

Guide to purchasing from The Scottish Government National Framework Agreement for Tablet Client Devices (SP-16-001)

A collaborative contract placed on behalf of the Scottish Public Sector by Scottish Procurement

XMA

We are XMA.

We are XMA.

We deliver innovative IT solutions that enhance how people learn, teach, govern, deliver healthcare and do business. We are a team of over 250 specialists, based across the UK who bring together over 30 years of experience, world class vendor partnerships and broad service delivery capabilities on the ground and in the cloud.

Part of an independently owned British group, we are based in Nottingham, Reading, Halifax, Glasgow, Cwmbran and London. We have national reach and a local touch. Our UK-based data centre and ISO:27001 accreditation means we can host your data, applications and infrastructure in the cloud, securely.

We are a compliant route to purchase, with presence on local and national frameworks for hardware supply and services. Our partners are the biggest names in computing, infrastructure and print. We take their products and build, deliver and maintain solutions that work for you.

About the Framework

XMA has been awarded the Scottish Government National Framework Agreement for Tablet Client Devices (SP-16-001) with a live start date of 20th June 2016. The framework enables schools, colleges, universities and all public sector bodies in Scotland to purchase from the enclosed range of tablets, accessories and services.

Buyers are reminded of the obligations contained in the Procurement Reform (Scotland) Act 2014 in relation to the award of contracts valued equal to or greater than £50,000 including those awarded as a result of a framework call-off/mini competition.

In particular, Buyers should note that in accordance with Section 23(2) the award of contracts must be publicised on the Public Contracts Scotland website and in accordance with Section 35 contracts must be registered in the contracting authority's "contracts register".

G-Hold® Micro Suction

(Reusable) Unique handhold for iPads and other tablets

A micro suction material (we're talking seriously out-there, futuristic stuff) G-Hold® which will stick securely onto any smooth surface (the backs of tablets, minis, readers, phones and any other device you need to grip), but can be easily removed and then re-used again and again. Like a smooth criminal, it doesn't leave the slightest trace that it was ever there.

Compatible with all current iPad models.

G-Hold Options

Description	Product code	Price
G-Hold Micro Suction for Tablet Computers - Black	510000	£13.20
G-Hold Micro Suction for Tablet Computers - Blue	510001	£13.20
G-Hold Micro Suction for Tablet Computers - Earth	510002	£13.20

Success of G-Hold

"The last few years have seen a significant rise in the number of kids with neck and back pain... Adults are also struggling with more neck and shoulder and RSI type problems. The G-Hold is so simple and yet will have such a huge impact on addressing this problem that I think it should be built into tablets. If you haven't tried it yet, try it; you'll love it. The design ensures that it massively reduces the strain on neck, shoulder, arm and hand; making for pain-free use of your beloved tablet."

Gavin Routledge, Director of 'Active X Backs' Clinic and Vice Patron of the British School of Osteopathy

Contact your XMA account manager for compatibility with protective cases.

XMA and iTeach

Working with XMA since 2014, iTeach deliver a comprehensive range of training to schools that ensures iPad has an effective impact on classroom practice. Meaningful, relevant, curriculum focused training that enables real change. Delivered by experienced teachers, iTeach training has a genuine focus on learning and teaching. Training that ensures staff and pupils can benefit in class the very next day.

iTeach provide two core methods of training for schools in Scotland:

Apple Professional Development (APD)

Apple certified training that can be built into a half day or full day. It is 'catalogue' based to allow you to choose what suits your school and is facilitated by Apple Certified Education Trainers, all of which are teachers.

Bespoke Training

Specialised training designed around the unique needs of your school. We look at your vision and your school development targets to build a plan across the academic year that scaffolds and supports staff and pupils at every stage.

iTeach believe in relationships - working with over 2,000 schools across Scotland, Northern Ireland and England, iTeach have a proven track record in success by working with each school on its individual needs, always keeping to the fore the focus on successful learning outcomes. We take time to meet with senior leaders, identify a clear vision and agree specific targets. By creating a bespoke plan, we ensure success and evaluate, reflect and review every step of the way.

