VOLUME 20

## PRODUCT CATALOG

# Expect Excellence

At Ortho Technology (OT), our priority is to provide quality products, excellent service, and strive to be the best value oriented Orthodontic Company in the industry. We understand that as a clinician, you are constantly searching to improve the treatment experience for your practice and your patients. That is why we recently launched innovative new appliances like our Lotus Plus® DS Self-Ligating Bracket System (pg. 16). Through advancements in manufacturing technology, we're constantly improving existing product lines to help practitioners become more efficient. With our launch of Votion® and Pinnacle® Stainless Steel Bracket Systems, we provide doctors brackets with updated features for improved practice productivity at excellent value. (p. 40-45)

Our purpose as an organization is to assist the clinician in improving their patient's health, smile, and self-esteem. We believe that Orthodontics is one of the most rewarding professions to be a part of. Our products help you improve patient health and vibrancy while providing lifetime results. Helping you create beautiful smiles is our business.

It is our mission to provide quality, value oriented orthodontic products and services; to partner with you, our customers, as trusted advisors, enabling you to deliver the best patient care, while also helping you to enhance the efficiency and profitability of your practice.

Whether you're a practitioner in the United States or reside half-way across the globe, we want to thank you for your continued support. We understand that you have many options in the marketplace and want to thank you for making Ortho Technology "Your First Choice" for orthodontic supplies.

We look forward to our next 25 years as your business partner. Thank you for being part of our bright future - as we strive to provide you with even better value, happier patients, and a more efficient practice.

# Our Systems

## **Ortho Technology Offers a Full Line of Archwire Solutions**

TruFlex™, TruForce™, BetaForce™, Universal Form™, and TRIFECTA® lines are available in Stainless Steel, Beta Titanium, Nickel Titanium, Copper Nickel Titanium with and without stops and Thermal Nickel Titanium. Shaped as Pre-Torqued, Full Form, Euro Form, Standard Form, Reverse Curve of Spee and Retraction archwires. Available in Tooth Tone®, 8 Strand Braided, 3 Strand Twist, 6 Strand Coaxial, Gold Plated, Spooled and Straight lengths. Available with etched or dimpled midlines.

See pages 73-91

## **13 Different Bracket Systems Offer Maximum Choice**

Crystal clear sapphire, translucent ceramic, metal-lined ceramic, composite, metal-lined composite, stainless steel, gold plated stainless steel, and self-ligating brackets. Patients will love the choices and you will love the performance of Ortho Technology's extensive line of bracket systems.

See pages 8-53

## **Creatures of the Sea® Orthodontic Elastics**

Easy to use identification system manufactured with high quality medical grade materials to deliver consistent and accurate force. Printed tooth diagram aids in proper placement of elastics. Packaged in light-resistant patient packs.

See pages 106-107

## **TruFit™ 2.0 Molar Bands with Prewelded Buccal Tubes**

Each TruFit 2.0 band has precision shaped tooth anatomy for a tight secure fit with excellent retention. Strong yet malleable proximal walls that require little to no burnishing. Maximum buccal height allows greater placement and positioning flexibility of buccal tubes and lingual attachments.

See pages 54-68

Perfect

# Your Practice

## Falcon Orthodontic Instruments®

Our Falcon orthodontic instruments are hand crafted using the finest grade surgical stainless steel and have a long-lasting buffed, polished finish. Pliers and cutters feature factory adjusted sliding lock joints, diamond honed cutting edges, and stainless steel inserts for long lasting tip alignment and a clean wire cut every time.

See pages 182-187

## Resilience® Bonding Supplies

The light-activated and primer-activated systems provide the optimum properties for bonding ceramic, metal, or plastic brackets to teeth. The composite adhesive has ideal viscosity which delivers predictable handling characteristics that eliminate bracket flotation and allow for easy flash removal. Produces a quick setting, strong mechanical bond which debonds easily. Contains fluoride to help protect against potential decalcification.

See pages 111-115

## Galaxy™ Diamond Discs Interproximal Reduction

Diamond Discs are perfect for both reduction and contouring. Smoothly remove tooth mass interproximally to create intra-arch space or open contact points between teeth. Great for use with many popular clear aligner systems.

Discs are available in 22.0 mm or 19.0 mm when space is limited.

See page 151

## DuraLock® PLUS Impression Trays

Using DuraLock PLUS trays save time. By eliminating the extra steps of coating the tray with adhesive and waiting for it to dry, the impression process is simplified and accelerated. DuraLock PLUS trays also

eliminate inadequate coverage and/or tissue impingement and ensure an accurate fit every time by offering more size choices than competing trays. Reliable strength and stability are the trademarks of DuraLock PLUS.

# Match

QUALITY AND EXCELLENCE

Over 25 Years  
Since 1991

of Delivering Value to  
Orthodontists Around the World

# Over 25 Years of Excellence

## Innovations in Aesthetics

Ortho Technology not only offers several aesthetic bracket lines but takes aesthetic treatment to the next level by offering an extensive selection of Tooth Tone® coated archwires, ties, springs, and attachments.

## Unique and Exclusive Products

Ortho Technology takes pride in offering a multitude of unique and exclusive products. We are constantly researching, developing, and improving our products to ensure the most innovative and highest quality products are available.

## Product Line Variety and Completion

Ortho Technology offers all products necessary to complete any patient treatment. From first impressions to debonding pliers and burs as well as patient hygiene accessories, we offer a thorough selection of products.

## Superior Customer Service

Ortho Technology strives to provide complete customer satisfaction with every interaction. By doing this, our goal is to ensure a long-lasting and trusted relationship with every customer.

## Competitive, Honest Pricing

The goal of Ortho Technology's pricing structure is to supply quality products at a fair price. We understand that a fair product price is just as important as the product itself.

## Same Day Shipment

Most orders ship the same day you place your order. You can have your products as soon as the next business day. Place your order before 2:00 P.M. E.S.T. and request overnight shipping. Otherwise we will ship your order via common carrier.

## Hassle-Free Returns

We understand that your purchase may not always meet your needs. In an effort to make the return process as hassle-free as possible, we ask that you please call us. Your satisfaction is very important to us, and your input helps us improve our products and service. When you call, a return authorization number will be assigned. This number will help expedite your exchange, credit, or refund.

# INNOVATION, AESTHETICS AND EXCELLENCE

We understand that as an Orthodontist, you are constantly searching to improve the treatment experience for you and your patients. To support you, we offer innovative solutions through our many bracket lines. From stainless steel to clear sapphire, translucent ceramic and composite aesthetic to passive and active self-ligating, we have the bracket you need. Your patients will love the choices, and you will love the performance of Ortho Technology's extensive line of bracket systems. Expect the highest quality available at a fair price with every product we offer.

# Sensation™

Active Ceramic Self-Ligating Bracket System

The Perfect Mix of Aesthetics and Efficiency

**COMPARE TO:**  
 Empower® Clear by American Orthodontics  
 In-Ovation® C by DENTSPLY GAC

## The Benefits are Clear

Sensation Active Ceramic Self-Ligating Brackets benefit both patient and practice by providing uncompromised aesthetics and comfort for your patients with faster treatment times for your practice. Sensational results from start to finish. The ceramic material provides strength and durability as well as a translucent appearance that is unmatched by any other bracket system. The rhodium coating on the cobalt-nickel clip increases the clip's strength for extraordinary durability. A strong mechanical bond is created on the bracket base through the use of alumina spheres. Debonding is predictable and easy. The unique guide rail ensures stable and consistent force during clip opening and closing making archwire changes a breeze. With fewer archwire changes, shorter office visits, and reduced chairtime, the benefits are clear.

## Sensation™ SLB Opening Instrument

Unique Clip Opening Tool Specifically Designed to Prevent Overstressing of the Clip

Sensation Brackets must be opened using the OT-7920 Clip Opening Instrument. **Using the incorrect instrument may result in clip damage.**

Item #: OT-7920  
Heat sterilizable up to 370°F/188°C  
1 per pack

### Important Clip Opening/Closing Tips:

An important part of the closing procedure is making sure the archwire is securely pressed into the base of the archwire slot before pressing on the clip. This can be done with a ligature director or light finger pressure on the archwire. **Failure to do so may deform the clip and cause it to be inoperable.**

Both Sensation and Sensation M clips open and close in the same manner, however, each require a unique instrument. While both instruments may look similar, each must be used with the appropriate bracket system.

# Sensation<sup>M</sup>

Active Stainless Steel Self-Ligating Bracket System

The Perfect Mix of Efficiency and Control

**COMPARE TO:**

Empower<sup>®</sup> by American Orthodontics  
In-Ovation<sup>®</sup> R by DENTSPLY GAC

## Ideal Treatment Control

Sensation M Active Stainless Steel Self-Ligating Brackets provide ideal control in all stages of treatment. The passive stage of the clip during the initial treatment phase allows for more efficient leveling and aligning. Sliding mechanics are also enhanced during the passive and transitional phases. The active stage of the clip engages the archwire securely into the base of the archwire slot, fully expressing the in-out, angulation and torque built-in to the bracket.

Unlike traditional brackets where forces can diminish when ligatures are stretched into place, the self-ligating clip design offers continuous force levels during wire deflection/unloading. This allows practitioners to adjust time between office visits.

**Removable Color Coded ID Dot**  
For easy bracket selection

**Fixed Clip Design**  
Prevents accidental removal

**Long Axis Scribe Line**  
Acts as a clear visual cue for placement at the top and bottom of the bonding base

**Smooth Rounded Hooks**  
For added patient comfort and secure engagement of elastics

**Compound Contour Base**  
Provides an ideal bracket fit to tooth surface

**80 Gauge Micro-Etched Mesh Base**  
Ensures maximum bond strength with predictable and safe debonding

**Low Profile Design**  
Smooth rounded facial contours to optimize patient comfort

**High Quality Clip**  
Manufactured using a Cobalt-Nickel alloy to provide resiliency and durability

**Ample Under Tie-Wing Area**  
For application of elastomeric chains

**Identification System**

**Passive to Active**

## Sensation™ M SLB Opening Instrument Unique Clip Opening Tool Specifically Designed to Prevent Overstressing of the Clip

Sensation M Brackets must be opened using the OT-8920 Clip Opening Instrument. **Using the incorrect instrument may result in clip damage.** Item #: OT-8920  
Heat sterilizable up to 370°F/188°C  
1 per pack

### Important Clip Opening/Closing Tips:

An important part of the closing procedure is making sure the archwire is securely pressed into the base of the archwire slot before pressing on the clip. This can be done with a ligature director or light finger pressure on the archwire. **Failure to do so may deform the clip and cause it to be inoperable.**

Both Sensation and Sensation M clips open and close in the same manner, however, each require a unique instrument. While both instruments may look similar, each must be used with the appropriate bracket system.

### Simple Opening - To open the Sensation M Bracket Clip:

1. Place the inside hook of the opening instrument into the opening of the door of the bracket interface.
2. Tilt the opening instrument gingivally to avoid possible removal of the clip.
3. Pull straight down to open using a gentle controlled force.

### Simple Closing - To close the Sensation M Bracket Clip:

1. Place light pressure to seat the archwire in the slot base by using finger pressure or a ligature director.
2. Using light finger pressure, press up and in to close the clip.

PLUS®

Self-Ligating Bracket System

DUAL SYSTEM,  
UNLIMITED OPTIONS

**PASSIVE**

**INTERACTIVE**

**COMPARE TO:** In-Ovation® by GAC Dentsply  
Damon® by Ormco Empower® by American Orthodontics

HYBRID System Available

Brackets

## An Advanced and Versatile SLB

Designed by an orthodontist, Lotus Plus DS is a self-ligating bracket system with major enhancements over its predecessors. It was created to address the many deficiencies of passive and interactive SLBs in the industry, while preserving a familiar twin-wing design so you can treat cases with more ease.

Featuring one-piece strength, high slot manufacturing tolerances, a unique planar clip design, and the lowest possible SLB profile, Lotus Plus DS stands as one of the most advanced and versatile SLBs on the market.

## Visible Results

"At the first visit the results were obvious, the basic leveling and aligning were well under way, without any patient discomfort."

**Dr. Enis Güray**  
Orthodontist

### Identification System

Damon is a registered trademark of Ormco Corporation, In-Ovation is a registered trademark of GAC Dentsply, and Empower is a registered trademark of American Orthodontics.

## PASSIVE

**Familiar Mini-Twin  
"True Straight Wire" Design**  
With a deep v-channel and vertical scribe line for accurate placement

**Lowest Possible Profile**  
With rounded facial contours for maximum patient comfort and aesthetic appearance

**Smooth Tie-Wing Undercuts**  
For patient comfort and secure colored ligation if desired

**One-Piece Bracket**  
Made from 17-4 Stainless Steel

**Superior Planar  
Thermal Nickel-Titanium Door**  
With flexible independent tabs, that extend the entire width of the bracket slot, for reduced friction, improved rotational control, and resistance to deformation

**Easy-Opening  
Non-Removable Clip**  
Opens using light force to prevent bracket bond failure and provide comfortable adjustments

### Outstanding Patient Comfort - Low Profile

*In-Ovation R (Left), Damon Q (Center) vs. Lotus Plus DS (Right) Bracket Profile Height.*

## INTERACTIVE

## Easy Opening

Comfortable Lever Action Easily Opens Clips

**SAVE TIME WITH  
Lotus Plus® DS Turn  
Key Instrument**

See page 24

**Explorer:** Simply insert the end of an explorer into the circular opening located just below the archwire slot and pull down towards the mandible to open the clip.

**Rotate  
Explorer  
45°**

**For added patient comfort:** Instead of pulling down, rotate the Explorer in a downward 45° motion to gently ease the clip open.

**Ortho Assistants  
Love the Easy  
Opening Clip and  
Quick Wire Changes**

## Secure Closure

1. Using a utility plier or tweezer, place one open instrument tip on the top of the bracket and the other open tip at the bottom of the open clip.
2. Gently apply pressure to the plier or tweezer, and the clip will begin to move up. The clip will "click" when closed.

You can also close the clip by applying light finger pressure instead of using a tweezer or plier.

# Discover How Lotus Plus DS Can Transform Your Practice

## Thermal Nickel-Titanium Door/Clip

### Unique Planar Design

Lotus Plus DS Features a Thermal Nickel Titanium door that runs the entire width of the bracket slot, and has separate tabs for improved rotational control.

## Passive Self-Ligating Bracket System

### Suggested Order, Duration, and Objective of Basic Archwire Sequence

Phase I Round Archwires	Duration	Objective
.013" or .014" TruFlex™ Thermal Nickel Titanium Universal Form .013" Item #: 2001-101 .014" Item #: 2001-102 10 per pack	10 Weeks	Cases with severe crowding
.018" TruFlex™ Thermal Nickel Titanium Universal Form Item #: 2001-104 10 per pack	10 Weeks	Level and align Begin arch development Solve 90% of rotations
Phase II Rectangular Archwires		
.014" x .025" TruFlex™ Thermal Nickel Titanium Universal Form Item #: 2001-114 10 per pack	10-20 Weeks	Complete leveling and alignment Resolve remaining rotations Start control of torque Consolidation of the anterior spaces Continue arch development without expanders or quad-helix
.018" x .025" TruFlex™ Thermal Nickel Titanium Universal Form Item #: 2001-118 10 per pack	4-6 Weeks	Fine tune torque control Continued development of the arch
Phase III Mechanics at Work		
.019" x .025" TruForce™ Stainless Steel Universal Form Item #: 2003-119 10 per pack	20-30 Weeks	Finish torque control Consolidation of posterior spaces Adjustments to buccal, lingual, anterior, and posterior Coordination of the arch form
Phase IV Finishing		
.019" x .025" TruForce™ Stainless Steel Universal Form Item #: 2003-119 10 per pack - or - .019" x .025" BetaForce™ Beta Titanium Universal Form Item #: 2002-119 10 per pack	10 Weeks	Specific detailing of patient arch form

Above chart is suggested order, duration, and objective of basic archwire sequence and by no means a replacement for professional expertise.

## PURE® Patient Aesthetics

The macro photograph shows the clarity of the flawless PURE brackets. Made from pure monocrystalline sapphire for a bracket system with the highest transparency available for outstanding aesthetics. Nearly invisible against any tooth shade and stays crystal clear without staining.

## PURE® Contoured Base

The anatomically contoured bracket base allows for quick and easy bracket placement. The customized tooth specific design fits the tooth curvatures perfectly to increase bond strength and make bonding appointments a breeze.

## PURE® Patient Comfort

Each PURE bracket has been diamond and heat polished to produce rounded, smooth corners for uncompromised patient comfort. The small bracket size and low profile design also provide a desirable bracket both clinicians and patients will appreciate. The PURE brackets are also functional, the tie-wings are easy to ligate, exceptionally strong and highly fracture resistant.

## PURE® Predictable Debonding

Remove all ligatures and wires. Remove flash from around the brackets with a high speed debonding bur.

