CALENDAR OF EVENTS

The Commonwealth will make every effort to adhere to the following schedule:

Activity	Responsibility	Date
Deadline to submit Questions via email to kgera@state.pa.us	Potential Offerors	June 1, 2007
Pre-proposal Conference—Location: Conference Room 9 555 Walnut Street – 6 th Floor Harrisburg, PA 17101	Issuing Office/Potential Offerors	June 8, 2007
Answers to Potential Offeror questions posted to the DGS website (http://www.dgsweb.state.pa.us/comod/main.asp) no later than this date.	Issuing Office	June 15, 2007
Please monitor website for all communications regarding the RFP.	Potential Offerors	
Sealed proposal must be received by the Issuing Office at Department of General Services Attention: Bid Room 555 Walnut Street – 6 th Floor Harrisburg, PA 17101 by 1:30 p.m. EST. ALL SEALED PROPOSALS MUST BE SUBMITTED TO THE ATTENTION OF KAREN GERA AND REFERENCE CN00023105 ON THE OUTSIDE LABEL.	Offerors	June 29, 2007

PART I

GENERAL INFORMATION

I-1. Purpose. This request for proposal (RFP) provides to those Offerors interested in submitting proposals for the subject procurement to enable them to prepare and submit proposals for the **Department of General Services'** consideration on behalf of the Commonwealth of Pennsylvania ("Commonwealth") to satisfy a need for **BUILDING SUPPLIES**. The Offeror should have a strong presence for a vast array of building supplies necessary for use by all Commonwealth agencies.

I-2. Issuing Office. The "Issuing Office" has issued this RFP on behalf of the Commonwealth. The sole point of contact in the Commonwealth for this RFP shall be **Karen Gera, 555 Walnut Street, Harrisburg, PA 17101, kgera@state.pa.us**; the Issuing Officer for this RFP. Please refer all inquiries to the Issuing Officer.

I-3. Scope. This RFP contains instructions governing the requested proposals, including the requirements for the information and material to be included; a description of the material to be provided; requirements which Offerors must meet to be eligible for consideration; general evaluation criteria; and other requirements specific to this RFP.

I-4. Problem Statement. CWOPA intends to reduce its overall costs of Procuring and Managing Building Supplies by channeling the volume of CWOPA's demand to a single supplier; however, the Commonwealth reserves the right to award by lot if it is in the best interest of the Commonwealth. The Offeror(s) must be able to meet all of CWOPA's requirements. The Commonwealth estimates the total spend for all lots represented in this RFP to be approximately \$3-4 million annually.

I-5. Type of Contract. It is proposed that if the Issuing Office enters into a contract as a result of this RFP, it will be a **Firm, Fixed-Discount Price** contract **based on Offeror's retail published price list** and containing the Standard Contract Terms and Conditions for Department of General Services Statewide Contracts for Supplies as shown in **Appendix A** and available at **www.dgsweb.state.pa.us/comod.main.asp**. The Issuing Office, in its sole discretion, may undertake negotiations with Offerors whose proposals, in the judgment of the Issuing Office, show them to be qualified, responsible and capable of performing the responsibilities necessary to fulfill the needs of the contract.

I-6. Rejection of Proposals. The Issuing Office reserves the right, in its sole and complete discretion, to reject any proposal, ***partially or in its entirety***, received as a response to this RFP.

I-7. Incurring Costs. The Issuing Office is not liable for any costs the Offeror incurs in preparation and submission of its proposal, in participating in the RFP process or in anticipation of award of the contract.

I-8. Pre-proposal Conference. The Issuing Office will hold a preproposal conference as specified in the **Calendar of Events (page iii)**. The purpose of this conference is to provide opportunity for clarification of the RFP. Offerors should forward all questions to the Issuing Office in accordance with **Part I, Section I-9** to ensure adequate time for analysis before the Issuing Office provides an answer. Offerors may also ask questions at the conference. In view of the limited facilities available for the conference, Offerors should limit their representation to **one (1)** individual per Offeror. The preproposal conference is for information only. Any answers furnished during the conference will not be official until they have been verified, in writing, by the Issuing Office. All questions and written answers will be posted on the Department of General Services' (DGS) website as an addendum to, and shall become part of, this RFP. Attendance at the Preproposal Conference is **optional**.

I-9. Questions & Answers. If an Offeror has any questions regarding this RFP, the Offeror must submit the questions by email (**with the subject line "RFP CN00023105 Question"**) to the Issuing Officer named in **Part I, Section I-2** of the RFP. If the Offeror has questions, they must be submitted via email **no later than** the date indicated on the Calendar of Events. The Offeror shall not attempt to contact the Issuing Officer by any other means. The Issuing Officer shall post the answers to the questions on the DGS website by the date stated on the **Calendar of Events**.

All questions and responses as posted on the DGS website are considered as an addendum to, and part of, this RFP in accordance with RFP **Part I, Section I-10**. Each Offeror shall be responsible to monitor the DGS website for new or revised RFP information. The Issuing Office shall not be bound by any verbal information nor shall it be bound by any written information that is not either contained within the RFP or formally issued as an addendum by the Issuing Office. The Issuing Office does not consider questions to be a protest of the specifications or of the solicitation. The required protest process for Commonwealth procurements is described on the DGS website.

I-10. Addenda to the RFP. If the Issuing Office deems it necessary to revise any part of this RFP before the proposal response date, the Issuing Office will post an addendum to the DGS website at www.dgsweb.state.pa.us/comod/main.asp. It is the Offeror's responsibility to periodically check the website for any new information or addenda to the RFP. Answers to the questions asked during the Questions & Answers period also will be posted to the website as an addendum to the RFP.

I-11. Response Date. To be considered for selection, hard copies of proposals must arrive at the Issuing Office on or before the time and date specified in the RFP Calendar of Events. The Issuing Office will **not** accept proposals via email or facsimile transmission. Offerors who send proposals by mail or other delivery service should allow sufficient delivery time to ensure timely receipt of their proposals. If, due to inclement weather, natural disaster, or any other cause, the Commonwealth office location to which proposals are to be returned is closed on the proposal response date, the deadline for submission will be automatically extended until the next Commonwealth business day on which the office is open, unless the Issuing Office otherwise notifies Offerors. The hour for submission of proposals shall remain the same. The Issuing Office will reject and unopen, any late proposals.

I-12. Proposals. To be considered, Offerors should submit a complete response to this RFP, using the format provided in **Part II(a)(b)(c)**, providing **ten (10) paper** copies of the proposal to the Issuing Office. In addition to the paper copies of the proposal, Offerors shall submit one **complete and exact** copy of the technical proposal on CD-ROM in Microsoft Office or Microsoft Office-compatible format. The Offeror shall make no other distribution of its proposal to any other Offeror or Commonwealth official or Commonwealth consultant. Each proposal page should be numbered for ease of reference. An official authorized to bind the Offeror to its provisions must sign the proposal as specified. For this RFP, the proposal must remain valid for one hundred eighty (180) days or until a contract is fully executed. If the Issuing Office selects the Offeror's proposal for award, the contents of the selected Offeror's proposal will become, except to the extent the contents are changed through Best and Final Offers or negotiations, contractual obligations. The information in the proposal will become a public record upon contract execution, except as limited by Section 106 (b)(1) of the *Commonwealth Procurement Code*, 62 Pa. C.S. § 106 (b)(1).

Each Offeror submitting a proposal specifically waives any right to withdraw or modify it, except that the Offeror may withdraw its proposal by written notice received at the Issuing Office's address for proposal delivery prior to the exact hour and date specified for proposal receipt. An Offeror or its authorized representative may withdraw its proposal in person prior to the exact hour and date set for proposal receipt, provided the withdrawing person provides appropriate identification and signs a receipt for the proposal. An Offeror may modify its submitted proposal prior to the exact hour and date set for proposal receipt only by submitting a new sealed proposal or sealed modification, which complies with the RFP requirements.

I-13. Disadvantaged Business Information. The Issuing Office encourages participation by small disadvantaged businesses as prime suppliers, joint ventures and subsuppliers/suppliers and by socially disadvantaged businesses as prime suppliers.

Small Disadvantaged Businesses are small businesses that are owned or controlled by a majority of persons, not limited to members of minority groups, who have been deprived of the opportunity to develop and maintain a competitive position in the economy because of social disadvantages. The term includes:

- a. Department of General Services Bureau of Minority and Women Business Opportunities (BMWBO)-certified minority business enterprises (MBEs) and women business enterprises (WBEs) that qualify as small businesses; and
- b. United States Small Business Administration-certified small disadvantaged businesses or 8(a) small disadvantaged business concerns.

Small businesses are businesses in the United States that are independently owned, are not dominant in their field of operation, employ no more than 100 persons and earn less than \$20 million in gross annual revenues (\$25 million in gross annual revenues for those businesses in the information technology sales or service business).

Socially disadvantaged businesses are businesses in the United States that BMWBO determines are owned or controlled by a majority of persons, not limited to members of minority groups, who are subject to racial or ethnic prejudice or cultural bias, but which do not qualify as small businesses. In order for a business to qualify as “socially disadvantaged,” the offeror must include in its proposal clear and convincing evidence to establish that the business has personally suffered racial or ethnic prejudice or cultural bias stemming from the businessperson’s color, ethnic origin or gender.

Questions regarding this Program should be directed to:

Department of General Services
Bureau of Minority and Women Business Opportunities
Room 611, North Office Building
Harrisburg, PA 17125
Phone: (717) 787-6708
Fax: (717) 772-0021
Email: gs-bmwbo@state.pa.us

Program information and a database of BMWBO-certified minority- and women-owned businesses can be accessed at www.dgs.state.pa.us, DGS Keyword: BMWBO. The federal supplier(s) database can be accessed at <http://www.ccr.gov> by clicking on *Dynamic Small Business Search* (certified companies are so indicated).

I-14. Information Concerning Small Businesses in Enterprise Zones. Issuing Office encourages participation by small businesses, whose primary or headquarters facility is physically located in areas the Commonwealth has identified as *Designated Enterprise Zones*, as prime suppliers, joint ventures and sub-suppliers/suppliers.

The definition of headquarters includes, but is not limited to, an office or location that is the administrative center of a business or enterprise where most of the important functions of the business are conducted or concentrated and location where employees are conducting the business of the company on a regular and routine basis so as to contribute to the economic development of the geographical area in which the office or business is geographically located.

Small businesses are businesses in the United States that are independently owned, are not dominant in their field of operation, employ no more than 100 persons and earn less than \$20 million in gross annual revenues (\$25 million in gross annual revenues for those businesses in the information technology sales or service business).

There is no database or directory of small businesses located in Designated Enterprise Zones. Information on the location of *Designated Enterprise Zones* can be obtained by contacting:

Aldona M. Kartorie
Center for Community Building
PA Department of Community and Economic Development
4th Floor, Commonwealth Keystone Building
400 North Street
Harrisburg, PA 17120-0225
Phone: (717) 720-7409
Fax: (717) 787-4088
Email: akartorie@state.pa.us

I-15. Economy of Preparation. Offerors should prepare proposals simply and economically, providing a straightforward, concise description of the Offeror's ability to meet the requirements of the RFP.

I-16. Alternate Proposals. The Issuing Office has identified the basic approach to meeting its requirements, allowing Offerors to be creative and propose their best solution to meeting these requirements. The Issuing Office will not accept alternate proposals.

I-17. Discussions for Clarification. Offerors may be required to make an oral or written clarification of their proposals to the Issuing Office to ensure thorough mutual understanding and Offeror responsiveness to the solicitation requirements. The Issuing Office will initiate requests for clarification.

I-18. Prime Supplier Responsibilities. The contract will require the selected Offeror to assume responsibility for all services offered in its proposal whether it produces them itself or by subcontract. The Issuing Office will consider the selected Offeror to be the sole point of contact with regard to contractual matters.

I-19. Proposal Contents. Offerors should not label proposal submissions as confidential or proprietary. The Issuing Office will hold all proposals in confidence and will not reveal or discuss any proposal with competitors for the contract, unless disclosure is required:

- i) Under the provisions of any Commonwealth or United States statute or regulation; or
- ii) By rule or order of any court of competent jurisdiction.

After a contract is executed, however, the successful proposal is considered a public record under the *Right-to-Know Law*, 65 P.S. § 66.1—66.9, and therefore subject to disclosure. The financial capability information submitted under **Part II, Section II-7** shall not be disclosed in the final contract. All material submitted with the proposal becomes the property of the Commonwealth of Pennsylvania and may be returned only at the Issuing Office’s option. The Issuing Office, in its sole discretion, may include any person other than competing Offerors on its proposal evaluation committee. The Issuing Office has the right to use any or all ideas presented in any proposal regardless of whether the proposal becomes part of a contract.

I-20. Best and Final Offers. The Issuing Office reserves the right to conduct discussions with Offerors for obtaining “best and final offers.” To obtain best and final offers from Offerors, the Issuing Office may do one or more of the following:

- i) Enter into pre-selection negotiations, including the use of an online auction;
- ii) Schedule oral presentations; and
- iii) Request revised proposals.

The Issuing Office will limit any discussions to responsible Offerors (those that have submitted responsive proposals and possess the capability to fully perform the contract requirements in all respects and the integrity and reliability to assure good faith performance) whose proposals the Issuing Office has determined to be reasonably susceptible of being selected for award. The Criteria for Selection found in **Part III, Section III-5**, should also be used to evaluate the best and final offers. Price reductions offered through any reverse online auction shall have no effect upon the Offeror’s Technical Submittal. Dollar commitments to Disadvantaged Businesses and Enterprise Zone Small Businesses can be reduced only in the same percentage as the percent reduction in the total price offered through negotiations, including the online auction.

I-21. News Releases. Offerors shall not issue news releases, Internet postings, advertisements or any other public communications pertaining to this Project without prior written approval of the Issuing Office, and then only in coordination with the Issuing Office.

I-22. Restriction of Contact. From the issue date of this RFP until the Issuing Office selects a proposal for award, the Issuing Officer is the sole point of contact concerning this RFP. Any violation of this condition may be cause for the Issuing Office to reject the offending Offeror's proposal. If the Issuing Office later discovers that the Offeror has engaged in any violations of this condition, the Issuing Office may reject the offending Offeror's proposal or rescind its contract award. Offerors must agree not to distribute any part of their proposals beyond the Issuing Office. An Offeror who shares information contained in its proposal with other Commonwealth personnel and/or competing Offeror personnel may be disqualified.

I-23. Debriefing Conferences. Offerors whose proposals are not selected will be notified of the name of the selected Offeror and given the opportunity to be debriefed. The Issuing Office will schedule the time and location of the debriefing. The debriefing will not compare the Offeror with other Offerors, other than the position of the Offeror's proposal in relation to all other Offeror proposals. An Offeror's exercise of the opportunity to be debriefed does not constitute the filing of a protest.

I-24. Issuing Office Participation. Offerors shall provide all services, supplies, facilities, and other support necessary to complete the identified work.

I-25. Term of Contract. The term of the contract will commence on the Effective Date (as defined herein) and will have an initial term of two years. The Issuing Office will fix the Effective Date after the contract has been fully executed by the selected Offeror and by the Commonwealth and all approvals required by Commonwealth contracting procedures have been obtained. The selected Offeror shall not start the performance of any work prior to the Effective Date of the contract and the Commonwealth shall not be liable to pay the selected Offeror for any service or work performed or expenses incurred before the Effective Date of the contract.

I-26. Price Adjustment Clause. It is proposed that if the Issuing Office enters into a contract as a result of this RFP, it will be a fixed price contract for the first (12) months of the contract, except for Lot 1 and Lot 2. For the remaining one (1) year, as well as any subsequent yearly renewals, the pricing will be established through negotiations between the Commonwealth and the contractor. Any price change requests must be submitted to Department of General Services, in writing, 45 days prior to scheduled negotiations be considered. No price adjustment will be permitted prior to the effective date of the increase received by the Contractor from his suppliers, or on purchase orders that are already being processed, or on purchase orders that have been filled and are awaiting shipment. If the Contractor receives orders requiring quarterly delivery, the increase will apply to all deliveries made after the effective date of the price increase.

The price increase must be supported by a general price increase in the cost of the finished supplies, due to increases in the cost of raw materials, labor, freight, Workers' Compensation and/or Unemployment Insurance, etc. Detailed documentation, to include a comparison list of the contract items and proposed price increases, must be submitted to support the requested increase. Supportive documentation should include, but is not limited to: copies of the old and the current price lists or similar documents which indicate the original base cost of the product to the Contractor and the corresponding increase, and/or copies of correspondence sent by the Contractor's supplier on the supplier's letterhead, which contain the above price information and explains the source of the increase in such areas as raw materials, freight, fuel or labor, etc.

Should there be a decrease in the cost of the finished product due to a general decline in the market or some other factor, the Contractor is responsible to notify the Bureau of Procurement immediately. The price decrease adjustment will be incorporated into the contract and will be effective on all purchase orders issued after the effective date of the decrease. If the price decrease is a temporary decrease, such should be noted. In the event that the temporary decrease is revoked, the contract pricing will be returned to the pricing in effect prior to the temporary decrease. For quarterly deliveries, any decrease will be applied to deliveries made after the effective date of the decrease. Failure to comply with this provision will be considered as a default and will be subject to the provisions of **GSPRU-12E "Contract Terms and Conditions"**.

I-27. Multiple Awards. Multiple awards may be made as a result of this RFP, if it is in the best interest of the Commonwealth. Multiple Awards can ensure that any ensuing contracts will allow the Commonwealth to fulfill current and future requirements of all Commonwealth agencies. The actual utilization of any contract will be at the sole discretion of the Commonwealth.

I-28. Contract Renewals. There will be an option to renew for three (3) additional one (1) year renewals. In deciding whether to renew, CWOPA will review the Contractor's past performance under the Contract. If the contract is renewed, the Terms and Conditions shall remain the same.

I-29. Option to Extend. The Department of General Services reserves the right, upon notice to Contractor, to extend the Contract or any part of the Contract up to three (3) months upon the same terms and conditions. This will be utilized to prevent a lapse in contract coverage and only for the time necessary, up to three (3) months, to enter into a new contract.

I-30. Offeror's Representations and Authorizations. By submitting its proposal, each Offeror understands, represents, and acknowledges that:

- a. All of the Offeror's information and representations in the proposal are material and important, and the Issuing Office may rely upon the contents of the proposal in awarding the contract(s). The Commonwealth shall treat any misstatement, omission or misrepresentation as fraudulent concealment of the facts relating to the Proposal submission, punishable pursuant to 18 Pa. C.S. § 4904.

- b. The Offeror has arrived at the price(s) and amounts in its proposal independently and without consultation, communication, or agreement with any other Offeror or potential offeror.
- c. The Offeror has not disclosed the price(s), the amount of the proposal, nor the approximate price(s) or amount(s) of its proposal to any other firm or person who is an Offeror or potential offeror for this RFP, and the Offeror shall not disclose any of these items on or before the proposal submission deadline specified in the Calendar of Events of this RFP.
- d. The Offeror has not attempted, nor will it attempt, to induce any firm or person to refrain from submitting a proposal on this contract, or to submit a proposal higher than this proposal, or to submit any intentionally high or noncompetitive proposal or other form of complementary proposal.
- e. The Offeror makes its proposal in good faith and not pursuant to any agreement or discussion with, or inducement from, any firm or person to submit a complementary or other noncompetitive proposal.
- f. To the best knowledge of the person signing the proposal for the Offeror, the Offeror, its affiliates, subsidiaries, officers, directors, and employees are not currently under investigation by any governmental agency and have not in the last **four** years been convicted or found liable for any act prohibited by State or Federal law in any jurisdiction, involving conspiracy or collusion with respect to bidding or proposing on any public contract, except as the Offeror has disclosed in its proposal.
- g. To the best knowledge of the person signing the proposal for the Offeror and except as the Offeror has otherwise disclosed in its proposal, the Offeror has no outstanding, delinquent obligations to the Commonwealth including, but not limited to, any state tax liability not being contested on appeal or other obligation of the Offeror that is owed to the Commonwealth.
- h. The Offeror is not currently under suspension or debarment by the Commonwealth, any other state or the federal government, and if the Offeror cannot so certify, then it shall submit along with its proposal a written explanation of why it cannot make such certification.
- i. The Offeror has not made, under separate contract with the Issuing Office, any recommendations to the Issuing Office concerning the need for the services described in its proposal or the specifications for the services described in the proposal.

- j. Each Offeror, by submitting its proposal, authorizes Commonwealth agencies to release to the Commonwealth information concerning the Offeror's Pennsylvania taxes, unemployment compensation and workers' compensation liabilities.
- k. Until the selected Offeror receives a fully executed and approved written contract from the Issuing Office, there is no legal and valid contract, in law or in equity, and the Offeror shall not begin to perform.

I-31. Notification of Selection. The Issuing Office will notify the selected Offeror in writing of its selection for negotiation after the Issuing Office has determined, taking into consideration all of the evaluation factors, the proposal that is the most advantageous to the Issuing Office.

I-32. RFP Protest Procedure. The RFP Protest Procedure is on the DGS website at <http://www.dgs.state.pa.us> A protest by a party not submitting a proposal must be filed within **seven** days after the protesting party knew or should have known of the facts giving rise to the protest, but no later than the proposal submission deadline specified in the Calendar of Events of the RFP. Offerors may file a protest within **seven** days after the protesting Offeror knew or should have known of the facts giving rise to the protest, but in no event may an Offeror file a protest later than **seven** days after the date the notice of award of the contract is posted on the DGS website. The date of filing is the date of receipt of the protest. A protest must be filed in writing with the Issuing Office.

I-33. Use of Electronic Versions of this RFP. This RFP is being made available by electronic means. If an Offeror electronically accepts the RFP, the Offeror acknowledges and accepts full responsibility to insure that no changes are made to the RFP. In the event of a conflict between a version of the RFP in the Offeror's possession and the Issuing Office's version of the RFP, the Issuing Office's version shall govern.

I-34. Participating Addendum with an External Procurement Activity.

Section 1902 of the *Commonwealth Procurement Code*, 62 Pa.C.S. § 1902, permits external procurement activities to participate in cooperative purchasing agreements for the procurement of services, supplies or construction.

a. **Definitions.** The following words and phrases have the meanings set forth:

- 1) *External procurement activity:* The term, as defined in 62 Pa. C. S. § 1901, means a “buying organization not located in the Commonwealth [of Pennsylvania] which if located in this Commonwealth would qualify as a public procurement unit [under 62 Pa. C.S. §1901]. An agency of the United States is an external procurement activity.”

- 2) *Participating addendum*: A bilateral agreement executed by the Supplier and an external procurement activity that clarifies the operation of the Contract for the external procurement activity concerned. The terms and conditions in any participating addendum shall affect only the procurements of the purchasing entities under the jurisdiction of the external procurement activity signing the participating addendum.
 - 3) *Public procurement unit*: The term, as defined in 62 Pa. C. S. § 1901, means a “local public procurement unit or purchasing agency.”
 - 4) *Purchasing agency*: The term, as defined in 62 Pa. C. S. § 103, means a “Commonwealth agency authorized by this part or any other law to enter into contracts for itself or as the agent of another Commonwealth agency.”
- b. **General.** A participating addendum shall incorporate the terms and conditions of the Contract resulting from this RFP. The Supplier shall not be required to enter into any participating addendum.
- c. **Additional Terms.**
- 1) A participating addendum may include additional terms that are required by the law governing the external procurement activity.
 - 2) A participating addendum may include new, mutually agreed upon terms that clarify ordering procedures specific to a participating external procurement activity.
 - 3) The construction and effect of any participating addendum shall be governed by and construed in accordance with the laws governing the external procurement activity.
 - 4) If an additional term requested by the external procurement activity will result in an increased cost to the Supplier, the Supplier shall adjust its pricing up or down accordingly.
- d. **Usage Reports on External Procurement Activities.** The Supplier shall furnish to the Contracting Officer an electronic monthly usage report, preferably in spreadsheet format no later than the fifteenth calendar day of the succeeding calendar month. Reports shall be e-mailed to the Contracting Officer for the Contract. Each report shall indicate the name and address of the Supplier, contract number, period covered by the Report, the name of the external procurement activity that has used the Contract and the total volume of sales to the external procurement activity for the reporting period.

e. **Electronic Copy of Participating Addendum.** The Supplier, upon request of the Contracting Officer, shall submit **one** electronic copy of the participating addendum to the Contracting Officer within **ten** days after request.

I-35. Reciprocal Limitations Act 146

The Reciprocal Limitations Act 146 (**Appendix J**) requires the Department of General Services to give Pennsylvania resident offerors a preference against a non-resident offeror from any state that gives or requires a preference to offerors from that state. The amount of preference shall be equal to the amount of preference applied by the state of the non-resident offeror. More information on this Act, or how to claim preference, can be obtained at our internet site at www.dgs.state.pa.us, by faxing a request to (717) 214-0140, or by calling Central Vendor Management Unit (CVMU) at (717) 787-2868. The requirements of this Act can be found in Appendix I.

PART II

PROPOSAL REQUIREMENTS

Offerors must submit their proposals in the format, including heading descriptions, outlined below. To be considered responsive, the proposal must respond to all requirements in this part of the RFP. Offerors should provide any other information thought to be relevant, but not applicable to the enumerated categories, as an appendix to the Proposal. All cost data relating to this proposal and all Disadvantaged Business cost data should be kept separate from and not included in the Technical Submittal. Each proposal page should be numbered in succession, starting at 1 and going through the last page, for ease of reference. Proposals must be signed by an official authorized to bind the offeror to its provisions. For this RFP, the proposal must remain valid for at least (180) days from the date of submission. Moreover, the contents of the proposal of the selected contractor(s) will become contractual obligations if a contract is entered into.

Each and every offeror submitting a proposal specifically waives any right to withdraw or modify it, except as hereinafter provided. Proposals may be withdrawn by written or fax notice received at the Issuing Office's address for proposal delivery prior to the exact hour and date specified for proposal receipt. However, if the offeror chooses to attempt to provide such written notice by fax transmission, the CWOPA shall not be responsible or liable for errors in fax transmission. A proposal may also be withdrawn in person by an offeror or its authorized representative, provided its identity is made known and it signs a receipt for the proposal, but only if the withdrawal is made prior to the exact hour and date set for proposal receipt. A proposal may only be modified by the submission of a new sealed proposal or submission of a sealed modification that complies with the requirements of this RFP.

Each Proposal shall consist of the following **three** separately sealed submittals:

- a. Technical Submittal: Offerors are required to complete Appendix C, (Minimum Qualifications) to Respond to RFP and Appendix D, (Technical Questionnaire). This section details the specifications for the new Building Supplies contract and requires offerors to describe their technical approach and plan for accomplishing the work within **Part II, Proposal Requirements, Part III, Criteria for Selection and Part IV, Work Statement**. In this attachment, offerors must address all of the questions stated and provide an integral description of all services, resources, capabilities, etc., that will meet CWOPA's statewide Building Supplies needs. One submission will suffice for all lots that an offeror proposes upon, *so long as they indicate all lots they are proposing upon as instructed in Appendix C and Appendix D.* This submittal must be bound, SEALED, and identified separately as "Technical Submittal" from the Cost Submittal and Disadvantaged Business Participation Submittal of the proposal.

- b. Cost Submittal: The information requested in this section shall constitute the offeror's Cost Submittal and must be clearly identified as "Cost Submittal". This portion of the proposal must be bound and sealed separately from the remainder of the proposal. Pricing data must not be presented in any portion of the Technical Submittal. Pricing data is defined as any information related to, directly or indirectly, the offeror's proposed charges for services and deliverables. Pricing data consists of, but is not limited to, costs, fees, prices, rates, bonuses, discounts, rebates, or the identification of free services, labor or materials. Offerors are required to complete **Appendix F and Appendix G**. One (1) electronic copy (MS Excel) on CD in the format of Appendix G. One (1) paper original (marked "original") of the price submittal are required. This submittal must be bound, SEALED, and identified separately as "Cost Submittal" from the Technical Submittal and Disadvantaged Business Participation Submittal of your proposal. The electronic copy of the cost submittal must be on a separate CD than the technical submittal and must be sealed with the separately bound original paper cost submittal. One cost submittal package will suffice for all lots that an offeror proposes upon. **DGS requires bidders to bid on 100% of the items in any given lot to be considered "responsive" in bidding on that particular lot.** Bidders may select the lots for which they wish to be considered for award; however, incomplete bidding on any given lot may preclude the bidder from further consideration.
- c. Disadvantaged Business Submittal, (which shall be in response to RFP **Part II, Section II-9**); One (1) paper original of this submittal must be bound, SEALED and identified separately as "Disadvantaged Business Submittal" from the Technical Submittal and Cost Submittal of the proposal. Include in the Disadvantaged Business Information Submittal any and all information concerning the offeror's proposed utilization of small and socially disadvantaged businesses as required by **Section II-9(a)**, Disadvantaged Business Information or the RFP. Also, include in the Disadvantaged Business Information Submittal any and all information concerning the offeror's proposed utilization of small businesses located in Enterprise Zone Small Business Participation as required by **Section II-9(b)**. If an offeror is proposing upon multiple lots, a **separate** Disadvantaged Submittal must be completed for **each** lot (as specified in **Appendix C and Appendix D**) and sealed separately from the Disadvantaged Submittal for the other lots.

The Issuing Office reserves the right to request additional information, which, in the Issuing Office's opinion, is necessary to assure that the Offeror's competence, number of qualified employees, business organization, and financial resources are adequate to perform according to the RFP.

The Issuing Office may make investigations as deemed necessary to determine the ability of the Offeror to perform the Project, and the Offeror shall furnish to the Issuing Office all requested information and data. The Issuing Office reserves the right to reject any proposal if the evidence submitted by, or investigation of, such Offeror fails to satisfy the Issuing Office that such Offeror is properly qualified to carry out the obligations of the RFP and to complete the Project as specified.

II-1. Statement of the Problem. State in succinct terms your understanding of the problem presented or the service required by this RFP.

II-2. Management Summary. Include a narrative description of the proposed effort and a list of the items to be delivered or services to be provided.

II-3. Work Plan. Describe in narrative form your technical plan for accomplishing the work. Use the **Task** descriptions in **Part IV (a) through (j)** of this RFP as your reference point. Modifications of the task descriptions are permitted; however, reasons for changes should be fully explained. Indicate the number of person hours allocated to each task. Include a Program Evaluation and Review Technique (PERT) or similar type display, time related, showing each event. If more than one approach is apparent, comment on why you chose this approach.

II-4. Prior Experience. Include experience in **providing building services and materials to other government entities or other large commercial customers.** Experience shown should be work done by individuals who will be assigned to this project as well as that of your company. Studies or projects referred to must be identified and the name of the customer shown, including the name, address, and telephone number of the responsible official of the customer, company, or agency who may be contacted.

II-5. Key Personnel. Include the number of key executive and professional personnel, analysts, programmers, consultants, etc., who will be engaged in the work. Show where these personnel will be physically located during the time they are engaged in the Contract. Indicate the responsibilities each individual will have in this Contract and how long each has been with your company. Identify by name any sub-suppliers you intend to use and the services they will perform.

II-6. Training. If appropriate, indicate recommended training of agency personnel. Include the agency personnel to be trained, the number to be trained, duration of the program, place of training, curricula, training materials to be used, number and frequency of sessions, and number and level of instructors.

II-7. Financial Capability. Describe your company's financial stability and economic capability to perform the contract requirements. Financial documents such as audited financial statements or recent tax returns will be acceptable to the Commonwealth.

II-8. Objections and Additions to Standard Contract Terms and Conditions. The Offeror will identify which, if any, of the terms and conditions (contained in **Appendix A**), it would like to renegotiate and what additional terms and conditions the Offeror would like to add to the standard contract terms and conditions. The Offeror's failure to make a submission under this paragraph will result in its waiving its right to do so later, but the Issuing Office may consider late objections and requests for additions if to do so, in the Issuing Office's sole discretion, would be in the best interest of the Commonwealth. The Issuing Office may, in its sole discretion, accept or reject any requested changes to the standard contract terms and conditions. The Offeror shall not request changes to the other provisions of the RFP, nor shall the Offeror request to completely substitute its own terms and conditions for **Appendix A**. All terms and conditions must appear in one integrated contract. The Issuing Office will not accept references to the Offeror's, or any other, online guides or online terms and conditions contained in any proposal.

Regardless of any objections set out in its proposal, the Offeror must submit its proposal, including the cost proposal, based on the terms and conditions set out in **Appendix A**. The Issuing Office will reject any proposal that is conditioned on the negotiation of terms and conditions other than those set out in **Appendix A**.

II-9. Disadvantaged Business Submittal.

a. **Disadvantaged Business Information.**

- i) To receive credit for being a Small Disadvantaged Business or a Socially Disadvantaged Business or for entering into a joint venture agreement with a Small Disadvantaged Business or for subcontracting with a Small Disadvantaged Business (including purchasing supplies and/or services through a purchase agreement), an Offeror must include proof of Disadvantaged Business qualification in the Disadvantaged Business Submittal of the proposal, as indicated below:
 - 1) A Small Disadvantaged Businesses certified by BMWBO as an MBE/WBE must provide a photocopy of their BMWBO certificate.

- 2) Small Disadvantaged Businesses certified by the U.S. Small Business Administration pursuant to Section 8(a) of the *Small Business Act* (15 U.S.C. § 636(a)) as an 8(a) or small disadvantaged business must submit proof of U.S. Small Business Administration certification. The owners of such businesses must also submit proof of United States citizenship.
 - 3) All businesses claiming Small Disadvantaged Business status, whether as a result of BMWBO certification or U.S. Small Business Administration certification as and 8(a) or small disadvantaged business, must attest to the fact that the business has 100 or fewer employees.
 - 4) All businesses claiming Small Disadvantaged Business status, whether as a result of BMWBO certification or U.S. Small Business Administration certification as and 8(a) or small disadvantaged business, must submit proof that their gross annual revenues are less than \$20,000,000 (\$25,000,000 for those businesses in the information technology sales or service business). This can be accomplished by including a recent tax return or audited financial statement.
- ii) All businesses claiming status as a Socially Disadvantaged Business must include in the Disadvantaged Business Submittal of the proposal clear and convincing evidence to establish that the business has personally suffered racial or ethnic prejudice or cultural bias stemming from the businessperson's color, ethnic origin or gender. The submitted evidence of prejudice or bias must:
- 1) Be rooted in treatment that the businessperson has experienced in American society, not in other countries.
 - 2) Show prejudice or bias that is chronic and substantial, not fleeting or insignificant.
 - 3) Indicate that the businessperson's experience with the racial or ethnic prejudice or cultural bias has negatively impacted his or her entry into and/or advancement in the business world.

BMWBO shall determine whether the Offeror has established that a business is socially disadvantaged by clear and convincing evidence.

- iii) In addition to the above verifications, the Offeror must include in the Disadvantaged Business Submittal of the proposal the following information:
- 1) The name and telephone number of the Offeror's project (contact) person for the Small Disadvantaged Business.
 - 2) The business name, address, name and telephone number of the primary contact person for each Small Disadvantaged Business included in the proposal. The Offeror must specify each Small Disadvantaged Business to which it is making commitments. The Offeror will not receive credit for stating that it will find a Small Disadvantaged Business after the contract is awarded or for listing several businesses and stating that one will be selected later.
 - 3) The specific work, goods or services each Small Disadvantaged Business will perform or provide.
 - 4) The estimated dollar value of the contract to each Small Disadvantaged Business.
 - 5) Of the estimated dollar value of the contract to each Small Disadvantaged Business, the percent of the total value of services or products purchased or subcontracted that will be provided by the Small Disadvantaged Business directly.
 - 6) The location where each Small Disadvantaged Business will perform these services.
 - 7) The timeframe for each Small Disadvantaged Business to provide or deliver the goods or services.
 - 8) The amount of capital, if any, each Small Disadvantaged Business will be expected to provide.
 - 9) The form and amount of compensation each Small Disadvantaged Business will receive.
 - 10) For a joint venture agreement, a copy of the agreement, signed by all parties.
 - 11) For a subcontract, a signed subcontract or letter of intent.
- iv) The Offeror is required to submit only **one** copy of its Disadvantaged Business Submittal. The submittal shall be clearly identified as

Disadvantaged Business information and sealed in its own envelope, separate from the remainder of the proposal.

- v) The Offeror must include the dollar value of the commitment to each Small Disadvantaged Business in the same sealed envelope with its Disadvantaged Business Submittal. The following will become a contractual obligation once the contract is fully executed:
 - 1) The amount of the selected Offeror's Disadvantaged Business commitment;
 - 2) The name of each Small Disadvantaged Business; and
 - 3) The services each Small Disadvantaged Business will provide, including the timeframe for performing the services.
- vi) A Small Disadvantaged Business can be included as a sub-supplier with as many prime suppliers as it chooses in separate proposals.
- vii) An Offeror that qualifies as a Small Disadvantaged Business and submits a proposal as a prime supplier is not prohibited from being included as a sub-supplier in separate proposals submitted by other Offeror.

b. Enterprise Zone Small Business Participation.

- i) To receive credit for being an enterprise zone small business or entering into a joint venture agreement with an enterprise zone small business or subcontracting with an enterprise zone small business, an Offeror must include the following information in the Disadvantaged Business Submittal of the proposal:
 - 1) Proof of the location of the business' headquarters (such as a lease or deed or Department of State corporate registration), including a description of those activities that occur at the site to support the other businesses in the enterprise zone.
 - 2) Confirmation of the enterprise zone in which it is located (obtained from the local enterprise zone office).
 - 3) Proof of United States citizenship of the owners of the business.
 - 4) Certification that the business employs 100 or fewer employees.
 - 5) Proof that the business' gross annual revenues are less than \$20,000,000 (\$25,000,000 for those businesses in the information

technology sales or service business). This can be accomplished by including a recent tax return or audited financial statement.

- 6) Documentation of business organization, if applicable, such as articles of incorporation, partnership agreement or other documents of organization.

ii) In addition to the above verifications, the Offeror must include in the Disadvantaged Business Submittal of the proposal the following information:

- 1) The name and telephone number of the Offeror's project (contact) person for the Enterprise Zone Small Business.
- 2) The business name, address, name and telephone number of the primary contact person for each Enterprise Zone Small Business included in the proposal. The Offeror must specify each Enterprise Zone Small Business to which it is making commitments. The Offeror will not receive credit for stating that it will find an Enterprise Zone Small Business after the contract is awarded or for listing several businesses and stating that one will be selected later.
- 3) The specific work, goods or services each Enterprise Zone Small Business will perform or provide.
- 4) The estimated dollar value of the contract to each Enterprise Zone Small Business.
- 5) Of the estimated dollar value of the contract to each Enterprise Zone Small Business, the percent of the total value of services or products purchased or subcontracted that each Enterprise Zone Small Business will provide.
- 6) The location where each Enterprise Zone Small Business will perform these services.
- 7) The timeframe for each Enterprise Zone Small Business to provide or deliver the goods or services.
- 8) The form and amount of compensation each Enterprise Zone Small Business will receive.
- 9) For a joint venture agreement, a copy of the agreement, signed by all parties.
- 10) For a subcontract, a signed subcontract or letter of intent.

- iii) The dollar value of the commitment to each Enterprise Zone Small Business must be included in the same sealed envelope with the Disadvantaged Business Submittal of the proposal. The following will become a contractual obligation once the contract is fully executed:
 - 1) The amount of the selected Offeror's Enterprise Zone Small Business commitment;
 - 2) The name of each Enterprise Zone Small Business; and
 - 3) The services each Enterprise Zone Small Business will provide, including the timeframe for performing the services.

II-10. Cost Submittal. The information requested in **Appendix F and Appendix G** of this RFP shall constitute the Cost Submittal. The Cost Submittal must be placed in a separate sealed envelope within the sealed proposal, separated from the technical submittal (see paragraph "b" on pages 15-16). Offerors should **not** include any assumptions in their cost submittals. If the Offeror includes assumptions in its cost submittal, the Issuing Office may reject the proposal. Offerors should direct in writing to the Issuing Office pursuant to **Part I, Section I-9**, of this RFP any questions about whether a cost or other component is included or applies. All Offerors will then have the benefit of the Issuing Office's written answer so that all proposals are submitted on the same basis.

PART III

CRITERIA FOR SELECTION

III-1. Mandatory Responsiveness Requirements. To be eligible for selection, a proposal must be:

- a. Timely received from an Offeror;
- b. Properly signed by the Offeror.

Only those offerors that meet the mandatory requirements, as stated in Part II-1 through II-10 will qualify for evaluation and further consideration.

III-2. Technical Nonconforming Proposals. The Issuing Office reserves the right, in its sole discretion, to waive technical or immaterial nonconformities in an Offeror's proposal.

III-3. Evaluation. The Issuing Office has selected a committee of qualified personnel to review and evaluate timely submitted proposals. Independent of the committee, BMWBO will evaluate the Disadvantaged Business Submittal and provide the Issuing Office with a rating for this component of each proposal. The Issuing Office will notify in writing of its selection for negotiation the responsible Offeror whose proposal is determined to be the most advantageous to the Commonwealth as determined by the Issuing Office after taking into consideration all of the evaluation factors. The Issuing Office will award a contract only to an Offeror determined to be responsible in accordance with the most current version of Commonwealth Management Directive 215.9, *Supplier Responsibility Program*.

III-4. Criteria for Selection. The following criteria will be used, in order of relative importance from the highest to the lowest weighted factors, in evaluating each proposal:

- a. **Technical:** Evaluation will be based upon the following in order of importance:
 1. **Understanding the Problem/Soundness of Approach:** This refers to the Offeror's understanding of the Commonwealth's needs that necessitated the RFP, realizing the Commonwealth's objectives in seeking the services/materials, perceiving the nature and scope of the work involved, and being able to produce a viable solution.

2. Soundness of Approach: Emphasis here is on the techniques for collecting and analyzing data, the sequence and relationships of major steps, and the method for managing the Commonwealth building supplies and the infrastructure available to implement.

- Delivery
- Minimum Orders
- Product Specification
- Order Fill Rate
- Warranty
- Return Policy
- Invoicing
- Payments
- Reports
- Company Capabilities

Of equal importance is whether the approach is completely responsive to all written specifications, requirements contained in the RFP, and if it appears to meet the objectives.

3. Offeror Qualifications: This refers to the capability of the Offeror to deliver a solution to the Commonwealth’s problems as stated in the RFP. Consideration may be given to the experience of the Offeror, especially in the nature, relevancy, scope, time critical linkages, quality, of the Offeror. This also includes the Offerors financial ability to undertake a contract of this size

b. **Cost:** Pricing for the attached lots shall be based on one price column in Appendix G (Product Price Analysis) and all bidders will offer their price based on **FOB destination**. Bidders should also fill in pricing for **100% of the line items** given in any particular lot to be considered “responsive” for that particular lot. Failure to bid 100% of the line items may deem the bidder “nonresponsive” and thus preclude the bidder from further consideration for an award.

c. **Disadvantaged Business Participation:** Evaluation will be based upon the following in order of priority:

Priority Rank 1 Proposals submitted by Small Disadvantaged Businesses.

Priority Rank 2 Proposals submitted from a joint venture with a Small Disadvantaged Business as a joint venture partner.

Priority Rank 3

Proposals submitted with subcontracting commitments to Small Disadvantaged Businesses.

Priority Rank 4

Proposals submitted by Socially Disadvantaged Businesses.

Each proposal will be rated for its approach to enhancing the utilization of Small Disadvantaged Businesses and/or Socially Disadvantaged Businesses. Each approach will be evaluated, with Priority Rank 1 receiving the highest score and the succeeding options receiving scores in accordance with the above-listed priority ranking.

To the extent that an Offeror qualifies as a Small Disadvantaged Business or a Socially Disadvantaged Business, the Small Disadvantaged Business or Socially Disadvantaged Business cannot enter into subcontract arrangements for more than **40%** of the total estimated dollar amount of the contract. If a Small Disadvantaged Business or a Socially Disadvantaged Business subcontracts more than **40%** of the total estimated dollar amount of the contract to other suppliers, the Disadvantaged Business Participation scoring shall be proportionally lower for that proposal.

- d. **Enterprise Zone Small Business Participation:** The following options will be considered as part of the final criteria for selection:

Priority Rank 1

Proposals submitted by an Enterprise Zone Small Business will receive the highest score.

Priority Rank 2

Proposals submitted by a joint venture with an Enterprise Zone Small Business as a joint venture partner will receive the next highest score for this criterion.

Priority Rank 3

Proposals submitted with a subcontracting commitment to an Enterprise Zone Small Business will receive the lowest score for this criterion.

Priority Rank 4

Proposals with no Enterprise Zone Small Business Utilization shall receive no points under this criterion.

To the extent that an Offeror is an Enterprise Zone Small Business, the Offeror cannot enter into contract or subcontract arrangements for more than **40%** of the total estimated dollar amount of the contract in order to qualify as an Enterprise Zone Small Business for purposes of this RFP.

III-5. Best and Final Offers. CWOPA may elect to request the submission of Best and Final Offers in accordance with Section I-20. In that event, only those offerors reasonably susceptible of being selected for award will be invited to participate in the Best and Final Offers step of the procurement. If a bidder submits alternate proposals as permitted by Section I-16, only the higher-scored proposal (prime proposal or alternate proposal) will be selected as a finalist.

PART IV

WORK STATEMENT

The Commonwealth seeks to award this contract to a single supplier; however, the Commonwealth reserves the right to award by lot if it is the best interest of the Commonwealth.

This RFP is to establish a Contract for the following 11 lots. The category descriptive examples below are not to be considered restrictive, but rather a general description and not to be limited by the text contained within this RFP.

IV-1. Objectives.

- a. **General.** The Commonwealth intends to reduce its overall costs for Building Supplies by channeling volume within specified lots to a single supplier offering the proposal determined to be the most advantageous to CWOPA (11 Lots) described in Appendix E – Description of Lots.
- b. Provide comprehensive competitive Contract offering materials to all Commonwealth agencies.
- c. Achieve cost savings for supplier and Commonwealth agencies. Reduce overhead cost of supplier and Commonwealth agencies through state-of-the-art ordering and delivery systems.
- d. **Specific.** The successful supplier(s) will be required to provide Building Supplies for all executive agencies and must be willing to provide these supplies for independent agencies and state affiliated entities. In order to accomplish this, the Commonwealth has established ten lots:

LOT	DESCRIPTION
One	Lumber Products
Two	Specialty Lumber Products
Three	Paint (Interior & Exterior & other coatings)
Four	Drywall & Spackling Products
Five	Doors, Windows & Weather-stripping
Six	Roofing Materials
Seven	Siding
Eight	Insulation
Nine	Gutters & Downspouts
Ten	Brick, Block, Pavers & Crushed Stone
Eleven	Fencing & Gates

IV-2. Nature and Scope of the Project. The selected supplier(s) will be required to assume responsibility for providing all Building Supply items by the established delivery times, as specified in its proposal to all Commonwealth agencies.

IV-3. Requirements.

a. Minimum Qualifications:

The minimum qualifications are listed in “Minimum Qualifications to Respond to RFP” – Appendix C, Questions 1 through 11 and must be addressed by indicating acceptance of each. If there are any conflicts between the answers to the questions and any answers in any other section of your proposal, the answers in Appendix C – “Minimum Qualifications to Respond to RFP” will take precedence in any contract that may be entered into as a result of this RFP.

Non-acceptance of or with any minimum qualifications, or modification of, or the placing of conditions on acceptance or compliance with any of the minimum qualifications, in whole or in part, will result in immediate disqualification, unless CWOPA determines, in its sole discretion, that a Non-compliance is a waivable technicality and not a material defect.

All the questions listed in Appendix C – “Minimum Qualifications to Respond to RFP”, (**must be answered**). In the event of a “No” answer to any question, please accept our appreciation for your interest, and understand that, since CWOPA requires a minimum level of qualification, your proposal may not be deemed responsive.

b. Technical Requirements:

This section details the specifications for the new Building Supplies contract and requires offerors to describe their technical approach and plan for accomplishing the work within Appendix D – “Technical Questionnaire”. In this attachment, offerors must address all of the questions stated and provide an integral description of all of the services, resources, capabilities, etc., that will meet CWOPA’s Building Supplies needs.

c. Company Capabilities:

It is strongly recommended that offerors have prior experience with similar size customers. CWOPA requires proof of the offeror’s ability to service a contract of this size. Customers referred to should be identified and the name of the customer shown, including the name, address, and telephone number of the responsible official of the customer, company, or agency who may be contacted.

Offerors must describe their current infrastructure in the Commonwealth of Pennsylvania and any enhancements that would be necessary to service the entire Commonwealth for this contract, including the startup time necessary if awarded the contract.

d. Customer Service Representative Team:

The supplier must provide CWOPA with a customer service team that will be dedicated to the CWOPA account and be available at a minimum of Monday through Friday from 8AM to 5PM. The supplier must provide a toll-free telephone, a toll-free facsimile number, and an email address to contact the customer service team to place orders. This team will take orders from any CWOPA agency representative for the purchase of Building Supplies. The team's prime responsibilities consist of managing their network's distribution and warehousing centers that carries the requested part and arranging prompt delivery to CWOPA's locations. This team will play an important role in achieving the delivery required by various agencies.

The team must be knowledgeable, qualified, and experienced in the industry of the lot(s) they are proposing upon so that they can assist CWOPA maintenance and procurement personnel in providing advice on the type of parts that best suits their needs.

e. Account Manager:

In addition to the Customer Service Representative Team, the supplier must designate a dedicated account manager will serve as a main point of contact for insuring the successful and seamless implementation of this contract. The account manager will be, at minimum, available to CWOPA from Monday to Friday. The account manager will play an important role in overseeing the supplier's Customer Service Representative Team. He/she will be responsible but not limited to ensuring high quality of service, interfacing as an issue escalation catalyst, resolving problems, and proactively addressing cost savings and optimization opportunities across CWOPA agencies. The account manager is responsible to provide the Department of General Services, Karen Gera, Commodity Specialist with quarterly reports (Appendix H) identify and analyze issues and/or opportunities that may arise over the course of this contract. The Account Manager will be especially accountable for ensuring that the parts ordered are delivered FOB destination within (5) business days as set in Section IV-4(a) and resolve any issues revolving around delivery, stocking levels, product quality, and other delicate issues that directly effect customer satisfaction levels.

The Account Manager must actively participate in regularly scheduled business review meetings with CWOPA to evaluate past performance and address recurring issues. CWOPA will use a satisfaction survey to assess quality of service and performance. If any service deficiencies are identified about the contract, the supplier and CWOPA representatives will determine a plan of action to ensure that the level of service improves. If after three consecutive meetings, there is minimal or no improvement in the identified areas, CWOPA may decide to terminate the contract. The meetings should take place quarterly during the contract's life.

IV-4. Tasks.

a. Delivery and Minimum Orders

As a requirement of this RFP and not allowable as an exception to the RFP, Offeror shall offer delivery and/or shipping costs **prepaid FOB Destination** to the requesting CWOPA agency for all items ordered within five (5) business days after the order is placed. **Exceptions may be made for custom orders, special items, or large orders, when applicable.** Shipping and handling fees are allowable to areas outside a 50-mile radius from closest retail store location. CWOPA has final approval for any proposed delivery times that are different from those specified in this RFP.

Offeror shall retain title and control of all goods until received by the requesting customer and the contract coverage completed. The Offeror shall file any claims for visible or concealed damage. The customer will notify the Offeror of any damaged goods and shall assist the Offeror in arranging for inspection of the goods.

The Offeror, **within twenty-four (24) hours after receiving a purchase order** (Monday – Friday), for Building Supplies, must notify the customer of any potential delivery delays. The Offeror needs to have the ability to provide emergency deliveries of building supplies within (24) hours of order received. Excessive occurrences of inability to deliver or intentional delays may be cause for contract cancellation and supplier suspension.

In the event of an emergency, CWOPA reserves the right to pick up orders at the closest contractor retail center. CWOPA will determine what orders are emergency orders.

Minimum order value against this contract for any CWOPA using agency is \$300.00 for FOB destination pricing. For orders falling under the \$300.00 minimum, CWOPA reserves the right to pick up orders at the closest supplier retail location to ensure continuity of operations. The Offeror is required to submit to CWOPA a list of all retail establishments located throughout the Commonwealth of Pennsylvania. Also, Offerors have the ability to waive the minimum order requirement on a case-by-case basis as part of its customer service responsibility. CWOPA also reserves the right to obtain waiver purchases from non-contract suppliers when it is advantageous to do so.

b. Product Specifications

The supplier shall provide Building Supplies to all eligible users of this contract throughout CWOPA. All Building Supplies offered under this Contract shall be new, unused, and in current production.

c. Warranty

Supplier warrants that all products furnished under the Contract shall be free of defective material and workmanship, and shall otherwise perform in accordance with required performance criteria. Supplier is required to uphold a thirty (30) day warranty or manufacturer warranty (whichever is greater) on all products purchased.

d. Orders

The supplier must have the ability to accept orders manually, electronically, over the phone (via a 1-800 number), and fax (also via a 1-800 number) through a single point of contact.

The supplier must notify the ordering agency within twenty-four (24) hours if an item is out of stock, along with the length of the wait time for availability. The ordering agency will then make the determination if it can wait for the proposed delivery. If not, the agency may purchase the item from another source (outside contract).

The ordering agency is responsible for providing the following data to the supplier:

Exact Supplier/Manufacturer's part number(s) along with correct nomenclature of item(s) required or detailed explanation of the repair/problem

e. Returns

Any items delivered in poor condition, in excess of the amount ordered (by greater than 10%) or not included in the purchase order may, at the discretion of the CWOPA ordering entity, be returned to the supplier at the supplier's expense within 30 days. Credit for returned goods shall be made immediately after the supplier receives the returned items. There shall be no restocking fees assessed to CWOPA or eligible contract users.

