## PAYPAL IDs USED BY SCAMMERS

- Some of the most important data used by scammers are the emails addresses they use to collect money from their victims via PayPal or other payment platforms. If you received an invoice from them, you have already been scammed, but, at least, you are in possession of this important information: their email address used as PayPal IDs! Send us those "invoices" and email addresses for proper public exposure! Of course, you should not pay a cent to people who base their operation on lies, deception, ID theft and the scamming of translator's CVs.
- Because PayPal is NOT supported in some countries, including Palestine (in a nutshell, the issue is inherently with Palestinian banks, and not with PayPal itself, very much like what happened in South Africa in the past), the openly use (see 3. below) of the system by nationals of those countries may be a clear indication of violation of their own banking and tax laws. Who owns the PayPal accounts using the IDs below? TO WHOM ARE THE SCAMMERS' VICTIMS PAYING?
- But, you may ask, how can scammers open their PayPal accounts with their email addresses? Well, you are missing something! A real "John Doe", living outside Palestine, can only open a PayPal account with his real name, his real ID documents, his real bank account number, BUT with whatever email address he/she chooses, say john.doe@gmail.com. But, then, the same real "John Doe" (you'll never know his name...) can also associate other email address to his PayPal account, like trans.payable@gmail.com or majdi.abualila@gmail.com. These emails will be the ONLY data you will know, and never the true identity of "John Doe" or his real email address! Got it?

## FALSE TRANSLATORS & SCAMMERS WITH PROFILES IN TRANSLATOR PORTALS

- All information stated below is correct, has been verified at time of publishing, and subject to change without notice at the Translator Scammers Intelligence Group's discretion.
- Note also that the scammers or the Portals's owners may delete such profiles after they have been listed below.
- When scammers use the name of a genuine translator (email used is always controlled by them, scammers), they may also include in their fake CVs and emails links to their victim's profiles on Translator Portals, to make you believe you're dealing with the right person. However, the whole CV scam is based on one thing ONLY: the email address used by the scammer.
- Many fake CVs circulated by scammers include links to their profiles on Translator Portals, even if they have been removed. This is also a clear indication of a suspicious CV.