Instruct the patient to bite down onto a cotton roll in the area brackets are being removed. Grasp the bracket with a straight or angled debonding plier at the bracket-adhesive interface. The bracket can be held along the occlusal-gingival or the mesial-distal edge. Gently squeeze the plier and gradually increase pressure until the bracket comes free from the tooth. **Do not twist or pull the bracket.**

The bracket is designed to release at the bracket-adhesive interface and will leave a layer of adhesive on the enamel for safety. This means that most of the adhesive will remain on the tooth after debonding.

Remove remaining adhesive with a high speed debonding bur or an adhesive removing plier. After bulk adhesive is removed follow up with a high or low speed enamel polishing bur.

## PURE® Bond Strength

SEM photographs show the unique Double Fusing Method™ (DFM). The PURE bonding base is coated with zirconia spheres creating millions of undercuts that mechanically lock with the bracket adhesive. This process allows for secure retention during the length of treatment and provides for predictable debonding at the end of treatment.

# Reflections™

## Ceramic Bracket System

### Proven Clinical Performance

The Reflections Ceramic Bracket System offers a unique combination of aesthetics, function, and strength. The state-of-the-art dovetail base design has generous undercuts which grab any adhesive firmly and ensure maximum mechanical bond strength, yet debond easily. Reflections Brackets are made from 99.9% pure polycrystalline alumina ensuring the

translucency patients want. Reflections Brackets are designed to decrease the occurrence of bracket fracture, increase the torque control, increase the sliding mechanics, and provide the clinical functionality doctors need. Reflections Brackets are the clear alternative for aesthetic treatment.

**Rounded Corners**

## Metal-Lined Composite Bracket System

The Aesthetics Patients Want  
with the Functionality  
Doctors Need<sup>™</sup>

MADE IN THE  
USA

COMPARE TO:  
Spirit<sup>®</sup>MB by Ormco

- Rounded corners for added patient comfort
- Removable color coded ID dot
- Highest quality material made from medical grade polyurethane for superior strength, translucent for pleasing aesthetics
- Metal-lined archwire slot for improved sliding mechanics and to withstand higher torquing forces. Nickel free for sensitive patients
- Compound contour base provides for an ideal bracket fit. Bonds and debonds just like metal
- Generous tie-wing area for easy bracket ligation. Contoured design for added patient comfort
- Dove tail grooves with "micro rock" coating provide superior mechanical lock

.019" x .027"	8000-813	8000-913
.020" x .020"	8000-817	8000-917

**Note:** Size shown is finished size. Tooth Tone coating adds .002" thickness to diameter.  
10 per pack

## Tooth Tone® Crimpable Mini Stops

- Durable aesthetic coating
- For total aesthetic treatment
- Very comfortable to the patient
- Slides easily onto the archwire
- 2.0 mm in length

### Coated Mini Stops - Small

Item #: 907-000  
Fits round wires up to .018"  
25 per pack

### Coated Mini Stops - Large

Item #: 907-001  
Fits square wires up to .020"  
x .020" rectangular wires up  
to .019" x .025"  
25 per pack

# VOTION®

Stainless Steel Bracket System

## The Bracket Built for Practice Productivity

COMPARE TO:

**OmniArch® Plus** by Dentsply Sirona

## Two-Piece Bracket System

The Votion Bracket System utilizes Metal Injection Molding (MIM) technology to achieve extremely complex bracket structures and contours that enhance treatment efficiency.

**Intelligent Hook Design**  
Hooks are angled at 15° to reduce interference with gingival tissue

**Smooth Facial Contours**  
For increased patient comfort

**Vertical Scribe Line**  
Runs entire length of bracket base and pad for easy and more accurate placement on the long axis

**Compound Contour Base**  
Superior fit and greater contact surface area for improved retention

**Permanent Identification System**  
With a removable color coded dot and permanently recessed I.D. mark

**Ample Under Tie-Wing Area**  
Provides easy and secure ligation

**Rounded Archwire Slot Contours**  
Mesial and distal slot entry points are rounded to prevent archwire notching when rotations are present and during retraction/protraction procedures

### Identification System

© 2018 Ortho Technology, Inc. Votion is a registered trademark of Ortho Technology. OmniArch is a registered trademark of Dentsply Sirona.

## Low Profile Design

Improved aesthetics and patient comfort

## Anti-Rotation

Ortho Technology's version of the Roth Prescription features built-in anti-rotation in the cuspid and bicuspid bracket archwire slots to prevent unwanted rotation during sliding mechanics

## Intelligent Hook Design

Hooks are designed with a 15° angle to reduce interference with gingival tissue. The ball hook is further rounded to minimize soft tissue irritation and improve the patient experience

MADE IN THE USA

## PINNACLE® STAINLESS STEEL BRACKET SYSTEM

### Revolutionary Strength and Consistency in a One-Piece Bracket

COMPARE TO:  
**Mini Master™** by American Orthodontics

Brackets

**Intelligent Hook Design**  
Smooth rounded hooks reduce soft tissue irritation

**Cross Scribe Lines**  
Unique vertical and horizontal scribe lines in the center of the bracket head for superior visual cues. The patented, raised horizontal line on the bracket base further enhances visibility for optimal bonding placement accuracy

**Micro-Etched Pylon Base Design**  
Created from the original Marquis™ base, Pinnacle's redesigned version features angled pylons that offer increased surface area for superior retention and bond strength

**Permanent Identification System**  
With a removable color coded dot and permanently recessed I.D. mark

**Rounded Archwire Slot Contours**  
Mesial and distal slot entry points are rounded to prevent archwire notching when rotations are present and during retraction/protraction procedures

**Optimized Compound Contour Base**  
Brackets are individually contoured for an ideal fit to each tooth for correct positioning

### Identification System

© 2018 Ortho Technology, Inc. Pinnacle is a registered trademark of Ortho Technology. Mini Master is trademark of American Orthodontics.

## One of the Most Modern Brackets in the Industry

Pinnacle combines classic design with modern elements for better treatment efficiency. Through advanced Metal Injection Molding (MIM) technology, more intricate contours and structures are achieved for reduced friction, optimum patient comfort, and enhanced visual placement marks. A specialized process leaves Pinnacle with a brilliant high-shine surface.

## Eliminate Canine Bracket Re-Positioning

Doctors struggling with rotations from retraction procedures are able to place Pinnacle more accurately at the beginning of treatment with anti-rotation in the slot.<sup>†</sup>

# Marquis™

## Stainless Steel Bracket System

### Fully Preprogrammed Bracket System™

MADE IN THE USA

COMPARE TO:  
Mini Master™ by American Orthodontics

## One-Piece Bracket System

**Identification System**  
By quadrant with a removable color coded dot and permanently by a recessed I.D. mark

**Chamfered Archwire Slot**  
For easy archwire engagement  
Archwire slot is parallel to incisal edge of tooth

**Highest Quality Material**  
Cast from the high quality 17-4 stainless steel for unsurpassed strength

**Rhomboid Shape**  
With defined center scribe line for easy and accurate bracket placement

**Superior Shear Bond Strength**  
Makes for less bond failure

**Ball Hooks**  
No additional charge

**Contoured Tie-Wing**  
For added patient comfort  
Tie-wings are parallel to tooth anatomy

**Generous Tie-Wing Area**  
For easy bracket ligation

**Ultra Low Profile**  
For added patient comfort

**Torque In Base**  
Compound-contoured design  
Base of bracket is parallel to the incisal edge of tooth

## State-Of-The-Art Base Design

- Electrical Discharge Machining (EDM)
- Retention superior to mesh bonding pads
- The extended base of the bicuspid provides a better fit and added retention
- The micro-etched pylons are designed at an acute angle generating miniature anchorage points that embed firmly into the adhesive for maximum bond strength

## Identification System

# Microtech Plus™

## Cobalt Chromium Bracket System

Precise Bracket Design for  
Precise Treatment Results™

### A Bracket for Nickel-Sensitive Patients

All brackets are manufactured with Cobalt Chromium Alloy Material to address your nickel sensitive patients. The Microtech Plus Bracket's rhomboid shape is specifically designed to position the bracket easily and accurately. The bracket's vertical component gives fast, accurate alignment with the long axis of the clinical crown, while the horizontal elements are aligned and parallel to the incisal edge of the tooth.

#### Unique Bonding Base

SEM photograph of the Microtech Plus Bracket micro-etched base displays the foundation for greater bond strength and reduced bond failure

**Removable Color Coded ID Dot**  
Each bracket is individually color-coded for easy identification

**Accurate Placement**  
Mesial/distal tie-wings and a permanent vertical scribe line are parallel to the long axis of the clinical crown – The vertical and parallel lines facilitate a more accurate placement of each bracket on the long axis for bonding

**Easy Ligation**  
Ample area under each tie-wing allows easy ligation

**Low Profile for Patient Comfort**  
Brackets are radiused and polished for maximum patient comfort

© 2018 Ortho Technology, Inc. Microtech Plus is a trademark of Ortho Technology.

## ■ One-Piece Design

Ensures increased strength, accuracy, and durability due to its Metal Injection Molding (MIM) manufacturing process

## ■ Aesthetics and Comfort

Small bracket design with reduced bracket height and smooth tie-wings for aesthetics and comfort

## Microtech Plus™

\*The Ortho Technology version of the Roth and McLaughlin, Bennett, & Trevisi prescriptions are not implied to be an exact version of any other system, nor do we claim any endorsement of the respective doctors.

## ■ Precision and Fit

Bracket base is contoured in both the mesial/distal and gingival/occlusal directions for a perfect fit to the tooth surface creating a stronger bond

## ■ Low Nickel Formula

Manufactured from Cobalt Chromium Alloy, a low nickel containing material, which reduces the risk of allergic reactions for nickel sensitive patients

## Presentation Typodonts

MADE IN THE USA

Brackets bonded 7 to 7 with archwires, buccal tubes on upper and lower first and second molars, and clear ligatures in place. Solid tissue colored gingiva base or clear flexibase with tooth tone colored teeth molded separately and inserted in place prior to bonding. The high quality detail makes these hinged typodonts the perfect presentation aid. All typodonts arrive in a hard plastic case with foam insert perfect for safe, protective storage.

## Bondable Maxillary Buccal Tubes

- Available in the most popular prescriptions
- The first molar gingival ball hooks hold elastics and springs securely
- Designed with the latest technology for patient comfort

**Improved Low-Profile Design**  
Reduces occlusal interference

**Anatomical Design**  
Conforms to the tooth

**80 Gauge Mesh Pad**  
For improved bond adhesion

**Smooth and Rounded Hooks**  
For maximum patient comfort

**Maxillary Single Convertible**

**Maxillary Double Convertible**

### Precision Preweld Position Buccal Attachments to Molar Bands

Upper Molar

Entrance to buccal tube will bisect the mesial/buccal cusp

Lower Molar

### TruFit 2.0 Molar Band Features

- **Shaped for a Precise, Tight Fit on Every Tooth**  
Each band has precision shaped tooth anatomy for a tight secure fit with excellent retention.
- **Medium Temper Malleable Stainless Steel Finished to a Brilliant Mirror Luster**  
TruFit 2.0 stainless steel bands are strong enough to avoid wall collapses while being malleable enough for snap fittings that require little to no burnishing.
- **Laser Etched Exterior Identification System with Micro-Etched Interior**  
TruFit 2.0 bands display an exterior laser etched identification system for easy product selection. The interior is micro-etched to increase bond strength and retention.
- **Band Sizes Available From 29.5 to 44**  
See pages 66-67 for our band conversion chart.

Molar Bands

## Prewelded Lingual Attachments for TruFit 2.0 Molar Bands

MADE IN THE USA

### Prewelded Cleat

Molar ..... 494-025  
Cuspid/Bicuspid... 494-024  
1 per pack

### Prewelded Lug Molar

Item #: 494-028  
Length 4.8 mm  
1 per pack

### Prewelded Indented Lingual Sheath with Hook

UR/LL ..... 494-038  
UL/LR ..... 494-039  
1 per pack

### Prewelded Indented Lingual Sheath

Item #: 494-032  
1 per pack

### Prewelded Button Oval

Oval Flat ..... 494-020  
Oval Curved.... 494-021  
1 per pack

### Weldable Lingual Cleat

A. Molar ..... 494-025-10  
B. Cuspid/Bicuspid.... 494-024-10  
10 per pack

### Direct Bond Lingual Cleat

Item #: 494-004-10  
Micro-etched  
10 per pack

### Indented Lingual Sheath with Ball Hook

UR/LL ..... 494-038-10  
UL/LR ..... 494-039-10  
10 per pack

### Indented Lingual Sheath

Indent provides additional retention to hold palatal arch bar in sheath.  
Item #: 494-032-10  
10 per pack

## Bondable Attachments Loose

MADE IN THE USA

### Direct Bond Eyelets Round Base

Item #: 025-100  
3.5 mm diameter two piece flat base  
10 per pack

### Direct Bond Eyelets Rectangle Base

Item #: 025-000  
3.75 mm x 3.0 mm one piece curved base  
10 per pack

### Direct Bond Buttons Round Base

Item #: 494-001-10  
Micro-etched  
3.5 mm diameter curved one piece base  
10 per pack

### Direct Bond Buttons Rectangle Base

A. Oval Flat..... 400-201  
B. Oval Curved..... 400-202  
3.88 mm x 2.48 mm one piece base  
10 per pack

## Ortho Technology's Bicuspid Bands

1 tray per pack

Tray included with any first time kit orders.

# TruEase™ Bondable Buccal Tubes

Designed With the Latest Technology  
for Patient Comfort

- **Stainless Steel Construction**
- **Molded Compound Contour Base with 80 Gauge Indented Mesh Pad** provides an anatomically correct fit that conforms to the tooth ensuring maximum bond strength
- **The Indented Pad** assists in easy and accurate placement to conform into the buccal groove
- **The Extended Base** provides maximum coverage for greater bond strength and control
- **4.2 mm Mesial/Distal Dimension** for full rotational control

## Single Non-Convertible

### TruEase Buccal Tubes Mini Typodont

Item #: G50-000

Includes: 1x TruEase Buccal Tube  
and 1x TruEase Low Profile Mini  
Buccal Tube

# Votion® Bondable Buccal Tubes

## Integrated Appliance System Designed to Work Seamlessly with Votion Brackets

The Votion Buccal Tube is a single non-convertible tube designed with modern features for practitioners' and patients' needs. Placement and positioning are made easy with side positioning indents, a defined buccal indent, and a compound contour base. Patients benefit from a smooth, low-profile rounded shape, and lowered hook for arguably the most comfortable treatment experience.

- **80-Gauge Micro-Etched Mesh Pad** ensures maximum bond strength
- **Metal Injection Molding (MIM) Stainless Steel**
- **Low Profile** for maximum patient comfort
- **Occlusal/Gingival Positioning Indents** for easy placement and minor adjustments
- **Smooth Rounded Surfaces and Lowered Hook** position and orientation for improved patient comfort
- **Defined Buccal Indent and Compound Contoured Base** for ease of placement and anatomical fit that conforms to the tooth

## Full Form Archwire

The broad, natural archform is the preferred shape for most clinical applications. It is ideal for use with bracket systems that have a built-in prescription, and can be used from start to finish with little to no wire bending.

Available in:

-  **TruFlex™**  
Nickel Titanium Archwire
-  **TruFlex™**  
Thermal Nickel Titanium Archwire
-  **TruFlex™**  
Copper Nickel Titanium Archwire
-  **TRIFECTA®**  
Thermal Nickel Titanium Archwire
-  **Tooth Tone®**  
Coated Nickel Titanium Archwire
-  **Tooth Tone®**  
Coated Stainless Steel Archwire
-  **TruForce™**  
Stainless Steel Archwire
-  **BetaForce™**  
Beta Titanium Archwire
-  **TruGold™**  
24K Gold Plated Archwire

## Euro Form Archwire

The euro arch form has a slightly narrower anterior region when compared to the full form shape, and remains narrow in the posterior region for clinicians who prefer a more oval form.

Available in:

-  **TruFlex™**  
Nickel Titanium Archwire
-  **TruFlex™**  
Thermal Nickel Titanium Archwire
-  **TruFlex™**  
Copper Nickel Titanium Archwire
-  **BetaForce™**  
Beta Titanium Archwire
-  **TruForce™**  
Stainless Steel Archwire

## Standard Form Archwire

The standard form, also known as a classic arch form, strictly reflects general arch symmetry. Often it is re-shaped and contoured and has enough length for wire bends, loops, and adjustments.

Available in:

-  **TruForce™**  
Stainless Steel Archwire

## Pre-Torqued Full Form

TruFlex Nickel Titanium Pre-Torqued Archwire provides low force, precise 20° anterior torque while enabling earlier introduction of torque in the upper centrals and laterals. Three anterior segment widths are available with etched center marks for accurate placement. Doctors and patients will appreciate the shorter chairtime provided by eliminating archwire bends.

