"American Automotive Fasteners"

Welcome to AMK Products

AMK Products was founded in 1990. We started in business selling genuine NOS FoMoCo parts purchased from hundreds of dealerships and rebuilding difficult to find chassis and electrical components.

In 1992 AMK purchased 1200 lbs of obsolete FoMoCo fasteners, our immediate success convinced us to move forward.

Today we stock 3500+ different Chrysler, Ford and GM fasteners weighing in at over 1 million lbs !

AMK believes in American Made quality. We design and finish tooling in our Virginia facility and produce 95% of all fasteners here in USA where your American classic was born !

AMK also believes in preserving our environment. We replaced our old metal halide lighting with brighter T8 fluorescent fixtures which use 55% less electricity, replaced our inefficient AC/heating system with geothermal heat pumps and we added a 30KW solar power plant which provides all of our electricity and 10% extra for our neighbors.

Front Cover. We have collected original fastener cartons since our beginning. During the innovative 1960's with fastener manufacturing profits high as screw machined parts continued to be converted to cold forming methods of manufacture many companies purchased colorful advertising for their shipping cartons.

Scales

how to use the **BULK** fastener section

About 60% of AMK fasteners are available as bulk. These are popular or common items. The other 40% which includes mostly low volume specialty items are only available in kits.

Due to limited catalog space some bulk items are only displayed online at www.amkproducts.com/bulk1.asp

The diagram shows a product listing for a fastener. The listing includes a photograph of the fastener, a physical description, an internal bin code, a finish code, a table with columns for 'S36', 'Pcs', and 'Price', and a table with columns for 'Chrysler, FORD, GM #', 'Ford numbers end with "-S"', 'Chrysler & GM use a different number for each finish', and 'Chrysler numbers are identified with "▲"'. The fastener is labeled 'Ford Body 72-73' and '5/16-18 x 1 1/16 1/2 AF 7/8 CONICAL'. The internal bin code is 'KWI, 384931-S'. The finish code is 'S36'. The table shows 'Pcs' as 4 and 'Price' as \$5. The AMK Part # is 'B-13229'. The table also shows 'S36', 'Pcs', and 'Price' columns.

common application → Ford Body 72-73

actual size picture →

physical description → thread size, length, across flats washer diameter & type, other relevant info.

internal bin code → for AMK in house use

finish code → this is the finish/color you will get ! read the finish chart carefully.

washer type →

Chrysler, FORD, GM #

FORD numbers end with "-S"

Chrysler & GM use a different number for each finish, these are displayed in order of AMK finish code.

Chrysler numbers are identified with "▲"

Different finishes within one brand are separated with a period "." or identified with the finish code.

pieces per pack →

price →

AMK Part

use only this number when placing an order

Most bulk items also be available in larger quantities of -10, -25, -50, -100, -250, -500, -1M, -2500 and so on.

A 15% discount applies to retail orders. Start with the smallest quantity part # and add the quantity desired as a suffix.

example B-13229-50.

Finish Codes

(also see back cover)

S	= Plain	S60	= Phosphate & Red Pigment
SS	= Stainless Steel	S100	= Special - see note. Also S101, S102 etc.
S2	= Phosphate & Oil (gray - black)	S301	= Silver/Gray epoxy, 480 hrs salt spray
S3	= Black Paint (usually over Phos)	S307	= Black, 480 hrs salt spray
S7	= Cadmium (light silver)	S309	= Zinc & Yellow/Sealer, 120 hrs salt spray
S8	= Zinc (dark silver)	S424	= Black E-Coat & Sealer, 120 hrs salt spray
S13	= Chrome	S426	= Silver/Gray epoxy, 1000 hrs salt spray
S15	= Black Oxide	S427	= Silver/Gray epoxy, 1000 hrs salt spray
S32	= Olive Drab Enamel (soup green)	S428	= Black E-Coat, 100 hrs salt spray
S36	= Zinc Dichromate (yellow - rainbow)	S436	= Black E-Coat, 100 hrs salt spray
S44	= Black Zinc (shiny)	M	= Non-Electrolytic Finish (dull)
S45	= Chrome on Stainless	P	= Nylon Patch or Pellet Lock
S48	= Cad & Red Dye (shiny)	W	= Bi-Wax sealer (gold color on threads)
S55	= Cad & Black Organic, 1000 hrs salt spray	X	= Sealer

the KIT sections

Coverage includes:

Chrysler B & E body, Ford Mustang, Cougar, Fairlane, Falcon, Bronco, Truck, GM Camaro, Firebird, Chevelle, Monte Carlo, Nova.

