Customer Information

1. PRODUCTS AND SERVICES;

See pages 13 through 217 for the products and services offered under this schedule contract.

2. MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.)

a. The Maximum Order value for the following Special Item Numbers (SINs) is \$500,000:

Special Item Number 33411 - Purchase of New Electronic Equipment
Special Item Number 811212 – Maintenance of Equipment, Repair Services, Repair Parts/Spare Parts
Special Item Number 54151S - Information Technology Professional Services
Special Item Number 54151HACS – Highly Adaptive Cybersecurity Services
Special Item Number 518210C- Cloud Computing and Cloud Related IT Professional Services
Special Item Number 54151 - Software Maintenance Services
Special Item Number 511210 – Software Licenses

b. The Maximum Order value for the following Special Item Numbers (SINs) is \$100,000

Special Item Number OLM – Order-Level-Materials

c. The Maximum Order value for the following Special Item Numbers (SINs) is \$25,000:

Special Item Number 611420 – Information Technology Training

3. MINIMUM ORDER

The minimum dollar value of orders to be issued is \$250, except for SIN 811212 Maintenance of Equipment which is \$500 per month. The minimum quantity for SIN 54151S is 8 hours.

4. GEOGRAPHIC SCOPE OF CONTRACT:

The Geographic Scope of Contract will be Domestic Delivery Only. Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Orders with overseas requirements shall be negotiated on a case by case basis.

5. POINTS OF PRODUCTION

VariouS depending on the product(s) ordered.

6. DISCOUNTS

All prices listed are NET prices; basic discounts have been deducted.

7. QUANTITY DISCOUNTS

Telos is registered in the SAM system and that registration is current.

Customer Information

Terms and Conditions for all IT Contractors

1) Organizational Conflicts Of Interest

a) Definitions.

"Contractor" means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

"Contractor and its affiliates" and "Contractor or its affiliates" refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An "Organizational conflict of interest" exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor's or its affiliates' objectivity in performing contract work.

b) To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508

2) Services Performed

a) All services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

b) The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.

c) The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.

3) **Travel.** Any Contractor travel required in the performance of services must comply with the Pub. L. 99-234 and FAR Part 31.205-46, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel.

4) Warranty

a) Unless otherwise specified in the contract, the Contractor's standard commercial warranty applies.

Customer Information

b) The Contractor's commercial guarantee/warranty shall be included in the Commercial Supplier Agreement to include Enterprise User License Agreements or Terms of Service (TOS) agreements, if applicable.

c) Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

Note: GSA will not award any Drones/Unmanned Aircraft Systems (UAS), as defined in 49 USC Ch. 448, in response to this Large Category except those drones approved by the Department of Defense (DoD) Defense Innovation Unit (DIU) through its Blue sUAS Program.

Customer Information

**INFORMATION TECHNOLOGY CATEGORY
F02. IT HARDWARE SUBCATEGORY
HARDWARE MAINTENANCE ORDER TERMS
(SPECIAL ITEM NUMBER 811212)**

1. SERVICE AREAS

a. The maintenance service rates listed herein are applicable to any ordering activity location within a twenty-five (25) mile radius of Telos/Original Equipment Manufacturer (OEM) service points. If any additional charge is to apply because of the greater distance from the Telos/OEM service locations, the mileage rate or other distance factor shall be negotiated at the Task Order level.

b. When maintenance cannot be performed at the ordering activity installation site, the repair will be performed at Telos' plant(s) listed below:

19886 Ashburn Rd.
Ashburn, VA 20147

2. LOSS OR DAMAGE

When Telos moves equipment to its OEM location for repairs, Telos shall be responsible for any damage or loss, from the time the equipment is removed from the ordering activity installation, until the equipment is returned to such installation.

3. SCOPE

a. Telos shall provide maintenance for all equipment listed herein, as requested by the ordering activity during the contract term.

b. Equipment placed under maintenance service shall be in good operating condition.

i) In order to determine that the equipment is in good operating condition, the equipment shall be subject to inspection by Telos, without charge to the ordering activity.

ii) Costs of any repairs performed for the purpose of placing the equipment in good operating condition shall be borne by Telos, if the equipment was under Telos/OEM guarantee/warranty or maintenance responsibility prior to the effective date of the maintenance order.

iii) If the equipment was not under Telos/OEM responsibility, the costs necessary to place the equipment in proper operating condition are to be borne by the ordering activity, in accordance with the provisions of the contract.

