# Canvas Touch

The essential touchscreen endpoint for your Canvas environment

# Canvas for the Conference Room

InFocus

Canvas Touch extends the power of Canvas' award-winning visualization solution to conference rooms, huddle spaces, personal offices, or anywhere else groups meet and collaborate.

## Key Features

- View and interact with critical Canvas video and data wherever you collaborate
- Supports viewing of up to four simultaneous sources
- Incredibly sharp 4K resolution available for 80-inch model
- 57-, 65-, and 70-inch models offer vivid 1080p HD resolution
- Ultra-responsive capacitive touch available in 65-inch display
- Highly customizable for your needs and your PC applications
- Web-based interface provides easy control of canvas placement and resizing, as well as video previews

## Remote Collaboration

Canvas Touch offers a powerful touchscreen interface to collaborate with remote colleagues running Canvas on almost any device, sharing live video, real-time data, application screens, web windows, documents, and presentations.

## Real Collaboration, Real Work

Developed specifically for the meeting room, Canvas Touch offers a comprehensive view of operations and enables colleagues around the world to work together as if they were in the same room.

Canvas Touch displays up to eight simultaneous sources from your Canvas environment, including H.264 video streams, VNC viewer windows, and SimpleShare™ windows. All of Canvas' rich collaboration tools are available so users can annotate on screen, share whiteboards, and jointly edit documents, spreadsheets, and presentations.

Remote users without Canvas can share video and audio with Canvas users by connection from a SIP-based video conferencing system. Microsoft Lync integration permits escalation to Canvas from the Lync client, as well as the ability to start a Lync conversation from Canvas.

## The Power of Touch

Touchscreens bring information to life. Canvas Touch employs a beautiful 57-, 65-, 70-, or 80-inch interactive display that empowers teams with hands-on access to critical Canvas video and data.

- Brilliant 4K (80-inch model only) or 1080p HD resolution shows off your content with incredible brightness, color, and clarity
- Capacitive touch (65-inch model only) offers exceptionally accurate touches, swipes, and gestures
- Windows gestures, such as tap, slide, swipe, pinch, and rotate can be used to get a global view of everything on the screen
- Wireless keyboard and mouse included to easily control the display from your seat

## Powered by Windows 10

The 65- and 80-inch Canvas Touch models are built on Windows 10, offering the performance and flexibility you need for all of your applications. Windows 10 provides an elegant interface that leverages familiar aspects of previous Windows operating systems so that everyone can intuitively use it, plus new features that you'll love.

- The Windows Start menu is back in an expanded form, so you can dive in immediately
- New Battery Saver feature automatically conserves power
- Available as a software upgrade on the 57- and 70-inch models

## Wirelessly Share Information

SimpleShare technology enables wireless presentation of content from any laptop, even if it does not have Canvas installed. Using Canvas SimpleShare, any user can wirelessly present their entire desktop or selected application window to both local and remote Canvas participants. SimpleShare supports Google Chrome and Firefox browsers on any PC.

## Bring Your Display to Life with 4K

The 80-inch Canvas Touch features 4K resolution for an incredibly sharp, vivid picture. Boost the impact of your content and make every meeting or presentation more engaging, informative, and memorable with 4K.

- More pixels mean more detail and depth for amazingly life-like images
- Enhanced color rendering
- Presenters benefit from crisp, clear images up close
- Audiences enjoy vibrant, detailed images, even from the back of a conference room
