ELECTRICAL CATALOG

To: Our Valued Customers

In January 2012 CMC Supply, Inc. purchased Rocky Mount Supply along with their Bedford location, Bedford Supply. This acquisition adds a full line of electrical material to our product offering. We represent leading manufacturers including; Siemens, Lithonia lighting, Progress Lighting, Westinghouse, Cooper Wiring Devises and GE Appliances.

Currently our Rocky Mount and Bedford locations inventory all our electrical material however, we can have any electrical item in stock for you at our Roanoke and Christiansburg locations by the next day. We will be adding electrical inventory at Roanoke and Christiansburg on going.

In 1978 we began with a single mission; to deliver the best possible service to our customers. We feel the addition of these items makes us stronger. CMC Supply is pleased to offer you our electrical catalog.

A handwritten signature in black ink that reads 'Steve Chisholm'.

Familiar designs.
New technology.

Want to convert to LED but keep the look of existing lighting fixtures?

VRC LED

VRC LED replaces up to 250W MH

TWR1/TWR2 LED

TWR1 LED replaces up to 320W MH

TWR2 LED 1 replaces up to 400W MH

TWS LED

TWS LED 1 replaces up to 70W HPS

TDD LED

TDD LED replaces up to 100W MH

SAVE Time & Money with IPEX Electrical Systems

- Fast and easy installation
- Restores structural integrity
- Repair made while leaving cables inside

EPR KITS

- Easy installation saves time & money
- Complete concrete-tight system
- FT-4 rated for use in fire-rated floor or ceiling assemblies

KWIKON

- Water-tight seal protects from moisture & corrosion
- Wet or hazardous locations
- Impact resistant – Ideal for indoor & outdoor use

Sceptalight

NON-METALLIC • CONVENIENT • LOW COST

FLOOR BOXES

IN 3 STYLES with a VARIETY OF COVER OPTIONS

PUT A RECEPTACLE IN THE FLOOR THE EASY WAY!

© 2008-2013 Arlington Industries, Inc.

View Video

www.aifittings.com

Arlington

Arlington's UL Listed **FLOOR BOXES** give installers the *convenient, low cost* way to put a receptacle *in the floor*.

We have a box *for new concrete pours*, a box *for existing floors* – and an **adjustable box** for most finished floor heights up to 2".

- Available with **non-metallic covers** in four colors – or **brass or nickel-plated metal covers**.
- **Gasketed covers** prevent water intrusion... **Threaded blanks or flip lids** protect box when not in use
- **Oversized rectangular covers** hide miscut flooring

“It used to take 8 guys over a day for these kinds of pulls. We did it in 4 hours with 4 guys.”

— Nate Simpson
Owner
S&S Electrical Contracting, LLC
Kingsville, MO

**EFFICIENCY WINS THE JOB.
SIMpull SOLUTIONS™ DELIVERS IT.**

Take it from Nate. Squeezing waste out of every part of the job is how you win bids and keep your crews working today. Southwire knows what you're up against. That's why we developed SIMpull Solutions. Nate used colored and paralleled aluminum NoLube® SIMpull THHN®, SIMpull Head™ SIMpull® Truck, and a Maxis™ Pull-It™ 10K cable puller for O'Reilly Automotive's new headquarters. He reduced pulling time and crew size by half, freeing up installers for more time-sensitive parts of the job. See our "Time is on your side" installation video comparison at Southwire.com/solutions.

Innovative solutions

For residential & commercial applications

Residential & Commercial solutions

Eaton's Cooper Wiring Devices business provides innovative solutions for residential and commercial applications. Our products have been developed to the highest standards and are engineered with features that can help reduce installation time, improve safety and provide years of high performance.

Product categories include:

- USB devices
- Patrol highlights
- All Load dimmers
- ASPIRE RF wireless devices
- Plugs & connectors
- Switches
- Receptacles
- Wallplates

TRANSFER SWITCH

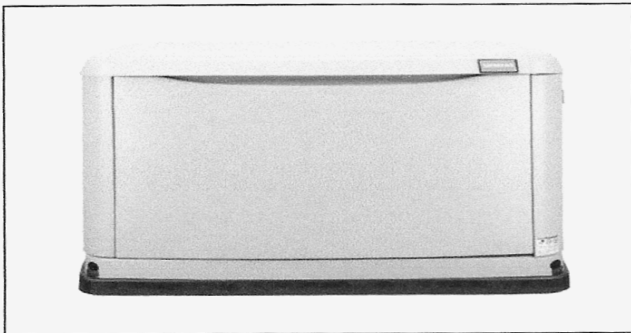

WHOLE HOUSE GENERATOR

Standby Power Systems

Air Cooled Standby Generators

8, 10, 14, 17, 20kW, 120/240V single phase

Standard Features

- UL 2200 Listed
- Four-cycle industrial engines provide durable, reliable, long life
- Operate on either natural gas or propane vapors
- Composite mounting pad approved to eliminate need to pour concrete pad[®]
- Automatic high temperature, low oil pressure, over speed, and over crank shut down
- Low battery voltage indicator
- Standard safety fuse
- Provided with Type "N" Nexus controller

Typical Load Requirements[®]

Description	kW
Electric Heat per 1,000 ft. ²	12.0
Heat Pump Elements per 1,000 ft. ²	7.0
Dryer	5.5
Hot Tub	10.0
Range Oven	5.0
Hot Water Heater	4.5
Stove Top Burner	1.5
General Receptacles per 1,000 ft. ²	3.0
Dishwasher	1.5
Blow Dryer	1.3
Microwave	1.0
Toasters	1.0
Lighting per 1,000 ft. ²	3.0

Generators shown on this page are ideal for smaller single family residential constructions, or partial loads on larger residential constructions. These panels can help support critical loads most required when power is interrupted.

[®] Product ships ready for natural gas. Minor adjustments required for liquid propane vapor use. See owners manual.
[®] Check local code requirements.
[®] Estimated averages. Actual requirements vary by brand, model, size and other factors.
[®] ST type transfer switches recommended with 8-17kW.
[®] Battery not included with air cooled models 8-20kW. Refer to page 18-20 for 26R battery.
