RH PETERSON
REAL Fyre™ GAS LOGS

4

The RH Peterson Company provides the highest possible degree of durability which is why Associated Energy Systems has been offering Real Fyre™ products to its customers for over 20 years.

Real Fyre™ logs are formulated from kiln-fired ceramics, superior refractories and the best expanded shales and aggregates. Their durability has been proven for over 50 years of use in American homes. The high temperatures of a burning fireplace pose no challenge to the beauty, strength and durability of Real Fyre™ Gas Logs. They meet nationally recognized standards and earn approval of local and national building code authorities throughout America.

Real Fyre™ Gas Logs duplicate the detailed bark pattern and texture of real wood through a unique molding system. Knot holes, peeled bark, forked branches and other natural enhancements add realistic appearance. These logs are then colored by an exclusive immersion/filtration system. Many of the logs are then hand painted, detailed or accented to provide the most realistic looking logs available. Real Fyre™ logs are sized and matched to create a balanced natural wood stack that works with Real Fyre™ burner systems to provide an authentic wood fire appearance. Yet, there is more to Real Fyre™ Gas Logs than their beauty.

Because the logs are manufactured with non-conductive ceramic, they reflect more radiant heat off their surface. This helps the gas burner system burn more efficiently. The heat chamber, a development of the Peterson Company, consistently radiates more BTU's of heat into the room without the hot and cold zones normally created by the varying size of a wood fire. The heat chamber also adds to the warmth and Real Fyre™ Gas Logs promote cleaner burning.

Instant on/off finger tip control provides immediate flame at the simple turn of the valve. No more messy ashes to clean up, no storing of dirty firewood and no more dangerous flying sparks with Real Fyre™ Logs. Creosote build-up in the chimney, a common cause of fires, is also eliminated by the clean burning gas fuel.

Real Fyre™ Gas Logs feature a Lifetime Warranty. Vented Burner Assemblies feature a 5-year Warranty.

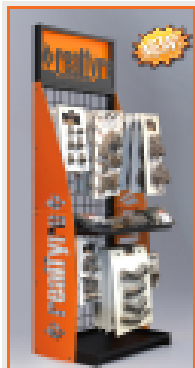

Showroom Display Materials

Showcase your Peterson Real Fyre™ Gas Logs and the important accessories with these attractive, 3-Tier Gas Log Displays. Made of sturdy steel construction, 66"H x 32"W x 17"D assembled. Log shelves support sets up to 24" wide, have a 1" lip to prevent sand, embers and lava granules from spilling on to your floor. The shelves are also just right for displaying a small amount of hearth accessory stock.

realfyre G45 BURNER

Choose Your Burner - Choose Your Log Set

G45**

- G45 Burner System, No Safety Pilot Kit, No Remote, Natural Gas Only
- Sizes: 18"/20" - 24"/30"

G45**17

- G45 Burner System with "17" Series Valve & Variable Remote
- Propane Option: G45**17P
- Sizes: 18"/20" - 24"/30"

G45**02

- G45 Burner System with "02" Electronic Valve & On/Off Remote
- Propane Option: G45**02P
- Sizes: 18"/20" - 24"/30"

For Proper Installation
Measure the dimensions of firebox.
Width - Bottom of Firebox, Front & Back
Depth - Front to Back
Height - Bottom to Top

The G45 and GX45 Burner Systems are ANSI Certified and accentuate the front flame and ember bed of the log set.

Model	Minimum Fireplace Size				BTU Rating	
	Width*		Depth‡	Height	Nat. Gas	L.P. Gas
	Front	Rear†				
G45-16/19	29"	22"	11"	17"	40K	30K
G45-18/30	30"	24"	13"	17"	40K	45K
G45-24	34"	28"	13"	17"	90K	65K
G45-30	40"	34"	16"	17"	95K	75K
G45-36	46"	40"	16"	17"	110K	90K

* These required widths allow for centering of the unit.
For 02 models, add 2" to both front and rear width.
† Rear width is at corresponding depth.
‡ If an ash lip exist, the depth requirement begins inside of the lip.

Premium Gas Logs	18"	24"	30"	Burner Kit	18/20"	24"	30"
