GUIDELINES FOR FIREARM PURCHASES

- All Federal, State and Local firearms laws will be observed. FFL holders may take possession of any firearm on day of sale when they present a signed copy of their Federal Firearms License. New Hampshire residents over the age of 21 may take possession of any firearm on day of sale providing the proper paperwork is filled out and the transfer has been approved either through the NH State Police or the FBI NICS System. While most NICS and State approvals are immediate, approvals could take up to 3 days. Most non-residents may take possession of long guns on day of sale after completing the proper forms and successfully completing a NICS check; modern handguns will need to be shipped to an FFL holder in the buyer's home state. Buyer is responsible for any and all shipping charges and all items must be paid for on day of sale. Bidders should be familiar with their local and state laws.

Firearms are marked as follows:

ANTIQUÉ - no paperwork required

C&R - for firearms that fall under the ATF Curio & Relics licensing and if purchased by a person with a "C&R License" no paperwork is required. **NOTE:** Items that meet the age requirements but have been altered from their original configuration may NOT be delivered on a C&R License.

Firearms that are not marked with one of these notations are considered to be "MODERN" and all proper paperwork is required unless you are an FFL Dealer.

FIREARMS WARNING

Amoskeag Auction Company, Inc. **does not** warranty the safety of any article it sells. Therefore, it is **imperative** that, before you use any firearm purchased here or anywhere else, you have it examined by a qualified gunsmith to determine whether or not it is safe to use.

Firearms

The silent auction firearms section includes a number of Walt Rauch's arms. Many of these are brand-new with their original boxes, many show scant use and some are merely good collectible examples. The hand guns are listed below, the long arms start at lot #2369. They are all identified with [Walter "Walt" Rauch Collection]