Effective use of iPad through amazing training. That's iTeach in partnership with XMA. Discuss iTeach training today with your XMA account manager and allow us to offer a customised training experience built for your school.

Aggregated Training Days

The available APD training days are managed on an aggregated basis across all of Scottish Public sector at a framework level. Organisations with qualifying purchases and eligible for APD training will continue to be given first priority. Thereafter, the remaining days will become available to Local Authorities and schools to aid their deployment of Apple devices.

Check iTeach out online at www.iteach.uk.com

Training offers

FREE Half Day Apple Professional Development Workshop

With purchase of 25 iPads.

FREE Full Day Apple Professional Development Workshop

With purchase of 50 iPads.

XMA and iTeach

Fantastic Initiatives for schools

We've worked hard with our partners at iTeach to bring a fantastic range of free initiatives to schools in Scotland. From Digital Leaders, Coding and Programming to great events, together we provide superb opportunities for learning. Our events and programmes are mapped to the Curriculum for Excellence, they are free, simple to sign up to and full of amazing resources

Empower your pupils with Digital Leaders

Digital Leaders provides the structure, support and resources you need to select, train, excite and empower pupils to be central in the schools digital learning strategy. Following a simple sign up, we'll provide you with a 'pack' that has everything you need. Once you select your Leaders, each pupil receives their T Shirt, certificate, lanyard and pin badge. From there, we can help train and upskill the Leaders, challenge them with new ideas and problems and host them at regular 'Digital Leader Labs' events. Your Leaders join a community of thousands of schools and pupils from all around the UK.

Sign up for free at <http://www.iteach-uk.com/programmes/digital-leaders>

Coding and Programming with iCode

iCode is designed to be run either as an after schools club or as a central part of your school day. It is structured around using iPad as a coding platform and starts from Primary 1 through to S3, including lesson plans, ideas and using tools like Drones and Spheros to extend learning beyond the iPad itself.

iCode lessons are fully mapped to the CfE, and you'll receive all manner of resources from a fabulous iBook to lesson plans, posters, certificates and lots of support.

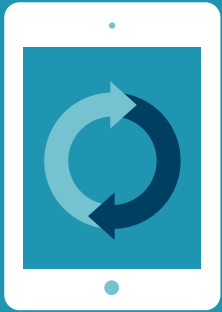

Sign up for free online at icode.iteach.uk.com

Great events, starting with 'Mission to Mars'

Join us this year for some great events taking place all across Scotland, starting with the ground breaking 'Mission to Mars' - an amazing opportunity to extend learning with iPad using drones, Sphero and science sensors.

Together we'll plan our mission through the stars through an incredible journey of learning. Just one of the many CPD opportunities brought to you by XMA, in partnership with iTeach.

Trade in your iPad with Tech-Trade and XMA

XMA have teamed up with Scotland-based Tech-Trade to offer highly competitive trade-in pricing on iPad.

Our site makes it easy to search for your iPad model, select the condition and receive an instant valuation. If you're happy, select a date, Tech-Trade will arrange for collection of your devices and provide written confirmation of their trade-in offer. Should you go ahead, a credit will be made available with XMA against future purchases.

FAQs

Q: What devices are eligible for trade-in?

A: iPad, iPad 2, iPad (3rd Generation), iPad (4th Generation), iPad mini, iPad mini 2 and iPad Air. If you're not sure about which devices you have, visit <http://support.apple.com/kb/HT5452>.

Q: Can I trade-in broken/faulty devices?

A: Yes, however the trade-in value will be reduced based on the unit condition.

Q: What is the minimum number of devices I can trade-in?

A: The minimum is 20 devices. These can be of any combination of eligible iPad models.

Q: Is there a cost to send my devices to Tech-Trade?

A: No, you will receive all packaging delivered to your specified location via courier or our own transport. Once you have packaged all devices a courier or our own transport will collect the order from your specified location.

Q: What happens to the devices I trade-in?

A: The used devices are thoroughly checked by a technician to assess their condition. Those in good working order are data wiped* and resold on secondary markets. If the device cannot be economically repaired, it will be recycled in an environmentally responsible way.