Choose: **MASTER** or **INDIVIDUAL**

MASTER kits will provide about 85% of the fasteners found on your vehicle (if all kits available).

INDIVIDUAL kits are master kit components and misc applications not covered by a master kit.

We highly recommend that you reference the Factory Assembly Manuals.

They work great in conjunction with AMK faster kits !

GM & Ford assembly manuals may be purchased from your restoration parts supplier. For Chrysler we recommend the *Guide to E Body Fasteners* and *Guide to B Body Fasteners 1968-70* available at www.mmcdetroit.com.

Chrysler Master Kits

ENGINE

The authentic hardware you need to correctly reassemble the engine components which attach to the long-block.

Most fasteners are either meticulous reproductions or New Old Stock.

Automotive companies used multiple suppliers for high volume part numbers. We carefully select popular markings.

The most significant items may be seen in the BULK section, others are not shown.

Most items are made in USA to the same standards required by Chrysler.

Save up to 25% over the individual kit price.

Typical kit includes fasteners to attach:

air cleaner, carburetor, carb solenoid, choke, crank pulley & damper, distributor, exhaust manifolds, exhaust pipe, fan, fan clutch, fuel pump, heat shroud, heat tubes, ignition coil, intake manifold, oil pump (BB only), oil pan, throttle cable brackets, timing cover, valve covers, water neck, water pump & housing.

Details at www.amkproducts.com/Chrysler_Master_Kits.asp

CHASSIS

The fasteners you need to properly reassemble your car's chassis in one package !

Most items are made in USA to the same standards required by Chrysler.

Save up to 25% from individual kit prices.

Typical kit includes O.E. fasteners to attach: accelerator pedal, axle housing, ball joints, brake booster, brake calipers, differential carrier, driveshaft, engine brackets, gas tank, idler arm, K-frame, leaf spring hangers & front eye, master cylinder, parking brake control, rotor shields, steering gear & linkage, suspension bumpers, sway bar support, trans crossmember, trans insulator, wheel cylinders. Details at www.amkproducts.com/Chrysler_Master_Kits.asp

* black zinc, this satin finish is more durable than phosphate but not factory correct

Ford Master Kits

ENGINE

The authentic hardware you need to correctly reassemble the engine components which attach to the long-block.

Most fasteners are either meticulous reproductions or New Old Stock.

The most significant items may be seen in the BULK section, others are not shown.

Save up to 40% over the individual kit price.

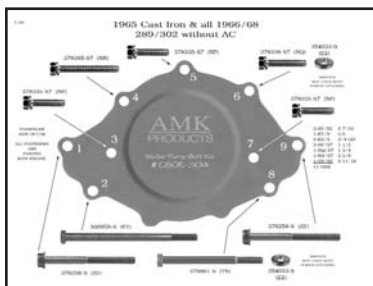

1966-73 kits feature Original Ramp-Lok® exhaust manifold bolts

Typical kit includes fasteners to attach:

air cleaner, carburetor, crank pulley, distributor & points & condensor & vacuum unit, drain plugs, engine tag, exhaust manifolds, fan & fan clutch, fuel pump, shroud, ignition coil & strap, intake manifold, oil filter adapter, oil pan, starter, timing cover, valve covers, water neck & water pump. Small Block kits include a water pump bolt placement illustration. Details at www.amkproducts.com/Ford_Master_Kits.asp

Ford Master Kits

INTERIOR

A comprehensive interior assembly fastener kit !