Available in:

-  **TruFlex™**  
Nickel Titanium Archwire

## Universal Form™

The wide universal arch can be used on the upper or lower and creates the broad smile that displays the first and second bicuspids when viewed from the anterior – perfect for use with self-ligating bracket systems.

Available in:

-  **TruFlex™**  
Nickel Titanium Archwire
-  **TruFlex™**  
Thermal Nickel Titanium Archwire
-  **TruFlex™**  
Copper Nickel Titanium Archwire
-  **BetaForce™**  
Beta Titanium Archwire
-  **TruForce™**  
Stainless Steel Archwire

## Reverse Curve of Spee & Straight Leg Reverse Curve of Spee

The same great features as regular TruFlex NiTi archwires combining the advantages of super elastic, continuous forces and the benefits of a reverse curve. The Straight Leg RCS TruFlex NiTi is designed with additional length. Both are excellent wires for bite opening and closing due to deep or open bites, lower arch expansion, intrusion of the lower anterior teeth, and also provide excellent leveling and alignment.

Available in:

-  **TruFlex™** Nickel Titanium Archwire

## Retraction Archwire

TruForce Stainless Steel Retraction Archwires are available in an assortment of looped or brass post archwires for anterior intrusion or retraction, space closure, or elastic engagement.

Available in:

-  **TruForce™** Stainless Steel Archwire
  - Stainless Steel Retraction Archwires

## Specialty Archwires

TruForce Stainless Steel is also available straight wire lengths, or three different multi-strand archwires: 3-strand twist, 6-strand coaxial, and 8-strand braided archwire. Each multi-strand wire features light force levels, good flexibility, and can be cut and formed without unraveling.

Available in:

-  **TruFlex™** Nickel Titanium Archwire
  - Nickel Titanium Spooled Wire
-  **TruForce™** Stainless Steel Archwire
  - 3-Strand Stainless Steel Twist Wire Straight Lengths
  - 6-Strand Stainless Steel Coaxial Wire Straight Lengths
  - 8-Strand Stainless Steel Braided Archwire
  - Stainless Steel Straight Lengths
-  **BetaForce™** Beta Titanium Archwire
  - Beta Titanium Straight Lengths

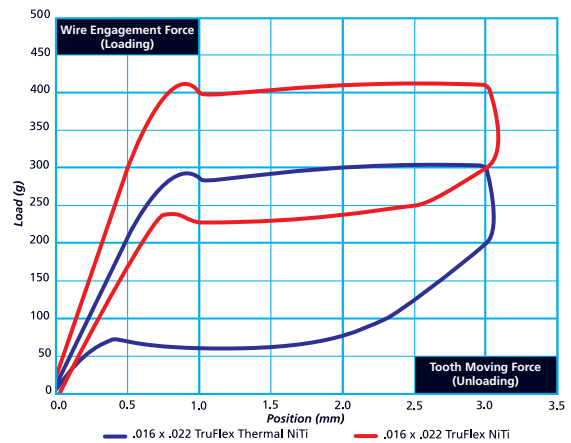

# TruFlex™

Nickel Titanium

Patients will appreciate the comfortable force levels provided during the initial treatment phase. Doctors will love the accurate and consistent results in treatment. TruFlex Nickel Titanium products – guaranteed quality at competitive prices.

- Predictable, light continuous force levels
- Bright finish for optimal sliding mechanics
- Resistant to deformation for high spring back
- Consistent accurate arch shapes
- Satisfaction guaranteed

## Load Comparison Chart

Wires

TRUFLEX™ NICKEL TITANIUM

## TruFlex™ Nickel Titanium Full Form Archwires

MADE IN THE USA

The broad, natural archform is the preferred shape for most clinical applications. TruFlex NiTi uses super elastic properties and is provided in the austenitic or activated state. TruFlex NiTi offers mid-range force characteristics, consistent force levels, a smooth bright finish, and excellent rebound and memory properties.

**TruFlex™ Nickel Titanium  
Euro Form Archwires**

MADE IN THE USA

The euro arch form has a slightly more narrow anterior region when compared to the full form shape. TruFlex NiTi uses super elastic properties and is provided in the austenitic or activated state. TruFlex NiTi offers mid-range force characteristics, consistent force levels, a smooth bright finish, and excellent rebound and memory properties.

TRUFLEX™ NICKEL TITANIUM

# TruFlex™

## Thermal Nickel Titanium

### TruFlex™ Thermal Nickel Titanium Full Form Archwires

The broad, natural arch form is the preferred shape for most clinical applications. TruFlex Thermal NiTi is provided in the martensitic or soft and pliable state and becomes super elastic once it reaches the transformation temperature of 90°F/32°C and becomes activated or austenitic. TruFlex Thermal NiTi provides gentle, lower force levels and a smooth, bright finish. The extreme pliability of TruFlex Thermal NiTi offers easy ligation and therefore larger size wires can be introduced at earlier phases in treatment without compromising patient comfort.

### TruFlex™ Thermal Nickel Titanium Euro Form Archwires

The euro arch form has a slightly more narrow anterior region when compared to our full form shape. Provides gentle low forces for maximum patient comfort, allowing for the introduction of larger wire sizes earlier in treatment without compromising patient comfort. TruFlex Thermal NiTi is extremely soft and pliable at room temperature for easy ligation. Once ligated, its shape memory becomes active with the patient's natural body temperature (90°F/32°C). Highly smooth, with a bright finish for reduced friction.

# Universal Form™ Archwires

MADE IN THE USA

The wide universal arch can be used on the upper or lower and creates the broad smile that displays the first and second bicuspids when viewed from the anterior. Perfect for use with self-ligating bracket systems. The Universal Form archwire provides all the features of our TruForce, TruFlex, and BetaForce wires with the added benefit of our carefully designed arch form.

- Perfect archwire sequencing for self-ligating bracket systems
- Precise and consistent force levels
- Excellent resiliency
- Etched midline

**COPPER**  
Nickel Titanium

## The Latest Advancement in Nickel Titanium Archwire Technology

The inclusion of copper to the nickel titanium alloy accentuates the thermal properties and working characteristics of the wire.

The lower hysteresis of TruFlex Copper provides a lighter tactile "feel" of the wire at room temperature which translates to additional flexibility providing for easier placement on cases with crowding conditions.

The unique alloy composition not only gives you easier insertion into the brackets, but also provides a greater resistance to deformation. TruFlex Copper provides controlled loading and unloading forces for a greater working time range, resulting in fewer archwire changes needed.

These controlled force levels translate to gentle, continuous forces providing consistent and predictable tooth movement throughout treatment.

**Universal Form Available with Stops and without**

**Available in 27°C or 35°C Force Levels**

- **Use 27°C Copper**  
When Higher Force Levels are Needed
- **Use 35°C Copper**  
When Medium Force Levels are Needed

Full Form Archwire

### Anterior Region = Gentle Forces

The incisor segment has the lowest heat-activated force level specific to moving small, single rooted teeth. The archwire provides gentle forces for patient comfort, reduces unnecessary tooth pressure and decreases the possibility of root resorption.

### Bicuspid Region = Moderate Forces

This segment of the archwire delivers a slightly increased force level for moving the larger bicuspids or premolars. The progressively increased force provides quick leveling and alignment to speed up treatment time, without compromising patient comfort levels.

### Molar Region = Heavy Forces

The posterior segment of the archwire generates the most force in order to align the larger, more difficult to move first and second molars. Regular archwires have only one force level throughout, which would require 2 or 3 wire changes to achieve the same movement you can get with 1 Trifecta wire.

3-Point Bend Test performed on a 10.0 mm wire span in the Buccal-Lingual plane to allow for curvature of the archwire. Tooth-moving forces at 1.5 mm deflection.

# BetaForce™

Beta Titanium

## Force Levels Between Nickel Titanium and Stainless Steel / Nickel-Free

The BetaForce Beta Titanium archwires are nickel-free with properties that fall between the bendability of Stainless Steel and the flexibility of Nickel Titanium. BetaForce wires have a smooth, polished surface for excellent sliding mechanics and provide moderate wire stiffness levels at 60% less than Stainless Steel. Beta Titanium wires offer excellent formability, making it ideal for intermediate and finishing stages of treatment.

## Disposable Archwire Markers

### Protect Against Cross Contamination

- Consistent machine dipped wax tips
- Special thick wax tips will not crack or melt
- Made with sturdy dowels
- The attractive dispenser keeps working area organized
- Precise marking and adhesion to dry metal surfaces
- Inexpensive and disposable

# TruFlex™

Nickel Titanium

## TruFlex™ Nickel Titanium Pre-Torqued Full Form Archwires

*Ideal for Use with Passive Self-Ligating Bracket Systems*

TruFlex Nickel Titanium Pre-Torqued Archwire provides low force, precise 20° anterior torque while enabling earlier introduction of torque in the upper centrals and laterals. Three anterior segment widths are available with etched centermarks for accurate placement. Doctors and patients will appreciate the shorter chairtime provided by eliminating archwire bends.

## Stainless Steel

TruForce archwires are manufactured with the highest quality 304VSS medical grade Stainless Steel. These wires have an extremely high tensile strength and accept intricate bends without breaking.

- High quality Stainless Steel
- High luster polish for reduced friction
- Consistent performance
- Etched permanent center mark

## We Give Back

Ortho Technology is a proud Founder Level Partner of the American Association of Orthodontists Foundation.

Ortho Technology is committed to making a positive difference in the future of the orthodontic community.

Ortho Technology has always been deeply committed to the orthodontic industry and is pleased to be able to give back to the profession by partnering with the AAOF.

## Reduce Emergency Visits! No More Poking Archwires! Crimpable Mini Stops

- Extremely low profile and small in size, making them more aesthetically pleasing than typical crimpable stops
- Very comfortable for the patient due to the small size
- Slides easily onto the archwire for customized placement
- Crimps easily into place with Weingart Style Utility Pliers
- 2.0 mm in length
- Stainless steel
- Made in the USA

### Mini Stops - Small

## Tooth Tone® Crimpable Mini Stops

- Durable aesthetic coating
- For total aesthetic treatment
- Very comfortable to the patient

- Slides easily onto the archwire
- 2.0 mm in length

**Coated Mini Stops - Small**  
Item #: 907-000  
For round wires up to .018"  
25 per pack

**Coated Mini Stops - Large**  
Item #: 907-001  
For square wires up to .020" x .020" rectangular wires up to .019" x .025"  
25 per pack

## Crimpable Split Stops

- Metal injected molded
- Stainless steel

- Made in the USA

Item #: 020-100  
For round and rectangular wires up to .021" x .025"  
10 per pack

## Perfect for TAD Use! Crimpable Archwire Hooks with Split Archwire Opening

- Excellent for use with miniscrew attachments
- Easily and securely attach closed coil springs or any auxiliary attachments
- Can be placed onto archwires inside or outside of the mouth
- Curved 6.8 mm tall and fits archwires up to .022" x .025"
- Made in the USA

Fits archwires up to .018" x .025"

Item #: 014-115  
Fits archwires up to .021" x .025"  
20 per pack

## Crimpable Cross Tubes

- Easily connect auxiliary and custom attachments to archwire
- Perfect for all orthodontic anchorage systems
- Diverse TAD technique use
- High quality stainless steel
- Made in the USA

Item #: 100310  
2.0 mm length, .022" slot  
10 per pack

## Crimpable Double Tubes

- Easily connect auxiliary and custom attachments to archwire
- Perfect for all orthodontic anchorage systems
- Diverse TAD technique use
- High quality stainless steel
- Made in the USA

Item #: 100300  
3.0 mm length, .022" slot  
10 per pack

## Direct Bond Eyelets Round Base

- Made in the USA

Item #: 025-100  
3.5 mm diameter two piece flat base  
10 per pack

## Direct Bond Eyelets Rectangle Base

- Made in the USA

Item #: 025-000  
3.75 mm x 3.0 mm one piece curved base  
10 per pack

## Direct Bond Buttons Round Base

- Made in the USA

Item #: 400-202R  
3.5 mm diameter curved one piece base  
10 per pack

## Direct Bond Buttons Rectangle Base

- Made in the USA

**A.** Oval Flat..... 400-201  
**B.** Oval Curved ..... 400-202  
3.88 mm x 2.48 mm one piece base  
10 per pack

## Perfect for Aligner Systems!

## OrthoFlex™ Rectangular Composite Buttons

- Aesthetically pleasing appearance
- Durable stain resistant material
- Secure dovetail base design
- Made in the USA

Item #: OT-2344  
2.85 mm x 2.05 mm one piece base  
10 per pack

## OrthoFlex™ Round Composite Buttons

- Small round shape
- Retains elastics from any angle
- Securely bonds on lingual or labial surfaces
- Composite material for superior aesthetics
- Rounded low profile design for exceptional comfort
- Made in the USA

Item #: OT-3300  
2.9 mm one piece base  
10 per pack

# TruEase™

## Bite Corrector Devices

**Innovative** Orthodontic Intraoral Devices  
for the Correction of **Class II** and **Class III** Cases

TruEase™ Double Lock  
Bite Corrector

TruEase™ Anchor Wire  
Bite Corrector

Anchor Wire Bite Corrector

Enclosed Nickel Titanium Springs

Titanium Clamps & Screws

### Better Results with More Efficiency

Help your non-compliant patients make the transition to an ideal Class I molar relationship quicker and with more comfort than any other bite-corrector device available, using the TruEase Bite Corrector Device.

- **Bands/Headgear Tubes Not Required**

The Double Lock Bite Corrector attaches directly onto the archwire, without removal, and locks into place; no headgear tube or band required.

- **Quick and Easy Installation**

Placement can be done chairside in minutes with "out-of-the-box" installation. No waiting for your lab to fabricate an appliance

- **Universal Orientation**

Appliances are bi-directional, eliminating extra part numbers and placement mix-up

- **No Adjustment or Reactivation Needed**

The enclosed Nickel Titanium springs exert continuous low forces until removal for predictable results

- **More Comfortable than Open-Spring Correctors**

The fully enclosed spring is more hygienic and has no exposed mechanisms to impinge soft tissue

- **Versatile**

Applicable for both extraction and non-extraction cases, with two styles to choose from: Double Lock and Anchor Wire

- **Perfect for Non-Compliant Patients**

Get maximum results with minimal patient cooperation

# TruEase™

Bite Corrector Devices

## Case Studies

### Superior Results in Less Time

Class II / III correction with standard techniques can take anywhere from 6 to 12 months, often requiring frequent attention. The TruEase Bite Corrector can provide the same treatment results in half the time without the need for patient compliance or spring reactivation. Simply install in one appointment and let it work for you.

### No Bands & Headgear Tubes Needed

*"The TruEase Double Lock version attaches directly onto orthodontic archwires without the necessity of laboratory work, and allows lateral mandibular movements."*

- Dr. Pablo Echarri, Orthodontist

### Class II Case Study

Patient with Class II, 1st division malocclusion and increased overbite and overjet.

## Measurement Instructions

### TruEase Bite Corrector Anchor Wire Device

(Figure 1A)

#### Class II

1. Have the patient bite down
2. Measure from the distal edge of the lower cuspid bracket to the distal end of the upper molar facebow tube (Figure 1A).

(Figure 1B)

#### Class III

1. Have the patient bite down
2. Measure from the distal edge of the upper cuspid bracket to the distal end of the lower 1st molar lip bumper tube (Figure 1B).

See the chart below for measurement ranges (A) and part numbers.

# The Spider Screw® System

The Spider Screw's geometry is a result of careful design in every single detail. In fact, the Spider Screw has obtained two international patents since its inception, due to its innovative characteristics: the simultaneous presence of the external and internal rectangular slots and round internal slots.

The Spider Screw's design is extremely versatile, due to its small dimensions and unique design. It is easily placed in either the maxilla or mandible, even where access is limited and bone quality is less than ideal. Placement is simplified by the self-drilling feature found in the K1 Plus, K2 Plus, K1 and K2 Spider Screw systems. Spider Pin requires pre-drilling.

The Spider Screw has been developed to offer a number of versatile anchorage options capable of immediate loading. Immediate loading is possible because the Spider Screw is a non-osteointegrable implant and consequently force can be applied immediately after placement. The applied force can range from 50 to 300 grams depending on screw choice, bone quality, and the desired orthodontic movement.

The Spider Screw is an anchorage device that can be used during every phase of orthodontic treatment and is suitable for symmetric or asymmetric anchorage. The Spider Screw assists in the success of orthodontic treatment, both in adults and adolescents, by reducing treatment times without patient compliance.

The Spider Screw package includes three removable labels containing important information (device name, reference code, lot number, etc.) which is to be applied to the patient's record card for traceability. Our sterile packaging ensures the Spider Screws are ready to use whenever you need them, saving your office valuable processing time. The screws have been cleaned, decontaminated and sterilized via gamma radiation, simply use sterile handling protocol.