*Data disposal is achieved using Tabernus Enterprise Erase Mobile which is certified and approved by CESG (The information arm of GCHQ), CPA, NATO and The Defence INFOSEC Product Co-Operation Group UK. The software augments existing factory reset and re-flashing processes.

Q: How long does the process take once my devices are collected?

A: From the point at which your devices are received at our facility, we will process and grade all devices within 5 working days. If the device is received in the condition stated, at the point of processing the transaction, we will authorise a credit note with XMA.

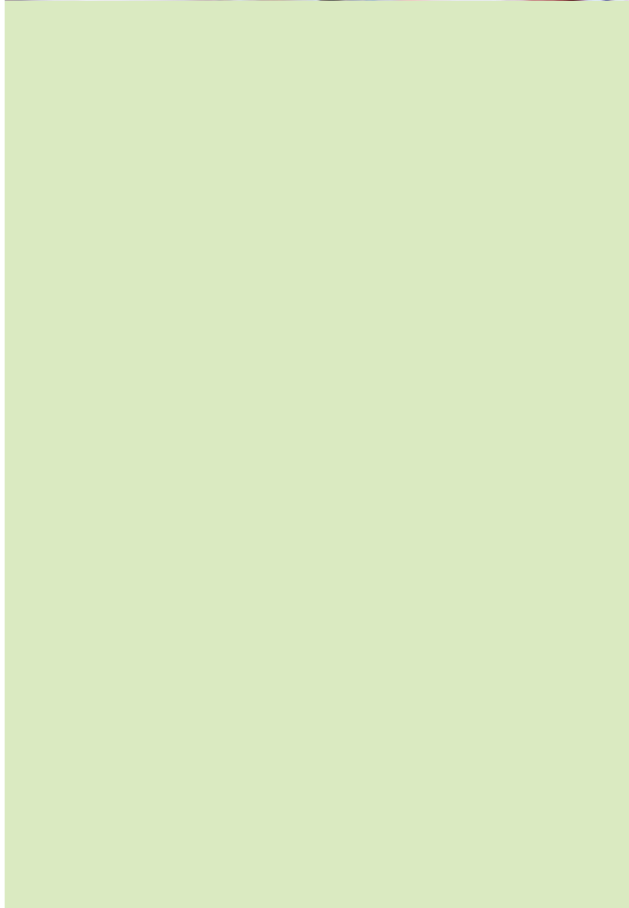

Q: Who are Tech-Trade?

A: The Tech-Trade programme is operated by Games Centre Limited in association with XMA.

For further FAQs and full terms and conditions please visit the Tech-Trade website.

LocknCharge for managing devices in the classroom.

Technology has many advantages in the classroom, but unlike textbooks, Chromebooks, Laptops and tablets have to be 'managed'. LocknCharge helps solve this problem. It is world famous for its unique and innovative baskets, which keep devices safe and reduce the time spent by teachers in distributing devices, as well as the time spent by students queuing up to put them away, compared to a traditional cabinet style solution.

Foulds School purchased Chromebooks and LocknCharge Carrier 20 Carts last year and is already seeing its benefits.

Mrs Browett, Head Teacher and previous Head of ICT, says: "Our school building is old and the infrastructure poses problems for us in terms of ICT. We were pleased with how the Chromebooks were supporting teaching and learning but we were struggling with storing and charging them. We were won over by the fact it has one central plug and by the fact it is so secure. It was the best option for us."

LocknCharge Carrier Carts are designed to work with almost any device. Equipped with Large Baskets by LocknCharge, Carrier Carts are compatible with smaller tablets, right up to a 13" Chromebook. And if you decide to go bigger, a device rack is available that caters for devices up to 17" in size.

LocknCharge Carrier Carts also feature a remote controlled ECO Safe Charge™ power management system. ECO Safe Charge ensures devices are charged safely and prevents the possibility of an overload.

A LocknCharge purchase is a smart choice for ensuring the devices you have today and the devices you have in the future will be charged and secure. LocknCharge. It just makes life easier.