Each application within the Master kit is separately packaged so you know exactly where it goes.

Use this kit in conjunction with the factory assembly manuals.

Most oval head sheet metal screws in our kits are now stainless with chrome, black or zinc finish.

Save up to 25% over the individual kit price.

Typical kit includes fasteners to attach: air vent duct, ash tray & liner, carpet, coat hooks, console, courtesy lamps, dash pad & mouldings, door handles, armrests, dome lamp, door panels & grilles, glove box & liner, glove box latch & catch, headliner retainers, heater control, horn pad, instrument cluster & finish panels, kick panels, mirror bracket, package tray, quarter trim panels, radio bezel, rear seat, scuff plates, seat back adjustment, seat back release, seat mouldings, seat track to body, shifter boot, sun visors & bracket, window crank handles, windshield pillar mouldings and windshield top inside mouldings. General Fastener Kits

About 80% of these individual kits are found in *Master Kits*. AMK Fastener kits are based on part numbers & finishes specified in the factory Assembly Manuals.

We hold closely to these specifications unless we find otherwise. We have the knowledge, fastener information and sources needed to make accurate and authentic fastener kits.

Radiator Tags

About 1/2 of 65-68 and 1/10 of 69-70 Ford's used these soldered on ID tags. If yours has this info marked into the top tank or radiator bracket, it doesn't use a tag.

Part # = 8005 base plus prefix & suffix \$ 20 each

GM Fastener Kits

MASTER ENGINE

The authentic hardware you need to correctly reassemble the engine components which attach to the long-block.

Most fasteners have correct markings for the time period. Valve cover bolts & retainers, exhaust lock bridges & washers, timing cover & oil pan bolts are made of stainless steel material !

The most significant items may be seen in the BULK section, others are not shown.

Practically all items are made in USA to the same standards required by GM.

Save up to 35% over the individual kit price.

Typical kit attaches:

air cleaner, carburetor & choke cover, crank pulley & damper, distributor, engine vent adapter, exhaust manifolds, exhaust pipe, engine fan, fan clutch, fuel pump & plate & plug, heat shroud, ignition coil & strap, intake manifold & plug, oil filter valve, oil pan, PCV adapter, PCV hose clamps, timing cover, valve covers, water neck, water pump.

General Fastener Kits

About 80% of these individual kits are found in *Master Kits*. AMK Fastener kits are based on part numbers & finishes specified in the factory Assembly Manuals.

We hold closely to these specifications unless we find otherwise. We have the knowledge, fastener information and sources needed to make accurate and authentic fastener kits.

