

North Coast Bearings markets and distributes differential rebuild kits, transmission rebuild kits and related products to the heavy, medium and light duty aftermarkets under the DT Components<sup>®</sup> product line. The brand was created through a strategic alliance with The Timken Company.

Over 2,500 Different Rebuild Kits

After nearly 20 years of success, Timken and North Coast Bearings have extended their strategic alliance to continue providing customers outstanding value into the future.

Our continually growing product line includes rebuild kits for the broadest range of on highway vehicles along with complementing gearing, axle shafts, u-joints and related products. Please visit our website for the latest news, information and literature on all of the North Coast Bearings products.

DT Components is the most recognized and respected brand of differential and transmission rebuild kits in North America. Our mission is to provide the best value in differential and transmission kits and components. Best value means Timken<sup>®</sup> tapered roller bearings, the best order fill, the fastest in-house turn-around time, US manufacturers' product where available, superior quality and personalized service.

North Coast Bearings is a member of the Bearingtech family of companies. These include:

- **Bearing Technologies** – Engineers and manufactures OEM quality wheel end products and OEM center support bearings

- **Micron Metalworks** – Machining division for automotive wheel end products

- **Precision** – Provider of competitively priced line of quality hub assemblies, bearings, seals and related products to automotive warehouse distributors

North Coast Bearings services customers from our 110,000 square foot Avon, Ohio facility along with a distribution center in Sparks, Nevada. The DT Components brand of kits are also available from additional Timken distribution centers throughout the world.

Bearing Technologies engineers, manufactures and services customers from their 119,000 square foot facility in Avon, Ohio.

# How To Use This Catalog

This catalog is divided into 6 main sections

1. Heavy Duty Differentials
2. Heavy Duty Transmissions and Transfer Cases
3. Light Duty Differentials
4. Light Duty Transmissions
5. Light Duty Transfer Cases
6. Driveshaft, Wheel End Products, Interchanges and Misc. Products

The Indexes for Heavy Duty Differentials, Transmissions and Transfer Cases are divided by the unit manufacturer and model number. Unless noted under the comments column, the rebuild kit services all ratios and variations for the model listed.

The Indexes for Light Duty Differentials, Transmissions and Transfer Cases are divided by vehicle manufacturer and model number/axle size. Make sure you have the correct date the vehicle was manufactured. Most models have evolved over time and there may be several kits for your particular vehicle depending upon when it was made.

Common Light Duty Differentials have their own product page by model number/axle size that lists gearing and other related products that are available.

Common Light Duty Transmissions and Transfer Cases also have their own product page by model number that lists gearing, synchronizers and related products.

We have also reprinted product information from our vendors with their permission on Heavy Duty Axles and Heavy Duty Differentials for your convenience.

Kit Bill Of Materials are listed in numeric sequence in four sections immediately after their related indexes.

# What's New In This Catalog

The DT2017 catalog provides the most complete offering of rebuild kits and related products for automotive, light and commercial vehicles. Below are highlights of the most recent additions to our product coverage.

## Heavy Duty Differential

- Dana 170/190 axles (2013 and newer)
- Mack C150 and C151 series of axles
- Meritor RC26-720 transit axle

## Heavy Duty Transmission

- Allison 1000, 2000, 3000 and 4000 models
- Mack T309, T310 and T318 models
- Volvo / Mack I-Shift 2412, 2512, 2612, 2812 and 3112 models
- PTO Kits for Chelsea, 270, 271, 442, 447, 489 and 880 models

## Heavy Duty Transfer Case

- Fabco 38, 200, 237, 270 and 306 models
- Spicer 738, 784, 785, 791 and 792 models

## Light Duty Differential

- Chevrolet Colorado/GMC Canyon with Dana front and rear axles (2015-On)
- Chevy Camaro ZL1 with 250mm axle (2013-On)
- Dodge/Freightliner Sprinters Ring & Pinions and Cases (2003-2007)  
Dodge/Freightliner Sprinters Rebuild Kits (2007-On)
- Ford 9.75" & 10.5" Ring and Pinion Conversion Kits (2000-On)
- Ford Escape with Dana 28 axle (2001-2012)
- Ford Mustang with 8.8" axle (2015-On)
- Ford Transit Vans with 9.75" axle (2015-On)
- Ford Trucks with 8.8", 9.75" and 10.5" axles (2011-On)
- GMC Trucks with the 9.76" axle (2014-On)
- Nissan NV Van with AAM 10.5" axle (2012-On)
- Nissan vehicles with the Dana 44 and Dana 205 axles (2004-On)
- Ram Trucks with ZF 9.25" axle (2011-On)
- RAM Trucks with the AAM 11.5" axle (2014-On)
- Toyota 4Runner and FJ Cruiser with 8" axle (2010-On)
- Toyota Tacoma with 8.75" axle (2016-On)
- Toyota Trucks with 9.5" and 10.5" axles (2007-On)

