and are 100 percent premium Arabica beans, coming from farmers with environmental and socially responsible farming practices.

Coffee For the World already has bags that support projects for the Nile river, mountain gorillas, snow leopards, rhinos, tigers and now cheetahs.

CCF's bag, Okuti Kawa, features cheetah images and a poem selected from a writing contest held by CCF. 'Okuti' is an Otjiherero word meaning 'savannah' or 'wild fields' and 'Kawa' is used on every Coffee For The World bag label, as it is a common African word for 'roasted coffee.'

Bret Raymond, Coffee For the World founder, began the organization after he and his wife launched several shared-responsibility projects for rural Ugandans. One project was the first privately labelled coffee in Uganda – Jinga Java. Jinga Java was so well received that Raymond established a wholesale coffee business.

Okuti Kawa, and other bag labels that support conservation efforts around the globe, can be bought online at www.coffeefortheworld.com

Do cheetahs and conservancies mix?

Conservation is essential on many levels, not just to conservationists and environmentalists, but to all of us. First, we need to be good stewards of the gifts given to us. We have a social responsibility to our future generation to allow them to enjoy the diversity of life we enjoy today. Conservation of our land, resources and animals is extremely important when considering our future economic situation. Without conservation, our land will no longer sustain life, our resources will be depleted and animals will die out. All of these factors have extreme economic implications. Without conservation of the first two values listed, the political situation will become impossible to manage. No government can function without social and economic stability. This is why the political value of conservation is so important.

by **LAURIE
MARKER**

Our main goal as conservationists is to instill the value of conservation into the minds of all people. Conservation is the key to the future. But how do we promote and manage conservation when the human population is growing exponentially and natural resources are used for satisfying basic human needs that are essential for living?

Balancing human and wildlife needs is difficult, especially since human needs are often overestimated while wildlife needs are difficult to measure. Human needs are expected to grow, resulting in decreasing resources. Failure to meet basic human needs and to recognise stewardship of people and natural resources can alienate conservation efforts. A result of such action could lead to the loss of suitable habitat for endangered species, conflicts with human interest, accelerated rate of extinction, and over-exploitation of natural resources. Therefore, critical issues for the future include, how do we decide which human uses are compatible with conservation?; and, how do we define sustainable human needs?

One approach is to use a surrogate species to indicate the status or health of existing ecosystems. We suggest that the cheetah is an ideal species to direct and focus conservation efforts in Namibia and other parts of Africa. Cheetahs have large home ranges and were once found throughout much of sub-Saharan Africa. Through the use of this species as an umbrella species, much of the cheetah's range could be re-established while meeting the needs of people and again developing healthy ecosystems.

Most of Namibia's protected areas are found in extremely arid habitats that have very little economic value, and very few productive savannah areas are represented in the protected area network. Consequently, much of Namibia's biodiversity is found outside of protected areas. This is where farming practices, both subsistence and commercial, are taking place often resulting in conflict with natural resource management, and less diverse ecosystems.

We believe that representative biodiversity and the persistence of species and ecological processes, as well as considering the needs of local residents are important for conservation to be successful. However, developing methods to address the needs of both humans and wildlife represents a challenge. Integrating biodiversity conservation and social needs will require a systematic approach.

Conservancies have great potential for meeting the needs for people and wildlife. Conservancies join together broad units of people that develop management strategies sensitive to the farmland ecosystem as a whole and provide an alternative to managing game on an individual basis while promoting conservation through sustainable utilisation. The advantage of conservancy areas over fenced game farms is that wildlife is free-ranging and can thus migrate out of an area if climatic or environmental conditions decrease the habitat suitability for the species. Also, this form of management promotes biodiversity including cheetahs and other predators. Besides sustainable use, conservancies consider maintenance, rehabilitation, restoration, enhancement of ecosystems, and ecotourism.

