DARE TO BE MORE CREATIVE

Dear Customer,

Being a success always takes creativity and the courage to follow new paths. That's why we at GEFU are constantly developing new ideas and innovative kitchen tools to make cooking a relaxing pleasure and leave you with noticeably more quality time with your friends and family.

We are proud of our products, which culinary artists all over the world love for their outstanding functions, uncompromising quality and inspirational design. Not only do they fit well in your hand and make it easier to prepare food; they are also particularly durable and therefore play an important role in making your kitchen more sustainable.

The following pages of the GEFU catalogue hold some surprises and creative inspiration for you. Look forward to exciting products, technical excellence and new ways to explore the art of cooking.

Best regards

TIMELESS DESIGN THAT'S FULL OF CHARACTER

GEFU is all about elegant, practical design and attention to detail. Ideas for new products are always dreamt up in our own creative studios in Eslohe. With the help of the renowned Berlin design office invivo, we then create unique kitchen tools which are particularly easy to operate, work like clockwork and stand out for their characteristic GEFU design.

INVIVO
industrial design

X-PLOSION®

This is best illustrated by the new X-PLOSION® design series, which sets new standards in seasoning and ramps up the aroma thanks to its ingenious mills, ultra-sharp chilli cutters and elegant shakers and mortars. The X-PLOSION® spice mills rely on the highly efficient CYCLONE® precision grinding mechanism, an innovative in-house development by GEFU and invivo.

SPEEDWING®

SPEEDWING® is also typical of GEFU's creative product ideas. This multiple award-winning multi-chopper can be used universally, stirring, blending and chopping food with no need for electricity thanks to its energy-saving manual pull-cord mechanism.

WINNING BRAND

Customer favourites, top innovators and the winners of various design awards: GEFU's many accolades and repeated success go to show that consistent development work and excellent functions, combined with an unerring instinct for elegant design, go down well everywhere.

COOKING IS OUR PASSION

That's clearly visible and obvious in all GEFU products. They simply feel right; they are a pleasure to use, and it's great fun trying out new recipe ideas with them.

GUARANTEED QUALITY

Excellent materials, perfect workmanship and consistent quality control ensure that our kitchen tools are particularly tough and durable. That's why our company offers a 5-year guarantee on all standard products and even a 20-year guarantee on exclusive GEFU items, as seen from the "Q" seals on the packaging. That way, all our customers know they are buying a product that will reliably accompany them on their voyage of culinary discovery for many years to come. That's our guarantee.

CERTIFIED SAFETY

The external quality testing carried out by TÜV Rheinland also establishes that GEFU products are safe, work properly, are hygienic and fit for purpose. The TÜV inspection services give products the "LGA tested" and "LGA tested quality" awards only when they meet the highest standards and fully serve their intended purpose.

GEFU DIGITAL

FACEBOOK, YOUTUBE, BLOGGERS AND MORE

At GEFU, social networks have a firmly established position as a channel for corporate communication. We use all relevant digital platforms and co-operate with successful bloggers to encourage our business partners and customers to share expertise and information, and continuously improve our products and services through dialogue.

SALLY'S WORLD

"Explore the art of cooking" as well as Saliha Özcan, better known as Sally from "Sally's World", Germany's biggest and best-known YouTube food channel. More than 1.6 million subscribers regularly visit Sally's kitchen on YouTube to watch her cooking and baking videos.

PROTECTING THE ENVIRONMENT

eco-friendly

THINKING SUSTAINABLY

Plastic is incredibly useful, and can be found almost everywhere: in our clothes, our smartphones and our detergents. And of course that affects the environment, and our health. Plastic is made from oil using high levels of energy, and does not rot away. Instead, our plastic waste collects in the oceans, polluting even distant beaches and contaminating the environment with microparticles. GEFU's aim is to produce innovative, sustainable kitchen products as a small step towards avoiding unnecessary plastic waste and saving valuable resources – for our environment, our children and our future.

TAKING RESPONSIBILITY

WORK WITH CARITAS

Caritas helps people in need. GEFU helps the relief organisation carry out this task, and has collaborated with Caritas workshops for many years in the field of assembly and packaging.

STIFTUNG KINDERHERZ

As a family company, it is especially important to GEFU to support sick children who rely on our particular help. That's why, rather than giving the usual Christmas gifts, we donate the amount we save to Stiftung Kinderherz, a charitable foundation which has been running funding projects in Germany for many years to help treat children with heart defects, and supporting cooperation with international paediatric cardiology centres.

CYCLONE®. STATE-OF-THE-ART PRECISION GRINDING

GEFU's innovative development crushes salt crystals and peppercorns particularly quickly, easily and effectively. No wonder: the extra-large CYCLONE® grinding mechanism made of high-performance ceramic is equipped with significantly more teeth than standard grinders, making it six times more efficient. With more large, ultra-sharp teeth that effortlessly break down even chunky crystals, seeds and grains. The larger number of fine teeth grind products uniquely uniformly at any grind setting in no time at all.

CUTTING EDGE

design

When it comes to cutting and dividing, the GEFU design team has developed a variety of practical kitchen tools which constantly set new standards in creativity, time saving and safety. We use Japanese cutlery-grade stainless steel for our products, meaning the blades remain extremely sharp for a long time and are also dishwasher-safe.

Make today the first day you use only GEFU's super-sharp knives and kitchen aids. You'll never want to cut with anything else again.

«There is an infallible recipe for dividing one thing fairly between two people: one can decide what size the portions are, the other gets to choose which to take.»

CRISPY FRESH & wafer-thin

Graters and slicers are kitchen tools that are used frequently and should thus always be comfortable to hold. For that reason, the design of GEFU's kitchen aids is based not only on their external appearance, but also on durability and ergonomics. Steel is the best material to ensure that you can enjoy the product for a really long time. Whether you prefer to work with a box grater or flat vegetable graters and slicers, you'll find the right tool for every preference at GEFU.

«If someone tells you that you are grating too much Parmesan onto your pasta, just stop talking to them. You don't need that kind of negativity in your life.»

THE SCENT *of cakes*

Fragrant cakes, crunchy biscuits or creamy gateaux taste absolutely scrumptious and are lots of fun to make and bake. Especially when the youngest members of the family eagerly help with the stirring and kneading. But without the right tools, even the most talented bakers cannot create sweet works of art. For that reason, GEFU has a wide range of practical baking utensils which should be found in every modern kitchen and are also great value for money. Now you can have your cake and eat it!

POP UP STORE

The timelessly elegant presentation system for New Retail, concept stores and their demanding customers. The G-Cube is made up of delicate cube-like metal frames which can be placed next to and on top of one another and individually decorated with wooden elements, creating widely variable structures for any sales area, however big or small.

The art of presenting products to best advantage

The clear concept, modern design and high brand recognition of GEFU's self-confident point-of-sale branding is highly appealing.

GEFU provides retailers with high-quality, functionally well-thought-out retail display systems to ensure that our innovative products are always presented favourably. The basic elements are elegant wall bays or island units which can be extended to any size with matching modules and offer plenty of space for all GEFU kitchen utensils – from little meat roll skewers to big pasta machines. Accompanying advertising posters and stands can be fitted directly to the display units to draw attention to special sales and marketing campaigns. Eye-catching secondary placements perfectly round off our range of display units, enabling your customers to quickly find their new favourite kitchen utensil from GEFU.