In the event that CWOPA orders the wrong item, the item will be returned to the supplier (either to the distribution center or the closest retail center) at the expense of CWOPA. Credit for returned goods shall be made immediately after the supplier receives the returned item(s). There shall be no restocking fees assessed to CWOPA or eligible contract users.

f. Invoicing

The supplier must provide CWOPA with invoicing that at a minimum contains the following information:

- Purchasing entity
- Product manufacturer
- Manufacturer part number
- Supplier part number
- SAP material number, if applicable
- Purchase order number

- Line item description
- Quantity
- Catalog list price
- CWOPA % discount
- CWOPA extended price
- Method of purchase (p-card or Purchase order)

Invoices must come from and payments must go to a single point of contact. There must be one invoice per purchase order. The invoice must follow the same line item format as the purchase order and include all the information that is listed on the purchase order. Supplier to submit all invoicing in black and white format NOT colored paper.

g. Payments

The supplier, at a minimum, must have the ability to accept payment via check and p-card. The supplier will be the single point of invoice and payment remittance.

h. Reports

The supplier must provide electronic usage reports in Microsoft Access or Excel (as determined by the contract administrator) to the DGS – Bureau of Procurement contract administrator quarterly or upon request (Appendix H – Section 3 – “Supplier Quarterly Report”). The reports must include, at a minimum, a summary report with the net (gross sales minus returns) sales for the period, subtotaled by the purchasing entity name, current price, and current discounts applied, and a detailed report containing the line item details of each purchase order by agency and department. Each line item should include the purchasing entity, delivery address, item category, product manufacturer, manufacturer part number, supplier part number, SAP Material number if applicable, item description, quantity, catalog list price, CWOPA % discount, CWOPA extended price, order date, and method of purchase (p-card or PO).

i. Electronic Interface

It is highly recommended that supplier(s) provide a secure web-site catalog tool with CWOPA specific pricing. Assuming the supplier has this capability; to interface with CWOPA's SAP EBP system as described in Attachment K - SAP Interface Specifications. In addition, supplier(s) must be able to process and track purchasing card transaction made via phone or in-person at supplier(s) stocking locations.

j. Catalogs

Suppliers are required to provide a copy of their most current electronic or printed supplier's published catalog with current price lists and distribute them to CWOPA and any other eligible users who so request a catalog at no additional charge. Inserts may be required to notify users of product additions or deletions.

IV-5. Contract Requirements—Disadvantaged Business Participation and Enterprise Zone Small Business Participation.

All contracts containing Disadvantaged Business participation and/or Enterprise Zone Small Business participation must also include a provision requiring the selected supplier to meet and maintain those commitments made to Disadvantaged Businesses and/or Enterprise Zone Small Businesses at the time of proposal submittal or contract negotiation, unless a change in the commitment is approved by the BMWBO. All contracts containing Disadvantaged Business participation and/or Enterprise Zone Small Business participation must include a provision requiring Small Disadvantaged Business sub-suppliers, Enterprise Zone Small Business sub-suppliers and Small Disadvantaged Businesses or Enterprise Zone Small Businesses in a joint venture to perform at least **50%** of the subcontract or Small Disadvantaged Business/Enterprise Zone Small Business participation portion of the joint venture.

The selected supplier's commitments to Disadvantaged Businesses and/or Enterprise Zone Small Businesses made at the time of proposal submittal or contract negotiation shall be maintained throughout the term of the contract. Any proposed change must be submitted to BMWBO, which will make a recommendation to the Contracting Officer regarding a course of action.

If a contract is assigned to another supplier, the new supplier must maintain the Disadvantaged Business participation and/or Enterprise Zone Small Business participation of the original contract.

The selected supplier shall complete the Prime Supplier's Quarterly Utilization Report (or similar type document containing the same information) and submit it to the contracting officer of the Issuing Office and BMWBO within **10** workdays at the end of each quarter the contract is in force. This information will be used to determine the actual dollar amount paid to Small Disadvantaged Business and/or Enterprise Zone Small Business sub-suppliers and suppliers, and Small Disadvantaged Business and/or Enterprise Zone Small Business participants involved in joint ventures. In addition, this information will serve as a record of fulfillment of the commitment the selected supplier made and for which it received Disadvantaged Business and Enterprise Zone Small Business points. If there was no activity during the quarter then the form must be completed by stating "No activity in this quarter."

**STANDARD CONTRACT
TERMS AND CONDITIONS
FOR DEPARTMENT OF GENERAL SERVICES
STATEWIDE CONTRACTS FOR SUPPLIES - SAP**

1. TERM OF CONTRACT

The term of the Contract shall commence on the Effective Date (as defined below) and shall end on the Expiration Date identified in the Contract, subject to the other provisions of the Contract.

The Effective Date shall be: a) the date the Contract has been fully executed by the Contractor and by the Commonwealth and all approvals required by Commonwealth contracting procedures have been obtained or b) the date referenced in the Special Contract Terms and Conditions and whichever is later. The Contract shall not be a legally binding contract until after the fully-executed Contract has been sent to the Contractor.

The fully executed Contract shall not contain "ink" signatures by the Commonwealth. The Contractor understands and agrees that the receipt of an electronically-printed Contract with the printed name of the Commonwealth purchasing agent constitutes a binding, valid contract with the Commonwealth. The printed name of the purchasing agent on the Contract represents the signature of that individual who is authorized to bind the Commonwealth to the obligations contained in the Contract. The printed name also represents that all approvals required by Commonwealth contracting procedures have been obtained.

The Contractor shall not start performance until all of the following have occurred: a. the Effective Date has arrived; b. the Contractor has received a copy of the fully-executed Contract; and c. the Contractor has received a purchase order from a Commonwealth agency. The Commonwealth shall not be liable to pay the Contractor for any supply furnished or work performed or expenses incurred before the Effective Date or before the Contractor receives a copy of the fully-executed Contract or before the Contractor has received a purchase order. Except as otherwise provided in Paragraph 3, no Commonwealth employee has the authority to verbally direct the commencement of any work or delivery of any supply under this Contract prior to the Effective Date.

The Commonwealth reserves the right, upon notice to the Contractor, to extend the term of the Contract, or any part of the Contract, for up to three (3) months upon the same terms and conditions. This will be utilized to prevent a lapse in Contract coverage and only for the time necessary, up to three (3) months, to enter into a new Contract.

2. ESTIMATED QUANTITIES

It shall be understood and agreed that any quantities listed in the Contract are estimated only and may be increased or decreased in accordance with the actual requirements of the Commonwealth and that the Commonwealth in accepting any bid or portion thereof, contracts only and agrees to purchase only in such quantities as represent the actual requirements of the Commonwealth. The Commonwealth reserves the right to purchase items covered under the Contract through a separate procurement procedure, whenever the Department of General Services deems it to be in the best interest of the Commonwealth.

3. PURCHASE ORDERS

Commonwealth agencies may issue purchase orders against the Contract. These orders constitute the Contractor's authority to make delivery. All purchase orders received by the Contractor up to and including the expiration date of the Contract are acceptable and must be performed in accordance with the Contract. Contractors are not permitted to accept purchase orders which require performance extended beyond those performance time periods specified in the Contract but in no event longer than ninety (90) days after the expiration date of the Contract period. Each purchase order will be deemed to incorporate the terms and conditions set forth in the Contract.

Purchase orders will not include an "ink" signature by the Commonwealth. The electronically-printed name of the purchaser represents the signature of that individual who has the authority, on behalf of the Commonwealth, to authorize the Contractor to proceed.

Purchase orders may be issued electronically or through facsimile equipment. The electronic transmission of a purchase order shall require acknowledgement of receipt of the transmission by the Contractor. Receipt of the electronic or facsimile transmission of the purchase order shall constitute receipt of an order. Orders received by the Contractor after 4:00 p.m. will be considered received the following business day.

The Commonwealth and the Contractor specifically agree as follows:

- a. No handwritten signature shall be required in order for the purchase order to be legally enforceable.
- b. Upon receipt of an order, the Contractor shall promptly and properly transmit an acknowledgement in return. Any order which is issued electronically shall not give rise to any obligation to deliver on the part of the Contractor, or any obligation to receive and pay for delivered products on the part of the Commonwealth agency, unless and until the Commonwealth agency transmitting the order has properly received an acknowledgement.
- c. The parties agree that no writing shall be required in order to make the order legally binding, notwithstanding contrary requirements in any law. The parties hereby agree not to contest the validity or enforceability of a genuine purchase order or acknowledgement issued electronically under the provisions of a statute of frauds or any other applicable law relating to whether certain agreements be in writing and signed by the party bound thereby. Any genuine purchase order or acknowledgement issued electronically, if introduced as evidence on paper in any judicial, arbitration, mediation, or administrative proceedings, will be admissible as between the parties to the same extent and under the same conditions as other business records originated and maintained in documentary form. Neither party shall contest the admissibility of copies of genuine purchase orders or acknowledgements under either the business records exception to the hearsay rule or the best evidence rule on the basis that the order or acknowledgement were not in writing or signed by the parties. A purchase order or acknowledgment shall be deemed to be genuine for all purposes if it is transmitted to the location designated for such documents.
- d. Each party will immediately take steps to verify any document that appears to be obviously garbled in transmission or improperly formatted to include re-transmission of any such document if necessary.

Purchase orders under three thousand dollars (\$3,000) in total amount may also be made in person or by telephone using a Commonwealth Procurement VISA Card. When an order is placed by telephone, the Commonwealth agency shall provide the agency name, employee name, credit card number, and expiration date of the card. Contractors agree to accept payment through the use of the Commonwealth Procurement VISA card.

4. INDEPENDENT CONTRACTOR

In performing the obligations required by the Contract, the Contractor will act as an independent contractor and not as an employee or agent of the Commonwealth.

5. COMPLIANCE WITH LAW

The Contractor shall comply with all applicable federal and state laws and regulations and local ordinances in the performance of the Contract.

6. ENVIRONMENTAL PROVISIONS

In the performance of the Contract, the Contractor shall minimize pollution and shall strictly comply with all applicable environmental laws and regulations.

7. POST-CONSUMER RECYCLED CONTENT

Except as specifically waived by the Department of General Services in writing, any products which are provided to the Commonwealth as a part of the performance of the Contract must meet the minimum percentage levels for total recycled content as specified in Exhibits A-1 through A-8 to these Standard Contract Terms and Conditions.

8. COMPENSATION/INVOICES

The Contractor shall be required to furnish the awarded item(s) at the price(s) quoted in the Contract. All item(s) shall be delivered within the time period(s) specified in the Contract. The Contractor shall be compensated only for item(s) which are delivered and accepted by the Commonwealth.

Unless otherwise specified or unless the Contractor has been authorized by the Commonwealth for Evaluated Receipt Settlement or Vendor Self-Invoicing, the Contractor shall send an invoice itemized by purchase order line item to the address referenced on the purchase order promptly after the item(s) are delivered. The invoice should include only amounts due under the purchase order. The purchase order number must be included on all invoices.

9. PAYMENT

- a. The Commonwealth shall put forth reasonable efforts to make payment by the required payment date. The required payment date is: (a) the date on which payment is due under the terms of the Contract; (b) thirty (30) days after a proper invoice actually is received at the "Bill To" address on the contract purchase order, if a date on which payment is due is not specified in the Contract (a "proper" invoice is not received until the Commonwealth accepts the item(s) as satisfactorily performed); or (c) the payment date specified on the invoice if later than the dates established by (a) and (b) above. Payment may be delayed if the payment amount on an invoice is not based upon the price(s) as stated in the Contract. If any payment is not made within fifteen (15) days after the required payment date, the Commonwealth may pay interest as determined by the Secretary of Budget in accordance with Act No. 266 of 1982 and regulations promulgated pursuant thereto. Payment should not be construed by the Contractor as acceptance of the item(s) furnished by the Contractor. The Commonwealth reserves the right to conduct further testing and inspection after payment, but within a reasonable time after delivery, and to reject the item(s) if such post payment testing or inspection discloses a defect or a failure to meet specifications. The Contractor agrees that the Commonwealth may set off the amount of any state tax liability or other obligation of the Contractor or its subsidiaries to the Commonwealth against any payments due the Contractor under any contract with the Commonwealth.
- b. The Commonwealth shall have the option of using the Commonwealth Purchasing Card to make purchases under the Contract. The Commonwealth Purchasing Card is similar to a credit card in that there will be a small fee which the Contractor will be required to pay and the Contractor will receive payment directly from the card issuer rather than the Commonwealth. Any and all fees related to this type of payment are the responsibility of the Contractor. In no case will the Commonwealth allow increases in prices to offset credit card fees paid by the Contractor or any other charges incurred by the Contractor, unless specifically stated in the terms of the Contract.

10. TAXES

The Commonwealth is exempt from all excise taxes imposed by the Internal Revenue Service and has accordingly registered with the Internal Revenue Service to make tax free purchases under Registration No. 2374001-K. With the exception of purchases of the following items, no exemption certificates are required and none will be issued: undyed diesel fuel, tires, trucks, gas guzzler emergency vehicles, and sports fishing equipment. The Commonwealth is also exempt from Pennsylvania state sales tax, local sales tax, public transportation assistance taxes and fees and vehicle rental tax. The Department of Revenue regulations provide that exemption certificates are not required for sales made to governmental entities and none will be issued. Nothing in this paragraph is meant to exempt a construction contractor from the payment of any of these taxes or fees which are required to be paid with respect to the purchase, use, rental, or lease of tangible personal property or taxable services used or transferred in connection with the performance of a construction contract.

11. WARRANTY

The Contractor warrants that all item(s) furnished by the Contractor, its agents and subcontractors shall be free and clear of any defects in workmanship or materials. The Contractor shall pass through to the Commonwealth the manufacturer's warranty for all parts or supplies provided under the Contract. The Contractor shall correct any problem with the service and/or replace any defective part with a part of equivalent or superior quality without any additional cost to the Commonwealth.

12. DELIVERY

All item(s) shall be delivered F.O.B. Destination. The Contractor agrees to bear the risk of loss, injury, or destruction of the item(s) ordered prior to receipt of the items by the Commonwealth. Such loss, injury, or destruction shall not release the Contractor from any contractual obligations. Except as otherwise provided in Paragraph 20, all item(s) must be delivered within the time period specified on the contract purchase order. Time is of the essence and, in addition to any other remedies, the contract purchase order is subject to termination for failure to deliver as specified. Unless otherwise stated by the Contractor in its Bid or indicated in the Special Contract Terms and Conditions, delivery must be made within thirty (30) days after award of the Contract Purchase Order.

13. PATENT, COPYRIGHT, AND TRADEMARK INDEMNITY

The Contractor warrants that it is the sole owner or author of, or has entered into a suitable legal agreement concerning either: a) the design of the item(s) or the process provided or used in the performance of the purchase order which is covered by a patent, copyright, or trademark registration or other right duly authorized by state or federal law or b) any copyrighted matter in any report document or other material provided to the Commonwealth under the purchase order. The Contractor shall defend any suit or proceeding brought against the Commonwealth on account of any alleged patent, copyright or trademark infringement in the United States of the item(s) provided or used in the performance of the Contract. This is upon condition that the Commonwealth shall provide prompt notification in writing of such suit or proceeding; full right, authorization and opportunity to conduct the defense thereof; and full information and all reasonable cooperation for the defense of same. As principles of governmental or public law are involved, the Commonwealth may participate in or choose to conduct, in its sole discretion, the defense of any such action. If information and assistance are furnished by the Commonwealth at the Contractor's written request, it shall be at the Contractor's expense, but the responsibility for such expense shall be only that within the Contractor's written authorization.

The Contractor shall indemnify and hold the Commonwealth harmless from all damages, costs, and expenses, including attorney's fees that the Contractor or the Commonwealth may pay or incur by reason of any infringement or violation of the rights occurring to any holder of copyright, trademark, or patent interests and rights in any item(s) provided or used in the performance of the purchase order. If any of the item(s) provided by the Contractor are held in such suit or proceeding to constitute infringement and the use is enjoined, the Contractor shall, at its own expense and at its option, either procure the right to continue use of such infringement item(s), replace them with noninfringement equal performance item(s) or modify them so that they are no longer infringing. If the Contractor is unable to do any of the preceding, the Contractor agrees to remove all the equipment or software which is obtained contemporaneously with the infringing item(s), or, at the option of the Commonwealth, only those items of equipment or software which are held to be infringing, and to pay the Commonwealth: 1) any amounts paid by the Commonwealth towards the item(s) of the product, less straight line depreciation; 2) any license fee paid by the Commonwealth for the use of any software, less a reasonable amount for the period of usage; and 3) the pro rata portion of any maintenance fee representing the time remaining in any period of maintenance paid for. The obligations of the Contractor under this paragraph continue without time limit. No costs or expenses shall be incurred for the account of the Contractor without its written consent.

14. OWNERSHIP RIGHTS

The Commonwealth shall have unrestricted authority to reproduce, distribute, and use any submitted report, data, or material, and any software or modifications and any associated documentation that is designed or developed and delivered to the Commonwealth as part of the performance of the Contract.

15. ASSIGNMENT OF ANTITRUST CLAIMS

The Contractor and the Commonwealth recognize that in actual economic practice, overcharges by the Contractor's suppliers resulting from violations of state or federal antitrust laws are in fact borne by the Commonwealth. As part of the consideration for the award of the Contract, and intending to be legally bound, the Contractor assigns to the Commonwealth all right, title and interest in and to any claims the Contractor now has, or may acquire, under state or federal antitrust laws relating to the supplies and services which are the subject of the Contract.

16. HOLD HARMLESS PROVISION

The Contractor shall hold the Commonwealth harmless from and indemnify the Commonwealth against any and all claims, demands and actions based upon or arising out of any activities performed by the Contractor and its employees and agents under this Contract and shall, at the request of the Commonwealth, defend any and all actions brought against the Commonwealth based upon any such claims or demands.

17. AUDIT PROVISIONS

The Commonwealth shall have the right, at reasonable times and at a site designated by the Commonwealth, to audit the books, documents and records of the Contractor to the extent that the books, documents and records relate to costs or pricing data for the Contract. The Contractor agrees to maintain records which will support the prices charged and costs incurred for the Contract.

The Contractor shall preserve books, documents, and records that relate to costs or pricing data for the Contract for a period of three (3) years from date of final payment. The Contractor shall give full and free access to all records to the Commonwealth and/or their authorized representatives.

18. INSPECTION AND REJECTION

No item(s) received by the Commonwealth shall be deemed accepted until the Commonwealth has had a reasonable opportunity to inspect the item(s). Any item(s) which is discovered to be defective or fails to conform to the specifications may be rejected upon initial inspection or at any later time if the defects contained in the item(s) or the noncompliance with the specifications were not reasonably ascertainable upon the initial inspection. It shall thereupon become the duty of the Contractor to remove rejected item(s) from the premises without expense to the Commonwealth within fifteen (15) days after notification. Rejected item(s) left longer than fifteen (15) days will be regarded as abandoned, and the Commonwealth shall have the right to dispose of them as its own property and shall retain that portion of the proceeds of any sale which represents the Commonwealth's costs and expenses in regard to the storage and sale of the item(s). Upon notice of rejection, the Contractor shall immediately replace all such rejected item(s) with others conforming to the specifications and which are not defective. If the Contractor fails, neglects or refuses to do so, the Commonwealth shall then have the right to procure a corresponding quantity of such item(s), and deduct from any monies due or that may thereafter become due to the Contractor, the difference between the price stated in the Contract and the actual cost thereof to the Commonwealth.

19. DEFAULT

a. The Commonwealth may, subject to the provisions of Paragraph 20, Force Majeure, and in addition to its other rights under the Contract, declare the Contractor in default by written notice thereof to the Contractor, and terminate (as provided in Paragraph 21, Termination Provisions) the whole or any part of this Contract including a purchase order, for any of the following reasons:

- 1) Failure to deliver the awarded item(s) within the time specified in the Contract or contract purchase order or as otherwise specified;
- 2) Improper delivery;

- 3) Failure to provide an item(s) which is in conformance with the specifications referenced in the Invitation For Bids;
 - 4) Delivery of a defective item;
 - 5) Failure or refusal to remove and replace any item(s) rejected as defective or nonconforming within fifteen (15) days after notification;
 - 6) Insolvency or bankruptcy;
 - 7) Assignment made for the benefit of creditors;
 - 8) Failure to protect, to repair, or to make good any damage or injury to property; or
 - 9) Breach of any provision of this Contract.
- b. In the event that the Commonwealth terminates this Contract in whole or in part as provided in Subparagraph a. above, the Commonwealth may procure, upon such terms and in such manner as it determines, on item(s) similar or identical to those so terminated, and the Contractor shall be liable to the Commonwealth for any reasonable excess costs for such similar or identical item(s) included within the terminated part of the Contract.
- c. If the Contract is terminated in whole or in part as provided in Subparagraph a. above, the Commonwealth, in addition to any other rights provided in this paragraph, may require the Contractor to transfer title and deliver immediately to the Commonwealth in the manner and to the extent directed by the Department of General Services, such partially manufactured or delivered item(s) as the Contractor has specifically produced or specifically acquired for the performance of such part of the Contract as has been terminated. Except as provided below, payment for any partially manufactured or delivered item(s) accepted by the Commonwealth shall be in an amount agreed upon by the Contractor and the Commonwealth. The Commonwealth may withhold from amounts otherwise due the Contractor for such partially manufactured or delivered item(s), such sum as the Commonwealth determines to be necessary to protect the Commonwealth against loss.
- d. The rights and remedies of the Commonwealth provided in this paragraph shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.
- e. The Commonwealth's failure to exercise any rights or remedies provided in this paragraph shall not be construed to be a waiver by the Commonwealth of its rights and remedies in regard to the event of default or any succeeding event of default.
- f. Following exhaustion of the Contractor's administrative remedies as set forth in Paragraph 22, the Contractor's exclusive remedy shall be to seek damages in the Board of Claims.

20. FORCE MAJEURE

Neither party will incur any liability to the other if its performance of any obligation under this Contract is prevented or delayed by causes beyond its control and without the fault or negligence of either party. Causes beyond a party's control may include, but are not limited to, acts of God or war, changes in controlling law, regulations, orders or the requirements of any governmental entity, severe weather conditions, civil disorders, natural disasters, fire, epidemics and quarantines, general strikes throughout the trade, and freight embargoes.

The Contractor shall notify the Commonwealth orally within five (5) days and in writing within ten (10) days of the date on which the Contractor becomes aware, or should have reasonably become aware, that such cause would prevent or delay its performance. Such notification shall (i) describe fully such cause(s) and its effect on performance, (ii) state whether performance under the contract is prevented or delayed and (iii) if performance is delayed, state a reasonable estimate of the duration of the delay. The Contractor shall have the burden of proving that such cause(s) delayed or prevented its performance despite its diligent efforts to perform and shall produce such supporting documentation as the Commonwealth may reasonably request. After receipt of such notification, the Commonwealth may elect

either to cancel the Contract or to extend the time for performance as reasonably necessary to compensate for the Contractor's delay.

In the event of a declared emergency by competent governmental authorities, the Commonwealth by notice to the Contractor, may suspend all or a portion of the Contract.

21. TERMINATION PROVISIONS

The Commonwealth has the right to terminate this Contract for any of the following reasons. Termination shall be effective upon written notice to the Contractor.

- a. **TERMINATION FOR CONVENIENCE:** The Commonwealth shall have the right to terminate the Contract or a purchase order for its convenience if the Commonwealth determines termination to be in its best interest. The Contractor shall be paid for work satisfactorily completed prior to the effective date of the termination, but in no event shall the Contractor be entitled to recover loss of profits.
- b. **NON-APPROPRIATION:** The Commonwealth's obligation to make payments during any Commonwealth fiscal year succeeding the current fiscal year shall be subject to availability and appropriation of funds. When funds (state and/or federal) are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal year period, the Commonwealth shall have the right to terminate the Contract or purchase order. The Contractor shall be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the supplies or services delivered under the contract or purchase order. Such reimbursement shall not include loss of profit, loss of use of money, or administrative or overhead costs. The reimbursement amount may be paid from any appropriations available for that purpose.
- c. **TERMINATION FOR CAUSE:** The Commonwealth shall have the right to terminate the Contract for Contractor default under Paragraph 19, Default, upon written notice to the Contractor. The Commonwealth shall also have the right, upon written notice to the Contractor, to terminate the Contract or a purchase order for other cause as specified in this Contract or by law. If it is later determined that the Commonwealth erred in terminating the Contract or a contract purchase order for cause, then, at the Commonwealth's discretion, the Contract shall be deemed to have been terminated for convenience under the Subparagraph 21.a.

22. CONTRACT CONTROVERSIES

- a. In the event of a controversy or claim arising from the Contract, the Contractor must, within six months after the cause of action accrues, file a written claim with the contracting officer for a determination. The claim shall state all grounds upon which the Contractor asserts a controversy exists. If the Contractor fails to file a claim or files an untimely claim, the Contractor is deemed to have waived its right to assert a claim in any forum.
- b. The contracting officer shall review timely-filed claims and issue a final determination, in writing, regarding the claim. The final determination shall be issued within 120 days of the receipt of the claim, unless extended by consent of the contracting officer and the Contractor. The contracting officer shall send his/her written determination to the Contractor. If the contracting officer fails to issue a final determination within the 120 days (unless extended by consent of the parties), the claim shall be deemed denied. The contracting officer's determination shall be the final order of the purchasing agency.
- c. Within fifteen (15) days of the mailing date of the determination denying a claim or within 135 days of filing a claim if, no extension is agreed to by the parties, whichever occurs first, the Contractor may file a statement of claim with the Commonwealth Board of Claims. Pending a final judicial resolution of a controversy or claim, the Contractor shall proceed diligently with the performance of the Contract in a manner consistent with the determination of the contracting officer and the Commonwealth shall compensate the Contractor pursuant to the terms of the Contract.

23. ASSIGNABILITY AND SUBCONTRACTING

- a. Subject to the terms and conditions of this Paragraph 23, the Contract shall be binding upon the parties and their respective successors and assigns.

- b. The Contractor shall not subcontract with any person or entity to perform all or any part of the work to be performed under the Contract without the prior written consent of the Department of General Services, which consent may be withheld at the sole and absolute discretion of the Department of General Services.
- c. The Contractor may not assign, in whole or in part, the Contract or its rights, duties, obligations, or responsibilities hereunder without the prior written consent of the Department of General Services, which consent may be withheld at the sole and absolute discretion of the Department of General Services.
- d. Notwithstanding the foregoing, the Contractor may, without the consent of the Department of General Services, assign its rights to payment to be received under the Contract or a contract purchase order, provided that the Contractor provides written notice of such assignment to the Buyer and the ordering Commonwealth agency together with a written acknowledgement from the assignee that any such payments are subject to all of the terms and conditions of the Contract.
- e. For the purposes of the Contract, the term "assign" shall include, but shall not be limited to, the sale, gift, assignment, pledge, or other transfer of any ownership interest in the Contractor provided, however, that the term shall not apply to the sale or other transfer of stock of a publicly traded company.
- f. Any assignment consented to by the Department of General Services shall be evidenced by a written assignment agreement executed by the Contractor and its assignee in which the assignee agrees to be legally bound by all of the terms and conditions of the Contract and to assume the duties, obligations, and responsibilities being assigned.
- g. A change of name by the Contractor, following which the Contractor's federal identification number remains unchanged, shall not be considered to be an assignment hereunder. The Contractor shall give the Buyer written notice of any such change of name.

24. NONDISCRIMINATION/SEXUAL HARASSMENT CLAUSE

During the term of the Contract, Contractor agrees as follows:

- a. In the hiring of any employees for the manufacture of supplies, performance of work, or any other activity required under the Contract or any subcontract, the Contractor, subcontractor or any person acting on behalf of the Contractor or subcontractor shall not by reason of gender, race, creed, or color discriminate against any citizen of this Commonwealth who is qualified and available to perform the work to which the employment relates.
- b. Neither the Contractor nor any subcontractor nor any person on their behalf shall in any manner discriminate against or intimidate any employee involved in the manufacture of supplies, the performance of work or any other activity required under the Contract on account of gender, race, creed, or color.
- c. The Contractor and subcontractors shall establish and maintain a written sexual harassment policy and shall inform its employees of the policy. The policy must contain a notice that sexual harassment will not be tolerated and employees who practice it will be disciplined.
- d. The Contractor shall not discriminate by reason of gender, race, creed, or color against any subcontractor or supplier who is qualified to perform the work to which the contract relates.
- e. The Contractor and each subcontractor shall furnish all necessary employment documents and records to and permit access to its books, records, and accounts by the contracting officer and the Department of General Services' Bureau of Contract Administration and Business Development for purposes of investigation to ascertain compliance with the provisions of this Nondiscrimination/Sexual Harassment Clause. If the Contractor or any subcontractor does not possess documents or records reflecting the necessary information requested, it shall furnish such information on reporting forms supplied by the contracting officer or the Bureau of Contract Administration and Business Development.

- f. The Contractor shall include the provisions of this Nondiscrimination/Sexual Harassment Clause in every subcontract so that such provisions will be binding upon each subcontractor.
- g. The Commonwealth may cancel or terminate the Contract, and all money due or to become due under the Contract may be forfeited for a violation of the terms and conditions of this Nondiscrimination/Sexual Harassment Clause. In addition, the agency may proceed with debarment or suspension and may place the Contractor in the Contractor Responsibility File.

25. CONTRACTOR INTEGRITY PROVISIONS

- a. For purposes of this clause only, the words "confidential information," "consent," "contractor," "financial interest," and "gratuity" shall have the following definitions.
 - 1) **Confidential information** means information that is not public knowledge, or available to the public on request, disclosure of which would give an unfair, unethical, or illegal advantage to another desiring to contract with the Commonwealth.
 - 2) **Consent** means written permission signed by a duly authorized officer or employee of the Commonwealth, provided that where the material facts have been disclosed, in writing, by prequalification, bid, proposal, or contractual terms, the Commonwealth shall be deemed to have consented by virtue of execution of this agreement.
 - 3) **Contractor** means the individual or entity that has entered into the Contract with the Commonwealth, including directors, officers, partners, managers, key employees and owners of more than a five percent interest.
 - 4) **Financial interest** means:
 - a) Ownership of more than a five percent interest in any business; or
 - b) Holding a position as an officer, director, trustee, partner, employee, or the like, or holding any position of management.
 - 5) **Gratuity** means any payment of more than nominal monetary value in the form of cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind.
- b. The Contractor shall maintain the highest standards of integrity in the performance of the Contract and shall take no action in violation of state or federal laws, regulations, or other requirements that govern contracting with the Commonwealth.
- c. The Contractor shall not disclose to others any confidential information gained by virtue of the Contract.
- d. The Contractor shall not, in connection with this or any other agreement with the Commonwealth, directly, or indirectly, offer, confer, or agree to confer any pecuniary benefit on anyone as consideration for the decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty by any officer or employee of the Commonwealth.
- e. The Contractor shall not, in connection with this or any other agreement with the Commonwealth, directly or indirectly, offer, give, or agree or promise to give to anyone any gratuity for the benefit of or at the direction or request of any officer or employee of the Commonwealth.
- f. Except with the consent of the Commonwealth, neither the Contractor nor anyone in privity with him or her shall accept or agree to accept from, or give or agree to give to, any person, any gratuity from any person in connection with the performance of work under the Contract except as provided therein.
- g. Except with the consent of the Commonwealth, the Contractor shall not have a financial interest in any other contractor, subcontractor, or supplier providing services, labor, or material on this project.

- h. The Contractor, upon being informed that any violation of these provisions has occurred or may occur, shall immediately notify the Commonwealth in writing.
- i. The Contractor, by execution of the Contract and by the submission of any bills or invoices for payment pursuant thereto, certifies, and represents that he or she has not violated any of these provisions.
- j. The Contractor, upon the inquiry or request of the Inspector General of the Commonwealth or any of that official's agents or representatives, shall provide, or if appropriate, make promptly available for inspection or copying, any information of any type or form deemed relevant by the Inspector General to the Contractor's integrity or responsibility, as those terms are defined by the Commonwealth's statutes, regulations, or management directives. Such information may include, but shall not be limited to, the Contractor's business or financial records, documents or files of any type or form which refers to or concern the Contract. Such information shall be retained by the Contractor for a period of three years beyond the termination of the Contract unless otherwise provided by law.
- k. For violation of any of the above provisions, the Commonwealth may terminate this and any other agreement with the Contractor, claim liquidated damages in an amount equal to the value of anything received in breach of these provisions, claim damages for all expenses incurred in obtaining another Contractor to complete performance hereunder, and debar and suspend the Contractor from doing business with the Commonwealth. These rights and remedies are cumulative, and the use or nonuse of any one shall not preclude the use of all or any other. These rights and remedies are in addition to those the Commonwealth may have under law, statute, regulation, or otherwise.

26. CONTRACTOR RESPONSIBILITY PROVISIONS

- a. The Contractor certifies, for itself and all its subcontractors, that as of the date of its execution of the bid/contract, that neither the Contractor, nor any subcontractors, nor any suppliers are under suspension or debarment by the Commonwealth or any governmental entity, instrumentality, or authority and, if the Contractor cannot so certify, then it agrees to submit, along with its Bid, a written explanation of why such certification cannot be made.
- b. The Contractor must also certify, in writing, that as of the date of its execution of the bid/contract, it has no tax liabilities or other Commonwealth obligations.
- c. The Contractor's obligations pursuant to these provisions are ongoing from and after the effective date of the contract through the termination date thereof. Accordingly, the Contractor shall have an obligation to inform the Commonwealth if, at any time during the term of the Contract, it becomes delinquent in the payment of taxes, or other Commonwealth obligations, or if it or any of its subcontractors are suspended or debarred by the Commonwealth, the federal government, or any other state or governmental entity. Such notification shall be made within 15 days of the date of suspension or debarment.
- d. The failure of the Contractor to notify the Commonwealth of its suspension or debarment by the Commonwealth, any other state, or the federal government shall constitute an event of default of the Contract with the Commonwealth.
- e. The Contractor agrees to reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of State Inspector General for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the Commonwealth, which results in the suspension or debarment of the Contractor. Such costs shall include, but shall not be limited to, salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor shall not be responsible for investigative costs for investigations that do not result in the Contractor's suspension or debarment.
- f. The Contractor may obtain a current list of suspended and debarred Commonwealth contractors by either searching the internet at <http://www.dgs.state.pa.us> or contacting the:

Department of General Services
Office of Chief Counsel
603 North Office Building

Harrisburg, PA 17125
Telephone No. (717) 783-6472
FAX No. (717) 787-9138

27. AMERICANS WITH DISABILITIES ACT

- a. Pursuant to federal regulations promulgated under the authority of The Americans With Disabilities Act, 28 C.F.R. § 35.101 et seq., the Contractor understands and agrees that it shall not cause any individual with a disability to be excluded from participation in this Contract or from activities provided for under this Contract on the basis of the disability. As a condition of accepting this contract, the Contractor agrees to comply with the "General Prohibitions Against Discrimination," 28 C.F.R. § 35.130, and all other regulations promulgated under Title II of The Americans With Disabilities Act which are applicable to all benefits, services, programs, and activities provided by the Commonwealth of Pennsylvania through contracts with outside contractors.
- b. The Contractor shall be responsible for and agrees to indemnify and hold harmless the Commonwealth of Pennsylvania from all losses, damages, expenses, claims, demands, suits, and actions brought by any party against the Commonwealth of Pennsylvania as a result of the Contractor's failure to comply with the provisions of subparagraph a above.

28. HAZARDOUS SUBSTANCES

The Contractor shall provide information to the Commonwealth about the identity and hazards of hazardous substances supplied or used by the Contractor in the performance of the Contract. The Contractor must comply with Act 159 of October 5, 1984, known as the "Worker and Community Right to Know Act" (the "Act") and the regulations promulgated pursuant thereto at 4 Pa. Code Section 301.1 et seq.

- a. Labeling. The Contractor shall insure that each individual product (as well as the carton, container or package in which the product is shipped) of any of the following substances (as defined by the Act and the regulations) supplied by the Contractor is clearly labeled, tagged or marked with the information listed in Paragraph (1) through (4):
 - 1) Hazardous substances:
 - a) The chemical name or common name,
 - b) A hazard warning, and
 - c) The name, address, and telephone number of the manufacturer.
 - 2) Hazardous mixtures:
 - a) The common name, but if none exists, then the trade name,
 - b) The chemical or common name of special hazardous substances comprising .01% or more of the mixture,
 - c) The chemical or common name of hazardous substances consisting 1.0% or more of the mixture,
 - d) A hazard warning, and
 - e) The name, address, and telephone number of the manufacturer.
 - 3) Single chemicals:
 - a) The chemical name or the common name,
 - b) A hazard warning, if appropriate, and
 - c) The name, address, and telephone number of the manufacturer.

- 4) Chemical Mixtures:
- a) The common name, but if none exists, then the trade name,
 - b) A hazard warning, if appropriate,
 - c) The name, address, and telephone number of the manufacturer, and
 - d) The chemical name or common name of either the top five substances by volume or those substances consisting of 5.0% or more of the mixture.

A common name or trade name may be used only if the use of the name more easily or readily identifies the true nature of the hazardous substance, hazardous mixture, single chemical, or mixture involved.

Container labels shall provide a warning as to the specific nature of the hazard arising from the substance in the container.

The hazard warning shall be given in conformity with one of the nationally recognized and accepted systems of providing warnings, and hazard warnings shall be consistent with one or more of the recognized systems throughout the workplace. Examples are:

- NFPA 704, Identification of the Fire Hazards of Materials.
- National Paint and Coatings Association: Hazardous Materials Identification System.
- American Society for Testing and Materials, Safety Alert Pictorial Chart.
- American National Standard Institute, Inc., for the Precautionary Labeling of Hazardous Industrial Chemicals.

Labels must be legible and prominently affixed to and displayed on the product and the carton, container, or package so that employees can easily identify the substance or mixture present therein.

- b. Material Safety Data Sheet. The contractor shall provide Material Safety Data Sheets (MSDS) with the information required by the Act and the regulations for each hazardous substance or hazardous mixture. The Commonwealth must be provided an appropriate MSDS with the initial shipment and with the first shipment after an MSDS is updated or product changed. For any other chemical, the contractor shall provide an appropriate MSDS, if the manufacturer, importer, or supplier produces or possesses the MSDS. The contractor shall also notify the Commonwealth when a substance or mixture is subject to the provisions of the Act. Material Safety Data Sheets may be attached to the carton, container, or package mailed to the Commonwealth at the time of shipment.

29. COVENANT AGAINST CONTINGENT FEES

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure the contract purchase order upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty, the Commonwealth shall have the right to terminate the contract purchase order without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover the full amount of such commission, percentage, brokerage, or contingent fee.

30. APPLICABLE LAW

The Contract shall be governed by and interpreted and enforced in accordance with the laws of the Commonwealth of Pennsylvania (without regard to any conflict of laws provisions) and the decisions of the Pennsylvania courts. The Contractor consents to the jurisdiction of any court of the Commonwealth of Pennsylvania and any federal courts in Pennsylvania, waiving any claim or defense that such forum is not

convenient or proper. The Contractor agrees that any such court shall have in personam jurisdiction over it, and consents to service of process in any manner authorized by Pennsylvania law.

31. INTEGRATION

The RFQ - Invitation For Bids form and the Contract form, including all documents referenced on the forms, as well as the purchase orders constitute the entire agreement between the parties. No agent, representative, employee or officer of either the Commonwealth or the Contractor has authority to make, or has made, any statement, agreement or representation, oral or written, in connection with the Contract, which in any way can be deemed to modify add to or detract from, or otherwise change or alter its terms and conditions. No negotiations between the parties, nor any custom or usage, shall be permitted to modify or contradict any of the terms and conditions of the Contract. No modifications, alterations, changes, or waiver to the Contract or any of its terms shall be valid or binding unless accomplished by a written amendment signed by both parties or by a change order signed by the Commonwealth. All such amendments and change orders will be made using the appropriate Commonwealth form.

32. CHANGES

The Commonwealth reserves the right to **make changes** at any time during the term of the Contract or any renewals or extensions thereof: 1) to increase or decrease the quantities resulting from variations between any estimated quantities in the Contract and actual quantities; 2) to make changes to the supply within the scope of the Contract; 3) to exercise an option to purchase or early payment option; 4) to notify the Contractor that the Commonwealth is exercising any Contract renewal or extension option; or 5) to modify the time of performance that does not alter the scope of the Contract to extend the completion date beyond the Expiration Date of the Contract or any renewals or extensions thereof. **Any such change shall be made by:** a. the contracting officer shown on the Contract form, or b. the agency contracting officer for changes to purchase orders, **by notifying the Contractor in writing.** The **change** shall be effective as of the date **of the notification of change**, unless the **change** specifies a later effective date. Such increases, decreases, changes, modifications or exercises of purchase options will not invalidate the Contract, nor, if performance security is being furnished in conjunction with the Contract, release the security obligation. The Contractor agrees to provide the supply in accordance with the **change**. Any dispute by the Contractor in regard to the performance required **by any notification of change** shall be handled through Paragraph 22, "Contract Controversies".

EXHIBIT A-1

CONSTRUCTION PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All construction products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Construction Products	Material	% of Post-Consumer Materials	% of Total Recovered Materials
Structural Fiberboard	Recovered Materials	-	80
Laminated Paperboard	Post-consumer Paper	100	-
Rock Wool Insulation	Slag	-	75
Fiberglass Insulation	Glass Cullet	-	20
Cellulose Insulation (loose-fill and spray-on)	Post-consumer Paper	75	-
Perlite Composite Board Insulation	Post-consumer Paper	23	-
Plastic Rigid Foam, Polyisocyanurate/ Polyurethane: Rigid Foam Insulation	Recovered Material	-	9
Foam-in-Place Insulation	Recovered Material	-	5
Glass Fiber Reinforced Insulation	Recovered Material	-	6
Phenolic Rigid Foam Insulation	Recovered Material	-	5
Floor Tiles (heavy duty/commercial use)	Rubber	90	-
	Plastic	-	90
Patio Blocks	Rubber or Rubber Blends	90	-
	Plastic or Plastic Blends	-	90
Polyester Carpet Fiber Face	Polyethylene terephthalate (PET) resin	25	-
Latex Paint: --Consolidated ¹ --Reprocessed ² ----White, Off-White, Pastel Colors ----Grey, Brown, Earthtones, and Other Dark Colors	Recovered Material	100	-
	Recovered Material	20	-
	Recovered Material	50	-
Shower and Restroom Dividers/Partitions:	Plastic	20	-
	Steel ⁴	16	9
		67	33
Carpet Cushion: --Bonded Polyurethane --Jute --Synthetic Fibers --Rubber	Old Carpet Cushion	15	-
	Burlap	40	-
	Carpet Fabrication Scrap	-	100
	Tire Rubber	60	-
Railroad Grade Crossing Surfaces --Concrete --Rubber ³ --Steel ⁴	Coal Fly Ash	-	15
	Tire Rubber	-	85
	Steel	16	9
		67	33

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

¹ Consolidated latex paint used for covering graffiti, where color and consistency of performance are not primary concerns.

² Reprocessed latex paint used for interior and exterior architectural applications such as wallboard, ceiling, and trim; gutterboards; and concrete, stucco, masonry, wood, and metal surfaces.

³The recommended recovered materials content for rubber railroad grade crossing surfaces are based on the weight of the raw materials, exclusive of any additives such as binders or additives

⁴ The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured from either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the construction product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the construction product(s), to provide the Commonwealth with documentary evidence that the construction product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-2
VEHICULAR PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All vehicular products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Vehicular Product	Requirements
Re-Refined Oil	25% re-refined oil base stock for engine lubricating oils, hydraulic fluids, and gear oils.

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

"Re-refined oil" is oil that is manufactured with a minimum of twenty-five percent basestock made from used oil that has been recovered and processed to make it reusable as oil. Once the oil has been refined, no difference can be detected between re-refined and virgin oil.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the vehicular product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE REFERENCED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the vehicular product(s), to provide the Commonwealth with documentary evidence that the vehicular product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-3
PAPER PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All paper offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer content as shown below for the applicable products:

Item	Notes	Post-Consumer Content (%)
Printing and Writing Papers		
Reprographic	Business papers such as bond, electrostatic, copy, mimeo, duplicator and reproduction	30
Offset	Used for book publishing, commercial printing, direct mail, technical documents, and manuals	30
Tablet	Office paper such as note pads and notebooks	30
Forms bond	Bond type papers used for business forms such as continuous, cash register, sales book, unit sets, and computer printout, excluding carbonless	30
Envelope	Wove Kraft, white and colored (including manila) Kraft, unbleached Excludes custom envelopes	30 10 10
Cotton fiber	High-quality papers used for stationery, invitations, currency, ledgers, maps, and other specialty items	30
Text and cover	Premium papers used for cover stock, books, and stationery and matching envelopes	30
Supercalendered	Groundwood paper used for advertising and mail order inserts, catalogs, and some magazines	10
Machine finished groundwood	Groundwood paper used in magazines and catalogs	10
Papeteries	Used for invitations and greeting cards	30
Check safety	Used in the manufacture of commercial and government checks	10
Coated	Used for annual reports, posters, brochures, and magazines. Have gloss, dull, or matte finishes	10
Carbonless	Used for multiple-impact copy forms	30
File folders	Manila or colored	30
Dyed filing products	Used for multicolored hanging folders and wallet files	20
Index and card stock	Used for index cards and postcards	20
Pressboard	High-strength paperboard used in binders and report covers	20

Tags and tickets	Used for toll and lottery tickets, licenses, and identification and tabulating cards	20
Newsprint		
Newsprint	Groundwood paper used in newspapers	20
Commercial Sanitary Tissue Products		
Bathroom tissue	Used in rolls or sheets	20
Paper towels	Used in rolls or sheets	40
Paper napkins	Used in food service applications	30
Facial tissue	Used for personal care	10
General-purpose industrial wipers	Used in cleaning and wiping applications	40
Paperboard and Packaging Products		
Corrugated containers (<300 psi) (300 psi)	Used for packaging and shipping a variety of goods	25 25
Solid fiber boxes	Used for specialized packaging needs such as dynamite packaging and army ration boxes	40
Folding cartons	Used to package a wide variety of foods, household products, cosmetics, pharmaceuticals, detergent, and hardware	40
Industrial paperboard	Used to create tubes, cores, cans and drums	45
Miscellaneous	Includes "chipboard" pad backings, book covers, covered binders, mailing tubes, game boards, and puzzles	75
Padded mailers	Made from kraft paper that is usually brown but can be bleached white	5
Carrierboard	A type of folding carton designed for multipack beverage cartons	10
Brown papers	Used for bags and wrapping paper	5
Miscellaneous Paper Products		
Tray liners	Used to line food service trays. Often contain printed information.	50

"Post-consumer" content is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer content is part of the broader category of recovered material."

The Commonwealth of Pennsylvania recognizes that paper products are universally made with scrap material recovered from the manufacturing process; use of such materials is a standard practice, both efficient and economical for the paper maker; therefore, bidders of paper products need not certify that their products are made with "pre-consumer," "recovered," or "secondary" paper fiber.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the paper product(s) which the bidder is offering contains the required minimum percentage of post-consumer content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a mill certification must be completed and signed by the mill before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the paper product(s), to provide the Commonwealth with documentary evidence that the paper product(s) were in fact produced with the required minimum percentage of post-consumer content.

EXHIBIT A-4
LANDSCAPING PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All landscaping products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Landscaping Products	Recovered Material Content
Hydraulic Mulch: -----Paper -----Wood/Paper	100% (post-consumer) 100% (total)
Compost Made From Yard Trimmings and/or Food Waste	Purchase or use compost made from yard trimmings, leaves, grass clippings and/or food wastes for applications such as landscaping, seeding of grass or other plants, as nutritious mulch under trees and shrubs, and in erosion control and soil reclamation. DGS further recommends implementing a composting system for these materials when agencies have an adequate volume and sufficient space.
Garden Hose: -----Rubber and/or Plastic	60% (post-consumer)
Soaker Hose: -----Rubber and/or Plastic	60% (post-consumer)
Lawn and Garden Edging: -----Rubber and/or Plastic	30% (post-consumer)/30-100% (total)
Landscaping Timber and Posts: -----HDPE -----Mixed Plastics/Sawdust -----HDPE/Fiberglass -----Other mixed Resins	25% (post-consumer) + 50% (recovered) 50% (post-consumer) + 50% (recovered) 75% (post-consumer) + 20% (recovered) 50% (post-consumer) + 45% (recovered)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the landscaping product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the landscaping product(s), to provide the Commonwealth with documentary evidence that the landscaping product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

**EXHIBIT A-5
MISCELLANEOUS PRODUCTS
RECYCLED CONTENT**

(A) REQUIREMENT

All miscellaneous products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Miscellaneous Products	Recovered Material Content
Awards and Plaques -----Glass -----Wood -----Paper -----Plastic and Plastic/Wood Composites	75% (post-consumer) + 25% (recovered) 100% (total) 40% (post-consumer) 50% (post-consumer) + 45% (recovered)
Industrial Drums -----Steel ¹ -----Plastic (HDPE) -----Fiber (paper)	16% (post-consumer) + 9% (recovered) 30% (post-consumer) 100% (post-consumer)
Mats -----Rubber -----Plastic -----Rubber/Plastic Composite	75% (post-consumer) + 10% (recovered) 10% (post-consumer) + 90% (recovered) 100% (post-consumer)
Pallets -----Wood -----Plastic -----Thermoformed -----Paperboard	95% (post-consumer) 100% (post-consumer) 25% (post-consumer) 50% (post-consumer)
Signage -----Plastic -----Aluminum -----Plastic Sign Posts/Supports -----Steel Sign Posts/Supports ²	80% (post-consumer) 25% (post-consumer) 80% (post-consumer) 16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered)
Sorbents -----Paper -----Textiles -----Plastics -----Wood ³ -----Other Organics/Multimaterials ⁴	90% (post-consumer) + 10% (recovered) 95% (post-consumer) 25% (total) 100% (total) 100% (total)
Manual-Grade Strapping -----Polyester -----Polypropylene -----Steel ²	50% (post-consumer) 10% (total) 16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

¹Steel used in steel drums is manufactured using the Basic Oxygen Furnace (BOF) process, which contains 25-30% total recovered material, of which 16% is post-consumer steel. Steel used in manual-grade strapping is manufactured using either the BOF process or the Electric Arc Furnace (EAF) process, which contains 100% total recovered materials, of which 67% is post-consumer steel.

² The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured in either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

³ "Wood" includes materials such as sawdust and lumber mill trimmings.

⁴ Examples of other organics include, but are not limited to, peanut hulls and corn stover. An example of multimaterial sorbents would include, but not be limited to, a polymer and cellulose fiber combination.

² The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured in either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the miscellaneous product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the miscellaneous product(s), to provide the Commonwealth with documentary evidence that the miscellaneous product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-6
NONPAPER OFFICE PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All nonpaper office products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Nonpaper Office Product	Recovered Material Content
Recycling Containers and Waste Receptacles: -----Plastic -----Steel ¹ -----Paper -----Corrugated -----Solid Fiber Boxes -----Industrial Paperboard	20% (post-consumer) 16% (post-consumer) +9% (recovered) 25% (post-consumer) 40% (post-consumer) 40% (post-consumer) + 60% (recovered)
Plastic Desktop Accessories (polystyrene) including desk organizers, sorters, and trays, and memo, note, and pencil holders.	25% (post-consumer)
Binders: -----Plastic-Covered -----Paper-Covered -----Pressboard -----Solid Plastic -----HDPE -----PE -----PET -----Misc. Plastics	25% 75% (post-consumer) +15% (recovered) 20% (post-consumer) + 30% (recovered) 90% (post-consumer) 30% (post-consumer) 100% (post-consumer) 80% (post-consumer)
Trash Bags (plastic)	10% (post-consumer)
Toner Cartridges	Return used toner cartridges for remanufacturing and reuse or purchase a remanufactured or recycled-content replacement cartridge.
Printer Ribbons	Procure printer ribbon reinking or reloading services or procure reinked or reloaded printer ribbons.
Plastic Envelopes	25% (post-consumer)
Plastic Clipboards: -----HDPE -----PS -----Misc. Plastics	90% (post-consumer) 50% (post-consumer) 15% (post-consumer)
Plastic File Folders -----HDPE	90% (post-consumer)
Plastic Clip Portfolios -----HDPE	90% (post-consumer)
Plastic Presentation Folders -----HDPE	90% (post-consumer)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

¹ The recommended recovered materials content levels for steel in this table reflect the fact that the designated item is made from steel manufactured from in a Basic Oxygen Furnace (BOF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel.

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the nonpaper office products which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the paper, to provide the Commonwealth with documentary evidence that the nonpaper office product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-7
PARK & RECREATION PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All park and recreation products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Park & Recreation Product	Recovered Material Content ¹
Park Benches & Picnic Tables:	
-----Plastic ²	90% (post-consumer) + 10% (recovered)
-----Plastic Composites	50% (post-consumer) + 50% (recovered)
-----Aluminum	25% (post-consumer)
-----Concrete	15% (total)
-----Steel ³	16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered)
Plastic Fencing for Specified Uses⁴	60% (post-consumer) + 30% (recovered)
Playground Equipment	
-----Plastic ³	90% (post-consumer) + 10% (recovered)
-----Plastic Composites	50% (post-consumer) + 45% (recovered)
-----Steel ⁴	16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered)
-----Aluminum	25% (post-consumer)
Playground Surfaces:	
-----Plastic or Rubber	90% (post-consumer)
Running Tracks:	
-----Plastic or Rubber	90% (post-consumer)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the park and recreational product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the park and recreational product(s), to provide the Commonwealth with documentary evidence that the park and recreational product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

¹ The recommended recovered materials content levels are based on the dry weight of the raw materials, exclusive of any additives such as adhesives, binders, or coloring agents.

² "Plastic" includes both single and mixed plastic resins. Park benches and picnic tables made with recovered plastic may also contain other recovered materials such as sawdust, wood, or fiberglass. The percentage of these materials contained in the product would also count toward the recovered materials content level of the item.

³ The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured from either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (AF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

⁴ Designation includes fencing containing recovered plastic for use in controlling snow or sand drifting and as a warning/safety barrier in construction or other applications.

EXHIBIT A-8
TRANSPORTATION PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All transportation products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Transportation Products	Recovered Material Content ¹
Traffic Cones: ----Plastic (PVC and LDPE) ----Crumb Rubber	50% (recovered) 50% (recovered)
Traffic Barricades (type I and II only): ----Plastic (HDPE, LDPE, PET) ----Steel ² ----Fiberglass	80% (post-consumer) + 20% (recovered) 16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered) 100% (recovered)
Parking Stops: ----Plastic and/or Rubber ----Concrete Containing Coal Fly Ash ----Concrete Containing Ground Granulated Blast Furnace Slag	100% (recovered) 20% (recovered) 15% when used as a partial cement replacement as an admixture in concrete. 25% (recovered)
Traffic Control Devices: ----Channelizers: -----Plastic -----Rubber (base only) ----Delineators: -----Plastic -----Rubber (base only) -----Steel (base only) ² ----Flexible Delineators	25% (post-consumer) 100% (post-consumer) 25% (post-consumer) 100% (post-consumer) 16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered) 25% (post-consumer)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the transportation product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the transportation product(s), to provide the Commonwealth with documentary evidence that the transportation product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

¹ Content levels are based on the dry weight of the raw materials, exclusive of any additives such as adhesives, binders, or coloring agents.