Anchorage

### Orthodontic Head

- Designed to facilitate appliance (wires, springs, etc.) placement
- Features two intersecting .022" slots
- Under tie-wing area also functions as another .022" x .025" slot featuring two intersecting slots of .027" in diameter
- Chamfered inlets simplify insertion of wires or ligatures
- Small head dimension is designed for patient comfort

### Transmucosal Portion

- Variable length allows for optimal adaptation to different intraoral mucosa thicknesses during bio-maintenance
- Short length for areas of thinly attached gingiva
- Long for areas with thick or freely movable tissues
- Polished with a special treatment to help avoid soft tissue irritation and make cleaning easier to accomplish

### Intrabony Portion

- Thread shape has an asymmetrical profile for easy placement
- Ensures maximum stability and avoidance of bone stress
- Self-drilling and self-tapping makes pre-drilling before insertion unnecessary dependent upon bone structure
- Easy to place while reducing the risk of root damage

## Clinical Cases

- Intrusion Posterior Areas
- Direct Anchorage Uprighting and Molar Intrusion
- Class II Correction
- Lower Molar Protraction Indirect Anchorage
- Molar Uprighting and Intrusion

Visit our website for detailed case studies and before/after photos

# Spider Screw®

## Temporary Anchorage Device System

Made From High Quality Materials

- Grade 5 titanium construction
- Nickel-free for sensitive patients
- One per pack

### Self-Ligating K1 Plus Series

#### Conical: Self-Drilling Thread

The Spider Screw Self-Ligating TAD - K1 is self-drilling and self-tapping. Due to the design of the conical thread, drilling is eliminated in most areas of the mouth. In areas of high bone density, it may be necessary to utilize the 1.1 mm drill provided to penetrate the cortical plate. The locking head is color coded pink for easy identification.

Long Neck – 2.0 mm	
Length	Item #
6.5 mm	SXL-1506
8.0 mm	SXL-1508
10.0 mm	SXL-1510

3.9 mm diameter head  
1.5 mm diameter body

### Self-Ligating K2 Plus Series

#### Conical: Self-Drilling Thread

The Spider Screw Self-Ligating TAD - K2 is self-drilling and self-tapping. Due to the design of the conical thread, drilling is eliminated in most areas of the mouth. In areas of high bone density, it may be necessary to utilize the 1.2 mm drill provided to penetrate the cortical plate. The locking head is color coded green for easy identification.

Long Neck – 2.0 mm	
Length	Item #

3.4 mm diameter head  
1.9 mm diameter body

### Spider Pin™

#### Cylindrical: Pre-Drilling Thread

The Spider Pin is self-tapping and requires pre-drilling. It is ideal for areas where a reduced size head is required and the infrabony portion is narrow. The simple design increases patient comfort and makes it easy to attach coil springs or elastic chains.

Long Neck – 2.0 mm	
Length	Item #
8.0mm	SCL-1308

2.6 mm diameter head

### Included in Starter Kit

**8.0 mm Drill - K1**  
Item #: FSC-1108-S  
1.1 mm x 8.0 mm

**9.0 mm Drill - K2**  
Item #: FSC-1309  
1.3 mm x 9.0 mm

**Pick-Up Driver Shaft**  
Item #: DSP-5052N-S  
52.0 mm

**Cross Driver Shaft**  
Item #: DSX-2852N-S  
52.0 mm

**Contra Angle Pick-Up Driver**  
Item #: DPQ-2820-S  
20.0 mm

**Handle Driver**  
Item #: DSQ-2824-S

**Screw Driver Body**  
Item #: DSX-1690N-S

### Optional Items

- Automatically releases when the calibrated torque is reached to avoid overloading
- Torque can be set from 5 to 20 Ncm
- Helps eliminate screw breakage

#### Torque Screw Driver Body

Item #: DST-1600-S<sup>Ⓢ</sup>

*Note: Pickup driver sold separately. Sterilizable, see instructions for details.*

**10.0 mm Drill**  
Item #: FSC-1210-S<sup>Ⓢ</sup>  
1.2 mm x 10.0 mm

**Contra Angle Pick-Up Driver**  
Item #: DPQ-2825  
25.0 mm

**Pick-Up Handle Driver**  
Item #: DPH-2824-S

**Contra Angle Cross Driver**  
Item #: DPX-2830-S  
30.0 mm

<sup>Ⓢ</sup>Available by special order. Additional shipping time may be required.

# Spider Pin™

## Temporary Anchorage Device System

### For Areas Where a Reduced Head Size is Required

- Simple and easy to use
- Smooth, rounded design for patient comfort
- Perfect for NiTi closed coil spring attachments
- Infrabony portion diameter is 1.3 mm at the widest point
- Ideal for narrow interproximal spaces
- Requires no patient cooperation and reduces treatment time
- Self-tapping and requires pre-drilling

## Spider Pin Starter Kit

### 1.3 mm Diameter

- 1x 0.9 mm x 10.0 mm drill
- 1x Contra angle pick-up driver - pin
- 1x Short handle driver - pin
- 1x Pick-up handle driver shaft - pin
- 1x Screw driver body
- 1x Organizer

Entire Kit Can Be Sterilized

- Autoclavable up to 273°F/134°C
- Heat Sterilizable up to 356°F/180°C
- Chemoclavable up to 297°F/132°C

**Spider Pin Starter Kit**  
Item #: CSS-3006

**1 Year Warranty on Instruments**

### Included in Starter Kit

**10.0 mm Drill - Pin**  
Item #: FSC-0910-S«  
0.9 mm x 10.0 mm

**Contra Angle Pick-Up Driver - Pin**  
Item #: DPQ-2322-S«  
20.0 mm

**Pick-Up Handle Driver Shaft - Pin**  
Item #: DSP-2352N-S«  
52.0 mm

**Short Handle Driver - Pin**  
Item #: DSQ-2324-S«

**Screw Driver Body**  
Item #: DSX-1690N-S«  
99.0 mm

# Resilience®

Orthodontic Bonding Solutions

## Light-Cure Orthodontic Adhesive

### Resilience® Light-Activated Orthodontic Bonding Systems

Provides the optimum properties for bonding ceramic, metal, or plastic brackets using light-cure technology. The smooth, tacky composite resin delivers ideal handling characteristics which eliminates bracket flotation and allows for easy flash clean up. Light activation provides additional working time to ensure accurate bracket placement. Produces a strong light cured chemical bond which also debonds easily. Archwires can be placed immediately after fully curing the brackets. Contains fluoride to help protect against potential decalcification.

**A. Light-Activated Syringe Kit**

Item #: FC-RESI-006  
 4x 3.5 gm syringes, 7 mL sealant resin, 1x 4 gm green gel etchant syringe with 5x 22 gauge syringe tips, 2x 10 cavity mixing wells, 1x 50 sheet mixing pad (1½" x 2½"), 1x brush holder with 40x ¾" brushes, and 10x 2" brushes

Orthodontic Bonding Solutions

## Light-Cure Flowable Composite

### Resilience® Low Viscosity Light-Cure Flowable Composite

Resilience Low Viscosity Light-Cure Flowable Composite adhesive features a precision controlled syringe which prevents overflow and run-on. It ensures accuracy as it flows easily into difficult areas, but is reliable not to slump or run until light curing occurs. The disposable tip provides precise application, accessibility, and control resulting in excellent aesthetics. It is dependable, strong, and more resistant to shock and stress. It can be used in many ways such as bonding lingual retainers, Invisalign® attachments, occlusal build-ups for opening a posterior bite, indirect bonding, and much more! Contains fluoride to help protect against potential decalcification.

**A. LV Flowable Composite Kit**

Item #: FC-RESI-007

# No-Mix Orthodontic Adhesive

## Resilience<sup>®</sup> Primer-Activated Orthodontic Bonding Systems

Provides the optimum properties for bonding ceramic, metal, or plastic brackets using a primer activated no-mix bonding system. This is a chemically cured system which does not require pre-mixing. The thick tacky composite resin delivers ideal handling characteristics which eliminates bracket flotation and allows for easy flash clean up. Produces a strong chemical bond which also debonds easily. Archwires can be placed 5 minutes after bonding the last bracket. Contains fluoride to help protect against potential decalcification.

### A. Primer-Activated Syringe Kit

Item #: FC-RESI-012  
4x 3.5 gm syringes, 1x 9 mL enamel catalyst primer, 1x 4 gm green gel etchant syringe with 5x 22 gauge syringe tips, 2x 10 cavity mixing wells, 1x 50 sheet mixing pad (1 1/8" x 2 1/8"), 1x brush tip holder with 40x 3/4" brushes, and 10x 2" brushes

# Light-Cure Band Cement

## Blue Shade

MADE IN THE USA

Ideal Viscosity for Posterior Molar Pads

### Low Viscosity Gel Allows for Controlled Use! Resilience® Light-Cure Band Cement

#### Light-Cure Single Component Push Syringes

A light-activated band cement in a single paste system which provides a longer working time and a rapid setting time. Can be placed directly into bands. Excess flash is easy to clean up prior to the light curing and the cement is easy to see due to the blue color. Contains fluoride to reduce the chance of decalcification.

#### Light-Cure Band Cement Kit

## Discover The GC Fuji Difference Bonds Perfectly In A Wet Field!

### GC Fuji ORTHO™ LC Bracket Adhesive

- Bond in a Wet Field
- No Etch Required
- Significant Fluoride Release and Recharge

Now you can work faster and easier; and get all the strength needed, with little chance of decalcification (white spots) and enamel damage at debonding. Fuji ORTHO LC delivers benefits that composite resins cannot claim. A continual fluoride release promotes remineralization and helps maintain the soundness of the enamel.

- Clinically proven. Fuji ORTHO LC offers significant advantages over composite bonding systems and greatly reduces chairtime.
- Fuji ORTHO LC features low sensitivity to moisture and can be used in the presence of saliva.
- Fuji ORTHO LC bonds metal and porcelain brackets and metal bands to enamel.

# Cybird<sup>XD</sup>

ADVANCED LED CURING LIGHT

## Reduce Chair Time!

### Reduce Bonding Time

The Cybird XD advanced curing light is designed particularly for the orthodontic professional in need of super-fast light curing and bonding speed to reduce chair time. It features two powerful curing modes to choose from for practice preference.

### Wide Application Range

The Cybird XD LED produces a variable wavelength range of 430-490 nm, assuring full curability of a wide range of adhesives.

### Functional Aesthetics

The ergonomically shaped curing light is well-balanced for ideal handling. Cybird XD's square body prevents roll-off at chairside tables and is shaped for a more natural grasp.

### Clever Construction

Built from industrial grade lightweight aluminum. The turbo 8 mm fiber-optic light guide and sleek body design grants superb oral access for effortless usability.

### Intuitive Keypad

Practitioners save time with simplicity: a shot button and a mode selector / timer button for various applications.

### 1 Year Limited Warranty

**(Green Indicator Light)**  
The Traditional High Power Mode (1,500 mW/cm<sup>2</sup>) allows you to polymerize light-cured adhesives at 5, 10, 15, or 20 second intervals.

**(Orange Indicator Light)**  
Easily switch to the Plasma Emulation Mode (2,700 mW/cm<sup>2</sup>) for quicker cure times of 1.5, 2, 2.5, or 3 second intervals and achieve chair time efficiencies and reduced orthodontic bonding times.

*When using the plasma emulation mode, it is recommended to use the light shields to direct light only to the appliance and enamel, and prevent any unnecessary light dispersion to the gingiva.*

# Mini-Mold™ TECHNIQUE

Light Cure Your Own Aesthetic Attachments  
**IN SECONDS!**

**Inventor**  
**Dr. Roger Wolk**  
D.D.S., M.S.

Dr. Roger Wolk is the inventor and developer of the Mini-Mold™ Technique. He has been a prominent Orthodontist in the Los Angeles area for over 30 years.

Dr. Wolk is a retired Diplomate of the American Board of Orthodontics and Member of the American Dental Association.

### 3-STEP TECHNIQUE

**STEP 1** **FILL** the selected Mini-Mold Tip with light-cure resin

**STEP 2** **PLACE** the Mini-Mold Tip on desired tooth

**STEP 3** **LIGHT-CURE** the Mini-Mold Tip for 5-20 seconds

With the Cybird XD Advanced LED Curing Light from Ortho Technology on page 118

### Mini-Mold™ Starter Kit

MADE IN THE USA

- Safe for sensitive patients
- Saves chair time and money
- Invisible aesthetic attachments
- Fast 5-20 seconds cure time

Item #: 51399  
Kit includes: 30x Mini-Mold Tips 3 of each style, 2x tip handles, and detailed step-by-step instructions

## 8 Different Mini-Mold™ Treatment Tips to Choose From

Package includes: 8x or 10x Mini-Mold Tips (same type), 1x tip handle, and detailed step-by-step instructions. Cold sterilizable and tips are autoclavable up to 275°F/135°C.

### Mini-Mold™ Posterior Molar Pad Tips

Designed to open the bite from the posterior teeth.  
Item #: 51390  
10 per pack

### Mini-Mold™ Wire Bonder Tips

Ideal for making direct bond lingual retainers.  
4.5 mm #: 51393  
3 mm #: 51397  
10 per pack,  
wire sizes up to .020"

### Mini-Mold™ Cuspid Bite-Ramp Tips

Creates a bite-opening ramp on the lingual of the upper cuspid teeth.  
5 mm #: 51398  
8 per pack

### Mini-Mold™ Button Tips

Creates a functional low profile button quickly and easily.  
Item #: 51394  
10 per pack

### Mini-Mold™ Tube Tips

Designed to create a temporary tube. Fits round wire up to .020".  
Item #: 51391  
10 per pack

### Mini-Mold™ Habit-Control Tips

The small, conical spike, ends thumb sucking and tongue thrusting.  
Item #: 51395  
10 per pack

### Mini-Mold™ Bracket Tips

Creates edgewise .022" slot brackets, ideal for minor tooth adjustments.  
Item #: 51396  
10 per pack

### Mini-Mold™ Bite-Ramp Tips

Creates a bite-opening ramp on the lingual of the upper anterior teeth.  
3 mm #: 51392  
8 per pack  
5 mm #: 51389  
8 per pack

### Fully Exposes Both Arches to Provide Maximum Access

- Direct and indirect bonding procedures
- Full field access
- Interproximal stripping
- Bite registration
- Photography
- Debonding
- Microetching

### Advantages:

- Unique intraoral extensions retract buccinator muscles
- Provides unobstructed view and superior buccal access
- Maintains accessibility during all types of procedures
- Safe for autoclave and dry heat sterilization up to 350°F/177°C

### High Heat Cheek Retractor

The easy to use, one size fits all Cheek Retractor that provides superior intraoral access. The unique buccal extensions retract powerful buccinator muscles for maximum access. Made of high quality medical grade materials that withstand repeated sterilization.

- Maximum patient comfort
- Easy tension control
- Boosts visibility to intraoral work areas
- Made in the USA

Item #: 601-190  
1x cheek retractor  
1 per pack

# Nola Dry Field System

## Achieve Total Bonding Success...

MADE IN THE USA

- Full Arch Access for Bonding
- Adjustable to Arch Length
- Maximum Patient Comfort
- Excellent Soft Tissue Retraction
- Fully Autoclavable to 280°F/135°C
- Reduces Bond Failure
- Prevents Treatment Delays

The Nola Dry Field System completely eliminates saliva and fully exposes both arches making it ideal for all bonding applications.

The system is easy to assemble, be inserted, and used by a single operator. The entire system is completely autoclavable making clean-up easy.

### Dry Field Systems

- Small (Red) ..... 300-400
- Large (White) ..... 300-401

*System Includes: 1x cheek retractor, 1x flexible connector, 1x tongue guard, 2x bilateral suction tubes, 1x central suction "Y" connector with low-volume adapter*

### Dry Field System Separate Components

#### A Cheek Retractor

- Assembly with flexible connector*
- Small (Red) ..... 300-414
  - Large (White) ..... 300-406
- 1 per pack

#### Adjustable Cheek Retractor

Keeps the cheeks back and fully exposes both dental arches

#### B Tongue Guards

- Small (Red) ..... 300-413
  - Large (Translucent) ... 300-403
- 2 per pack

#### Tongue Guard

Holds the tongue in place and allows the patient to continue swallowing

#### C Bilateral Suction Tubes

- Silicone Tubing*
- Item #: 300-412
- 10 per pack

#### Bilateral Silicone Tubing

Precisely directs saliva flow and ensures unrestricted evacuation for a totally dry environment

#### D "Y" Connectors

- Item #: 300-408
- 4 per pack

#### Central Suction

"Y" connector adapter (low-volume and high volume also available)

#### E Low-Volume Adapters

- Item #: 300-409
- 4x Adapters and 4x "Y" connectors

#### G Connecting Arm Inserts

*Used for connecting Tongue Guards to Cheek Retractor.*

Item #: 300-402

10 per pack

#### F High-Volume Adapters

- Item #: 300-411
- 4x Adapters and 4x "Y" connectors

**Metal Reinforced Horizontal Crossbar**

**Durable Screws Throughout**

**Chin Cup with Ergonomic Streamlined Design, Free-Flow Air Vents and Full Range of Motion Option**

**Small Light-Weight End Caps**

# Multi-Adjustable Facemask<sup>®</sup>

## Discover The Ideal Choice to Achieve Maximum Class III Compliance

- Free-flow air vents
- Full range of motion option
- Maximum patient comfort
- Fully adjustable
- Light-weight
- Screws designed for increased durability

**MADE IN THE USA**

## Exclusive Patient Comfort Design

### Quick and Easy Fit

1. Position bend in vertical bar over nose
2. Center forehead rest on forehead and lock in position
3. Center chin cup on chin and lock in position
4. Place crossbar approximately 2.0 mm below the upper lip and lock in position

## KEY FEATURES

### Free-Flow Air Vent

Forehead rest design features dual air vents for maximum comfort and air circulation.