In Namibia, it is exciting to see that human needs are being met through the development of conservancies that support mixed wildlife including predators like cheetahs and livestock systems and promote healthy ecosystems. This balance between human and wildlife needs, although difficult to determine and measure, is critical for the survival of the cheetah, and its habitat. Today, most countries where cheetahs once were found do not have healthy ecosystems and human's needs are not being met.

Namibia has become a world leader in conservation and the conservancy movement is the driving force behind this success thanks to the dedication of many of the countries non-government organisations (NGO's) including WWF, NNF, IRDNC, RISE, CANAM and the DRFN. Working together with these NGO's, we believe that understanding how conservancy areas and cheetahs can satisfy multiple needs through a new perspective on land management, will strengthen conservation in Namibia and other developing countries.

I have had the opportunity to serve as the Chairperson for the Conservancy of Namibia (CANAM) for the past year and will continue into the next. One of the major goals for CANAM is to practice a strong collaborative conservation programme that supports education and economic issues such as wildlife management planning, problem animals, joint hunting, joint ecotourism, and animal husbandry between commercial and communal conservancies. Ultimately it is all about conservation and that is the one thing that Namibians have in common, we feel that conservation is a way of life and will support our future generations.

A 'thank you' to the people of Namibia

Thank you for letting me share in five weeks of wondrous sights, sounds and experiences of your country. Your country's beauty is beyond words. The magnificent wildlife that shares this great land with you is a treasure. I have never seen landscapes so beautiful, a sky so blue, stars so bright, and a sunrise and sunset so breathless. Thank you for the beauty.

by **BUTCH
HAFT**

I have been a zoo keeper in the United States of America for 32 years and I have cared for many of the species of animals that share this country with you. But trust me, after seeing the same animals here in their native country and habitat, I will NEVER see these same animals in the same way. Thank you for the insight.

The purpose of my visit to Namibia was to volunteer at the Cheetah Conservation Fund. From the time my visit began, I have learned so much from the people that I have met and an enormous amount from the CCF staff, the veterinarians, the farmers and the local people who work with CCF on a daily basis. Not only have I learned much, but I have also enjoyed myself twice as much. Thank you for the memories.

To those people who want cheetahs to survive for your future generations, I say the biggest THANK YOU. Thank you for your foresight, your compassion and for your actions to maintain and better the world we live in.

FAREWELL

AMY DICKMAN

Amy Dickman left CCF this year after four years as Laurie Marker's primary research assistant. Amy arrived from Oxford University's Wildcru, finally realising her dream to come to Africa to work on large carnivores.

Amy quickly became an indispensable member of the CCF team, honing her computer skills while assisting Marker on her PhD, and building friendships equally well. Amy was also the coordinator for two Round River Conservation Studies at CCF.

Marker completed her PhD in 2003 and Amy has gone on to bigger things, bigger carnivores that is! Amy will be registering for a PhD programme at Oxford later this year and hopes to be based in the Serengeti looking at large carnivore conflict on the borders of the park – including her second love, lions.

Amy's enthusiasm, dedication and commitment to carnivore conservation, and sheer perseverance in achieving her goals are an outstanding example to all who are fortunate enough to know her.

AUDREY PICKUP

Audrey Pickup spent a year as CCF's veterinary technician. Besides taking care of the clinic, record keeping, stock taking and much more, Audrey was responsible for the endoscope housed at CCF and used to survey cheetahs (both wild and captive) for the presence of gastritis, a disease prevalent in much of the world's captive cheetah population.

Audrey is now based at the White Oak Conservation Centre in Florida and has tackled a challenging new position which aims at helping NGO's around the world set up clinic's/biomedical protocols of their own.

SIEGFRIEDTH !AEBEB

Siegfriedth Bandu !Aebab, CCF's Community Development Officer, left in December 2003 to become the National Youth Coordinator for the Ministry of Higher Education.

During his three years at CCF, Siegfriedth assisted with CCF's Livestock Guarding Dog programme in the communal areas and introduced youth groups from around the country to cheetah conservation. Siegfriedth will continue to be a part of CCF programmes through his new job.