See factory Assembly Manuals for illustrations

Term	Definition	Term	Definition
17	Type. sheet metal screw. AB with cutting slot (same as ABT)	DR	drum brakes
2V or 4V	two barrel or four barrel carburetor	drill screw	drill point tapping screw - also known as a TEK screw
63	FORD body style 63, "Fastback", has long sloping Rr window	drive screw	screw with twist thread - intended to be hammered or pressed in
63A, 65A, 76A	A" signifies Standard interior - FORD	E body	Chrysler: Baracuda & Challenger 1970-74
63B, 65B, 76B	B" signifies Deluxe interior - FORD	exc	excluding, does not contain
65	Mustang body style 65 - "Coupe", near vertical Rr window	EXH	exhaust
6V or 8V	3 two barrel carburetors or 2 four barrel carburetors	export Brace	one piece chassis stiffening brace for export or HP Mustangs
76	body style 76 - Convertible, all FORD	EXT	external
<	before this date	EXT SEMS	screw & external tooth washer assembly
>	after this date, one part to another (ex. Fuse Block > Firewall)	external tooth	locking washer featuring twisted teeth on OD
A	Type. sheet metal screw with pointed end	F	Type. machine screw with several cutting slots at flat end
A body	GM: mid-size Chevelle, LeMans etc. Chrysler: Dart, Duster etc	F body	GM: Camaro & Firebird
A/T	automatic transmission	F/P	fuel pump
AB	Type. sheet metal screw with pointed end - finer pitch than A	FD	fold down (seat)
ABT	Type. sheet metal screw with pointed end and cutting slot	FDR	fender
AC	air conditioning	FDS	fold down seat
ACCEL	accelerator	FE	352/390/427/428 Big Block - FORD
acorn nut	closed nut with acorn shaped top	fender extension	panel between headlamps and fender, usually zinc die cast
ADJ	adjustment	FILL	fillister head style
AF	across flats (wrench size)	flange bolt	hex head bolt with 22 degree slope from hex to washer OD
ALT	alternator	flange screw	hex head screw with 22 degree slope from hex to washer OD
ALUM	aluminum	flat head	V-shaped head screw, flat on top
AMP	ampere, current flow volume	FLAT SEMS	screw & flat washer assembly
ASSY	assembly	FLNG	flange
B	Type. sheet metal screw with flat end - finer pitch than A	FLUSH SEMS	screw & countersunk washer assembly
B body	Chrysler: mid-size Belvedere, Charger, Coronet, Roadrunner	FMX	automatic transmission - FORD, introduced 1968
BB	big block	former	thread forming screw C, CA, TT etc, no cutting slot
BEF	before, as in prior to a certain date, < 2/15/68	Fr	front
BF	Type. sheet metal screw with flat end and cutting slots	FRT	front
BLK	block	FT	full thread
body bolt	fender bolt, common sheet metal attaching fastener	GEN	generator
bolt	threaded fastener designed to be tightened by a nut	grade	strength/material specification
BRG	bearing	GRD	ground
BRKT	bracket	GT	model name derived from Grand Touring or Grand Torismo
BT	Type. sheet metal screw with flat end and large cutting slot	H-pipe	dual exhaust inlet pipe for 8 cyl exhaust manifolds, H shape
C	Cleveland (351 engine) - Cleveland, OH engine plant	hardtop	cars with a metal roof (not a convertible)
C4 or C6	automatic transmission - FORD	HD	head, heavy duty
CA	Type. thread forming machine screw threaded to point	headers	welded steel tubes used in place iron manifolds to improve flow
canoe clip	push clip with hollowed out body	headlamp doors	trim which fill space between headlamps and surrounding area
CARB	carburetor	HEX	hexagon, also see AF (across flats)
CDC	cadmium with yellow chromate (yellow color)	HI-HXWA	hex washer head with higher hex
CJ	Cobra Jet - FORD 351, 428, 429	hockey stick	trim around quarter window C shaped like a hockey stick
clipped	round part with side cut-off (ex. D shape)	HP	Hi-Po, Hi-Performance
CLR	collar - hex or round	HSG	housing
CONI	conical spring washer	HTR	heater
conical tooth	conical spring washer with teeth	HVY	heavy - larger hex size and greater thickness
countersunk	V-shaped under head	HX	hex
cowl	panel in front of windshield, usually vented to supply outside air	HXWA	hex washer head
CP	coupe	ID	inside diameter
CRG	carriage bolt	IGN	ignition
CTR	center	INST	instrument
cutter	thread cutting screw F, T, BT, 17, 1 etc, always has cutting slot	INT SEMS	screw & internal tooth washer assembly
CV	convertible	internal tooth	locking washer featuring twisted teeth on ID
CYL	cylinder (ex. 6 cyl)	Jam Nut	hex nut that is thinner than a regular nut
C_	Type. thread forming machine screw, 3-4 thread taper to flat end	KEPS	nut & washer assembly
DC	disc brakes	KR	1968 Shelby Mustang model - meaning "King of the Road"
DE	double end	L/W	lock washer
DIA	diameter	L78	GM: 396HP
differential	gears located in axle housing, may be mounted inside a carrier	LH	left hand
DLX	deluxe	Lock Nut	nut with any type of locking feature