### Free-Flow Air Vent

Chin cup design features air vents for maximum comfort and air circulation.

### Motion Option

Sliding design allows for a dynamic range of motion without side-to-side rotation.

Spray Needed!**

**No Adhesive Needed**

Using DuraLock PLUS trays save time. By eliminating the extra steps of coating the tray with adhesive and waiting for it to dry, the impression process is simplified and accelerated.

**Largest Variety of Tray Sizes**

DuraLock PLUS trays eliminate inadequate coverage and/or tissue impingement and ensure an accurate fit every time by offering more size choices than competing trays.

**Stability and Durability**

The reliable strength and stability of DuraLock PLUS trays eliminate impression distortion and/or impression materials pulling away from the tray sides.

## Fast Setting PVS Impression Material

*Perfect for Clear Aligners*

### EXAFAST™ NDS Monophase

- Single phase technique with one viscosity
- Easy to syringe with enough compression to obtain accurate impressions

**Monophase Material**  
Item #: 137407  
2x 48 mL cartridges (96 mL total)  
6x mixing tips and instructions

#### Cartridge Dispenser

- For all NDS impression material  
Item #: 152101«  
1x per pack  
(Shown on page 138)

**Mixing Tips**  
Type 2LL - Purple  
Item #: 153048«  
48 per pack, mono/heavy body

### EXAFAST™ NDS Regular Wash

- Slightly thicker wash material used with double phase impressions
- Syringeable wash that is a little more thixotropic and less runny than injection material
- Stays in place until pressure is applied to capture critical detail

**Mixing Tips Type 2L - Aqua**  
Item #: 153248«  
48 per pack, regular material

**Regular Wash Material**  
Item #: 137007  
2x 48 mL cartridges (96 mL total)  
6x mixing tips and instructions

**Intraoral Tips - For Wash Material**  
Item #: 150100  
100 per pack, intraoral material

### EXAFAST™ NDS Heavy Body

- Non-slumping, high compression tray material used with double phase impressions
- Stabilizes the tray and prevents distortion
- Pushes the wash material into the gingival margins for accuracy

**Heavy Body Material**  
Item #: 137207  
2x 48 mL cartridges (96 mL total)  
6x mixing tips and instructions

**Mixing Tips**  
Type 2LL - Purple  
Item #: 153048«  
48 per pack, mono/heavy body

### EXAFAST™ NDS Injection Wash

- Syringeable wash material for double phase impressions
- Thinner wash that is a less thixotropic and more flowable
- Stays in place as pressure is applied to capture critical detail

**Mixing Tips Type 2S - Pink**  
Item #: 153148«  
48 per pack, injection material

**Injection Type Material**  
Item #: 137107  
2x 48 mL cartridges (96 mL total)

\*Available by special order. Additional shipping time may be required.

## Easy to Mix & Use

**1:1 Base and Catalyst Ratio**

**Hand Mix and Place in  
Impression Tray**

### Putty Standard Pack

Item #: 137307  
1x jar putty base (287 mL), 1x jar  
putty catalyst (287 mL), 2x scoops and  
instructions

## EXAFAST™ Putty

EXAFAST Putty is a vinyl polysiloxane material, consisting of a base and a catalyst that are easy to manipulate for accurate, void-free impressions. EXAFAST Putty produces crisp, extraordinarily smooth, precise impressions and can be used with either regular or injection wash material.

- The highest compression tray material used with double phase impressions
- Extremely smooth and easy to hand mix. Avoid contact with latex, oils and moisture when mixing
- Sets after only 2¼ minutes in the mouth
- 45 second working time

## wonderfill™

the EZ in, EZ out  
tongue filler

MADE IN THE USA

1

Remove a palm full of non-toxic Wonderfill and form a domed bridge in the tongue area.

2

With Wonderfill in the tongue area, pour plaster/stone.

3

Let plaster/stone fully set. Then pop out non-sticky Wonderfill for a clean model, using only water & brush to remove any residue.

**Wonderfill™ Tongue Filler**  
Item #: 30200  
2.5 lbs (40 oz) per canister,  
1 per pack

ground shipment recommended when ordering by the case

### Saves Time!

Produces a sleeker, more presentation-worthy model!

**PLASTER/STONE** Residue when no tongue filler used

- Tedious, time consuming grinding out of build up
- Messy
- Coarse model appearance

Up to  
**20 minutes**  
**Faster!**

**ALGINATE** As the tongue filler

- Mixing
- Messy
- Hard to form
- Set-up and clean-up time required
- Often needs carve-out of residue

## BIG ADVANTAGES! SMALL FOOTPRINT!

Everything You Need in a Vacuum Forming Machine

### Essix® SelectVac™ Vacuum Forming Machine

The Essix® SelectVac™ is an improvement to standard vacuum forming machines in almost every aspect. It's lighter, has a smaller footprint, and has up to 50% more vacuum power than standard units. This unit saves time and is safer thanks to no pre-heating, an auto-vacuum start that turns on only when you need it which means no unnecessary noise, an auto-off two-sided heating system with rotating plate support, and a digital timer. The carbon fiber heating element evenly distributes heat for a more precise finished product, and the model cup and beads allow for embedding tall or untrimmed models.

- Vacuum power: 6 (inches Hg)
- No pre-heat required
- Automatic vacuum start & auto-off heating system
- Rotating plate for two-sided heating dual laminates or thicker materials
- Accepts round or square plastics
- Includes glass beads for adjusting model height
- 1 year warranty

#### Vacuum Machine

US/Domestic/110VAC..ESVM01  
11½"H x 9"D x 7"W, (9.2 lbs)  
Includes: 1x cast rack (plane/cup),  
glass beads, 1x power cord, 1x 4  
mm Allen wrench and user manual

#### Replacement Glass Beads

Item #: AGRA0067  
8.82 oz (250 gm)

#### Rotating Heating Head

Rotates 180° for ready access to models, the model cup and retainer materials

#### Rotating Material Tray

Rotates 180° for heating dual laminates and thicker mouthguard materials

#### Reversible Cast Rack (Plane or Cup) for Versatility

Accommodate taller models or use the included beads for working with untrimmed models

#### Glass Beads

Reduce excess trimming and allow easier release of models – great for use with untrimmed or taller models

#### Carbon Fiber Heating Element

Even heat distribution and no pre-heating required

## Clear Advantage™ Series I Clear Retainer Material

### Thermal Forming Splint/Copolyester

Clear Advantage Series I is brilliantly clear and offers excellent conformity to the model for an exact fit. The material is durable and bonds with acrylic for creating modified appliances. Forms clear for a true "invisible" retainer. Sheets are sealed with a protective peel away film on both sides.

.020" (0.5 mm) ..... 7500-100  
.030" (0.7 mm) ..... 7500-105

Clear Advantage Series I is a Moisture-Sensitive Product - Vacuum sealed to maintain product integrity.

## Clear Advantage™ Series II Durable Retainer Material

### Thermal Forming Coping/Polypropylene

Clear Advantage Series II is our most durable material and it will not shrink, crack or break. This material is slightly opaque in its transparency and offers excellent formability, flexibility and long term wear characteristics. The increased strength of this material is ideal for making retainers for bruxism patients. Not bondable with acrylic.

Help Prevent Anterior Teeth From Flaring!

TruForce™  
Stainless Steel  
Flat Bow Preformed  
Retainer Wire

- Greater stability and axial control of anteriors
- Allows for detailed contouring of wire to the labial surfaces
- Maximum tooth control not available with round wire
- Improves retainer aesthetics
- Made in the USA

TruForce Flat Bows from Ortho Technology are a single retainer wire with two distinct shapes, rectangular over the anterior teeth and round in the posterior segments. The flat rectangular segment helps prevent anterior teeth from flaring and prevents the labial bow from sliding toward the gingiva, while the round posterior wire anchors the appliance. The preformed cuspid loops come in eight sizes and are a great time saver for the lab.

13.0 mm..... 019-2000-13

Package Includes: 1x expander, 1x swivel endoral key & activation key

## Exspider Symmetrical Expander

A posterior articulation joint features expansion arms oriented onwards to get an arc of a circle basal expansion. The use of such expander is indicated when anterior transversal deficiencies on the maxillary arch occur, while the posterior diameter is correct.

- Delivers symmetric forces
- Laser engraved numbering
- Laser welded arms

9.0 mm..... A019-2001  
Package Includes: 1x expander, 1x swivel endoral key & activation key  
Body: 3/4" x 5/16", arm: 1/8"

## Super Lingual Half-Screw Expander

The Half-Screw may be fabricated on the lingual surface of either the maxillary or mandibular arch for expansion and distalization. The overall width has been reduced resulting in an improved fit, allowing for a more comfortable appliance in the patient's mouth.

- The perfect solution for fixed mandibular expansion
- Use for individual quadrant expansion or molar distalization
- Compact fit for comfortable lingual expansion

Item #: A0623-08  
Package Includes: 1x expander, 1x swivel endoral key & activation key

# TruEase™ Rapid Palatal Expanders

- **Safe** - Anti-unscrewing system with “click” upon turn indication.
- **Easy to Use** - Laser marked graduate scale for easier view of opening. Wide chamfer for easy patient insertion of opening tool.
- **Stable** - Two telescopic components of body always overlap for maximum stability and torsional rigidity. High resistance to breakage.
- **Compact Design** - Increased patient comfort.
- **Hygiene** - Housing designed with no blind areas for optimal oral hygiene.

**Individual Sizes**

## Interproximal Reduction

### IPR Gauge Set

Use during interproximal reduction to measure and check space.

- Six Gauges Included: .10 mm, .20 mm, .25 mm, .30 mm, .40 mm, & .50 mm
- Stainless steel

Item#: IPR-GAUGE  
Autoclavable up to 248°F/120°C  
1 per pack

### Diamond Disc Safety Guards

#### Clear Safety Guard

- Disposable
- For complete visibility
- Fits discs up to 22.0 mm
- Use with doriot style handpieces

Item #: 88615  
15 per pack

#### Metal Safety Guard

- Use with doriot style handpieces
- |              |       |
|--------------|-------|
| 19.0 mm..... | 88611 |
| 22.0 mm..... | 88612 |
- Autoclavable up to 275°F/135°C  
1 per pack

Burs & Discs

### Interproximal Diamond Strips

#### Perforated, Flexible

Perforated Diamond Strips are designed for complete control during interproximal stripping, shaping, and contouring. Strips allow easy access and precise manual enamel reduction resulting in a smooth, natural finish. Perforated design provides improved visibility, total control, and more flexibility than solid lightning strips. Strips are color coded; yellow for extra fine, red for fine, and blue for medium.

- Single sided and color coded
- Stainless steel with diamond coating
- Uncoated center gateway segment
- 2 widths: 2.5 mm and 3.75 mm
- 3 grits: extra fine (15 micron) fine (30 micron) medium (45 micron)
- Thickness: extra fine (.08 mm) fine (0.10 mm) medium (0.12 mm)
- Length: 147.0 mm

#### Interproximal Strips Narrow

- Yellow, Extra Fine. 88603
- Red, Fine ..... 88602
- Blue, Medium ..... 88601

Strip width 2.5 mm, 10 per pack

#### Interproximal Strips Wide

- Yellow, Extra Fine. 88503
- Red, Fine ..... 88502
- Blue, Medium ..... 88501

Strip width 3.75 mm, 10 per pack

Autoclavable up to 270°F/132°C

#### Interproximal Kits

- Narrow - 2.5 mm ..... 88600
- Wide - 3.75 mm ..... 88500
- 3x extra fine, 3x fine, 3x medium

### Protects Your Patients' Lips During Interproximal Stripping

### Lip Ring Retractor

#### Great for Adults and Children During Bonding

- Sized for adults and children
- Made of a high quality medical grade plastic
- Works great for bonding and intraoral photography

Item #: 54683  
2 per pack, Cold sterilizable

# Debonding

## Debonding Carbide Burs

- Ideal shapes for finishing all facial and lingual surfaces
- Specifically designed with orthodontic debonding and finishing in mind
- Controlled debonding without nicking, scratching or abrading the enamel
- Corrosion resistant finish
- Smooth, friction grip shank

### Available in Slow & High Speed

**18 Fluted Small**  
Item #: H118S-21 (Slow Speed)  
Item #: H118S (High Speed)  
5.7 mm head length

**18 Fluted Long**  
Item #: H118L-21 (Slow Speed)  
Item #: H118L (High Speed)  
8.3 mm head length

**18 Fluted Tapered**  
Item #: H218-21 (Slow Speed)  
Item #: H218 (High Speed)  
7.3 mm head length

**Slow Speed Latch Shank**  
5 per pack

**High Speed Friction Grip Shank**  
5 per pack

Dry heat sterilizable up to 340°F/170°C or autoclavable up to 250°F/121°C

**12 Fluted Long Taper**  
Item #: H375R-21-016 (Slow Speed)  
Item #: H375R-31-016 (High Speed)  
8.0 mm head length

**12 Fluted Long Flame**  
Item #: H48L-21-012 (Slow Speed)  
Item #: H48L-31-012 (High Speed)  
8.0 mm head length

**12 Fluted Football**  
Item #: H379-21-023 (Slow Speed)  
Item #: H379-31-023 (High Speed)  
4.4 mm head length

**Slow Speed Latch Shank**  
5 per pack

**High Speed Friction Grip Shank**  
5 per pack

Dry heat sterilizable up to 340°F/170°C or autoclavable up to 250°F/121°C

- Designed for controlled removal of bulk bonding adhesive after brackets are debonded
  - Ideal for posterior debonding
- 10 Fluted Finishing Carbide**  
Item #: H134-21-014 (Slow Speed)  
Item #: H134-31-014 (High Speed)  
5.9 mm head length

**Slow Speed Latch Shank**  
5 per pack

**High Speed Friction Grip Shank**  
5 per pack

Dry heat sterilizable up to 340°F/170°C or autoclavable up to 250°F/121°C

## Debonding Bur - 7901

**12 Fluted Needle, 7901**  
Item #: 7901OT  
4.0 mm head length  
High Speed, 5 per pack

- Needle shaped trimming & finishing bur
- 12 fluted

Dry heat sterilizable up to 340°F/170°C or Autoclavable up to 250°F/121°C

## Finishing Diamond Burs

- Ideal for finishing and reshaping teeth during and after orthodontic treatment
- Ideal for equilibration and adjustment of occlusal surfaces of teeth during and after orthodontic treatment

**Extra Fine Grit Long**  
(Yellow Color ID)  
Item #: 135EF-31-014

**Extra Fine Grit Football**  
(Yellow Color ID)  
Item #: 379EF-31-023

**Fine Grit Long**  
(Red Color ID)  
Item #: 135F-31-014  
High speed, 5 per pack

**Fine Grit Football**  
(Red Color ID)  
Item #: 379F-31-023  
Dry heat sterilizable up to 340°F/170°C or Autoclavable up to 250°F/121°C

Item #: DB-KIT  
Dry heat sterilizable up to 340°F/170°C or Autoclavable up to 250°F/121°C

## Debonding Burs Intro Kit

Includes: 2x 12 fluted long taper, 2x 12 fluted long flame, 2x 12 fluted football, 2x high shine enamel polisher (W16F) and bur block

Item #: PREM-DB-KIT  
Dry heat sterilizable up to 340°F/170°C or Autoclavable up to 250°F/121°C

## Premium Debonding Kit

Includes: 2x 10 fluted finishing carbide, 2x 18 fluted small, 2x 18 fluted long, 2x 18 fluted tapered, 2x finishing extra fine grit long, 2x finishing fine grit long, 2x fine grit football, 2x extra fine grit football, 2x high shine enamel polisher (W16F), and bur block

### Acrylic Polishers

- Ideal for finishing & polishing of acrylic appliances
- Made of a resilient silicone