Other solutions include:

Carrier 10 Charging Station™

iQ 10 Charging Station™

NEW

FUYL Tower™
Intelligent Charging
Locker System.

Platform: Not platform specific, iPad, Android or Windows
Cost: Priced on request

Training offers

FREE Half Day Apple Professional Development Workshop

With purchase of 25 iPads.

FREE Full Day Apple Professional Development Workshop

With purchase of 50 iPads.

Device Management

As mobile devices like tablets are designed to expand learning outside of school hours it is important to consider how to manage them and deliver apps to them when they are outside of your network. Mobile Device Management (MDM) solutions allow you to monitor, support and secure mobile devices over the air. With iPad, MDM can also manage and deploy apps purchased from Apple's Volume Purchase Programme.

Mobile Device Management from Jamf

Jamf Pro for iOS:

By concentrating on Apple, Jamf provides an industry-leading EMM solution that helps you empower your users with iPad and iPhone.

- You can integrate with Apple's Device Enrolment Program (DEP) to deploy without ever touching the device
- Monitor hardware and software distribution by user or device, for more productive planning and budgeting
- Leverage the world class native security tools that Apple builds into every device
- Maximise existing third-party tools, distribute through the cloud, and tie into your existing user directory
- Our proprietary Self Service app gives users one-stop, on-demand access to organisationally approved apps, software and content — and lets them apply system configs and run routine maintenance tasks all without pestering IT
- Ensure your peace of mind with remote lock and wipe, automated patches, and by reporting on backup status

Jamf Pro for macOS:

Since 2002, Jamf has been helping organisations around the globe succeed with Apple. Long before Apple became the world's most valuable brand, Jamf Pro provided IT with the ability to automate the tasks associated with device deployment and management – all while empowering device users to be more creative, productive, and happier.

- Jamf products are built exclusively for Apple and provide immediate, day-zero support for new macOS releases. Leverage Apple deployment programs and security tools to enjoy a complete ecosystem of Mac management capabilities
- Create a custom app catalog with Jamf Pro Self Service and enable users to install IT-approved apps and settings on their Macs. Notify users when new tools and content become available, and empower them to do their most productive and uninterrupted work
- The Jamf Agent component of Jamf Pro gives you unlimited flexibility and control for advanced management. Exclusive patching capabilities help automate Apple and third-party software updates
- In addition to comprehensive Mac inventory, Jamf Pro seamlessly pairs with Microsoft System Center Configuration Manager (SCCM) to combine Windows and Mac inventory data into a single pane of glass – allowing you to report on all of your assets from SCCM

Device Management

Featured MDM partner – AirWatch

Mobile Device Manager from airwatch

AirWatch is helping businesses and public sector bodies to embrace the next generation of mobile working. With AirWatch, you can track all mobile assets across your estate, configure policies and settings, distribute apps and secure access to networks and resources all through our web-based console. AirWatch allows IT administrators to ensure devices are compliant with policies and monitor violations in real time. This empowers you to maximise your mobile investment by increasing IT efficiency and reducing costs associated with managing mobility. AirWatch is focused on the public sector, and has a dedicated team of account executives who understand the market, as well as a specific R&D team. Public sector-specific pricing models and discounts are available.

About optional MendIT insurance

MendIT Insurance is suitable for all makes and models of tablets and notebooks, providing protection against those everyday mishaps that occur at home, work or on holiday. Whether physical, liquid, fire or flood damage, MendIT insurance has you protected.

With an easy claims process and fully trained and accredited engineers, MendIT aim to have your device either repaired, or replaced and returned to you within the shortest time possible.

Examples of Accidental Damage can be dropping your device on to a hard surface, such as a wooden or concrete floor, resulting in a cracked/smashed screen/case. Liquid damage can consist of either a drinks spillage or caught in the rain.