## Light Duty Transfer Case

- GMC trucks with Magna-Steyr 1222, 1225, 1625, 1626, 3023 and 3024 (2008-On)
- Jeep Grand Cherokee with Magna Steyr MP2010 (2011-On)
- Jeep Wrangler Rubicon with New Venture 241 (2003-On)
- Ram Trucks with Borg Warner 4444/4445 (2012-On)
- Ram Trucks with Borg Warner 4446/4447 (2012-On)
- Transfer Case Chains have been added to the vehicle indexes
- Transfer Case Product pages by transfer case model numbers

## Light Duty Transmission

- Dodge Caliber, Jeep Compass and Patriot vehicles with the T355 transmission. (2007-On)
- Ford Focus (2012-On)
- Ram Trucks with G56 transmissions synchro rings (2005-On)
- G56 Hard Parts are now available

## Center Support Bearings & Driveline Products

- HB210661-1XSA is a self aligning version of the HB210661-1X and allows the bearing to pivot +/- 10° within the rubber cushion for easier alignment during installation.
- Aluminum Center Support Bearings for Ford Trucks (2007-13)
- PTO Yokes Quick reference guide
- U-Joint Quick reference guide

Every possible effort has been made to ensure that the data in this catalog is correct, but we cannot assume responsibility should there be any error.

References to original equipment part numbers are for cross reference and identification purposes and may not indicate that the actual part is an original equipment part.

## Warning

Follow the manufacturer's installation instructions. Never spin a bearing with compressed air. The rollers may be forcefully expelled, creating a risk of bodily harm. Failure to follow all instructions and to properly lubricate the bearing can cause equipment failure, creating a risk of serious bodily harm.

## Heavy & Medium Duty Differential Products

- Bearing & Seal Rebuild Kits
- Tractech No Spin Differentials
- Axle Shafts
- Permatex<sup>®</sup> Adhesives & Sealants
- Individual Bearings & Seals
- Coverage for all Dana/Eaton, Detroit, GMC, IH/Navistar, Mack, Meritor/Rockwell, Volvo & White Models

## Heavy & Medium Duty Transmission & Transfer Case Products

- Bearing & Seal Rebuild Kits
- Permatex<sup>®</sup> Adhesives & Sealants
- Individual Bearings & Seals
- Coverage for all Allison, Chelsea, Clark, Eaton/Fuller, Fabco, Mack, Meritor/Rockwell, New Process, Spicer/TTC, Volvo & ZF Models

## Light Duty Differential Products

- Bearing & Seal Rebuild Kits
- Ring & Pinion Sets
- Differential Cases & Internal Kits
- Auburn, Detroit Locker & Eaton Limited Slip & Locking Differentials
- Axle Shafts
- Axle Shaft Repair Bearings
- Permatex<sup>®</sup> Adhesives & Sealants
- Individual Bearings & Seals
- Coverage for all AMC, Chrysler, Ford, GM, Jeep, Nissan & Toyota Vehicles

## Light Duty Transmission & Transfer Case Products

- Bearing & Seal Rebuild Kits
- Synchronizer Rings & Assemblies
- Input Shafts & Counter Shafts
- Transfer Case & Automatic Transmission Chains
- Permatex<sup>®</sup> Adhesives & Sealants
- Individual Bearings & Seals
- Coverage for all Acura, AMC, Chrysler, Ford, GM, Honda, Hummer, Hyundai, Infiniti, Isuzu, Jeep, KIA, Lexus, Mazda, Mitsubishi, Nissan, Saturn, Suzuki & Toyota Vehicles

## Driveline & Clutch Products

- Driveshaft Center Support Bearings
- Universal Joints
- PTO Yokes
- Clutch Release Bearings
- Pilot Bearings
- EZ Sleeves®
- Individual Bearings & Seals
- Coverage for all Acura, AMC, Chrysler, Ford, GM, Honda, Hummer, Hyundai, Infiniti, Isuzu, Jeep, KIA, Lexus, Mazda, Mitsubishi, Nissan, Saturn, Suzuki, Volkswagen & Toyota Vehicles & Agricultural Applications