² The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured from either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

MANUFACTURER/MILL CERTIFICATION

(To be submitted with invoice for each order)

TO BE COMPLETED BY MANUFACTURER/MILL:

NAME OF MANUFACTURER/MILL: _____

ADDRESS OF MANUFACTURER/MILL: _____

FEDERAL EMPLOYER I.D. NO.: _____

CONTRACT OR REQUISITION NO. _____

NAME OF CONTRACTOR: _____

ADDRESS OF CONTRACTOR: _____

Type of product(s) which the manufacturer/mill furnished to the contractor: _____

CERTIFICATION: I, the undersigned officer of the above-named manufacturer/mill, do hereby certify that I am authorized to provide this certification on behalf of the above-named manufacturer/mill and that the type of product(s) listed above which my company furnished to the contractor named above for the referenced contract or purchase requisition, contained not less than _____% post-consumer materials and _____% recovered materials as those terms are defined in the invitation for bids. I understand that this document is subject to the provisions of the Unsworn Falsification of Authorities Act (18 P.S. Section 4904).

APPENDIX C – MINIMUM QUALIFICATIONS TO RESPOND TO RFP

Non-acceptance of or non-compliance with any minimum qualification, or modification of, or the placing of conditions on acceptance or compliance with any of the minimum qualifications, in whole or in part, may result in immediate disqualification.

All the questions listed below must be answered. In the event of a “No” answer to any question, please accept our appreciation for your interest, and understand that, since CWOPA requires a minimum level of qualification, your proposal may not be deemed responsive.

This document applies to all 11 Lots listed in the RFP. Please check all lots that you will be proposing upon.

- Lot 1 – Lumber Products
Dimensional, Pressure Treated
- Lot 2 – Specialty Lumber Products
Rough Cut, Plywood
- Lot 3 – Paint (Interior & Exterior) and other coatings
- Lot 4 – Drywall, Spackling
- Lot 5 – Doors and Windows and Weather-stripping
- Lot 6 – Roofing Materials
- Lot 7 – Siding
- Lot 8 – Insulation
- Lot 9 – Gutters & Downspouts
- Lot 10 – Brick, Block, Pavers and Crushed Stone
- Lot 11 – Fencing and Gates

CHECK “YES” TO ACCEPT or CHECK “NO” TO REJECT.

Yes No

- 1. Have you submitted a complete response to this RFP using the proposal format provided in RFP Part 1?
- 2. Do you agree that unless your proposal arrives by the time specified in the RFP Calendar of Events, that it will be rejected?
- 3. Do you agree to accept all of the terms and conditions of this RFP as stated in Appendix A: Standard Contract Terms and Conditions?
- 4. Do you agree to provide supplies for all lots you have checked above to all Commonwealth agencies in all counties within state of Pennsylvania, listed in Appendix I – PA County List

5. Do you agree to provide a dedicated Customer Service Team as described in Part IV-3(d) of Work Statement of this RFP?
6. Do you agree to provide a dedicated Account Manager that will perform the duties described in Part IV-3(e) Work Statement?
7. Do you agree to **ship all** items F.O.B. Destination, prepaid and allowed in accordance to the delivery timeframe set forth in Part IV-4 Task (a) Delivery and Minimum Orders in the RFP?
8. Do you agree to uphold either a thirty-day (30) warranty or the manufacturer warranty (whichever is greater) as specified in Part IV-4 Task (c) Warranty?
9. Do you agree to the Ordering parameters set forth in Part IV-4 Task (d) Orders?
10. Do you agree to the Returns parameters set forth in Part IV-4 Task (e) Returns?
11. Do you agree to the Invoicing parameters set forth in Part IV-4 Task (f) Invoicing?
12. Do you agree to accept purchasing cards as means of payment, when applicable?
14. Do you agree to provide Bureau of Procurement contract administrator quarterly reports as described in Part IV-4 Task (h) Reports?
15. Has the proposal been signed by an official authorized to bind the contract to its provisions?
16. Is the proposal formatted such that all cost data is kept separate from and not included in the technical proposal?

APPENDIX D – TECHNICAL QUESTIONNAIRE

Instructions: This is a template to describe your Technical capabilities. Answer all of the following questions in full. If a question is not applicable, or if there is no response, so state that. References to supporting documentation provided outside the specific sections should have appropriate page number and reference. Address only those components requested.

This document applies to all 11 Lots listed in the RFP. Please check all lots that you will be proposing upon.

- Lot 1 – Lumber Products
Dimensional, Pressure Treated, etc.
- Lot 2 – Specialty Lumber Products
Rough cut, Plywood, etc.
- Lot 3 – Paint (Interior & Exterior) and other coatings
- Lot 4 – Drywall, Spackling Materials
- Lot 5 – Doors, Windows & Weather-stripping
- Lot 6 – Roofing Materials
- Lot 7 – Siding
- Lot 8 – Insulation
- Lot 9 – Gutters & Downspouts
- Lot 10 – Brick, Block Pavers and Crushed Stone
- Lot 11 – Fencing and Gates

1. Given that CWOPA requires proof of your company’s ability to service a contract of this size, CWOPA asks that you describe your company’s business in full (scope, years in business etc.) including references of similar sized accounts. Please include contact information for any references that are provided. As specified in Part IV, Work Statement, IV-3 Requirements (c) Company Capabilities.

2. Please describe your company’s current service/support/distribution infrastructure that will be used to service CWOPA under this award.

APPENDIX D to RFP (Technical Questionnaire)

3. What enhancements to this service/support/distribution network would be necessary to service CWOPA under this contract?

4. Provide a network map/organization structure illustrating the locations and resources that comprise your service/support/distribution network.

5. Utilizing the following table, please indicate what service/support/distribution centers products would be pulled from to fulfill orders for the counties listed in the delivery timeframes specified in Part IV, Work Statement, Section IV-4.(a), Delivery and Minimum Orders. Also indicate for each county the name and address for any retail centers in which CWOPA could pick-up orders in person should they need to do so. Cells shaded in yellow should be populated for each of the corresponding counties.

APPENDIX D to RFP (Technical Questionnaire)

6. Describe your company's inventory of products. How will your company's inventory meet CWOPA's requirements such as maintaining fill rates of 95% or greater?

7. What is your process for handling backorders and out of stock items?

8. Outline your plan for marketing the products for all using agencies, explain how your company will educate your sales force and support team about this contract. In the event that CWOPA orders the wrong item, the item will be returned to the supplier (either to the distribution center or the closest retail center) at the expense of CWOPA. Credit for returned goods shall be made immediately after the shipper receives the returned item(s). There shall be no restocking fees assessed to CWOPA or eligible contract users.

9. Please describe the account manager's approach on overseeing the entire operation, acting as an issue escalation catalyst, handling customer complaints, resolving problems, proactively addressing cost savings and optimization opportunities, and more importantly, being accountable for the contractor's performance statewide. As specified in Part IV Work Statement, Section IV-3(e) Account Manager. Describe your company's ability to provide detailed management reporting. Identify the level(s) (Agency, Department, Individual) of reporting detail available in sales dollars and sales history by item description, part number, quantity, NIGP codes.

10. Describe your company's ability to utilize electronic data interchange (EDI), on-line live-chat capabilities and Internet ordering, payment (Master-card or Visa) and shipment tracing. Describe the state of E-Commerce within your company and the benefits.

11. Describe your company's implementation and success with existing cooperative purchasing programs, if any, and provide the entity's name(s), contact person(s) and phone number.

APPENDIX D to RFP (Technical Questionnaire)

12. Describe in detail your dedicated customer representative team in charge of processing orders, receiving payments, scheduling delivery, hours/days of operation, shipment tracing, links to shippers (UPS, FedEx, USPS, etc., tracking backorders, special orders, after sale issues, sending invoices, and creating monthly reports. Include your proposed number of dedicated representatives, their hours of operation, and their relative experience with building supplies. How does this team intend to deliver high customer satisfaction ratings? Will this team be available outside of normal business hours? As specified in Part IV Work Statement, Section IV-3(d) Customer Service Representative Team.

13. Describe your company's internal management system for processing orders from point of customer contact through delivery and billing. Please state: 1.) If your Internet ordering system is OBI (open buying on the internet) compatible; 2.) If you use a single system or platform for all phases of the ordering, processing, delivery and billing.

14. Describe your policy regarding: (A) Quality Assurance, (B) Auditing outbound orders for completeness and proper packaging; (C) Replacement policy (i.e., damaged or defective materials); (D) Return policy.

15. Describe the administrative systems that are in place at the company to support all CWOPA reporting requirements described in Part IV Work Statement, Section IV-4(h) Reports. Reporting requirements include at a minimum the following fields to be queried at both a line item and summary level: CWOPA agency, order date, item category, manufacturer, manufacturer part number, line item description, quantity, list price, CWOPA % discount, CWOPA price, and purchasing method (PO or p-card). Describe any enhanced reporting capabilities, capability to deliver reports electronically, direct access to reports through the web site or other database that may be used to administer the contract. As specified in Part IV, Work Statement, Section IV-4 (i) Electronic Interface.

APPENDIX D to RFP (Technical Questionnaire)

16. Describe your online capabilities. Do you have a website? Can CWOPA order items from the website? How often is your online catalog updated? As specified in Appendix IV Work Statement, Section IV-4(j).

17. Describe how commodity orders are processed and moved to arrive “Just-In-Time” for Commonwealth agencies placing an order. CWOPA defines JIT as receipt within five (5) business days after receipt of order (ARO).

18. Please describe in detail your company’s system for pricing Lot 1, Lumber products? And Lot 2, Specialty Lumber.

19. Describe how you intend to notify your retail locations on how to handle any purchases by Commonwealth agencies to receive correct CWOPA contract pricing? What will Commonwealth agencies be required to present if customer pickup at one of your retail locations is necessary?

20. How will Commonwealth agencies receive ordering confirmation?

21. CWOPA is fully committed to manage compliance and purchase Building Supplies from the awarded contractor of each lot in order to maximize savings through this new contract. However, the contractor must understand that this is a complex task, and in order to achieve this goal, CWOPA must use all of its resources, ideas, as well as procurement guidelines to ensure 100% utilization of this contract. Therefore, CWOPA is asking that your company describe creative suggestions or a comprehensive plan to help CWOPA maximize utilization of this contract across the participating agencies.

APPENDIX E – Detailed Description of Lots

Lot 1 – Lumber Products– Dimensional, Pressure Treated, etc.

Lot 1 in Appendix G – Price Submittal contains a representative list of lumber products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 1, Lumber Products. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of lumber materials at the negotiated discount.

Lot 2 – Specialty Lumber Products– Rough Cut, Plywood, etc.

Lot 2 in Appendix G – Price Submittal contains a representative list of specialty lumber products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 2, Specialty Lumber Products. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of lumber materials at the negotiated discount.

Lot 3 - Latex Paint (Interior & Exterior) and other coatings

Lot 3 in Appendix G – Price Submittal contains a representative list of latex paint products and other coatings commonly utilized by CWOPA, such as items listed in Appendix F, Lot 3, Paint. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of painting materials at the negotiated discount.

Lot 4 – Drywall & Spackling Materials

Lot 4 in Appendix G – Price Submittal contains a representative list of drywall and spackling material products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 4, Drywall & Spackling Materials. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of drywall/spackling materials at the negotiated discount.

Lot 5 – Doors & Windows and Weather-stripping

Lot 5 in Appendix G – Price Submittal contains a representative list of doors, window and weather stripping products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 5, Doors, Windows & Weather-stripping. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of doors, windows and weather-stripping materials, at the negotiated discount.

Lot 6 - Roofing Materials

Lot 6 in Appendix G - Price Submittal contains a representative list of roofing products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 6, Roofing Materials. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of roofing materials at the negotiated discount.

Lot 7 - Siding

Lot 7 in Appendix G - Price Submittal contains a representative list of siding materials commonly utilized by CWOPA, such as items listed in Appendix F, Lot 7, Siding. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of siding materials at the negotiated discount.

Lot 8 - Insulation

Lot 8 in Appendix G - Price Submittal contains a representative list of building insulation products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 8, Insulation. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of insulation materials at the negotiated discount.

Lot 9 - Gutters & Downspouts

Lot 9 - in Appendix G - Price Submittal contains a representative list of gutter and downspout products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 9, Gutters & Downspouts. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of gutters and downspout materials at the negotiated discount.

Lot 10 - Brick, Block, Pavers and Crushed Stone

Lot 10 - in Appendix G - Price Submittal contains a representative list of brick, block, pavers and crushed stone products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 10, Brick, Block, Pavers & Crushed Stone. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of brick, block, pavers and crushed stone materials at the negotiated discount.

Lot 11 - Fencing and Gates

Lot 11 - in Appendix G - Price Submittal contains a representative list of fencing and gate products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 11, Fencing & Gates. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of fencing and gates at the negotiated discount.

APPENDIX J - RECIPROCAL LIMITATIONS ACT REQUIREMENTS

THIS FORM MUST BE COMPLETED AND RETURNED WITH THE TECHNICAL SUBMITTAL PORTION OF YOUR PROPOSAL

I. OFFEROR'S RESIDENCY

A. In determining whether the offeror is a nonresident offeror from a state that gives or requires a preference to offerors from that state, the address given on the offeror's Attachment G – Cover Sheet shall be used by the Commonwealth. If that address is incorrect, or if no address is given, the correct address should be provided in the space below:

Correct Address:

II. PENNSYLVANIA RESIDENT PREFERENCE

In order to claim the preference provided under Section I-33, Pennsylvania resident offerors must complete the following or have such information on file with the Issuing Office:

1. Address of offeror's bona fide establishment in Pennsylvania at which it was transacting business on the date when this RFP was issued:

2. a. If the offeror is a corporation:

(1) The corporation is or is not incorporated under the laws of the Commonwealth of Pennsylvania.

(a) If the offeror is incorporated under the laws of the Commonwealth of Pennsylvania, provide date of incorporation:

(b) If the offeror is not incorporated under the laws of the Commonwealth of Pennsylvania, it must have a certificate of authority to do business in the Commonwealth of Pennsylvania from the Pennsylvania Department of State as required by the Pennsylvania Business Corporation Law (15 P.S. §2001). Provide date of issuance of certificate of authority:

(2) The corporation is or is not conducting business in Pennsylvania under an assumed or fictitious name. If the offeror is conducting business under an assumed or fictitious name, it must register the fictitious name with the Secretary of the Commonwealth and the office of the prothonotary of the county wherein the registered office of such corporation is located as required by the Fictitious Corporate Name Act, as amended 15 P.S. §51 et seq. Corporate offerors conducting business under an assumed or fictitious name must provide date of registry of the assumed or fictitious name:

b. If the offeror is a partnership:

(1) The partnership is or is not conducting business in Pennsylvania under an assumed or fictitious name. If the offeror is conducting business under an assumed or fictitious name, it must file with the Secretary of the Commonwealth and the office of the prothonotary the county wherein the principal place of business is located as required by the Fictitious Name Act of May 24, 1945, P.L. 967, as amended 54 P.S. §28.1. Partnerships conducting business under an assumed or fictitious name must provide the date of filing of the assumed or fictitious name with the Secretary of the Commonwealth:

(2) The partnership is or is not a limited partnership formed under the laws of any jurisdiction other than the Commonwealth of Pennsylvania. If the offeror is an Out-of-state limited partnership, it must register with the Pennsylvania Department of State as required by the Act of July 10, 1981, P.L. 237, as amended, 59 Pa. C.S.A. §503. Out-of-state limited partnerships must provide the date of registry with the Pennsylvania Department of State:

c. If the offeror is an individual:

He or she is or is not conducting business under an assumed or fictitious name. If the offeror is conducting business under an assumed or fictitious name, he or she must file with the Secretary of the Commonwealth and the office of the prothonotary in the county wherein the principal place of business is located as required by the Fictitious Name Act of May 24, 1945, P.L. 967, as amended, 54 P.S. §28.1. Individuals conducting business under an assumed or fictitious name must provide the date of filing of the assumed or fictitious name with the Secretary of the Commonwealth:

Typographic Conventions

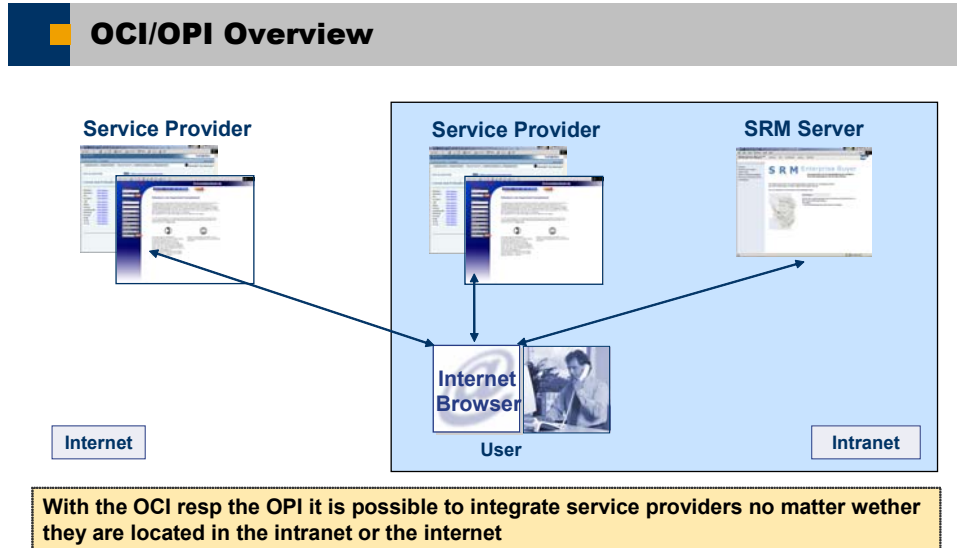

Type Style	Description
<i>Example text</i>	Words or characters quoted from the screen. These include field names, screen titles, pushbuttons labels, menu names, menu paths, and menu options. Cross-references to other documentation.
Example text	Emphasized words or phrases in body text, graphic titles, and table titles.
EXAMPLE TEXT	Technical names of system objects. These include report names, program names, transaction codes, table names, and key concepts of a programming language when they are surrounded by body text, for example, SELECT and INCLUDE.
Example text	Output on the screen. This includes file and directory names and their paths, messages, names of variables and parameters, source text, and names of installation, upgrade and database tools.
Example text	Exact user entry. These are words or characters that you enter in the system exactly as they appear in the documentation.
<Example text>	Variable user entry. Angle brackets indicate that you replace these words and characters with appropriate entries to make entries in the system.
EXAMPLE TEXT	Keys on the keyboard, for example, F2 or ENTER.

2 Introduction

The *Open Catalog Interface (OCI)* incorporates external product catalogs into *SRM Server* applications. This way, data that is required in order to create shopping cart items in the *SRM Server* can be transferred directly from the external catalog to the *SRM Server* application. The interface uses the transfer mechanisms of Hyper Text Transfer Protocol (HTTP).

© SAP AG 2003, Title of Presentation, Speaker Name / 2

THE BEST-RUN BUSINESSES RUN SAP 

Graphic 1: System landscape

The user here is working with an *SRM Server* application, which displays the available catalogs. The user calls up one of these, selects the required products, and then transfers the product data back to the *SRM Server* application.

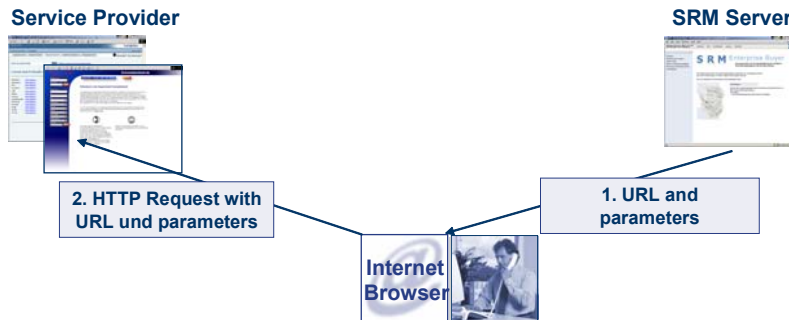

This documentation describes both the architecture and the structure of the *OCI* and thus provides all the information that is necessary to support the *OCI* with a product catalog. Also, the possible processes and their prerequisites are described. The documentation has been written both for producers of catalogs and for system administrators of *SRM Server* systems.

[Section 3](#) describes how the *SRM Server* calls the catalog. [Section 4](#) shows how the data is transferred from the catalog to the *SRM Server*. [Section 5](#) covers the handling of the different browser windows and [Section 6](#) gives some reference points for troubleshooting.

3 Calling Up the Catalog Using the SRM Server

In order for a product catalog to be called up via the Intranet or Internet, its URL must be known in the *SRM Server*. If the product catalog requires additional parameters for the call-up (for example, log-on names or language identifier), these must also be known in the *SRM Server* before the call-up.

OCI/OPI architecture I: call of the services

1. The SRM Server application shows the available service providers (product catalogs resp. vendor directories).
2. After the user has chosen one of them, the user will be redirected to the according web site. Therefore the parameters will be used, that have been maintained in the SRM Server customizing previously.

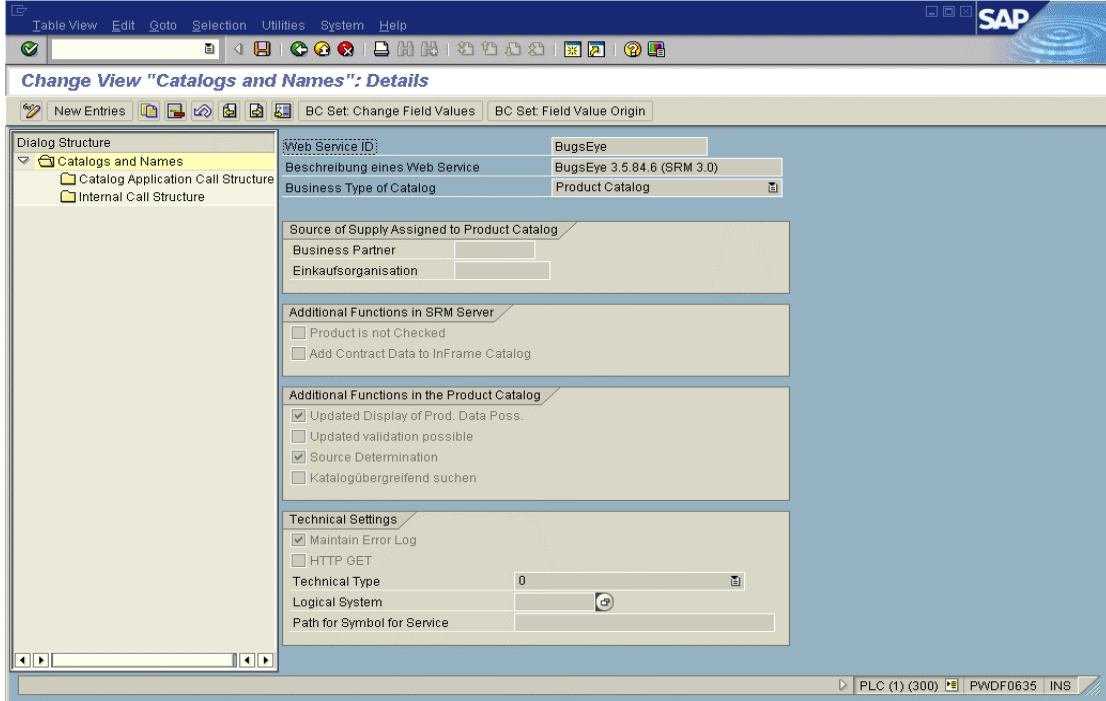

Graphic 2: Call-up

The URL and the catalog parameters are defined in the Implementation Guide (IMG) for *Supplier Relationship Management: SRM Server* → *Master Data* → *Define External Web Services (Catalogs, Vendor Lists etc.)*. In the technical settings (see graphic 3), you can set GET or POST as the HTTP method for the call-up, the standard value is POST. The user's browser is then used to call up the catalog using the URL and the parameters.

Depending on the situation, other parameters besides those defined in the Implementation Guide (IMG) for *Supplier Relationship Management* can also be transferred to the catalog on call-up. These might be, for example, to provide the catalog with generic data or to trigger specific functions in the catalog. A summary of the transferred parameters is shown in [Section 3.3](#).

3.1 Settings in the SRM Server

The following two graphics show the maintenance screens for a product catalog in the SRM Server. You can find the complete documentation on these in the description of the IMG activity (*Define External Web Services (Catalogs, Vendor Lists etc.)*).

Graphic 3: The maintenance screen for general product catalog data

Graphic 4: The maintenance screen for the URL and parameters of the product catalog

In the *SRM Server*, you must enter the URL and parameters of the catalog in the following order in the IMG activity (*Define External Web Services (Catalogs, Vendor Lists etc.)*)

3.1.1 URL of the Product Catalog

You enter the URL of the catalog in the first line of the call structure; all subsequent entries (including the return URL in line 4) are transferred to the catalog as parameters. You do not need to specify a parameter name for the URL itself. *URL* is used here as the type. If the URL is longer than the field, you can distribute the URL over several successive fields that are then all of type *URL*. Parameters may not be entered as part of the URL; they must be maintained separately as described in the following section.

3.1.2 Parameters

Following the URL, you must specify all parameters that the catalog requires on call-up. The provider of the catalog must have documented the names and valid values of these parameters.

The parameter type can be either *fixed value* or *SAP Field*. This parameter type determines how the value of the parameter is determined from the column *Content*. In the case of fixed values, the value of the parameter is entered directly in the column *Content*. In the case of parameters of type *SAP Field* (generic parameters), however, the name of a SAP System variable is there. For the value of the parameter, the content of this system variable at runtime is used. This way it is possible, for example, to transfer the system language as a parameter (you choose *SAP Field* as type and *sy-langu* as content). In this manner, you can transfer all the globally available fields at runtime from the *SRM Server* as parameters.

Transfer of additional parameters

If the fixed values and the generic parameter values are not sufficient for the chosen process, you can implement the Business Add-In (BAI) *Transfer Additional Parameters* (BBP_CAT_CALL_ENRICH) to transfer additional parameters from the *SRM Server* System to the catalog. In this BAI, you can determine multiple name-value pairs that are then transferred to the catalog when it is called up. Also, if the format of generic parameters is to be changed (for example, if the system language is to be transferred in a different format: *DE-de* instead of simply *DE*), you can use this BAI to convert these parameters.

As of *SRM 2.0*, a sample implementation is available for the BAI *Transfer Additional Parameters* (BBP_CAT_CALL_ENRICH), which reads the relevant user data in the *SRM Server* and transfers it to the catalog (however, the sample implementation is only run if the business type of the category is set to *E-form*).

As an example of how this data can be used by the catalog, see the ASP page (ASP = Active Server Pages) that is stored in the *SRM Server* System in the Internet Service BBP_FREEFORM in the file *freeform.zip*. When you open all the data in an executable directory on an ASP-compatible Web server, you can use this page as a catalog application for ordering business cards. All the form fields automatically have the default values that have previously been transferred by the BAI implementation. The user need only check the accuracy of the entries.

This ASP page can, of course, only serve as a template. The example is intended to show the options that are available on a project basis with a catalog and the implementation of the BAI *Transfer Additional Parameters* (BBP_CAT_CALL_ENRICH).

3.1.3 Return URL

The return URL is required so that the data from the catalog can be transferred back to the *SRM Server* application via the user's browser. The catalog must place it in the *Action* attribute of the transfer form. The return URL is also transferred to the catalog as a parameter. It usually contains other parameters (see below) that must first be extracted and placed in separate input fields (of type *hidden*) of the form.

All parameters *after* the return URL are generated as parameters for the return URL; they are not transferred to the catalog as individual parameters ([see graphic 4. lines 5-7](#)). You can name the parameter for the return URL as you wish since the parameter must be evaluated by the catalog (usually *HOOK_URL* is used as the parameter name). The value of the return URL must be empty; the actual return URL is determined during run time.

As of *SRM Server 4.0*, the specification of the return URL and the following parameters ([see graphic 4. lines 5-7](#)) is optional in Customizing. If they are not specified, the return URL including the parameters is generated automatically. In this case *HOOK_URL* is used as the name for the return URL. The name of the return URL must be specified only if the catalog expects a different name for the return URL than *HOOK_URL*. Even if the name has been specified for the return URL, as of *SRM Server 4.0* the parameters for the return URL need no longer be specified; they are also generated automatically in this case.

3.2 Additional Functions in the Product Catalog

The product catalog can provide additional functions that can be used by *SRM Server* applications. In order to trigger these functions, additional parameters (defined within *OCI*) are transferred to the catalog when it is called up. If the product catalog supports one or more of the following functions, this is to be stated in the product catalog documentation. This is because an appropriate flag must be set in *SRM Server* Customizing so that the relevant *SRM Server* application can make use of the functionality. The fact that the interface supports the additional functionality does not necessarily mean that the functionality is actually used by a *SRM Server* application.

Currently the following functionality is supported by the *OCI*:

3.2.1 Detailed Display of a Product or Service

A product that has already been transferred to a *SRM Server* document via the *OCI* is to be displayed again later in the catalog. This serves to make available detail data that may not be defined in the *OCI* and that is also not available in the *SRM Server*.

In order to trigger the function, the following parameters are transferred to the product catalog on call-up:

Name	Value
FUNCTION	DETAIL
PRODUCTID	<Database key for the product in the catalog>

Then the product catalog should immediately display the detail view of the corresponding product. With this function no data is transferred from the product catalog to the *SRM Server*.

A prerequisite for this function is that previously, the first time this product was transferred from the product catalog to the *SRM Server* System, the field *NEW_ITEM-EXT_PRODUCT_ID[]* was filled with the database key of the product in the catalog. In addition, in *SRM Server* Customizing (in the IMG activity (*Define External Web Services, Catalogs, Vendor Lists etc.*) for the corresponding catalog, the flag *Display Prod. Data Again in Catalog* must be set.

3.2.2 Validation of a Product

If an item from a product catalog has been added to a template for an *SRM* document then it is possible, for example, that the price of the product has changed over time. If a new *SRM* document were to be created from this template, the price change would normally not be taken into account. The function serves to update the product information in the template while the *SRM* document is being created.

In order to trigger the function, the following parameters are transferred to the product catalog on call-up:

Name	Value
FUNCTION	VALIDATE
PRODUCTID	<Database key for the product in the catalog>
QUANTITY	<Current purchase order quantity>

The parameter QUANTITY is transferred as of *OCI 3.0* so that the catalog can determine the correct price from a scale, if appropriate.

Then the product catalog replies with an HTML page that contains a form with the product data in *OCI* format. The return URL must be split here as described in sections [3.1.3](#) and [4.1](#). The HTML page may not contain any visible elements (the input fields must be of the type *hidden*). The form must be sent automatically by JavaScript after the page has been loaded.

A prerequisite for this function is that previously, the first time this product was transferred from the product catalog to the *SRM Server* System, the field NEW_ITEM-EXT_PRODUCT_ID[] was filled with the database key of the product in the catalog. In addition, in *SRM Server* Customizing the flag *Validate Product Data from SAP Enterprise Buyer* must be set for the relevant catalog.

3.2.3 Sourcing/Product Search

In order to trigger the function, the following parameters are transferred to the product catalog on call-up:

Name	Value
FUNCTION	SOURCING
SEARCHSTRING	<Search term>
VENDOR	<Business partner number in EBP>

The catalog replies with the display of the search results that correspond to the specified parameters. By navigating further in the product catalog, you can select items as normal and transfer them to the *SRM Server* application.

This function has not yet been implemented in the *SRM Server*.

3.2.4 Background Search

In order to avoid the situation where a user searching for a particular product has to search multiple catalogs in sequence, a *Cross-Catalog Search* has been introduced as of *SRM 3.0*. The user enters a search term once in the *SRM Server* application and this term is transmitted to all catalogs that support the function when the catalogs are called up. The *SRM Server* displays the search results from all catalogs in a list and the user can select individual products from here.

In order to trigger the function, the following parameters are transferred to the product catalog on call-up:

Name	Value
FUNCTION	BACKGROUND_SEARCH
SEARCHSTRING	<Search term>

The product catalog replies with a HTML page that contains the search results in *OCI* format. All search results must be accessible on this page without having to use a scroll function

since the page is evaluated automatically. The form from this page may not be sent automatically to the return URL (in contrast to validation of a product).

A prerequisite for this function is that the flag *Search Cross-Catalog* is set in *SRM Server Customizing* for the relevant catalog.

3.3 Overview of the Call-Up Parameters

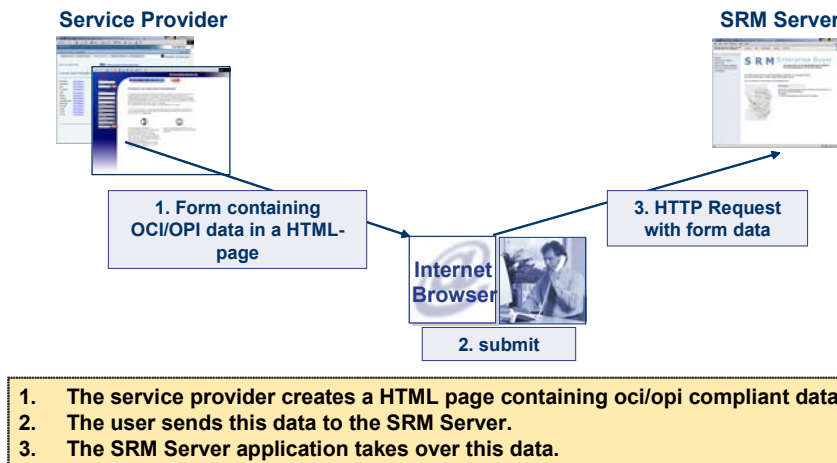

The following parameters are transferred when the catalog is called up using either HTTP GET or POST, depending on what you defined in *SRM Server Customizing*:

Description	Name of the Parameter	Content or Example
Parameters from <i>SRM Server Customizing</i>	As specified in <i>SRM Server Customizing</i>	See Section 3.1.2
Parameters from a BAdI implementation	As implemented in the BAdI	See Section 3.1.2
Parameters to trigger additional functions	As described in Additional Functions in the Product Catalog	See Section 3.2
Return URL	If not specified differently in <i>SRM Server Customizing</i> : 'HOOK_URL'	URL with parameters in the query string
Interface version <i>OCI</i>	OCI_VERSION	For example: 4.0
Interface version <i>OPI</i>	OPI_VERSION	For example: 1.0
Character set of <i>SRM Server</i> application	http_content_charset	For example: iso-8859-1
Target (HTML target) for return to the <i>SRM Server</i> application	returntarget	For example: _parent

4 Return From Catalog

A HTML form is used to transfer the selected product data to the *SRM Server*. This form is part of a HTML page that must be created by the catalog. This page (the last page that is displayed by the catalog) is sent to the user's browser. The user can now send the form from this page to the *SRM Server* application that then takes over the form data.

OCI/OPI architecture II: taking over the data into the SRM Server Application

© SAP AG 2003, Title of Presentation, Speaker Name / 4

THE BEST-RUN BUSINESSES RUN SAP 

Graphic 5: Transfer of the data

In order that you can transfer the data from the catalog to the *SRM Server* via the user's browser, the return URL described in sections [3.1.3](#) and [4.1](#) must be inserted into the *Action* attribute of the HTML form created by the catalog (the *Action* attribute of the form is the URL to which the form data is sent).

The data to be transferred is transported within the input fields of the form; the field names must adhere to the syntax specified below. The *Type* attribute of the input fields should be *text* or *hidden*. The HTTP method recommended in all cases is POST because using GET can lead to browser-dependent length restrictions.

4.1 Use of the Call-Up Parameters From Section 3.3

- Use of the parameters from *SRM* Customizing is catalog-specific; here the only parameters transferred are those that the catalog expects.
- Use of the parameters from a possible BAdI implementation is project-specific; here the only parameters transferred are those that the catalog expects in the context of a customer project.
- The expected reactions to the parameters for triggering additional functions have already been described in [section 3.2](#).
- The interface version has purely informative character; it clarifies which fields or processes are already supported by the *SRM Server* application.
- The return URL points to the current *SRM* application. It also contains further parameters. The URL without these parameters must be placed by the catalog into the *action* attribute of the transfer form. The parameter names and their values must be placed into the attributes *name* and *value* of the individual *input* fields of the transfer form; the fields are to be of the type *hidden*.
- The character set used by the *SRM* application is transferred to the catalog (parameter name: *http_content_charset*). When generating the HTML page with the transfer form, the catalog must use this character set and must insert it into the *meta* tag after the detail *charset=*.
- The target for the return to the *SRM Server* application (parameter name: *returntarget*) must be inserted into the *target* attribute of the transfer form.

4.2 Fields and Field Checks

The naming convention for the fields in the *OCI* is as follows:

`NEW_ITEM-<Field name>[<index>]`. The field type is always CHAR.

Field name	Length	Description
NEW_ITEM-DESCRIPTION[n]	40	Description of the item
NEW_ITEM-MATNR[n]	40	<i>SRM</i> product number of the item
NEW_ITEM-QUANTITY[n]	15	Item quantity (1.)
NEW_ITEM-UNIT[n]	3	Quantity unit for item quantity (3.)
NEW_ITEM-PRICE[n]	15	Price of an item per price unit (1.)
NEW_ITEM-CURRENCY[n]	5	Item currency (3.)
NEW_ITEM-PRICEUNIT[n]	5	Price unit of the item (if empty, 1 is used)(2.)
NEW_ITEM-LEADTIME[n]	5	Delivery time of the item in days (2.)
NEW_ITEM-LONGTEXT_n:132[]	∞	Long text for the item (4.)
NEW_ITEM-VENDOR[n]	10	<i>SRM</i> vendor number (business partner) for the item
NEW_ITEM-VENDORMAT[n]	40	Vendor product number for the item
NEW_ITEM-MANUFACTCODE[n]	10	<i>SRM</i> manufacturer number of the item
NEW_ITEM-MANUFACTMAT[n]	40	Item's manufacturer part number
NEW_ITEM-MATGROUP[n]	10	<i>SRM</i> material group for the item
NEW_ITEM-SERVICE[n]	1	Flag: the item is a service.

NEW_ITEM-CONTRACT[n]	10	SRM contract to which the item refers
NEW_ITEM-CONTRACT_ITEM[n]	5	Item within the SRM contract
NEW_ITEM-EXT_QUOTE_ID[n]	35	Number of an external bid for this item (as reference for a subsequent purchase order)
NEW_ITEM-EXT_QUOTE_ITEM[n]	10	Item of external bid
NEW_ITEM-EXT_PRODUCT_ID[n]	40	Unique database key for this item in the catalog
NEW_ITEM-ATTACHMENT[n]	255	URL of the attachment (the attachment must be accessible for downloading under this URL)
NEW_ITEM-ATTACHMENT_TITLE[n]	255	Title of the attachment (if this is empty the file name from the URL above is used)
NEW_ITEM-ATTACHMENT_PURPOSE[n]	1	Purpose of the attachment. C corresponds here to configuration.
NEW_ITEM-EXT_SCHEMA_TYPE[n]	10	Name of a schema via which it was imported in the SRM Server
NEW_ITEM-EXT_CATEGORY_ID[n]	60	Unique key for an external category from the schema above, independent of the version of the schema
NEW_ITEM-EXT_CATEGORY[n]	40	Unique key for an external category from the schema above, dependent on the version of the schema
NEW_ITEM-SLD_SYS_NAME[n]	60	Name of a system in the System Landscape Directory (SLD)
NEW_ITEM-CUST_FIELD1[n]	10	User-defined field
NEW_ITEM-CUST_FIELD2[n]	10	User-defined field
NEW_ITEM-CUST_FIELD3[n]	10	User-defined field
NEW_ITEM-CUST_FIELD4[n]	20	User-defined field
NEW_ITEM-CUST_FIELD5[n]	50	User-defined field

- 1.) 11 digits before the decimal point, 3 after it. Do not use commas for thousands.
- 2.) In whole numbers.
- 3.) Must be maintained as ISO code in the SRM Server.
- 4.) The field NEW_ITEM-LONGTEXT_n:132[] is an exception as far as the syntax of the index n is concerned. The field length is unlimited.

4.2.1 Required and Optional Fields

The following fields are required fields in all cases:

- Either NEW_ITEM-DESCRIPTION[n] or NEW_ITEM-MATNR[n] must be filled. Only one of the two should be filled.
- NEW_ITEM-QUANTITY[n]

The following fields are required fields depending on conditions:

- NEW_ITEM-UNIT[n] if NEW_ITEM-MATNR[n] has not been filled
- NEW_ITEM-CURRENCY[n] if NEW_ITEM-PRICE[n] has been filled
- NEW_ITEM-EXT_SCHEMA_TYPE[n] if NEW_ITEM-EXT_CATEGORY_ID[n] or NEW_ITEM-EXT_CATEGORY[n] are used

- NEW_ITEM-EXT_QUOTE_ID[n] if NEW_ITEM-EXT_QUOTE_ITEM[n] has been used
- NEW_ITEM-CONTRACT[n] if NEW_ITEM-CONTRACT_ITEM[n] has been used

All other fields are optional.

4.2.2 Product Numbers

There are four fields in the interface that describe product numbers:

- NEW_ITEM-MATNR[n]: The product number in the *SRM* System of the purchaser
- NEW_ITEM-VENDORMAT[n]: The vendor's product number
- NEW_ITEM-MANUFACTMAT[n]: The manufacturer's product number
- NEW_ITEM-EXT_PRODUCT_ID[n]: The number that uniquely identifies the product in the catalog.

These product numbers may not be mixed or used for other purposes; in particular the field NEW_ITEM-MATNR[n] may only be filled if the product number in the customer system is known to the catalog.

4.2.3 Configurable Products

Some products (such as PCs) can be configured in the catalog. However, the configuration information is not part of the *OCI* since the structure of this information differs greatly between providers. There are three alternatives for transferring such products with the *OCI* without losing the configuration information.

- The catalog can create a bid in the sales system and can store the configuration information there. It can then use the fields NEW_ITEM-EXT_QUOTE_ID[n] and NEW_ITEM-EXT_QUOTE_ITEM[n] to transfer a reference to the bid. The bid number is copied to the *SRM Server*. The configuration information is only available in the sales system if you use this alternative. This variant is suitable for the local and extended classic scenario since the bid reference is not transferred to MM backend systems as standard. If, however, you wish the bid reference to be transferred, you can copy it in BAdI BBP_CATALOG_TRANSFER into the purchase order text for the item.
- The field NEW_ITEM-LONGTEXT_n:132[] can be used to transfer the configuration information as text. The content of the field is included in the purchase order text of the *SRM Server* shopping cart and of the subsequent purchase order; this way the configuration information is available in the *SRM Server*.
- The fields NEW_ITEM-ATTACHMENT[n] and NEW_ITEM-ATTACHMENT_PURPOSE[n] can be used to transport the configuration information. Since you can transfer files of any type as attachments, you should ensure that the file can also be displayed (using proprietary or uncommon file types is therefore not recommended). If you use XML files, for example, you should ensure that the formatting information (XSLT) is also included so that the file can be displayed. The configuration information is also available in the *SRM Server* with this alternative. This variant is only suitable for the local and the extended classic scenario because attachments are not currently transferred to MM backend systems.

4.2.4 External Product Categories

As of *SAP Enterprise Buyer 3.0*, product categories from external schemas can also be used in the *OCI*. However, a prerequisite is the import of the relevant schema via the *Product Content Workbench (PCW)*. If the imported schema is also used internally in the *SRM Server*, then no further action is required. If, however, there is to be a link from the product category from the external schema to an internal product category in the *SRM Server*, the mapping of the imported (or parked) schema must first be completed via the *PCW*. The fields `NEW_ITEM-EXT_SCHEMA_TYPE[n]` and `NEW_ITEM-EXT_CATEGORY_ID[n]` are used for the external product categories.

If, for example, an UNSPSC schema has been imported in the *SRM Server* under the name *UNSPSC_Vendor1*, then *UNSPSC_Vendor1* is the value that must be transferred in the field `NEW_ITEM-EXT_SCHEMA_TYPE[n]`.

4.2.5 Customer-Specific Extensions in the OCI

To transfer additional fields in the *OCI*, there are two alternatives:

- **Using the Fields `NEW_ITEM-CUSTFIELD1-5`**

These fields have no fixed semantics in the *OCI* and this means that you can transfer any contents in order to then evaluate them in `BAdI BBP_CATALOG_TRANSFER`. In Releases prior to *SAP Enterprise Buyer 3.0* it is not possible to transfer these fields directly to the shopping cart item. If the contents are to be reusable later, they must be saved in the `BAdI` above in the customer's own database table.

As of *SAP Enterprise Buyer 3.0*, it is possible to include these fields (without the prefix `NEW_ITEM-`) in the customer-specific Include `CI_BBP_ITEM_SC`; the contents are then automatically forwarded to the shopping cart and saved with it.

- **Using the Include `CI_OCI_CUSTOMER_EXTENSION`**

This customer-specific Include is also available as of *SAP Enterprise Buyer 3.0*; it allows you to extend the *OCI* generically. All fields that are created in the Include can then be transferred by the catalog as `NEW_ITEM-<field name from Include>[n]`.

The fields are also available in the `BAdI BBP_CATALOG_TRANSFER`. If the fields are also to be available in the shopping cart and are to be saved, they must also be created in the Include `CI_BBP_ITEM_SC`.

For more information on the use of customer-specific Includes in the *SRM Server*, see SAP Note 458591.

4.3 XML Variant of the OCI

The *OCI* can also process an XML file. Here the same architecture is used as in the pure HTML variant, this means the XML data is embedded in an HTML form for the transfer from the catalog to the *SRM Server* via the user's browser.

To transfer an XML file, besides the fields mentioned in [section 3.3](#), two further HTML-*input* fields are used:

- **xmltype:**

This parameter specifies the type of the XML file used so that the correct XML mapping can be found. Up to and including *SAP Enterprise Buyer 3.0* the mapping of the received XML data is done exclusively in the Business Connector which must be set up for this purpose for the relevant *SAP Enterprise Buyer System*.

As of *SAP Enterprise Buyer 3.5* the mapping can also be done in the *SRM Server* itself. A prerequisite is that the corresponding XML schema is used. The previous schemas are also supported.

Valid values for the field type `xmlType` as of *SRM 3.0* are:

Value	Description	DTD/Schema/Mapping
ESAPO	Encoded SAP Object for <i>OCI</i> Version up to and including 3.0	PDI_OCI.dtd/PDI_OCI.xsd/BC
ESAPO3.0	Encoded SAP Object for <i>OCI</i> Version up to and including 3.0	PDI_OCI_30.dtd/PDI_OCI_30.xsd/BC
ESAPO3.5	Encoded SAP Object for <i>OCI</i> Version as of 3.5	OpenCatalogInterface.xsd/im <i>SRM Server</i> .

- **~xmlDocument:**

In this parameter the XML file that must correspond to one of the schemas above is transferred as a Base64-coded character set. The coding can be done either directly on the server page of the catalog or, as shown in the sample application, by JavaScript on the client's page.

5 Handling of the Browser Window

The catalog is normally displayed in a separate browser window. This window is both opened and closed again via the *SRM Server* application.

The HTTP response of the *SRM Server* application to the HTTP request with the *OCI* data consists of an HTML page that contains script for refreshing the window with the *SRM Server* application and for subsequently closing the catalog window. This page assumes that the JavaScript reference window.opener points to the browser window of the *SRM Server* application.

You may not change the name of the original window object because this would destroy the reference between the *SRM Server* application window and the catalog window. If this were to happen the *SRM Server* application would no longer be able to correctly display the data that has been transferred from the catalog or close the catalog window.

If the catalog opens additional windows during the search process it must close these before the data is transferred back to the *SRM Server*.

6 Troubleshooting

When you create purchasing documents using the *OCI*, errors can occur that are related to the meaning or validity of the data. In order to more easily identify such errors, you can activate the application log for a catalog linked via the *OCI* in *SRM Server Customizing* (for more information, see the Implementation Guide *Supplier Relationship Management* → *SRM Server* → *Master Data* → *Define External Web Services (Catalogs, Vendor Lists etc.)* → *Technical Settings* → *Maintain Error Log* see [Graphic 3](#)).

You reproduce the error after you have switched on the application log. You can use transaction SLG1 to clear the application log in the *SRM Server*. Use BBP_OCI as the entry for the field *Object*. You can find more information on the application log in the F1 Help *Maintain Error Log*.

BIDDING PREFERENCE FOR PRODUCTS WITH RECYCLED POSTCONSUMER MATERIAL

PLEASE NOTE: Bidders ARE NOT required to complete this form or obtain the following Manufacturer's Recycled Postconsumer Material Certification if they ARE NOT seeking a bidding preference for products or printing with recycled postconsumer material.

A. PREFERENCE

Except as otherwise provided in Paragraph G every bidder who certifies that the goods, supplies, equipment, materials or printing, which the bidder is offering, contains at least 10% of recycled postconsumer material shall be given a five percent (5%) preference against any bidder that has not so certified (or such higher percentage specified in the invitation for bids for the bidding preference for products with recycled postconsumer material) "Postconsumer material" is defined as "Any product generated by a business or consumer which has served its intended end use, and which has been separated or diverted from solid waste for the purpose of collection, recycling, and disposition. The term includes industrial by-products that would otherwise go to disposal or processing facilities. The term does not include internally generated scraps that is commonly returned to industrial or manufacturing processes." This preference for products and printing with recycled postconsumer material shall be in addition to any reciprocal preference for Pennsylvania bidders and manufacturers.

B. BIDDER CERTIFICATION

If the bidder is submitting a bid price on more than one item, and the percentage of recycled postconsumer material differs for each item, the bidder must state the percentage for each item. Bidder certifies that the goods, supplies, equipment, materials or printing which the bidder is offering: (to be completed by the bidder)

Item No. _____ Contains _____% of recycled postconsumer material.

Item No. _____ Contains _____% of recycled postconsumer material.

Item No. _____ Contains _____% of recycled postconsumer material.
(use additional sheets if necessary to complete required information)

If a bidder does not comply with this Subsection (B), he shall not be eligible for the 5% preference.

C. MANUFACTURER'S RECYCLED POSTCONSUMER MATERIAL CERTIFICATION

In addition to the Bidder Certification in Subsection (B), in order to be eligible for the 5% preference a manufacturer's certification must be completed, signed and submitted by each of the manufacturers listed by the bidder in Section III of the Reciprocal Limitations Act Requirements of this Invitation for Bid. Bidders must use the enclosed Manufacturer's Recycled Postconsumer Material Certification form. If this form is not completed, signed and submitted with the bid, no bidding preference shall be given to the bidder.

D. FEDERAL FUNDS

No preference shall be given if the Commonwealth's receipt of federal funds would be jeopardized by granting the preference.

E. TIE BIDS

When there is a tie for lowest responsible bidder, the Department of General Services may consider, as one factor in determining to whom the contract should be awarded, which of the bids provides for the greatest percentage of recycled postconsumer material in the product or printing.

F. ENFORCEMENT

Awarded bidders may be required, after delivery of the goods, supplies, equipment, materials or printing, to provide the Commonwealth with documentary evidence that the goods, supplies, equipment, materials or printing was in fact produced with the certified percentage of recycled postconsumer material. **If a bidder is awarded a contract or a purchase order on the basis of the 5% preference and fails to supply the item(s) with the required content of recycled postconsumer material or refuses or fails to provide sufficient documentary evidence that the item(s) was in fact produced with the certified percentage of recycled postconsumer material, the Department reserves the right, at its sole discretion, to:**

- 1) Reduce the purchase price paid to the contractor by 5%.**
- 2) Require the contractor to remove and replace the materials at the contractor's sole expense.**
- 3) Cancel the contract or the purchase order.**
- 4) Obtain the item(s) from another source.**
- 5) Pursue its other remedies under the contract for damages and costs for breach of contract.**

G. STEEL AND ALUMINUM PRODUCTS EXCEPTION

The Commonwealth of Pennsylvania recognizes that both steel and aluminum products are universally made of recycled material, including postconsumer steel and postconsumer aluminum. Therefore, if steel or aluminum is used in the manufacture of the product offered by a bidder in response to this invitation to bid, the bidder is not required to provide certification that the product contains recycled postconsumer material. If a bidder is offering a product with steel or aluminum and the steel or aluminum contains no postconsumer material, the bidder is required to provide written notification in its bid. Bidders offering products containing steel and/or aluminum shall be given a five percent bidding preference over bidders offering: (1) steel or aluminum products that are reported to be made without recycled (postconsumer) content and (2) non-steel or non-aluminum products (such as plastic) which are not certified as containing recycled (postconsumer) content.

MANUFACTURER RECYCLED POSTCONSUMER MATERIAL CERTIFICATION

TO BE COMPLETED BY MANUFACTURER:

NAME OF MANUFACTURING FIRM: _____

ADDRESS OF MANUFACTURING FIRM: _____

FEDERAL EMPLOYER I.D. NO: _____

CONTRACT OR REQUISITION NO: _____

NAME OF BIDDER: _____

ADDRESS OF BIDDER: _____

Goods, supplies, equipment, materials or printing which the manufacturer will furnish to the bidder if the bidder is awarded the above-referenced contract or purchase requisition:

Short description of the nature of the postconsumer material which will be contained in the goods, supplies, equipment, materials or printing: _____

CERTIFICATION: I, the undersigned officer of the above-named firm, do hereby certify that I am authorized to provide this certification on behalf of the above-named firm and that the goods, supplies, equipment, materials or printing listed above which my company will furnish to the bidder named above, if the bidder is awarded the above-referenced contract or purchase requisition, shall contain not less than ____% postconsumer material as that term is defined in the invitation for bid. The nature of the postconsumer material is also identified above. I understand that this document is subject to the provisions of the Unsworn Falsification of Authorities Act (18 P.S. Section 4904).

PLEASE NOTE: Bidders ARE NOT required to complete this form if they ARE NOT seeking a bidding preference for products with recycled post-consumer material.