Customer Information

4. RESPONSIBILITIES

- a. For equipment not covered by a maintenance contract or warranty, Telos' repair service personnel shall complete repairs as soon as possible after notification by the ordering activity that service is required. Within the service areas, this repair service should normally be done within 4 hours after notification.
- b. If the Ordering Activity task or delivery order specifies a factory authorized/certified service personnel then Telos is obligated to provide such a factory authorized/certified service personnel for the equipment to be repaired or serviced, unless otherwise agreed to in advance between the Ordering Activity and Telos.
- c. Hardware maintenance and/or service repair shall be authorized by the OEM.
- d. All parts furnished in connection with the repair and/or maintenance of equipment shall be parts authorized by the OEM.

5. MAINTENANCE RATE PROVISIONS

- a. Telos shall bear all costs of maintenance, including labor, parts, and such other expenses as are necessary to keep the equipment in good operating condition, provided that the required repairs are not occasioned by fault or negligence of the ordering activity.
 - i. **REGULAR HOURS:** The basic monthly rate for each make and model of equipment shall entitle the ordering activity to maintenance service during a mutually agreed upon nine (9) hour principal period of maintenance, Monday through Friday, exclusive of holidays observed at the ordering activity location.
 - ii. **AFTER HOURS:** Should the ordering activity require that maintenance be performed outside of regular hours, charges for such maintenance, if any, will be \$140 per hour, with a two-hour minimum for equipment under on-call maintenance service.
 - iii. **TRAVEL AND TRANSPORTATION:** If any charge is to apply, over and above the regular maintenance rates, because of the distance between the ordering activity location and Telos/OEM service area, the charge will be negotiated at the task order level.

b. QUANTITY DISCOUNTS

None offered.

Customer Information

**INFORMATION TECHNOLOGY CATEGORY
F04. IT SOFTWARE SUBCATEGORY
SOFTWARE LICENSES
(SPECIAL ITEM NUMBER 511210)**

1. CONVERSION FROM TERM LICENSE TO PERPETUAL LICENSE

The ordering activity may not convert term licenses to perpetual licenses.

2. TERM LICENSE CESSATION

Not applicable

3. SOFTWARE CONVERSIONS -

There will be no additional charge to the ordering activity when conversion from one version of the software to another is made as the result of a change in operating system, or from one computer system to another, provided that the software is covered by maintenance at the time of conversion. Under a perpetual license, the purchase price of the new software shall be reduced by the amount that was paid to purchase the earlier version.

Customer Information**INFORMATION TECHNOLOGY CATEGORY
F06. INFORMATION TECHNOLOGY TRAINING
(SPECIAL ITEM NUMBER 611420)**

611420 Includes training on hardware, software, cloud, and other applicable systems.

1) Specific Instructions for SIN 611420 – Information Technology Training

- a. Prepaid training tokens, credits, etc., shall not be permitted on this SIN.
- b.. Telos shall provide training courses normally available to commercial customers, which will permit ordering activity users to make full, efficient use of general purpose commercial IT products. Training is restricted to training courses for those products within the scope of the IT Category.

c.. CANCELLATION AND RESCHEDULING

i. The ordering activity will notify Telos at least seventy-two (72) hours before the scheduled training date, if a student will be unable to attend. Telos will then permit the ordering activity to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the ordering activity will modify its original training order to specify the time and date of the rescheduled training class.

ii. In the event the ordering activity fails to cancel or reschedule a training course within the time frame specified in paragraph a, above, the ordering activity will be liable for the contracted dollar amount of the training course. Telos agrees to permit the ordering activity to reschedule a student who fails to attend a training class within ninety (90) days from the original course date, at no additional charge.

iii. The ordering activity reserves the right to substitute one student for another up to the first day of class.

iv. In the event Telos is unable to conduct training on the date agreed to by Telos and the ordering activity, Telos must notify the ordering activity at least seventy-two (72) hours before the scheduled training date.

d. FOLLOW-UP SUPPORT

Telos agrees to provide each student with unlimited telephone support for a period of one (1) year from the completion of the training course. During this period, the student may contact Telos' instructors for refresher assistance and answers to related course curriculum questions.

e. FORMAT AND CONTENT OF TRAINING

i.. Telos shall provide written materials (i.e., manuals, handbooks, texts, etc.) normally provided with course offerings. Such documentation will become the property of the student upon completion of the training class.

ii. For hands-on training courses, there must be a one-to-one assignment of IT equipment to students.