ENGLEHARDT AWASEB: farm

CCF welcomes Englehardt Awaseb as the assistant farm manager. Since November Awaseb has been involved in the overall maintenance of CCF farm, livestock management and any other agricultural-related projects.

Awaseb grew up on a farm called 'Bergview,' where his father was the foreman for 20 years. The farm is now the CCF owned farm, 'Cheetah View,' and Awaseb said he is proud to be working back home.

Awaseb completed high school in Otjiwarongo where he was involved in conservation activities at Paresis Secondary School and went on to further study at Neudamm College of Agriculture where he completed his three year national diploma in Agriculture and specialized in a broad range of courses.

ANDREW STEIN: research

Andrew Stein is a visiting researcher at CCF planning a 3-year study, the Namibian Leopard Project, on the impacts of leopards on the ranches within the Waterberg Conservancy. Stein received a Fulbright scholarship to begin his PhD. dissertation through the University of Massachusetts Amherst. His project will investigate the impacts of leopards on Namibian ranches.

Stein has a varied background, working with captive animals and researching wildlife. He attended Connecticut College, earning a Bachelor of Arts degree in Zoology in 1999. After graduation he began his Masters Degree at the University of Massachusetts, where he was studying the incidental capture and distribution of sturgeon. In recent years, Stein was a research intern training dolphins and beluga whales and he also studied wildlife ecology within Maasi communities in Kenya. He has worked on various research projects including grassland birds, African wild dogs, lions and spotted hyenas. As a precursor to this current project, Stein conducted a pilot project on leopards in South Africa. (See page 8 for a photo and more information.)

Polytech students join CCF team

BERTA HELONDO

Over-grazing of native vegetation by livestock is one of the major causes of habitat loss that affects the cheetah.

Berta Helondo, a third year student at Polytechnic of Namibia, is currently conducting research to determine the grazing carrying capacity on CCF's cattle farm. A resident of Namibia's Ondjacho village, Helondo is working towards her diploma in Natural Resources and Management (Agriculture). Helondo arrived at CCF in early January and will be conducting her research at CCF until mid-June.

JONAS NGHISHIDI

Bush encroachment, or the overabundance of woody species within an ecosystem, is an ecological change that affects a variety of wildlife including the cheetah, its prey base, and even spiders.

Jonas Nghishidi, a student of Nature Conservation at Polytechnic of Namibia, will be analysing the distribution dynamics of the golden orb web spider and other spiders in the bush encroached and open savannah habitats located on CCF's research farm. Nghishidi will be conducting his research until July.

Raili, of MET, studies spoor at CCF

Raili Hasheela, an employee of the Ministry of Environment and Tourism (MET) since October 2000, arrived at CCF in January to complete her Master's research on the effectiveness of using the spoor (footprint) count method for estimating cheetah abundance. Working with CCF Director, Dr. Laurie Marker and CCF research assistant Matti Nghikembua, Hasheela is completing her Master's of Science degree in Environment and Development at the University of Natal in Pietermaritzburg, South Africa. Using CCF's spoor data base Hasheela's analysis will improve methodologies used to calculate cheetah density. According to Hasheela, the spoor count method has been validated in its reliability of estimating populations of African wild dogs, leopards, and lions in Namibia.

Overview of Botswana's cheetah programme

The last year has seen Cheetah Conservation Botswana (CCB) develop from an idea into a fully operational project under the direction of Rebecca Klein.

Their first research camp was completed at Jwaneng Game Reserve, thanks to the generosity of Jwaneng Mine. The Mine requested that their resident population of cheetah in the reserve be monitored and provided one of their camps for researchers to stay in and built four transit stations for the temporary holding of cheetah to be relocated. CCB moved into camp in September and has since caught and collared two groups of cheetahs.