Subject: BUILDING SUPPLIES REQUEST FOR
PROPOSAL
Bid Number: RFPCN00023105
Opening Date/Time: JUNE 29, 2007 @ 1:30 p.m. EST
Flyer: 1

To All Bidders:

**Please note the time scheduled for the Pre-proposal conference on
June 8, 2007 is from 1:00 p.m. until 4:00 p.m.**

Attach this flyer to the original copy of your invitation bid proposal. Failure to do so may result in bid disqualification. If you have already returned the original bid, return this flyer with your instructions, annotated or a cover memo attached, to:

Bureau of Procurement, Bid Opening Room, 555 Walnut Street, 6th Floor Harrisburg PA 17101.

IF YOU ARE CHANGING PRICE(S), DO NOT FAX this flyer and/or cover memo; you must furnish these instructions in a sealed envelope. Please indicate the bid number and opening date/time on the outside of the envelope.

Except as clarified and amended by this flyer, the terms, conditions, specifications, and instructions of the invitation to bid and any previous flyers, remain as originally written.

Very truly yours,

Karen Gera

Building Supplies
RFP NUMBER: CN00023105
ADDENDUM #1

Date Posted: June 21, 2007

This Addendum #1 revises RFP No. CN00020726 as follows:

1. RFP – Appendix “F” Product Price Analysis (LOT 3) Paint, please reference Green Seal Standards and certifications at:
<http://www.greenseal.org/certification/standards/paints.cfm>

The following answers are provided in response to questions received in writing at the Pre-proposal conference dated June 8, 2007:

SUBMITTED QUESTION	CWOPA ANSWER
1. Will specialty companies, who can provide a deep selection of a product (lot) be given consideration over a company who can provide shallow coverage over multiple lots?	Please refer to Section I-4 of the RFP. However, each supplier’s Technical Proposal will be evaluated based on the merits and soundness of the supplier’s approach to addressing the CWOPA’s needs for Building Supplies materials on a statewide basis.
2. Will standards be evaluated for paints so that an “apple to apple” comparison can be made, i.e., % pigment, % vehicle, weight, etc?	Please refer to Green Seal Standard Paint Specification GS-11 dated May 21, 2007 at: http://www.greenseal.org/newsroom/scoping_doc_revised_gc03.pdf
3. How will later changes in Federal Law that affect chemical composition of paint be handled?	Since the contract is going to be a percentage off catalog, it will be flexible to changes affected by legislative actions taken either by the federal or state governments.
4. Are there going to be multiple awards?	The Commonwealth seeks to award this contract to a single supplier; however, the Commonwealth reserves the right to award by lot if it is the best interest of the Commonwealth. It is not the CWOPA’s intent to award multiple suppliers to any given lot.
5. Once award is made to supplier, will they basically have all CWOPA future business?	Awarded supplier(s) will earn all of the business for the contract/lot for which they were awarded during the term of the contract. While price-based waivers for agencies to purchase outside of the contract may be issued, Department of General Services will review these requests to determine if the waiver is appropriate.

6. Need more detailed information on Disadvantaged Business Information/Enterprise Small Business Participation (BMWBO)	Please refer to our Web site for more information about this program at (http://www.dgs.state.pa.us) DGS website and also in Part II section II-9. For additional information please contact gpeters@state.pa.us 717-319-3380(cell) or the Bureau at 717-787-6708.

SCOPING DOCUMENT – DO NOT CITE

Green Seal Scoping Document for GS-11/GC-03 Standard Revision

Note: GC-03 Anti-corrosive paints may be incorporated into the GS-11 Paints Revision

Paints (GS-11)

First Edition May 20, 1993

Copyright © 1993 Green Seal, Inc.

ENVIRONMENTAL STANDARD**1. Scope.**

This Standard establishes environmental requirements for paints. The standard does not include stains, clear finishes, or paints sold in aerosol cans.

Issues to consider: What other types of coatings are similar enough in formulation and environmental impacts to be included in GS-11? What other types of coatings are different enough in either formulation, manufacturing or environmental impacts to be treated under a separate standard?

2. Definitions.

For the purpose of this Standard, the following definitions apply.

2.1 Paints: Liquid, liquefiable or mastic composition that is converted to a solid protective, decorative, or functional adherent film after application as a thin layer. These coatings are intended for on-site application to interior or exterior surfaces of residential, commercial, institutional or industrial buildings.¹

2.2 Volatile Organic Compounds (VOCs): Compounds as defined by U. S. Environmental Protection Agency (EPA) in 40 CFR § 51.100 (s), (s) (1).

2.3 Aromatic Compounds: Hydrocarbon compounds containing one or more 6-carbon benzene rings in the molecular structure.

Issues to consider: Are the definitions of the given terms descriptive enough? Should additional terms be defined?

3. Product-Specific Performance Requirements.

3.1 Interior Topcoats. Products intended for interior opaque topcoat use shall meet the following requirements.

3.1.1 Scrubbability (Abrasion Resistance). The product shall demonstrate at least 100 cycles (200 separate strokes) before failure, as determined by American Society for Testing and Materials (ASTM) D2486-89, Standard Test Method for Scrub Resistance of Interior Latex Flat Wall Paints.

SCOPING DOCUMENT – DO NOT CITE

3.1.2 Hiding Power (Opacity). The product shall demonstrate a minimum 0.95 contrast ratio at 400 square feet per gallon as determined by ASTM D2805-88, Standard Test Method for Hiding Power of Paints by Reflectometry. Compliance will be determined by testing a white paint having a minimum 80% reflectance.

3.1.3 Washability (Stain Removal). The product shall demonstrate the following minimum requirements for stain removal as determined by ASTM 4828-91 Mechanical Method, Standard Test Method for Practical Washability of Organic Coatings.

Flat ²	5 minimum rating
Non-Flat	7 minimum rating

3.2 Exterior Topcoats. Products intended for exterior opaque topcoat use shall meet the following requirements.

3.2.1 Hiding Power (Opacity). The product shall demonstrate a minimum 0.95 contrast ratio at 400 square feet per gallon as determined by ASTM D2805-88, Standard Test Method for Hiding Power of Paints by Reflectometry. Compliance will be determined by testing a white paint having a minimum 80% reflectance.

Issues to consider: Are the performance criteria listed still stringent enough to determine performance in today's market? Should other performance criteria be added in order to determine performance of an environmentally preferable paint? (e.g. Adhesion, Accelerated Weathering, Flexibility, Water Resistance, Biological Growth, etc.)

4. Product-Specific Environmental Requirements.

4.1 Chemical Component Limitations.

4.1.1 VOCs. The VOC concentrations of the product shall not exceed those listed below as determined by U. S. Environmental Protection Agency (EPA) Reference Test Method 24 (Determination of Volatile Matter Content, Water Content, Density Volume Solids, and Weight Solids of Surface Coatings), Code of Federal Regulations Title 40, Part 60, Appendix A.

The calculation of VOC shall exclude water and tinting color added at the point of sale.

Interior Coatings:

<u>Coating</u>	<u>VOC weight in grams/liter of product</u>
----------------	---

SCOPING DOCUMENT – DO NOT CITE

Type	<u>minus water</u>
Non-flat ²	150
Flat	50

Exterior Coatings:

Coating Type	<u>VOC weight in grams/liter of product minus water</u>
Non-flat ⁴	200
Flat	100

4.1.2 Aromatic Compounds. The product must contain no more than 1.0% by weight of the sum total of aromatic compounds. Testing for the concentration of these compounds will be performed if they are determined to be present in the product during a materials audit.

Issues to consider: Are the VOC and/or aromatic compound limits effective in protecting human health and environmental effects? Should the VOC and/or aromatic compound limits be modified? Are VOC and/or aromatic compound limits as described still an effective measure of determining the human health and environmental impacts of paints?

4.2 Chemical Component Restrictions. The manufacturer shall demonstrate that the following chemical compounds are not used as ingredients in the manufacture of the product.

4.2.1 Halomethanes

methylene chloride

4.2.2 Chlorinated ethanes

1,1,1-trichloroethane

4.2.3 Aromatic solvents

benzene

toluene (methylbenzene)

ethylbenzene

4.2.4 Chlorinated ethylenes

vinyl chloride

4.2.5 Polynuclear aromatics

naphthalene

4.2.6 Chlorobenzenes

1,2-dichlorobenzene

4.2.7 Phthalate esters

di (2-ethylhexyl) phthalate

butyl benzyl phthalate

di-n-butyl phthalate

di-n-octyl phthalate

SCOPING DOCUMENT – DO NOT CITE

diethyl phthalate
dimethyl phthalate
4.2.8 Miscellaneous semi-volatile organics
isophorone
4.2.9 Metals and their compounds
antimony
cadmium
hexavalent chromium
lead
mercury
4.2.10 Preservatives (antifouling agents)
formaldehyde
4.2.11 Ketones
methyl ethyl ketone
methyl isobutyl ketone
4.2.12 Miscellaneous volatile organics
acrolein
acrylonitrile

Issues to consider: Is individually listing 25 prohibited chemicals effective in preventing harmful components in the formulation of paint? Would using groups of harmful chemicals (e.g. carcinogens, mutagens, reproductive toxins) as identified in peer-reviewed established compound lists (e.g. carcinogens identified by International Agency for Research on Cancer (IARC) or reproductive toxins identified by California Proposition 65, etc.) be more comprehensive and/or effective in protecting human health and environmental effects? Would using peer-reviewed established compound lists be too prohibitive in the formulation of paint?

5. Packaging Requirements.

5.1 Toxics in Packaging.

5.1.1 The manufacturer shall demonstrate that paint cans and their components are not fabricated with lead.

Issues to consider: Are the packaging requirements given still applicable to today's market? Should other requirements be added to better address the environmental impacts of the end-of-life management of paint?

Appendix: Labeling Requirements for Certification by Green Seal

Unless otherwise approved in writing by Green Seal, the following labeling requirements shall apply:

1. The Green Seal Certification Mark must appear on the packaging.
2. Whenever the certification mark appears on a package or product, the product or package must contain a description of the basis for the certification. The

SCOPING DOCUMENT – DO NOT CITE

description shall be in a location, style, and typeface that are easily readable by the consumer. The description shall read as follows:

This product meets Green Seal environmental standards for volatile organic compounds (VOCs) and other ingredients.

3. The packaging shall be accompanied by a brief statement discouraging disposal into drains and encouraging consultation with local authorities for disposal requirements or recycling opportunities.
4. Paints which have been formulated without VOCs shall be designated Class A and may contain a special designation to that effect on the label.

Additional issues to consider: What additional criteria should be considered to further reduce the environmental impact, especially the impact to climate change like through the energy usage (direct and indirect) in the product's life cycle?

Sherwin Williams Company
Attention: Craig Mackay
10406 Tucker Street
Beltsville, Maryland 20705

Dear Mr. Mackay:

Please find enclosed the complete Latex Paint Contract for your review and approval. Please do not make any notations on any documents. Specifically with regard to the Contract for Latex Paint 3-page document on the front, **do not fill in any date information in the first paragraph**. The third page will require an authorized signature as well as a witness.

After you have completed your review, approval and signature, please return this same package back to me via overnight mail.

Any questions or concerns, please contact me immediately to discuss.

Regards,

A handwritten signature in cursive script that reads "Karen Turns".

CONTRACT
For
Latex Paint (Interior & Exterior) and Other Coatings

This Contract for Latex Paint (4400001714) is entered into this ____th Day of _____, 2008, by and between the Commonwealth of Pennsylvania acting through the Department of General Services ("DGS") and The Sherwin Williams Company ("Contractor").

WHEREAS, DGS issued a Request for Proposals for Building Supplies, Lot 3, Latex Paint (Interior & Exterior) and other coatings, RFP No. CN00023105 ("RFP"); and

WHEREAS, Contractor submitted a proposal in response to the RFP, Lot 3, Latex Paint (Interior & Exterior) and other coatings and

WHEREAS, Contractor submitted a Final Price Submittal; and

WHEREAS, DGS and Contractor negotiated this Contract as their final and entire agreement in regard to the supply and delivery of Latex Paint (Interior & Exterior) and other coatings to the Commonwealth of Pennsylvania.

NOW THEREFORE, intending to be legally bound hereby, DGS and Contractor agree as follows:

1. Contractor shall, in accordance with the terms and conditions of this Contract, supply and deliver Latex Paint (Interior & Exterior) and other coatings to Commonwealth Executive and Independent Agencies.
2. Commonwealth Executive and Independent Agencies shall procure their requirements for Latex Paint (Interior & Exterior) and other coatings in accordance with the terms and conditions of this Contract.
3. DGS and Contractor agree to be bound to the Standard Terms and Conditions attached hereto as Exhibit A and made part of this Contract.
4. Contractor agrees to supply and deliver the Latex Paint (Interior & Exterior) and other coatings listed in its Final Price Submittal, which is attached hereto as Exhibit B and made a part hereof, at the prices listed for those items in Exhibit B.
5. This Contract is comprised of the following documents, which are listed in order of precedence in the event of a conflict between these documents:
 - a. The Standard Contract Terms And Conditions For Department of General Services Statewide Contracts For Supplies – SAP, GSPUR12E(SAP) Rev. 05/07/04, attached hereto as Exhibit A and made a part hereof.
 - b. Contractor's Final Price Submittal, which is attached hereto as Exhibit B and made a part hereof.

- c. The RFP, including all of the referenced Appendices and as revised by all Addenda issued thereto, which is attached hereto as Exhibit C and made a part hereof.
 - d. Contractor's original Technical Submittal, which is attached hereto as Exhibit D and made a part hereof.
6. The fully-executed Contract shall not contain "ink" signatures by the Commonwealth. After signature by the Contractor on this document, the Contract will be submitted for required Commonwealth approvals through the Commonwealth's SRM system. The Contract will be effective following the final Commonwealth electronic approval and the receipt by the Contractor of a copy of the fully executed Contract.

IN WITNESS WHEREOF, the Commonwealth and the Contractor have signed this Contract No. 4400001714 on that day and year first written above.

**STANDARD CONTRACT
TERMS AND CONDITIONS
FOR DEPARTMENT OF GENERAL SERVICES
STATEWIDE CONTRACTS FOR SUPPLIES - SAP**

1. TERM OF CONTRACT

The term of the Contract shall commence on the Effective Date (as defined below) and shall end on the Expiration Date identified in the Contract, subject to the other provisions of the Contract.

The Effective Date shall be: a) the date the Contract has been fully executed by the Contractor and by the Commonwealth and all approvals required by Commonwealth contracting procedures have been obtained or b) the date referenced in the Special Contract Terms and Conditions and whichever is later. The Contract shall not be a legally binding contract until after the fully-executed Contract has been sent to the Contractor.

The fully executed Contract shall not contain "ink" signatures by the Commonwealth. The Contractor understands and agrees that the receipt of an electronically-printed Contract with the printed name of the Commonwealth purchasing agent constitutes a binding, valid contract with the Commonwealth. The printed name of the purchasing agent on the Contract represents the signature of that individual who is authorized to bind the Commonwealth to the obligations contained in the Contract. The printed name also represents that all approvals required by Commonwealth contracting procedures have been obtained.

The Contractor shall not start performance until all of the following have occurred: a. the Effective Date has arrived; b. the Contractor has received a copy of the fully-executed Contract; and c. the Contractor has received a purchase order from a Commonwealth agency. The Commonwealth shall not be liable to pay the Contractor for any supply furnished or work performed or expenses incurred before the Effective Date or before the Contractor receives a copy of the fully-executed Contract or before the Contractor has received a purchase order. Except as otherwise provided in Paragraph 3, no Commonwealth employee has the authority to verbally direct the commencement of any work or delivery of any supply under this Contract prior to the Effective Date.

The Commonwealth reserves the right, upon notice to the Contractor, to extend the term of the Contract, or any part of the Contract, for up to three (3) months upon the same terms and conditions. This will be utilized to prevent a lapse in Contract coverage and only for the time necessary, up to three (3) months, to enter into a new Contract.

2. ESTIMATED QUANTITIES

It shall be understood and agreed that any quantities listed in the Contract are estimated only and may be increased or decreased in accordance with the actual requirements of the Commonwealth and that the Commonwealth in accepting any bid or portion thereof, contracts only and agrees to purchase only in such quantities as represent the actual requirements of the Commonwealth. The Commonwealth reserves the right to purchase items covered under the Contract through a separate procurement procedure, whenever the Department of General Services deems it to be in the best interest of the Commonwealth.

3. PURCHASE ORDERS

Commonwealth agencies may issue purchase orders against the Contract. These orders constitute the Contractor's authority to make delivery. All purchase orders received by the Contractor up to and including the expiration date of the Contract are acceptable and must be performed in accordance with the Contract. Contractors are not permitted to accept purchase orders which require performance extended beyond those performance time periods specified in the Contract but in no event longer than ninety (90) days after the expiration date of the Contract period. Each purchase order will be deemed to incorporate the terms and conditions set forth in the Contract.

Purchase orders will not include an "ink" signature by the Commonwealth. The electronically-printed name of the purchaser represents the signature of that individual who has the authority, on behalf of the Commonwealth, to authorize the Contractor to proceed.

Purchase orders may be issued electronically or through facsimile equipment. The electronic transmission of a purchase order shall require acknowledgement of receipt of the transmission by the Contractor. Receipt of the electronic or facsimile transmission of the purchase order shall constitute receipt of an order. Orders received by the Contractor after 4:00 p.m. will be considered received the following business day.

The Commonwealth and the Contractor specifically agree as follows:

- a. No handwritten signature shall be required in order for the purchase order to be legally enforceable.
- b. Upon receipt of an order, the Contractor shall promptly and properly transmit an acknowledgement in return. Any order which is issued electronically shall not give rise to any obligation to deliver on the part of the Contractor, or any obligation to receive and pay for delivered products on the part of the Commonwealth agency, unless and until the Commonwealth agency transmitting the order has properly received an acknowledgement.
- c. The parties agree that no writing shall be required in order to make the order legally binding, notwithstanding contrary requirements in any law. The parties hereby agree not to contest the validity or enforceability of a genuine purchase order or acknowledgement issued electronically under the provisions of a statute of frauds or any other applicable law relating to whether certain agreements be in writing and signed by the party bound thereby. Any genuine purchase order or acknowledgement issued electronically, if introduced as evidence on paper in any judicial, arbitration, mediation, or administrative proceedings, will be admissible as between the parties to the same extent and under the same conditions as other business records originated and maintained in documentary form. Neither party shall contest the admissibility of copies of genuine purchase orders or acknowledgements under either the business records exception to the hearsay rule or the best evidence rule on the basis that the order or acknowledgement were not in writing or signed by the parties. A purchase order or acknowledgment shall be deemed to be genuine for all purposes if it is transmitted to the location designated for such documents.
- d. Each party will immediately take steps to verify any document that appears to be obviously garbled in transmission or improperly formatted to include re-transmission of any such document if necessary.

Purchase orders under three thousand dollars (\$3,000) in total amount may also be made in person or by telephone using a Commonwealth Procurement VISA Card. When an order is placed by telephone, the Commonwealth agency shall provide the agency name, employee name, credit card number, and expiration date of the card. Contractors agree to accept payment through the use of the Commonwealth Procurement VISA card.

4. INDEPENDENT CONTRACTOR

In performing the obligations required by the Contract, the Contractor will act as an independent contractor and not as an employee or agent of the Commonwealth.

5. COMPLIANCE WITH LAW

The Contractor shall comply with all applicable federal and state laws and regulations and local ordinances in the performance of the Contract.

6. ENVIRONMENTAL PROVISIONS

In the performance of the Contract, the Contractor shall minimize pollution and shall strictly comply with all applicable environmental laws and regulations.

7. POST-CONSUMER RECYCLED CONTENT

Except as specifically waived by the Department of General Services in writing, any products which are provided to the Commonwealth as a part of the performance of the Contract must meet the minimum percentage levels for total recycled content as specified in Exhibits A-1 through A-8 to these Standard Contract Terms and Conditions.

8. COMPENSATION/INVOICES

The Contractor shall be required to furnish the awarded item(s) at the price(s) quoted in the Contract. All item(s) shall be delivered within the time period(s) specified in the Contract. The Contractor shall be compensated only for item(s) which are delivered and accepted by the Commonwealth.

Unless otherwise specified or unless the Contractor has been authorized by the Commonwealth for Evaluated Receipt Settlement or Vendor Self-Invoicing, the Contractor shall send an invoice itemized by purchase order line item to the address referenced on the purchase order promptly after the item(s) are delivered. The invoice should include only amounts due under the purchase order. The purchase order number must be included on all invoices.

9. PAYMENT

- a. The Commonwealth shall put forth reasonable efforts to make payment by the required payment date. The required payment date is: (a) the date on which payment is due under the terms of the Contract; (b) thirty (30) days after a proper invoice actually is received at the "Bill To" address on the contract purchase order, if a date on which payment is due is not specified in the Contract (a "proper" invoice is not received until the Commonwealth accepts the item(s) as satisfactorily performed); or (c) the payment date specified on the invoice if later than the dates established by (a) and (b) above. Payment may be delayed if the payment amount on an invoice is not based upon the price(s) as stated in the Contract. If any payment is not made within fifteen (15) days after the required payment date, the Commonwealth may pay interest as determined by the Secretary of Budget in accordance with Act No. 266 of 1982 and regulations promulgated pursuant thereto. Payment should not be construed by the Contractor as acceptance of the item(s) furnished by the Contractor. The Commonwealth reserves the right to conduct further testing and inspection after payment, but within a reasonable time after delivery, and to reject the item(s) if such post payment testing or inspection discloses a defect or a failure to meet specifications. The Contractor agrees that the Commonwealth may set off the amount of any state tax liability or other obligation of the Contractor or its subsidiaries to the Commonwealth against any payments due the Contractor under any contract with the Commonwealth.
- b. The Commonwealth shall have the option of using the Commonwealth Purchasing Card to make purchases under the Contract. The Commonwealth Purchasing Card is similar to a credit card in that there will be a small fee which the Contractor will be required to pay and the Contractor will receive payment directly from the card issuer rather than the Commonwealth. Any and all fees related to this type of payment are the responsibility of the Contractor. In no case will the Commonwealth allow increases in prices to offset credit card fees paid by the Contractor or any other charges incurred by the Contractor, unless specifically stated in the terms of the Contract.

10. TAXES

The Commonwealth is exempt from all excise taxes imposed by the Internal Revenue Service and has accordingly registered with the Internal Revenue Service to make tax free purchases under Registration No. 2374001-K. With the exception of purchases of the following items, no exemption certificates are required and none will be issued: undyed diesel fuel, tires, trucks, gas guzzler emergency vehicles, and sports fishing equipment. The Commonwealth is also exempt from Pennsylvania state sales tax, local sales tax, public transportation assistance taxes and fees and vehicle rental tax. The Department of Revenue regulations provide that exemption certificates are not required for sales made to governmental entities and none will be issued. Nothing in this paragraph is meant to exempt a construction contractor from the payment of any of these taxes or fees which are required to be paid with respect to the purchase, use, rental, or lease of tangible personal property or taxable services used or transferred in connection with the performance of a construction contract.

11. WARRANTY

The Contractor warrants that all item(s) furnished by the Contractor, its agents and subcontractors shall be free and clear of any defects in workmanship or materials. The Contractor shall pass through to the Commonwealth the manufacturer's warranty for all parts or supplies provided under the Contract. The Contractor shall correct any problem with the service and/or replace any defective part with a part of equivalent or superior quality without any additional cost to the Commonwealth.

12. DELIVERY

All item(s) shall be delivered F.O.B. Destination. The Contractor agrees to bear the risk of loss, injury, or destruction of the item(s) ordered prior to receipt of the items by the Commonwealth. Such loss, injury, or destruction shall not release the Contractor from any contractual obligations. Except as otherwise provided in Paragraph 20, all item(s) must be delivered within the time period specified on the contract purchase order. Time is of the essence and, in addition to any other remedies, the contract purchase order is subject to termination for failure to deliver as specified. Unless otherwise stated by the Contractor in its Bid or indicated in the Special Contract Terms and Conditions, delivery must be made within thirty (30) days after award of the Contract Purchase Order.

13. PATENT, COPYRIGHT, AND TRADEMARK INDEMNITY

The Contractor warrants that it is the sole owner or author of, or has entered into a suitable legal agreement concerning either: a) the design of the item(s) or the process provided or used in the performance of the purchase order which is covered by a patent, copyright, or trademark registration or other right duly authorized by state or federal law or b) any copyrighted matter in any report document or other material provided to the Commonwealth under the purchase order. The Contractor shall defend any suit or proceeding brought against the Commonwealth on account of any alleged patent, copyright or trademark infringement in the United States of the item(s) provided or used in the performance of the Contract. This is upon condition that the Commonwealth shall provide prompt notification in writing of such suit or proceeding; full right, authorization and opportunity to conduct the defense thereof; and full information and all reasonable cooperation for the defense of same. As principles of governmental or public law are involved, the Commonwealth may participate in or choose to conduct, in its sole discretion, the defense of any such action. If information and assistance are furnished by the Commonwealth at the Contractor's written request, it shall be at the Contractor's expense, but the responsibility for such expense shall be only that within the Contractor's written authorization.

The Contractor shall indemnify and hold the Commonwealth harmless from all damages, costs, and expenses, including attorney's fees that the Contractor or the Commonwealth may pay or incur by reason of any infringement or violation of the rights occurring to any holder of copyright, trademark, or patent interests and rights in any item(s) provided or used in the performance of the purchase order. If any of the item(s) provided by the Contractor are held in such suit or proceeding to constitute infringement and the use is enjoined, the Contractor shall, at its own expense and at its option, either procure the right to continue use of such infringement item(s), replace them with noninfringement equal performance item(s) or modify them so that they are no longer infringing. If the Contractor is unable to do any of the preceding, the Contractor agrees to remove all the equipment or software which is obtained contemporaneously with the infringing item(s), or, at the option of the Commonwealth, only those items of equipment or software which are held to be infringing, and to pay the Commonwealth: 1) any amounts paid by the Commonwealth towards the item(s) of the product, less straight line depreciation; 2) any license fee paid by the Commonwealth for the use of any software, less a reasonable amount for the period of usage; and 3) the pro rata portion of any maintenance fee representing the time remaining in any period of maintenance paid for. The obligations of the Contractor under this paragraph continue without time limit. No costs or expenses shall be incurred for the account of the Contractor without its written consent.

14. OWNERSHIP RIGHTS

The Commonwealth shall have unrestricted authority to reproduce, distribute, and use any submitted report, data, or material, and any software or modifications and any associated documentation that is designed or developed and delivered to the Commonwealth as part of the performance of the Contract.

15. ASSIGNMENT OF ANTITRUST CLAIMS

The Contractor and the Commonwealth recognize that in actual economic practice, overcharges by the Contractor's suppliers resulting from violations of state or federal antitrust laws are in fact borne by the Commonwealth. As part of the consideration for the award of the Contract, and intending to be legally bound, the Contractor assigns to the Commonwealth all right, title and interest in and to any claims the Contractor now has, or may acquire, under state or federal antitrust laws relating to the supplies and services which are the subject of the Contract.

16. HOLD HARMLESS PROVISION

The Contractor shall hold the Commonwealth harmless from and indemnify the Commonwealth against any and all claims, demands and actions based upon or arising out of any activities performed by the Contractor and its employees and agents under this Contract and shall, at the request of the Commonwealth, defend any and all actions brought against the Commonwealth based upon any such claims or demands.

17. AUDIT PROVISIONS

The Commonwealth shall have the right, at reasonable times and at a site designated by the Commonwealth, to audit the books, documents and records of the Contractor to the extent that the books, documents and records relate to costs or pricing data for the Contract. The Contractor agrees to maintain records which will support the prices charged and costs incurred for the Contract.

The Contractor shall preserve books, documents, and records that relate to costs or pricing data for the Contract for a period of three (3) years from date of final payment. The Contractor shall give full and free access to all records to the Commonwealth and/or their authorized representatives.

18. INSPECTION AND REJECTION

No item(s) received by the Commonwealth shall be deemed accepted until the Commonwealth has had a reasonable opportunity to inspect the item(s). Any item(s) which is discovered to be defective or fails to conform to the specifications may be rejected upon initial inspection or at any later time if the defects contained in the item(s) or the noncompliance with the specifications were not reasonably ascertainable upon the initial inspection. It shall thereupon become the duty of the Contractor to remove rejected item(s) from the premises without expense to the Commonwealth within fifteen (15) days after notification. Rejected item(s) left longer than fifteen (15) days will be regarded as abandoned, and the Commonwealth shall have the right to dispose of them as its own property and shall retain that portion of the proceeds of any sale which represents the Commonwealth's costs and expenses in regard to the storage and sale of the item(s). Upon notice of rejection, the Contractor shall immediately replace all such rejected item(s) with others conforming to the specifications and which are not defective. If the Contractor fails, neglects or refuses to do so, the Commonwealth shall then have the right to procure a corresponding quantity of such item(s), and deduct from any monies due or that may thereafter become due to the Contractor, the difference between the price stated in the Contract and the actual cost thereof to the Commonwealth.

19. DEFAULT

a. The Commonwealth may, subject to the provisions of Paragraph 20, Force Majeure, and in addition to its other rights under the Contract, declare the Contractor in default by written notice thereof to the Contractor, and terminate (as provided in Paragraph 21, Termination Provisions) the whole or any part of this Contract including a purchase order, for any of the following reasons:

- 1) Failure to deliver the awarded item(s) within the time specified in the Contract or contract purchase order or as otherwise specified;
- 2) Improper delivery;

- 3) Failure to provide an item(s) which is in conformance with the specifications referenced in the Invitation For Bids;
 - 4) Delivery of a defective item;
 - 5) Failure or refusal to remove and replace any item(s) rejected as defective or nonconforming within fifteen (15) days after notification;
 - 6) Insolvency or bankruptcy;
 - 7) Assignment made for the benefit of creditors;
 - 8) Failure to protect, to repair, or to make good any damage or injury to property; or
 - 9) Breach of any provision of this Contract.
- b. In the event that the Commonwealth terminates this Contract in whole or in part as provided in Subparagraph a. above, the Commonwealth may procure, upon such terms and in such manner as it determines, on item(s) similar or identical to those so terminated, and the Contractor shall be liable to the Commonwealth for any reasonable excess costs for such similar or identical item(s) included within the terminated part of the Contract.
- c. If the Contract is terminated in whole or in part as provided in Subparagraph a. above, the Commonwealth, in addition to any other rights provided in this paragraph, may require the Contractor to transfer title and deliver immediately to the Commonwealth in the manner and to the extent directed by the Department of General Services, such partially manufactured or delivered item(s) as the Contractor has specifically produced or specifically acquired for the performance of such part of the Contract as has been terminated. Except as provided below, payment for any partially manufactured or delivered item(s) accepted by the Commonwealth shall be in an amount agreed upon by the Contractor and the Commonwealth. The Commonwealth may withhold from amounts otherwise due the Contractor for such partially manufactured or delivered item(s), such sum as the Commonwealth determines to be necessary to protect the Commonwealth against loss.
- d. The rights and remedies of the Commonwealth provided in this paragraph shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.
- e. The Commonwealth's failure to exercise any rights or remedies provided in this paragraph shall not be construed to be a waiver by the Commonwealth of its rights and remedies in regard to the event of default or any succeeding event of default.
- f. Following exhaustion of the Contractor's administrative remedies as set forth in Paragraph 22, the Contractor's exclusive remedy shall be to seek damages in the Board of Claims.

20. FORCE MAJEURE

Neither party will incur any liability to the other if its performance of any obligation under this Contract is prevented or delayed by causes beyond its control and without the fault or negligence of either party. Causes beyond a party's control may include, but are not limited to, acts of God or war, changes in controlling law, regulations, orders or the requirements of any governmental entity, severe weather conditions, civil disorders, natural disasters, fire, epidemics and quarantines, general strikes throughout the trade, and freight embargoes.

The Contractor shall notify the Commonwealth orally within five (5) days and in writing within ten (10) days of the date on which the Contractor becomes aware, or should have reasonably become aware, that such cause would prevent or delay its performance. Such notification shall (i) describe fully such cause(s) and its effect on performance, (ii) state whether performance under the contract is prevented or delayed and (iii) if performance is delayed, state a reasonable estimate of the duration of the delay. The Contractor shall have the burden of proving that such cause(s) delayed or prevented its performance despite its diligent efforts to perform and shall produce such supporting documentation as the Commonwealth may reasonably request. After receipt of such notification, the Commonwealth may elect

either to cancel the Contract or to extend the time for performance as reasonably necessary to compensate for the Contractor's delay.

In the event of a declared emergency by competent governmental authorities, the Commonwealth by notice to the Contractor, may suspend all or a portion of the Contract.

21. TERMINATION PROVISIONS

The Commonwealth has the right to terminate this Contract for any of the following reasons. Termination shall be effective upon written notice to the Contractor.

- a. **TERMINATION FOR CONVENIENCE:** The Commonwealth shall have the right to terminate the Contract or a purchase order for its convenience if the Commonwealth determines termination to be in its best interest. The Contractor shall be paid for work satisfactorily completed prior to the effective date of the termination, but in no event shall the Contractor be entitled to recover loss of profits.
- b. **NON-APPROPRIATION:** The Commonwealth's obligation to make payments during any Commonwealth fiscal year succeeding the current fiscal year shall be subject to availability and appropriation of funds. When funds (state and/or federal) are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal year period, the Commonwealth shall have the right to terminate the Contract or purchase order. The Contractor shall be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the supplies or services delivered under the contract or purchase order. Such reimbursement shall not include loss of profit, loss of use of money, or administrative or overhead costs. The reimbursement amount may be paid from any appropriations available for that purpose.
- c. **TERMINATION FOR CAUSE:** The Commonwealth shall have the right to terminate the Contract for Contractor default under Paragraph 19, Default, upon written notice to the Contractor. The Commonwealth shall also have the right, upon written notice to the Contractor, to terminate the Contract or a purchase order for other cause as specified in this Contract or by law. If it is later determined that the Commonwealth erred in terminating the Contract or a contract purchase order for cause, then, at the Commonwealth's discretion, the Contract shall be deemed to have been terminated for convenience under the Subparagraph 21.a.

22. CONTRACT CONTROVERSIES

- a. In the event of a controversy or claim arising from the Contract, the Contractor must, within six months after the cause of action accrues, file a written claim with the contracting officer for a determination. The claim shall state all grounds upon which the Contractor asserts a controversy exists. If the Contractor fails to file a claim or files an untimely claim, the Contractor is deemed to have waived its right to assert a claim in any forum.
- b. The contracting officer shall review timely-filed claims and issue a final determination, in writing, regarding the claim. The final determination shall be issued within 120 days of the receipt of the claim, unless extended by consent of the contracting officer and the Contractor. The contracting officer shall send his/her written determination to the Contractor. If the contracting officer fails to issue a final determination within the 120 days (unless extended by consent of the parties), the claim shall be deemed denied. The contracting officer's determination shall be the final order of the purchasing agency.
- c. Within fifteen (15) days of the mailing date of the determination denying a claim or within 135 days of filing a claim if, no extension is agreed to by the parties, whichever occurs first, the Contractor may file a statement of claim with the Commonwealth Board of Claims. Pending a final judicial resolution of a controversy or claim, the Contractor shall proceed diligently with the performance of the Contract in a manner consistent with the determination of the contracting officer and the Commonwealth shall compensate the Contractor pursuant to the terms of the Contract.

23. ASSIGNABILITY AND SUBCONTRACTING

- a. Subject to the terms and conditions of this Paragraph 23, the Contract shall be binding upon the parties and their respective successors and assigns.

- b. The Contractor shall not subcontract with any person or entity to perform all or any part of the work to be performed under the Contract without the prior written consent of the Department of General Services, which consent may be withheld at the sole and absolute discretion of the Department of General Services.
- c. The Contractor may not assign, in whole or in part, the Contract or its rights, duties, obligations, or responsibilities hereunder without the prior written consent of the Department of General Services, which consent may be withheld at the sole and absolute discretion of the Department of General Services.
- d. Notwithstanding the foregoing, the Contractor may, without the consent of the Department of General Services, assign its rights to payment to be received under the Contract or a contract purchase order, provided that the Contractor provides written notice of such assignment to the Buyer and the ordering Commonwealth agency together with a written acknowledgement from the assignee that any such payments are subject to all of the terms and conditions of the Contract.
- e. For the purposes of the Contract, the term "assign" shall include, but shall not be limited to, the sale, gift, assignment, pledge, or other transfer of any ownership interest in the Contractor provided, however, that the term shall not apply to the sale or other transfer of stock of a publicly traded company.
- f. Any assignment consented to by the Department of General Services shall be evidenced by a written assignment agreement executed by the Contractor and its assignee in which the assignee agrees to be legally bound by all of the terms and conditions of the Contract and to assume the duties, obligations, and responsibilities being assigned.
- g. A change of name by the Contractor, following which the Contractor's federal identification number remains unchanged, shall not be considered to be an assignment hereunder. The Contractor shall give the Buyer written notice of any such change of name.

24. NONDISCRIMINATION/SEXUAL HARASSMENT CLAUSE

During the term of the Contract, Contractor agrees as follows:

- a. In the hiring of any employees for the manufacture of supplies, performance of work, or any other activity required under the Contract or any subcontract, the Contractor, subcontractor or any person acting on behalf of the Contractor or subcontractor shall not by reason of gender, race, creed, or color discriminate against any citizen of this Commonwealth who is qualified and available to perform the work to which the employment relates.
- b. Neither the Contractor nor any subcontractor nor any person on their behalf shall in any manner discriminate against or intimidate any employee involved in the manufacture of supplies, the performance of work or any other activity required under the Contract on account of gender, race, creed, or color.
- c. The Contractor and subcontractors shall establish and maintain a written sexual harassment policy and shall inform its employees of the policy. The policy must contain a notice that sexual harassment will not be tolerated and employees who practice it will be disciplined.
- d. The Contractor shall not discriminate by reason of gender, race, creed, or color against any subcontractor or supplier who is qualified to perform the work to which the contract relates.
- e. The Contractor and each subcontractor shall furnish all necessary employment documents and records to and permit access to its books, records, and accounts by the contracting officer and the Department of General Services' Bureau of Contract Administration and Business Development for purposes of investigation to ascertain compliance with the provisions of this Nondiscrimination/Sexual Harassment Clause. If the Contractor or any subcontractor does not possess documents or records reflecting the necessary information requested, it shall furnish such information on reporting forms supplied by the contracting officer or the Bureau of Contract Administration and Business Development.

- f. The Contractor shall include the provisions of this Nondiscrimination/Sexual Harassment Clause in every subcontract so that such provisions will be binding upon each subcontractor.
- g. The Commonwealth may cancel or terminate the Contract, and all money due or to become due under the Contract may be forfeited for a violation of the terms and conditions of this Nondiscrimination/Sexual Harassment Clause. In addition, the agency may proceed with debarment or suspension and may place the Contractor in the Contractor Responsibility File.

25. CONTRACTOR INTEGRITY PROVISIONS

- a. For purposes of this clause only, the words "confidential information," "consent," "contractor," "financial interest," and "gratuity" shall have the following definitions.
 - 1) **Confidential information** means information that is not public knowledge, or available to the public on request, disclosure of which would give an unfair, unethical, or illegal advantage to another desiring to contract with the Commonwealth.
 - 2) **Consent** means written permission signed by a duly authorized officer or employee of the Commonwealth, provided that where the material facts have been disclosed, in writing, by prequalification, bid, proposal, or contractual terms, the Commonwealth shall be deemed to have consented by virtue of execution of this agreement.
 - 3) **Contractor** means the individual or entity that has entered into the Contract with the Commonwealth, including directors, officers, partners, managers, key employees and owners of more than a five percent interest.
 - 4) **Financial interest** means:
 - a) Ownership of more than a five percent interest in any business; or
 - b) Holding a position as an officer, director, trustee, partner, employee, or the like, or holding any position of management.
 - 5) **Gratuity** means any payment of more than nominal monetary value in the form of cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind.
- b. The Contractor shall maintain the highest standards of integrity in the performance of the Contract and shall take no action in violation of state or federal laws, regulations, or other requirements that govern contracting with the Commonwealth.
- c. The Contractor shall not disclose to others any confidential information gained by virtue of the Contract.
- d. The Contractor shall not, in connection with this or any other agreement with the Commonwealth, directly, or indirectly, offer, confer, or agree to confer any pecuniary benefit on anyone as consideration for the decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty by any officer or employee of the Commonwealth.
- e. The Contractor shall not, in connection with this or any other agreement with the Commonwealth, directly or indirectly, offer, give, or agree or promise to give to anyone any gratuity for the benefit of or at the direction or request of any officer or employee of the Commonwealth.
- f. Except with the consent of the Commonwealth, neither the Contractor nor anyone in privity with him or her shall accept or agree to accept from, or give or agree to give to, any person, any gratuity from any person in connection with the performance of work under the Contract except as provided therein.
- g. Except with the consent of the Commonwealth, the Contractor shall not have a financial interest in any other contractor, subcontractor, or supplier providing services, labor, or material on this project.

- h. The Contractor, upon being informed that any violation of these provisions has occurred or may occur, shall immediately notify the Commonwealth in writing.
- i. The Contractor, by execution of the Contract and by the submission of any bills or invoices for payment pursuant thereto, certifies, and represents that he or she has not violated any of these provisions.
- j. The Contractor, upon the inquiry or request of the Inspector General of the Commonwealth or any of that official's agents or representatives, shall provide, or if appropriate, make promptly available for inspection or copying, any information of any type or form deemed relevant by the Inspector General to the Contractor's integrity or responsibility, as those terms are defined by the Commonwealth's statutes, regulations, or management directives. Such information may include, but shall not be limited to, the Contractor's business or financial records, documents or files of any type or form which refers to or concern the Contract. Such information shall be retained by the Contractor for a period of three years beyond the termination of the Contract unless otherwise provided by law.
- k. For violation of any of the above provisions, the Commonwealth may terminate this and any other agreement with the Contractor, claim liquidated damages in an amount equal to the value of anything received in breach of these provisions, claim damages for all expenses incurred in obtaining another Contractor to complete performance hereunder, and debar and suspend the Contractor from doing business with the Commonwealth. These rights and remedies are cumulative, and the use or nonuse of any one shall not preclude the use of all or any other. These rights and remedies are in addition to those the Commonwealth may have under law, statute, regulation, or otherwise.

26. CONTRACTOR RESPONSIBILITY PROVISIONS

- a. The Contractor certifies, for itself and all its subcontractors, that as of the date of its execution of the bid/contract, that neither the Contractor, nor any subcontractors, nor any suppliers are under suspension or debarment by the Commonwealth or any governmental entity, instrumentality, or authority and, if the Contractor cannot so certify, then it agrees to submit, along with its Bid, a written explanation of why such certification cannot be made.
- b. The Contractor must also certify, in writing, that as of the date of its execution of the bid/contract, it has no tax liabilities or other Commonwealth obligations.
- c. The Contractor's obligations pursuant to these provisions are ongoing from and after the effective date of the contract through the termination date thereof. Accordingly, the Contractor shall have an obligation to inform the Commonwealth if, at any time during the term of the Contract, it becomes delinquent in the payment of taxes, or other Commonwealth obligations, or if it or any of its subcontractors are suspended or debarred by the Commonwealth, the federal government, or any other state or governmental entity. Such notification shall be made within 15 days of the date of suspension or debarment.
- d. The failure of the Contractor to notify the Commonwealth of its suspension or debarment by the Commonwealth, any other state, or the federal government shall constitute an event of default of the Contract with the Commonwealth.
- e. The Contractor agrees to reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of State Inspector General for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the Commonwealth, which results in the suspension or debarment of the Contractor. Such costs shall include, but shall not be limited to, salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor shall not be responsible for investigative costs for investigations that do not result in the Contractor's suspension or debarment.
- f. The Contractor may obtain a current list of suspended and debarred Commonwealth contractors by either searching the internet at <http://www.dgs.state.pa.us> or contacting the:

27. AMERICANS WITH DISABILITIES ACT

- a. Pursuant to federal regulations promulgated under the authority of The Americans With Disabilities Act, 28 C.F.R. § 35.101 et seq., the Contractor understands and agrees that it shall not cause any individual with a disability to be excluded from participation in this Contract or from activities provided for under this Contract on the basis of the disability. As a condition of accepting this contract, the Contractor agrees to comply with the "General Prohibitions Against Discrimination," 28 C.F.R. § 35.130, and all other regulations promulgated under Title II of The Americans With Disabilities Act which are applicable to all benefits, services, programs, and activities provided by the Commonwealth of Pennsylvania through contracts with outside contractors.
- b. The Contractor shall be responsible for and agrees to indemnify and hold harmless the Commonwealth of Pennsylvania from all losses, damages, expenses, claims, demands, suits, and actions brought by any party against the Commonwealth of Pennsylvania as a result of the Contractor's failure to comply with the provisions of subparagraph a above.

28. HAZARDOUS SUBSTANCES

The Contractor shall provide information to the Commonwealth about the identity and hazards of hazardous substances supplied or used by the Contractor in the performance of the Contract. The Contractor must comply with Act 159 of October 5, 1984, known as the "Worker and Community Right to Know Act" (the "Act") and the regulations promulgated pursuant thereto at 4 Pa. Code Section 301.1 et seq.

- a. Labeling. The Contractor shall insure that each individual product (as well as the carton, container or package in which the product is shipped) of any of the following substances (as defined by the Act and the regulations) supplied by the Contractor is clearly labeled, tagged or marked with the information listed in Paragraph (1) through (4):
 - 1) Hazardous substances:
 - a) The chemical name or common name,
 - b) A hazard warning, and
 - c) The name, address, and telephone number of the manufacturer.
 - 2) Hazardous mixtures:
 - a) The common name, but if none exists, then the trade name,
 - b) The chemical or common name of special hazardous substances comprising .01% or more of the mixture,
 - c) The chemical or common name of hazardous substances consisting 1.0% or more of the mixture,
 - d) A hazard warning, and
 - e) The name, address, and telephone number of the manufacturer.
 - 3) Single chemicals:
 - a) The chemical name or the common name,
 - b) A hazard warning, if appropriate, and
 - c) The name, address, and telephone number of the manufacturer.

- 4) Chemical Mixtures:
- a) The common name, but if none exists, then the trade name,
 - b) A hazard warning, if appropriate,
 - c) The name, address, and telephone number of the manufacturer, and
 - d) The chemical name or common name of either the top five substances by volume or those substances consisting of 5.0% or more of the mixture.

A common name or trade name may be used only if the use of the name more easily or readily identifies the true nature of the hazardous substance, hazardous mixture, single chemical, or mixture involved.

Container labels shall provide a warning as to the specific nature of the hazard arising from the substance in the container.

The hazard warning shall be given in conformity with one of the nationally recognized and accepted systems of providing warnings, and hazard warnings shall be consistent with one or more of the recognized systems throughout the workplace. Examples are:

- NFPA 704, Identification of the Fire Hazards of Materials.
- National Paint and Coatings Association: Hazardous Materials Identification System.
- American Society for Testing and Materials, Safety Alert Pictorial Chart.
- American National Standard Institute, Inc., for the Precautionary Labeling of Hazardous Industrial Chemicals.

Labels must be legible and prominently affixed to and displayed on the product and the carton, container, or package so that employees can easily identify the substance or mixture present therein.

- b. Material Safety Data Sheet. The contractor shall provide Material Safety Data Sheets (MSDS) with the information required by the Act and the regulations for each hazardous substance or hazardous mixture. The Commonwealth must be provided an appropriate MSDS with the initial shipment and with the first shipment after an MSDS is updated or product changed. For any other chemical, the contractor shall provide an appropriate MSDS, if the manufacturer, importer, or supplier produces or possesses the MSDS. The contractor shall also notify the Commonwealth when a substance or mixture is subject to the provisions of the Act. Material Safety Data Sheets may be attached to the carton, container, or package mailed to the Commonwealth at the time of shipment.

29. COVENANT AGAINST CONTINGENT FEES

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure the contract purchase order upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty, the Commonwealth shall have the right to terminate the contract purchase order without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover the full amount of such commission, percentage, brokerage, or contingent fee.

30. APPLICABLE LAW

The Contract shall be governed by and interpreted and enforced in accordance with the laws of the Commonwealth of Pennsylvania (without regard to any conflict of laws provisions) and the decisions of the Pennsylvania courts. The Contractor consents to the jurisdiction of any court of the Commonwealth of Pennsylvania and any federal courts in Pennsylvania, waiving any claim or defense that such forum is not

convenient or proper. The Contractor agrees that any such court shall have in personam jurisdiction over it, and consents to service of process in any manner authorized by Pennsylvania law.

31. INTEGRATION

The RFQ - Invitation For Bids form and the Contract form, including all documents referenced on the forms, as well as the purchase orders constitute the entire agreement between the parties. No agent, representative, employee or officer of either the Commonwealth or the Contractor has authority to make, or has made, any statement, agreement or representation, oral or written, in connection with the Contract, which in any way can be deemed to modify add to or detract from, or otherwise change or alter its terms and conditions. No negotiations between the parties, nor any custom or usage, shall be permitted to modify or contradict any of the terms and conditions of the Contract. No modifications, alterations, changes, or waiver to the Contract or any of its terms shall be valid or binding unless accomplished by a written amendment signed by both parties or by a change order signed by the Commonwealth. All such amendments and change orders will be made using the appropriate Commonwealth form.

32. CHANGES

The Commonwealth reserves the right to make changes at any time during the term of the Contract or any renewals or extensions thereof: 1) to increase or decrease the quantities resulting from variations between any estimated quantities in the Contract and actual quantities; 2) to make changes to the supply within the scope of the Contract; 3) to exercise an option to purchase or early payment option; 4) to notify the Contractor that the Commonwealth is exercising any Contract renewal or extension option; or 5) to modify the time of performance that does not alter the scope of the Contract to extend the completion date beyond the Expiration Date of the Contract or any renewals or extensions thereof. Any such change shall be made by: a. the contracting officer shown on the Contract form, or b. the agency contracting officer for changes to purchase orders, by notifying the Contractor in writing. The change shall be effective as of the date of the notification of change, unless the change specifies a later effective date. Such increases, decreases, changes, modifications or exercises of purchase options will not invalidate the Contract, nor, if performance security is being furnished in conjunction with the Contract, release the security obligation. The Contractor agrees to provide the supply in accordance with the change. Any dispute by the Contractor in regard to the performance required by any notification of change shall be handled through Paragraph 22, "Contract Controversies".

EXHIBIT A-1

CONSTRUCTION PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All construction products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Construction Products	Material	% of Post-Consumer Materials	% of Total Recovered Materials
Structural Fiberboard	Recovered Materials	-	80
Laminated Paperboard	Post-consumer Paper	100	-
Rock Wool Insulation	Slag	-	75
Fiberglass Insulation	Glass Cullet	-	20
Cellulose Insulation (loose-fill and spray-on)	Post-consumer Paper	75	-
Perlite Composite Board Insulation	Post-consumer Paper	23	-
Plastic Rigid Foam, Polyisocyanurate/ Polyurethane: Rigid Foam Insulation	Recovered Material	-	9
Foam-in-Place Insulation	Recovered Material	-	5
Glass Fiber Reinforced Insulation	Recovered Material	-	6
Phenolic Rigid Foam Insulation	Recovered Material	-	5
Floor Tiles (heavy duty/commercial use)	Rubber	90	-
	Plastic	-	90
Patio Blocks	Rubber or Rubber Blends	90	-
	Plastic or Plastic Blends	-	90
Polyester Carpet Fiber Face	Polyethylene terephthalate (PET) resin	25	-
Latex Paint: --Consolidated ¹ --Reprocessed ² ----White, Off-White, Pastel Colors ----Grey, Brown, Earthtones, and Other Dark Colors	Recovered Material	100	-
	Recovered Material	20	-
	Recovered Material	50	-
Shower and Restroom Dividers/Partitions:	Plastic	20	-
	Steel ⁴	16	9
		67	33
Carpet Cushion: --Bonded Polyurethane --Jute --Synthetic Fibers --Rubber	Old Carpet Cushion	15	-
	Burlap	40	-
	Carpet Fabrication Scrap	-	100
	Tire Rubber	60	-
Railroad Grade Crossing Surfaces --Concrete --Rubber ³ --Steel ⁴	Coal Fly Ash	-	15
	Tire Rubber	-	85
	Steel	16	9
		67	33

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

¹ Consolidated latex paint used for covering graffiti, where color and consistency of performance are not primary concerns.

² Reprocessed latex paint used for interior and exterior architectural applications such as wallboard, ceiling, and trim; gutterboards; and concrete, stucco, masonry, wood, and metal surfaces.

³The recommended recovered materials content for rubber railroad grade crossing surfaces are based on the weight of the raw materials, exclusive of any additives such as binders or additives

⁴ The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured from either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the construction product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the construction product(s), to provide the Commonwealth with documentary evidence that the construction product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-2
VEHICULAR PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All vehicular products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Vehicular Product	Requirements
Re-Refined Oil	25% re-refined oil base stock for engine lubricating oils, hydraulic fluids, and gear oils.