Glossary

Term	Definition	Term	Definition
LRG	large	serrated	ramped teeth used as locking feature
LWR	lower	shaker	type of Ram-Air, part of engine air cleaner visible from outside
M/T	manual transmission	shaved	machined point (used when point cannot be formed)
M20	GM: 4 speed transmission	shock tower	vertical body-chassis structure surrounding the Fr coil springs
M35	Powerglide transmission - GM	sill plates	trim panel at bottom of door opening, also called scuff plates
M38	TH350 transmission - GM	sim	similar
M40	TH400 transmission - GM	SKT	socket
Machine Screw	screws with thread (UNC, UNF) for use w threaded holes or nuts	sleeve nut	a self-retaining tubular nut which accepts a push-in stud
Marsden	hex nut with narrow slots which function as lock feature	slotted nut	nut with slots for locking pin
MLDG	moulding	SMS	sheet metal screw - identified by coarse thread pitch
Monte Carlo bar	chassis stiffening bar located between shock towers - FORD	SPL	special
MS	screws with thread (UNC, UNF) for use w threaded holes or nuts	split lock	helical spring washer used to prevent loosening of joint
MT	multi thread, an extruded cone in a stamping with 3+ threads	SPLIT SEMS	screw & split washer assembly
MTR	motor	SPR	spring
NOS	new old stock	SQR	square
nose panel	large one piece panel at front of car	Square Cone	special domed conical washer - see B-13229
notchback	refers to a Mustang Coupe (body 65), near vertical Rr window	SRTD	serrated
NPT	National Pipe Thread", special self sealing tapered thread	SS	stainless steel, or Super Sport
OD	outer diameter	STD	standard
OE	original equipment	STL	steel
outlet pipe	exhaust pipe from muffler to end	SUSP	suspension
OV	oval head, V-shaped head screw with lightly rounded top	sway bar	another name for stabilizer bar, reduces body roll in turns
oval head	V-shaped head screw, lightly rounded on top	T	Type. thread cutting machine screw, flat end w large cutting slot
P/L	parking lamps	T-bolt	bolt with T shape
P/S	power steering	T1	Type 1. thread cutting machine screw utilizing narrow slot
pan head	screw head resembling inverted kitchen pan	tapping screw	screw with a thread cutting or forming feature
PCS	pieces	TE	thermactor emissions, "smog"
perch	used to connect coil spring to upper control arm	TEK	drill point tapping screw
PERI	conical washer with teeth under perimeter edge	TEMP	temperature
PG	Powerglide transmission - GM	TH	Turbo Hydromatic - GM
PH	Phillips drive (looks like +) also phosphate finish	TK	thick
PHOS	phosphate crystal surface finish usually with oil, gray to black	TORX	6-lobe drive
PI	Police Interceptor - FORD 428	TRANS	transmission
pillar	refers to a vertical sheet metal structure	transverse	mounted left - right (ex. transverse muffler)
place bolt	hex bolt with slots on top of head which function as lock feature	trap door	door located between interior and trunk on Mustang Fastback
plenum	air chamber (ex. heater plenum or ram-air plenum)	truss head	screw head with low rounded shape
PN	pan head - screw head resembling inverted kitchen pan	TT	Taptite - thread forming identified by tri-lobular shape
Pony interior	refers to 1965-66 Mustang Deluxe interior	U-Joint	universal joint (for driveshaft)
Pozi	screw drive similar to Phillips, identified by extra "cross hairs"	UBS	Unified Bearing Stress (HD Ford design for flange bolts & nuts)
PP	pinch point, machine screw with pinch formed V-shaped point	UNC	Unified National Coarse
PT	point	UNF	Unified National Fine
QTER	quarter	unibody	design where body & frame are one, most small & mid-size cars
QTR	quarter (ex. QTR Panel)	UPR	upper
QUICKY bolt	screw stud staked to a rectangular retainer plate	VAC	vacuum
R/S	Rally Sport	VENT	ventilation
RAD	radiator	W	Windsor (351 engine) - Windsor, Ontario engine plant
Ramp-Lok	special conical tooth SEMS washer with locking ramp on top	w	with
REV	engine revolution	w/o	without
RH	right hand	WA	washer
rivet nut	threaded tubular nut installed by collapsing nut wall	WA'S	washers
RNDWA	round washer head	wafer head	thin flat head - screw looks like a T
Rr	rear	water neck	thermostat housing
S/T	standard transmission	wave washer	spring washer designed to remove slack from pivot joint
saddle	used to connect coil spring to upper control arm	WELL-NUT	rubber nut with brass thread insert
SB	small block	wheelhouses	GM, large panels shielding engine area from wheels/road dirt
SCJ	Super Cobra Jet - FORD 428, 429	XC	Extra Cooling
screw	threaded fastener designed to be tightened by the head	Y-pipe	single exhaust inlet pipe for 6, 8 cyl exhaust manifolds, Y shape
scuff plates	trim panel at bottom of door opening, also called sill plates	Z-bar	clutch linkage also known as bellcrank or equalizer
self threading	stamped nuts, identified by a single thread with two notches	ZC	Zinc (silver color)
SEMS	screw & washer assembly, also used as headmark by innovator	ZDC	Zinc Di-Chromate (yellow color)