iii. Telos shall provide each student with a Certificate of Training at the completion of each training course.

iv.. Telos shall provide the following information for each training course offered:

Customer Information

- A) The course title;
- B) A brief description of the course content, to include the course format (e.g., lecture, discussion, hands-on training);
- C) The length of the course;
- D) Mandatory and desirable prerequisites for student enrollment;
- E) The minimum and maximum number of students per class;
- F) The locations where the course is offered;
- G) Class schedules; and
- H) Price (per student, per class (if applicable)).

v. For courses conducted at the ordering activity's location, instructor travel charges (if applicable), including mileage and daily living expenses (e.g., per diem charges) are governed by Pub. L. 99-234 and FAR Part 31.205-46, and are reimbursable by the ordering activity on orders placed under the Multiple Award Schedule, as applicable, in effect on the date(s) the travel is performed. The Industrial Funding Fee does NOT apply to travel and per diem charges.

vi. For Online Training Courses, a copy of all training material must be available for electronic download by the students.

f. "NO CHARGE" TRAINING

Not applicable

IT Professional Services – Labor Category Descriptions

THE BELOW APPLIES TO ALL TELOS LABOR CATEGORIES

Representative education and experience qualifications of Telos' IT Services categories are provided below. These labor categories allow for an equivalent combination of education, experience and/or training that provides the required knowledge, skills, and abilities. Telos labor categories are offered in the same manner as Telos sells to its commercial and other ordering activity customers.

Below are the equivalencies:

(One year of education = One year experience):

Associate's Degree or 2 years education above high school = 2 years of experience

Bachelor's Degree or 4 years education above high school leading towards a bachelor's degree = 4 years experience Master's Degree or 2 years of progressively higher level graduate education = 6 years experience

Ph.D. or equivalent Doctorate degree or 3 years of progressively higher level graduate education = 7 years experience

Example: A labor category requires a BS and 15 years experience....If a person had no degree at all, it would require that they have 19 years experience to satisfy the labor category description. If a person had an associate's degree, it would require that they have 17 years experience to satisfy the labor category description.

Cloud Computing and Cloud Related IT Professional Services

THE BELOW APPLIES TO ALL TELOS LABOR CATEGORIES

Representative education and experience qualifications of Telos' IT Services categories are provided below. These labor categories allow for an equivalent combination of education, experience and/or training that provides the required knowledge, skills, and abilities. Telos labor categories are offered in the same manner as Telos sells to its commercial and other ordering activity customers.

Below are the equivalencies:
(One year of education = One year experience):
Associate's Degree or 2 years education above high school = 2 years of experience
Bachelor's Degree or 4 years education above high school leading towards a bachelor's degree = 4 years experience
Master's Degree or 2 years of progressively higher level graduate education = 6 years experience
Ph.D. or equivalent Doctorate degree or 3 years of progressively higher level graduate education = 7 years experience

Example: A labor category requires a BS and 15 years experience....If a person had no degree at all, it would require that they have 19 years experience to satisfy the labor category description. If a person had an associate's degree, it would require that they have 17 years experience to satisfy the labor category description.

| GA-53006-H | <p>Cybersecurity Architect - Journeyman - Implements enterprise security architectures, security posture and solutions.</p> <p>Functional Responsibilities may include: Identify, define and document system security requirements and recommend solutions to management. Implements and updates information security strategy. Assists with integrated, dynamic Cyberdefense, coordinate and maintain security toolsets to support organizations' continuous monitoring and ongoing authorization programs. Conduct system security and vulnerability analyses and risk assessments; studying architecture/platform; identifying integration issues. Implements security systems by specifying intrusion detection methodologies and equipment; implement equipment and software installation and calibration; preparing preventive and reactive measures; creating, transmitting, and maintaining keys; providing technical support; completing documentation. Ensure that the architecture and design of development and operational systems are functional and secure. Research latest security threats and methods to counteract security risks. Bachelors Degree and 3 years experience required. GDSA, CAP, CASP+ CE, CISM, GSLC. One of the above is desired but not required.</p> | \$165.09 |

