A smartphone and scanner in one A singularly versatile device that caters to your every need	Quick and easy to scan Scanning, capture and form-fill should never slow you down	Deploy and configure effortlessly Seamlessly integrates with your existing apps and systems
Enhanced productivity Scan, record, and work, while still using your smartphone for everything you do.	Easy scanning Hardware key can be remapped to trigger scanning, or use the keyboard wedge to fill in any field with a scan, without typing.	Simplified integration Integrate to your business apps and workflows without requiring software development or system integration.
Ready on day one Start scanning into your business app right away, with features to inject scanned data into any apps or fields - no additional development needed.	Scanning options Supports single, selective, or all-at-once batch scanning for a wide range of barcode types.	Tailored for each app Optimize productivity for each business app - E.g. multiple-scan as default for app A, single-scan for app B.
Enterprise-grade scanning Faster camera boot-up and accurate auto-focus, enabled with tight Samsung hardware integration.	Intuitive UX Shallow learning curve gets your teams out in the field faster.	Bulk installation Remotely install the Knox Capture application to a large number of devices using your own EMM, with configured settings pre-applied.
		Configured for frontline Configure features at the platform level for better scanning experience - E.g. allow/disable key remapping, block/enable Wi-Fi, auto-shutdown based on idle time.