#### Assorted Pack

Item #: GLOSS-ASST  
Includes: 2x coarse, 2x medium,  
2x fine, 6 per pack

Coarse Grit ..... G634  
Medium Grit..... G635  
Fine Grit..... G636  
Max. RPM 10,000, 24.0 mm head  
length, 6 per pack

Dry heat sterilizable up to 340°F/170°C or autoclavable up to 250°F/121°C

### Polishing Wheels

- Pre-mounted on a mandrel for perfect balance
- Ideal for a smooth finish of vacuum formed plastics and metal appliances

Coarse ..... 1670016  
Medium ..... 1670092  
Fine ..... 1670091  
12 per pack

# Laboratory Cutters & Burs

## Vacuum Form Cutter Spiral Flute

- Ideal for acrylic vacuum form plastic and metal cutting

Item #: H219S-11-023  
Low speed, 16.0 mm head length  
1 per pack

Dry heat sterilizable up to 340°F/170°C or autoclavable up to 250°F/121°C

## Terminator Metal Cutter

- Designed to smoothly cut through metal
- Eliminates bounce and vibration
- Perfect for Herbst or crown removal

Item #: T-2  
High speed, 4.0 mm head length,  
5 per pack

Dry heat sterilizable up to 340°F/170°C or autoclavable up to 250°F/121°C

## Cutting Wheel

### Quickly Cut Away Plastic from Model!

- High quality steel
- One piece tool

Item #: 88800  
1 per pack  
Max RPM 10,000, diameter 10.0 mm,  
Dry heat sterilizable up to 370°F/188°C

## Lab Burs Intro Kit

Includes: 1x large egg shape, 1x medium taper, 1x large pointed taper, 1x vacuum form cutter spiral flute and bur block

Item #: LAB-KIT  
1 per pack  
Dry heat sterilizable up to 340°F/170°C or autoclavable up to 250°F/121°C

## Laboratory Carbide Burs

- Extremely precise tooth geometry provides our straight handpiece cutters excellent cutting efficiency of all acrylics while leaving a very smooth finish
- 3/32" shank for use with low speed handpieces
- Speed and pressure sensitive - you determine how much and how fast
- Coated with super hard gold Titanium Nitride to greatly extend the life of the bur

**Medium Taper**  
Item #: 79E-11-040  
Low speed, 1 per pack  
13.0 mm head length

**Large Pointed Taper**  
Item #: 257RE-11-060  
Low speed, 1 per pack  
14.0 mm head length

**Large Egg Shape**  
Item #: 251EF-11-060  
Low speed, 1 per pack  
14.0 mm head length

Dry heat sterilizable up to 340°F/170°C or autoclavable up to 250°F/121°C

## Bur Blocks

**Lab Burs**  
▪ Holds 14 burs  
Item #: BB-100  
1 per pack

**High Speed Burs**  
▪ Holds 27 burs  
Item #: BB-200  
1 per pack

Dry heat sterilizable up to 340°F/170°C or autoclavable up to 250°F/121°C

# MiniStripper™

Compact Interproximal Stripping System

## Safety & Control

### at Your Fingertips

#### Designed by an Orthodontist

- Small size provides control and stability in tight spaces
- Compact size is safer to use than other interproximal stripping devices
- Variety of strip sizes for every interproximal stripping need
- Easy to use – different strips can be switched out in seconds
- Strips are available as single-sided or double-sided providing precise stripping of intra-arch space
- All kit components are autoclavable up to 275°F/135°C
- Stainless steel construction

Actual Size

Featured in the  
World Journal  
of Orthodontics

#### MiniStripper Kit

Item #: 54301

1x MiniStripper Handle, 4x 6.0 mm single-sided stainless steel strips, 4x 4.0 mm single-sided stainless steel strips, 2x 6.0 mm single-sided diamond strips, and 2x 6.0 mm micro saw strips

#### MiniStripper Handle

Item #: 54308

Autoclavable up to 275°F/135°C  
1 per pack

#### 6.0 mm Single-Sided Stainless Steel Strips

Item #: 54304

10 per pack, strip thickness is 0.10 mm

#### 4.0 mm Single-Sided Stainless Steel Strips

Item #: 54305

10 per pack, strip thickness is 0.10 mm

#### 6.0 mm Single-Sided Diamond Strips

Item #: 54306

5 per pack, strip thickness is 0.15 mm

#### 6.0 mm Double-Sided Stainless Steel Strips

Item #: 54309

10 per pack, strip thickness is 0.16 mm

#### 4.0 mm Double-Sided Stainless Steel Strips

Item #: 54310

10 per pack, strip thickness is 0.14 mm

#### 6.0 mm Micro Saw Strips

Item #: 54307

5 per pack

# QWIKSTRIP™

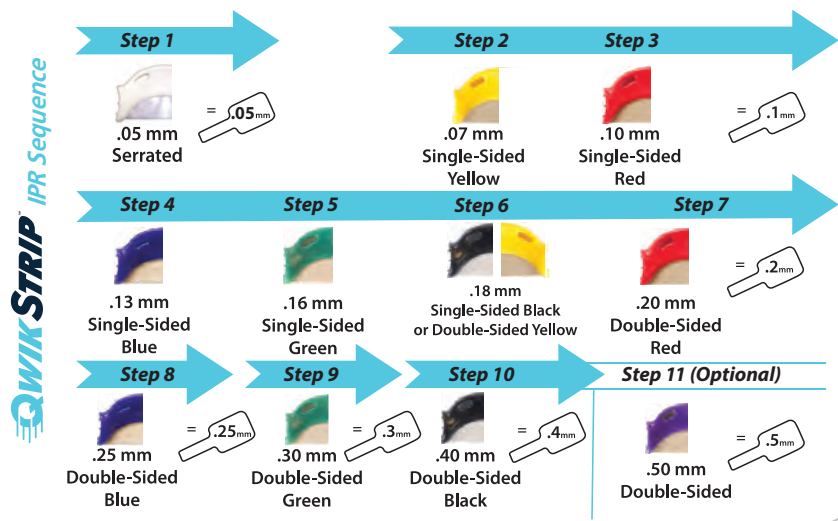

## Making IPR Procedures Easier and Safer to Perform

The industry leading QwikStrips are an interproximal solution for removing cement from in between teeth and also for creating the precise spacing needed for minor tooth movement (IPR).

- Unique Grip
- Single Handed Use
- Better Tactile Control
- Depth Limiting Design
- Greater Safety for Both the Patient and the Doctor
- Single-Sided, Double-Sided, Curved and Serrated

In order to create precise interproximal spaces for any Orthodontic procedure including Invisalign™, Clear Correct™, Six Month Smiles™, MTM™ or any minor tooth movement needed, use QwikStrip™ color coded abrasive strips according to the sequence outlined. The reduction process (IPR) should begin with the white serrated strip (not pictured) to break the contact, followed by the yellow single-sided strip (.07 mm), and continue in sequence until the desired space is achieved. Check the reduction with an approved measurement guide before moving to the next strip (grit) in the sequence.

**Note:** Use all versions of QwikStrips (single-sided, double-sided, and curved) in any area of the mouth. In order to achieve optimal results and for maintaining the proper anatomical contour for posterior teeth, finish any IPR procedure by using the curved QwikStrips.

## INTRODUCTORY KITS!

### QwikStrip™ Serrated and Abrasive Strips

**QwikStrip Single-Sided**  
Assorted ..... QS-ASST  
2x each size, .07 mm, .10 mm, .13 mm, .16 mm, .18 mm, 10 per pack

*Helps to Break the Habit!*

# Tongue Tamers®

Item #: 034-001  
10 per pack

- Eliminates detrimental forces
- Discourages over-active muscle activity
- Bonds to upper or lower arches
- 80 gauge foil mesh bonding base
- High quality 17-4 stainless steel
- Curved base perfect for lingual placement

Simple and Immediate Bite Opening

# Bite-Builder®

orthodontic bite opener

Item #: OT-2350  
10 per pack

- Opens deep bites with immediate results
- Bonds lingually to upper anteriors
- Eliminates occlusal interference
- Comfortable for the patient
- Composite material will not wear enamel
- Reduces bond failure on lower brackets
- Curved base perfect for lingual placement
- Made in the USA

## Premium Eruption Appliances

Facilitate the Eruption of Impacted Teeth

WITH SOLID 14K GOLD TRACTION CHAINS

A.

B.

C.

D.

**Made with Premium Grade Materials**  
16 gauge 14K gold or surgical steel chain with reduced or low nickel content

**Guaranteed**

Our strong and durable chain will not break and can be left in the mouth for extended periods of time without discoloring, deterioration, or loss of integrity

**Versatile**

Eyelet selection for profile and base options for individual case treatment with round shaped lumen (chain links) easily accommodates up to a .030" elastic thread

**Comfortable**

1" long chain is slender, smooth, light-weight for added patient comfort

**Made in the USA**

**Eruption Appliance with 14K Gold Chain**

For use with up to .030" Solid Elastic Thread

A. Round Mesh Eyelet Base ..... G19634

B. Round Button Swivel Base ..... G19635

C. Square LP Eyelet Base ..... G19636

3 per pack

**Eruption Appliance with Surgical Steel Chain**

For use with up to .030" Solid Elastic Thread

D. Round Mesh Button Swivel Base...S19634

3 per pack

**TRY OUR...**

**Eruption Appliance Curved Eyelet & Angled Button Tweezers**

- Specialized reverse action tweezers designed to fit and hold low profile eyelet and button style eruption appliance pads

See page 189

## Eruption Appliances with 24K Gold Plated Eyelet and Traction Chain

Square Base

Round Base

Bondable to cuspids impacted palatally or labially. The 1" traction chain swings freely within the eyelet. The small .016" diameter and large .022" diameter chain links can be cut easily to achieve the desired length.

**Made in the USA**

**Eruption Appliance with Small Traction Chain**

For use with .020" Solid Elastic Thread

Round Base/Sm. Chain ..... G19644

Rectangle Base/Sm. Chain ..... G19645

Autoclavable up to 275°F/135°C

5 per pack

**Eruption Appliance with Large Traction Chain**

For use with .020", .025", and .030" Solid Elastic Thread

Round Base/Lg. Chain ..... G19650

Rectangle Base/Lg. Chain ..... G19651

Autoclavable up to 275°F/135°C

5 per pack

## Eruption Appliance Typodont

Features eruption appliances on the exposed palatal and labial upper cuspids. Both the round base and rectangular base (small chain) eruption appliances are used. This typodont also features stainless steel brackets in Ortho Technology's version of the Roth Rx.

**Eruption Appliance Typodont**

Item #: G50-205EA

1 per pack

## Two Great Retainer Wire Options

### Braided Retainer Wire

**Perfect for Permanent Fixed Lingual Retainers Does Not Unwind When Cut**

Used to make permanent fixed lingual retainers following orthodontic treatment, the Braided Retainer Wire features a very thin, rectangular wire that can be adapted with no occlusal interference while ensuring patient comfort. It prevents inadvertent tooth movement associated with active force wires. This three strand, stainless steel, braided retainer wire is annealed or "dead soft" so that it can be easily formed and holds bends to make bondable lingual retainers.

Can be used as semi-permanent orthodontic splinting of the upper or lower incisors and to maintain difficult extraction sites.

- Made in the USA

Item #: 68292  
.010" depth x .028" width x 6.0" lengths, 10 per pack

### Flat Titanium Dead-Soft Lingual Wire

**Offers easy formability, and ideal for retaining final torque positions**

Used for fixed lingual retainers, this wire features increased interproximal strength for semi-permanent splinting and maintaining difficult extraction sites on upper or lower arches. Titanium wire offers reduced wear rates and is nickel-free, eliminating potential patient allergy issues. The "dead-soft" wire can be easily formed, and its flat dimensions are ideal for retaining final torque positions.

- Made in the USA

Item #: 68293  
.010" depth x .028" width x 6.0" lengths 10 per pack

## Bondable Lingual Retainers

### Size Measurement

Size selection is determined by millimeter measurement from center of one tooth to the next.

- Anatomical form and offset pads
- Foil mesh bonding pads
- Heat treatable wire
- Made in the USA

# INfALAB

Powerful Brace Relief  
in a Compact Kit!

## Brace Relief™ Pocket Kit

- Mirrored refillable case for on-the-go application
- All the tools to treat and prevent mouth sores
- Dramatically reduces patient complaints and emergency discomfort visits

Item #: 7900  
36 per pack, each kit contains  
4x silicone rods and 1x tube of gel

## PATIENT CARE

### DID YOU KNOW...

Brace Relief™ Gel is an excellent pain relieving lubricant for when placing elastomeric separators and nickel titanium separating springs.

Brace Relief™ Gel also numbs the periodontal ligament to provide your patients with more comfortable treatment when placing appliances!

**Great For Use  
With Separators  
and Aligners!**

## Brace Relief™ Gel

- Refill the pocket kit, place into hygiene kits or give out individually
- Apply to tissue at the first sign of irritation and as needed throughout treatment
- Made with 9% benzocaine, natural myrrh, natural mint flavor and healing oils
- Antiseptic and soothing

Item #: 7903  
144x 3 gm tubes per box

## Brace Gard Mini Pak

- Convenient mirrored case
- Medical grade silicone will not crumble or deteriorate
- Reusable without leaving residue
- Will not melt or become brittle
- Cover one bracket or an entire arch

Item #: 7906  
80 per pack, each kit contains  
12x individual silicone squares

## Brace Gard Silicone

- Refill the pocket kit, place into hygiene kits or give out individually
- Thick, pliable and transparent
- Medical grade silicone will not crumble or deteriorate
- Reusable without leaving residue
- Not temperature sensitive like wax

Item #: 7908  
200x 2 rod packs per box

Patient Care

# Making Remineralization Better

## Delivers Complex Supercharged Calcium and Phosphate Ions

# MI Paste™ & MI Paste Plus™

MI Paste and MI Paste Plus with fluoride contain RECALDENT™ (CPP-ACP) and are preventive options used to correct the mineral imbalance by delivering a complex of supercharged calcium and phosphate ions to the enamel to form calcium phosphate crystals and help remineralize the teeth. MI Paste and MI Paste Plus with fluoride helps reverse the effects of decalcification. Apply topically 1-2 times per day for 3-5 minutes.

Patient Care

### Mint Flavor

Item #: 003679  
10x tubes of MI Paste (40 gm each) per case, mint flavor

## MI Paste™

- Replaces lost minerals
- Protects teeth from decay and decalcification
- Strengthens tooth enamel
- Reduces sensitivity
- Buffers plaque acid
- Water based and sugar free

### Assorted Flavors

Item #: 002265  
10x tubes of MI Paste (40 gm each) per case, two tubes of each flavor (melon, mint, strawberry, tutti frutti and vanilla)

## MI Paste Plus™

- Allows for better mineral infusion of calcium, phosphate & fluoride
- Contains 900 ppm fluoride ions (0.2% sodium fluoride)
- Superior to fluoride alone
- Increases fluoride uptake into plaque and subsurface enamel
- Depresses demineralization

### Vanilla Flavor

Item #: 002888  
10x tubes of MI Paste Plus (40 gm each) per case, vanilla flavor

### Mint Flavor

Item #: 002621  
10x tubes of MI Paste Plus (40 gm each) per case, mint flavor

### Assorted Flavors

Item #: 002614  
10x tubes of MI Paste Plus (40 gm each) per case, two tubes of each flavor (melon, mint, strawberry, tutti frutti and vanilla)

# Comfort Cover™

"The Ideal Alternative to Relief Wax"

**Snaps Easier Into Place and Stays More Secure Than Competing Brands**

## Fits Aesthetic and Metal Brackets

Ortho Technology's Comfort Cover shields the patient's lips and cheeks from the discomfort often associated with orthodontic treatment or activities where the risk of oral laceration could occur, such as playing musical instruments or light contact sports where mouthguards are excessive.

## Comfort Cover™

### Individually packaged

- Packaged for professional presentation to your patients
- Convenience makes living with braces easier every day. Each patient set of Comfort Covers protects both the upper and the lower arch and is made from non-latex material\*
- Great for carrying in book bags, handbags, or gym bags
- Made in the USA

Item #: 98165  
5 patient sets per pack

© 2018 Ortho Technology, Inc. Comfort Cover is a trademark of Ortho Technology. U.S. Patent Number D510439. \*Not made from natural rubber latex.

Cartridge with 30x disposable tips

# PLAQUE HD™

1<sup>st</sup> Professional  
Plaque-Identifying Toothpaste

**Perfect for Patients with Hygiene Concerns!**

**TARGETOL™**  
TECHNOLOGY

See the  
**PLAQUE**  
You Missed!

TARGETOL TECHNOLOGY contains disclosing agents to color and identify plaque build-up on teeth. This allows the patient to target any areas of plaque build-up that may have been missed during brushing to completely remove plaque from teeth.