## Heavy Duty, Light Truck & Automotive Wheel End Products

- Wheel Bearings & Sets
- Hand Installed Wheel Seals
- Tool Installed Wheel Seals
- ABS & Non-ABS Hub Assemblies
- Axle Bearings, Axle Repair Bearings & Spindle Bearings
- Axle Seals & Wheel Seals

While this catalog is as current as possible at the time it was printed, it is quickly outdated due to our continued efforts of adding rebuild kits and related products for additional models and newer vehicles.

We also offer many additional products such as axle bearings, wheel hub assemblies, wheel seals, clutch release bearings, automatic transmission and engine seals that are not contained in this catalog.

Our E-Catalog also contains images and specifications on many of our products along with over 330,000 part number interchanges.

Please access our E-catalog via [www.dtcomponents.com](http://www.dtcomponents.com) to look up information on these additional products and for models and years not included in this catalog.

## Meritor/Rockwell Axle Identification

**Nominal Axle Load Rating (GAWR):**  
In thousands of pounds. Individual forward and rear axles of a tandem set (**D, N, P, R**) are rated as single axles. A tandem set (**T**) is rated as the combination of the two axles and a tridem set (**Z**) as the combination of the three axles.

**Manufacturing Location**  
A - Australia  
B - Brazil  
C - India  
D - Mexico (Dirona)  
E - Europe (C.V.C.)  
M - Europe (Maudslay)  
N - U.S.A.

**Hub Type**  
A - Aluminum  
F - Ferrous  
N - None

**Brake Type**  
C - Dura-Master® Air Disc Brake  
D - RDA Stopmaster® Wedge Brake (Dual Air Chambers)  
E - RDH Stopmaster® Wedge Brake (Dual Hydraulic Cylinders)  
F - RSH Stopmaster® Wedge Brake (Single Hydraulic Cylinder)  
L - Q Plus Cam Brake  
N - None  
P - Cam-Master® "P" Series Cam Brake  
Q - Cam-Master® "Q" Series Cam Brake  
S - RSA Stopmaster® Wedge Brake (Single Air Chamber)  
T - Cam-Master® "T" Series Cam Brake  
W - Cam-Master® "W" Series Cam Brake

**Gearing Type**  
1 - Single Speed  
2 - Two Speed  
3 - Helical Double Reduction  
4 - Salisbury Single Speed  
5 - Planetary Double Reduction  
6 - Hub Reduction

**Main Differential Nest Type**  
B - Special Differential  
C - Driver Controlled Differential Lock  
F - Standard Differential  
H - High Traction® Differential  
N - NoSPIN™ Differential

**RR 20 1 4 5      N C Q F 123**

**Axle Specification Number**  
Identifies specific customer axle configurations (variations from the original axle design). For information about the variation, see the Bill of Materials for that specific axle model.

**Axle Type**  
C - Single Rear Drive Axle, Coach  
D - Forward-Rear Axle of a Drive Tandem with Inter-Axle Differential  
N - Forward-Rear Axle of a Drive Tandem or Tridem without Inter-Axle Differential  
P - Forward-Rear Axle of a Drive Tandem with Inter-Axle Differential and Pump  
R - Rear-Rear Axle of a Drive Tandem  
S - Single Rear Drive Axle  
T - Tandem Drive Axle Set  
Z - Tridem Drive Axle Set

**Carrier Type**  
Carrier size. Large numbers indicate a higher GCW rated carrier; i.e., larger ring gear, etc.

**Axle Design Variation**  
Indicates axle design level or variation, (e.g., RS 23 161 has a thicker wall housing than the RS 23 160). For information, see the Bill of Materials for that specific axle model.

### SPECIAL AXLES & SHAFTS

Our Modern equipment and facilities enable us to produce all types of shafts for Trucks and Tractors as well as for other innumerable uses. Submit your drawings and specifications, and quotations will be promptly forwarded.

### GENERAL INFORMATION

Our axles and drive shafts are manufactured for the replacement trade. It is not intended to convey the thoughts that they are original shafts made by the truck or assembly manufacturer. They are sold for use in replacing broken or worn shafts and should be resold by the vendor for such purposes only. Vehicles or assembly manufacturers' part numbers are used to aid in selection of our proper number.