AMK POLICIES

ORDERING - \$30 minimum

1. Online catalog: www.amkproducts.com
2. FAX. 800-518-2871 **Please use part numbers.**
3. Mail. AMK Products, Inc. 800 Airport Road, Winchester, VA 22602 Contact AMK to verify parts availability.
4. Out of stock items will be Back Ordered if we can ship within 2 weeks otherwise they will be Cancelled, reorder later.
5. Order processing time. Expect 1-20 days January - August, 1-7 days September - December.
6. Address Corrections. UPS charges AMK for incorrect or incomplete addresses. Customer fee is \$8 per incident.
UPS Requires a full street address including "Ave, Blvd, CT, DR, ST" etc, UPS does not deliver to PO boxes.
If unsure of your address go to the official USPS website address lookup page: <http://zip4.usps.com/zip4/>
7. Holidays. AMK is closed Earth Day, Memorial Day, July 4, Labor Day, Thanksgiving and Friday after, last week of year.

PAYMENT

1. VISA/MC. Declined cards will cause delays, your order will be held for 3-4 days then retried.
2. Money Order (US Postal or Western Union only)
3. COD \$10 extra. (US Postal or Western Union only) Ground orders only (No Air), you must provide a fax number.
4. Personal checks drawn on US banks only (No foreign checks). Checks are held until cleared.

SHIPPING - \$8 minimum

1. UPS Ground to the lower 48 states.
2. Priority Mail. "Mail Receptacle" required. Insurance required.
3. Canada & overseas orders ship Priority Mail International insured. Shipping documents are marked "Antique Auto Parts".
4. Expedited Services: UPS 3 Day Select, 2 Day Air, Next Day Air (expedited ship service does not reduce processing time).
5. Drop Ship. USA only. Shipments to restoration shops, shipping centers etc are subject to a \$5 drop ship fee.

RECEIVING, SHORTAGES & DAMAGED GOODS

1. If possible report damaged boxes to the driver when receiving. Check your purchase promptly for damage.
2. Inspect and compare your purchase with the invoice. Report discrepancies to AMK within 7 days, have invoice # ready.
3. Take notice of back ordered or cancelled items.
4. Examine packaging carefully before discarding to avoid throwing away purchased items.
5. If damage is suspected, keep all original packaging and contents together for carrier's inspection.
6. Contact AMK promptly to report shortages or damaged goods.

CATALOG

1. Online catalog: www.amkproducts.com
2. Hardcopy catalog is free with \$30 order of items available to ship. Additional copies with an order cost \$6.
3. Hardcopy catalog only is \$10 US delivered in USA. \$15 Canada, \$20 Overseas. No foreign checks please.