2000. **SMITH & WESSON MODEL 5906 SEMI-AUTO PISTOL** serial #AIP0708, 9mm, 4" barrel with an excellent bore. The matte stainless steel surfaces rate very good to excellent with light scattered scratches. The checkered black synthetic factory grips rate near excellent with a few handling marks. This pistol is equipped with factory three dot sights and ambidextrous slide mounted de-cockers. The white paint in the dots of the rear sight is missing but easily replaced. The pistol includes four factory magazines. Two magazine have fourteen round capacity and the other two are fifteen round capacity (later magazines increased capacity by one round). (88100-151) {MODERN} [Walter "Walt" Rauch Collection] (300/500)
2001. **SMITH & WESSON MODEL 642 CENTENNIAL AIRWEIGHT REVOLVER** serial #BKA0549, 38 Special, 1 7/8" barrel with an excellent bore. This revolver retains about 96% frosted satin finish on the alloy frame and the remaining stainless steel parts rate about good to very good with scattered light handling marks, wear marks and a turn ring on the cylinder. The revolver is fitted with later added Crimson Trace checkered synthetic and rubber laser grips that are fully functional and rate excellent. The smooth combat trigger has been polished and edges rounded. The front sight and ramp has been removed and a XS Sight Systems large dot sight with Tritium insert dovetailed to the barrel; the insert no longer glows. The revolver includes the original factory box that is correctly end labeled and numbered to the gun, manual and paperwork. (88100-109) {MODERN} [Walter "Walt" Rauch Collection] (300/500)
2002. **SMITH & WESSON MODEL 10-10 MILITARY & POLICE REVOLVER** serial #CBU1746, 38 Special, 4" heavy barrel with an excellent bore. The metal surfaces retain about 99% factory blue with scattered light scratches and a turn ring on the cylinder. The standard hammer and smooth combat trigger retain bold case-hardened colors with minor operational marks. The checkered rubber finger groove factory round butt Uncle Mike's combat grips rate good with most of the loss on the right panel which exhibits several heat damaged areas. The revolver includes a factory hard case that is correctly end labeled and numbered to the gun, manual and paperwork. This revolver appears to have seen minimum use. (88100-150) {MODERN} [Walter "Walt" Rauch Collection] (300/500)
2003. **SMITH & WESSON MODEL 10-10 MILITARY & POLICE REVOLVER** serial #CCN4838, 38 Special, 4" heavy barrel with an excellent bore. The metal surfaces retain about 99% factory blue with light scratches, limited high edge wear and a turn ring on the cylinder. The M.I.M.'s smooth combat trigger and standard hammer retain strong but unremarkable case-hardened colors. The checkered rubber finger groove factory round butt Uncle Mike's combat grips rate excellent. The revolver includes a factory hard case that is correctly end labeled and numbered to the gun. This revolver appears to have seen minimum use. (88100-163) {MODERN} [Walter "Walt" Rauch Collection] (300/500)
2004. **SMITH & WESSON MODEL 10-10 MILITARY & POLICE REVOLVER** serial #CBY0688, 38 Special, 4" heavy barrel with an excellent bore. The metal surfaces retain about 99% factory blue with light scratches, limited high edge wear and a turn ring on the cylinder. The smooth combat trigger and standard hammer retain strong but unremarkable case-hardened colors. The checkered rubber finger groove factory round butt Uncle Mike's combat grips rate very good to excellent with light handling marks. The revolver includes a factory hard case that is correctly end labeled and numbered to the gun. This revolver appears to have seen minimum use. (88100-93) {MODERN} [Walter "Walt" Rauch Collection] (300/500)
2005. **COLT OFFICIAL POLICE REVOLVER** serial #888154, 38 Special, 4" barrel with an excellent bore. The metal surfaces are predominately smoky gray with about 20% blue remaining in the protected areas along with scattered oxidation blemishes, some minor pinprick pitting and handling wear. The checkered walnut factory grips with silver Colt medallions rate fair with moderate to heavy diamond point wear, scratches, scuffs, dings and dents. The grips are not correctly numbered to the gun but timing and lock up remain excellent. (88100-174) {C&R} [Walter "Walt" Rauch Collection] (100/200)
2006. **MANURHIN P1 SEMI-AUTO PISTOL** serial #225507, 9mm, 5" barrel with an excellent bore. The metal surfaces retain about 97% factory anodized and black finishes with light high edge wear, handling marks and old pitting visible under the new finish on the firing pin indicator cover. The firing pin indicator cover is clearly a replacement or was refinished. The black checkered synthetic factory grips rate very good with scattered light dents, dings and scratches. The pistol includes a pair of magazines. (88100-21) {MODERN} [Walter "Walt" Rauch Collection] (200/400)
2007. **GLOCK MODEL 22 SEMI-AUTO PISTOL** serial #MSCD230, 40 S&W, 4 1/2" barrel with an excellent bore. The metal surfaces retain about 98% black Tenifer finish with light high edge wear and a few handling marks. The polymer frame rates near excellent with minor handling wear. There is a small hole drilled into the heel of the grip to accommodate the detent retainer on an unmarked grip gap filler with built in take down tools. The pistol features three dot Tritium night sights that no longer glow. The slide and barrel are not serial numbered to the gun but are serial numbered alike. It includes a single fourteen-round magazine. (88100-171) {MODERN} [Walter "Walt" Rauch Collection] (300/500)
2008. **KAHR ARMS CM9 SEMI-AUTO PISTOL** serial #ID0455, 9mm, 3" barrel with an excellent bore. The matte stainless steel surfaces rate about excellent. The polymer frame rates excellent. The pistol is equipped with von Stavenhagen style sights. The pistol includes a factory hard case that is correctly end labeled and serial numbered to the gun, a single seven-round extended magazine, manual and paperwork. The pistol appears to have seen little use. (88100-63) {MODERN} [Walter "Walt" Rauch Collection] (300/500)