CCB has also been attending farmers meetings and festivals to spread the word on the plight of the cheetah and how to protect livestock to minimise conflict. They attended the first workshop organised to discuss predator problems on farmlands which was attended by predator conservationists and members of the farming community.

As for CCB community programmes, it has received a preliminary grant of \$2000 from the Global Environment Facility of UNDP. This will allow CCB to focus on communal farming areas program.

CCB has a new Web site at www.cheetahbotswana.com. Please look on the site to learn more about their activities and new volunteer programme.

Update on CCF Kenya

In August 2003, Cheetah Conservation Fund Kenya (CCFK) piggy-backed onto a Friends of Conservation tourism awareness campaign to launch brochures in the Maasai Mara introducing the 'Great Cheetah Census.' This campaign appeals to tourists and local people to submit photos of cheetah for use in CCFK's database in identifying cheetahs. Although this campaign was initially launched in the Maasai Mara it is only a fragment of the cheetah population in Kenya.

According to CCFK's Director Mary Wykstra, CCFK's mass mailing and publication of a simple cheetah sighting report survey to registered farmers, park officials and group ranch representatives will also be used to give an estimate of sighting areas.

In addition, CCFK is distributing one-time use cameras into rural communities where reports of many cheetahs are submitted. This is the Snap-a-Cheetah project, which aims to distribute 500 cameras into areas where cheetahs are reported, with the hope of receiving photos that can show positive identification of cheetah.

A third awareness campaign, Cheetah Expressions 2004, is a creative arts competition for school children.

Through these joint efforts in cheetah conservation, the aim of habitat preservation and identifying key issues facing wildlife in general can be brought forward. CCFK's network of collaborators and contacts enabled CCFK to hold two workshops to gather key people interested in research and education initiatives for the planning of cooperative data collection and dissemination of information on the plight of the cheetah.

Marker visits Tunisia to forge new partnerships

Dr. Laurie Marker just returned from a visit to Tunisia, in northern Africa, where she attended the fifth annual meeting of the Northern African or Sahal Saharan Interest Group (SSIG). This group has been bringing back the native antelope species to the region. Marker was invited to join this group to bring cheetah ecology into the process, so that cheetahs have prey. The antelope species have declined drastically in these countries, some of which still have cheetah populations which are now critically endangered. Range country biologists and wildlife officials from Ethiopia, Morocco, Senegal, and Tunisia were present at the meeting. A survey was recently completed in Niger where spoor of cheetahs were found and a survey is being planned in Algeria in 2005 that CCF will be participating. There are still cheetahs in Algeria which may be a very important area for the northern African cheetahs.

INTERNATIONAL FILM CREW FROM 'ANIMAL PLANET' TV VISITS CCF

Photo at far left: Between July and November, CCF worked closely with producer, Steve Gooder (far right) from the UK based Granada Media, along with internationally known cameraman Gavin Thurston (far left) on a film for the Animal Planet. The film, featuring Peter Gross (second from left), spokesman for the US based insurance company Mutual of Omaha, presents the work of the Cheetah Conservation Fund. Gross, a long time friend of CCF's Executive Director, Dr. Laurie Marker, worked alongside CCF staff for two weeks while filming the TV programme. This one hour film will be aired in January 2005 and will run several times a week during the season.

Photo at left: Gross, Marker, CCF's Chewbaaka and local school children.

OUR SYMPATHIES

Bernardt Khajo (on right), pictured with friends, was one of CCF's dedicated conservation support staff members who recently passed away in Okakarara from Malaria. Khajo worked with CCF's Livestock Guarding Dogs, sheep and cattle. Several hundred community members gathered for the funeral in May. Khajo will be sorely missed by all CCF staff.

SUPPORT CCF

To join the Fund in its efforts, just mark the category of support and fill in your name and address in the form below. Every donor receives a sticker from CCF.

Please tick the amount donated and circle the currency. CIRCLE ONE: NS / US \$ / £ / DM