PRICING

1. All prices are figured in US dollars.
2. We reserve the right to change prices.

RETURNED GOODS

1. No return refunds under \$10.
2. No mail-in order refunds (because parts not available) under \$4.
3. Returned goods are subject to a restocking fee ranging 15% to 25 %, shipping costs are not refundable.
4. All returns must have a return authorization number (RMA), contact AMK for a number.
5. No returns after 45 days from invoice date.
6. All returns must be sent pre-paid (COD not accepted).
7. Copy of invoice required.
8. No return of used fasteners or starter solenoids.

GUARANTEE

1. 60 days from purchase.
2. Starter solenoids. NO RETURN. 20 years of experience have shown us that most problems are due to improper installation, poor wiring, weak electrical grounds, missing ground straps or other faults within the vehicle.
3. Testing. Our service department will test parts for operation, faulty parts will be repaired or replaced.
4. Liability is limited to the replacement of the defective part.

Do you offer a kit for the whole car ? Not exactly. If we have all the Master and Junior kits for your model you can get about 85% in one easy purchase. Misc items not covered by a Master kit heading can be purchased in addition.

How accurate are the kits ? Most kits are right on. Sometimes we do have to make substitutions in order to be practical, fasteners are costly to manufacture and it makes sense to substitute if a closely similar part is already in the warehouse.

Do you offer front end kits ? No. Instead AMK offers a more accurate and comprehensive solution: the "Master Body" kit.

Should I buy assembly manuals ? Absolutely ! They are like the instructions for your AMK kit. Plus they provide torque specs.

I do not see my headmark ? The headmarking identifies the manufacturer and grade. Car companies source fasteners from multiple suppliers, especially heavily used items. AMK has reproduced the most popular old markings and has registered them as our trademarks. If the kit does not include the marking you want then check our bulk section because we may offer the same part with other markings. As a last resort you could replate the originals you wish to preserve.

Do chrome valve covers use chrome bolts ? The factory did not use chrome bolts for valve covers.

Why do exhaust manifold bolts rust ? From the factory, the bolts, like the exhaust manifolds are plain finish.

What is the best way to place my order ? #1 AMK shopping cart www.amkproducts.com #2 fax 800-518-2871 (order form is online or back of catalog), #3 phone 540-662-7820 M-T 9-3 PM, F 9-11 AM (note lunch break is 11:45 - 12:45 daily).

What payment is accepted ? Visa, MC, money orders (US Postal or Western Union), personal checks drawn on US banks only - orders are held until check clears, COD paid with a US Postal or Western Union money order - provide a fax number.

What information is needed when placing my order ? #1 AMK part numbers, #2 shipping address, #3 billing address - please make sure you have the correct billing address otherwise costs increase, #4 phone number, #5 clear hand writing.

When will my order ship ? Depends on size of order and time of year. Expect 7-30 days Jan-Aug, 1-7 days Sept-Dec.

How will my order ship ? Our standard method of shipping is UPS Ground or Priority Mail. We also offer UPS 3 Day Select, 2 Day Air, Next Day Air. Transit time to Eastern US is 1-2 days, Midwest 3-4 days and 5-6 days to the West.

Why is no one answering the phone ? Our staff works hard 40 hrs per week producing fastener kits and filling orders. Restricting the phone to 22 hrs allows us time to completely focus on production. Lunch break is 11:45 - 12:45 daily. Also AMK Products primarily ships to distributors. We maintain retail phone sales in order to stay connected with our customers.

Can I pay to rush my order ? Orders are processed first come first served. Expedited shipping methods are available.

Can I have my order sent Priority Mail ? Yes in most cases. You must have a Mail Receptical Box.

I do not see my model ? We have meticulously researched many popular models and offer thousands of fastener kits and are working on additional kits, meanwhile we recommend that you use our bulk section or pick a similar model.

What does SEMS mean ? It stands for "screw and washer assembly". The original manufacturer also used it as a marking.

Where are AMK fasteners made ? About 95% of our fasteners are made in USA by quality certified manufacturers. AMK supplies the manufacturers with the tooling needed to form the head and markings. Beyond the basic dimensional and strength requirements AMK imposes very stringent aesthetic standards. This makes for a huge difference in overall quality.

