1STMAW GENERAL ORDER)
: Casualty Reporting
NUMBER.....64)

Ref: (a) Chap 13, MCM 1949
(b) 1stMAW Memorandum Number 109-51 of 30 Nov 1951

Encl: (1) Form for casualty report

1. Reference (b) is hereby revoked.

2. A casualty report will be submitted whenever a casualty is sustained within this command. As defined in paragraph 13001, Marine Corps Manual, a casualty is one of the following:

- (a) A death from any cause whatsoever.
- (b) A person officially determined to be involuntarily missing in the line of duty.
- (c) A person who is seriously injured or becomes critically ill.
- (d) A person who is captured by the enemy or interned in a neutral country.
- (e) A person who is wounded or injured as the result of a hostile act of an organized enemy.

3. A casualty will be described as Killed in Action, Missing in Action or Wounded in Action only when the casualty is sustained under the conditions set forth in paragraph 13101, Marine Corps Manual. Other deaths will be termed as "accidental death", "died of disease", or as otherwise appropriate.

4. No casualty report is required for injuries or wounds of a non-serious nature, suffered other than under the conditions set forth in paragraph 13101, subparagraph (a), Marine Corps Manual, which states that the term "wounded in action" will be applied to personnel who are wounded or injured in the presence of the enemy and such casualty is incident to action against the enemy.

5. When a casualty report is required for personnel wounded in action as outlined in paragraph 13101, Marine Corps Manual, the report will include the following information:

a. If wounds are of a minor nature and patient is not evacuated, dispatch will so state. This will indicate to the Commandant of the Marine Corps that the address of the person has not changed.

SAMPLE

CASUALTY REPORT NR 10 X WOUNDED IN ACTION 1 DEC X CAPT JOHN J
DOE 011001 USMC X MINOR FIRST DEGREE BURNS OF THE NECK X NOT
EVACUATED X END OF REPORT NR 10

b. If patient is evacuated and wounds are major, dispatches will indicate the nature of the wounds and, if possible, the address to which evacuated.

(CONTINUED)

IV. LETTERS OF CONDOLENCE

- (1) Letters of Condolence will be accomplished by commanding officers as soon after a casualty occurs as is practicable, in accordance with paragraph 13057, Marine Corps Manual. These letters will be forwarded in triplicate, to the Commandant of the Marine Corps (Code DGU) via this Headquarters, as directed by Commandant of the Marine Corps dispatch 142035Z of September 1950. An envelope addressed to the next of kin will be attached.

V. DISPOSITION OF PERSONAL EFFECTS

- (1) The procedure for disposition of personal effects of deceased, prisoner of war and missing in action personnel will be in accordance with 1st Marine Air Wing Memorandum in effect.

VI. CERTIFICATE OF DEATH AND TERMINATED HEALTH RECORD

- (1) In order that insurance and other benefits due dependents of deceased personnel may not be delayed, commanding officers are directed to insure that Certificates of Death and Terminated Health Records are forwarded promptly to the Bureau of Medicine and Surgery.
- (2) The Medical Officer Submitting Certificate of Death (NAVMED-N) shall forward a copy of same to the Commanding General, 1st Marine Air Wing, Attention G-1 (Casualty Section) for file thereat.

VII. CARRIER BASED SQUADRONS

- (1) The Navy System is to compile all information in initial casualty report, therefore amplifying reports are not required in all cases. The squadron commanding officer will insure that copies of ships dispatches are mailed to all information addressees listed in paragraph 6 II(1) above, which are not listed on ships dispatch.

VIII. 1st MARINE AIR WING CASUALTY FILE

- (1) It is directed that copies of all dispatches, reports and correspondence to the next of kin be forwarded to the Commanding General, Attention G-1 (Casualty Officer), for the purpose of completing individual casualty files at this office.

(b) CMC ltr AC-1-mlk of 5 Dec 1951 with CG FMFPac 1st end ser 25035
of 18 Dec 1951

1. Reference (a) requested authority from the Commandant of the Marine Corps to initiate a plan whereby a short statement as to the nature and seriousness of wounds be included in the initial casualty report to the Secretary of the Navy and this information be passed to the next of kin. It was felt that this method would eliminate excess dispatch traffic and concise information could be immediately furnished to the next of kin.
2. Reference (b) authorized the implementation of the plan on a trail basis for use by this command only. It was emphasized however, that initial reports should not be delayed in order to include amplifying information therein.
3. It is requested that the operation of the authorized method of casualty reporting be carefully monitored and that following three (3) months operation thereunder a report be submitted to this headquarters covering the following matters and any other observations considered pertinent:
 - a. Time lag incurred as a result of additional amplifying information requested, if any.
 - b. Additional burden imposed upon administrative sections.
 - c. Increase or reduction in welfare inquiries received.
 - d. Recommendations as to permanent adoption.
 - e. Recommendations as to details to be added or deleted.