## AXLE-TYPES

The illustrations below classify the principal types of Axles listed in the Catalog. The symbols appear in the alphabetical listing in the column headed "Type and Number of Splines." The letter symbol identifies the type, and the numeral suffix the number of splines. Flanged axles, unless otherwise noted, are measured from inside of flange to end of spline.

TYPE B

TYPE K

TYPE F  
INTERGRAL FLANGE

TYPE M  
MF-Type M with Press-on Flange

TYPE R

TYPE O  
Integral Flange

TYPE J  
JF-Type with Press-on Flange

TYPE P

Type "T" same as Type "P", without lock key groove.

# Heavy Duty Axle Shafts

To Identify a Heavy Duty Axle Shaft... follow these time saving steps:

## 1 Look for Manufacturers Numbers.

They are stamped as shown with the following codes:

**Foot** =  $\diamond F$  + 3 or 4 digit number

**Eaton** = 5 or 6 digit number

**Rockwell** = Letter + 4 digit number

If you are able to read these numbers clearly, phone your local **NCB** distributor listed below and give them the flange numbers to cross reference in

our catalog. The distributor can quickly give you the interchange number and cost.

## 2 If numbers are unavailable or illegible.

**Measure** diameter and count number of splines on shaft.

**Measure** diameter of bolt circle. (Center of hole to center of hole on opposite side of flange.)

**Count** the number of straight and the number of tapered holes in flange.

**Measure** length of shaft from inside face of flange to end of spline.

**Note** whether flange is flat or dome shaped.

**Note** whether splines are straight or tapered.

## 3 With all the dimensions and information...

Refer to the **NCB** catalog for matching specifications or call your local **NCB** distributor listed below for assistance and availability. **One phone call is all it takes to cut your downtime.**

# Light Duty Differential Rebuild Kits

DT Components Differential Rebuild Kits are available in four kit types; Standard Kit, Master Kit, Standard Kit Plus and Master Kit Plus. Each kit type has a different level of kit content.

Axle bearings and seals are available individually and within an Axle Kit (both sides) and a Wheel Kit (single side).

These four kit types allows you to choose what level of kit content you stock and enables you to easily stock the axle bearings and seals as an add on kit.

Below is a typical semi-floating rear axle and what is contained within the Standard Kit type.

## Standard Kit DRK-311 Shown

- Differential Brgs.
- Pinion Head Brg.
- Pinion Tail Brg.
- Pinion Seal
- Crush Sleeve
- Pinion Nut
- Gear Marking Compound & Brush
- Threadlocker
- Sealer

+

## Axle Kit AK10 Shown

- Axle Brgs.
- Axle Seals

=

## Standard Kit Plus DRK-311AK10 Shown

Contains entire contents from both Standard and Axle kits

# Light Duty Differential Rebuild Kits

Below is a typical semi-floating rear axle and what is contained within the Master Kit type.

### Master Kit DRK-311MK Shown

- Differential Brgs.
- Pinion Head Brg.
- Pinion Tail Brg.
- Pinion Seal
- Crush Sleeve
- Pinion Nut
- Gear Marking Compound & Brush
- Threadlocker
- Sealer
- Pinion Depth Shims
- Differential Shims
- Ring Gear Bolts

+

### Axle Kit AK10 Shown

- Axle Brgs.
- Axle Seals

=

### Master Kit Plus DRK-311MKAK10 Shown

Contains entire contents from both Master and Axle kits

## Axle Identification

Accurate axle identification is critical when ordering repair parts for rear axles in car, truck & SUV applications as well as for front axles used in four wheel drive truck & SUV applications. The axles used in each individual vehicle can vary based on vehicle options. For example, a typical GM ½-ton truck will be equipped with the GM 8.5" axle, but this same truck may be built with a larger GM 9.5" axle if optioned with a larger engine, heavy duty chassis or towing packages. Therefore, the axle must be identified by the vehicle owner or mechanic prior to ordering parts.

Vehicles can be equipped with either corporate axles (built by the vehicle manufacturer) or Dana axles. Corporate axles from Chrysler, Ford & GM are identified by the ring gear diameter and are frequently referred to as a "Ford 8.8" or "GM 8.5". Ford axles may have an identification tag that specifies ring gear diameter and ratio.

Most corporate axles can be easily identified by the bolt pattern on the differential cover when you have more than one axle option for your vehicle. The following illustrations show the typical bolt pattern for the common corporate axles. You may still need to measure the ring gear diameter in order to positively identify the corporate axle.