How are fasteners made ? Most fasteners are cold formed from wire by cold heading machines. During the winter months cold heading shops require little heating because so much heat is generated by the metal as it changes shape ! Threads on most fasteners are "rolled". The threaded area is made undersize during forming and the rolling process displaces material.

What is phosphate ? It is the application of a crystal structure on the surface of steel. In the automotive industry phosphate is used to retain oil which provides light corrosion protection or it is used as a primer base for other coatings.

What is plating ? Plating is the application of another metal onto the surface in or to prevent corrosion or provide an appearance. There are two main types of plating. Most fasteners are electroplated where another material such as zinc or cadmium is deposited on the surface in a tank containing electrolyte liquid, a cathode (parts), anode (material to deposit), electricity and controls. Parts that are subject to possible hydrogen embrittlement damage from the electroplating process are often instead "mechanically" plated. This process basically blasts the fasteners with the plating material until sufficient coating thickness is achieved. Zinc is usually used. A mechanical finish can be identified by the texture and somewhat dull finish. Mechanical plating is often used on thin spring steel fasteners such as wave washers and stamped nuts.

How do I install a rivet nut ? If it is a hex body nut, just place it in the hole and install the fastener, the hex body prevents rotation as the rivet nut body collapses. For round rivet nuts see the installation picture shown on page 63. Stack the parts onto the screw in the order shown and spin the rivet nut onto the screw. Insert the assembly into the hole and hold the nut firmly with a wrench as you tighten down the screw with an allen wrench until the rivet nut body is totally collapsed.

AMK

*** Additional distributors are listed at www.amkproducts.com/dealers.htm ***

Important

When ordering remind the dealer that you must have the AMK part, otherwise you may receive something else !

Our packaging is always marked "AMK Products, Inc" or "www.amkproducts.com". If the dealer doesn't have what you're looking for then please contact us for the name of a stocking dealer or to place the order directly.

Thanks for supporting quality AMK Products.

Environment

We are happy to be alive on this tiny planet and wish to help take care of it.

Clean energy is needed in the Eastern US for two reasons: mountain top removal and air pollution. The process well described in the documentary film "Mountain Top Removal" levels mountains and releases toxins into the groundwater and creates a permanent eyesore. Left over rock has buried hundreds of miles of streams in a process known as "valley fill".

Toxic emissions from coal burning include: small particles (soot) that cause health problems such as asthma, sulphur dioxide causing haze, acid rain that is killing our oceans, mercury that poisons our fish and 40% of U.S. CO2 emissions !

Today there are many clean energy technologies ready to lead us into the future !

Nuclear, solar, wind and geothermal solutions produce clean electricity while keeping our skies clear and water clean. Solar and geothermal sources can also provide big energy savings by heating or cooling water. Energy demand itself can be dramatically reduced by installing programmable thermostats, photo/motion sensor light switches, updating lighting, HVAC equipment, minimizing HVAC outside air intake and adding inversion fans to move heated air down from the ceiling.

The AMK facility is a small example.

We generate 100% of electricity and collect 100% of water onsite.

New T8 lighting uses 55% less electricity and geothermal heat pumps replaced our old energy hog units.

The company gofor truck is a Ford built 100% electric Ranger EV !

**30KW
Solar Power Plant**

Solar output is highest when electricity demand is highest during the summer !

Excess electricity is automatically distributed to nearby users.

Because the energy is produced locally where it is consumed the need for long distance transmission lines is eliminated.

Green Thoughts

1. Restoring and driving a vintage car is better for the environment than manufacturing a new one because a huge amount of energy is saved and CO2 emissions prevented.
2. Reusing is the best form of recycling, AMK Master kit boxes are great for reuse.
3. Worldwide most steel products including fasteners are made from recycled material !
4. AMK fastener kit bags are #4 and can be recycled at your grocery store together with grocery bags.
5. AMK practices "carbon conscious shipping". Our choice both saves the customer money and reduces CO2 emissions.