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

"Re-refined oil" is oil that is manufactured with a minimum of twenty-five percent basestock made from used oil that has been recovered and processed to make it reusable as oil. Once the oil has been refined, no difference can be detected between re-refined and virgin oil.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the vehicular product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE REFERENCED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the vehicular product(s), to provide the Commonwealth with documentary evidence that the vehicular product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-3
PAPER PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All paper offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer content as shown below for the applicable products:

Item	Notes	Post-Consumer Content (%)
Printing and Writing Papers		
Reprographic	Business papers such as bond, electrostatic, copy, mimeo, duplicator and reproduction	30
Offset	Used for book publishing, commercial printing, direct mail, technical documents, and manuals	30
Tablet	Office paper such as note pads and notebooks	30
Forms bond	Bond type papers used for business forms such as continuous, cash register, sales book, unit sets, and computer printout, excluding carbonless	30
Envelope	Wove Kraft, white and colored (including manila) Kraft, unbleached Excludes custom envelopes	30 10 10
Cotton fiber	High-quality papers used for stationery, invitations, currency, ledgers, maps, and other specialty items	30
Text and cover	Premium papers used for cover stock, books, and stationery and matching envelopes	30
Supercalendered	Groundwood paper used for advertising and mail order inserts, catalogs, and some magazines	10
Machine finished groundwood	Groundwood paper used in magazines and catalogs	10
Papeteries	Used for invitations and greeting cards	30
Check safety	Used in the manufacture of commercial and government checks	10
Coated	Used for annual reports, posters, brochures, and magazines. Have gloss, dull, or matte finishes	10
Carbonless	Used for multiple-impact copy forms	30
File folders	Manila or colored	30
Dyed filing products	Used for multicolored hanging folders and wallet files	20
Index and card stock	Used for index cards and postcards	20
Pressboard	High-strength paperboard used in binders and report covers	20

Tags and tickets	Used for toll and lottery tickets, licenses, and identification and tabulating cards	20
Newsprint		
Newsprint	Groundwood paper used in newspapers	20
Commercial Sanitary Tissue Products		
Bathroom tissue	Used in rolls or sheets	20
Paper towels	Used in rolls or sheets	40
Paper napkins	Used in food service applications	30
Facial tissue	Used for personal care	10
General-purpose industrial wipers	Used in cleaning and wiping applications	40
Paperboard and Packaging Products		
Corrugated containers (<300 psi) (300 psi)	Used for packaging and shipping a variety of goods	25 25
Solid fiber boxes	Used for specialized packaging needs such as dynamite packaging and army ration boxes	40
Folding cartons	Used to package a wide variety of foods, household products, cosmetics, pharmaceuticals, detergent, and hardware	40
Industrial paperboard	Used to create tubes, cores, cans and drums	45
Miscellaneous	Includes "chipboard" pad backings, book covers, covered binders, mailing tubes, game boards, and puzzles	75
Padded mailers	Made from kraft paper that is usually brown but can be bleached white	5
Carrierboard	A type of folding carton designed for multipack beverage cartons	10
Brown papers	Used for bags and wrapping paper	5
Miscellaneous Paper Products		
Tray liners	Used to line food service trays. Often contain printed information.	50

"Post-consumer" content is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer content is part of the broader category of recovered material."

The Commonwealth of Pennsylvania recognizes that paper products are universally made with scrap material recovered from the manufacturing process; use of such materials is a standard practice, both efficient and economical for the paper maker; therefore, bidders of paper products need not certify that their products are made with "pre-consumer," "recovered," or "secondary" paper fiber.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the paper product(s) which the bidder is offering contains the required minimum percentage of post-consumer content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a mill certification must be completed and signed by the mill before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the paper product(s), to provide the Commonwealth with documentary evidence that the paper product(s) were in fact produced with the required minimum percentage of post-consumer content.

EXHIBIT A-4
LANDSCAPING PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All landscaping products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Landscaping Products	Recovered Material Content
Hydraulic Mulch: -----Paper -----Wood/Paper	100% (post-consumer) 100% (total)
Compost Made From Yard Trimmings and/or Food Waste	Purchase or use compost made from yard trimmings, leaves, grass clippings and/or food wastes for applications such as landscaping, seeding of grass or other plants, as nutritious mulch under trees and shrubs, and in erosion control and soil reclamation. DGS further recommends implementing a composting system for these materials when agencies have an adequate volume and sufficient space.
Garden Hose: -----Rubber and/or Plastic Soaker Hose: -----Rubber and/or Plastic	60% (post-consumer) 60% (post-consumer)
Lawn and Garden Edging: -----Rubber and/or Plastic	30% (post-consumer)/30-100% (total)
Landscaping Timber and Posts: -----HDPE -----Mixed Plastics/Sawdust -----HDPE/Fiberglass -----Other mixed Resins	25% (post-consumer) + 50% (recovered) 50% (post-consumer) + 50% (recovered) 75% (post-consumer) + 20% (recovered) 50% (post-consumer) + 45% (recovered)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the landscaping product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the landscaping product(s), to provide the Commonwealth with documentary evidence that the landscaping product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

**EXHIBIT A-5
MISCELLANEOUS PRODUCTS
RECYCLED CONTENT**

(A) REQUIREMENT

All miscellaneous products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Miscellaneous Products	Recovered Material Content
Awards and Plaques -----Glass -----Wood -----Paper -----Plastic and Plastic/Wood Composites	75% (post-consumer) + 25% (recovered) 100% (total) 40% (post-consumer) 50% (post-consumer) + 45% (recovered)
Industrial Drums -----Steel ¹ -----Plastic (HDPE) -----Fiber (paper)	16% (post-consumer) + 9% (recovered) 30% (post-consumer) 100% (post-consumer)
Mats -----Rubber -----Plastic -----Rubber/Plastic Composite	75% (post-consumer) +10% (recovered) 10% (post-consumer) + 90% (recovered) 100% (post-consumer)
Pallets -----Wood -----Plastic -----Thermoformed -----Paperboard	95% (post-consumer) 100% (post-consumer) 25% (post-consumer) 50% (post-consumer)
Signage -----Plastic -----Aluminum -----Plastic Sign Posts/Supports -----Steel Sign Posts/Supports ²	80% (post-consumer) 25% (post-consumer) 80% (post-consumer) 16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered)
Sorbents -----Paper -----Textiles -----Plastics -----Wood ³ -----Other Organics/Multimaterials ⁴	90% (post-consumer) +10% (recovered) 95% (post-consumer) 25% (total) 100% (total) 100% (total)
Manual-Grade Strapping -----Polyester -----Polypropylene -----Steel ²	50% (post-consumer) 10% (total) 16% (post-consumer) +9% (recovered) 67% (post-consumer) +33% (recovered)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

¹Steel used in steel drums is manufactured using the Basic Oxygen Furnace (BOF) process, which contains 25-30% total recovered material, of which 16% is post-consumer steel. Steel used in manual-grade strapping is manufactured using either the BOF process or the Electric Arc Furnace (EAF) process, which contains 100% total recovered materials, of which 67% is post-consumer steel.

² The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured in either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

³ "Wood" includes materials such as sawdust and lumber mill trimmings.

⁴ Examples of other organics include, but are not limited to, peanut hulls and corn stover. An example of multimaterial sorbents would include, but not be limited to, a polymer and cellulose fiber combination.

² The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured in either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the miscellaneous product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the miscellaneous product(s), to provide the Commonwealth with documentary evidence that the miscellaneous product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-6
NONPAPER OFFICE PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All nonpaper office products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Nonpaper Office Product	Recovered Material Content
Recycling Containers and Waste Receptacles: -----Plastic -----Steel ¹ -----Paper -----Corrugated -----Solid Fiber Boxes -----Industrial Paperboard	20% (post-consumer) 16% (post-consumer) +9% (recovered) 25% (post-consumer) 40% (post-consumer) 40% (post-consumer) + 60% (recovered)
Plastic Desktop Accessories (polystyrene) including desk organizers, sorters, and trays, and memo, note, and pencil holders.	25% (post-consumer)
Binders: -----Plastic-Covered -----Paper-Covered -----Pressboard -----Solid Plastic -----HDPE -----PE -----PET -----Misc. Plastics	25% 75% (post-consumer) +15% (recovered) 20% (post-consumer) + 30% (recovered) 90% (post-consumer) 30% (post-consumer) 100% (post-consumer) 80% (post-consumer)
Trash Bags (plastic)	10% (post-consumer)
Toner Cartridges	Return used toner cartridges for remanufacturing and reuse or purchase a remanufactured or recycled-content replacement cartridge.
Printer Ribbons	Procure printer ribbon reinking or reloading services or procure reinked or reloaded printer ribbons.
Plastic Envelopes	25% (post-consumer)
Plastic Clipboards: -----HDPE -----PS -----Misc. Plastics	90% (post-consumer) 50% (post-consumer) 15% (post-consumer)
Plastic File Folders -----HDPE	90% (post-consumer)
Plastic Clip Portfolios -----HDPE	90% (post-consumer)
Plastic Presentation Folders -----HDPE	90% (post-consumer)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

¹ The recommended recovered materials content levels for steel in this table reflect the fact that the designated item is made from steel manufactured from in a Basic Oxygen Furnace (BOF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel.

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the nonpaper office products which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the paper, to provide the Commonwealth with documentary evidence that the nonpaper office product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-7
PARK & RECREATION PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All park and recreation products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Park & Recreation Product	Recovered Material Content ¹
Park Benches & Picnic Tables:	
-----Plastic ²	90% (post-consumer) + 10% (recovered)
-----Plastic Composites	50% (post-consumer) + 50% (recovered)
-----Aluminum	25% (post-consumer)
-----Concrete	15% (total)
-----Steel ³	16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered)
Plastic Fencing for Specified Uses⁴	60% (post-consumer) + 30% (recovered)
Playground Equipment	
-----Plastic ³	90% (post-consumer) + 10% (recovered)
-----Plastic Composites	50% (post-consumer) + 45% (recovered)
-----Steel ⁴	16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered)
-----Aluminum	25% (post-consumer)
Playground Surfaces:	
-----Plastic or Rubber	90% (post-consumer)
Running Tracks:	
-----Plastic or Rubber	90% (post-consumer)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the park and recreational product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the park and recreational product(s), to provide the Commonwealth with documentary evidence that the park and recreational product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

¹ The recommended recovered materials content levels are based on the dry weight of the raw materials, exclusive of any additives such as adhesives, binders, or coloring agents.

² "Plastic" includes both single and mixed plastic resins. Park benches and picnic tables made with recovered plastic may also contain other recovered materials such as sawdust, wood, or fiberglass. The percentage of these materials contained in the product would also count toward the recovered materials content level of the item.

³ The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured from either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (AF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

⁴ Designation includes fencing containing recovered plastic for use in controlling snow or sand drifting and as a warning/safety barrier in construction or other applications.

EXHIBIT A-8
TRANSPORTATION PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All transportation products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Transportation Products	Recovered Material Content ¹
Traffic Cones: ----Plastic (PVC and LDPE) ----Crumb Rubber	50% (recovered) 50% (recovered)
Traffic Barricades (type I and II only): ----Plastic (HDPE, LDPE, PET) ----Steel ² ----Fiberglass	80% (post-consumer) + 20% (recovered) 16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered) 100% (recovered)
Parking Stops: ----Plastic and/or Rubber ----Concrete Containing Coal Fly Ash ----Concrete Containing Ground Granulated Blast Furnace Slag	100% (recovered) 20% (recovered) 15% when used as a partial cement replacement as an admixture in concrete. 25% (recovered)
Traffic Control Devices: ----Channelizers: -----Plastic -----Rubber (base only) ----Delineators: -----Plastic -----Rubber (base only) -----Steel (base only) ² ----Flexible Delineators	25% (post-consumer) 100% (post-consumer) 25% (post-consumer) 100% (post-consumer) 16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered) 25% (post-consumer)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the transportation product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the transportation product(s), to provide the Commonwealth with documentary evidence that the transportation product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

¹ Content levels are based on the dry weight of the raw materials, exclusive of any additives such as adhesives, binders, or coloring agents.

² The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured from either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

MANUFACTURER/MILL CERTIFICATION

(To be submitted with invoice for each order)

TO BE COMPLETED BY MANUFACTURER/MILL:

NAME OF MANUFACTURER/MILL: _____

ADDRESS OF MANUFACTURER/MILL: _____

FEDERAL EMPLOYER I.D. NO.: _____

CONTRACT OR REQUISITION NO. _____

NAME OF CONTRACTOR: _____

ADDRESS OF CONTRACTOR: _____

Type of product(s) which the manufacturer/mill furnished to the contractor: _____

CERTIFICATION: I, the undersigned officer of the above-named manufacturer/mill, do hereby certify that I am authorized to provide this certification on behalf of the above-named manufacturer/mill and that the type of product(s) listed above which my company furnished to the contractor named above for the referenced contract or purchase requisition, contained not less than _____% post-consumer materials and _____% recovered materials as those terms are defined in the invitation for bids. I understand that this document is subject to the provisions of the Unsworn Falsification of Authorities Act (18 P.S. Section 4904).

Activity	Responsibility	Date
Deadline to submit Questions via email to kgera@state.pa.us	Potential Offerors	June 1, 2007
Pre-proposal Conference—Location: Conference Room 9 555 Walnut Street – 6 th Floor Harrisburg, PA 17101	Issuing Office/Potential Offerors	June 8, 2007
Answers to Potential Offeror questions posted to the DGS website (http://www.dgsweb.state.pa.us/comod/main.asp) no later than this date.	Issuing Office	June 15, 2007
Please monitor website for all communications regarding the RFP.	Potential Offerors	
Sealed proposal must be received by the Issuing Office at Department of General Services Attention: Bid Room 555 Walnut Street – 6 th Floor Harrisburg, PA 17101 by 1:30 p.m. EST. ALL SEALED PROPOSALS MUST BE SUBMITTED TO THE ATTENTION OF KAREN GERA AND REFERENCE CN00023105 ON THE OUTSIDE LABEL.	Offerors	June 29, 2007

PART I

GENERAL INFORMATION

I-1. Purpose. This request for proposal (RFP) provides to those Offerors interested in submitting proposals for the subject procurement to enable them to prepare and submit proposals for the **Department of General Services'** consideration on behalf of the Commonwealth of Pennsylvania ("Commonwealth") to satisfy a need for **BUILDING SUPPLIES**. The Offeror should have a strong presence for a vast array of building supplies necessary for use by all Commonwealth agencies.

I-2. Issuing Office. The "Issuing Office" has issued this RFP on behalf of the Commonwealth. The sole point of contact in the Commonwealth for this RFP shall be **Karen Gera, 555 Walnut Street, Harrisburg, PA 17101, kgera@state.pa.us**; the Issuing Officer for this RFP. Please refer all inquiries to the Issuing Officer.

I-3. Scope. This RFP contains instructions governing the requested proposals, including the requirements for the information and material to be included; a description of the material to be provided; requirements which Offerors must meet to be eligible for consideration; general evaluation criteria; and other requirements specific to this RFP.

I-4. Problem Statement. CWOPA intends to reduce its overall costs of Procuring and Managing Building Supplies by channeling the volume of CWOPA's demand to a single supplier; however, the Commonwealth reserves the right to award by lot if it is in the best interest of the Commonwealth. The Offeror(s) must be able to meet all of CWOPA's requirements. The Commonwealth estimates the total spend for all lots represented in this RFP to be approximately \$3-4 million annually.

I-5. Type of Contract. It is proposed that if the Issuing Office enters into a contract as a result of this RFP, it will be a **Firm, Fixed-Discount Price** contract **based on Offeror's retail published price list** and containing the Standard Contract Terms and Conditions for Department of General Services Statewide Contracts for Supplies as shown in **Appendix A** and available at **www.dgsweb.state.pa.us/comod.main.asp**. The Issuing Office, in its sole discretion, may undertake negotiations with Offerors whose proposals, in the judgment of the Issuing Office, show them to be qualified, responsible and capable of performing the responsibilities necessary to fulfill the needs of the contract.

I-6. Rejection of Proposals. The Issuing Office reserves the right, in its sole and complete discretion, to reject any proposal, ***partially or in its entirety***, received as a response to this RFP.

I-7. Incurring Costs. The Issuing Office is not liable for any costs the Offeror incurs in preparation and submission of its proposal, in participating in the RFP process or in anticipation of award of the contract.

I-8. Pre-proposal Conference. The Issuing Office will hold a preproposal conference as specified in the **Calendar of Events (page iii)**. The purpose of this conference is to provide opportunity for clarification of the RFP. Offerors should forward all questions to the Issuing Office in accordance with **Part I, Section I-9** to ensure adequate time for analysis before the Issuing Office provides an answer. Offerors may also ask questions at the conference. In view of the limited facilities available for the conference, Offerors should limit their representation to **one (1)** individual per Offeror. The preproposal conference is for information only. Any answers furnished during the conference will not be official until they have been verified, in writing, by the Issuing Office. All questions and written answers will be posted on the Department of General Services' (DGS) website as an addendum to, and shall become part of, this RFP. Attendance at the Preproposal Conference is **optional**.

I-9. Questions & Answers. If an Offeror has any questions regarding this RFP, the Offeror must submit the questions by email (**with the subject line "RFP CN00023105 Question"**) to the Issuing Officer named in **Part I, Section I-2** of the RFP. If the Offeror has questions, they must be submitted via email **no later than** the date indicated on the Calendar of Events. The Offeror shall not attempt to contact the Issuing Officer by any other means. The Issuing Officer shall post the answers to the questions on the DGS website by the date stated on the **Calendar of Events**.

All questions and responses as posted on the DGS website are considered as an addendum to, and part of, this RFP in accordance with RFP **Part I, Section I-10**. Each Offeror shall be responsible to monitor the DGS website for new or revised RFP information. The Issuing Office shall not be bound by any verbal information nor shall it be bound by any written information that is not either contained within the RFP or formally issued as an addendum by the Issuing Office. The Issuing Office does not consider questions to be a protest of the specifications or of the solicitation. The required protest process for Commonwealth procurements is described on the DGS website.

I-10. Addenda to the RFP. If the Issuing Office deems it necessary to revise any part of this RFP before the proposal response date, the Issuing Office will post an addendum to the DGS website at www.dgsweb.state.pa.us/comod/main.asp. It is the Offeror's responsibility to periodically check the website for any new information or addenda to the RFP. Answers to the questions asked during the Questions & Answers period also will be posted to the website as an addendum to the RFP.

I-11. Response Date. To be considered for selection, hard copies of proposals must arrive at the Issuing Office on or before the time and date specified in the RFP Calendar of Events. The Issuing Office will **not** accept proposals via email or facsimile transmission. Offerors who send proposals by mail or other delivery service should allow sufficient delivery time to ensure timely receipt of their proposals. If, due to inclement weather, natural disaster, or any other cause, the Commonwealth office location to which proposals are to be returned is closed on the proposal response date, the deadline for submission will be automatically extended until the next Commonwealth business day on which the office is open, unless the Issuing Office otherwise notifies Offerors. The hour for submission of proposals shall remain the same. The Issuing Office will reject and unopen, any late proposals.

I-12. Proposals. To be considered, Offerors should submit a complete response to this RFP, using the format provided in **Part II(a)(b)(c)**, providing **ten (10) paper** copies of the proposal to the Issuing Office. In addition to the paper copies of the proposal, Offerors shall submit one **complete and exact** copy of the technical proposal on CD-ROM in Microsoft Office or Microsoft Office-compatible format. The Offeror shall make no other distribution of its proposal to any other Offeror or Commonwealth official or Commonwealth consultant. Each proposal page should be numbered for ease of reference. An official authorized to bind the Offeror to its provisions must sign the proposal as specified. For this RFP, the proposal must remain valid for one hundred eighty (180) days or until a contract is fully executed. If the Issuing Office selects the Offeror's proposal for award, the contents of the selected Offeror's proposal will become, except to the extent the contents are changed through Best and Final Offers or negotiations, contractual obligations. The information in the proposal will become a public record upon contract execution, except as limited by Section 106 (b)(1) of the *Commonwealth Procurement Code*, 62 Pa. C.S. § 106 (b)(1).

Each Offeror submitting a proposal specifically waives any right to withdraw or modify it, except that the Offeror may withdraw its proposal by written notice received at the Issuing Office's address for proposal delivery prior to the exact hour and date specified for proposal receipt. An Offeror or its authorized representative may withdraw its proposal in person prior to the exact hour and date set for proposal receipt, provided the withdrawing person provides appropriate identification and signs a receipt for the proposal. An Offeror may modify its submitted proposal prior to the exact hour and date set for proposal receipt only by submitting a new sealed proposal or sealed modification, which complies with the RFP requirements.

I-13. Disadvantaged Business Information. The Issuing Office encourages participation by small disadvantaged businesses as prime suppliers, joint ventures and subsuppliers/suppliers and by socially disadvantaged businesses as prime suppliers.

Small Disadvantaged Businesses are small businesses that are owned or controlled by a majority of persons, not limited to members of minority groups, who have been deprived of the opportunity to develop and maintain a competitive position in the economy because of social disadvantages. The term includes:

- a. Department of General Services Bureau of Minority and Women Business Opportunities (BMWBO)-certified minority business enterprises (MBEs) and women business enterprises (WBEs) that qualify as small businesses; and
- b. United States Small Business Administration-certified small disadvantaged businesses or 8(a) small disadvantaged business concerns.

Small businesses are businesses in the United States that are independently owned, are not dominant in their field of operation, employ no more than 100 persons and earn less than \$20 million in gross annual revenues (\$25 million in gross annual revenues for those businesses in the information technology sales or service business).

Socially disadvantaged businesses are businesses in the United States that BMWBO determines are owned or controlled by a majority of persons, not limited to members of minority groups, who are subject to racial or ethnic prejudice or cultural bias, but which do not qualify as small businesses. In order for a business to qualify as “socially disadvantaged,” the offeror must include in its proposal clear and convincing evidence to establish that the business has personally suffered racial or ethnic prejudice or cultural bias stemming from the businessperson’s color, ethnic origin or gender.

Questions regarding this Program should be directed to:

Department of General Services
Bureau of Minority and Women Business Opportunities
Room 611, North Office Building
Harrisburg, PA 17125
Phone: (717) 787-6708
Fax: (717) 772-0021
Email: gs-bmwbo@state.pa.us

Program information and a database of BMWBO-certified minority- and women-owned businesses can be accessed at www.dgs.state.pa.us, DGS Keyword: BMWBO. The federal supplier(s) database can be accessed at <http://www.ccr.gov> by clicking on *Dynamic Small Business Search* (certified companies are so indicated).

I-14. Information Concerning Small Businesses in Enterprise Zones. Issuing Office encourages participation by small businesses, whose primary or headquarters facility is physically located in areas the Commonwealth has identified as *Designated Enterprise Zones*, as prime suppliers, joint ventures and sub-suppliers/suppliers.

The definition of headquarters includes, but is not limited to, an office or location that is the administrative center of a business or enterprise where most of the important functions of the business are conducted or concentrated and location where employees are conducting the business of the company on a regular and routine basis so as to contribute to the economic development of the geographical area in which the office or business is geographically located.

Small businesses are businesses in the United States that are independently owned, are not dominant in their field of operation, employ no more than 100 persons and earn less than \$20 million in gross annual revenues (\$25 million in gross annual revenues for those businesses in the information technology sales or service business).

There is no database or directory of small businesses located in Designated Enterprise Zones. Information on the location of *Designated Enterprise Zones* can be obtained by contacting:

Aldona M. Kartorie
Center for Community Building
PA Department of Community and Economic Development
4th Floor, Commonwealth Keystone Building
400 North Street
Harrisburg, PA 17120-0225
Phone: (717) 720-7409
Fax: (717) 787-4088
Email: akartorie@state.pa.us

I-15. Economy of Preparation. Offerors should prepare proposals simply and economically, providing a straightforward, concise description of the Offeror's ability to meet the requirements of the RFP.

I-16. Alternate Proposals. The Issuing Office has identified the basic approach to meeting its requirements, allowing Offerors to be creative and propose their best solution to meeting these requirements. The Issuing Office will not accept alternate proposals.

I-17. Discussions for Clarification. Offerors may be required to make an oral or written clarification of their proposals to the Issuing Office to ensure thorough mutual understanding and Offeror responsiveness to the solicitation requirements. The Issuing Office will initiate requests for clarification.

I-18. Prime Supplier Responsibilities. The contract will require the selected Offeror to assume responsibility for all services offered in its proposal whether it produces them itself or by subcontract. The Issuing Office will consider the selected Offeror to be the sole point of contact with regard to contractual matters.

I-19. Proposal Contents. Offerors should not label proposal submissions as confidential or proprietary. The Issuing Office will hold all proposals in confidence and will not reveal or discuss any proposal with competitors for the contract, unless disclosure is required:

- i) Under the provisions of any Commonwealth or United States statute or regulation; or
- ii) By rule or order of any court of competent jurisdiction.

After a contract is executed, however, the successful proposal is considered a public record under the *Right-to-Know Law*, 65 P.S. § 66.1—66.9, and therefore subject to disclosure. The financial capability information submitted under **Part II, Section II-7** shall not be disclosed in the final contract. All material submitted with the proposal becomes the property of the Commonwealth of Pennsylvania and may be returned only at the Issuing Office’s option. The Issuing Office, in its sole discretion, may include any person other than competing Offerors on its proposal evaluation committee. The Issuing Office has the right to use any or all ideas presented in any proposal regardless of whether the proposal becomes part of a contract.

I-20. Best and Final Offers. The Issuing Office reserves the right to conduct discussions with Offerors for obtaining “best and final offers.” To obtain best and final offers from Offerors, the Issuing Office may do one or more of the following:

- i) Enter into pre-selection negotiations, including the use of an online auction;
- ii) Schedule oral presentations; and
- iii) Request revised proposals.

The Issuing Office will limit any discussions to responsible Offerors (those that have submitted responsive proposals and possess the capability to fully perform the contract requirements in all respects and the integrity and reliability to assure good faith performance) whose proposals the Issuing Office has determined to be reasonably susceptible of being selected for award. The Criteria for Selection found in **Part III, Section III-5**, should also be used to evaluate the best and final offers. Price reductions offered through any reverse online auction shall have no effect upon the Offeror’s Technical Submittal. Dollar commitments to Disadvantaged Businesses and Enterprise Zone Small Businesses can be reduced only in the same percentage as the percent reduction in the total price offered through negotiations, including the online auction.

I-21. News Releases. Offerors shall not issue news releases, Internet postings, advertisements or any other public communications pertaining to this Project without prior written approval of the Issuing Office, and then only in coordination with the Issuing Office.

I-22. Restriction of Contact. From the issue date of this RFP until the Issuing Office selects a proposal for award, the Issuing Officer is the sole point of contact concerning this RFP. Any violation of this condition may be cause for the Issuing Office to reject the offending Offeror's proposal. If the Issuing Office later discovers that the Offeror has engaged in any violations of this condition, the Issuing Office may reject the offending Offeror's proposal or rescind its contract award. Offerors must agree not to distribute any part of their proposals beyond the Issuing Office. An Offeror who shares information contained in its proposal with other Commonwealth personnel and/or competing Offeror personnel may be disqualified.

I-23. Debriefing Conferences. Offerors whose proposals are not selected will be notified of the name of the selected Offeror and given the opportunity to be debriefed. The Issuing Office will schedule the time and location of the debriefing. The debriefing will not compare the Offeror with other Offerors, other than the position of the Offeror's proposal in relation to all other Offeror proposals. An Offeror's exercise of the opportunity to be debriefed does not constitute the filing of a protest.

I-24. Issuing Office Participation. Offerors shall provide all services, supplies, facilities, and other support necessary to complete the identified work.

I-25. Term of Contract. The term of the contract will commence on the Effective Date (as defined herein) and will have an initial term of two years. The Issuing Office will fix the Effective Date after the contract has been fully executed by the selected Offeror and by the Commonwealth and all approvals required by Commonwealth contracting procedures have been obtained. The selected Offeror shall not start the performance of any work prior to the Effective Date of the contract and the Commonwealth shall not be liable to pay the selected Offeror for any service or work performed or expenses incurred before the Effective Date of the contract.

I-26. Price Adjustment Clause. It is proposed that if the Issuing Office enters into a contract as a result of this RFP, it will be a fixed price contract for the first (12) months of the contract, except for Lot 1 and Lot 2. For the remaining one (1) year, as well as any subsequent yearly renewals, the pricing will be established through negotiations between the Commonwealth and the contractor. Any price change requests must be submitted to Department of General Services, in writing, 45 days prior to scheduled negotiations be considered. No price adjustment will be permitted prior to the effective date of the increase received by the Contractor from his suppliers, or on purchase orders that are already being processed, or on purchase orders that have been filled and are awaiting shipment. If the Contractor receives orders requiring quarterly delivery, the increase will apply to all deliveries made after the effective date of the price increase.

The price increase must be supported by a general price increase in the cost of the finished supplies, due to increases in the cost of raw materials, labor, freight, Workers' Compensation and/or Unemployment Insurance, etc. Detailed documentation, to include a comparison list of the contract items and proposed price increases, must be submitted to support the requested increase. Supportive documentation should include, but is not limited to: copies of the old and the current price lists or similar documents which indicate the original base cost of the product to the Contractor and the corresponding increase, and/or copies of correspondence sent by the Contractor's supplier on the supplier's letterhead, which contain the above price information and explains the source of the increase in such areas as raw materials, freight, fuel or labor, etc.

Should there be a decrease in the cost of the finished product due to a general decline in the market or some other factor, the Contractor is responsible to notify the Bureau of Procurement immediately. The price decrease adjustment will be incorporated into the contract and will be effective on all purchase orders issued after the effective date of the decrease. If the price decrease is a temporary decrease, such should be noted. In the event that the temporary decrease is revoked, the contract pricing will be returned to the pricing in effect prior to the temporary decrease. For quarterly deliveries, any decrease will be applied to deliveries made after the effective date of the decrease. Failure to comply with this provision will be considered as a default and will be subject to the provisions of **GSPRU-12E "Contract Terms and Conditions"**.

I-27. Multiple Awards. Multiple awards may be made as a result of this RFP, if it is in the best interest of the Commonwealth. Multiple Awards can ensure that any ensuing contracts will allow the Commonwealth to fulfill current and future requirements of all Commonwealth agencies. The actual utilization of any contract will be at the sole discretion of the Commonwealth.

I-28. Contract Renewals. There will be an option to renew for three (3) additional one (1) year renewals. In deciding whether to renew, CWOPA will review the Contractor's past performance under the Contract. If the contract is renewed, the Terms and Conditions shall remain the same.

I-29. Option to Extend. The Department of General Services reserves the right, upon notice to Contractor, to extend the Contract or any part of the Contract up to three (3) months upon the same terms and conditions. This will be utilized to prevent a lapse in contract coverage and only for the time necessary, up to three (3) months, to enter into a new contract.

I-30. Offeror's Representations and Authorizations. By submitting its proposal, each Offeror understands, represents, and acknowledges that:

- a. All of the Offeror's information and representations in the proposal are material and important, and the Issuing Office may rely upon the contents of the proposal in awarding the contract(s). The Commonwealth shall treat any misstatement, omission or misrepresentation as fraudulent concealment of the facts relating to the Proposal submission, punishable pursuant to 18 Pa. C.S. § 4904.

- b. The Offeror has arrived at the price(s) and amounts in its proposal independently and without consultation, communication, or agreement with any other Offeror or potential offeror.
- c. The Offeror has not disclosed the price(s), the amount of the proposal, nor the approximate price(s) or amount(s) of its proposal to any other firm or person who is an Offeror or potential offeror for this RFP, and the Offeror shall not disclose any of these items on or before the proposal submission deadline specified in the Calendar of Events of this RFP.
- d. The Offeror has not attempted, nor will it attempt, to induce any firm or person to refrain from submitting a proposal on this contract, or to submit a proposal higher than this proposal, or to submit any intentionally high or noncompetitive proposal or other form of complementary proposal.
- e. The Offeror makes its proposal in good faith and not pursuant to any agreement or discussion with, or inducement from, any firm or person to submit a complementary or other noncompetitive proposal.
- f. To the best knowledge of the person signing the proposal for the Offeror, the Offeror, its affiliates, subsidiaries, officers, directors, and employees are not currently under investigation by any governmental agency and have not in the last **four** years been convicted or found liable for any act prohibited by State or Federal law in any jurisdiction, involving conspiracy or collusion with respect to bidding or proposing on any public contract, except as the Offeror has disclosed in its proposal.
- g. To the best knowledge of the person signing the proposal for the Offeror and except as the Offeror has otherwise disclosed in its proposal, the Offeror has no outstanding, delinquent obligations to the Commonwealth including, but not limited to, any state tax liability not being contested on appeal or other obligation of the Offeror that is owed to the Commonwealth.
- h. The Offeror is not currently under suspension or debarment by the Commonwealth, any other state or the federal government, and if the Offeror cannot so certify, then it shall submit along with its proposal a written explanation of why it cannot make such certification.
- i. The Offeror has not made, under separate contract with the Issuing Office, any recommendations to the Issuing Office concerning the need for the services described in its proposal or the specifications for the services described in the proposal.

- j. Each Offeror, by submitting its proposal, authorizes Commonwealth agencies to release to the Commonwealth information concerning the Offeror's Pennsylvania taxes, unemployment compensation and workers' compensation liabilities.
- k. Until the selected Offeror receives a fully executed and approved written contract from the Issuing Office, there is no legal and valid contract, in law or in equity, and the Offeror shall not begin to perform.

I-31. Notification of Selection. The Issuing Office will notify the selected Offeror in writing of its selection for negotiation after the Issuing Office has determined, taking into consideration all of the evaluation factors, the proposal that is the most advantageous to the Issuing Office.

I-32. RFP Protest Procedure. The RFP Protest Procedure is on the DGS website at <http://www.dgs.state.pa.us> A protest by a party not submitting a proposal must be filed within **seven** days after the protesting party knew or should have known of the facts giving rise to the protest, but no later than the proposal submission deadline specified in the Calendar of Events of the RFP. Offerors may file a protest within **seven** days after the protesting Offeror knew or should have known of the facts giving rise to the protest, but in no event may an Offeror file a protest later than **seven** days after the date the notice of award of the contract is posted on the DGS website. The date of filing is the date of receipt of the protest. A protest must be filed in writing with the Issuing Office.

I-33. Use of Electronic Versions of this RFP. This RFP is being made available by electronic means. If an Offeror electronically accepts the RFP, the Offeror acknowledges and accepts full responsibility to insure that no changes are made to the RFP. In the event of a conflict between a version of the RFP in the Offeror's possession and the Issuing Office's version of the RFP, the Issuing Office's version shall govern.

I-34. Participating Addendum with an External Procurement Activity.

Section 1902 of the *Commonwealth Procurement Code*, 62 Pa.C.S. § 1902, permits external procurement activities to participate in cooperative purchasing agreements for the procurement of services, supplies or construction.

a. **Definitions.** The following words and phrases have the meanings set forth:

- 1) *External procurement activity:* The term, as defined in 62 Pa. C. S. § 1901, means a “buying organization not located in the Commonwealth [of Pennsylvania] which if located in this Commonwealth would qualify as a public procurement unit [under 62 Pa. C.S. §1901]. An agency of the United States is an external procurement activity.”

- 2) *Participating addendum*: A bilateral agreement executed by the Supplier and an external procurement activity that clarifies the operation of the Contract for the external procurement activity concerned. The terms and conditions in any participating addendum shall affect only the procurements of the purchasing entities under the jurisdiction of the external procurement activity signing the participating addendum.
 - 3) *Public procurement unit*: The term, as defined in 62 Pa. C. S. § 1901, means a “local public procurement unit or purchasing agency.”
 - 4) *Purchasing agency*: The term, as defined in 62 Pa. C. S. § 103, means a “Commonwealth agency authorized by this part or any other law to enter into contracts for itself or as the agent of another Commonwealth agency.”
- b. **General.** A participating addendum shall incorporate the terms and conditions of the Contract resulting from this RFP. The Supplier shall not be required to enter into any participating addendum.
- c. **Additional Terms.**
- 1) A participating addendum may include additional terms that are required by the law governing the external procurement activity.
 - 2) A participating addendum may include new, mutually agreed upon terms that clarify ordering procedures specific to a participating external procurement activity.
 - 3) The construction and effect of any participating addendum shall be governed by and construed in accordance with the laws governing the external procurement activity.
 - 4) If an additional term requested by the external procurement activity will result in an increased cost to the Supplier, the Supplier shall adjust its pricing up or down accordingly.
- d. **Usage Reports on External Procurement Activities.** The Supplier shall furnish to the Contracting Officer an electronic monthly usage report, preferably in spreadsheet format no later than the fifteenth calendar day of the succeeding calendar month. Reports shall be e-mailed to the Contracting Officer for the Contract. Each report shall indicate the name and address of the Supplier, contract number, period covered by the Report, the name of the external procurement activity that has used the Contract and the total volume of sales to the external procurement activity for the reporting period.

e. **Electronic Copy of Participating Addendum.** The Supplier, upon request of the Contracting Officer, shall submit **one** electronic copy of the participating addendum to the Contracting Officer within **ten** days after request.

I-35. Reciprocal Limitations Act 146

The Reciprocal Limitations Act 146 (**Appendix J**) requires the Department of General Services to give Pennsylvania resident offerors a preference against a non-resident offeror from any state that gives or requires a preference to offerors from that state. The amount of preference shall be equal to the amount of preference applied by the state of the non-resident offeror. More information on this Act, or how to claim preference, can be obtained at our internet site at www.dgs.state.pa.us, by faxing a request to (717) 214-0140, or by calling Central Vendor Management Unit (CVMU) at (717) 787-2868. The requirements of this Act can be found in Appendix I.

PART II

PROPOSAL REQUIREMENTS

Offerors must submit their proposals in the format, including heading descriptions, outlined below. To be considered responsive, the proposal must respond to all requirements in this part of the RFP. Offerors should provide any other information thought to be relevant, but not applicable to the enumerated categories, as an appendix to the Proposal. All cost data relating to this proposal and all Disadvantaged Business cost data should be kept separate from and not included in the Technical Submittal. Each proposal page should be numbered in succession, starting at 1 and going through the last page, for ease of reference. Proposals must be signed by an official authorized to bind the offeror to its provisions. For this RFP, the proposal must remain valid for at least (180) days from the date of submission. Moreover, the contents of the proposal of the selected contractor(s) will become contractual obligations if a contract is entered into.

Each and every offeror submitting a proposal specifically waives any right to withdraw or modify it, except as hereinafter provided. Proposals may be withdrawn by written or fax notice received at the Issuing Office's address for proposal delivery prior to the exact hour and date specified for proposal receipt. However, if the offeror chooses to attempt to provide such written notice by fax transmission, the CWOPA shall not be responsible or liable for errors in fax transmission. A proposal may also be withdrawn in person by an offeror or its authorized representative, provided its identity is made known and it signs a receipt for the proposal, but only if the withdrawal is made prior to the exact hour and date set for proposal receipt. A proposal may only be modified by the submission of a new sealed proposal or submission of a sealed modification that complies with the requirements of this RFP.

Each Proposal shall consist of the following **three** separately sealed submittals:

- a. Technical Submittal: Offerors are required to complete Appendix C, (Minimum Qualifications) to Respond to RFP and Appendix D, (Technical Questionnaire). This section details the specifications for the new Building Supplies contract and requires offerors to describe their technical approach and plan for accomplishing the work within **Part II, Proposal Requirements, Part III, Criteria for Selection and Part IV, Work Statement**. In this attachment, offerors must address all of the questions stated and provide an integral description of all services, resources, capabilities, etc., that will meet CWOPA's statewide Building Supplies needs. One submission will suffice for all lots that an offeror proposes upon, *so long as they indicate all lots they are proposing upon as instructed in Appendix C and Appendix D.* This submittal must be bound, SEALED, and identified separately as "Technical Submittal" from the Cost Submittal and Disadvantaged Business Participation Submittal of the proposal.

- b. Cost Submittal: The information requested in this section shall constitute the offeror's Cost Submittal and must be clearly identified as "Cost Submittal". This portion of the proposal must be bound and sealed separately from the remainder of the proposal. Pricing data must not be presented in any portion of the Technical Submittal. Pricing data is defined as any information related to, directly or indirectly, the offeror's proposed charges for services and deliverables. Pricing data consists of, but is not limited to, costs, fees, prices, rates, bonuses, discounts, rebates, or the identification of free services, labor or materials. Offerors are required to complete **Appendix F and Appendix G**. One (1) electronic copy (MS Excel) on CD in the format of Appendix G. One (1) paper original (marked "original") of the price submittal are required. This submittal must be bound, SEALED, and identified separately as "Cost Submittal" from the Technical Submittal and Disadvantaged Business Participation Submittal of your proposal. The electronic copy of the cost submittal must be on a separate CD than the technical submittal and must be sealed with the separately bound original paper cost submittal. One cost submittal package will suffice for all lots that an offeror proposes upon. **DGS requires bidders to bid on 100% of the items in any given lot to be considered "responsive" in bidding on that particular lot.** Bidders may select the lots for which they wish to be considered for award; however, incomplete bidding on any given lot may preclude the bidder from further consideration.
- c. Disadvantaged Business Submittal, (which shall be in response to RFP **Part II, Section II-9**); One (1) paper original of this submittal must be bound, SEALED and identified separately as "Disadvantaged Business Submittal" from the Technical Submittal and Cost Submittal of the proposal. Include in the Disadvantaged Business Information Submittal any and all information concerning the offeror's proposed utilization of small and socially disadvantaged businesses as required by **Section II-9(a)**, Disadvantaged Business Information or the RFP. Also, include in the Disadvantaged Business Information Submittal any and all information concerning the offeror's proposed utilization of small businesses located in Enterprise Zone Small Business Participation as required by **Section II-9(b)**. If an offeror is proposing upon multiple lots, a **separate** Disadvantaged Submittal must be completed for **each** lot (as specified in **Appendix C and Appendix D**) and sealed separately from the Disadvantaged Submittal for the other lots.

The Issuing Office reserves the right to request additional information, which, in the Issuing Office's opinion, is necessary to assure that the Offeror's competence, number of qualified employees, business organization, and financial resources are adequate to perform according to the RFP.

The Issuing Office may make investigations as deemed necessary to determine the ability of the Offeror to perform the Project, and the Offeror shall furnish to the Issuing Office all requested information and data. The Issuing Office reserves the right to reject any proposal if the evidence submitted by, or investigation of, such Offeror fails to satisfy the Issuing Office that such Offeror is properly qualified to carry out the obligations of the RFP and to complete the Project as specified.

II-1. Statement of the Problem. State in succinct terms your understanding of the problem presented or the service required by this RFP.

II-2. Management Summary. Include a narrative description of the proposed effort and a list of the items to be delivered or services to be provided.

II-3. Work Plan. Describe in narrative form your technical plan for accomplishing the work. Use the **Task** descriptions in **Part IV (a) through (j)** of this RFP as your reference point. Modifications of the task descriptions are permitted; however, reasons for changes should be fully explained. Indicate the number of person hours allocated to each task. Include a Program Evaluation and Review Technique (PERT) or similar type display, time related, showing each event. If more than one approach is apparent, comment on why you chose this approach.

II-4. Prior Experience. Include experience in **providing building services and materials to other government entities or other large commercial customers.** Experience shown should be work done by individuals who will be assigned to this project as well as that of your company. Studies or projects referred to must be identified and the name of the customer shown, including the name, address, and telephone number of the responsible official of the customer, company, or agency who may be contacted.

II-5. Key Personnel. Include the number of key executive and professional personnel, analysts, programmers, consultants, etc., who will be engaged in the work. Show where these personnel will be physically located during the time they are engaged in the Contract. Indicate the responsibilities each individual will have in this Contract and how long each has been with your company. Identify by name any sub-suppliers you intend to use and the services they will perform.

II-6. Training. If appropriate, indicate recommended training of agency personnel. Include the agency personnel to be trained, the number to be trained, duration of the program, place of training, curricula, training materials to be used, number and frequency of sessions, and number and level of instructors.

II-7. Financial Capability. Describe your company's financial stability and economic capability to perform the contract requirements. Financial documents such as audited financial statements or recent tax returns will be acceptable to the Commonwealth.

II-8. Objections and Additions to Standard Contract Terms and Conditions. The Offeror will identify which, if any, of the terms and conditions (contained in **Appendix A**), it would like to renegotiate and what additional terms and conditions the Offeror would like to add to the standard contract terms and conditions. The Offeror's failure to make a submission under this paragraph will result in its waiving its right to do so later, but the Issuing Office may consider late objections and requests for additions if to do so, in the Issuing Office's sole discretion, would be in the best interest of the Commonwealth. The Issuing Office may, in its sole discretion, accept or reject any requested changes to the standard contract terms and conditions. The Offeror shall not request changes to the other provisions of the RFP, nor shall the Offeror request to completely substitute its own terms and conditions for **Appendix A**. All terms and conditions must appear in one integrated contract. The Issuing Office will not accept references to the Offeror's, or any other, online guides or online terms and conditions contained in any proposal.

Regardless of any objections set out in its proposal, the Offeror must submit its proposal, including the cost proposal, based on the terms and conditions set out in **Appendix A**. The Issuing Office will reject any proposal that is conditioned on the negotiation of terms and conditions other than those set out in **Appendix A**.

II-9. Disadvantaged Business Submittal.

a. **Disadvantaged Business Information.**

- i) To receive credit for being a Small Disadvantaged Business or a Socially Disadvantaged Business or for entering into a joint venture agreement with a Small Disadvantaged Business or for subcontracting with a Small Disadvantaged Business (including purchasing supplies and/or services through a purchase agreement), an Offeror must include proof of Disadvantaged Business qualification in the Disadvantaged Business Submittal of the proposal, as indicated below:
 - 1) A Small Disadvantaged Businesses certified by BMWBO as an MBE/WBE must provide a photocopy of their BMWBO certificate.

- 2) Small Disadvantaged Businesses certified by the U.S. Small Business Administration pursuant to Section 8(a) of the *Small Business Act* (15 U.S.C. § 636(a)) as an 8(a) or small disadvantaged business must submit proof of U.S. Small Business Administration certification. The owners of such businesses must also submit proof of United States citizenship.
 - 3) All businesses claiming Small Disadvantaged Business status, whether as a result of BMWBO certification or U.S. Small Business Administration certification as and 8(a) or small disadvantaged business, must attest to the fact that the business has 100 or fewer employees.
 - 4) All businesses claiming Small Disadvantaged Business status, whether as a result of BMWBO certification or U.S. Small Business Administration certification as and 8(a) or small disadvantaged business, must submit proof that their gross annual revenues are less than \$20,000,000 (\$25,000,000 for those businesses in the information technology sales or service business). This can be accomplished by including a recent tax return or audited financial statement.
- ii) All businesses claiming status as a Socially Disadvantaged Business must include in the Disadvantaged Business Submittal of the proposal clear and convincing evidence to establish that the business has personally suffered racial or ethnic prejudice or cultural bias stemming from the businessperson's color, ethnic origin or gender. The submitted evidence of prejudice or bias must:
- 1) Be rooted in treatment that the businessperson has experienced in American society, not in other countries.
 - 2) Show prejudice or bias that is chronic and substantial, not fleeting or insignificant.
 - 3) Indicate that the businessperson's experience with the racial or ethnic prejudice or cultural bias has negatively impacted his or her entry into and/or advancement in the business world.

BMWBO shall determine whether the Offeror has established that a business is socially disadvantaged by clear and convincing evidence.

- iii) In addition to the above verifications, the Offeror must include in the Disadvantaged Business Submittal of the proposal the following information:
- 1) The name and telephone number of the Offeror's project (contact) person for the Small Disadvantaged Business.
 - 2) The business name, address, name and telephone number of the primary contact person for each Small Disadvantaged Business included in the proposal. The Offeror must specify each Small Disadvantaged Business to which it is making commitments. The Offeror will not receive credit for stating that it will find a Small Disadvantaged Business after the contract is awarded or for listing several businesses and stating that one will be selected later.
 - 3) The specific work, goods or services each Small Disadvantaged Business will perform or provide.
 - 4) The estimated dollar value of the contract to each Small Disadvantaged Business.
 - 5) Of the estimated dollar value of the contract to each Small Disadvantaged Business, the percent of the total value of services or products purchased or subcontracted that will be provided by the Small Disadvantaged Business directly.
 - 6) The location where each Small Disadvantaged Business will perform these services.
 - 7) The timeframe for each Small Disadvantaged Business to provide or deliver the goods or services.
 - 8) The amount of capital, if any, each Small Disadvantaged Business will be expected to provide.
 - 9) The form and amount of compensation each Small Disadvantaged Business will receive.
 - 10) For a joint venture agreement, a copy of the agreement, signed by all parties.
 - 11) For a subcontract, a signed subcontract or letter of intent.
- iv) The Offeror is required to submit only **one** copy of its Disadvantaged Business Submittal. The submittal shall be clearly identified as

Disadvantaged Business information and sealed in its own envelope, separate from the remainder of the proposal.

- v) The Offeror must include the dollar value of the commitment to each Small Disadvantaged Business in the same sealed envelope with its Disadvantaged Business Submittal. The following will become a contractual obligation once the contract is fully executed:
 - 1) The amount of the selected Offeror's Disadvantaged Business commitment;
 - 2) The name of each Small Disadvantaged Business; and
 - 3) The services each Small Disadvantaged Business will provide, including the timeframe for performing the services.
- vi) A Small Disadvantaged Business can be included as a sub-supplier with as many prime suppliers as it chooses in separate proposals.
- vii) An Offeror that qualifies as a Small Disadvantaged Business and submits a proposal as a prime supplier is not prohibited from being included as a sub-supplier in separate proposals submitted by other Offeror.

b. Enterprise Zone Small Business Participation.

- i) To receive credit for being an enterprise zone small business or entering into a joint venture agreement with an enterprise zone small business or subcontracting with an enterprise zone small business, an Offeror must include the following information in the Disadvantaged Business Submittal of the proposal:
 - 1) Proof of the location of the business' headquarters (such as a lease or deed or Department of State corporate registration), including a description of those activities that occur at the site to support the other businesses in the enterprise zone.
 - 2) Confirmation of the enterprise zone in which it is located (obtained from the local enterprise zone office).
 - 3) Proof of United States citizenship of the owners of the business.
 - 4) Certification that the business employs 100 or fewer employees.
 - 5) Proof that the business' gross annual revenues are less than \$20,000,000 (\$25,000,000 for those businesses in the information

technology sales or service business). This can be accomplished by including a recent tax return or audited financial statement.

- 6) Documentation of business organization, if applicable, such as articles of incorporation, partnership agreement or other documents of organization.

ii) In addition to the above verifications, the Offeror must include in the Disadvantaged Business Submittal of the proposal the following information:

- 1) The name and telephone number of the Offeror's project (contact) person for the Enterprise Zone Small Business.
- 2) The business name, address, name and telephone number of the primary contact person for each Enterprise Zone Small Business included in the proposal. The Offeror must specify each Enterprise Zone Small Business to which it is making commitments. The Offeror will not receive credit for stating that it will find an Enterprise Zone Small Business after the contract is awarded or for listing several businesses and stating that one will be selected later.
- 3) The specific work, goods or services each Enterprise Zone Small Business will perform or provide.
- 4) The estimated dollar value of the contract to each Enterprise Zone Small Business.
- 5) Of the estimated dollar value of the contract to each Enterprise Zone Small Business, the percent of the total value of services or products purchased or subcontracted that each Enterprise Zone Small Business will provide.
- 6) The location where each Enterprise Zone Small Business will perform these services.
- 7) The timeframe for each Enterprise Zone Small Business to provide or deliver the goods or services.
- 8) The form and amount of compensation each Enterprise Zone Small Business will receive.
- 9) For a joint venture agreement, a copy of the agreement, signed by all parties.
- 10) For a subcontract, a signed subcontract or letter of intent.

- iii) The dollar value of the commitment to each Enterprise Zone Small Business must be included in the same sealed envelope with the Disadvantaged Business Submittal of the proposal. The following will become a contractual obligation once the contract is fully executed:
 - 1) The amount of the selected Offeror's Enterprise Zone Small Business commitment;
 - 2) The name of each Enterprise Zone Small Business; and
 - 3) The services each Enterprise Zone Small Business will provide, including the timeframe for performing the services.

II-10. Cost Submittal. The information requested in **Appendix F and Appendix G** of this RFP shall constitute the Cost Submittal. The Cost Submittal must be placed in a separate sealed envelope within the sealed proposal, separated from the technical submittal (see paragraph "b" on pages 15-16). Offerors should **not** include any assumptions in their cost submittals. If the Offeror includes assumptions in its cost submittal, the Issuing Office may reject the proposal. Offerors should direct in writing to the Issuing Office pursuant to **Part I, Section I-9**, of this RFP any questions about whether a cost or other component is included or applies. All Offerors will then have the benefit of the Issuing Office's written answer so that all proposals are submitted on the same basis.

PART III

CRITERIA FOR SELECTION

III-1. Mandatory Responsiveness Requirements. To be eligible for selection, a proposal must be:

- a. Timely received from an Offeror;
- b. Properly signed by the Offeror.

Only those offerors that meet the mandatory requirements, as stated in Part II-1 through II-10 will qualify for evaluation and further consideration.

III-2. Technical Nonconforming Proposals. The Issuing Office reserves the right, in its sole discretion, to waive technical or immaterial nonconformities in an Offeror's proposal.

III-3. Evaluation. The Issuing Office has selected a committee of qualified personnel to review and evaluate timely submitted proposals. Independent of the committee, BMWBO will evaluate the Disadvantaged Business Submittal and provide the Issuing Office with a rating for this component of each proposal. The Issuing Office will notify in writing of its selection for negotiation the responsible Offeror whose proposal is determined to be the most advantageous to the Commonwealth as determined by the Issuing Office after taking into consideration all of the evaluation factors. The Issuing Office will award a contract only to an Offeror determined to be responsible in accordance with the most current version of Commonwealth Management Directive 215.9, *Supplier Responsibility Program*.

III-4. Criteria for Selection. The following criteria will be used, in order of relative importance from the highest to the lowest weighted factors, in evaluating each proposal:

- a. **Technical:** Evaluation will be based upon the following in order of importance:
 1. **Understanding the Problem/Soundness of Approach:** This refers to the Offeror's understanding of the Commonwealth's needs that necessitated the RFP, realizing the Commonwealth's objectives in seeking the services/materials, perceiving the nature and scope of the work involved, and being able to produce a viable solution.

2. Soundness of Approach: Emphasis here is on the techniques for collecting and analyzing data, the sequence and relationships of major steps, and the method for managing the Commonwealth building supplies and the infrastructure available to implement.

- Delivery
- Minimum Orders
- Product Specification
- Order Fill Rate
- Warranty
- Return Policy
- Invoicing
- Payments
- Reports
- Company Capabilities

Of equal importance is whether the approach is completely responsive to all written specifications, requirements contained in the RFP, and if it appears to meet the objectives.

3. Offeror Qualifications: This refers to the capability of the Offeror to deliver a solution to the Commonwealth’s problems as stated in the RFP. Consideration may be given to the experience of the Offeror, especially in the nature, relevancy, scope, time critical linkages, quality, of the Offeror. This also includes the Offerors financial ability to undertake a contract of this size

b. **Cost:** Pricing for the attached lots shall be based on one price column in Appendix G (Product Price Analysis) and all bidders will offer their price based on **FOB destination**. Bidders should also fill in pricing for **100% of the line items** given in any particular lot to be considered “responsive” for that particular lot. Failure to bid 100% of the line items may deem the bidder “nonresponsive” and thus preclude the bidder from further consideration for an award.

c. **Disadvantaged Business Participation:** Evaluation will be based upon the following in order of priority:

Priority Rank 1 Proposals submitted by Small Disadvantaged Businesses.

Priority Rank 2 Proposals submitted from a joint venture with a Small Disadvantaged Business as a joint venture partner.

