| Advance | 3 | 2 | 1 | Key | 4 | 5 | 6 | Space |

Fingers need to be placed on the Perkins as shown in the picture below:

NOTE: By not always placing the correct fingers on the desired keys, students begin to learn bad habits in their Braille writing which may hinder their progress and slow down their speed. This will be quite evident when it comes to taking notes in class. Activities to build strength in the fingers can be found in BRAILLE ACTIVITES FOR YOUNG CHILDREN.