1STMAW MEMORANDUM)
: Chapel Funds
NUMBER.....7-52)

Ref: (a) Section 4800 Chaplains Manual

1. Paragraphs 4801, 4802, and 4803 are quoted from reference (a) for information and compliance with by units of the 1st Marine Air Wing having Chaplains attached and desiring to establish a Chaplains Fund.

4801: Authority

(a) Funds voluntarily offered by individuals and civilian activities for the use of the Chaplain in matters pertaining to morale, if acceptable to the Commanding Officer concerned, shall be placed in a special fund from which expenditures for morale may be made by the Chaplain upon the approval of the Commanding Officer. These special funds will be under the cognizance of the Commanding Officer, who will provide for the adequate care of and accounting for such funds.

(b) Many personnel in the naval service have been accustomed to make voluntary contributions for religious purposes during attendance at Divine Worship in civilian life and have desired to continue this practice while in the Navy. At various chapels, voluntary offerings formerly made to provide equipment, aids to worship and supplies for choir and chapel have built up beyond these original necessities, and in some cases have resulted in a surplus.

(c) In addition to such funds contributed at Divine services for religious purposes, various individuals and civilian activities have desired to turn over to the chaplain funds to be used for religious or morale purposes, to be expended solely or principally at the discretion of the chaplain. This has been particularly true at Naval Hospitals.

4802: Administration

In order to clarify and simplify the administration of chapel funds, the Bureau desires that the following be followed:

(a) Chapel Funds, voluntarily contributed by the worshippers and by other interested individuals may be established as approved by the Commanding Officer where established. The funds shall be expended on projects of a religious nature that are easily recognizable as coming within the desire of the donors such as religious equipment, aids to worship, and supplies for choir and chapel, etc. Where chaplains of different faith conduct divine worship in the same chapel or in separate chapels, and offerings are received, the funds contributed by each faith shall be used only for the work of that faith. That is, Catholic chapel funds shall be used only for Catholic religious needs, purposes, etc. Protestant chapel funds shall be used for only Protestant religious needs, purposes, etc, and Jewish chapel funds shall be used only for Jewish religious needs, purposes etc.

(b) Where civilian ministers, priests, or rabbis

1STMAW MEMORANDUM NUMBER 7-52

(CONT'D)

conduct Divine Services in Naval activities on the invitation of the Commanding Officer, they may be reimbursed from the chapel fund of that faith where such fund is available or in any other manner other than from the Chapel Fund, as the Commanding Officer may direct.

(c) In the event that it is desirable to expend the surplus of any chapel fund, such expenditure may be made to a religious civilian agency which assists the religious work of Naval personnel, as may be recommended by the Commanding Officer, provided such expenditure is to all intents and purposes, plainly consonant with the general faith and practice of the contributors; i.e., if desired, the surplus of a Protestant chapel fund might be used for alms or donated to the American Bible Society, the Gideons, the Serviceman's Christian League, the General Commission on Army and Navy chaplains, etc. The surplus from a Catholic chapel fund may be used for alms or donated to the Chaplains Aid Society, the Catholic Military Ordinariate, the National Catholic Welfare Conference, etc. The surplus of a Jewish chapel fund might be donated to some phase of the Jewish religious work. The wishes of worshippers where at all ascertainable, should in each instance bear more weight than the personal preference of the Chaplain or Commanding Officer.

(d) Any surplus in a chapel fund which the chaplain and the Commanding Officer concerned may not wish to expend in the manner outlined, as well as any surplus which may remain unexpended in the event of decommissioning, may be forwarded to the C of C, Bureau of Naval Personnel where it will be kept in Catholic, Protestant and Jewish segregated Funds, accounted for and used in accordance with the spirit of this directive.

(e) All chapel funds should be audited once a month, and the result of the audit presented to the Commanding Officer. It is also proper to post such an audit where practicable. (Pars 4801 and 4802 are based on BuPers letter to District Commandants dated 27 Aug 1945).