Provision and Process

- You will receive insurance documents and a policy number after product registration
- You will receive worldwide cover and no excess on the policy
- To make a claim online visit www.compucover.co.uk/claims
- Claims must be reported within 14 days of the event
- MendIT will arrange collect of the defective device, repair and return it to your location (UK nationwide)
- MendIT will incur all repair and logistical costs during this process
- Examples of accidental damage cover include drops, liquid damage and accidental breakage

MendIT Insurance must be purchased during the manufacturer's standard warranty period (check guidance with the device or on the manufacturer's website). Your policy will begin from the date you purchased your MendIT insurance.

MendIT is an Appointed Representative of Summit Insurance Services Limited, and regulated by the Financial Services Authority (FSA). Summit Insurance Services Ltd's FSA Register No. 300172

Options available across all devices

Accessories and Upgrades

We offer a whole range of accessories for mobile devices to ensure you get the most out of your purchase. From protective cases, to power adapters and batteries, earphones, headphones, keyboards, charging units, adapters to connect your device up to all sorts of displays and projectors, we have it all. There are new accessories appearing on the market all the time and we keep our ears close to the ground to make sure we can supply them for you. If you are looking for a device with additional storage or extra functionality, such as cellular connectivity, then we can offer these too.

Leasing

XMA can provide a 2 or 3 year operating lease option for all devices, including accessories. With an operating lease you pay a consistent lease amount across 24 or 36 months and have various options available at the end of the period - you can buy the equipment at a Fair Market Value, return the equipment or extend the contract. The lease option includes insurance against accidental damage and theft.

Insurance

When purchasing devices outright, XMA can provide options for accidental damage and theft insurance. The cover offered has no excess and the device is covered while at home and even on holiday.

Warranty Extension

Every device offered on the framework includes a collect and return warranty, all administered by XMA via our helpline and online framework portal. XMA can extend the term of the warranty to 3 years and provide onsite options. Where data security is especially important we can provide options that allow you to retain the storage from a faulty device or have us destroy it onsite.

Services

XMA can offer a number of services to assist in the deployment of mobile devices in your school or institution. We can asset tag or laser etch (minimum 10 units) your devices with asset numbers and your institution's logo, pre-configure your devices with applications and settings and store your device in our bonded warehouse for staged rollouts.

Get Advice and Order

XMA's team in Glasgow can advise you on the devices available under this framework as well as associated accessories and services.

Contact the team by phone or e-mail using the details below.

Call **0845 688 8775** Monday to Friday, 09.00 - 17.30
Visit www.xma.co.uk/scotland

Our dedicated ordering portal will be available soon, offering access to pricing, online ordering, order tracking and more. Watch this space.

Delivery and Returns

Standard items will be delivered within 10 working days. XMA's customer service team can advise you on the status of your order and manage returns. Contact the team by phone or e-mail using the details below.

Call **0115 846 4656** Monday to Friday, 09.00 - 17.30

Technical Support and Dead On Arrival (DOA)

Every device offered on the framework includes a collect and return warranty. That means if something goes wrong that we can't help you with over the phone, we will arrange to have the device collected, repaired and returned to you. If a problem develops with a device purchased through the framework, call our help desk on the number below, ensuring you have the device in front of you and the serial number to hand. We may ask you to perform some basic troubleshooting that could get you back up and running immediately.

Call **0115 918 3540 Monday to Friday, 08.00 - 18.00**

If you prefer to e-mail us with details of the problem, use the address below.

technical.support@xma.co.uk

These details should also be used to report any devices that are Dead On Arrival (DOA) i.e. they do not function as expected out of the box, within 30 days of delivery.

Warranty Cover

What is covered by standard warranty?

- Any hardware failure or defect under conditions of normal use during the 1 year life of the limited warranty
- A battery which has depleted to less than 50% of its capacity
- Any manufacturer options or accessories sold as standard at the original point of sale and which are specifically designed and authorized for the device under cover

What is not covered by warranty?

- A battery that has a reduced capacity but still holding more than 50% of its charge
- Damage to the machine or lack of functionality caused by fluid or accidental damage
- Cosmetic damage
- Software and applications other than where exclusively supported by the manufacturer under their standard warranty
- Defective media retention – an enhanced warranty service is offered for institutions that require to maintain device storage or have it securely destroyed.

We are XMA.