### To Determine Ring Gear Diameter

you need to measure the outside diameter of the ring gear.

**Dana axles** are identified by model number. The model number (i.e. "44") is usually cast into the webbing of the axle center housing as shown in the illustration below.

LD Differential

Measure the axle shaft from the outside edge of the flange to the end of the axle shaft. You must measure parallel to the axle shaft as shown and **NOT** diagonally from the flange to the axle shaft end. Do **NOT** include the brake pilot in your measurement.

# Transfer Case Chain Information

## Link and Pin Nomenclature

### Chain Component Identification

- Link Apertures: Holes in links either round or Rocker Joint shaped to match the connecting pins. This is the area of articulation in the chain.
- Guide Link: Link plate positioned on the outside of the chain. This pilots the chain on the sprocket.
- Link Flank: Lower portion of link which engages the sprocket teeth.
- Link Crotch: Space between link flanks which clear the sprocket tooth tip.
- Link Back: The outside curvature of the link design to provide strength and operating smoothness. Some are designed flat rather than curved.
- Round Pin: Singular round pin used to articulate the chain.
- Rocker Joint Pin: Two pins are utilized to articulate the chain.

A round pin chain can be rolled into a ball. A rocker pin chain cannot be. Round and rocker pin chains are not interchangeable.

### Chain Identification Terms

- Pitch: Effective length between the center points of the apertures, which are the points of joint movement.
- Width: The approximate dimension between the inside and outside guide links.
- Random Chain: Patterns which are interlaced in a random link pattern utilizing two different link styles in rows across the chain.
- Chain measurement example: 3/8" Pitch x 1-1/4" Width x 72 Pitches — 72 pitches would be 36 total guide plates per side

Additional Info

## Center Support Bearings

DT Components center support bearings are available for a broad range of domestic and foreign passenger cars, SUV's, pickup trucks as well as medium and heavy duty truck applications. Each center support bearing is engineered and constructed for the specific vehicle application ensuring precise driveshaft alignment and support. All center support bearing components are manufactured at ISO9001 certified or higher factories and go through rigorous testing throughout the manufacturing process to ensure the highest possible quality is built into every unit.

The bearings contained within the center supports are designed to provide smooth and quiet operation under the harshest conditions. Every bearing is pre-lubricated for life and sealed with metal reinforced seals preventing moisture and contaminants from entering the bearing. The center support rubber cushions are manufactured using a special formula that blends the highest quality materials into a rubber compound that provides support while absorbing and isolating vibrations that could damage the driveline.

Center support frames are constructed from cold rolled steel for additional strength and feature a protective corrosion resistant coating to protect it from the elements and road salt. DT Components center support bearings are available with and without flingers where applicable.

This DT Components catalog is organized by U-Joint series and vehicle specific applications. Photos of each center support bearing are arranged in numeric order so customers can visually confirm the correct part identification before ordering. Complete interchange and vehicle application information is located in our electronic catalog that is accessible through the DT Components website.

## FOR WORN YOKES & SHAFTS RESLEEVEING

E-Z SLEEVE restores your worn yokes and shafts to give them new life. E-Z SLEEVE is so hard, wear resistant and friction free, it will set new standards for trouble free sleeving.

The concept of a thin wall flanged sleeve is very popular for fast sleeving of shafts and yokes. However the results often fall short of expectations. The soft sleeves lack durability and operate with too much resistance (resulting in excessive heat and failures).

E-Z SLEEVE eliminates these problems and provides a long life sleeve at an affordable price.

E-Z SLEEVE's innovative technology will set the new standard in the industry.

### What sets E-Z SLEEVE apart from other sleeves?

- **HARD CHROME COATING**  
E-Z SLEEVE stainless steel sleeves are hard chromed to a hardness of 68RC.
- **LOWER COEFFICIENT OF FRICTION**  
Hard chrome provides a smoother surface and has a lower coefficient of friction that reduces heat and seal wear.
- **BETTER SEAL FIT**  
E-Z SLEEVE minimize the change to the original shaft diameter. This provides a better fit between the repaired shaft and the seal.

# Gasket Maker

## Permatex® High Strength Threadlocker RED

OEM specified. High strength threadlocker for heavy-duty applications 3/8 inch to 1 inch (10mm to 25mm). Especially well-suited for permanently locking studs and press fits. Adds 3,000 PSI holding power on slip and press fit assemblies. Replaces set screws and snap rings. Locks against vibration loosening. May require heat or special tools for removal.