4803: Sunday Collections or Offerings

At Naval activities where it is the custom to have a Sunday collection at divine services, the money so collected shall be delivered by an officially designated individual of the faith concerned to the custodian of the appropriate chapel fund and receipt obtained.

2. The report of the monthly audit when approved by the Commanding Officer will be forwarded to the Area Auditor, 1st Marine Air Wing.

NUMBER..... 10-52) Mission Reports

Ref: (a) 1st MAW General Order No. 52 of 1 September 1951
(b) 5th Air Force Mission Report Guide

1. Mission reports will be submitted by Marine Aircraft Group 12 and Marine Aircraft Group 33 in accordance with references (a) and (b).
2. The following reporting procedure is prescribed:
 - a. Submit mission reports immediately after a combat mission is completed.
 - b. Send reports by the Intelligence Net Teletype to 5th Air Force Combat Reporting Center (RAKA, Attn: A-2, CC) and to CG, 1st Marine Air Wing (RAKRM-2). If the teletype circuit is inoperative, send reports immediately by CW radio or other means of communication. Do not delay sending reports by CW radio due to the fact that the teletype circuit is expected to start functioning again in a few minutes.
 - c. Send Mission Reports Operational Immediate and Unclassified.
3.
 - a. MAG-12 and MAG-33 will also submit a daily summary to 5th Air Force Combat Reporting Center and to this headquarters. Report the daily summary by telephone. The report may be sent by teletype, CW radio, or other means of communications if a telephone connection cannot be made. The summary will include all missions of the current day and the night missions of the previous night. Current telephone numbers of the Combat Reporting Center are COMET 208 and 308.
 - b. The summary will include the following information:
 - (1) Number of missions per squadron
 - (2) Number of airborne sorties per squadron
 - (3) Number of aborts by cause
 - (4) Number of major and minor damaged aircraft
 - (5) Number of aircraft lost
 - (6) Time last mission report was submitted
 - (7) Name of person transmitting the summary.
4. After completing a combat mission, if a pilot lands at an airfield other than the one on which his unit is based, the pilot is responsible for reporting to the Marine or Air Force unit at that base for debriefing. He should request the debriefing officer to send the mission report to the Combat Reporting Center, CG, 1st MAW, and to the Group to which he is attached.

Ref: (a) Joint Letter 308-51 of 23 April 1951 (NDB 30 April 1951)

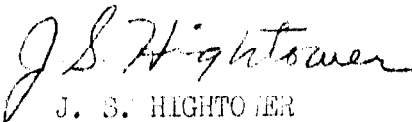

1. Brig facilities at MWSS-1, Itami, Japan, are considered adequate for the custody of personnel under investigation, awaiting possible disciplinary action, or for prisoners serving short periods of confinement not in excess of sixty (60) days. In compliance with reference (a), the 8044 Army Stockade, APC 403, Tokyo, Japan is designated as the place of confinement for a court-martial prisoner whose sentence is in excess of sixty (60) days but not more than six (6) months.
2. If a sentence, as ordered executed, includes confinement of more than six (6) months or a discharge, the U. S. Naval Retraining Command, Mare Island, Vallejo, California will be designated as the place of confinement or temporary custody.

: Interim treatment of malaria
NUMBER.....12-52)

Ref: (a) BuMed ltr 72-GDH-jw P2-3/p3-1 (Malaria) of
5 Nov 1951 w/enclosure
(b) CG FMFPac ltr 0710/992 M2-3/1 Serial 26
dtd 2 Jan 1952 w/enclosure

1. Reference (a) proposes abortive treatment of malaria
with primaquine as outlined below:

"SUBJECT: Abortive treatment of malaria

1. The occurrence of delayed primary attacks of malaria caused by Plasmodium vivax among a significant proportion of personnel returning from Korea potentially threatens to reactivate this disease within the population of the United States. In order to eliminate this hazard to the public health, it is essential that all infected returnees be treated to eradicate the infection before arrival in the United States. Since positive and accurate identification of those harboring the malarial parasite is impracticable before the onset of symptoms, effective coverage can be obtained only by administering treatment to all returning personnel who have served in Korea where they were exposed to the possibility of infection.