| GA-53007-H | <p>Cybersecurity/Threat Analyst - Expert - Evaluates and resolves threats and risks to user privacy in time critical emergency escalations. Plans, implements, or monitors security measures for the protection of computer networks and information through implementation of a cyber framework process.</p> <p>Functional Responsibilities may include: Ability to manage and lead projects, staff, and conduct organizational meetings. Provides technical and programmatic Information Assurance Services to internal and external customers in support of network and information security systems. Designs and develops security requirements within an organization’s business processes. Analyzes policies and procedures against Federal laws and regulations and provides recommendations for closing gaps. Develops, tests and integrates computer and network security tools. Evaluates, develops and enhances security requirements, policy and tools. Provides assistance in computer incident investigations. Performs vulnerability assessments including development of risk mitigation strategies. Evaluates programs against Federal and commercial regulations and guidance. May evaluate systems and procedures to protect data systems and databases from unauthorized users. Determines causes of security breaches and researches, recommends, and implements changes to procedures to protect data from future violations. Educates users on security procedures. Evaluates IT systems to ensure they comply with FISMA. Enforces a separation of duties between enterprise IT managers, who administer user identities and set policy, and departmental staff, who administer systems. Collaborates with the business to analyze, evaluate, and enhance information systems facilitating the business' internal control processes and standards. Continuously assesses opportunities to improve the internal control environment across the organization.</p> <p>Bachelors Degree and 8 years experience required. CEH, CFR, CCNA Cyber Ops, CCNA security, GCIA, GiCSP. One of the above is desired but not required.</p> | \$221.35 |

Information Technology Training

| Part Number | Description | GSA Price |
|-------------|--|-----------|
| XTCU | Xacta Training Credit Unit – 1 day of training | \$429.27 |

XTCUs can be purchased in any whole numerical amount and used for your entire organization as you see fit. You can use the following formula to help you determining how many training units you might need:

$$(\# \text{ of staff}) \times (\text{total } \# \text{ of training days needed for each}) = \# \text{ of CUs needed}$$

To accommodate your scheduling needs, you may use your XTCUs over the course of the twelve months following the date of purchase. To ensure that your credits are used, your staff members must register for and attend Xacta's courses within the twelve-month period following purchase. It is important to use all of your XTCUs within the 12-month period, since they will not be carried forward and they are non-refundable.

Xacta Continuum™ correlates results from multiple security products across an organization into a single view, and maps them to the relevant controls for security and risk management, such as NIST 800-53, CNSS 1253, DODi 850.2, ISO and others. This allows for static and continuous collection of IT asset and security configuration information based on programmable schedules. Included will be Xacta Host Info Agent plus two (2) plug-ins available from the Telos Corporate Listing (Nessus, Retina, SECSCN, WASSP, MacAfee, Symantec(Asset Data)). Additional plug-ins and Enterprise plug-ins are available for purchase as an annual subscription. | \$74,000.00 | |

Automated Messaging Handling System (AMHS)

The Telos AMHS (Automated Message Handling System) is a computer-assisted method of receiving, disseminating, transmitting, archiving and retrieving message traffic that arrives at a site from a variety of sources that may have a particular format and protocol associated with its transmission. The AMHS may be configured based on customer requirements to segregate messages by message source, organizational address, and/or discretionary access controls. Employment of message segregation allows users to utilize the AMHS' functional components based on their assigned permissions.

The Telos AMHS is currently certified to interface with the Automatic Digital Network (AUTODIN), the Defense Special Security Communications System (DSSCS), and the Defense Messaging System (DMS). Additionally, the AMHS may be configured to interface with an organizations electronic mail server utilizing the Simple Mail Transfer Protocol (SMTP) to obtain news wire information from an organizations news wire feed (i.e., Reuters, Associated Press).

The Telos AMHS connects to the AUTODIN using the Cavalier Multifunctional Secure Gateway System (MSGS), the Sterling Communications Support Processor (CSP), the Sterling Secure Messaging and Routing Terminal (SMART), or the Message Distribution Terminal (MDT).

The Telos AMHS was identified as a core DMS product with the AMHS 2003 software release. The AMHS connects to the DMS using the CommPower XML CommPower XML Portal (CP-XP) to support both inbound and outbound message processing. The CP-XP/AMHS implementation centralizes the organizations DMS certificate eliminating the requirement for the organization to manage and distribute the certificates to its users, which results in significant maintenance savings.

The AMHS provides the organization's user community with an intuitive web based client, AMHS Online, where the user can read, forward, save, or delete messages that have been disseminated to them based on addressing, content-based decision (profiling) rule-based logic or organization structure. Using AMHS Online the user has the capability to create, coordinate, and release messages into the AUTODIN, the DSSCS, or the DMS utilizing user friendly message forms. Additionally, AMHS Users may perform retrospective searches against the message repository and obtain a search result set based on their assigned permissions.