### STEP-BY-STEP INSTRUCTIONS

1. Place a pea-sized amount of toothpaste on your toothbrush.
2. Brush normally.
3. Spit out extra toothpaste but do not rinse.
4. Look in mirror and identify green plaque build up.
5. Without adding more toothpaste, brush away green spots.
6. Once all plaque is removed, rinse out mouth completely with water.

#### Plaque HD Toothpaste

Mint.....ORT116M  
Berry Bubble Gum.....ORT116B  
12 tubes per case (116 gm each)

Starter Card.....PM-1550-US-01

\*\*Not made from natural rubber latex.

## Retainer Retrievers

### Directions for Use

1. Grasp the Retainer Retriever by the end with the hole in it.
2. Insert the hooked end of the Retainer Retriever into the mouth.
3. Using the hook, gently grasp an edge of the retainer or aligner near the front of the mouth and pull away from the arch.
4. If resistance is felt, it may be necessary to repeat step 3 in several locations along the arch. Do not use excessive force to try and remove the retainer or aligner.

## X7 Orthodontic Instruments Premium Cutters and Pliers

- Precision Manufactured in the USA with USA and/or German Stainless Steel
- Hand-Crafted Through 80% of the Process
- High Quality 400 Series Surgical Stainless Steel Material Blend
- Stringent Quality Control for Consistent Performance and Reliability
- Handle Designed for Optimal Fit and Comfort
- Contoured Corners Around the Joint Area for a Slim-Line Look and Feel
- Shadow Satin Surfacing to Minimize Glare and Provide a Long-Lasting Finish
- Lifetime Warranty Against Materials Defects and Craftsmanship\*\*  
Sharpening cutters and/or repairing minor tip damage is not covered by warranty as this is considered to be routine maintenance for normal use.

1 per pack  
Steam Sterilize for at least 4 Minutes at 270°F/132°C or 30 Minutes at 250°F/121°C

\*Multi Use Cutter Item #: 400-106 \*\*For full warranty and instructions for care information visit [www.orthotechnology.com/x7](http://www.orthotechnology.com/x7)

### Distal End Cutter Item #: 400-100

Designed to cut all types of wires up to .021" x .025" (.53 mm x .64 mm). The head safely holds the cut portion of wire to be discarded.

### Distal End Cutter with Long Handle Item #: 400-101

Extra long handles designed for additional user comfort. Cuts all types of wires up to .021" x .025" (.53 mm x .64 mm) and safely holds the cut portion to be discarded.

### Flush Cut Distal End Cutter Item #: 400-103

Designed to cut and hold archwire distally flush to the buccal tube or bracket while reducing debondings. It is designed for all types of wire up to a maximum of .019" x .025" (.48 mm x .64 mm). This cutter comes with 1 silicone insert already loaded in the working end and two extras included in the package. Replacement silicone inserts can be re-ordered as needed.

### Micro Cutter Item #: 400-099

The tapered tips are designed to cut soft wire pins and ligature wires up to .012" (.30 mm). The slim, short curved tips allow for access into difficult areas with 15° offset tips. Cutting edge length 0.39" (9.87 mm).

### Micro Mini Pin & Ligature Cutter, 15° Angled Item #: 400-108

Designed to cut soft wire pins and ligature wires up to .012" (.30 mm). The 15° offset tip with ultra slim profile is a plus in the most difficult to access areas. Cutting edge length 0.54" (13.72 mm).

### Micro Mini Pin & Ligature Cutter Item #: 400-104

Designed to cut soft wire pins and ligature wires up to .012" (.30 mm). The ultra slim profile, pointed and tapered tips allow access in the most difficult areas. Cutting edge length 0.50" (12.67 mm).

### Multi-Use Cutter Item #: 400-106

Designed to cut soft wire pins and ligature wires up to .015" (.38 mm). Cutting edge length 0.50" (12.67 mm).

### Mini Pin & Ligature Cutter Item #: 400-105

Designed to cut soft wire pins and ligature wires up to .012" (.30 mm). The slim profile is a plus in difficult to access areas. Cutting edge length 0.50" (12.67 mm).

### Hard Wire Cutter Item #: 400-107

Designed to cut hard wires up to .021" x .025" (.53 mm x .64 mm). Cutting edge length 0.46" (11.70 mm).

### Long Tapered Bird Beak Plier Item #: 400-109

Designed to bend a variety of smooth loops up to .021" x .025" (.53 mm x .64 mm).

### Bird Beak Plier with Cutter Item #: 400-111

Designed for smooth bending surfaces for a range of loop sizes while providing a sharp blade for cutting. Cuts up to .021" x .025" (.53 mm x .64 mm).

### Bird Beak Plier Item #: 400-110

Designed for smooth wire bending for a range of loops sizes for round wires up to .030" (.76 mm).

### Light Wire Bird Beak with Groove Plier Item #: 400-130

Designed with a longer cone than a standard bird beak and is useful for forming precise loops in light wires up to .020" (.51 mm). The groove allows for locating and duplicating loops.

## X7<sup>®</sup> ORTHODONTIC INSTRUMENTS

### Light Wire Bird Beak Plier Item #: 400-136

Designed with a longer cone than a standard bird beak and is useful for forming precise loops in light wires up to .020" (.51 mm).

### Small Weingart Plier Item #: 400-114

Designed with slim, tapered 20° tips with serrations that offer greater access and versatility for a secure grip of archwires and auxiliaries.

### Standard How Utility Plier Item #: 400-115

Designed with serrated tips to provide useful placement and removal of archwires, pins and other auxiliaries.

### Rectangular Arch Forming Plier Item #: 400-116

Designed for placing first, second, and third order bends up to .070" (1.78 mm) blade width and on wires up to .021" x .025" (.53 mm x .64 mm).

### Lingual Arch Forming Plier Item #: 400-132

Designed to create double back and triple back bends in .030" (.76 mm) and .036" (.91 mm) lingual arch wires, up to .036" (.91 mm).

### Posterior Band Removing Plier, Long Handle Item #: 400-120

Designed for clinician comfort. The alignment of the tip and occlusal pad is well suited for posterior band removal. These pliers come with a 3/16" (4.76 mm) pad already loaded in the working end and an extra 1/4" (6.35 mm) pad for trial purposes. Replacement pads can be re-ordered as needed.

### Angulated Debonding Plier Item #: 400-122

Designed with a long handle for added user comfort and high angle design for effective anterior and posterior removal of all bracket style types – stainless steel, ceramic, and plastic brackets.

### Debonding Plier Item #: 400-123

Designed for effective anterior and posterior removal of all bracket types – stainless steel, ceramic, and plastic brackets.

### Adhesive Removing Plier Item #: 400-124

Designed with a reversible, replaceable blade that is used to remove the bulk of composite material after debonding brackets and attachments. These pliers come with a 3/16" (4.76 mm) pad already loaded in the working end and an extra 1/4" (6.35 mm) pad for trial purposes. Replacement pads can be re-ordered as needed.

### Three Jaw Plier Item #: 400-117

Designed for contouring and bending wires up to .030" (.76 mm).

### NiTi Three Jaw Plier Item #: 400-135

Designed for the forming and contouring of all archwires, especially for nickel titanium wires up to .020" (.51 mm).

### Stop (V-Bend) Plier Item #: 400-134

Places a V-Bend in archwires, including nickel titanium, to prevent the archwire from traveling. Wires up to .021" x .025" (.53 mm x .64 mm).

### NiTi Distal Cinch Back Plier Item #: 400-127

Designed as a multi-use bender for bending NiTi wire up to .025" (.64 mm). Tie-back NiTi with no heat.

### Tweed Loop Forming Plier Item #: 400-131

Designed to form loops with .045" (1.14 mm), .060" (1.52 mm), and .075" (1.91 mm) diameters for creating bull and helical loops on wires up to .021" x .025" (.53 mm x .64 mm).

### Jaraback Plier Item #: 400-129

Designed to be a versatile light wire bending plier with grooves that assist with precise bending and closing of loops. The serrated surface grips wires up to .020" (.51 mm).

### Replacement Teflon™ Tips Item #: 400-124T

1/4" (6.35 mm) Teflon replacement tips for Adhesive Removing Plier (Item #: 400-124).  
6 per pack

### Replacement Blades Item #: 400-124TT

5.0 mm replacement blade for Adhesive Removing Plier (Item #: 400-124).  
1 per pack

### Crown Band Contouring Plier Item #: 400-128

Designed for reshaping and contouring steel molar bands for a customized fit.

### Replacement Teflon™ Tips Item #: 400-120T

3/16" (4.76 mm) Teflon replacement tips for Posterior Band Removing Plier (Item #: 400-120).  
6 per pack

### Hollow Chop Contouring Plier Item #: 400-133

Perfect for subtle contouring of arch wires up to .030" (.76 mm).

### Replacement Teflon™ Tips Item #: 400-120TT

1/4" (6.35 mm) Teflon replacement tips for Posterior Band Removing Plier (Item #: 400-120).  
6 per pack

### Replacement Silicone Inserts Item #: 400-103T

Silicone replacement inserts for Flush Cut Distal End Cutter (Item #: 400-103).  
3 per pack

Shown Actual Size\*\*

**LIFETIME WARRANTY**

### Lifetime Warranty

Falcon Orthodontic Instruments include a lifetime warranty against materials defects and craftsmanship. Cutting instruments and wire benders are guaranteed for seven years and utility pliers for ten years. This covers breakage and joint failure under normal use. Sharpening cutters and/or repairing minor tip damage is not covered by warranty as this is considered to be routine maintenance for normal use.

### Stainless Steel Inserts

Ensure clean wire cuts every time

### Balanced Joint Assembly

Sliding lock joints are factory adjusted for precise long lasting tip alignment

### Ergonomic Handle

Creates excellent balance and a sure grip

- Surgical Grade Stainless Steel
- Highly Corrosion Resistant
- Diamond Honed Edges
- Precise Tip Alignment

1 per pack

Heat sterilizable up to 370°F/188°C

© 2018 Ortho Technology, Inc. Falcon Orthodontic Instruments is a registered trademark of Ortho Technology. \*\*Pin and Ligature Cutter Item #: OT-1001

### 15° Pin and Fine Wire Cutter Item #: OT-1000

The tips are angled 15° for a better field vision and to improve access. The tool steel inserted tips have backing ledges for greater strength. Cuts soft wire up to .015", pins and elastics.

### Hard Wire Cutter Item #: OT-1000HWC

Specially designed for hard wires. The cutting angle is 15° and the edge has been diamond honed to allow cutting hard wire up to .020" round.

### Pin and Ligature Cutter Item #: OT-1001

This cutter plier is standard sized with sharp cutting edges designed to cut soft wires up to .015", pins and ligatures. The cutting angle is 7°. Compact design.

**Mini Pin  
and Ligature Cutter**  
Item #: OT-1002

This cutting plier has finer tips for easy access into difficult areas. The cutting angle is 7°. Cuts soft wire up to .012", pins, ligatures and elastic smoothly and quickly.

**45° Ligature Cutter**  
Item #: OT-1006

The angled tips provide easy access to the posterior area, eliminating cheek impingement. Also designed to cut lingual ligatures. Cuts soft wire up to .015".

**Distal End Cutter,  
Safety Hold**  
Item #: OT-1016

This cutter shear cuts hard wires close to the buccal tube and holds the loose wire. Cuts wire up to .022" x .028".

**Distal End Cutter,  
Flush Cut With  
Safety Hold**  
Item #: OT-1016FC

Cuts "flush" to the distal end of the buccal tube. The wide spring steel clip holds and catches the wire throughout cutting. Cuts wire up to .018" x .025".

**Small Distal End Cutter,  
Safety Hold**  
Item #: OT-1016S

Compact head design provides easy access to hard to reach areas while minimizing cheek impingement. Cuts wire up to .018" x .025".

**Long Handled  
Distal End Cutter**  
Item #: OT-1016XL

Compact head on this cutter provides the safety hold features of the OT-1016 but has long handles. Cuts wire up to .018" x .025".

**Micro-Minature  
Light Wire Cutter**  
Item #: OT-1021

Compact tip size allows for easy access to tight intra bracket areas. The cutting angle is 7°. Cuts soft wire up to .012".

**Hard Wire Cutter**  
Item #: OT-7001

Heavy duty cutting surface easily cuts wires and pins. Strong enough to bend archwire ends after distal cutting. Cuts wire up to .022" x .028".

**Straight Utility Plier,  
How Style**  
Item #: OT-110

A general utility plier with 3/32" diameter tips which are serrated. Designed with rounded tips for maximum patient comfort and safety in mind.

**Offset Utility Plier,  
How Style**  
Item #: OT-111

A general utility plier similar to the OT-110 with machined tips, 3/32" diameter, but at a 45° offset angle. Matching serrated tips hold wires firmly.

## Falcon

Orthodontic Instruments®

### Band Seating Plier

Item #: OT-113

Firmly grips the bracket tie-wing aiding in the seating of the band. Designed with serrated tips for maximum grip that prevent slippage during use.

### Ball Hook Crimping Plier

Item #: OT-126

Designed to crimp auxiliary stops, hooks and posts to archwires. The slotted design fits over the base of the hook while holding it tight during crimping.

### Angled Ball Hook Crimping Plier

Item #: OT-129

Designed with an angled tip to easily crimp auxiliaries to archwires in the posterior region. Slotted tip holds auxiliaries secure to allow for tight crimping.

### Detailing Step Plier

Item #: OT-133

Special double-sided offset head forms bayonet bends. Forms right hand or left hand step-up or step-down bends in size 1.0 mm.

### Bird Beak Plier

Item #: OT-139

An extremely popular and versatile utility plier designed for working round wire up to .030". Tips are specially designed to prevent wire scoring.

### Light Wire Plier

Item #: OT-140

Designed for working round wire up to .016" diameter. The longer tapered beaks make it easier to bend small diameter loops. Prevents wire scoring.

### Cinch Back Plier

Item #: OT-157

Use for cinching back or forming round and rectangular wire up to .028". The serrated tips are tapered to a fine point. Perfect for accessing the posterior region.

### Weingart Utility Plier

Item #: OT-158

Matching serrated pads hold wire firmly at a convenient working angle. Tapered tip fits easily between brackets. Rounded for safety.

### Utility Plier (Weingart Style, Slim tips)

Item #: OT-158BJ

The ultra slim tips are curved for easier access to difficult areas. Matching serrated pads hold wire firmly at a convenient working angle. Beaks are carefully rounded to make this plier completely lip safe.

### Three Jaw Plier

Item #: OT-200

Precision-aligned tips ensure consistent bends. Gradually tapered for delicate bending. Diamond honed edges. Will bend wires up to .030".

**Hollow Chop Arch Forming Plier**  
Item #: OT-203B

The smooth inner surface allows for subtle contouring and forming of archwires. Forms without scoring or torquing. Perfect for accentuated curves.

**Posterior Band Remover, Long**  
Item #: OT-347L

The  $\frac{3}{16}$ " pad rests on the occlusal of the molar and the non-padded remover tip catches the edge of the band for upward or downward removal. Replacement pads available. See page 186.

**Stop (V-Bend) Plier**  
Item #: OT-220

Makes 1.0 mm V-bends anywhere on the archwire to provide positive stops to keep the archwire from creeping. Edges are carefully diamond honed to prevent wire scoring. Use on NiTi and Stainless Steel round archwires up to .020".

**Direct Bond Bracket Remover (Wide, Replaceable Tip and Pad)** Item #: OT-349RT

Designed for removal of direct bond brackets. The  $\frac{3}{16}$ " pad rests on the incisal/ occlusal edge of the tooth to provide leverage. While the tip fits between bracket and tooth surface, lifting the bracket off without stress. Also removes adhesive on tooth. Replacement tips and pads available. See page 186.

**Nance Loop Forming Plier**  
Item #: OT-230

Four steps allow precision forming of 3.0-6.0 mm loops. One beak is precision serrated to prevent wire slippage. Beveled edges prevent scoring of wire.

**Loop Forming Plier, Tweed Style**  
Item #: OT-350

Designed for making bull and helical closing loops in square or rectangular wire. Tips are designed to hold wire firmly up to .022" x .028."

**Angled Direct Bond Bracket Remover**  
Item #: OT-344

Designed to quickly and safely remove all bonded attachments. The 60° angled tip allows for easy access to difficult anterior and posterior areas.

**Omega Loop Forming Plier, Tweed Style**  
Item #: OT-352

Concave beak is contoured for making more uniform Omega Loops with ease. 3 sections of .045", .060", and .075" diameter and .090" length.

**Direct Bond Remover, Wide**  
Item #: OT-346RT

The wide replaceable precision tips wedge between the base of the bracket and the tooth surface, safely and easily lifting off the bracket.

**Jarabak Plier**  
Item #: OT-355

Ideal for precise bending of lighter wires. Precision grooves ensure accurate bending and closing of loops. Designed with serrated tips. Wires up to .020".