2. Studies conducted under the auspices of the Subcommittee on Malaria, Committee on Medicine, National Research Council, have indicated that the oral administration of primaquine diphosphate tablets, 0.015 Gm base, daily for 14 days in conjunction with chloroquine at a suppressive level may effect a substantial reduction in the relapse rate of vivax malaria and does not cause the disagreeable side effects which are common with other antimalarial drugs.

3. In view of the foregoing statements, every person returning to the United States from Korea by water should receive orally 1 Gm of chloroquine diphosphate upon arrival at the Port of Embarkation to cover the two week period of primaquine treatment and one primaquine diphosphate tablet, 0.015 Gm base, daily for a period of 14 days. As much of this treatment as possible should be administered prior to embarkation, and the remainder will be administered aboard troop transport vessels. The three Surgeons General and the Commander of Military Sea Transportation Service have agreed to this arrangement.

4. Primaquine diphosphate tablets 0.5 Gm are a non-standard medical supply item. Since production is limited, the Army has been authorized to be the sole distributor of the drug in Far East Command. MSC vessels will draw required amounts of primaquine for each voyage from the Ports of Embarkation in Japan and Korea.

 1ST Lt. MEMORANDUM: No. 12-1952 (Cont'd)

5. The effective date of this program will depend upon deliveries of adequate supplies of the drug from the manufacturers. Notification will be given as soon as this date is determined."

2. Reference (b) directs appropriate action be taken on the above. Paragraph 2 of reference (b) is quoted below for information and appropriate action.

"2. It will be noted in enclosure (2) to reference (a) that no provision is made for the treatment of personnel returning to the United States by air. It is recommended that the treatment of personnel scheduled for return by air be instituted as far in advance of their departure as is practicable. When there is insufficient time available to complete treatment prior to their departure, it is recommended that a sufficient amount of Primaquine diphosphate be issued to the individual, with written personalized instructions, to complete the required treatment."

3. Medical department representative may institute treatment prior to departure of personnel in order to insure adequate time for compliance with treatment period of 14 days as required by reference (b) paragraph 2, otherwise it is directed that interim treatment be effected by M&SS-1.

(e) Chapter 5, USF 70(b)

1. References (a) and (b) are hereby cancelled.

2. Purpose

a. The purpose of this bulletin is to combine the amplifications on movement Report messages as set forth in references (c) and (d).

b. movement Reports serve the following purposes:

- (1) Inform high echelon commands of the movements of subordinates.
- (2) Inform supply activities of new shipping designators.
- (3) Inform the Fleet Post Office of new mail address.
- (4) Inform the Naval Communication Service of the stations which will perform communications and crypto guard services.
- (5) Inform interested commands of the movements of Flag Officers so that suitable arrangements may be made to receive them.

3. Movement Report System

a. All these functions are performed by the Movement Report System. Each geographical area is served by a Movement Report Office. For the Far East, the MRO is in TOKYO. Upon receipt of a movement Report, MRO, TOKYO informs all interested commands in its area and then readdresses the message to other Movement Report Offices and Movement Report Centers, who inform commands in their areas. It is necessary for a command to inform only its own MRO of its movement. Further dissemination is automatic.

SECURITY INFORMATION

1stMAW BULLETIN NUMBER 1-52, Cont'd, Page 2

4. Departure Reports

a. Departure Reports shall be filed twenty-four (24) hours prior to departure and shall contain the following information:

- (1) Task Force designation or ship's name or number when a unit is embarked.
- (2) Actual or estimated time of departure.
- (3) Name of port of geographical designation of destination.
- (4) Estimated time of arrival at destination.
- (5) Designation of communications guard while in transit and upon arrival. This information is especially important in this theatre, since Navy RADIO, TOKYO routes all the traffic from the United States. They must know the teletype routing indicator of the airfield where traffic will be accepted. Special mention of the unit assuming communications guard is necessary when the moving unit does not carry its own administrative communications center and crypto center with it. Any command may appoint any other command, whether senior or equal, to be its communications guard. Such assumption of communication guard is Standard Operating Procedure and a formal request or directive is not necessary.
- (6) Instructions for forwarding mail, when it is not desired that mail be forwarded to the destination.

5. Arrival Reports

Arrival Reports shall be filed promptly upon arrival and shall simply state the time of arrival and the point of arrival.