Priority Rank 3

Proposals submitted with subcontracting commitments to Small Disadvantaged Businesses.

Priority Rank 4

Proposals submitted by Socially Disadvantaged Businesses.

Each proposal will be rated for its approach to enhancing the utilization of Small Disadvantaged Businesses and/or Socially Disadvantaged Businesses. Each approach will be evaluated, with Priority Rank 1 receiving the highest score and the succeeding options receiving scores in accordance with the above-listed priority ranking.

To the extent that an Offeror qualifies as a Small Disadvantaged Business or a Socially Disadvantaged Business, the Small Disadvantaged Business or Socially Disadvantaged Business cannot enter into subcontract arrangements for more than **40%** of the total estimated dollar amount of the contract. If a Small Disadvantaged Business or a Socially Disadvantaged Business subcontracts more than **40%** of the total estimated dollar amount of the contract to other suppliers, the Disadvantaged Business Participation scoring shall be proportionally lower for that proposal.

- d. **Enterprise Zone Small Business Participation:** The following options will be considered as part of the final criteria for selection:

Priority Rank 1

Proposals submitted by an Enterprise Zone Small Business will receive the highest score.

Priority Rank 2

Proposals submitted by a joint venture with an Enterprise Zone Small Business as a joint venture partner will receive the next highest score for this criterion.

Priority Rank 3

Proposals submitted with a subcontracting commitment to an Enterprise Zone Small Business will receive the lowest score for this criterion.

Priority Rank 4

Proposals with no Enterprise Zone Small Business Utilization shall receive no points under this criterion.

To the extent that an Offeror is an Enterprise Zone Small Business, the Offeror cannot enter into contract or subcontract arrangements for more than **40%** of the total estimated dollar amount of the contract in order to qualify as an Enterprise Zone Small Business for purposes of this RFP.

III-5. Best and Final Offers. CWOPA may elect to request the submission of Best and Final Offers in accordance with Section I-20. In that event, only those offerors reasonably susceptible of being selected for award will be invited to participate in the Best and Final Offers step of the procurement. If a bidder submits alternate proposals as permitted by Section I-16, only the higher-scored proposal (prime proposal or alternate proposal) will be selected as a finalist.

PART IV

WORK STATEMENT

The Commonwealth seeks to award this contract to a single supplier; however, the Commonwealth reserves the right to award by lot if it is the best interest of the Commonwealth.

This RFP is to establish a Contract for the following 11 lots. The category descriptive examples below are not to be considered restrictive, but rather a general description and not to be limited by the text contained within this RFP.

IV-1. Objectives.

- a. **General.** The Commonwealth intends to reduce its overall costs for Building Supplies by channeling volume within specified lots to a single supplier offering the proposal determined to be the most advantageous to CWOPA (11 Lots) described in Appendix E – Description of Lots.
- b. Provide comprehensive competitive Contract offering materials to all Commonwealth agencies.
- c. Achieve cost savings for supplier and Commonwealth agencies. Reduce overhead cost of supplier and Commonwealth agencies through state-of-the-art ordering and delivery systems.
- d. **Specific.** The successful supplier(s) will be required to provide Building Supplies for all executive agencies and must be willing to provide these supplies for independent agencies and state affiliated entities. In order to accomplish this, the Commonwealth has established ten lots:

LOT	DESCRIPTION
One	Lumber Products
Two	Specialty Lumber Products
Three	Paint (Interior & Exterior & other coatings)
Four	Drywall & Spackling Products
Five	Doors, Windows & Weather-stripping
Six	Roofing Materials
Seven	Siding
Eight	Insulation
Nine	Gutters & Downspouts
Ten	Brick, Block, Pavers & Crushed Stone
Eleven	Fencing & Gates

IV-2. Nature and Scope of the Project. The selected supplier(s) will be required to assume responsibility for providing all Building Supply items by the established delivery times, as specified in its proposal to all Commonwealth agencies.

IV-3. Requirements.

a. Minimum Qualifications:

The minimum qualifications are listed in “Minimum Qualifications to Respond to RFP” – Appendix C, Questions 1 through 11 and must be addressed by indicating acceptance of each. If there are any conflicts between the answers to the questions and any answers in any other section of your proposal, the answers in Appendix C – “Minimum Qualifications to Respond to RFP” will take precedence in any contract that may be entered into as a result of this RFP.

Non-acceptance of or with any minimum qualifications, or modification of, or the placing of conditions on acceptance or compliance with any of the minimum qualifications, in whole or in part, will result in immediate disqualification, unless CWOPA determines, in its sole discretion, that a Non-compliance is a waivable technicality and not a material defect.

All the questions listed in Appendix C – “Minimum Qualifications to Respond to RFP”, (**must be answered**). In the event of a “No” answer to any question, please accept our appreciation for your interest, and understand that, since CWOPA requires a minimum level of qualification, your proposal may not be deemed responsive.

b. Technical Requirements:

This section details the specifications for the new Building Supplies contract and requires offerors to describe their technical approach and plan for accomplishing the work within Appendix D – “Technical Questionnaire”. In this attachment, offerors must address all of the questions stated and provide an integral description of all of the services, resources, capabilities, etc., that will meet CWOPA’s Building Supplies needs.

c. Company Capabilities:

It is strongly recommended that offerors have prior experience with similar size customers. CWOPA requires proof of the offeror’s ability to service a contract of this size. Customers referred to should be identified and the name of the customer shown, including the name, address, and telephone number of the responsible official of the customer, company, or agency who may be contacted.

Offerors must describe their current infrastructure in the Commonwealth of Pennsylvania and any enhancements that would be necessary to service the entire Commonwealth for this contract, including the startup time necessary if awarded the contract.

d. Customer Service Representative Team:

The supplier must provide CWOPA with a customer service team that will be dedicated to the CWOPA account and be available at a minimum of Monday through Friday from 8AM to 5PM. The supplier must provide a toll-free telephone, a toll-free facsimile number, and an email address to contact the customer service team to place orders. This team will take orders from any CWOPA agency representative for the purchase of Building Supplies. The team's prime responsibilities consist of managing their network's distribution and warehousing centers that carries the requested part and arranging prompt delivery to CWOPA's locations. This team will play an important role in achieving the delivery required by various agencies.

The team must be knowledgeable, qualified, and experienced in the industry of the lot(s) they are proposing upon so that they can assist CWOPA maintenance and procurement personnel in providing advice on the type of parts that best suits their needs.

e. Account Manager:

In addition to the Customer Service Representative Team, the supplier must designate a dedicated account manager will serve as a main point of contact for insuring the successful and seamless implementation of this contract. The account manager will be, at minimum, available to CWOPA from Monday to Friday. The account manager will play an important role in overseeing the supplier's Customer Service Representative Team. He/she will be responsible but not limited to ensuring high quality of service, interfacing as an issue escalation catalyst, resolving problems, and proactively addressing cost savings and optimization opportunities across CWOPA agencies. The account manager is responsible to provide the Department of General Services, Karen Gera, Commodity Specialist with quarterly reports (Appendix H) identify and analyze issues and/or opportunities that may arise over the course of this contract. The Account Manager will be especially accountable for ensuring that the parts ordered are delivered FOB destination within (5) business days as set in Section IV-4(a) and resolve any issues revolving around delivery, stocking levels, product quality, and other delicate issues that directly effect customer satisfaction levels.

The Account Manager must actively participate in regularly scheduled business review meetings with CWOPA to evaluate past performance and address recurring issues. CWOPA will use a satisfaction survey to assess quality of service and performance. If any service deficiencies are identified about the contract, the supplier and CWOPA representatives will determine a plan of action to ensure that the level of service improves. If after three consecutive meetings, there is minimal or no improvement in the identified areas, CWOPA may decide to terminate the contract. The meetings should take place quarterly during the contract's life.

IV-4. Tasks.

a. Delivery and Minimum Orders

As a requirement of this RFP and not allowable as an exception to the RFP, Offeror shall offer delivery and/or shipping costs **prepaid FOB Destination** to the requesting CWOPA agency for all items ordered within five (5) business days after the order is placed. **Exceptions may be made for custom orders, special items, or large orders, when applicable.** Shipping and handling fees are allowable to areas outside a 50-mile radius from closest retail store location. CWOPA has final approval for any proposed delivery times that are different from those specified in this RFP.

Offeror shall retain title and control of all goods until received by the requesting customer and the contract coverage completed. The Offeror shall file any claims for visible or concealed damage. The customer will notify the Offeror of any damaged goods and shall assist the Offeror in arranging for inspection of the goods.

The Offeror, **within twenty-four (24) hours after receiving a purchase order** (Monday – Friday), for Building Supplies, must notify the customer of any potential delivery delays. The Offeror needs to have the ability to provide emergency deliveries of building supplies within (24) hours of order received. Excessive occurrences of inability to deliver or intentional delays may be cause for contract cancellation and supplier suspension.

In the event of an emergency, CWOPA reserves the right to pick up orders at the closest contractor retail center. CWOPA will determine what orders are emergency orders.

Minimum order value against this contract for any CWOPA using agency is \$300.00 for FOB destination pricing. For orders falling under the \$300.00 minimum, CWOPA reserves the right to pick up orders at the closest supplier retail location to ensure continuity of operations. The Offeror is required to submit to CWOPA a list of all retail establishments located throughout the Commonwealth of Pennsylvania. Also, Offerors have the ability to waive the minimum order requirement on a case-by-case basis as part of its customer service responsibility. CWOPA also reserves the right to obtain waiver purchases from non-contract suppliers when it is advantageous to do so.

b. Product Specifications

The supplier shall provide Building Supplies to all eligible users of this contract throughout CWOPA. All Building Supplies offered under this Contract shall be new, unused, and in current production.

c. Warranty

Supplier warrants that all products furnished under the Contract shall be free of defective material and workmanship, and shall otherwise perform in accordance with required performance criteria. Supplier is required to uphold a thirty (30) day warranty or manufacturer warranty (whichever is greater) on all products purchased.

d. Orders

The supplier must have the ability to accept orders manually, electronically, over the phone (via a 1-800 number), and fax (also via a 1-800 number) through a single point of contact.

The supplier must notify the ordering agency within twenty-four (24) hours if an item is out of stock, along with the length of the wait time for availability. The ordering agency will then make the determination if it can wait for the proposed delivery. If not, the agency may purchase the item from another source (outside contract).

The ordering agency is responsible for providing the following data to the supplier:

Exact Supplier/Manufacturer's part number(s) along with correct nomenclature of item(s) required or detailed explanation of the repair/problem

e. Returns

Any items delivered in poor condition, in excess of the amount ordered (by greater than 10%) or not included in the purchase order may, at the discretion of the CWOPA ordering entity, be returned to the supplier at the supplier's expense within 30 days. Credit for returned goods shall be made immediately after the supplier receives the returned items. There shall be no restocking fees assessed to CWOPA or eligible contract users.

In the event that CWOPA orders the wrong item, the item will be returned to the supplier (either to the distribution center or the closest retail center) at the expense of CWOPA. Credit for returned goods shall be made immediately after the supplier receives the returned item(s). There shall be no restocking fees assessed to CWOPA or eligible contract users.

f. Invoicing

The supplier must provide CWOPA with invoicing that at a minimum contains the following information:

- Purchasing entity
- Product manufacturer
- Manufacturer part number
- Supplier part number
- SAP material number, if applicable
- Purchase order number

- Line item description
- Quantity
- Catalog list price
- CWOPA % discount
- CWOPA extended price
- Method of purchase (p-card or Purchase order)

Invoices must come from and payments must go to a single point of contact. There must be one invoice per purchase order. The invoice must follow the same line item format as the purchase order and include all the information that is listed on the purchase order. Supplier to submit all invoicing in black and white format NOT colored paper.

g. Payments

The supplier, at a minimum, must have the ability to accept payment via check and p-card. The supplier will be the single point of invoice and payment remittance.

h. Reports

The supplier must provide electronic usage reports in Microsoft Access or Excel (as determined by the contract administrator) to the DGS – Bureau of Procurement contract administrator quarterly or upon request (Appendix H – Section 3 – “Supplier Quarterly Report”). The reports must include, at a minimum, a summary report with the net (gross sales minus returns) sales for the period, subtotaled by the purchasing entity name, current price, and current discounts applied, and a detailed report containing the line item details of each purchase order by agency and department. Each line item should include the purchasing entity, delivery address, item category, product manufacturer, manufacturer part number, supplier part number, SAP Material number if applicable, item description, quantity, catalog list price, CWOPA % discount, CWOPA extended price, order date, and method of purchase (p-card or PO).

i. Electronic Interface

It is highly recommended that supplier(s) provide a secure web-site catalog tool with CWOPA specific pricing. Assuming the supplier has this capability; to interface with CWOPA's SAP EBP system as described in Attachment K - SAP Interface Specifications. In addition, supplier(s) must be able to process and track purchasing card transaction made via phone or in-person at supplier(s) stocking locations.

j. Catalogs

Suppliers are required to provide a copy of their most current electronic or printed supplier's published catalog with current price lists and distribute them to CWOPA and any other eligible users who so request a catalog at no additional charge. Inserts may be required to notify users of product additions or deletions.

IV-5. Contract Requirements—Disadvantaged Business Participation and Enterprise Zone Small Business Participation.

All contracts containing Disadvantaged Business participation and/or Enterprise Zone Small Business participation must also include a provision requiring the selected supplier to meet and maintain those commitments made to Disadvantaged Businesses and/or Enterprise Zone Small Businesses at the time of proposal submittal or contract negotiation, unless a change in the commitment is approved by the BMWBO. All contracts containing Disadvantaged Business participation and/or Enterprise Zone Small Business participation must include a provision requiring Small Disadvantaged Business sub-suppliers, Enterprise Zone Small Business sub-suppliers and Small Disadvantaged Businesses or Enterprise Zone Small Businesses in a joint venture to perform at least **50%** of the subcontract or Small Disadvantaged Business/Enterprise Zone Small Business participation portion of the joint venture.

The selected supplier's commitments to Disadvantaged Businesses and/or Enterprise Zone Small Businesses made at the time of proposal submittal or contract negotiation shall be maintained throughout the term of the contract. Any proposed change must be submitted to BMWBO, which will make a recommendation to the Contracting Officer regarding a course of action.

If a contract is assigned to another supplier, the new supplier must maintain the Disadvantaged Business participation and/or Enterprise Zone Small Business participation of the original contract.

The selected supplier shall complete the Prime Supplier's Quarterly Utilization Report (or similar type document containing the same information) and submit it to the contracting officer of the Issuing Office and BMWBO within **10** workdays at the end of each quarter the contract is in force. This information will be used to determine the actual dollar amount paid to Small Disadvantaged Business and/or Enterprise Zone Small Business sub-suppliers and suppliers, and Small Disadvantaged Business and/or Enterprise Zone Small Business participants involved in joint ventures. In addition, this information will serve as a record of fulfillment of the commitment the selected supplier made and for which it received Disadvantaged Business and Enterprise Zone Small Business points. If there was no activity during the quarter then the form must be completed by stating "No activity in this quarter."

NOTE: EQUAL EMPLOYMENT OPPORTUNITY AND CONTRACT COMPLIANCE STATEMENTS REFERRING TO COMPANY EQUAL EMPLOYMENT OPPORTUNITY POLICIES OR PAST CONTRACT COMPLIANCE PRACTICES DO NOT CONSTITUTE PROOF OF DISADVANTAGED BUSINESSES STATUS OR ENTITLE AN OFFEROR TO RECEIVE CREDIT FOR DISADVANTAGED BUSINESSES UTILIZATION.

Harrisburg, PA 17101

Ms Gera,

#1. Given that CWOPA requires proof of Your company's ability to service a contract of this size, CWOPA asks that you describe your company's business in full (Scope, years in business, etc.) including references of similar sized accounts. Please include contact information for any references that are provided. As specified in part IV, Work Statement, IV-3 Requirements Company Capabilities.

The Sherwin Williams Company, including DURON Paints and Wallcoverings, a business unit of The Sherwin Williams Company and MAB Paints, a business unit of The Sherwin Williams Company, is a world leader in the manufacture, distribution and sale of coatings and related products to professional, industrial, commercial and retail customers. As a corporation, Sherwin Williams achieved consolidated net sales in 2006 of \$7.8 Billion in 2006. The most recent Quarterly Report (First Quarter 2007) we filed with the Securities and Exchange Commission is included in this proposal to demonstrate that The Sherwin Williams Company has the financial strength to fulfill the requirements of this contract.

The Sherwin Williams Company currently operates over 3000 retail and commercial outlets including 196 in the Commonwealth of Pennsylvania (119 Sherwin-Williams, 31 DURON Paints and Wallcoverings and 46 MAB Paints) distributed throughout the Commonwealth as indicated in the spreadsheet-answering Question #5, Appendix D. This gives The Sherwin Williams Company and its business units a statewide presence second to none. In fact, the MAB Paints business unit of The Sherwin Williams Company was founded in Philadelphia in 1899 as an independent company and is a fixture in the Pennsylvania coatings industry.

Within these fully stocked stores, we employed highly trained sales and service representatives who are available to make product recommendations, give material estimates and handle questions that may arise. Every employee in these stores is required to pass a series of tests on basic paint knowledge, Industrial and Marine paint knowledge, Architectural paint knowledge and paint problem solving (START PROGRAM.) Additionally, Store Managers, Assistant Store Managers and Store Associated Representatives are required to attend two, one-week product training classes at Sherwin Williams University in Atlanta, Georgia or West Chester, PA. The retention rate of these employees is well over 90%, so the Commonwealth of Pennsylvania can be assured it will be dealing with the same personnel over an extended period of time. The Store Managers, Assistant Store Managers, Service Specialists and Store Assigned Sales Representatives within these stores answer through a corporate structure to the

Divisional Vice Presidents, Gary Campbell, Philadelphia area, and Rob Shuster, remaining areas of the Commonwealth, who are members of the Customer Service Representative team as designated in Section IV-3/d.

The field and Pennsylvania specific staff are just the first of many resources available to you. First among these is a fully staffed Research and Development Laboratory, which uses cutting edge technology to improve the products we offer you. Secondly there is our Technical Services Department, with full-time representatives to answer any technical or performance questions you may have. Judy Harrer, identified in Section IV-3d as part of the Commonwealth of Pennsylvania service team, is a member of this group. Third, we have a Color Services Laboratory with three state of the art color computers and several color specialists to match the colors you need.

The Sherwin-Williams Company and its business units have over half a million square feet production space producing an excess of 100 million gallons of paints and specialty coatings each year. Sherwin Williams manufactures paint shipped to Pennsylvania in seven locations. These include two in Memphis, TN, two in Atlanta, GA, Orlando, FL, Baltimore, MD and Greensboro, NC. In 2006, over \$209.9 million was invested in upgrading these production facilities.

DURON Paints and Wallcoverings, a business unit of The Sherwin Williams Company manufactures in two facilities. One at our home in Beltsville, Maryland that encompasses over 400,000 square feet and a second facility in Atlanta, Georgia of 125,000 square feet. These plants have a combined capability of producing sixteen million gallons of paint annually.

MAB Paints, a business unit of The Sherwin Williams Company, has been in business since 1899 and manufactures in three locations, Philadelphia (210,000 square feet), Terre Haute, IN and Orlando, FL, which constantly supply two distribution locations in Terre Haute, IN and Newark, DE.

Beyond paint, we have a Sundries Department that is second to none. The Sherwin-Williams Company and its business units represent over 432 major vendors of paint and paint related sundries as well as numerous smaller companies whose products the Commonwealth will find helpful. Diversified Brands, which include familiar names such as Krylon, Purdy Brushes, Bestt-Liebco Brushes and Minwax, is a business unit of The Sherwin Williams Company. In addition to manufacturing many of the paint sundries offered in our retail outlets, Sherwin Williams maintains six warehouses in the Eastern United State including a 1,000,000 square foot warehouse in Fredericksburg, PA that is stocked with paint and paint-related items from sandpaper to ladders. If the things you need are not in this warehouse, our Special Order Sundry Department is expert at locating those hard to find items.

Even with its size, The Sherwin Williams Company has been able to maintain a flexibility and responsiveness that has meet its customer's needs. As proof, we offer the

following list of states and government agencies with which we have enjoyed lengthy and satisfying business relationships:

The Sherwin-Williams Company, itself, one of its business units, or in combination with its business units is the exclusive contract vendor for the State of Delaware contract (rated among the top ten vendors in performance), the State of Maryland Contract, the Commonwealth of Virginia Contract, the State of North Carolina Contract, the State of Georgia Contract, Broward County (FL) Contract and DeKalb County Georgia contract-where our service and products have never received less than an excellent rating in their quarterly vendor grading system. The Sherwin-Williams Company and DURON Paints and Wallcoverings are the exclusive contract vendor for Camden (NJ) Housing

Authority, Durham (NC) Housing Authority, Metropolitan Davidson County (Nashville, TN) Housing Authority, Baltimore County Housing Authority and the Housing Authority of Miami-Dade County among numerous other smaller housing Authorities in the Eastern United States.

#2. Please describe your company's current service/support/ distribution infrastructure that will be used to serve CWOPA under this award.

The Sherwin-Williams Company and its business units are dedicated to customer service. We foresee a variety of ways in which our current stores and distribution chain can be of service to the Commonwealth of Pennsylvania.

First, in order to maintain price integrity, The Sherwin-Williams National Account Group in our corporate headquarters in Cleveland, Ohio will centrally control contract pricing of the various agency accounts. This allows the agencies to shop at any of the listed stores and receive the discounted prices offered the Commonwealth.

Product may be ordered and purchased in a variety of ways. Most simply, any Commonwealth agency is welcome to walk in to a Sherwin-Williams, DURON or MAB outlet and purchase such items, as they may need. As indicated by the spreadsheet answering question #5, Appendix D of this proposal, The Sherwin-Williams Company and its business units have outlets in a majority of the counties in the Commonwealth. Additionally, these stores are stocked with a variety of material to meet the daily needs of The Commonwealth of Pennsylvania.

Secondly, the various agencies, using the attached list in Question #5, Appendix D may call or fax and place an order for delivery. Many of our stores are equipped with vans and will make deliveries within a 50mile radius, often within 24 to 48 hours. Generally, we do request that a fax be followed up with a phone call for confirmation purposes.

Additionally, orders may be placed through Dave Rhoads, the Account manager (800) 622-1899 x 4059 Fax (888) 795-1911, 600 Reed Road, Broomall, PA 19008 or myself Craig Mackay (800) 723-8766 ext. 3161, 10406 Tucker Street, Beltsville, Md. 20705. Once again, we request a phone call to confirm faxes. Finally, orders can be placed electronically as per the answers to questions, 10, 13, 16 and 17. Therefore, the commonwealth is given the greatest flexibility in the method in which they chose to order.

Mr. Rhoads will be assisted in fulfilling the orders by Mike Maguire in the Metropolitan Philadelphia area and by Mr. Steve Lusk in the remaining parts of the Commonwealth. Each of these individuals has the ability to interact with the Store Managers at order fulfilling stores and expedite such services as the Commonwealth may need.

Paint and Paint sundry items are warehoused in Fredericksburg, PA for distribution and sale in the stores in the Commonwealth of Pennsylvania. The warehouse is 1,000,000 square feet (one quarter mile square) and can warehouse significant amounts of material.

Paint for the Commonwealth of Pennsylvania is produced in one of 12 plants: Philadelphia, Baltimore, Beltsville, MD, Terre Haute, IN, Greensboro, NC, three in Atlanta, GA, two in Orlando, FL and two in Memphis, TN. Our corporate headquarters in Cleveland, Ohio controls our production schedules and has the ability to reprioritize to meet changing or emergency demands. The fact that we are the manufacturer of many of the products we sell, together with our corporately owned trucking line, facilitate a responsive inventory replenishment history.

#3. What enhancements to this service/ support/ distribution network would be necessary to service the Commonwealth of Pennsylvania under this contract?

The basic structure of The Sherwin Williams Company and its business units' service/ support/ and distribution network has been successful for contracts of all sizes including statewide exclusive contracts in Delaware, Maryland, Virginia North Carolina, South Carolina and Georgia. Therefore, the company plans on remaining with those processes that have been shown to work in similar contracts in the past.

The Sherwin Williams Company does foresee a Commonwealth specific training program that will be given through each district office for store and sales personnel. This program would identify needs and requirements unique to the Commonwealth, *e.g.*, delivery time frames, invoice information requirements and any special service that may assist the Commonwealth in serving the people of Pennsylvania. The company views this training as a recurring event, starting with an intensive introductory training followed by regular follow ups to identify and rectify such issues as may be identified during the life of the contract.

Within our inventory and product distribution we foresee the basic changes as those based upon the unique product demands placed by the Commonwealth of Pennsylvania, *i.e.*, specific high demand of colors unique to the Commonwealth, specialty Industrial or Marine products and inventory enhancement in areas of increased demand.

#4. Provide a network map/ organization structure illustrating the locations and resources that comprise your service/ support/ distribution network.

At the most basic level, The Sherwin Williams Company and its business units have 196 retail and commercial outlets in the Commonwealth of Pennsylvania. The stores in the Philadelphia area (Philadelphia, Montgomery, Chester and Bucks counties) are managed out of the area division office at 10406 Tucker Street, Beltsville, MD. The remaining stores in the commonwealth are managed from the area division office at 303 Technology Drive, Malvern, PA.

The general management structure for the stores is as follows. Each store has a Manager who is responsible for the operations of the store and an Assistant Manager who acts in the Manager's place when the Manager is not in the store. Besides these, the store may have one or more Service Specialists. All of these individuals are trained under the START Program and are available during store hours to wait on customers and help with product recommendations, delivery scheduling, and other such services as may be necessary.

The Store Manager reports to a City Manager who is responsible for a group of stores within an area. The City Manager then reports to a District Manager. Within the Commonwealth of Pennsylvania there are four districts: Pittsburgh, Philadelphia, Central (Harrisburg) and North Central.

The District Manager reports to a Regional Vice President. The regional Vice President for the Philadelphia Metropolitan area is Gary Campbell and for the remaining part of the state, Rob Schuster. Both of these individuals were introduced to the state as part of the Technical team (IV-3-d.)

The manner in which these stores are stocked was discussed in Question #2 and will be addressed again in Question #6. Each of these individuals is available to assist you with your mission of providing services to the people of Pennsylvania.

The contract will have an Account Manager, responsible for the daily activities of the contract. This individual has been identified as Dave Rhoads of Broomall, PA and introduced as a member of the Commonwealth of Pennsylvania service team.

Mr. Rhoads will report to me, Craig Mackay, as the Director of Government contracts.

#5. Utilizing the following table, please indicate what service/ support/ distribution centers products would be pulled from to fulfill orders for the counties listed in the delivery timeframes specified in Part IV, Work Statement, Section IV-4. (a) Delivery and Minimum Orders. Also indicate for each county the name and address for any retail centers in which the Commonwealth of Pennsylvania could pick up orders in person should they need to do so.

Spreadsheet sent under separate cover.

#6. Describe your company's inventory of products. How will your company's inventory meet the Commonwealth of Pennsylvania's requirement for maintaining fill rates of 95% or greater?

Each Sherwin-Williams, DURON Paints and MAB Store carries a full line of paint and paint related sundry products. Included in this inventory is over 100 gallons of the

standard ready mixed, pastel and mid tone base of each of the retail, commercial, and contractor lines. In addition, each store generally carries 24 gallons of the deep accent and neutral bases that comes in the premium paint lines. The Store Manager has the ability to change his inventory levels to accommodate specific demand as the need arises. So if a Commonwealth of Pennsylvania agency where to need abnormal quantities of a product, the Store Manager could order and warehouse these quantities as necessary.

Beyond paint, each store carries a full line of paint related sundries such as applicators, drop cloths, caulk, solvents, etc. A normal store carries about \$250,000 worth of inventory at anyone time. The larger commercial stores in major cities such as Pittsburgh and Philadelphia could carry up to twice that amount.

The Store Manager has the responsibility of maintaining sufficient levels of inventory to meet the demands of his customers. The Sherwin-Williams Company has discovered that this active ordering system allows for the necessary flexibility to meet changing customer demand that a passive (automatic replenishment) system cannot accomplish.

The minimum delivery schedule for Store Inventory replenishment is once a week. Larger volume stores receive replenishment shipments two to three times a week. Additionally, stores can order "off schedule" deliveries from the Fredericksburg, PA warehouse for next day delivery.

This inventory flexibility given to our Store Managers together with the established inventory levels described earlier, allow us to meet the immediate needs of our customers. Furthermore, the presence of a major warehouse in Fredericksburg, Pennsylvania, gives The Sherwin- Williams Company the ability to meet changes in demand as they occur. Finally, since we are the manufacturer of many of the products we sell and have a corporately owned trucking line, facilitate a responsive inventory replenishment history and an ability to maintain fill percentages much higher than the established 95%.

#7. What is your process for handling backorders and out of stock items?

The Sherwin-Williams Company has established the following procedures for filling backorders:

- 1) Once a backorder has been identified and confirmed, usually within a hour or two of receiving the order, the Store Manager responsible for filling the order will immediately contact neighboring stores and pull such merchandise as may be necessary for filling the order. This simple process accounts for upward of an 80% fill rate for back orders.
- 2) If the Manager is unable to find the required merchandise in his area, the manager will contact the central inventory office located in Cleveland in an attempt to locate such product as may be necessary for filling the identified back orders.

This process usually fills another 15% of open orders. These first two steps can usually be completed within a few hours.

- 3) If this process fails to complete the open order, the Manager can contact our special order department and have a shipment of the unavailable product emergency shipped to the store location from the manufacturer.
- 4) If the item is not available from the manufacturer The Sherwin-Williams Company can go to a variety of secondary suppliers to procure the items necessary to fill the order.
- 5) If the backorder item is a product manufactured by The Sherwin-Williams Company, our manufacturing division can reprioritize our manufacturing schedules and make the product to fill the order, shipping it by factory truck or common carrier to meet the Commonwealth's delivery windows.

#8. Outline your plan for marketing the products for all using agencies; explain how your company will educate your sales force and support team about this contract. In the event that CWOPA orders the wrong item, the item will be returned to the supplier (either to the distribution center or the closest retail center) at the expense of CWOPA. Credit for returned goods shall be made immediately after the shipper receives the returned items(s). There shall be no restocking fees assessed to CWOPA or eligible contact users.

Upon award, the Sherwin-Williams Company plans a training session for its store and sales personnel. This will introduce these individuals to the Commonwealth contract and the needs and requirements of The Commonwealth of Pennsylvania.

During this time, The Sherwin-Williams Company will initiate a "Contract Roll-Out" This entails mailing an introductory package to the agencies of the Commonwealth.

Once it is determined that these packages have arrived, the agency will be visited by the store manager from the nearest fulfilling outlet and a member of the Pennsylvania service team. At this time, the end user can address any concerns they may have with the Sherwin Williams representatives. It has been our experience that the building of these relationships is crucial to establishing excellent customer service

The Sherwin-Williams Company does not charge restocking fees for returned items, whether ordered erroneously or the ordering agency simply has a change of heart and no longer needs the items. Usually, the delivering store will arrange for pick-up of the various items and credit the account upon receipt of the items. This policy does not extend to custom made items such as special colors that are produced expressly for and at the instruction of a CWOPA agency nor colors that are tinted.

#9. Please describe the account manager's approach on overseeing the entire operation, acting as an issue escalation catalyst, handling customer complaints, resolving problems, proactively addressing cost savings and optimization opportunities, and more importantly, being accountable for the contractor's performance statewide. As specified in Part IV Work Statement, Section IV-3(e) Account Manager. Describe your company's ability to provide detailed management reporting. Identify the level(s) (Agency, Department, Individual) of reporting detail available in sales dollars and sales history by item description, part number, quantity and NIGP codes.

The Sherwin-Williams Company has included executives of the highest level in the Pennsylvania Service Team. These individuals have the authority to make sure individual stores follow the requirements of the Commonwealth of Pennsylvania.

The Account Manager will audit monthly usage reports to assure pricing discipline. During the training sessions, the account manager will interact with the Store personnel to maintain performance discipline. The Account Manager and his staff will be on hand to address problems as they may arise during the course of normal business.

The Sherwin Williams Company currently provides detailed reporting for the states of Maryland, Delaware, and Georgia. These are broken down by item and part number, by date, by quantity, and extension. Since all paints fall under NIGP code 630, there has not been a need to record by this designation. Normally, we produce these reports automatically every month.

#10. Describe your company's ability to utilize electronic data interchange (EDI) on line live chat capabilities and internet ordering, payment (Master-Card or Visa) and shipment tracing. Describe the state of e-commerce within your company and the benefits.

The Sherwin Williams Company currently processes both 850 Purchase Orders and 810 Invoices. The company prefers to send and receive 4010 or above. Our Van picks up inbound messages every three to five minutes and we continue to process documents internally throughout the day. We have the capability to send and receive 997 Functional acknowledgements.

We accept all major credit cards, including VISA and Master Card, so we would accept P-Cards from the various Commonwealth agencies.

We do not have on-line chat abilities at this time, nor do we track orders or have tracing capabilities. We do not have an 855 Purchase order Acknowledgement at this time.

Confirmation would be through e-mail or a phone call by the fulfilling store.

#11. Describe your company's implementation and success with existing cooperative purchasing programs, if any, and provide the entity's name(s) contact person (s) and phone number.

The Sherwin Williams Company currently has cooperative purchasing agreement with a number of state contracts, including but not limited to the States of Maryland, Delaware and North Carolina.

Both Maryland and Delaware have state intranet sites that list prices and ordering instructions but do not require on line ordering capability.

Walter Johnson
State of Maryland
301 E. Preston Street
Baltimore, MD
(410) 767-4605

State of Delaware
Roxann Parker
Purchasing Department
P. O. Box 299
Delaware City, DE 19706
(302) 834-4550

The Sherwin Williams Company also has a cooperative agreement with the State of North Carolina. For this contract, The Sherwin Williams Company is required to maintain an on-line catalogue of nine paint items that are on the contract as well as the top 500 most popular items purchased by the state. The top 500 are reviewed quarterly and changed as needed. Orders are sent through the Internet and delivered by the corresponding Sherwin Williams or DURON store.

Jim Westbrook III
Dept of Administration
Division of Contracts and Purchasing
1305 Mail Service Center
Raleigh, NC 27699
919-807-4522

Although not a cooperative purchasing contract, the Commonwealth of Virginia uses a similar electronic ordering system. Orders are places through the Richmond District office and delivered by corresponding Sherwin Williams and DURON stores. Both the State of North Carolina and The Commonwealth of Virginia use a third party specializing in electronic order processing. Both of these states them use the Ariba platform, which together with Xign, are the dominant platforms in electronic commerce.

#12. Describe in detail your dedicated customer representative team in charge of processing orders, receiving payments, scheduling delivery, hours/ days of operation, shipments tracing, links to shippers (UPS, FedEx, USPS, etc., tracking backorders, special orders, after sales issues, sending invoices and creating monthly reports. Include in your proposal number of dedicated representatives, their hours of operation and their relative experience in with building supplies. How does this team intend to deliver high customer satisfaction ratings? As specified in Part IV Work Statement, Section IV-3(d) customer service Representative team.

The company has assigned the following individuals to the Pennsylvania service team: Dave Rhoads, Account Manager, Mike Maguire, Philadelphia Area Assistant and Steve Lusk, Assistant in the remain areas of the Commonwealth. This team will report to me, Craig Mackay, Government Contracts Director and I in turn report to the Vice Presidents responsible for the Commonwealth, Gary Campbell, Philadelphia and Rob Schuster, remaining area of the Commonwealth.

The overall Account Manager for the Commonwealth of Pennsylvania is Dave Rhoads, 600 Reed Street, Broomall, PA (800) 622-1899 ext. 4059. Mr. Rhoads has been in the paint industry for 7 years as a Bids and Contracts Specialist. Specializing in government contracts he has worked on statewide contracts for Pennsylvania, New Jersey, Delaware, Illinois, and Indiana. In addition he has also worked very closely with the Federal Government with a GSA Contract.

Mike Maguire, Assistant Account Manager, 827 Spring Garden Street, Philadelphia, PA 19123, (215) 925-7533. Mr. Maguire has been in the paint industry for 35 years, 27 with MAB Paints and 7 with DURON and Sherwin-Williams. During all of these years, he has been in the Philadelphia marketplace. At various times, he has held positions as a Service Specialist, Assistant Merchandising Manager, Government Bids and Contracts Specialist and a District Government Sales Manager.

Steve Lusk, Assistant Account Manager, remaining Commonwealth, 3540 North Progress Ave., Suite 201, Harrisburg, PA 17110 (717) 657-2584. Mr. Lusk has been in the paint industry over 20 years, all with DURON and Sherwin-Williams. During this time he has been a Store Manager, Sales Manger, District Operations Manager and Area Sales and Operations Manager.

Craig C. Mackay, Director of Government Contracts, 10406 Tucker Street, Beltsville, MD 20705 (800) 723-8766 ext. 3161: I have been in the paint business for 18 years, starting as a service specialist in Westchester County, New York and moving to store management positions in Arlington County, Virginia and Washington, D.C. I have been the Government Contracts Manager, and later Director, since 1991 and have been the contract officer for statewide contracts in Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina and Georgia.

Gary Campbell, VP, North Area, Southeastern Division (Philadelphia Area) 10406 Tucker Street, Beltsville, MD 20705: Mr. Campbell has been in the paint industry 17

years. He started as a Management Trainee and has held positions as Store Manger, Outside Sales Representative, Sales Manager, District Manager, Director of Wholesale Marketing, Director of Sales and Vice President of Sales. Mr. Campbell has held positions in various markets including Milwaukee, Cincinnati, Dayton, Cleveland, Minneapolis, Roanoke, VA and Philadelphia. Mr. Campbell's region currently services statewide contracts in Delaware, Maryland, Virginia, North Carolina, and Georgia.

Rob Shuster, Vice President Key Account Development, Eastern Division (remain parts of the Commonwealth) 313 Technology Drive, Malvern PA 19355: Mr. Schuster has been in the paint industry 33 years or which 27 have been spent with Sherwin Williams. Mr. Schuster has held positions as a Store Manager, District Manager, Vice President of Sales and Vice President of Key Account Development. As Vice President of Sales for the Eastern Division, Mr. Schuster had responsibility for all the Districts, stores and Sales Representatives in the Commonwealth of Pennsylvania.

Judy Harrer, Technical Representative, 10406 Tucker Street, Beltsville, MD 20705 (800) 723-8766 x3400: Judy has been in the paint industry over 20 years, all spent with DURON and Sherwin Williams. She has held positions as an Assistant Store Manager, Store Manager and is currently the regional Technical service representative in the Commonwealth of Pennsylvania.

As per the spreadsheet for Question #5, The Company has stores throughout the Commonwealth, and these stores have delivery vans and trucks assigned to them that will be used to make the vast majority of deliveries to the Commonwealth Agencies. Therefore, The Sherwin-Williams Company will have minimal contact with common carries and shippers. We have internal means of tracking backorders as described in Question #7.

Special orders are tracked by the fulfilling store, where quantities can be warehoused, if necessary. The company has an internal process for special orders, including a department whose sole purpose is finding and obtaining items that are needed by our customers

The Account Manager will be available during normal business days from 8am- 5pm. Mr. Rhoads can be contacted at (800) 622-1899 x 4059 or at 600 Reed Street, Broomall, Pa 19008. Store hours of operation vary and will be discussed with end users during the roll out visit.

#13. Describe your company's internal management system for processing orders from point of customer contact through delivery and billing. Please state: 1.) If your Internet ordering system is OBI (Open Buying Internet) compatible; 2) If you use a single system or platform for all phases of the ordering, processing, delivery and billing.

- 1) No, our system is not OBI compatible but The Sherwin Williams Company maintains the Sherlink website that processes orders entered by the customers.
- 2) The Platforms we work through are a) Gentran NT is our EDI translator, b) The web based system and c) the mainframe.

#14. Describe your policy regarding (A) Quality Assurance (B) Auditing outbound orders for completeness and proper packaging; (C) Replacement policy (i.e., damaged or defective materials); Return policy.

A) The paint plants of The Sherwin-Williams Company are ISO 9001:2000 certified. Each batch is quality tested according to the American Standard Test Method (ASTM) Test listed on the respective Material Data Sheet for that product. All Quality Assurance Technicians are certified by Sherwin Williams after undergoing a battery of written and practical tests. Retains are stored in the factory for a period of three years.

B) Each order is reviewed on loading and reviewed at the deliver site. The order is unable to be completed, billed and shipped if the computer does not recognize inventory existing at the fulfilling location, therefore, orders are shipped complete. Backorder fulfillment policy was outlined in question #7. Additionally, the sales team will meet with the Commonwealth of Pennsylvania end users to forecast the stock levels necessary to meet the Commonwealth's demand.

C) Products that were delivered in damaged or defective conditions will be replaced at no charge and the damaged material will be picked up.

D) The Sherwin-Williams Company does not charge restocking fees for returned items, whether ordered erroneously or the ordering agency simply has a change of heart and no longer needs the items. Usually, the delivering store will arrange for pick-up of the various items and credit the account upon receipt of the items. This policy does not extend to custom made items such as special colors that are produced expressly for and at the instruction of a CWOPA agency

#15. Describe the administrative systems that are in place at he company to support all CWOPA reporting requirements described in Part IV Work Statement, Section IV-4 (H) Reports. Reporting requirements include at a minimum the following fields to be queried at both the line item and summary level: CWOPA agency, order date, item category, manufacturer part number, line item description, quantity, list price, CWOPA discount %, CWOPA price and purchasing method (PO or P-Card).

Describe any enhanced reporting capabilities, capability to deliver reports electronically, direct access to reports through the web site or other database that may be used to administer the contract. As specified in Part IV, Work Statement, Section IV-4 (i) Electronic Interface.

The Sherwin-Williams Company maintains an IS Division in its Cleveland, Ohio headquarters. A copy of the template included in the bid package has been forwarded to this department. They are prepared to add it to the schedule to be run at the closing of each month (usually the 5th day of the month.)

The Sherwin-Williams Company has the ability to report, the ordering agency, item, quantity, list price, discount percentage and purchasing method.

These reports can be forwarded to the Commonwealth via mail, fax or email. The company does not have a data base system that could be accessed from the outside where this information could be posted.

#16. Describe you on line capabilities. Do you have a website? Can CWOPA order items from the website? How often is your online catalog updated? As specified in Appendix IV Work Statement, Section IV-4(j).

The Sherwin Williams Company maintains an online ordering system at www.sherlink.com. Products can be reviewed and stores located on the general website, www.sherwinwilliams.com. Both business units maintain their informational websites, www.duron.com (DURON Paints and Wallcoverings) and www.mabpaints.com (MAB Paints.)

The www.sherlink.com site can be used for ordering Sherwin Williams products.

The catalogue is updated on an as needed basis. The company does not currently have a punch-out platform at this time.

#17. Describe how commodity orders are processed and moved to arrive “just-in-time” for Commonwealth agencies placing an order. CWOPA defines JIT as receipt within five (5) days after receipt of order (ARO.)

Walk-in, fax and phone orders are handled at the store level and processed according to normal business practice. Delivery is scheduled for a time within 48 hours and a call is placed to confirm delivery space availability.

Orders placed by electronic means come to the EDI center through a mailbox at stores.art@sherwin.com. The Purchase order generally comes into the center in the form of an attachment. The center then opens the attachment and uploads the information into Sherlink. The order is then sent electronically to a local distribution center or retail store.

This process takes an hour or less. The store confirms receipt. The store then fills the order from stock or pulls such product as is necessary from the warehouse in Fredericksburg, Pa.

#18. Please describe in detail your company's system for pricing Lot 1, Lumber Products? And Lot 2 Specialty Lumber.

Not Applicable

#19. Describe how you intend to notify your retail locations on how to handle purchased by the Commonwealth agencies to receive correct CWOPA contract pricing? What will Commonwealth agencies be required to present if a customer pickup at one of your retail locations is necessary?

In order to maintain price integrity, The Sherwin-Williams National Account Group in our corporate headquarters in Cleveland, Ohio will centrally control contract pricing of the various agency accounts. This allows the agencies to shop at any of the listed stores and receive the discounted prices offered the Commonwealth. The Account Manager audits the selected daily and all monthly transactions to assure correct prices are being charges to the various Commonwealth agencies.

The Sherwin-Williams Company and its business units require a standard form if identification when purchasing by PO in a store. This could include a drivers license, a state issued ID card, or the like. It has been our experience that such a requirement drastically cuts frauds and erroneous billings.

#20. How will Commonwealth agencies receive ordering confirmation?

The various agencies, using the attached list in Question #5, Appendix D may call or fax and place an order for delivery. Although we attempt to return a confirmation call for faxed orders, we do request that a fax be followed up with a phone call for confirmation purposes.

Electronic orders would receive a confirmation call from the fulfilling distribution center or retail outlet within 24- 48 business hours of placing the order.

#21. CWOPA is fully committed to manage compliance and purchase building Supplies from the awarded contract of each lot in order to maximize savings through this new contract. However, the contractor must understand that this is a complex task, and in order to achieve this goal, CWOPA must use all of its resourced, ideas, as well as procurement guidelines to ensure 100% utilization of this contract. Therefore, CWOPA is asking that your company describe creative suggestions or a comprehensive plan to help CWOPA maximize utilization of this contract across the participating agencies.

The Sherwin-Williams Company and its identified business units, plan and aggressive roll out campaign to introduce the various Commonwealth agencies to the company. Key to this process is a Commonwealth-wide sales blitz to meet and greet such customers as may be identified as users of our products. This gives the company the chance to introduce ourselves to the customers and allow the Commonwealth end users to meet the individuals who will be filling their orders. The building of these relationships helps insure Commonwealth-wide compliance with the contract.

The Sherwin-Williams Company uses factory owned trucks to make deliveries, so there will be no charge for deliveries under the Commonwealth's \$300.00 delivery threshold.

The Company plans to hold training sessions for new product and new regulation workshops throughout the Commonwealth as requested. These increase the knowledge and efficiency of the Commonwealth's painters.

The company has technical representatives, whose service is included in the contract. Therefore, the Commonwealth can get technical information and training at no cost.

The Sherwin Williams Company, including DURON Paints and Wallcoverings, a business unit of The Sherwin Williams Company and MAB Paints, a business unit of The Sherwin Williams Company, hereby submits these answers, responsibilities, and offers as part of our proposal for CN00023105 and incorporates them into that agreement.

If you have any questions regarding The Sherwin-Williams Company, its business units, this proposal or paint questions in general, please feel free to contact me at (800) 723-8766 ext. 3161 and we will be happy to address your concerns.

Sincerely,

Craig C. Mackay
Director of Government Contracts

**STANDARD CONTRACT
TERMS AND CONDITIONS
FOR DEPARTMENT OF GENERAL SERVICES
STATEWIDE CONTRACTS FOR SUPPLIES - SAP**

1. TERM OF CONTRACT

The term of the Contract shall commence on the Effective Date (as defined below) and shall end on the Expiration Date identified in the Contract, subject to the other provisions of the Contract.

The Effective Date shall be: a) the date the Contract has been fully executed by the Contractor and by the Commonwealth and all approvals required by Commonwealth contracting procedures have been obtained or b) the date referenced in the Special Contract Terms and Conditions and whichever is later. The Contract shall not be a legally binding contract until after the fully-executed Contract has been sent to the Contractor.

The fully executed Contract shall not contain "ink" signatures by the Commonwealth. The Contractor understands and agrees that the receipt of an electronically-printed Contract with the printed name of the Commonwealth purchasing agent constitutes a binding, valid contract with the Commonwealth. The printed name of the purchasing agent on the Contract represents the signature of that individual who is authorized to bind the Commonwealth to the obligations contained in the Contract. The printed name also represents that all approvals required by Commonwealth contracting procedures have been obtained.

The Contractor shall not start performance until all of the following have occurred: a. the Effective Date has arrived; b. the Contractor has received a copy of the fully-executed Contract; and c. the Contractor has received a purchase order from a Commonwealth agency. The Commonwealth shall not be liable to pay the Contractor for any supply furnished or work performed or expenses incurred before the Effective Date or before the Contractor receives a copy of the fully-executed Contract or before the Contractor has received a purchase order. Except as otherwise provided in Paragraph 3, no Commonwealth employee has the authority to verbally direct the commencement of any work or delivery of any supply under this Contract prior to the Effective Date.

The Commonwealth reserves the right, upon notice to the Contractor, to extend the term of the Contract, or any part of the Contract, for up to three (3) months upon the same terms and conditions. This will be utilized to prevent a lapse in Contract coverage and only for the time necessary, up to three (3) months, to enter into a new Contract.

2. ESTIMATED QUANTITIES

It shall be understood and agreed that any quantities listed in the Contract are estimated only and may be increased or decreased in accordance with the actual requirements of the Commonwealth and that the Commonwealth in accepting any bid or portion thereof, contracts only and agrees to purchase only in such quantities as represent the actual requirements of the Commonwealth. The Commonwealth reserves the right to purchase items covered under the Contract through a separate procurement procedure, whenever the Department of General Services deems it to be in the best interest of the Commonwealth.

3. PURCHASE ORDERS

Commonwealth agencies may issue purchase orders against the Contract. These orders constitute the Contractor's authority to make delivery. All purchase orders received by the Contractor up to and including the expiration date of the Contract are acceptable and must be performed in accordance with the Contract. Contractors are not permitted to accept purchase orders which require performance extended beyond those performance time periods specified in the Contract but in no event longer than ninety (90) days after the expiration date of the Contract period. Each purchase order will be deemed to incorporate the terms and conditions set forth in the Contract.

Purchase orders will not include an "ink" signature by the Commonwealth. The electronically-printed name of the purchaser represents the signature of that individual who has the authority, on behalf of the Commonwealth, to authorize the Contractor to proceed.

Purchase orders may be issued electronically or through facsimile equipment. The electronic transmission of a purchase order shall require acknowledgement of receipt of the transmission by the Contractor. Receipt of the electronic or facsimile transmission of the purchase order shall constitute receipt of an order. Orders received by the Contractor after 4:00 p.m. will be considered received the following business day.

The Commonwealth and the Contractor specifically agree as follows:

- a. No handwritten signature shall be required in order for the purchase order to be legally enforceable.
- b. Upon receipt of an order, the Contractor shall promptly and properly transmit an acknowledgement in return. Any order which is issued electronically shall not give rise to any obligation to deliver on the part of the Contractor, or any obligation to receive and pay for delivered products on the part of the Commonwealth agency, unless and until the Commonwealth agency transmitting the order has properly received an acknowledgement.
- c. The parties agree that no writing shall be required in order to make the order legally binding, notwithstanding contrary requirements in any law. The parties hereby agree not to contest the validity or enforceability of a genuine purchase order or acknowledgement issued electronically under the provisions of a statute of frauds or any other applicable law relating to whether certain agreements be in writing and signed by the party bound thereby. Any genuine purchase order or acknowledgement issued electronically, if introduced as evidence on paper in any judicial, arbitration, mediation, or administrative proceedings, will be admissible as between the parties to the same extent and under the same conditions as other business records originated and maintained in documentary form. Neither party shall contest the admissibility of copies of genuine purchase orders or acknowledgements under either the business records exception to the hearsay rule or the best evidence rule on the basis that the order or acknowledgement were not in writing or signed by the parties. A purchase order or acknowledgment shall be deemed to be genuine for all purposes if it is transmitted to the location designated for such documents.
- d. Each party will immediately take steps to verify any document that appears to be obviously garbled in transmission or improperly formatted to include re-transmission of any such document if necessary.

Purchase orders under three thousand dollars (\$3,000) in total amount may also be made in person or by telephone using a Commonwealth Procurement VISA Card. When an order is placed by telephone, the Commonwealth agency shall provide the agency name, employee name, credit card number, and expiration date of the card. Contractors agree to accept payment through the use of the Commonwealth Procurement VISA card.

4. INDEPENDENT CONTRACTOR

In performing the obligations required by the Contract, the Contractor will act as an independent contractor and not as an employee or agent of the Commonwealth.

5. COMPLIANCE WITH LAW

The Contractor shall comply with all applicable federal and state laws and regulations and local ordinances in the performance of the Contract.

6. ENVIRONMENTAL PROVISIONS

In the performance of the Contract, the Contractor shall minimize pollution and shall strictly comply with all applicable environmental laws and regulations.

7. POST-CONSUMER RECYCLED CONTENT

Except as specifically waived by the Department of General Services in writing, any products which are provided to the Commonwealth as a part of the performance of the Contract must meet the minimum percentage levels for total recycled content as specified in Exhibits A-1 through A-8 to these Standard Contract Terms and Conditions.

8. COMPENSATION/INVOICES

The Contractor shall be required to furnish the awarded item(s) at the price(s) quoted in the Contract. All item(s) shall be delivered within the time period(s) specified in the Contract. The Contractor shall be compensated only for item(s) which are delivered and accepted by the Commonwealth.

Unless otherwise specified or unless the Contractor has been authorized by the Commonwealth for Evaluated Receipt Settlement or Vendor Self-Invoicing, the Contractor shall send an invoice itemized by purchase order line item to the address referenced on the purchase order promptly after the item(s) are delivered. The invoice should include only amounts due under the purchase order. The purchase order number must be included on all invoices.

9. PAYMENT

- a. The Commonwealth shall put forth reasonable efforts to make payment by the required payment date. The required payment date is: (a) the date on which payment is due under the terms of the Contract; (b) thirty (30) days after a proper invoice actually is received at the "Bill To" address on the contract purchase order, if a date on which payment is due is not specified in the Contract (a "proper" invoice is not received until the Commonwealth accepts the item(s) as satisfactorily performed); or (c) the payment date specified on the invoice if later than the dates established by (a) and (b) above. Payment may be delayed if the payment amount on an invoice is not based upon the price(s) as stated in the Contract. If any payment is not made within fifteen (15) days after the required payment date, the Commonwealth may pay interest as determined by the Secretary of Budget in accordance with Act No. 266 of 1982 and regulations promulgated pursuant thereto. Payment should not be construed by the Contractor as acceptance of the item(s) furnished by the Contractor. The Commonwealth reserves the right to conduct further testing and inspection after payment, but within a reasonable time after delivery, and to reject the item(s) if such post payment testing or inspection discloses a defect or a failure to meet specifications. The Contractor agrees that the Commonwealth may set off the amount of any state tax liability or other obligation of the Contractor or its subsidiaries to the Commonwealth against any payments due the Contractor under any contract with the Commonwealth.
- b. The Commonwealth shall have the option of using the Commonwealth Purchasing Card to make purchases under the Contract. The Commonwealth Purchasing Card is similar to a credit card in that there will be a small fee which the Contractor will be required to pay and the Contractor will receive payment directly from the card issuer rather than the Commonwealth. Any and all fees related to this type of payment are the responsibility of the Contractor. In no case will the Commonwealth allow increases in prices to offset credit card fees paid by the Contractor or any other charges incurred by the Contractor, unless specifically stated in the terms of the Contract.