## Falcon

Orthodontic Instruments®

### Acrylic Debonding Plier Item #: OT-360

Designed to quickly and easily remove bonded orthodontic acrylic appliances, such as RPE's and Herbst. The plier has a hinged platform on one side and a debonding blade on the other.

### Lingual Arch Forming Plier Item #: OT-410

Designed to form double-back and triple-back bends in either .030" or .036" wire for inserting in lingual sheaths. Maintains a precise .140" width.

### Rectangular Arch Forming Plier Item #: OT-810S

Tweed Style, ideal for forming square or rectangular archwires. Beveled edges prevent scoring of archwire. Bends wire up to .022" x .028".

### Replacement Pads for #OT-347L

OT-2076 3/16"  
OT-2077 1/4"  
4 pads per pack  
Heat sterilizable up to 370°F/188°C

### Replacement Tips for #OT-346RT

OT-1405  
2x tips, 2x screws, and  
1x hexagon wrench per pack

### Replacement Tips for #OT-349RT

OT-1406  
1x blade, 1x occlusal pad, 1x  
screw, and 1x hexagon wrench  
per pack. Heat sterilizable up  
to 370°F/188°C

### Loop Forming Replacement Tip for #OT-352 and #OT-350

OT-316  
1x tip, 1x screw, and  
1x hexagon wrench per pack

[www.orthotechnology.com/MSDS](http://www.orthotechnology.com/MSDS)

**Advanced Ergonomic Design**  
*With Satin Finish*

- **Large-Diameter Handle**  
Reduces muscle fatigue for less risk of carpal tunnel syndrome
- **Feather-Light Design**  
Allows for a relaxed grip which provides improved tactile sensitivity
- **Textured Grip**  
Better gripping and rotational control
- **Corrosion Resistant**  
Made with high quality stainless steel material

**Falcon Hand Instruments**  
Heat sterilizable up to 370°F/188°C  
1 per pack

**Lotus Plus® SLB Explorer**  
**Double Ended Ligature Director and Explorer**, Item #: OT-2106  
For opening Lotus Plus bracket clip

- Features an archwire director end to engage the archwire into the bracket slot

See page 17 for Lotus Plus SLB opening instructions.

**Band Pusher and Schure Scaler**, Item #: OT-2100

**Explorer**, Item #: OT-2105

**Ligature Director**, Item #: OT-2104

**Direct Bond Adhesive Remover**, Item #: OT-2102

**Double-Ended Distal Bender**

The universal standard size double-ended distal bender easily crimps the distal ends of all typical wire sizes. Designed to be quick and comfortable.

- Easy access in difficult areas
- Textured grip for total control
- Ideal for precise bending
- Stainless steel design
- .018" and .030" openings perfect for all wires
- Simple to use
- Made in the USA

Item #: OT-320  
Heat sterilizable up to 370°F/188°C  
1 per pack

## Mathieu Hemostat High Polished Finish

For elastic modules or stainless steel ligature ties. Item #: OT-8015  
Heat sterilizable up to 370°F/188°C  
1 per pack

## Mathieu Hemostat Narrow Tip, High Polished Finish

Narrow tip designed for easy placement of elastic modules. Item #: OT-8015N  
Heat sterilizable up to 370°F/188°C  
1 per pack

## Mosquito Hemostat With Satin Finish

Tapered serrated tip for placement of elastic modules.

Item #: OT-027  
Heat sterilizable up to 370°F/188°C  
1 per pack

## Curved Mosquito Hemostat With Satin Finish

Curved, tapered serrated tip for placement of elastic modules.  
▪ Made in the USA

Item #: OT-028  
Heat sterilizable up to 370°F/188°C  
1 per pack

## Serrated Trimming Scissors

- Serrated design for controlled trimming without slippage
  - Curved tip cuts easily and precisely, even in hard to reach lingual areas
  - Made in the USA
  - 3 1/2" curved serrated trimming scissors
- Item #: OT-180  
Heat sterilizable up to 370°F/188°C  
1 per pack

## Lotus Plus® DS Turn Key Instrument

Item #: OT-2108  
Autoclavable up to 250°F/121°C  
1 per pack

## Lotus Plus® Clip Opening and Closing Tweezer

**Easy Opening**  
To open the Lotus Plus bracket clip, place the straight arm in the clip opening, and the curved arm in the under tie-wing area and squeeze. The tool will fully open the Lotus Plus bracket without the worry of accidental bracket conversion.

**Secure Closure**  
To close the Lotus Plus bracket clip, place the straight arm at the base of the clip and the curved arm in the under tie-wing area and squeeze.

- Made in the USA

Item #: OT-210  
Heat sterilizable up to 370°F/188°C  
1 per pack

## Lotus Plus® Archwire Directing and Clip Closing Tweezer PLUS! Easily Seats Archwires in Crowded Cases

**Secure Closure**  
To close the Lotus Plus bracket clip while simultaneously directing the archwire, place the notched arm on the archwire and the other arm at the base of the clip and squeeze.  
▪ Made in the USA

Item #: OT-211  
Heat sterilizable up to 370°F/188°C  
1 per pack

## Lotus Plus® SLB Tweezer Clip Closing Tool

### Secure Closure

To close the Lotus Plus bracket clip use the Lotus Plus SLB Tweezer. See page 17 for instructions.

Item #: OT-202

Heat sterilizable up to 370°F/188°C  
1 per pack

## Direct Bond Instrument

Stainless steel construction. Reverse action will not release bracket until desired. Designed with serrated tips.

Item #: OT-204

Heat sterilizable up to 370°F/188°C  
1 per pack

## Direct Bond Tweezers with Bracket Aligner

Reverse action will not release bracket until desired. Aligns brackets by placing the opposite end into the bracket's slot. Stainless steel construction.

Item #: OT-322

Heat sterilizable up to 370°F/188°C  
1 per pack

## Direct Bond Tweezers

Stainless steel construction. Reverse action, specifically designed for accurate posterior placement of brackets or tubes.

Item #: OT-203

Heat sterilizable up to 370°F/188°C  
1 per pack

- Made in the USA

## Eruption Appliance Angled Button Tweezers

Designed to fit snugly around button pad type. Special claw-type tweezers to grip the button securely until final placement.

- Made in the USA

Item #: OT-213

Heat sterilizable up to 370°F/188°C  
1 per pack

## Eruption Appliance Curved Eyelet Tweezers

Designed to fit low profile eyelets and mesh pad styles. Special grooves to grip flat low profile pads with gold loops that are commonly difficult to hold.

- Made in the USA

Item #: OT-212

Heat sterilizable up to 370°F/188°C  
1 per pack

## Keat Buccal Tube Tweezers

The curved body of the tweezers provides an unobstructed view for easier precise placement of buccal tubes.

### A. Keat Buccal Tube Tweezers

Item #: OT-209

Heat sterilizable up to 370°F/188°C  
1 per pack

### B. Reverse Action Keat Buccal Tube Tweezers

Item #: OT-209R

Heat sterilizable up to 370°F/188°C  
1 per pack

## Separating Plier

### With Satin Finish

Stainless steel with spring back action for easy use.

Item #: OT-101  
Heat sterilizable up to 370°F/188°C  
1 per pack

## Boone Gauge Stainless Steel

Accurately measures height of bracket placement from incisal edge. 3.5, 4.0, 4.5, and 5.0 mm. Item #: OT-000-SS  
Heat sterilizable up to 370°F/188°C  
1 per pack

## Positive Positioner

### Now With High-Polished Finish

Precise placement of direct bond tubes or attachments made simple with the spring-loaded mechanism and small, grooved tips. The Positive Positioner is made of lightweight, anodized aluminum.

- Access first and second molars easily
- Slides open smoothly to release tube
- Made in the USA

Item #: OT-2222  
Autoclavable up to 250°F/121°C  
1 per pack

## Aluminum Height Gauge

Measures height of bracket placement from incisal edge. 3.5, 4.0, 4.5, and 5.0 mm. .018" ..... OT-2118-SS  
.022" ..... OT-2122-SS  
Autoclavable up to 250°F/121°C  
1 per pack

## High Heat Height Gauge

Same features as the aluminum gauge at a fraction of the price. .018" ..... OT-2118-HH  
.022" ..... OT-2122-HH  
Withstands heat up to 350°F/177°C. 1 per pack

## Mershon Band Pusher

- 5 sided angled serrated tip
  - Reduced risk of slippage
  - Lightweight hollow handle
- Item #: OT-206  
Heat sterilizable up to 370°F/188°C  
1 per pack

## High Heat Bite Stick

- Metal serrated triangle tip
  - Molded high impact plastic
  - Safe for dry heat sterilizers
  - Made in the USA
- Item #: OT-600-199  
Sterilizable up to 350°F/177°C  
1 per pack

# Sensation™ Self-Ligating Bracket System Opening Instruments

Closed

Open

## Simple Opening

Sensation and Sensation M Clips open and close in the same manner, however, each requires a unique instrument. While both instruments may look similar, each must be used with the appropriate bracket system. Using the incorrect instrument may result in damaging the clip.

### To open the Sensation or Sensation M Bracket Clip:

1. Place the inside hook of the opening instrument into the opening of the door of the bracket interface.
2. Tilt the opening instrument gingivally to avoid possible removal of the clip.
3. Pull straight down to open using a gentle controlled force.

MADE IN THE USA

## Sensation™ SLB Opening Instrument

## Sensation™ M SLB Opening Instrument

Unique Clip Opening Tool specifically designed to prevent oversteering of the clip. To close; lightly apply finger pressure on the occlusal surface of the clip. Make sure the spring clip fully closes so the archwire is securely engaged.

### Sensation Ceramic SLB Opening Instrument

Item #: OT-7920

### Sensation M SLB Opening Instrument

Item #: OT-8920

Heat sterilizable up to 370°F/188°C  
1 per pack

**Sensation Ceramic Active Self-Ligating Brackets**  
See pages 10-12

**Sensation M Stainless Steel Active Self-Ligating Brackets**  
See pages 13-14

## Color Coded Bite Sticks

Molded high impact plastic with metal serrated triangle tip

- Made in the USA

### Cold Sterilizable

Teal .....	600-201T
Purple .....	600-201P
Blue .....	600-201B

1 per pack

### Autoclavable

Teal .....	600A-201T
Purple .....	600A-201P
Blue .....	600A-201B

1 per pack

Autoclavable up to 250°F/121°C  
Do not cold sterilize.

## Miltex® Instrument Lubricant

- Pre-mixed, non-silicone, anti-corrosive formula in a ready to use spray pump bottle
- Steam permeable and water soluble
- Lubricates metal to metal moving parts and reduces friction at joint of instruments
- Helps prevent spotting, staining and rusting

Item #: 600-125  
8oz per bottle  
1 per pack

# ORGANIZERS

MADE IN THE USA

## Elastomeric Organizers

- Keeps contaminants out
- Convenient storage and visual inventory

### A. Combination Organizer

Item #: OT-CDW  
6 3/4" W x 5 1/2" H x 9" D

### B. Power Chain Organizer

Item #: OT-PCD  
3 7/8" W x 4 1/4" H x 9 7/8" D

### C. Power Stick Organizer

Item #: OT-PSD  
10 1/2" W x 5 1/2" H x 5 1/4" D

1 each

Organizers do not include product.

## Instrument Organizers

### A. Combination Organizer

Item #: PDW-001  
6 1/2" W x 3 7/8" H x 9 1/4" D

### B. Covered Plier Organizer

Item #: 56146  
7 1/4" W x 7 1/2" H x 6" D

### C. Upright Plier Organizers

White: OT-IHW ▪ Black: OT-IHB ▪ Clear: OT-IHC  
Holds up to 18 pliers  
4 7/8" W x 5 1/4" H x 9" D

### D. Round Plier Organizer

Item #: PDW-002  
4 3/32" H x 4" D

1 each

Organizers do not include product.

## Brackets, Bands, & Wires

### Archwire Organizer

A. With Lid Item #: OT-AWH  
7 3/4" W x 4 1/2" H x 4" D

B. No Lid Item #: OT-AWHS  
7 3/4" W x 2 5/8" H x 4" D

### C. Bonding Pad Organizer

Item #: OT-BP370  
6 1/4" W x 6 3/4" H x 4 3/4" D

### D. Stackable Band Organizer

Item #: 85180K

### Stackable Bracket Organizer

Item #: 85181K  
Includes: 1x band/bracket tray  
11 1/4" W x 1 1/2" H x 8 1/4" D

1 each

Organizers do not include product.

## Ortho Model™ Archive System

Each Kit Holds Up to 320 Models

- Saves valuable office space
- Inexpensive storage
- Holds 320 models
- Easy to assemble
- Super strong construction

### A. Top Loading

Item #: 37810

Dimensions: 15"H x 19½"W x 13¼"D

1 set of 4 large boxes (16 trays)

Use for finished cases

### B. Front Loading

Item #: 37809

Dimensions: 16"H x 18¾"W x 13"D

1 set of 4 large boxes (16 trays)

Use for active cases

 ground shipment recommended due to weight

### A. Top Loading Style

Use for Archive Cases

### B. Front Loading Style

Use for Active Cases

## Elastics Organizers

- High quality acrylic plastic
- Countertop or wall mounted
- Makes for easy access

### A. Elastics Dispenser

Item #: OT-OED

13"W x 10½"H x 4"D

### B. Creatures of the Sea® Elastics Organizer

Item #: OT-OEDS

17¼"W x 10"H x 4¼"D

1 each

Organizers do not include product.

## Misc. Organizers

- Chairside presentations

### A. Relief Wax Dispenser

Item #: OT-RWD

8¼"W x 8½"H x 4½"D

### B. Alginate Flavoring Organizer

Item #: OT-AFC

10%W x 6%W x 3"D

### C. Adhesive Syringe Organizer

Item #: OT-ASO

7¼"W x 4½"H x 10%W

### D. Toothbrush Dispenser

Item #: OT-TB DISPLAY

8%W x 11¼"H x 7%W

1 each

Organizers do not include product.

# Shipping Information

**Shipping:** Most orders ship the same day you place your order. You can have your products as soon as the next business day. Place your order before 2:00 P.M. E.S.T. and request overnight shipping. Otherwise we will ship your order via common carrier.

**Hassle-Free Returns:** Customer satisfaction is Ortho Technology's primary objective, and we understand, your purchase may not always meet your needs. In an effort to make the return process as hassle-free as possible, we ask that you please call us. Your satisfaction is very important to us, and your comments help us improve our products and service. When you call, a mandatory Return Merchandised Authorization (RMA) number will be assigned. This number will help expedite your exchange return.

**Return Policy:** Include the Return Merchandise Authorization (RMA) number which can be obtained by contacting our Customer Service Department. Products may be returned for credit within 30 days from Invoice date. Products under warranty must meet terms within warranty period. After 31 days and up to 60 days from Invoice date, return request will be evaluated by a Customer Service Representative as a courtesy to our customers. Returns may be authorized when these conditions are met: 1. Products are in original and unopened packaging and in re-sellable condition. 2. Returns must meet quality inspection standards, appearance and physical count. 3. A 15% restocking fee may be charged. Custom orders and special orders are not accepted for return.

Due to OSHA regulations regarding possible exposure to bloodborne pathogens, Ortho Technology is prohibited from accepting instruments for evaluation without proof of sterilization. Unless proof of sterilization is evident, Ortho Technology reserves the right to either destroy these items or return them to the customer.

**Order Shortage Notification Policy:** Any shortage of your order must be reported promptly within 30 calendar days of your order receipt to be considered. Ortho Technology is not responsible for any shortage reported after 30 calendar days.

**Terms and Billing:** Orders from qualified accounts are accepted on the basis of payment within 30 days from the date of invoice. All invoices are to be paid in U.S. Dollars. Prices listed are F.O.B. point of origin. A packing slip and invoice are enclosed with each shipment. A statement covering all open invoices is mailed monthly. A 1.5% (\$2.00 minimum) per month service charge on overdue balances will be added to accounts.

**Canadian Customers:** To provide expedited and economical shipping for our Canadian customers, orders will be shipped into Canada to your door by a common carrier. All duties, brokerage, GST, and other fees are applied during billing. This will ensure easy receipt of shipment. For easy payment, we recommend using a credit card. If payment by check is required, please write "In U.S. Funds" on the check. All catalog prices and invoice totals are listed in U.S. Dollars. When purchasing products from Ortho Technology, the customer surrenders and transfers the rights to receive the actual amount of duties refunded. All duties paid will, in turn, be refunded to the customer directly by Ortho Technology. GST will not be refunded on returns. Canadian businesses that are GST registered may claim this amount through an input tax credit.

**Continued Improvement:** Due to continuing product improvements, Ortho Technology reserves the right to change prices, discontinue products or change the design of products without advance notice. We are not responsible for typographical or photographic errors, and we reserve the right to limit quantities.