6. Classification

- a.) The classification of Movement Reports shall be consistent with the classification of the order directing the movement.
- b.) When movement Reports are classified, indefinite radio call signs will be used in the heading for the originator.
- c.) When any portion of the heading of a message is replaced by an indefinite call sign(s), the portion replaced will be placed in the text.
- d.) A considerable number of Movement Report messages, employing indefinite (originator) call signs, have been received by MRO, TOKYO which did not contain sufficient information to clearly indicate the originator thus causing unacceptable delays when verification or other vital information must be obtained from the originator.

- a. The precedence of movement Reports shall be ROUTINE except in certain instances to ensure delivering to MRO within the time allowed by paragraph 509.2, USF 70(B).
- b. Arrival messages will normally be assigned precedence as follows:
 - (1) ROUTINE - When actual arrival coincides with, or is prior to, the latest ETA furnished MRO, TOKYO.
 - (2) PRIORITY - When actual arrival occurs after, but prior to TWO (2) hours later than, the latest ETA furnished MRO, TOKYO.
 - (3) OP-IMMEDIATE - When actual arrival time occurs during the period from TWO to FOUR hours later than latest ETA furnished MRO, TOKYO.

8. Information Addressees

- a. Since the inclusion of an information addressee is likely to reveal that a unit of that command is making a movement, no information addressees will be listed. Senior commands are informed by the MRO as outlined in paragraph 3.
- b. Exceptions are movement Reports of VIP's such as Assistant Secretaries of the Navy and above, DCNO's and above, and Fleet Commanders, or other personnel in whose location CNO has a direct and immediate interest should be addressed PRIORITY or OPERATIONAL IMMEDIATE, direct to MRCC, Washington, information to others as appropriate. : Accidental discharge of firearms
NUMBER.....67)

Reference: (a) article 1271 U.S. Navy Regulations

1. The increase in the number of accidental discharge of firearms throughout the command, is a matter of concern to this headquarters. Several incidents have resulted in wounding individuals to such an extent as to require several weeks of hospitalization and an injury so extreme as to cause the death of the recipient. In each case these accidental discharges could have been avoided had individuals taken proper safety precautions in the handling of the firearm.
2. In an effort to eliminate accidental discharge of firearms and to avoid serious injury to any member of this command the following rules and regulations are established for use of firearms for members of this organization.

a. Commanding officers will be responsible that:

(1) All personnel are thoroughly familiar with the weapon he is authorized including familiarization firing and make proper notation in the individual S.R.B., to that effect.

(2) Individual weapons will not be kept in a loaded condition in camp areas except as directed by the Commanding Officer.

(3) Enlisted personnel possessing privately owned weapons, exclusive of shotguns, will turn such weapons in to their unit commanders who will issue a receipt to the individual for the weapon and provide proper storage for its safe keeping. Individual weapons will be returned to the owner upon his detachment.

(4) Disciplinary action (Court Martial appropriate to the offense) is taken in all cases of accidental discharge of individual firearms.

NUMBER.....1-52)

Ref: (a) 1stMAW Training Bulletin No. 3-51 of 19 October 1951

1. Reference (a) is hereby cancelled.

2. It is imperative that pilots of this command, as well as ground equipment operators, maintain peak efficiency in the use of GCA and VHF/DF facilities. This can be accomplished only with consistent practice. It is therefore directed that pilots of 1st Marine Air Wing aircraft observe the following procedures:

a. Non-combat VFR flights landing at airfields on which 1st Marine Air Wing units are based will request and execute practice "steers" and GCA approaches whenever facilities are available without an unreasonable waiting period. Failure to comply will be considered justifiable only in the event of an emergency, or in the interest of operational expediency which requires a minimum "turn around" time for the aircraft involved.

b. Combat VFR flights will utilize practice GCA and VHF/DF facilities to the maximum practicable extent consistent with the spirit of this bulletin. One practice "steer" and GCA approach per month, per pilot, is considered to be a minimum requirement.

c. All flights approaching Cheju-Do Island (K-40) will contact "Coffee Mill Charlie" on VHF Channel Blue, and request "steer."

d. Effective 25 January 1952, all VFR non-combat flights approaching or departing K-3 will contact "Devastate Able" on VHF Channel Blue, and report as follows:

- (1) Identification.
- (2) Point of departure.
- (3) Type of flight plan (VFR).
- (4) Destination.
- (5) ETR or ETA (as appropriate).

3. GCA units at K-3 and K-18 are available for practice approaches as follows:

a. K-18 (request through K-18 Tower)