10. TAXES

The Commonwealth is exempt from all excise taxes imposed by the Internal Revenue Service and has accordingly registered with the Internal Revenue Service to make tax free purchases under Registration No. 2374001-K. With the exception of purchases of the following items, no exemption certificates are required and none will be issued: undyed diesel fuel, tires, trucks, gas guzzler emergency vehicles, and sports fishing equipment. The Commonwealth is also exempt from Pennsylvania state sales tax, local sales tax, public transportation assistance taxes and fees and vehicle rental tax. The Department of Revenue regulations provide that exemption certificates are not required for sales made to governmental entities and none will be issued. Nothing in this paragraph is meant to exempt a construction contractor from the payment of any of these taxes or fees which are required to be paid with respect to the purchase, use, rental, or lease of tangible personal property or taxable services used or transferred in connection with the performance of a construction contract.

11. WARRANTY

The Contractor warrants that all item(s) furnished by the Contractor, its agents and subcontractors shall be free and clear of any defects in workmanship or materials. The Contractor shall pass through to the Commonwealth the manufacturer's warranty for all parts or supplies provided under the Contract. The Contractor shall correct any problem with the service and/or replace any defective part with a part of equivalent or superior quality without any additional cost to the Commonwealth.

12. DELIVERY

All item(s) shall be delivered F.O.B. Destination. The Contractor agrees to bear the risk of loss, injury, or destruction of the item(s) ordered prior to receipt of the items by the Commonwealth. Such loss, injury, or destruction shall not release the Contractor from any contractual obligations. Except as otherwise provided in Paragraph 20, all item(s) must be delivered within the time period specified on the contract purchase order. Time is of the essence and, in addition to any other remedies, the contract purchase order is subject to termination for failure to deliver as specified. Unless otherwise stated by the Contractor in its Bid or indicated in the Special Contract Terms and Conditions, delivery must be made within thirty (30) days after award of the Contract Purchase Order.

13. PATENT, COPYRIGHT, AND TRADEMARK INDEMNITY

The Contractor warrants that it is the sole owner or author of, or has entered into a suitable legal agreement concerning either: a) the design of the item(s) or the process provided or used in the performance of the purchase order which is covered by a patent, copyright, or trademark registration or other right duly authorized by state or federal law or b) any copyrighted matter in any report document or other material provided to the Commonwealth under the purchase order. The Contractor shall defend any suit or proceeding brought against the Commonwealth on account of any alleged patent, copyright or trademark infringement in the United States of the item(s) provided or used in the performance of the Contract. This is upon condition that the Commonwealth shall provide prompt notification in writing of such suit or proceeding; full right, authorization and opportunity to conduct the defense thereof; and full information and all reasonable cooperation for the defense of same. As principles of governmental or public law are involved, the Commonwealth may participate in or choose to conduct, in its sole discretion, the defense of any such action. If information and assistance are furnished by the Commonwealth at the Contractor's written request, it shall be at the Contractor's expense, but the responsibility for such expense shall be only that within the Contractor's written authorization.

The Contractor shall indemnify and hold the Commonwealth harmless from all damages, costs, and expenses, including attorney's fees that the Contractor or the Commonwealth may pay or incur by reason of any infringement or violation of the rights occurring to any holder of copyright, trademark, or patent interests and rights in any item(s) provided or used in the performance of the purchase order. If any of the item(s) provided by the Contractor are held in such suit or proceeding to constitute infringement and the use is enjoined, the Contractor shall, at its own expense and at its option, either procure the right to continue use of such infringement item(s), replace them with noninfringement equal performance item(s) or modify them so that they are no longer infringing. If the Contractor is unable to do any of the preceding, the Contractor agrees to remove all the equipment or software which is obtained contemporaneously with the infringing item(s), or, at the option of the Commonwealth, only those items of equipment or software which are held to be infringing, and to pay the Commonwealth: 1) any amounts paid by the Commonwealth towards the item(s) of the product, less straight line depreciation; 2) any license fee paid by the Commonwealth for the use of any software, less a reasonable amount for the period of usage; and 3) the pro rata portion of any maintenance fee representing the time remaining in any period of maintenance paid for. The obligations of the Contractor under this paragraph continue without time limit. No costs or expenses shall be incurred for the account of the Contractor without its written consent.

14. OWNERSHIP RIGHTS

The Commonwealth shall have unrestricted authority to reproduce, distribute, and use any submitted report, data, or material, and any software or modifications and any associated documentation that is designed or developed and delivered to the Commonwealth as part of the performance of the Contract.

15. ASSIGNMENT OF ANTITRUST CLAIMS

The Contractor and the Commonwealth recognize that in actual economic practice, overcharges by the Contractor's suppliers resulting from violations of state or federal antitrust laws are in fact borne by the Commonwealth. As part of the consideration for the award of the Contract, and intending to be legally bound, the Contractor assigns to the Commonwealth all right, title and interest in and to any claims the Contractor now has, or may acquire, under state or federal antitrust laws relating to the supplies and services which are the subject of the Contract.

16. HOLD HARMLESS PROVISION

The Contractor shall hold the Commonwealth harmless from and indemnify the Commonwealth against any and all claims, demands and actions based upon or arising out of any activities performed by the Contractor and its employees and agents under this Contract and shall, at the request of the Commonwealth, defend any and all actions brought against the Commonwealth based upon any such claims or demands.

17. AUDIT PROVISIONS

The Commonwealth shall have the right, at reasonable times and at a site designated by the Commonwealth, to audit the books, documents and records of the Contractor to the extent that the books, documents and records relate to costs or pricing data for the Contract. The Contractor agrees to maintain records which will support the prices charged and costs incurred for the Contract.

The Contractor shall preserve books, documents, and records that relate to costs or pricing data for the Contract for a period of three (3) years from date of final payment. The Contractor shall give full and free access to all records to the Commonwealth and/or their authorized representatives.

18. INSPECTION AND REJECTION

No item(s) received by the Commonwealth shall be deemed accepted until the Commonwealth has had a reasonable opportunity to inspect the item(s). Any item(s) which is discovered to be defective or fails to conform to the specifications may be rejected upon initial inspection or at any later time if the defects contained in the item(s) or the noncompliance with the specifications were not reasonably ascertainable upon the initial inspection. It shall thereupon become the duty of the Contractor to remove rejected item(s) from the premises without expense to the Commonwealth within fifteen (15) days after notification. Rejected item(s) left longer than fifteen (15) days will be regarded as abandoned, and the Commonwealth shall have the right to dispose of them as its own property and shall retain that portion of the proceeds of any sale which represents the Commonwealth's costs and expenses in regard to the storage and sale of the item(s). Upon notice of rejection, the Contractor shall immediately replace all such rejected item(s) with others conforming to the specifications and which are not defective. If the Contractor fails, neglects or refuses to do so, the Commonwealth shall then have the right to procure a corresponding quantity of such item(s), and deduct from any monies due or that may thereafter become due to the Contractor, the difference between the price stated in the Contract and the actual cost thereof to the Commonwealth.

19. DEFAULT

a. The Commonwealth may, subject to the provisions of Paragraph 20, Force Majeure, and in addition to its other rights under the Contract, declare the Contractor in default by written notice thereof to the Contractor, and terminate (as provided in Paragraph 21, Termination Provisions) the whole or any part of this Contract including a purchase order, for any of the following reasons:

- 1) Failure to deliver the awarded item(s) within the time specified in the Contract or contract purchase order or as otherwise specified;
- 2) Improper delivery;

- 3) Failure to provide an item(s) which is in conformance with the specifications referenced in the Invitation For Bids;
 - 4) Delivery of a defective item;
 - 5) Failure or refusal to remove and replace any item(s) rejected as defective or nonconforming within fifteen (15) days after notification;
 - 6) Insolvency or bankruptcy;
 - 7) Assignment made for the benefit of creditors;
 - 8) Failure to protect, to repair, or to make good any damage or injury to property; or
 - 9) Breach of any provision of this Contract.
- b. In the event that the Commonwealth terminates this Contract in whole or in part as provided in Subparagraph a. above, the Commonwealth may procure, upon such terms and in such manner as it determines, on item(s) similar or identical to those so terminated, and the Contractor shall be liable to the Commonwealth for any reasonable excess costs for such similar or identical item(s) included within the terminated part of the Contract.
- c. If the Contract is terminated in whole or in part as provided in Subparagraph a. above, the Commonwealth, in addition to any other rights provided in this paragraph, may require the Contractor to transfer title and deliver immediately to the Commonwealth in the manner and to the extent directed by the Department of General Services, such partially manufactured or delivered item(s) as the Contractor has specifically produced or specifically acquired for the performance of such part of the Contract as has been terminated. Except as provided below, payment for any partially manufactured or delivered item(s) accepted by the Commonwealth shall be in an amount agreed upon by the Contractor and the Commonwealth. The Commonwealth may withhold from amounts otherwise due the Contractor for such partially manufactured or delivered item(s), such sum as the Commonwealth determines to be necessary to protect the Commonwealth against loss.
- d. The rights and remedies of the Commonwealth provided in this paragraph shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.
- e. The Commonwealth's failure to exercise any rights or remedies provided in this paragraph shall not be construed to be a waiver by the Commonwealth of its rights and remedies in regard to the event of default or any succeeding event of default.
- f. Following exhaustion of the Contractor's administrative remedies as set forth in Paragraph 22, the Contractor's exclusive remedy shall be to seek damages in the Board of Claims.

20. FORCE MAJEURE

Neither party will incur any liability to the other if its performance of any obligation under this Contract is prevented or delayed by causes beyond its control and without the fault or negligence of either party. Causes beyond a party's control may include, but are not limited to, acts of God or war, changes in controlling law, regulations, orders or the requirements of any governmental entity, severe weather conditions, civil disorders, natural disasters, fire, epidemics and quarantines, general strikes throughout the trade, and freight embargoes.

The Contractor shall notify the Commonwealth orally within five (5) days and in writing within ten (10) days of the date on which the Contractor becomes aware, or should have reasonably become aware, that such cause would prevent or delay its performance. Such notification shall (i) describe fully such cause(s) and its effect on performance, (ii) state whether performance under the contract is prevented or delayed and (iii) if performance is delayed, state a reasonable estimate of the duration of the delay. The Contractor shall have the burden of proving that such cause(s) delayed or prevented its performance despite its diligent efforts to perform and shall produce such supporting documentation as the Commonwealth may reasonably request. After receipt of such notification, the Commonwealth may elect

either to cancel the Contract or to extend the time for performance as reasonably necessary to compensate for the Contractor's delay.

In the event of a declared emergency by competent governmental authorities, the Commonwealth by notice to the Contractor, may suspend all or a portion of the Contract.

21. TERMINATION PROVISIONS

The Commonwealth has the right to terminate this Contract for any of the following reasons. Termination shall be effective upon written notice to the Contractor.

- a. **TERMINATION FOR CONVENIENCE:** The Commonwealth shall have the right to terminate the Contract or a purchase order for its convenience if the Commonwealth determines termination to be in its best interest. The Contractor shall be paid for work satisfactorily completed prior to the effective date of the termination, but in no event shall the Contractor be entitled to recover loss of profits.
- b. **NON-APPROPRIATION:** The Commonwealth's obligation to make payments during any Commonwealth fiscal year succeeding the current fiscal year shall be subject to availability and appropriation of funds. When funds (state and/or federal) are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal year period, the Commonwealth shall have the right to terminate the Contract or purchase order. The Contractor shall be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the supplies or services delivered under the contract or purchase order. Such reimbursement shall not include loss of profit, loss of use of money, or administrative or overhead costs. The reimbursement amount may be paid from any appropriations available for that purpose.
- c. **TERMINATION FOR CAUSE:** The Commonwealth shall have the right to terminate the Contract for Contractor default under Paragraph 19, Default, upon written notice to the Contractor. The Commonwealth shall also have the right, upon written notice to the Contractor, to terminate the Contract or a purchase order for other cause as specified in this Contract or by law. If it is later determined that the Commonwealth erred in terminating the Contract or a contract purchase order for cause, then, at the Commonwealth's discretion, the Contract shall be deemed to have been terminated for convenience under the Subparagraph 21.a.

22. CONTRACT CONTROVERSIES

- a. In the event of a controversy or claim arising from the Contract, the Contractor must, within six months after the cause of action accrues, file a written claim with the contracting officer for a determination. The claim shall state all grounds upon which the Contractor asserts a controversy exists. If the Contractor fails to file a claim or files an untimely claim, the Contractor is deemed to have waived its right to assert a claim in any forum.
- b. The contracting officer shall review timely-filed claims and issue a final determination, in writing, regarding the claim. The final determination shall be issued within 120 days of the receipt of the claim, unless extended by consent of the contracting officer and the Contractor. The contracting officer shall send his/her written determination to the Contractor. If the contracting officer fails to issue a final determination within the 120 days (unless extended by consent of the parties), the claim shall be deemed denied. The contracting officer's determination shall be the final order of the purchasing agency.
- c. Within fifteen (15) days of the mailing date of the determination denying a claim or within 135 days of filing a claim if, no extension is agreed to by the parties, whichever occurs first, the Contractor may file a statement of claim with the Commonwealth Board of Claims. Pending a final judicial resolution of a controversy or claim, the Contractor shall proceed diligently with the performance of the Contract in a manner consistent with the determination of the contracting officer and the Commonwealth shall compensate the Contractor pursuant to the terms of the Contract.

23. ASSIGNABILITY AND SUBCONTRACTING

- a. Subject to the terms and conditions of this Paragraph 23, the Contract shall be binding upon the parties and their respective successors and assigns.

- b. The Contractor shall not subcontract with any person or entity to perform all or any part of the work to be performed under the Contract without the prior written consent of the Department of General Services, which consent may be withheld at the sole and absolute discretion of the Department of General Services.
- c. The Contractor may not assign, in whole or in part, the Contract or its rights, duties, obligations, or responsibilities hereunder without the prior written consent of the Department of General Services, which consent may be withheld at the sole and absolute discretion of the Department of General Services.
- d. Notwithstanding the foregoing, the Contractor may, without the consent of the Department of General Services, assign its rights to payment to be received under the Contract or a contract purchase order, provided that the Contractor provides written notice of such assignment to the Buyer and the ordering Commonwealth agency together with a written acknowledgement from the assignee that any such payments are subject to all of the terms and conditions of the Contract.
- e. For the purposes of the Contract, the term "assign" shall include, but shall not be limited to, the sale, gift, assignment, pledge, or other transfer of any ownership interest in the Contractor provided, however, that the term shall not apply to the sale or other transfer of stock of a publicly traded company.
- f. Any assignment consented to by the Department of General Services shall be evidenced by a written assignment agreement executed by the Contractor and its assignee in which the assignee agrees to be legally bound by all of the terms and conditions of the Contract and to assume the duties, obligations, and responsibilities being assigned.
- g. A change of name by the Contractor, following which the Contractor's federal identification number remains unchanged, shall not be considered to be an assignment hereunder. The Contractor shall give the Buyer written notice of any such change of name.

24. NONDISCRIMINATION/SEXUAL HARASSMENT CLAUSE

During the term of the Contract, Contractor agrees as follows:

- a. In the hiring of any employees for the manufacture of supplies, performance of work, or any other activity required under the Contract or any subcontract, the Contractor, subcontractor or any person acting on behalf of the Contractor or subcontractor shall not by reason of gender, race, creed, or color discriminate against any citizen of this Commonwealth who is qualified and available to perform the work to which the employment relates.
- b. Neither the Contractor nor any subcontractor nor any person on their behalf shall in any manner discriminate against or intimidate any employee involved in the manufacture of supplies, the performance of work or any other activity required under the Contract on account of gender, race, creed, or color.
- c. The Contractor and subcontractors shall establish and maintain a written sexual harassment policy and shall inform its employees of the policy. The policy must contain a notice that sexual harassment will not be tolerated and employees who practice it will be disciplined.
- d. The Contractor shall not discriminate by reason of gender, race, creed, or color against any subcontractor or supplier who is qualified to perform the work to which the contract relates.
- e. The Contractor and each subcontractor shall furnish all necessary employment documents and records to and permit access to its books, records, and accounts by the contracting officer and the Department of General Services' Bureau of Contract Administration and Business Development for purposes of investigation to ascertain compliance with the provisions of this Nondiscrimination/Sexual Harassment Clause. If the Contractor or any subcontractor does not possess documents or records reflecting the necessary information requested, it shall furnish such information on reporting forms supplied by the contracting officer or the Bureau of Contract Administration and Business Development.

- f. The Contractor shall include the provisions of this Nondiscrimination/Sexual Harassment Clause in every subcontract so that such provisions will be binding upon each subcontractor.
- g. The Commonwealth may cancel or terminate the Contract, and all money due or to become due under the Contract may be forfeited for a violation of the terms and conditions of this Nondiscrimination/Sexual Harassment Clause. In addition, the agency may proceed with debarment or suspension and may place the Contractor in the Contractor Responsibility File.

25. CONTRACTOR INTEGRITY PROVISIONS

- a. For purposes of this clause only, the words "confidential information," "consent," "contractor," "financial interest," and "gratuity" shall have the following definitions.
 - 1) **Confidential information** means information that is not public knowledge, or available to the public on request, disclosure of which would give an unfair, unethical, or illegal advantage to another desiring to contract with the Commonwealth.
 - 2) **Consent** means written permission signed by a duly authorized officer or employee of the Commonwealth, provided that where the material facts have been disclosed, in writing, by prequalification, bid, proposal, or contractual terms, the Commonwealth shall be deemed to have consented by virtue of execution of this agreement.
 - 3) **Contractor** means the individual or entity that has entered into the Contract with the Commonwealth, including directors, officers, partners, managers, key employees and owners of more than a five percent interest.
 - 4) **Financial interest** means:
 - a) Ownership of more than a five percent interest in any business; or
 - b) Holding a position as an officer, director, trustee, partner, employee, or the like, or holding any position of management.
 - 5) **Gratuity** means any payment of more than nominal monetary value in the form of cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind.
- b. The Contractor shall maintain the highest standards of integrity in the performance of the Contract and shall take no action in violation of state or federal laws, regulations, or other requirements that govern contracting with the Commonwealth.
- c. The Contractor shall not disclose to others any confidential information gained by virtue of the Contract.
- d. The Contractor shall not, in connection with this or any other agreement with the Commonwealth, directly, or indirectly, offer, confer, or agree to confer any pecuniary benefit on anyone as consideration for the decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty by any officer or employee of the Commonwealth.
- e. The Contractor shall not, in connection with this or any other agreement with the Commonwealth, directly or indirectly, offer, give, or agree or promise to give to anyone any gratuity for the benefit of or at the direction or request of any officer or employee of the Commonwealth.
- f. Except with the consent of the Commonwealth, neither the Contractor nor anyone in privity with him or her shall accept or agree to accept from, or give or agree to give to, any person, any gratuity from any person in connection with the performance of work under the Contract except as provided therein.
- g. Except with the consent of the Commonwealth, the Contractor shall not have a financial interest in any other contractor, subcontractor, or supplier providing services, labor, or material on this project.

- h. The Contractor, upon being informed that any violation of these provisions has occurred or may occur, shall immediately notify the Commonwealth in writing.
- i. The Contractor, by execution of the Contract and by the submission of any bills or invoices for payment pursuant thereto, certifies, and represents that he or she has not violated any of these provisions.
- j. The Contractor, upon the inquiry or request of the Inspector General of the Commonwealth or any of that official's agents or representatives, shall provide, or if appropriate, make promptly available for inspection or copying, any information of any type or form deemed relevant by the Inspector General to the Contractor's integrity or responsibility, as those terms are defined by the Commonwealth's statutes, regulations, or management directives. Such information may include, but shall not be limited to, the Contractor's business or financial records, documents or files of any type or form which refers to or concern the Contract. Such information shall be retained by the Contractor for a period of three years beyond the termination of the Contract unless otherwise provided by law.
- k. For violation of any of the above provisions, the Commonwealth may terminate this and any other agreement with the Contractor, claim liquidated damages in an amount equal to the value of anything received in breach of these provisions, claim damages for all expenses incurred in obtaining another Contractor to complete performance hereunder, and debar and suspend the Contractor from doing business with the Commonwealth. These rights and remedies are cumulative, and the use or nonuse of any one shall not preclude the use of all or any other. These rights and remedies are in addition to those the Commonwealth may have under law, statute, regulation, or otherwise.

26. CONTRACTOR RESPONSIBILITY PROVISIONS

- a. The Contractor certifies, for itself and all its subcontractors, that as of the date of its execution of the bid/contract, that neither the Contractor, nor any subcontractors, nor any suppliers are under suspension or debarment by the Commonwealth or any governmental entity, instrumentality, or authority and, if the Contractor cannot so certify, then it agrees to submit, along with its Bid, a written explanation of why such certification cannot be made.
- b. The Contractor must also certify, in writing, that as of the date of its execution of the bid/contract, it has no tax liabilities or other Commonwealth obligations.
- c. The Contractor's obligations pursuant to these provisions are ongoing from and after the effective date of the contract through the termination date thereof. Accordingly, the Contractor shall have an obligation to inform the Commonwealth if, at any time during the term of the Contract, it becomes delinquent in the payment of taxes, or other Commonwealth obligations, or if it or any of its subcontractors are suspended or debarred by the Commonwealth, the federal government, or any other state or governmental entity. Such notification shall be made within 15 days of the date of suspension or debarment.
- d. The failure of the Contractor to notify the Commonwealth of its suspension or debarment by the Commonwealth, any other state, or the federal government shall constitute an event of default of the Contract with the Commonwealth.
- e. The Contractor agrees to reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of State Inspector General for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the Commonwealth, which results in the suspension or debarment of the Contractor. Such costs shall include, but shall not be limited to, salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor shall not be responsible for investigative costs for investigations that do not result in the Contractor's suspension or debarment.
- f. The Contractor may obtain a current list of suspended and debarred Commonwealth contractors by either searching the internet at <http://www.dgs.state.pa.us> or contacting the:

Department of General Services
Office of Chief Counsel
603 North Office Building

Harrisburg, PA 17125
Telephone No. (717) 783-6472
FAX No. (717) 787-9138

27. AMERICANS WITH DISABILITIES ACT

- a. Pursuant to federal regulations promulgated under the authority of The Americans With Disabilities Act, 28 C.F.R. § 35.101 et seq., the Contractor understands and agrees that it shall not cause any individual with a disability to be excluded from participation in this Contract or from activities provided for under this Contract on the basis of the disability. As a condition of accepting this contract, the Contractor agrees to comply with the "General Prohibitions Against Discrimination," 28 C.F.R. § 35.130, and all other regulations promulgated under Title II of The Americans With Disabilities Act which are applicable to all benefits, services, programs, and activities provided by the Commonwealth of Pennsylvania through contracts with outside contractors.
- b. The Contractor shall be responsible for and agrees to indemnify and hold harmless the Commonwealth of Pennsylvania from all losses, damages, expenses, claims, demands, suits, and actions brought by any party against the Commonwealth of Pennsylvania as a result of the Contractor's failure to comply with the provisions of subparagraph a above.

28. HAZARDOUS SUBSTANCES

The Contractor shall provide information to the Commonwealth about the identity and hazards of hazardous substances supplied or used by the Contractor in the performance of the Contract. The Contractor must comply with Act 159 of October 5, 1984, known as the "Worker and Community Right to Know Act" (the "Act") and the regulations promulgated pursuant thereto at 4 Pa. Code Section 301.1 et seq.

- a. Labeling. The Contractor shall insure that each individual product (as well as the carton, container or package in which the product is shipped) of any of the following substances (as defined by the Act and the regulations) supplied by the Contractor is clearly labeled, tagged or marked with the information listed in Paragraph (1) through (4):
 - 1) Hazardous substances:
 - a) The chemical name or common name,
 - b) A hazard warning, and
 - c) The name, address, and telephone number of the manufacturer.
 - 2) Hazardous mixtures:
 - a) The common name, but if none exists, then the trade name,
 - b) The chemical or common name of special hazardous substances comprising .01% or more of the mixture,
 - c) The chemical or common name of hazardous substances consisting 1.0% or more of the mixture,
 - d) A hazard warning, and
 - e) The name, address, and telephone number of the manufacturer.
 - 3) Single chemicals:
 - a) The chemical name or the common name,
 - b) A hazard warning, if appropriate, and
 - c) The name, address, and telephone number of the manufacturer.

- 4) Chemical Mixtures:
- a) The common name, but if none exists, then the trade name,
 - b) A hazard warning, if appropriate,
 - c) The name, address, and telephone number of the manufacturer, and
 - d) The chemical name or common name of either the top five substances by volume or those substances consisting of 5.0% or more of the mixture.

A common name or trade name may be used only if the use of the name more easily or readily identifies the true nature of the hazardous substance, hazardous mixture, single chemical, or mixture involved.

Container labels shall provide a warning as to the specific nature of the hazard arising from the substance in the container.

The hazard warning shall be given in conformity with one of the nationally recognized and accepted systems of providing warnings, and hazard warnings shall be consistent with one or more of the recognized systems throughout the workplace. Examples are:

- NFPA 704, Identification of the Fire Hazards of Materials.
- National Paint and Coatings Association: Hazardous Materials Identification System.
- American Society for Testing and Materials, Safety Alert Pictorial Chart.
- American National Standard Institute, Inc., for the Precautionary Labeling of Hazardous Industrial Chemicals.

Labels must be legible and prominently affixed to and displayed on the product and the carton, container, or package so that employees can easily identify the substance or mixture present therein.

- b. Material Safety Data Sheet. The contractor shall provide Material Safety Data Sheets (MSDS) with the information required by the Act and the regulations for each hazardous substance or hazardous mixture. The Commonwealth must be provided an appropriate MSDS with the initial shipment and with the first shipment after an MSDS is updated or product changed. For any other chemical, the contractor shall provide an appropriate MSDS, if the manufacturer, importer, or supplier produces or possesses the MSDS. The contractor shall also notify the Commonwealth when a substance or mixture is subject to the provisions of the Act. Material Safety Data Sheets may be attached to the carton, container, or package mailed to the Commonwealth at the time of shipment.

29. COVENANT AGAINST CONTINGENT FEES

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure the contract purchase order upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty, the Commonwealth shall have the right to terminate the contract purchase order without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover the full amount of such commission, percentage, brokerage, or contingent fee.

30. APPLICABLE LAW

The Contract shall be governed by and interpreted and enforced in accordance with the laws of the Commonwealth of Pennsylvania (without regard to any conflict of laws provisions) and the decisions of the Pennsylvania courts. The Contractor consents to the jurisdiction of any court of the Commonwealth of Pennsylvania and any federal courts in Pennsylvania, waiving any claim or defense that such forum is not

convenient or proper. The Contractor agrees that any such court shall have in personam jurisdiction over it, and consents to service of process in any manner authorized by Pennsylvania law.

31. INTEGRATION

The RFQ - Invitation For Bids form and the Contract form, including all documents referenced on the forms, as well as the purchase orders constitute the entire agreement between the parties. No agent, representative, employee or officer of either the Commonwealth or the Contractor has authority to make, or has made, any statement, agreement or representation, oral or written, in connection with the Contract, which in any way can be deemed to modify add to or detract from, or otherwise change or alter its terms and conditions. No negotiations between the parties, nor any custom or usage, shall be permitted to modify or contradict any of the terms and conditions of the Contract. No modifications, alterations, changes, or waiver to the Contract or any of its terms shall be valid or binding unless accomplished by a written amendment signed by both parties or by a change order signed by the Commonwealth. All such amendments and change orders will be made using the appropriate Commonwealth form.

32. CHANGES

The Commonwealth reserves the right to make changes at any time during the term of the Contract or any renewals or extensions thereof: 1) to increase or decrease the quantities resulting from variations between any estimated quantities in the Contract and actual quantities; 2) to make changes to the supply within the scope of the Contract; 3) to exercise an option to purchase or early payment option; 4) to notify the Contractor that the Commonwealth is exercising any Contract renewal or extension option; or 5) to modify the time of performance that does not alter the scope of the Contract to extend the completion date beyond the Expiration Date of the Contract or any renewals or extensions thereof. Any such change shall be made by: a. the contracting officer shown on the Contract form, or b. the agency contracting officer for changes to purchase orders, by notifying the Contractor in writing. The change shall be effective as of the date of the notification of change, unless the change specifies a later effective date. Such increases, decreases, changes, modifications or exercises of purchase options will not invalidate the Contract, nor, if performance security is being furnished in conjunction with the Contract, release the security obligation. The Contractor agrees to provide the supply in accordance with the change. Any dispute by the Contractor in regard to the performance required by any notification of change shall be handled through Paragraph 22, "Contract Controversies".

EXHIBIT A-1

CONSTRUCTION PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All construction products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Construction Products	Material	% of Post-Consumer Materials	% of Total Recovered Materials
Structural Fiberboard	Recovered Materials	-	80
Laminated Paperboard	Post-consumer Paper	100	-
Rock Wool Insulation	Slag	-	75
Fiberglass Insulation	Glass Cullet	-	20
Cellulose Insulation (loose-fill and spray-on)	Post-consumer Paper	75	-
Perlite Composite Board Insulation	Post-consumer Paper	23	-
Plastic Rigid Foam, Polyisocyanurate/ Polyurethane: Rigid Foam Insulation	Recovered Material	-	9
Foam-in-Place Insulation	Recovered Material	-	5
Glass Fiber Reinforced Insulation	Recovered Material	-	6
Phenolic Rigid Foam Insulation	Recovered Material	-	5
Floor Tiles (heavy duty/commercial use)	Rubber	90	-
	Plastic	-	90
Patio Blocks	Rubber or Rubber Blends	90	-
	Plastic or Plastic Blends	-	90
Polyester Carpet Fiber Face	Polyethylene terephthalate (PET) resin	25	-
Latex Paint: --Consolidated ¹ --Reprocessed ² ----White, Off-White, Pastel Colors ----Grey, Brown, Earthtones, and Other Dark Colors	Recovered Material	100	-
	Recovered Material	20	-
	Recovered Material	50	-
Shower and Restroom Dividers/Partitions:	Plastic	20	-
	Steel ⁴	16	9
		67	33
Carpet Cushion: --Bonded Polyurethane --Jute --Synthetic Fibers --Rubber	Old Carpet Cushion	15	-
	Burlap	40	-
	Carpet Fabrication Scrap	-	100
	Tire Rubber	60	-
Railroad Grade Crossing Surfaces --Concrete --Rubber ³ --Steel ⁴	Coal Fly Ash	-	15
	Tire Rubber	-	85
	Steel	16	9
		67	33

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

¹ Consolidated latex paint used for covering graffiti, where color and consistency of performance are not primary concerns.

² Reprocessed latex paint used for interior and exterior architectural applications such as wallboard, ceiling, and trim; gutterboards; and concrete, stucco, masonry, wood, and metal surfaces.

³The recommended recovered materials content for rubber railroad grade crossing surfaces are based on the weight of the raw materials, exclusive of any additives such as binders or additives

⁴ The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured from either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the construction product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the construction product(s), to provide the Commonwealth with documentary evidence that the construction product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-2
VEHICULAR PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All vehicular products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Vehicular Product	Requirements
Re-Refined Oil	25% re-refined oil base stock for engine lubricating oils, hydraulic fluids, and gear oils.

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

"Re-refined oil" is oil that is manufactured with a minimum of twenty-five percent basestock made from used oil that has been recovered and processed to make it reusable as oil. Once the oil has been refined, no difference can be detected between re-refined and virgin oil.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the vehicular product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE REFERENCED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the vehicular product(s), to provide the Commonwealth with documentary evidence that the vehicular product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-3
PAPER PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All paper offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer content as shown below for the applicable products:

Item	Notes	Post-Consumer Content (%)
Printing and Writing Papers		
Reprographic	Business papers such as bond, electrostatic, copy, mimeo, duplicator and reproduction	30
Offset	Used for book publishing, commercial printing, direct mail, technical documents, and manuals	30
Tablet	Office paper such as note pads and notebooks	30
Forms bond	Bond type papers used for business forms such as continuous, cash register, sales book, unit sets, and computer printout, excluding carbonless	30
Envelope	Wove Kraft, white and colored (including manila) Kraft, unbleached Excludes custom envelopes	30 10 10
Cotton fiber	High-quality papers used for stationery, invitations, currency, ledgers, maps, and other specialty items	30
Text and cover	Premium papers used for cover stock, books, and stationery and matching envelopes	30
Supercalendered	Groundwood paper used for advertising and mail order inserts, catalogs, and some magazines	10
Machine finished groundwood	Groundwood paper used in magazines and catalogs	10
Papeteries	Used for invitations and greeting cards	30
Check safety	Used in the manufacture of commercial and government checks	10
Coated	Used for annual reports, posters, brochures, and magazines. Have gloss, dull, or matte finishes	10
Carbonless	Used for multiple-impact copy forms	30
File folders	Manila or colored	30
Dyed filing products	Used for multicolored hanging folders and wallet files	20
Index and card stock	Used for index cards and postcards	20
Pressboard	High-strength paperboard used in binders and report covers	20

Tags and tickets	Used for toll and lottery tickets, licenses, and identification and tabulating cards	20
Newsprint		
Newsprint	Groundwood paper used in newspapers	20
Commercial Sanitary Tissue Products		
Bathroom tissue	Used in rolls or sheets	20
Paper towels	Used in rolls or sheets	40
Paper napkins	Used in food service applications	30
Facial tissue	Used for personal care	10
General-purpose industrial wipers	Used in cleaning and wiping applications	40
Paperboard and Packaging Products		
Corrugated containers (<300 psi) (300 psi)	Used for packaging and shipping a variety of goods	25 25
Solid fiber boxes	Used for specialized packaging needs such as dynamite packaging and army ration boxes	40
Folding cartons	Used to package a wide variety of foods, household products, cosmetics, pharmaceuticals, detergent, and hardware	40
Industrial paperboard	Used to create tubes, cores, cans and drums	45
Miscellaneous	Includes "chipboard" pad backings, book covers, covered binders, mailing tubes, game boards, and puzzles	75
Padded mailers	Made from kraft paper that is usually brown but can be bleached white	5
Carrierboard	A type of folding carton designed for multipack beverage cartons	10
Brown papers	Used for bags and wrapping paper	5
Miscellaneous Paper Products		
Tray liners	Used to line food service trays. Often contain printed information.	50

"Post-consumer" content is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer content is part of the broader category of recovered material."

The Commonwealth of Pennsylvania recognizes that paper products are universally made with scrap material recovered from the manufacturing process; use of such materials is a standard practice, both efficient and economical for the paper maker; therefore, bidders of paper products need not certify that their products are made with "pre-consumer," "recovered," or "secondary" paper fiber.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the paper product(s) which the bidder is offering contains the required minimum percentage of post-consumer content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a mill certification must be completed and signed by the mill before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the paper product(s), to provide the Commonwealth with documentary evidence that the paper product(s) were in fact produced with the required minimum percentage of post-consumer content.

EXHIBIT A-4
LANDSCAPING PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All landscaping products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Landscaping Products	Recovered Material Content
Hydraulic Mulch: -----Paper -----Wood/Paper	100% (post-consumer) 100% (total)
Compost Made From Yard Trimmings and/or Food Waste	Purchase or use compost made from yard trimmings, leaves, grass clippings and/or food wastes for applications such as landscaping, seeding of grass or other plants, as nutritious mulch under trees and shrubs, and in erosion control and soil reclamation. DGS further recommends implementing a composting system for these materials when agencies have an adequate volume and sufficient space.
Garden Hose: -----Rubber and/or Plastic	60% (post-consumer)
Soaker Hose: -----Rubber and/or Plastic	60% (post-consumer)
Lawn and Garden Edging: -----Rubber and/or Plastic	30% (post-consumer)/30-100% (total)
Landscaping Timber and Posts: -----HDPE -----Mixed Plastics/Sawdust -----HDPE/Fiberglass -----Other mixed Resins	25% (post-consumer) + 50% (recovered) 50% (post-consumer) + 50% (recovered) 75% (post-consumer) + 20% (recovered) 50% (post-consumer) + 45% (recovered)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the landscaping product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the landscaping product(s), to provide the Commonwealth with documentary evidence that the landscaping product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

**EXHIBIT A-5
MISCELLANEOUS PRODUCTS
RECYCLED CONTENT**

(A) REQUIREMENT

All miscellaneous products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Miscellaneous Products	Recovered Material Content
Awards and Plaques -----Glass -----Wood -----Paper -----Plastic and Plastic/Wood Composites	75% (post-consumer) + 25% (recovered) 100% (total) 40% (post-consumer) 50% (post-consumer) + 45% (recovered)
Industrial Drums -----Steel ¹ -----Plastic (HDPE) -----Fiber (paper)	16% (post-consumer) + 9% (recovered) 30% (post-consumer) 100% (post-consumer)
Mats -----Rubber -----Plastic -----Rubber/Plastic Composite	75% (post-consumer) +10% (recovered) 10% (post-consumer) + 90% (recovered) 100% (post-consumer)
Pallets -----Wood -----Plastic -----Thermoformed -----Paperboard	95% (post-consumer) 100% (post-consumer) 25% (post-consumer) 50% (post-consumer)
Signage -----Plastic -----Aluminum -----Plastic Sign Posts/Supports -----Steel Sign Posts/Supports ²	80% (post-consumer) 25% (post-consumer) 80% (post-consumer) 16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered)
Sorbents -----Paper -----Textiles -----Plastics -----Wood ³ -----Other Organics/Multimaterials ⁴	90% (post-consumer) +10% (recovered) 95% (post-consumer) 25% (total) 100% (total) 100% (total)
Manual-Grade Strapping -----Polyester -----Polypropylene -----Steel ²	50% (post-consumer) 10% (total) 16% (post-consumer) +9% (recovered) 67% (post-consumer) +33% (recovered)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

¹Steel used in steel drums is manufactured using the Basic Oxygen Furnace (BOF) process, which contains 25-30% total recovered material, of which 16% is post-consumer steel. Steel used in manual-grade strapping is manufactured using either the BOF process or the Electric Arc Furnace (EAF) process, which contains 100% total recovered materials, of which 67% is post-consumer steel.

² The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured in either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

³ "Wood" includes materials such as sawdust and lumber mill trimmings.

⁴ Examples of other organics include, but are not limited to, peanut hulls and corn stover. An example of multimaterial sorbents would include, but not be limited to, a polymer and cellulose fiber combination.

² The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured in either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the miscellaneous product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the miscellaneous product(s), to provide the Commonwealth with documentary evidence that the miscellaneous product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-6
NONPAPER OFFICE PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All nonpaper office products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Nonpaper Office Product	Recovered Material Content
Recycling Containers and Waste Receptacles: -----Plastic -----Steel ¹ -----Paper -----Corrugated -----Solid Fiber Boxes -----Industrial Paperboard	20% (post-consumer) 16% (post-consumer) +9% (recovered) 25% (post-consumer) 40% (post-consumer) 40% (post-consumer) + 60% (recovered)
Plastic Desktop Accessories (polystyrene) including desk organizers, sorters, and trays, and memo, note, and pencil holders.	25% (post-consumer)
Binders: -----Plastic-Covered -----Paper-Covered -----Pressboard -----Solid Plastic -----HDPE -----PE -----PET -----Misc. Plastics	25% 75% (post-consumer) +15% (recovered) 20% (post-consumer) + 30% (recovered) 90% (post-consumer) 30% (post-consumer) 100% (post-consumer) 80% (post-consumer)
Trash Bags (plastic)	10% (post-consumer)
Toner Cartridges	Return used toner cartridges for remanufacturing and reuse or purchase a remanufactured or recycled-content replacement cartridge.
Printer Ribbons	Procure printer ribbon reinking or reloading services or procure reinked or reloaded printer ribbons.
Plastic Envelopes	25% (post-consumer)
Plastic Clipboards: -----HDPE -----PS -----Misc. Plastics	90% (post-consumer) 50% (post-consumer) 15% (post-consumer)
Plastic File Folders -----HDPE	90% (post-consumer)
Plastic Clip Portfolios -----HDPE	90% (post-consumer)
Plastic Presentation Folders -----HDPE	90% (post-consumer)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

¹ The recommended recovered materials content levels for steel in this table reflect the fact that the designated item is made from steel manufactured from in a Basic Oxygen Furnace (BOF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel.

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the nonpaper office products which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the paper, to provide the Commonwealth with documentary evidence that the nonpaper office product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

EXHIBIT A-7
PARK & RECREATION PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All park and recreation products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Park & Recreation Product	Recovered Material Content ¹
Park Benches & Picnic Tables:	
-----Plastic ²	90% (post-consumer) + 10% (recovered)
-----Plastic Composites	50% (post-consumer) + 50% (recovered)
-----Aluminum	25% (post-consumer)
-----Concrete	15% (total)
-----Steel ³	16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered)
Plastic Fencing for Specified Uses⁴	60% (post-consumer) + 30% (recovered)
Playground Equipment	
-----Plastic ³	90% (post-consumer) + 10% (recovered)
-----Plastic Composites	50% (post-consumer) + 45% (recovered)
-----Steel ⁴	16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered)
-----Aluminum	25% (post-consumer)
Playground Surfaces:	
-----Plastic or Rubber	90% (post-consumer)
Running Tracks:	
-----Plastic or Rubber	90% (post-consumer)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the park and recreational product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the park and recreational product(s), to provide the Commonwealth with documentary evidence that the park and recreational product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

¹ The recommended recovered materials content levels are based on the dry weight of the raw materials, exclusive of any additives such as adhesives, binders, or coloring agents.

² "Plastic" includes both single and mixed plastic resins. Park benches and picnic tables made with recovered plastic may also contain other recovered materials such as sawdust, wood, or fiberglass. The percentage of these materials contained in the product would also count toward the recovered materials content level of the item.

³ The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured from either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (AF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

⁴ Designation includes fencing containing recovered plastic for use in controlling snow or sand drifting and as a warning/safety barrier in construction or other applications.

EXHIBIT A-8
TRANSPORTATION PRODUCTS
RECYCLED CONTENT

(A) **REQUIREMENT**

All transportation products offered by the bidder, or included in the final product offered by the bidder, and sold to the Commonwealth **must** contain the minimum percentage of post-consumer and recovered material content as shown below for the applicable products:

Transportation Products	Recovered Material Content ¹
Traffic Cones: ----Plastic (PVC and LDPE) ----Crumb Rubber	50% (recovered) 50% (recovered)
Traffic Barricades (type I and II only): ----Plastic (HDPE, LDPE, PET) ----Steel ² ----Fiberglass	80% (post-consumer) + 20% (recovered) 16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered) 100% (recovered)
Parking Stops: ----Plastic and/or Rubber ----Concrete Containing Coal Fly Ash ----Concrete Containing Ground Granulated Blast Furnace Slag	100% (recovered) 20% (recovered) 15% when used as a partial cement replacement as an admixture in concrete. 25% (recovered)
Traffic Control Devices: ----Channelizers: -----Plastic -----Rubber (base only) ----Delineators: -----Plastic -----Rubber (base only) -----Steel (base only) ² ----Flexible Delineators	25% (post-consumer) 100% (post-consumer) 25% (post-consumer) 100% (post-consumer) 16% (post-consumer) + 9% (recovered) 67% (post-consumer) + 33% (recovered) 25% (post-consumer)

"Post-consumer" material is "material or finished product that has served its intended use and has been diverted or recovered from waste destined for disposal, having completed its life as a consumer item. Post-consumer material is part of the broader category of recovered material."

"Recovered Materials" refers to waste materials and by-products which have been recovered or diverted from solid waste, but does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process

(B) **BIDDER'S CERTIFICATION**

Bidder certifies that the transportation product(s) which the bidder is offering contains the required minimum percentage of post-consumer and recovered material content as shown above for the product.

(C) **MANUFACTURER/MILL CERTIFICATION**

In addition to the Bidders Certification in Subsection (B), a manufacturer certification must be completed and signed by the manufacturer before payment will be made to the successful bidder for the delivered items. The enclosed Manufacturer/Mill Certification form must be used. Bidders are not required to submit the completed and signed Manufacturer/Mill Certification form with their bids. **THE COMMONWEALTH SHALL HAVE NO OBLIGATION TO PAY FOR THE ITEM(S) UNTIL A PROPERLY COMPLETED AND SIGNED MANUFACTURER/MILL CERTIFICATION IS SUBMITTED FOR THE DELIVERED ITEM.**

(D) **ENFORCEMENT**

Awarded bidders may be required, after delivery of the transportation product(s), to provide the Commonwealth with documentary evidence that the transportation product(s) were in fact produced with the required minimum percentage of post-consumer and recovered material content.

¹ Content levels are based on the dry weight of the raw materials, exclusive of any additives such as adhesives, binders, or coloring agents.

² The recommended recovered materials content levels for steel in this table reflect the fact that the designated items can be made from steel manufactured from either a Basic Oxygen Furnace (BOF) or an Electric Arc Furnace (EAF). Steel from the BOF process contains 25-30% total recovered materials, of which 16% is post-consumer steel. Steel from the EAF process contains a total of 100% recovered steel, of which 67% is post-consumer.

MANUFACTURER/MILL CERTIFICATION

(To be submitted with invoice for each order)

TO BE COMPLETED BY MANUFACTURER/MILL:

NAME OF MANUFACTURER/MILL: _____

ADDRESS OF MANUFACTURER/MILL: _____

FEDERAL EMPLOYER I.D. NO.: _____

CONTRACT OR REQUISITION NO. _____

NAME OF CONTRACTOR: _____

ADDRESS OF CONTRACTOR: _____

Type of product(s) which the manufacturer/mill furnished to the contractor: _____

CERTIFICATION: I, the undersigned officer of the above-named manufacturer/mill, do hereby certify that I am authorized to provide this certification on behalf of the above-named manufacturer/mill and that the type of product(s) listed above which my company furnished to the contractor named above for the referenced contract or purchase requisition, contained not less than _____% post-consumer materials and _____% recovered materials as those terms are defined in the invitation for bids. I understand that this document is subject to the provisions of the Unsworn Falsification of Authorities Act (18 P.S. Section 4904).

APPENDIX C – MINIMUM QUALIFICATIONS TO RESPOND TO RFP

Non-acceptance of or non-compliance with any minimum qualification, or modification of, or the placing of conditions on acceptance or compliance with any of the minimum qualifications, in whole or in part, may result in immediate disqualification.

All the questions listed below must be answered. In the event of a “No” answer to any question, please accept our appreciation for your interest, and understand that, since CWOPA requires a minimum level of qualification, your proposal may not be deemed responsive.

This document applies to all 11 Lots listed in the RFP. Please check all lots that you will be proposing upon.

- Lot 1 – Lumber Products
Dimensional, Pressure Treated
- Lot 2 – Specialty Lumber Products
Rough Cut, Plywood
- Lot 3 – Paint (Interior & Exterior) and other coatings
- Lot 4 – Drywall, Spackling
- Lot 5 – Doors and Windows and Weather-stripping
- Lot 6 – Roofing Materials
- Lot 7 – Siding
- Lot 8 – Insulation
- Lot 9 – Gutters & Downspouts
- Lot 10 – Brick, Block, Pavers and Crushed Stone
- Lot 11 – Fencing and Gates

CHECK “YES” TO ACCEPT or CHECK “NO” TO REJECT.

Yes No

- 1. Have you submitted a complete response to this RFP using the proposal format provided in RFP Part 1?
- 2. Do you agree that unless your proposal arrives by the time specified in the RFP Calendar of Events, that it will be rejected?
- 3. Do you agree to accept all of the terms and conditions of this RFP as stated in Appendix A: Standard Contract Terms and Conditions?
- 4. Do you agree to provide supplies for all lots you have checked above to all Commonwealth agencies in all counties within state of Pennsylvania, listed in Appendix I – PA County List

5. Do you agree to provide a dedicated Customer Service Team as described in Part IV-3(d) of Work Statement of this RFP?
6. Do you agree to provide a dedicated Account Manager that will perform the duties described in Part IV-3(e) Work Statement?
7. Do you agree to **ship all** items F.O.B. Destination, prepaid and allowed in accordance to the delivery timeframe set forth in Part IV-4 Task (a) Delivery and Minimum Orders in the RFP?
8. Do you agree to uphold either a thirty-day (30) warranty or the manufacturer warranty (whichever is greater) as specified in Part IV-4 Task (c) Warranty?
9. Do you agree to the Ordering parameters set forth in Part IV-4 Task (d) Orders?
10. Do you agree to the Returns parameters set forth in Part IV-4 Task (e) Returns?
11. Do you agree to the Invoicing parameters set forth in Part IV-4 Task (f) Invoicing?
12. Do you agree to accept purchasing cards as means of payment, when applicable?
14. Do you agree to provide Bureau of Procurement contract administrator quarterly reports as described in Part IV-4 Task (h) Reports?
15. Has the proposal been signed by an official authorized to bind the contract to its provisions?
16. Is the proposal formatted such that all cost data is kept separate from and not included in the technical proposal?

APPENDIX D – TECHNICAL QUESTIONNAIRE

Instructions: This is a template to describe your Technical capabilities. Answer all of the following questions in full. If a question is not applicable, or if there is no response, so state that. References to supporting documentation provided outside the specific sections should have appropriate page number and reference. Address only those components requested.

This document applies to all 11 Lots listed in the RFP. Please check all lots that you will be proposing upon.

- Lot 1 – Lumber Products
Dimensional, Pressure Treated, etc.
- Lot 2 – Specialty Lumber Products
Rough cut, Plywood, etc.
- Lot 3 – Paint (Interior & Exterior) and other coatings
- Lot 4 – Drywall, Spackling Materials
- Lot 5 – Doors, Windows & Weather-stripping
- Lot 6 – Roofing Materials
- Lot 7 – Siding
- Lot 8 – Insulation
- Lot 9 – Gutters & Downspouts
- Lot 10 – Brick, Block Pavers and Crushed Stone
- Lot 11 – Fencing and Gates

1. Given that CWOPA requires proof of your company's ability to service a contract of this size, CWOPA asks that you describe your company's business in full (scope, years in business etc.) including references of similar sized accounts. Please include contact information for any references that are provided. As specified in Part IV, Work Statement, IV-3 Requirements (c) Company Capabilities.

2. Please describe your company's current service/support/distribution infrastructure that will be used to service CWOPA under this award.

Copy of APPENDIX D to RFP (Technical Questionnaire)

3. What enhancements to this service/support/distribution network would be necessary to service CWOPA under this contract?

4. Provide a network map/organization structure illustrating the locations and resources that comprise your service/support/distribution network.

5. Utilizing the following table, please indicate what service/support/distribution centers products would be pulled from to fulfill orders for the counties listed in the delivery timeframes specified in Part IV, Work Statement, Section IV-4.(a), Delivery and Minimum Orders. Also indicate for each county the name and address for any retail centers in which CWOPA could pick-up orders in person should they need to do so. Cells shaded in yellow should be populated for each of the corresponding counties.

Copy of APPENDIX D to RFP (Technical Questionnaire)

6. Describe your company's inventory of products. How will your company's inventory meet CWOPA's requirements such as maintaining fill rates of 95% or greater?

7. What is your process for handling backorders and out of stock items?

8. Outline your plan for marketing the products for all using agencies, explain how your company will educate your sales force and support team about this contract. In the event that CWOPA orders the wrong item, the item will be returned to the supplier (either to the distribution center or the closest retail center) at the expense of CWOPA. Credit for returned goods shall be made immediately after the shipper receives the returned item(s). There shall be no restocking fees assessed to CWOPA or eligible contract users.

9. Please describe the account manager's approach on overseeing the entire operation, acting as an issue escalation catalyst, handling customer complaints, resolving problems, proactively addressing cost savings and optimization opportunities, and more importantly, being accountable for the contractor's performance statewide. As specified in Part IV Work Statement, Section IV-3(e) Account Manager. Describe your company's ability to provide detailed management reporting. Identify the level(s) (Agency, Department, Individual) of reporting detail available in sales dollars and sales history by item description, part number, quantity, NIGP codes.

10. Describe your company's ability to utilize electronic data interchange (EDI), on-line live-chat capabilities and Internet ordering, payment (Master-card or Visa) and shipment tracing. Describe the state of E-Commerce within your company and the benefits.

11. Describe your company's implementation and success with existing cooperative purchasing programs, if any, and provide the entity's name(s), contact person(s) and phone number.

Copy of APPENDIX D to RFP (Technical Questionnaire)

12. Describe in detail your dedicated customer representative team in charge of processing orders, receiving payments, scheduling delivery, hours/days of operation, shipment tracing, links to shippers (UPS, FedEx, USPS, etc., tracking backorders, special orders, after sale issues, sending invoices, and creating monthly reports. Include your proposed number of dedicated representatives, their hours of operation, and their relative experience with building supplies. How does this team intend to deliver high customer satisfaction ratings? Will this team be available outside of normal business hours? As specified in Part IV Work Statement, Section IV-3(d) Customer Service Representative Team.

13. Describe your company's internal management system for processing orders from point of customer contact through delivery and billing. Please state: 1.) If your Internet ordering system is OBI (open buying on the internet) compatible; 2.) If you use a single system or platform for all phases of the ordering, processing, delivery and billing.

14. Describe your policy regarding: (A) Quality Assurance, (B) Auditing outbound orders for completeness and proper packaging; (C) Replacement policy (i.e., damaged or defective materials); (D) Return policy.

15. Describe the administrative systems that are in place at the company to support all CWOPA reporting requirements described in Part IV Work Statement, Section IV-4(h) Reports. Reporting requirements include at a minimum the following fields to be queried at both a line item and summary level: CWOPA agency, order date, item category, manufacturer, manufacturer part number, line item description, quantity, list price, CWOPA % discount, CWOPA price, and purchasing method (PO or p-card). Describe any enhanced reporting capabilities, capability to deliver reports electronically, direct access to reports through the web site or other database that may be used to administer the contract. As specified in Part IV, Work Statement, Section IV-4 (i) Electronic Interface.

