INSTRUCTIONS FOR INTERPRETING PARTS PRICE LIST

As a guide to all service outlets this price list contains a Stocking Code. This Stocking Code is explained by the following:

EXPLANATION OF PART NUMBER CODE

*All Part Numbers are coded and should be carried in stock as indicated.

CODE 1 — Indicates Part Numbers to be carried in stock by all Service Accounts. Also indicates Primary Volume Movement.

CODE 2 — Indicates Part Numbers to be carried in stock by all Service Accounts. Also indicates Second Volume movement.

CODE 3 — Indicates Part Numbers to be carried in stock by Central Distributors and Service Distributors. Also indicates general part movement.

CODE 4 — Indicates Part Numbers to be carried by Central Distributors. Also indicates general part movement.

CODE 5 — Indicates those items of slow movement that are stocked at Factory.

CODE 6 — Obsolete Parts.

CODE 7 — Non-returnable Parts.

STANDARD PACKAGE

Many fast moving parts have been standardized in quantities to expedite packing and shipping. These items show the quantity packaged under "Standard Package" column and should be ordered in those quantities or multiples of those quantities. The factory reserves the right to alter orders to nearest Standard Package.

SPECIAL NOTES

Parts designated as "use" means Use Existing Stock and when reordering, order indicated "use" part.

* Indicates New Part Numbers Listed for the First Time.

ORDER BY NEW PART NUMBER ONLY