Available in 1 ml individual pouches, 6 ml carded tubes, 36 ml carded bottles and 90 ml bottles. Large diameter threadlocker for bolts larger than 1 inch in diameter is available in 36 ml carded bottles. High temperature, high strength threadlockers suited for temperatures up to 450°F is available in 6 ml carded tubes, 10 ml carded bottles and 36 ml carded bottles. High temperature, permanent strength threadlocker for high vibration and heavy shock applications is available in 6 ml carded tubes and 36 ml carded bottles.

## Permatex® Medium Strength Threadlocker BLUE

OEM specified. All-purpose, medium strength threadlocker. Ideal for all nut and bolt applications 1/4" to 3/4" (6mm to 20mm). Eliminates need for stocking expensive lock nuts and lock washers. Locks and seals while preventing parts loosening due to vibration. Protects threads from corrosion. Removable with hand tools for easy disassembly.

Available in 1 ml individual pouches, 2.5 ml carded bottles, 6 ml carded tubes, 36 ml carded bottles and 90 ml bottles.

## Permatex® Low Strength Threadlocker PURPLE

OEM specified. Low strength threadlocker designed for fasteners under 1/4" (6mm) that require occasional adjustment. Removable with hand tools for easy disassembly. Noncorrosive. Conforms to ASTM D 5363 AN0311 (Mil-S-46163A, Type II, Grade M).

Available in 6 ml carded tubes.

# Gasket Maker

## Permatex® Anaerobic Gasket Maker

OEM specified. Noncorrosive gasketing material designed primarily for use on aluminum, iron, and steel flanged mating surfaces. Ideal for on-the-spot and emergency repairs, or when a conventional gasket is unavailable. Fills gaps up to .015" and cures to a solvent-resistant seal that will not tear or decay during service. Parts disassemble easily even after extended service and old gasket material can be removed in minutes with a simple putty knife.

Available in 6 ml carded tubes, 50 ml carded tubes and 300 ml cartridges.

## Permatex® Ultra Blue® Multipurpose RTV Silicone Gasket Maker

OEM specified. Permatex® Ultra silicones were developed to meet today's technology changes. Sensor-safe, low odor, noncorrosive. Outstanding oil resistance and joint movement values. Eight times more flexible than cork/composite gaskets; three times more oil resistant than conventional silicones. Temperature range -65°F to 500°F (-54°C to 260°C) intermittent; resists auto and shop fluids and vibration.

Available in 3.35 oz carded tubes, 9.5 oz Powerbead cans and 13 oz cartridges.

## Permatex® Ultra Black® Maximum Oil Resistance RTV Silicone Gasket Maker

OEM specified. For dealership warranty requirements, ensures extended drivetrain warranty compliance. Fast-curing formula. Sensor safe, low odor, noncorrosive. Meets performance specs of OE silicone gaskets. Retains high flexibility, oil resistance properties through use of a patented adhesion system. Temperature range -65°F to 500°F (-54°C to 260°C) intermittent; resists auto and shop fluids and vibration.

Available in 3.35 oz carded tubes, 8.75 oz Automatic Tubes, 9.5 oz Powerbead cans and 13 oz cartridges.

## Gasket Maker

### Permatex® Ultra Grey® Rigid High-Torque RTV Silicone Gasket Maker

OEM specified. Designed specially for high-torque and high vibration applications, like those common in import engines, this premium RTV gasket maker exceeds manufacturers' performance requirements. Noncorrosive and low-odor. Maximum vibration resistance, with outstanding resistance to oils, cooling and shop fluids. Guaranteed not to leak. Temperature range -65°F to 500°F (-54°C to 260°C) intermittent.

Available in 3.35 oz carded tubes, 9.5 oz Powerbead cans and 13 oz cartridges.

### Permatex® High-Temp Red RTV Silicone Gasket

OEM specified. Formulated for hi-temp applications, or heavy-duty use (such as towing, etc.). Replaces almost any cut gasket by making reliable "formed-in-place" gaskets that resist cracking, shrinking and migrating caused by thermal cycling. Coats pre-cut gaskets to increase reliability. Temperature range -65°F to 650°F (-54°C to 343°C) intermittent; resists auto and shop fluids. First generation 1970-1980 gasket maker.