2009. **KAHR ARMS CW45 SEMI-AUTO PISTOL** serial #SD2554, 45 ACP, 3 5/8" barrel with an excellent bore. The matte stainless steel surfaces rate very good to excellent with light handling marks. The polymer frame rates very good to excellent with scattered light scuffs. The pistol is equipped with von Stavenhagen style sights. The pistol includes a factory hard case that is correctly end labeled and serial numbered to the gun, a pair of six-round magazines, trigger block device (but no lock), manual and paperwork. A compact powerhouse for defense. (88100-60) {MODERN} [Walter "Walt" Rauch Collection] (250/450)
2010. **CHARLES DALY MODEL HP HI-POWER SEMI-AUTO PISTOL** serial #HP00126, 9mm, 4 3/4" barrel with an excellent bore. The metal surfaces retain about 99% satin black finish with scattered light handling marks. The checkered rubber Uncle Mike's grips rate excellent. The pistol features Heinie "Straight Eight" night sights that no longer glow and includes a single unmarked magazine. (88100-144) {MODERN} [Walter "Walt" Rauch Collection] (300/500)
2011. **RUSSIAN MODEL TT-33 TOKAREV SEMI-AUTO PISTOL BY TULA** serial #SL329, 4 5/8" barrel with a lightly frosted bore. The metal surfaces retain about 80% dull reapplied blue finish that is wearing to a mottled mix of brown, purple and blue. There is scattered pitting under the new finish with a few light handling marks. The synthetic factory grips with five pointed star and "CCCP" spaced between the points rate very good with light dents, dings and scratches. The slide and barrel are numbered alike but are not numbered to the frame. The trigger assembly is numbered to the frame as is the provided magazine. Both the slide and frame are dated 1941 and no importer mark is found. (88100-106) {C&R} [Walter "Walt" Rauch Collection] (200/400)
2012. **COLT POLICE POSITIVE REVOLVER** serial #165261, 38 New Police (S&W), 4" barrel with an excellent bore. The metal surfaces of this 1925 made revolver retain about 85% factory blue with the grip frame worn to brown, high edge wear, scattered scratches, oxidation blemishes, fine pitting and turn ring on the cylinder. The un-numbered fleur-de-lis checkered hard rubber factory grips with stylized "C" around the escutcheons rate poor. The right panel has a crack running from the front of the grip through the escutcheon and slightly beyond and the left panel has a 3/4" piece broken off the toe but the piece is present. Replacing the grips should turn this into a solid shooter. (88100-129) {C&R} [Walter "Walt" Rauch Collection] (200/400)
2013. **SHARPS MODEL 1 PEPPERBOX PISTOL** serial #43075, 22 RF, 2 1/2" four-barrel cluster with lightly frosted bores. The metal surfaces are devoid of finish with the frame an even ochre and the barrel worn to brown showing light oxidation stains and pitting. The trigger and hammer are also brown with oxidation blemishes. The unmarked floral "gutta-percha" factory grips rate very good to excellent with small shallow chip on the base of the left panel. The hammer mechanism is fully functional but the barrel to standing breech fit has slight play. The company address and patent information are stamped in circular configuration on the frame. (88100-155) {ANTIQUÉ} [Walter "Walt" Rauch Collection] (200/400)
2014. **KEL-TEC MODEL PF-9 SEMI-AUTO PISTOL** serial #R1542, 9mm, 3 1/8" barrel with an excellent bore. The metal surfaces retain about 99% blue and the polymer frame rates excellent. The pistol feature three dot sights, double action only and an accessory rail on the dust cover. It includes a factory box correctly end labeled and numbered to the gun, (1) single stack magazine with finger rest floorplate, (1) single stack magazine with flat floorplate and (1) replacement flat magazine floorplate. This gun has would be a good concealed carry gun. (88100-66) {MODERN} [Walter "Walt" Rauch Collection] (200/400)
2015. **KEL-TEC MODEL PF-11 SEMI-AUTO PISTOL** serial #108230, 9mm, 3 1/8" barrel with an excellent bore. The metal surfaces retain about 99% blue and the polymer frame rates near excellent with a small ding on the frontstrap. The pistol feature three dot sights and double action only. It includes a factory box correctly end labeled and numbered to the gun, (1) double stack magazine with finger rest floorplate, (1) replacement flat magazine floorplate, (3) spare two dot rear sights of varying heights, (2) single dot front sights of varying height and a spare nylon recoil spring guide (the one in the gun is metal). This gun has would be a good concealed carry gun. (88100-161) {MODERN} [Walter "Walt" Rauch Collection] (200/400)
2016. **KEL-TEC MODEL P3AT SEMI-AUTO PISTOL** serial #JTC80, 380 ACP, 2 3/4" barrel with an excellent bore. The metal surfaces retain about 99% Parkerized finish with minor handling marks and the polymer frame rates near excellent with scattered light handling marks. The pistol features rudimentary sights and double action only. It includes a factory hard case correctly end labeled and numbered to the gun and a single magazine with extension to increase capacity. The lips that form the channel on the magazine extension that accept the magazine tube are damaged on the right side and should be replaced. (88100-117) {MODERN} [Walter "Walt" Rauch Collection] (150/250)
2017. **RUGER LCP SEMI-AUTO PISTOL** serial #370-67435, 380 ACP, 2 3/4" barrel with an excellent bore. The metal surfaces retain about 99% blue finish and the polymer frame rates excellent. The pistol features rudimentary sights, manual slide stop and double action only. It includes a factory box correctly end labeled and numbered to the gun, a single magazine with finger rest floorplate, replacement flat magazine floorplate, nylon soft case with Ruger logo, fired case, manual and paperwork. The LCP has a good reputation for reliability and makes a good back up pistol or concealed carry gun. (88100-65) {MODERN} [Walter "Walt" Rauch Collection] (200/400)
2018. **BAIKAL / KBI MODEL IJ-70 "MAKAROV" SEMI-AUTO PISTOL** serial #J026945, 9x18mm Makarov, 3 5/8" barrel with an excellent bore. The metal surfaces retain about 99% factory matte blue with limited forward edge wear. The pistol includes two sets of grips and currently sports checkered black one-piece synthetic grip with "Baikal" on one side and "Made in Russia" on the other. This set rates excellent and has a lanyard loop. The pistol sports a black blade fully adjustable rear sight and single white dot front sight. It includes a factory craft box and shipping sleeve correctly labeled and numbered to the gun, a spare one-piece neoprene checkered grip that should add considerable shooting comfort and (3) magazines. The factory box indicates a holster but none is provided. (88100-133) {MODERN} [Walter "Walt" Rauch Collection] (100/200)