Copy of APPENDIX D to RFP (Technical Questionnaire)

16. Describe your online capabilities. Do you have a website? Can CWOPA order items from the website? How often is your online catalog updated? As specified in Appendix IV Work Statement, Section IV-4(j).

17. Describe how commodity orders are processed and moved to arrive “Just-In-Time” for Commonwealth agencies placing an order. CWOPA defines JIT as receipt within five (5) business days after receipt of order (ARO).

18. Please describe in detail your company’s system for pricing Lot 1, Lumber products? And Lot 2, Specialty Lumber.

19. Describe how you intend to notify your retail locations on how to handle any purchases by Commonwealth agencies to receive correct CWOPA contract pricing? What will Commonwealth agencies be required to present if customer pickup at one of your retail locations is necessary?

20. How will Commonwealth agencies receive ordering confirmation?

21. CWOPA is fully committed to manage compliance and purchase Building Supplies from the awarded contractor of each lot in order to maximize savings through this new contract. However, the contractor must understand that this is a complex task, and in order to achieve this goal, CWOPA must use all of its resources, ideas, as well as procurement guidelines to ensure 100% utilization of this contract. Therefore, CWOPA is asking that your company describe creative suggestions or a comprehensive plan to help CWOPA maximize utilization of this contract across the participating agencies.

APPENDIX E – Detailed Description of Lots

Lot 1 – Lumber Products– Dimensional, Pressure Treated, etc.

Lot 1 in Appendix G – Price Submittal contains a representative list of lumber products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 1, Lumber Products. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of lumber materials at the negotiated discount.

Lot 2 – Specialty Lumber Products– Rough Cut, Plywood, etc.

Lot 2 in Appendix G – Price Submittal contains a representative list of specialty lumber products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 2, Specialty Lumber Products. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of lumber materials at the negotiated discount.

Lot 3 - Latex Paint (Interior & Exterior) and other coatings

Lot 3 in Appendix G – Price Submittal contains a representative list of latex paint products and other coatings commonly utilized by CWOPA, such as items listed in Appendix F, Lot 3, Paint. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of painting materials at the negotiated discount.

Lot 4 – Drywall & Spackling Materials

Lot 4 in Appendix G – Price Submittal contains a representative list of drywall and spackling material products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 4, Drywall & Spackling Materials. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of drywall/spackling materials at the negotiated discount.

Lot 5 – Doors & Windows and Weather-stripping

Lot 5 in Appendix G – Price Submittal contains a representative list of doors, window and weather stripping products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 5, Doors, Windows & Weather-stripping. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of doors, windows and weather-stripping materials, at the negotiated discount.

Lot 6 - Roofing Materials

Lot 6 in Appendix G - Price Submittal contains a representative list of roofing products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 6, Roofing Materials. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of roofing materials at the negotiated discount.

Lot 7 - Siding

Lot 7 in Appendix G - Price Submittal contains a representative list of siding materials commonly utilized by CWOPA, such as items listed in Appendix F, Lot 7, Siding. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of siding materials at the negotiated discount.

Lot 8 - Insulation

Lot 8 in Appendix G - Price Submittal contains a representative list of building insulation products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 8, Insulation. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of insulation materials at the negotiated discount.

Lot 9 - Gutters & Downspouts

Lot 9 - in Appendix G - Price Submittal contains a representative list of gutter and downspout products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 9, Gutters & Downspouts. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of gutters and downspout materials at the negotiated discount.

Lot 10 - Brick, Block, Pavers and Crushed Stone

Lot 10 - in Appendix G - Price Submittal contains a representative list of brick, block, pavers and crushed stone products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 10, Brick, Block, Pavers & Crushed Stone. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of brick, block, pavers and crushed stone materials at the negotiated discount.

Lot 11 - Fencing and Gates

Lot 11 - in Appendix G - Price Submittal contains a representative list of fencing and gate products commonly utilized by CWOPA, such as items listed in Appendix F, Lot 11, Fencing & Gates. This is not an exhaustive list of items used by the Commonwealth. If awarded the contract, the contractor must offer CWOPA access to the items/manufacturers listed, as well as their full breadth of fencing and gates at the negotiated discount.

APPENDIX J - RECIPROCAL LIMITATIONS ACT REQUIREMENTS

THIS FORM MUST BE COMPLETED AND RETURNED WITH THE TECHNICAL SUBMITTAL PORTION OF YOUR PROPOSAL

I. OFFEROR'S RESIDENCY

A. In determining whether the offeror is a nonresident offeror from a state that gives or requires a preference to offerors from that state, the address given on the offeror's Attachment G – Cover Sheet shall be used by the Commonwealth. If that address is incorrect, or if no address is given, the correct address should be provided in the space below:

Correct Address:

II. PENNSYLVANIA RESIDENT PREFERENCE

In order to claim the preference provided under Section I-33, Pennsylvania resident offerors must complete the following or have such information on file with the Issuing Office:

1. Address of offeror's bona fide establishment in Pennsylvania at which it was transacting business on the date when this RFP was issued:

2. a. If the offeror is a corporation:

(1) The corporation is or is not incorporated under the laws of the Commonwealth of Pennsylvania.

(a) If the offeror is incorporated under the laws of the Commonwealth of Pennsylvania, provide date of incorporation:

(b) If the offeror is not incorporated under the laws of the Commonwealth of Pennsylvania, it must have a certificate of authority to do business in the Commonwealth of Pennsylvania from the Pennsylvania Department of State as required by the Pennsylvania Business Corporation Law (15 P.S. §2001). Provide date of issuance of certificate of authority:

(2) The corporation is or is not conducting business in Pennsylvania under an assumed or fictitious name. If the offeror is conducting business under an assumed or fictitious name, it must register the fictitious name with the Secretary of the Commonwealth and the office of the prothonotary of the county wherein the registered office of such corporation is located as required by the Fictitious Corporate Name Act, as amended 15 P.S. §51 et seq. Corporate offerors conducting business under an assumed or fictitious name must provide date of registry of the assumed or fictitious name:

b. If the offeror is a partnership:

(1) The partnership is or is not conducting business in Pennsylvania under an assumed or fictitious name. If the offeror is conducting business under an assumed or fictitious name, it must file with the Secretary of the Commonwealth and the office of the prothonotary the county wherein the principal place of business is located as required by the Fictitious Name Act of May 24, 1945, P.L. 967, as amended 54 P.S. §28.1. Partnerships conducting business under an assumed or fictitious name must provide the date of filing of the assumed or fictitious name with the Secretary of the Commonwealth:

(2) The partnership is or is not a limited partnership formed under the laws of any jurisdiction other than the Commonwealth of Pennsylvania. If the offeror is an Out-of-state limited partnership, it must register with the Pennsylvania Department of State as required by the Act of July 10, 1981, P.L. 237, as amended, 59 Pa. C.S.A. §503. Out-of-state limited partnerships must provide the date of registry with the Pennsylvania Department of State:

c. If the offeror is an individual:

He or she is or is not conducting business under an assumed or fictitious name. If the offeror is conducting business under an assumed or fictitious name, he or she must file with the Secretary of the Commonwealth and the office of the prothonotary in the county wherein the principal place of business is located as required by the Fictitious Name Act of May 24, 1945, P.L. 967, as amended, 54 P.S. §28.1. Individuals conducting business under an assumed or fictitious name must provide the date of filing of the assumed or fictitious name with the Secretary of the Commonwealth:

Typographic Conventions

Type Style	Description
<i>Example text</i>	Words or characters quoted from the screen. These include field names, screen titles, pushbuttons labels, menu names, menu paths, and menu options. Cross-references to other documentation.
Example text	Emphasized words or phrases in body text, graphic titles, and table titles.
EXAMPLE TEXT	Technical names of system objects. These include report names, program names, transaction codes, table names, and key concepts of a programming language when they are surrounded by body text, for example, SELECT and INCLUDE.
Example text	Output on the screen. This includes file and directory names and their paths, messages, names of variables and parameters, source text, and names of installation, upgrade and database tools.
Example text	Exact user entry. These are words or characters that you enter in the system exactly as they appear in the documentation.
<Example text>	Variable user entry. Angle brackets indicate that you replace these words and characters with appropriate entries to make entries in the system.
EXAMPLE TEXT	Keys on the keyboard, for example, F2 or ENTER.

2 Introduction

The *Open Catalog Interface (OCI)* incorporates external product catalogs into *SRM Server* applications. This way, data that is required in order to create shopping cart items in the *SRM Server* can be transferred directly from the external catalog to the *SRM Server* application. The interface uses the transfer mechanisms of Hyper Text Transfer Protocol (HTTP).

OCI/OPI Overview

© SAP AG 2003, Title of Presentation, Speaker Name / 2

THE BEST-RUN BUSINESSES RUN SAP 

Graphic 1: System landscape

The user here is working with an *SRM Server* application, which displays the available catalogs. The user calls up one of these, selects the required products, and then transfers the product data back to the *SRM Server* application.

This documentation describes both the architecture and the structure of the *OCI* and thus provides all the information that is necessary to support the *OCI* with a product catalog. Also, the possible processes and their prerequisites are described. The documentation has been written both for producers of catalogs and for system administrators of *SRM Server* systems.

[Section 3](#) describes how the *SRM Server* calls the catalog. [Section 4](#) shows how the data is transferred from the catalog to the *SRM Server*. [Section 5](#) covers the handling of the different browser windows and [Section 6](#) gives some reference points for troubleshooting.

3 Calling Up the Catalog Using the SRM Server

In order for a product catalog to be called up via the Intranet or Internet, its URL must be known in the *SRM Server*. If the product catalog requires additional parameters for the call-up (for example, log-on names or language identifier), these must also be known in the *SRM Server* before the call-up.

OCI/OPI architecture I: call of the services

1. The SRM Server application shows the available service providers (product catalogs resp. vendor directories).
2. After the user has chosen one of them, the user will be redirected to the according web site. Therefore the parameters will be used, that have been maintained in the SRM Server customizing previously.

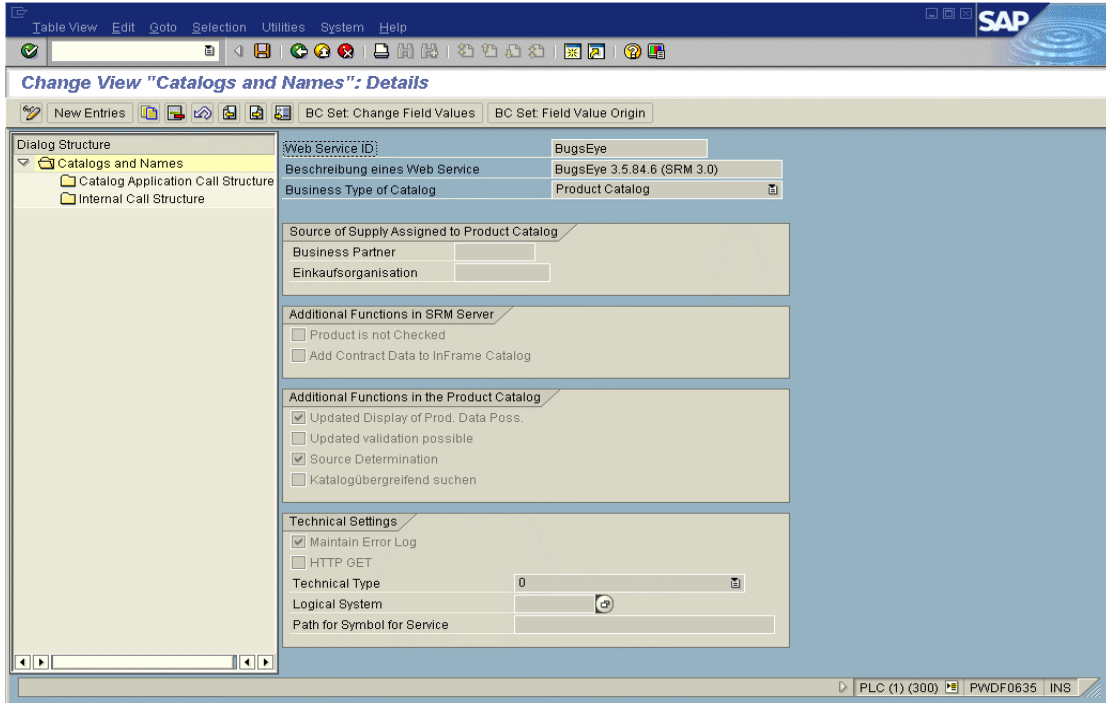

Graphic 2: Call-up

The URL and the catalog parameters are defined in the Implementation Guide (IMG) for *Supplier Relationship Management: SRM Server* → *Master Data* → *Define External Web Services (Catalogs, Vendor Lists etc.)*. In the technical settings (see graphic 3), you can set GET or POST as the HTTP method for the call-up, the standard value is POST. The user's browser is then used to call up the catalog using the URL and the parameters.

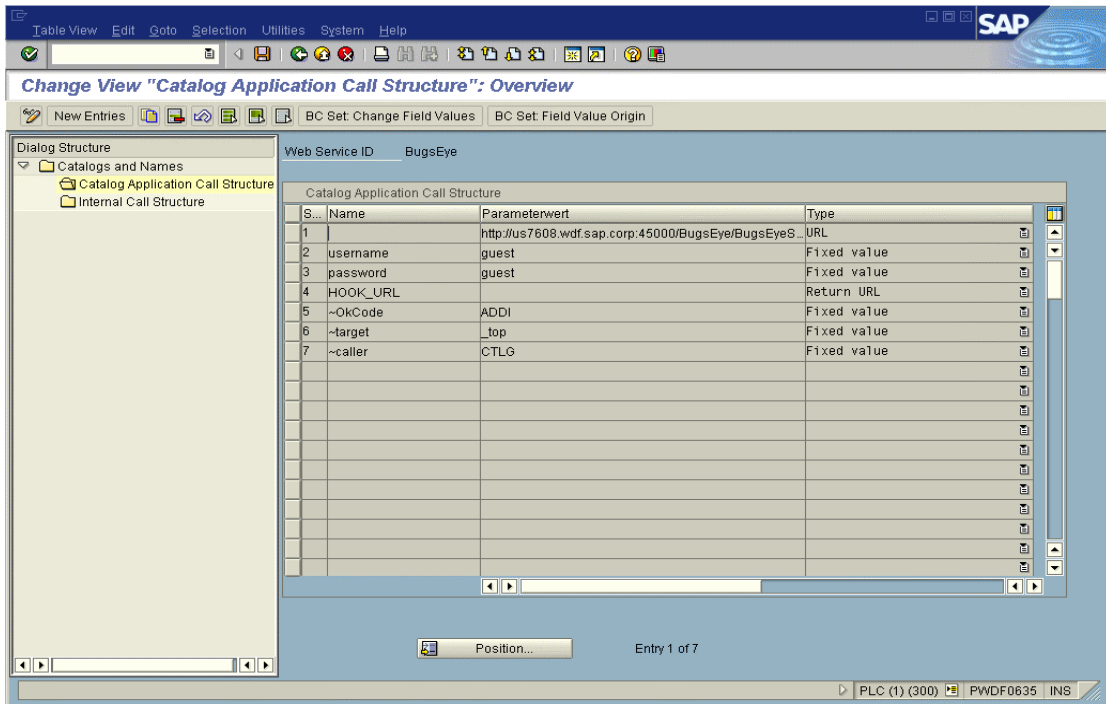

Depending on the situation, other parameters besides those defined in the Implementation Guide (IMG) for *Supplier Relationship Management* can also be transferred to the catalog on call-up. These might be, for example, to provide the catalog with generic data or to trigger specific functions in the catalog. A summary of the transferred parameters is shown in [Section 3.3](#).

3.1 Settings in the SRM Server

The following two graphics show the maintenance screens for a product catalog in the SRM Server. You can find the complete documentation on these in the description of the IMG activity (*Define External Web Services (Catalogs, Vendor Lists etc.)*).

Graphic 3: The maintenance screen for general product catalog data

Graphic 4: The maintenance screen for the URL and parameters of the product catalog

In the *SRM Server*, you must enter the URL and parameters of the catalog in the following order in the IMG activity (*Define External Web Services (Catalogs, Vendor Lists etc.)*)

3.1.1 URL of the Product Catalog

You enter the URL of the catalog in the first line of the call structure; all subsequent entries (including the return URL in line 4) are transferred to the catalog as parameters. You do not need to specify a parameter name for the URL itself. *URL* is used here as the type. If the URL is longer than the field, you can distribute the URL over several successive fields that are then all of type *URL*. Parameters may not be entered as part of the URL; they must be maintained separately as described in the following section.

3.1.2 Parameters

Following the URL, you must specify all parameters that the catalog requires on call-up. The provider of the catalog must have documented the names and valid values of these parameters.

The parameter type can be either *fixed value* or *SAP Field*. This parameter type determines how the value of the parameter is determined from the column *Content*. In the case of fixed values, the value of the parameter is entered directly in the column *Content*. In the case of parameters of type *SAP Field* (generic parameters), however, the name of a SAP System variable is there. For the value of the parameter, the content of this system variable at runtime is used. This way it is possible, for example, to transfer the system language as a parameter (you choose *SAP Field* as type and *sy-langu* as content). In this manner, you can transfer all the globally available fields at runtime from the *SRM Server* as parameters.

Transfer of additional parameters

If the fixed values and the generic parameter values are not sufficient for the chosen process, you can implement the Business Add-In (BAI) *Transfer Additional Parameters* (BBP_CAT_CALL_ENRICH) to transfer additional parameters from the *SRM Server* System to the catalog. In this BAI, you can determine multiple name-value pairs that are then transferred to the catalog when it is called up. Also, if the format of generic parameters is to be changed (for example, if the system language is to be transferred in a different format: *DE-de* instead of simply *DE*), you can use this BAI to convert these parameters.

As of *SRM 2.0*, a sample implementation is available for the BAI *Transfer Additional Parameters* (BBP_CAT_CALL_ENRICH), which reads the relevant user data in the *SRM Server* and transfers it to the catalog (however, the sample implementation is only run if the business type of the category is set to *E-form*).

As an example of how this data can be used by the catalog, see the ASP page (ASP = Active Server Pages) that is stored in the *SRM Server* System in the Internet Service BBP_FREEFORM in the file *freeform.zip*. When you open all the data in an executable directory on an ASP-compatible Web server, you can use this page as a catalog application for ordering business cards. All the form fields automatically have the default values that have previously been transferred by the BAI implementation. The user need only check the accuracy of the entries.

This ASP page can, of course, only serve as a template. The example is intended to show the options that are available on a project basis with a catalog and the implementation of the BAI *Transfer Additional Parameters* (BBP_CAT_CALL_ENRICH).

3.1.3 Return URL

The return URL is required so that the data from the catalog can be transferred back to the *SRM Server* application via the user's browser. The catalog must place it in the *Action* attribute of the transfer form. The return URL is also transferred to the catalog as a parameter. It usually contains other parameters (see below) that must first be extracted and placed in separate input fields (of type *hidden*) of the form.

All parameters *after* the return URL are generated as parameters for the return URL; they are not transferred to the catalog as individual parameters ([see graphic 4. lines 5-7](#)). You can name the parameter for the return URL as you wish since the parameter must be evaluated by the catalog (usually *HOOK_URL* is used as the parameter name). The value of the return URL must be empty; the actual return URL is determined during run time.

As of *SRM Server 4.0*, the specification of the return URL and the following parameters ([see graphic 4. lines 5-7](#)) is optional in Customizing. If they are not specified, the return URL including the parameters is generated automatically. In this case *HOOK_URL* is used as the name for the return URL. The name of the return URL must be specified only if the catalog expects a different name for the return URL than *HOOK_URL*. Even if the name has been specified for the return URL, as of *SRM Server 4.0* the parameters for the return URL need no longer be specified; they are also generated automatically in this case.

3.2 Additional Functions in the Product Catalog

The product catalog can provide additional functions that can be used by *SRM Server* applications. In order to trigger these functions, additional parameters (defined within *OCI*) are transferred to the catalog when it is called up. If the product catalog supports one or more of the following functions, this is to be stated in the product catalog documentation. This is because an appropriate flag must be set in *SRM Server* Customizing so that the relevant *SRM Server* application can make use of the functionality. The fact that the interface supports the additional functionality does not necessarily mean that the functionality is actually used by a *SRM Server* application.

Currently the following functionality is supported by the *OCI*:

3.2.1 Detailed Display of a Product or Service

A product that has already been transferred to a *SRM Server* document via the *OCI* is to be displayed again later in the catalog. This serves to make available detail data that may not be defined in the *OCI* and that is also not available in the *SRM Server*.

In order to trigger the function, the following parameters are transferred to the product catalog on call-up:

Name	Value
FUNCTION	DETAIL
PRODUCTID	<Database key for the product in the catalog>

Then the product catalog should immediately display the detail view of the corresponding product. With this function no data is transferred from the product catalog to the *SRM Server*.

A prerequisite for this function is that previously, the first time this product was transferred from the product catalog to the *SRM Server* System, the field *NEW_ITEM-EXT_PRODUCT_ID[]* was filled with the database key of the product in the catalog. In addition, in *SRM Server* Customizing (in the IMG activity (*Define External Web Services, Catalogs, Vendor Lists etc.*) for the corresponding catalog, the flag *Display Prod. Data Again in Catalog* must be set.

3.2.2 Validation of a Product

If an item from a product catalog has been added to a template for an *SRM* document then it is possible, for example, that the price of the product has changed over time. If a new *SRM* document were to be created from this template, the price change would normally not be taken into account. The function serves to update the product information in the template while the *SRM* document is being created.

In order to trigger the function, the following parameters are transferred to the product catalog on call-up:

Name	Value
FUNCTION	VALIDATE
PRODUCTID	<Database key for the product in the catalog>
QUANTITY	<Current purchase order quantity>

The parameter QUANTITY is transferred as of *OCI 3.0* so that the catalog can determine the correct price from a scale, if appropriate.

Then the product catalog replies with an HTML page that contains a form with the product data in *OCI* format. The return URL must be split here as described in sections [3.1.3](#) and [4.1](#). The HTML page may not contain any visible elements (the input fields must be of the type *hidden*). The form must be sent automatically by JavaScript after the page has been loaded.

A prerequisite for this function is that previously, the first time this product was transferred from the product catalog to the *SRM Server* System, the field NEW_ITEM-EXT_PRODUCT_ID[] was filled with the database key of the product in the catalog. In addition, in *SRM Server* Customizing the flag *Validate Product Data from SAP Enterprise Buyer* must be set for the relevant catalog.

3.2.3 Sourcing/Product Search

In order to trigger the function, the following parameters are transferred to the product catalog on call-up:

Name	Value
FUNCTION	SOURCING
SEARCHSTRING	<Search term>
VENDOR	<Business partner number in EBP>

The catalog replies with the display of the search results that correspond to the specified parameters. By navigating further in the product catalog, you can select items as normal and transfer them to the *SRM Server* application.

This function has not yet been implemented in the *SRM Server*.

3.2.4 Background Search

In order to avoid the situation where a user searching for a particular product has to search multiple catalogs in sequence, a *Cross-Catalog Search* has been introduced as of *SRM 3.0*. The user enters a search term once in the *SRM Server* application and this term is transmitted to all catalogs that support the function when the catalogs are called up. The *SRM Server* displays the search results from all catalogs in a list and the user can select individual products from here.

In order to trigger the function, the following parameters are transferred to the product catalog on call-up:

Name	Value
FUNCTION	BACKGROUND_SEARCH
SEARCHSTRING	<Search term>

The product catalog replies with a HTML page that contains the search results in *OCI* format. All search results must be accessible on this page without having to use a scroll function

since the page is evaluated automatically. The form from this page may not be sent automatically to the return URL (in contrast to validation of a product).

A prerequisite for this function is that the flag *Search Cross-Catalog* is set in *SRM Server Customizing* for the relevant catalog.

3.3 Overview of the Call-Up Parameters

The following parameters are transferred when the catalog is called up using either HTTP GET or POST, depending on what you defined in *SRM Server Customizing*:

Description	Name of the Parameter	Content or Example
Parameters from <i>SRM Server Customizing</i>	As specified in <i>SRM Server Customizing</i>	See Section 3.1.2
Parameters from a BAdI implementation	As implemented in the BAdI	See Section 3.1.2
Parameters to trigger additional functions	As described in Additional Functions in the Product Catalog	See Section 3.2
Return URL	If not specified differently in <i>SRM Server Customizing</i> : 'HOOK_URL'	URL with parameters in the query string
Interface version <i>OCI</i>	OCI_VERSION	For example: 4.0
Interface version <i>OPI</i>	OPI_VERSION	For example: 1.0
Character set of <i>SRM Server</i> application	http_content_charset	For example: iso-8859-1
Target (HTML target) for return to the <i>SRM Server</i> application	returntarget	For example: _parent

4 Return From Catalog

A HTML form is used to transfer the selected product data to the *SRM Server*. This form is part of a HTML page that must be created by the catalog. This page (the last page that is displayed by the catalog) is sent to the user's browser. The user can now send the form from this page to the *SRM Server* application that then takes over the form data.

OCI/OPI architecture II: taking over the data into the SRM Server Application

© SAP AG 2003, Title of Presentation, Speaker Name / 4

THE BEST-RUN BUSINESSES RUN SAP 

Graphic 5: Transfer of the data

In order that you can transfer the data from the catalog to the *SRM Server* via the user's browser, the return URL described in sections [3.1.3](#) and [4.1](#) must be inserted into the *Action* attribute of the HTML form created by the catalog (the *Action* attribute of the form is the URL to which the form data is sent).

The data to be transferred is transported within the input fields of the form; the field names must adhere to the syntax specified below. The *Type* attribute of the input fields should be *text* or *hidden*. The HTTP method recommended in all cases is POST because using GET can lead to browser-dependent length restrictions.

4.1 Use of the Call-Up Parameters From Section 3.3

- Use of the parameters from *SRM* Customizing is catalog-specific; here the only parameters transferred are those that the catalog expects.
- Use of the parameters from a possible BAdI implementation is project-specific; here the only parameters transferred are those that the catalog expects in the context of a customer project.
- The expected reactions to the parameters for triggering additional functions have already been described in [section 3.2](#).
- The interface version has purely informative character; it clarifies which fields or processes are already supported by the *SRM Server* application.
- The return URL points to the current *SRM* application. It also contains further parameters. The URL without these parameters must be placed by the catalog into the *action* attribute of the transfer form. The parameter names and their values must be placed into the attributes *name* and *value* of the individual *input* fields of the transfer form; the fields are to be of the type *hidden*.
- The character set used by the *SRM* application is transferred to the catalog (parameter name: *http_content_charset*). When generating the HTML page with the transfer form, the catalog must use this character set and must insert it into the *meta* tag after the detail *charset=*.
- The target for the return to the *SRM Server* application (parameter name: *returntarget*) must be inserted into the *target* attribute of the transfer form.

4.2 Fields and Field Checks

The naming convention for the fields in the *OCI* is as follows:

`NEW_ITEM-<Field name>[<index>]`. The field type is always CHAR.

Field name	Length	Description
NEW_ITEM-DESCRIPTION[n]	40	Description of the item
NEW_ITEM-MATNR[n]	40	<i>SRM</i> product number of the item
NEW_ITEM-QUANTITY[n]	15	Item quantity (1.)
NEW_ITEM-UNIT[n]	3	Quantity unit for item quantity (3.)
NEW_ITEM-PRICE[n]	15	Price of an item per price unit (1.)
NEW_ITEM-CURRENCY[n]	5	Item currency (3.)
NEW_ITEM-PRICEUNIT[n]	5	Price unit of the item (if empty, 1 is used)(2.)
NEW_ITEM-LEADTIME[n]	5	Delivery time of the item in days (2.)
NEW_ITEM-LONGTEXT_n:132[]	∞	Long text for the item (4.)
NEW_ITEM-VENDOR[n]	10	<i>SRM</i> vendor number (business partner) for the item
NEW_ITEM-VENDORMAT[n]	40	Vendor product number for the item
NEW_ITEM-MANUFACTCODE[n]	10	<i>SRM</i> manufacturer number of the item
NEW_ITEM-MANUFACTMAT[n]	40	Item's manufacturer part number
NEW_ITEM-MATGROUP[n]	10	<i>SRM</i> material group for the item
NEW_ITEM-SERVICE[n]	1	Flag: the item is a service.

NEW_ITEM-CONTRACT[n]	10	SRM contract to which the item refers
NEW_ITEM-CONTRACT_ITEM[n]	5	Item within the SRM contract
NEW_ITEM-EXT_QUOTE_ID[n]	35	Number of an external bid for this item (as reference for a subsequent purchase order)
NEW_ITEM-EXT_QUOTE_ITEM[n]	10	Item of external bid
NEW_ITEM-EXT_PRODUCT_ID[n]	40	Unique database key for this item in the catalog
NEW_ITEM-ATTACHMENT[n]	255	URL of the attachment (the attachment must be accessible for downloading under this URL)
NEW_ITEM-ATTACHMENT_TITLE[n]	255	Title of the attachment (if this is empty the file name from the URL above is used)
NEW_ITEM-ATTACHMENT_PURPOSE[n]	1	Purpose of the attachment. C corresponds here to configuration.
NEW_ITEM-EXT_SCHEMA_TYPE[n]	10	Name of a schema via which it was imported in the SRM Server
NEW_ITEM-EXT_CATEGORY_ID[n]	60	Unique key for an external category from the schema above, independent of the version of the schema
NEW_ITEM-EXT_CATEGORY[n]	40	Unique key for an external category from the schema above, dependent on the version of the schema
NEW_ITEM-SLD_SYS_NAME[n]	60	Name of a system in the System Landscape Directory (SLD)
NEW_ITEM-CUST_FIELD1[n]	10	User-defined field
NEW_ITEM-CUST_FIELD2[n]	10	User-defined field
NEW_ITEM-CUST_FIELD3[n]	10	User-defined field
NEW_ITEM-CUST_FIELD4[n]	20	User-defined field
NEW_ITEM-CUST_FIELD5[n]	50	User-defined field

- 1.) 11 digits before the decimal point, 3 after it. Do not use commas for thousands.
- 2.) In whole numbers.
- 3.) Must be maintained as ISO code in the SRM Server.
- 4.) The field NEW_ITEM-LONGTEXT_n:132[] is an exception as far as the syntax of the index n is concerned. The field length is unlimited.

4.2.1 Required and Optional Fields

The following fields are required fields in all cases:

- Either NEW_ITEM-DESCRIPTION[n] or NEW_ITEM-MATNR[n] must be filled. Only one of the two should be filled.
- NEW_ITEM-QUANTITY[n]

The following fields are required fields depending on conditions:

- NEW_ITEM-UNIT[n] if NEW_ITEM-MATNR[n] has not been filled
- NEW_ITEM-CURRENCY[n] if NEW_ITEM-PRICE[n] has been filled
- NEW_ITEM-EXT_SCHEMA_TYPE[n] if NEW_ITEM-EXT_CATEGORY_ID[n] or NEW_ITEM-EXT_CATEGORY[n] are used

- NEW_ITEM-EXT_QUOTE_ID[n] if NEW_ITEM-EXT_QUOTE_ITEM[n] has been used
- NEW_ITEM-CONTRACT[n] if NEW_ITEM-CONTRACT_ITEM[n] has been used

All other fields are optional.

4.2.2 Product Numbers

There are four fields in the interface that describe product numbers:

- NEW_ITEM-MATNR[n]: The product number in the *SRM* System of the purchaser
- NEW_ITEM-VENDORMAT[n]: The vendor's product number
- NEW_ITEM-MANUFACTMAT[n]: The manufacturer's product number
- NEW_ITEM-EXT_PRODUCT_ID[n]: The number that uniquely identifies the product in the catalog.

These product numbers may not be mixed or used for other purposes; in particular the field NEW_ITEM-MATNR[n] may only be filled if the product number in the customer system is known to the catalog.

4.2.3 Configurable Products

Some products (such as PCs) can be configured in the catalog. However, the configuration information is not part of the *OCI* since the structure of this information differs greatly between providers. There are three alternatives for transferring such products with the *OCI* without losing the configuration information.

- The catalog can create a bid in the sales system and can store the configuration information there. It can then use the fields NEW_ITEM-EXT_QUOTE_ID[n] and NEW_ITEM-EXT_QUOTE_ITEM[n] to transfer a reference to the bid. The bid number is copied to the *SRM Server*. The configuration information is only available in the sales system if you use this alternative. This variant is suitable for the local and extended classic scenario since the bid reference is not transferred to MM backend systems as standard. If, however, you wish the bid reference to be transferred, you can copy it in BAdI BBP_CATALOG_TRANSFER into the purchase order text for the item.
- The field NEW_ITEM-LONGTEXT_n:132[] can be used to transfer the configuration information as text. The content of the field is included in the purchase order text of the *SRM Server* shopping cart and of the subsequent purchase order; this way the configuration information is available in the *SRM Server*.
- The fields NEW_ITEM-ATTACHMENT[n] and NEW_ITEM-ATTACHMENT_PURPOSE[n] can be used to transport the configuration information. Since you can transfer files of any type as attachments, you should ensure that the file can also be displayed (using proprietary or uncommon file types is therefore not recommended). If you use XML files, for example, you should ensure that the formatting information (XSLT) is also included so that the file can be displayed. The configuration information is also available in the *SRM Server* with this alternative. This variant is only suitable for the local and the extended classic scenario because attachments are not currently transferred to MM backend systems.

4.2.4 External Product Categories

As of *SAP Enterprise Buyer 3.0*, product categories from external schemas can also be used in the *OCI*. However, a prerequisite is the import of the relevant schema via the *Product Content Workbench (PCW)*. If the imported schema is also used internally in the *SRM Server*, then no further action is required. If, however, there is to be a link from the product category from the external schema to an internal product category in the *SRM Server*, the mapping of the imported (or parked) schema must first be completed via the *PCW*. The fields `NEW_ITEM-EXT_SCHEMA_TYPE[n]` and `NEW_ITEM-EXT_CATEGORY_ID[n]` are used for the external product categories.

If, for example, an UNSPSC schema has been imported in the *SRM Server* under the name *UNSPSC_Vendor1*, then *UNSPSC_Vendor1* is the value that must be transferred in the field `NEW_ITEM-EXT_SCHEMA_TYPE[n]`.

4.2.5 Customer-Specific Extensions in the OCI

To transfer additional fields in the *OCI*, there are two alternatives:

- **Using the Fields `NEW_ITEM-CUSTFIELD1-5`**

These fields have no fixed semantics in the *OCI* and this means that you can transfer any contents in order to then evaluate them in `BAdI BBP_CATALOG_TRANSFER`. In Releases prior to *SAP Enterprise Buyer 3.0* it is not possible to transfer these fields directly to the shopping cart item. If the contents are to be reusable later, they must be saved in the `BAdI` above in the customer's own database table.

As of *SAP Enterprise Buyer 3.0*, it is possible to include these fields (without the prefix `NEW_ITEM-`) in the customer-specific Include `CI_BBP_ITEM_SC`; the contents are then automatically forwarded to the shopping cart and saved with it.

- **Using the Include `CI_OCI_CUSTOMER_EXTENSION`**

This customer-specific Include is also available as of *SAP Enterprise Buyer 3.0*; it allows you to extend the *OCI* generically. All fields that are created in the Include can then be transferred by the catalog as `NEW_ITEM-<field name from Include>[n]`.

The fields are also available in the `BAdI BBP_CATALOG_TRANSFER`. If the fields are also to be available in the shopping cart and are to be saved, they must also be created in the Include `CI_BBP_ITEM_SC`.

For more information on the use of customer-specific Includes in the *SRM Server*, see SAP Note 458591.

4.3 XML Variant of the OCI

The *OCI* can also process an XML file. Here the same architecture is used as in the pure HTML variant, this means the XML data is embedded in an HTML form for the transfer from the catalog to the *SRM Server* via the user's browser.

To transfer an XML file, besides the fields mentioned in [section 3.3](#), two further HTML-*input* fields are used:

- **`xmltype`:**

This parameter specifies the type of the XML file used so that the correct XML mapping can be found. Up to and including *SAP Enterprise Buyer 3.0* the mapping of the received XML data is done exclusively in the Business Connector which must be set up for this purpose for the relevant *SAP Enterprise Buyer System*.

As of *SAP Enterprise Buyer 3.5* the mapping can also be done in the *SRM Server* itself. A prerequisite is that the corresponding XML schema is used. The previous schemas are also supported.

Valid values for the field type `xmlType` as of *SRM 3.0* are:

Value	Description	DTD/Schema/Mapping
ESAPO	Encoded SAP Object for <i>OCI</i> Version up to and including 3.0	PDI_OCI.dtd/PDI_OCI.xsd/BC
ESAPO3.0	Encoded SAP Object for <i>OCI</i> Version up to and including 3.0	PDI_OCI_30.dtd/PDI_OCI_30.xsd/BC
ESAPO3.5	Encoded SAP Object for <i>OCI</i> Version as of 3.5	OpenCatalogInterface.xsd/im <i>SRM Server</i> .

- **~xmlDocument:**

In this parameter the XML file that must correspond to one of the schemas above is transferred as a Base64-coded character set. The coding can be done either directly on the server page of the catalog or, as shown in the sample application, by JavaScript on the client's page.

5 Handling of the Browser Window

The catalog is normally displayed in a separate browser window. This window is both opened and closed again via the *SRM Server* application.

The HTTP response of the *SRM Server* application to the HTTP request with the *OCI* data consists of an HTML page that contains script for refreshing the window with the *SRM Server* application and for subsequently closing the catalog window. This page assumes that the JavaScript reference window.opener points to the browser window of the *SRM Server* application.

You may not change the name of the original window object because this would destroy the reference between the *SRM Server* application window and the catalog window. If this were to happen the *SRM Server* application would no longer be able to correctly display the data that has been transferred from the catalog or close the catalog window.

If the catalog opens additional windows during the search process it must close these before the data is transferred back to the *SRM Server*.

6 Troubleshooting

When you create purchasing documents using the *OCI*, errors can occur that are related to the meaning or validity of the data. In order to more easily identify such errors, you can activate the application log for a catalog linked via the *OCI* in *SRM Server Customizing* (for more information, see the Implementation Guide *Supplier Relationship Management* → *SRM Server* → *Master Data* → *Define External Web Services (Catalogs, Vendor Lists etc.)* → *Technical Settings* → *Maintain Error Log* see [Graphic 3](#)).

You reproduce the error after you have switched on the application log. You can use transaction SLG1 to clear the application log in the *SRM Server*. Use BBP_OCI as the entry for the field *Object*. You can find more information on the application log in the F1 Help *Maintain Error Log*.

BIDDING PREFERENCE FOR PRODUCTS WITH RECYCLED POSTCONSUMER MATERIAL

PLEASE NOTE: Bidders ARE NOT required to complete this form or obtain the following Manufacturer's Recycled Postconsumer Material Certification if they ARE NOT seeking a bidding preference for products or printing with recycled postconsumer material.

A. PREFERENCE

Except as otherwise provided in Paragraph G every bidder who certifies that the goods, supplies, equipment, materials or printing, which the bidder is offering, contains at least 10% of recycled postconsumer material shall be given a five percent (5%) preference against any bidder that has not so certified (or such higher percentage specified in the invitation for bids for the bidding preference for products with recycled postconsumer material) "Postconsumer material" is defined as "Any product generated by a business or consumer which has served its intended end use, and which has been separated or diverted from solid waste for the purpose of collection, recycling, and disposition. The term includes industrial by-products that would otherwise go to disposal or processing facilities. The term does not include internally generated scraps that is commonly returned to industrial or manufacturing processes." This preference for products and printing with recycled postconsumer material shall be in addition to any reciprocal preference for Pennsylvania bidders and manufacturers.

B. BIDDER CERTIFICATION

If the bidder is submitting a bid price on more than one item, and the percentage of recycled postconsumer material differs for each item, the bidder must state the percentage for each item. Bidder certifies that the goods, supplies, equipment, materials or printing which the bidder is offering: (to be completed by the bidder)

Item No. _____ Contains _____% of recycled postconsumer material.

Item No. _____ Contains _____% of recycled postconsumer material.

Item No. _____ Contains _____% of recycled postconsumer material.
(use additional sheets if necessary to complete required information)

If a bidder does not comply with this Subsection (B), he shall not be eligible for the 5% preference.

C. MANUFACTURER'S RECYCLED POSTCONSUMER MATERIAL CERTIFICATION

In addition to the Bidder Certification in Subsection (B), in order to be eligible for the 5% preference a manufacturer's certification must be completed, signed and submitted by each of the manufacturers listed by the bidder in Section III of the Reciprocal Limitations Act Requirements of this Invitation for Bid. Bidders must use the enclosed Manufacturer's Recycled Postconsumer Material Certification form. If this form is not completed, signed and submitted with the bid, no bidding preference shall be given to the bidder.

D. FEDERAL FUNDS

No preference shall be given if the Commonwealth's receipt of federal funds would be jeopardized by granting the preference.

E. TIE BIDS

When there is a tie for lowest responsible bidder, the Department of General Services may consider, as one factor in determining to whom the contract should be awarded, which of the bids provides for the greatest percentage of recycled postconsumer material in the product or printing.

F. ENFORCEMENT

Awarded bidders may be required, after delivery of the goods, supplies, equipment, materials or printing, to provide the Commonwealth with documentary evidence that the goods, supplies, equipment, materials or printing was in fact produced with the certified percentage of recycled postconsumer material. **If a bidder is awarded a contract or a purchase order on the basis of the 5% preference and fails to supply the item(s) with the required content of recycled postconsumer material or refuses or fails to provide sufficient documentary evidence that the item(s) was in fact produced with the certified percentage of recycled postconsumer material, the Department reserves the right, at its sole discretion, to:**

- 1) Reduce the purchase price paid to the contractor by 5%.**
- 2) Require the contractor to remove and replace the materials at the contractor's sole expense.**
- 3) Cancel the contract or the purchase order.**
- 4) Obtain the item(s) from another source.**
- 5) Pursue its other remedies under the contract for damages and costs for breach of contract.**

G. STEEL AND ALUMINUM PRODUCTS EXCEPTION

The Commonwealth of Pennsylvania recognizes that both steel and aluminum products are universally made of recycled material, including postconsumer steel and postconsumer aluminum. Therefore, if steel or aluminum is used in the manufacture of the product offered by a bidder in response to this invitation to bid, the bidder is not required to provide certification that the product contains recycled postconsumer material. If a bidder is offering a product with steel or aluminum and the steel or aluminum contains no postconsumer material, the bidder is required to provide written notification in its bid. Bidders offering products containing steel and/or aluminum shall be given a five percent bidding preference over bidders offering: (1) steel or aluminum products that are reported to be made without recycled (postconsumer) content and (2) non-steel or non-aluminum products (such as plastic) which are not certified as containing recycled (postconsumer) content.

MANUFACTURER RECYCLED POSTCONSUMER MATERIAL CERTIFICATION

TO BE COMPLETED BY MANUFACTURER:

NAME OF MANUFACTURING FIRM: _____

ADDRESS OF MANUFACTURING FIRM: _____

FEDERAL EMPLOYER I.D. NO: _____

CONTRACT OR REQUISITION NO: _____

NAME OF BIDDER: _____

ADDRESS OF BIDDER: _____

Goods, supplies, equipment, materials or printing which the manufacturer will furnish to the bidder if the bidder is awarded the above-referenced contract or purchase requisition:

Short description of the nature of the postconsumer material which will be contained in the goods, supplies, equipment, materials or printing: _____

CERTIFICATION: I, the undersigned officer of the above-named firm, do hereby certify that I am authorized to provide this certification on behalf of the above-named firm and that the goods, supplies, equipment, materials or printing listed above which my company will furnish to the bidder named above, if the bidder is awarded the above-referenced contract or purchase requisition, shall contain not less than ____% postconsumer material as that term is defined in the invitation for bid. The nature of the postconsumer material is also identified above. I understand that this document is subject to the provisions of the Unsworn Falsification of Authorities Act (18 P.S. Section 4904).

PLEASE NOTE: Bidders ARE NOT required to complete this form if they ARE NOT seeking a bidding preference for products with recycled post-consumer material.

Subject: BUILDING SUPPLIES REQUEST FOR
PROPOSAL
Bid Number: RFPCN00023105
Opening Date/Time: JUNE 29, 2007 @ 1:30 p.m. EST
Flyer: 1

To All Bidders:

**Please note the time scheduled for the Pre-proposal conference on
June 8, 2007 is from 1:00 p.m. until 4:00 p.m.**

Attach this flyer to the original copy of your invitation bid proposal. Failure to do so may result in bid disqualification. If you have already returned the original bid, return this flyer with your instructions, annotated or a cover memo attached, to:

Bureau of Procurement, Bid Opening Room, 555 Walnut Street, 6th Floor Harrisburg PA 17101.

IF YOU ARE CHANGING PRICE(S), DO NOT FAX this flyer and/or cover memo; you must furnish these instructions in a sealed envelope. Please indicate the bid number and opening date/time on the outside of the envelope.

Except as clarified and amended by this flyer, the terms, conditions, specifications, and instructions of the invitation to bid and any previous flyers, remain as originally written.

Very truly yours,

Karen Gera

Commodity Specialist

Building Supplies
RFP NUMBER: CN00023105
ADDENDUM #1

Date Posted: June 21, 2007

This Addendum #1 revises RFP No. CN00020726 as follows:

1. RFP – Appendix “F” Product Price Analysis (LOT 3) Paint, please reference Green Seal Standards and certifications at:
<http://www.greenseal.org/certification/standards/paints.cfm>

The following answers are provided in response to questions received in writing at the Pre-proposal conference dated June 8, 2007:

SUBMITTED QUESTION	CWOPA ANSWER
1. Will specialty companies, who can provide a deep selection of a product (lot) be given consideration over a company who can provide shallow coverage over multiple lots?	Please refer to Section I-4 of the RFP. However, each supplier’s Technical Proposal will be evaluated based on the merits and soundness of the supplier’s approach to addressing the CWOPA’s needs for Building Supplies materials on a statewide basis.
2. Will standards be evaluated for paints so that an “apple to apple” comparison can be made, i.e., % pigment, % vehicle, weight, etc?	Please refer to Green Seal Standard Paint Specification GS-11 dated May 21, 2007 at: http://www.greenseal.org/newsroom/scoping_doc_revised_gc03.pdf
3. How will later changes in Federal Law that affect chemical composition of paint be handled?	Since the contract is going to be a percentage off catalog, it will be flexible to changes affected by legislative actions taken either by the federal or state governments.
4. Are there going to be multiple awards?	The Commonwealth seeks to award this contract to a single supplier; however, the Commonwealth reserves the right to award by lot if it is the best interest of the Commonwealth. It is not the CWOPA’s intent to award multiple suppliers to any given lot.
5 Once award is made to supplier, will they basically have all CWOPA future business?	Awarded supplier(s) will earn all of the business for the contract/lot for which they were awarded during the term of the contract. While price-based waivers for agencies to purchase outside of the contract may be issued, Department of General Services will review these requests to determine if the waiver is appropriate.

6. Need more detailed information on Disadvantaged Business Information/Enterprise Small Business Participation (BMWBO)	Please refer to our Web site for more information about this program at (http://www.dgs.state.pa.us) DGS website and also in Part II section II-9. For additional information please contact gpeters@state.pa.us 717-319-3380(cell) or the Bureau at 717-787-6708.

SCOPING DOCUMENT – DO NOT CITE

Green Seal Scoping Document for GS-11/GC-03 Standard Revision

Note: GC-03 Anti-corrosive paints may be incorporated into the GS-11 Paints Revision

Paints (GS-11)

First Edition May 20, 1993

Copyright © 1993 Green Seal, Inc.

ENVIRONMENTAL STANDARD**1. Scope.**

This Standard establishes environmental requirements for paints. The standard does not include stains, clear finishes, or paints sold in aerosol cans.

Issues to consider: What other types of coatings are similar enough in formulation and environmental impacts to be included in GS-11? What other types of coatings are different enough in either formulation, manufacturing or environmental impacts to be treated under a separate standard?

2. Definitions.

For the purpose of this Standard, the following definitions apply.

2.1 Paints: Liquid, liquefiable or mastic composition that is converted to a solid protective, decorative, or functional adherent film after application as a thin layer. These coatings are intended for on-site application to interior or exterior surfaces of residential, commercial, institutional or industrial buildings.¹

2.2 Volatile Organic Compounds (VOCs): Compounds as defined by U. S. Environmental Protection Agency (EPA) in 40 CFR § 51.100 (s), (s) (1).

2.3 Aromatic Compounds: Hydrocarbon compounds containing one or more 6-carbon benzene rings in the molecular structure.

Issues to consider: Are the definitions of the given terms descriptive enough? Should additional terms be defined?

3. Product-Specific Performance Requirements.

3.1 Interior Topcoats. Products intended for interior opaque topcoat use shall meet the following requirements.

3.1.1 Scrubbability (Abrasion Resistance). The product shall demonstrate at least 100 cycles (200 separate strokes) before failure, as determined by American Society for Testing and Materials (ASTM) D2486-89, Standard Test Method for Scrub Resistance of Interior Latex Flat Wall Paints.

SCOPING DOCUMENT – DO NOT CITE

3.1.2 Hiding Power (Opacity). The product shall demonstrate a minimum 0.95 contrast ratio at 400 square feet per gallon as determined by ASTM D2805-88, Standard Test Method for Hiding Power of Paints by Reflectometry. Compliance will be determined by testing a white paint having a minimum 80% reflectance.

3.1.3 Washability (Stain Removal). The product shall demonstrate the following minimum requirements for stain removal as determined by ASTM 4828-91 Mechanical Method, Standard Test Method for Practical Washability of Organic Coatings.

Flat ²	5 minimum rating
Non-Flat	7 minimum rating

3.2 Exterior Topcoats. Products intended for exterior opaque topcoat use shall meet the following requirements.

3.2.1 Hiding Power (Opacity). The product shall demonstrate a minimum 0.95 contrast ratio at 400 square feet per gallon as determined by ASTM D2805-88, Standard Test Method for Hiding Power of Paints by Reflectometry. Compliance will be determined by testing a white paint having a minimum 80% reflectance.

Issues to consider: Are the performance criteria listed still stringent enough to determine performance in today's market? Should other performance criteria be added in order to determine performance of an environmentally preferable paint? (e.g. Adhesion, Accelerated Weathering, Flexibility, Water Resistance, Biological Growth, etc.)

4. Product-Specific Environmental Requirements.

4.1 Chemical Component Limitations.

4.1.1 VOCs. The VOC concentrations of the product shall not exceed those listed below as determined by U. S. Environmental Protection Agency (EPA) Reference Test Method 24 (Determination of Volatile Matter Content, Water Content, Density Volume Solids, and Weight Solids of Surface Coatings), Code of Federal Regulations Title 40, Part 60, Appendix A.

The calculation of VOC shall exclude water and tinting color added at the point of sale.

Interior Coatings:

<u>Coating</u>	<u>VOC weight in grams/liter of product</u>
----------------	---

Type	<u>minus water</u>
Non-flat ²	150
Flat	50

Exterior Coatings:

<u>Coating Type</u>	<u>VOC weight in grams/liter of product minus water</u>
Non-flat ⁴	200
Flat	100

4.1.2 Aromatic Compounds. The product must contain no more than 1.0% by weight of the sum total of aromatic compounds. Testing for the concentration of these compounds will be performed if they are determined to be present in the product during a materials audit.

Issues to consider: Are the VOC and/or aromatic compound limits effective in protecting human health and environmental effects? Should the VOC and/or aromatic compound limits be modified? Are VOC and/or aromatic compound limits as described still an effective measure of determining the human health and environmental impacts of paints?

4.2 Chemical Component Restrictions. The manufacturer shall demonstrate that the following chemical compounds are not used as ingredients in the manufacture of the product.

4.2.1 Halomethanes

methylene chloride

4.2.2 Chlorinated ethanes

1,1,1-trichloroethane

4.2.3 Aromatic solvents

benzene

toluene (methylbenzene)

ethylbenzene

4.2.4 Chlorinated ethylenes

vinyl chloride

4.2.5 Polynuclear aromatics

naphthalene

4.2.6 Chlorobenzenes

1,2-dichlorobenzene

4.2.7 Phthalate esters

di (2-ethylhexyl) phthalate

butyl benzyl phthalate

di-n-butyl phthalate

di-n-octyl phthalate

SCOPING DOCUMENT – DO NOT CITE

diethyl phthalate
dimethyl phthalate
4.2.8 Miscellaneous semi-volatile organics
isophorone
4.2.9 Metals and their compounds
antimony
cadmium
hexavalent chromium
lead
mercury
4.2.10 Preservatives (antifouling agents)
formaldehyde
4.2.11 Ketones
methyl ethyl ketone
methyl isobutyl ketone
4.2.12 Miscellaneous volatile organics
acrolein
acrylonitrile

Issues to consider: Is individually listing 25 prohibited chemicals effective in preventing harmful components in the formulation of paint? Would using groups of harmful chemicals (e.g. carcinogens, mutagens, reproductive toxins) as identified in peer-reviewed established compound lists (e.g. carcinogens identified by International Agency for Research on Cancer (IARC) or reproductive toxins identified by California Proposition 65, etc.) be more comprehensive and/or effective in protecting human health and environmental effects? Would using peer-reviewed established compound lists be too prohibitive in the formulation of paint?

5. Packaging Requirements.

5.1 Toxics in Packaging.

5.1.1 The manufacturer shall demonstrate that paint cans and their components are not fabricated with lead.

Issues to consider: Are the packaging requirements given still applicable to today's market? Should other requirements be added to better address the environmental impacts of the end-of-life management of paint?

Appendix: Labeling Requirements for Certification by Green Seal

Unless otherwise approved in writing by Green Seal, the following labeling requirements shall apply:

1. The Green Seal Certification Mark must appear on the packaging.
2. Whenever the certification mark appears on a package or product, the product or package must contain a description of the basis for the certification. The

SCOPING DOCUMENT – DO NOT CITE

description shall be in a location, style, and typeface that are easily readable by the consumer. The description shall read as follows:

This product meets Green Seal environmental standards for volatile organic compounds (VOCs) and other ingredients.

3. The packaging shall be accompanied by a brief statement discouraging disposal into drains and encouraging consultation with local authorities for disposal requirements or recycling opportunities.
4. Paints which have been formulated without VOCs shall be designated Class A and may contain a special designation to that effect on the label.

Additional issues to consider: What additional criteria should be considered to further reduce the environmental impact, especially the impact to climate change like through the energy usage (direct and indirect) in the product's life cycle?