Available in 3 oz carded tubes, 7.25 oz Automatic Tubes, 7.25 oz Powerbead cans and 11 oz cartridges.

### Permatex® the Right Stuff® Gasket Maker

Return equipment to service immediately when you make leak-proof gaskets in just one minute with the Right Stuff.® This latest elastomeric rubber gasket technology is blowout resistant and outperforms pre-cut gaskets. Specified on production lines by GM, Ford, DaimlerChrysler and Mercedes-Benz. Temperature range -75°F to 450°F (-59°C to 232°C) continuous, 500°F (260°C) intermittent.; resists ATF, coolant, oil and other shop fluids. Protects against leaks caused by vibration and thermal expansion. Sensor-safe

Available in 4 & 7 oz Automatic Tubes, 7.5 oz Powerbead cans and 5 & 10.1 oz cartridges.

## Gasket Maker

### Permatex® Bearing Mount for Close Fits

OEM specified. A low viscosity, rapid-curing anaerobic adhesive that augments the strength of press fit assemblies or slip fit assemblies up to .005" in diameter. Adds up to 3,000 PSI holding power.

Available in 36 ml carded bottles.

### Permatex® Bearing Mount for Relaxed Fits

OEM specified. High strength, medium viscosity anaerobic adhesive for slip fit assemblies. Provides 2,800 PSI shear strength on steel. Fixes in 10 minutes at room temperature.

Available in 36 ml carded bottles.

### Permatex® High Temperature Sleeve Retainer

OEM specified. High temperature (up to 400°F / 204°C) anaerobic adhesive that secures slip and press fit assemblies. Adds up to 3,000 PSI holding power. Restores fit to worn or out-of-tolerance assemblies. Prevents surface corrosion.

Available in 6 ml carded tubes and 36 ml carded bottles.

### Permatex® Prussian Blue

Aids precision-fitting of machined surfaces. Locates high spots on bearings, valves, gears and other close-to-tolerance components. Nondrying. Easy clean-up.

Available in .75 oz tubes.

### Permatex® Anaerobic Flange Sealant

Flexible, gasketing material for use on rigid machined flanges with less than .015" gap. OEM approved – use where OE's specify "anaerobic" gasket (cures in the absence of air). Withstands temperatures to 300°F (149°C). Eliminates preformed, pre-cut, paper, rubber and cork gaskets. Flexes with flanges that move in service.

Available in 50 ml carded tubes and 300 ml cartridges.

### Permatex® High Temperature Anaerobic Flange Sealant

A high temperature sealant specially engineered for making or dressing gaskets in rigid assemblies. Able to withstand temperatures to 400°F (204°C), fills gaps up to 0.020" (primed) and permits clamping loads to be maintained for strong, leakproof assemblies.

Available in 50 ml carded tubes.

---

## Limited Warranty

---

Merchandise purchased from NORTH COAST BEARINGS, LLC (“NCB”) is warranted against defects in material and workmanship for a period expiring one (1) year after purchase from NCB by the original purchaser, which purchase date is set forth on NCB invoice. If a breach of this warranty, then NCB shall, at NCB’s option, either replace the defective merchandise or refund in full, without interest or abatement, the purchase price actually paid by the original purchaser to NCB. In order to avail itself of relief from NCB under this warranty, the claimant must return the defective merchandise at claimant’s own cost and expense to NCB, and NCB shall be entitled to make its own inspection to determine whether the warranty claim is valid. NCB shall have no responsibility in the event that written notice of such claim is not made within the one (1) year period aforesaid; nor shall NCB be responsible for labor charges involved in the replacement of any merchandise. NCB shall not be liable in the event of alteration, misuse, overload, negligence or damage caused by others or if the merchandise shall have been damaged by flood, fire or other events not within its control.

THIS EXCLUSIVE WARRANTY IS EXPRESSLY MADE IN PLACE OF AND IS SUPERIOR TO ANY AND ALL OTHER WARRANTIES OF ANY NATURE WHATSOEVER, INCLUDING IMPLIED WARRANTIES, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE, AND OF ALL OTHER OBLIGATIONS IN CONNECTION WITH THE SALE OF THE MERCHANDISE BY NORTH COAST BEARINGS UNDER NO CIRCUMSTANCES SHALL NORTH COAST BEARINGS BE LIABLE TO THE PURCHASER OR ANY OTHER PARTY FOR LOSS OF PROFIT, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY TYPE.