This custom inscribed rifle is one of a set of rifles purchased as gifts for employees and is new with its original box. This rifle is consecutively numbered with the following lot. (128087-207) {MODERN} (350/550)

2079. **CUSTOM INSCRIBED HENRY GOLDEN BOY LEVER ACTION RIFLE CONSECUTIVELY NUMBERED** serial #GB051940, 22 LR, 20" octagon barrel with a bright excellent bore. The metal surfaces retain 99% original finish on the golden Brasslite receiver, brass buttplate, and blue barrel and action showing a few minor handling blemishes, some fogging on the receiver and a couple of specks of tarnish on the buttplate. The American walnut stock and forearm rate excellent with a tiny handling mark on the buttstock and some factory fitted wood filler by the buttplate. The right side of the receiver is inscribed with "Let's Roll". This is one of a set of rifles purchased as gifts for employees and is new. This rifle is consecutively numbered with the previous lot. (128087-210) {MODERN} (350/550)

2080. **SMITH & WESSON VICTORY MODEL REVOLVER** serial #V371306, 38 Special, 4" barrel with an excellent bore. The metal surfaces retain about 90% factory "Black Magic" Parkerized finish with the backstrap worn to gunmetal gray, high edge wear, scattered scratches, a section of frame below the left side window cold blued and a turn ring on the cylinder. The standard trigger and standard hammer retain bold case-hardened colors with light operational wear. The grips are incorrect replacement checkered walnut factory Magna grips with silver S&W medallions that rate very good plus with light handling wear. The lanyard loop has been replaced with an incorrect round one. The topstrap is marked with "[ordnance bomb] U.S. Property G.H.D." and all appropriate parts are correctly numbered to the gun. (88050-485) {MODERN} (350/550)

2081

2081. **WINCHESTER MODEL 1906 SLIDE ACTION RIFLE** serial #628692, 22 S, L, LR, 20" round barrel with bright very good bore. The barrel and magazine tube are an overall brown color patina with traces of blue left in protected areas. There is a spot of pitting above the grooved forend along the right side of the barrel. The frame, hammer, and trigger group are a blue flaking to brown mix with spots of strong blue remaining. The smooth straight walnut stock and grooved forend rate very good plus showing multiple light handling marks and spots of flaking varnish. An honest '06 that appears complete in overall very good condition. (108139-62D31982) {C&R} (350/550)

2082. **RUGER MARK I SEMI-AUTO PISTOL** serial #329834, 22 LR, 6 7/8" tapered target barrel with an excellent bore. This 1965-made pistol retains about 98% factory blue finish with the backstrap starting to thin and high edge wear. The factory checkered walnut thumb rest grips with black Ruger Phoenix medallions rate near excellent with a few minor dings. This pistol has fully adjustable Micro rear sight and undercut Partridge front sight. This pistol includes a single magazine and a manual. (87888-9) {C&R} (250/350)

2083. **PAIR OF EUROPEAN PERCUSSION BOOT PISTOLS**

.65 cal. percussion, 5 1/2" octagon a smoothbore barrels with oxidized bores. The metal surfaces are an overall lightly oxidized brown patina with pewter undertones, primarily on the action frames. The barrels show light geometric engraving and have moderate pitting in the areas of cap splash around the nipples. These folding-trigger boot pistols are completely unmarked, with facsimile proofs, but the mechanism seems to function properly. The European walnut grips both rate very good plus to fine showing a good deal of original varnish but also the overall light handling marks and dings one would expect from the years. The butts are capped with iron faceted caps with small turned finials. (37863-12) {ANTIQUE} (300/500)

2084

2084. **FOREHAND & WADSWORTH SINGLE SHOT PIVOT BREECH DERINGER**

serial #5969, .22 RF, 2 1/8" part octagon part round barrel with a fair-poor bore. The barrel retains about 97% original nickel, the loss being a light sharp edge wear and some very minor pits on the barrel's left side. The iron frame is now an overall gunmetal patina with minor oxidation staining and some scattered pin-prick pitting, retaining perhaps 10% original nickel. Both hammer and trigger are a dull gray patina. The smooth rosewood grips rate about very good as lightly cleaned many years ago, the metal now being slightly proud. The mechanism works but barrel-to-frame fit is loose. (37420-21) {ANTIQUE} (300/500)

2085. **NEW ENGLAND PERCUSSION HALFSTOCK SPORTING RIFLE WITH WILLIAM READ LOCK**

About 50 cal., 26 1/4" octagon barrel with a very good lightly oxidized bore. The barrel is an overall light plum and speckled brown patina, it is un-marked and features a

2085

simple drum and nipple without bolster. There is a rather thick front brass sight soft-soldered near the muzzle and a Winchester 3C sporting rear sight at the rear. The back-action "Wm Read & Sons/Boston" marked lock is an overall dull gray patina showing light borderline engraving with some light loose scroll and a pheasant. The iron tang shows two additional drilled and tapped holes, for some manner of sight which is no longer present. There is a simple nose cap of pewter, oval wedge escutcheons, food chopper sideplate and a simple brass triggerguard with single forward-curving spur. Additionally there are crescent butt and toeplates of brass and a pendulum shaped patchbox. The stock appears to be New England Butternut and is stained a red-russet hue with much original varnish with the overall light dings and handling marks from the years and some crazing of the finish. There are a couple of the lengthy cracks along the left side of the forend which extend back toward the sideplate. What is likely an original striped ramrod is present and the lock functions loosely mechanically; there are two added drilled and tapped holes in the left barrel flat near the breech. (37147-67) {ANTIQUE} [Terry Buffum Collection] (300/500)

2086. **RARE ENGRAVED ASTRA CUB SEMI AUTO PISTOL**

serial #95537, 22 Short, 2 1/4" barrel with an excellent bore. The metal surfaces retain about 93% original blue with wear on front and backstraps and fading on the left and right of slide. The pistol has factory loose foliate engraving with background punch-dot shading in near full coverage. The checkered hard rubber grips rate very good plus showing some light handling marks and are maker and model marked including "Cub". Included with the arm are an original nicked magazine, steel wiping rod in its original onionskin paper, owner's manual and an original correct picture-box which is numbered to a different gun. An affordable pistol that will likely be a great backup gun, very rarely encountered blued or engraved. (3,208073-1) {MODERN} (200/300)

2086

2087. **COLT AUTOMATIC CALIBER .25 SEMI-AUTO PISTOL**

serial #0D26831, 25 ACP, 2 1/4" barrel with an excellent bore. The metal surfaces retain about 90% plus factory blue with high edge wear and other handling marks. The checkered walnut factory grips with silver Colt medallions rate good to very good with light to moderate diamond compression and handling marks. There is no magazine provided. (87908-2) {MODERN} (150/250)

2088. **HIGH STANDARD MODEL DM-101 DERINGER PISTOL** serial #2225477, 22 W.M.R.F., 3 1/2" over / under barrel with excellent bores. The metal surfaces retain about 99% original blue and anodized finishes with light high edge wear and handling marks. The smooth faux ivory factory grips rate excellent. (87908-3) {MODERN} (175/275)
2089. **HIGH STANDARD MODEL DM-100 DERINGER PISTOL** serial #1509306, 22 LR, 3 1/2" over / under barrel with excellent bores. The metal surfaces retain about 98% original blue and anodized finishes with light high edge wear and handling marks. The smooth faux ivory factory grips rate very good to excellent with a few light scratches and scuffs. (87908-3) {MODERN} (175/275)
2090. **COLT PRE-WOODSMAN TARGET SEMI-AUTO PISTOL** serial #11512, 22 LR, 6 5/8" pencil barrel with a slightly frosted bore. The metal surfaces of this 1919-made pistol retain about 75% thinning blue finish with moderate high edge wear, grip frame worn to pewter, barrel thinning to a mottled mix of blue, pewter and purple, and scratches. The diamond checkered walnut factory grips rate good to very good with moderately worn diamond points and light handling wear. The pistol features correct adjustable bead front sight and "U" notch adjustable rear sight. A well-used but not abused Pre-Woodsman that includes a single magazine. (87996-7) {C&R} (300/500)
2091. **HIGH STANDARD MODEL B SEMI-AUTO PISTOL** serial #25860, 22 LR, 4 1/2" barrel with an excellent bore. The metal surfaces of this New Haven Connecticut made pistol retain about 85% original blue finish with the grip frame worn to pewter, rear of the slide purple, high edge wear and handling marks. The checkered hard rubber grips rate about very good with light handling wear and a few scratches. This pistol is equipped with a type I-A takedown and includes a single two tone magazine. (87996-9) {C&R} (200/400)
2092. **SMITH & WESSON MODEL 36 CHIEFS SPECIAL REVOLVER** serial #J267707, 38 Special, 1 7/8" pinned barrel with an excellent bore. The metal surfaces retain about 97% factory nickel plate with scattered light oxidation blemishes and pitting, mostly on the cylinder, in addition to a light turn ring and a few handling marks. The standard hammer and trigger retain bold case-hardened colors with light operational wear and freckling. The checkered walnut factory grips with silver S&W medallions are not correctly numbered to the gun but rate good exhibiting light to moderate wear, handling marks and compression of the diamond points. The revolver includes a factory box end labeled for a blued model 36 with a different serial number. Also included are a cleaning kit, manual and paperwork. (88002-60) {MODERN} [Charles Hadley Collection] (300/500)
2093. **NAVY ARMS COLT 1851 PERCUSSION REVOLVER BY UBERTI** serial #45, .36 percussion, 7 1/2" octagon barrel with an excellent bore exhibiting light oxidation staining. The metal surfaces of the barrel and cylinder retain about 98% factory blue with some light oxidation stains at the muzzle. The hammer, loading lever and frame retain bold case-hardened colors with light operational and handling wear. The brass grip frame is lightly tarnished but rates very good to excellent overall. The smooth one-piece walnut grips rate very good to excellent with light handling marks and scuffs. The wedge screw is missing but the revolver still times and locks up correctly. (87942-133) {ANTIQUE} (75/150)
2094. **COLT MODEL 1903 POCKET HAMMERLESS SEMI-AUTO PISTOL** serial #4887, 32 ACP, 4" barrel with a frosted bore. This early Colt is equipped with a removable barrel bushing and smaller diameter barrel. The metal surfaces of this 1904 made pistol retain about 50% reapplied blue finish with high edge wear, the slide is predominately brown, pitting and a few light oxidation blemishes. The trigger is a standard blue but some Nitre finish remains on the safety in the protected areas. The checkered factory hard rubber grips rate very good with strong diamond points, crisp circled Rampant Colts and correct "Colt" surrounded by scalloped borders. The pistol includes a single unmarked magazine with about 70% finish. (87942-106) {C&R} (250/350)
2095. **COLT ARMY SPECIAL REVOLVER** serial #439447, 38 Special, 5" barrel with an excellent bore. The metal surfaces of this 1919 made revolver retain about 50% factory blue with the grip frame worn to pewter, barrel and cylinder thinning to a mix of pewter and smoke gray, high edge wear, scattered pitting and handling marks. The hammer and trigger retain strong blue with sparse freckling on the sides of the hammer plus worn blue on the trigger. The checkered hard rubber grips are correctly numbered to the gun and rate very good to excellent with light handling wear. Timing on single action is in need of attention. (87590-8) {C&R} (200/300)
2096. **SMITH & WESSON MODEL 2214 SPORTSMAN SEMI-AUTO PISTOL** serial #UBF6963, 22 LR, 3" barrel with an excellent bore. This pistol retains about 98% black finish with light high edge wear and handling marks. The checkered black synthetic grips rate excellent. The pistol features three dot sights and appears to have had the firing pin and recoil spring changed in the past. Included are a pair of magazines, spare recoil spring, orange take down tool, old firing pin and a MTM Case-Gard hard case. (88050-304) {MODERN} (200/300)
2097. **SMITH & WESSON MODEL 22A SPORT SERIES SEMI-AUTO PISTOL** serial #UAK8174, 22 LR, 4" barrel with an excellent bore. This pistol retains about 99% black finish. The smooth grain finish of the black factory polymer grips with S&W logo rate excellent. There is a full-length rail for optics with built in fully adjustable black blade rear sight and Patridge front sight. The sights offer a decent sight picture with easily mounted optics. The pistol includes a factory hard case correctly end labeled and numbered to the gun and a pair of magazines. The pistol appears to have seen minimal use. (88050-308) {MODERN} (150/250)
2098. **RUGER MARK II SEMI-AUTO TARGET PISTOL** serial #218-83720, 22 LR, 4" bull barrel with an excellent bore. The metal surfaces retain about 99% factory blue. The checkered black Delrin factory grips with single silver Ruger Phoenix medallion rate excellent. The pistol features the undercut Patridge front sight and adjustable rear sight of its longer 5 1/2" sibling. The trigger is an aftermarket replacement (possibly a Volquartsen) with a smooth wide curved paddle configuration featuring a overtravel set screw. The pistol includes a factory hard case correctly end labeled and numbered to the gun, a single magazine and a manual. This gun has seen little if any use. (88050-301) {MODERN} (250/350)
2099. **WALTHER P22 SEMI-AUTO PISTOL** serial #L001017, 22 LR, 3 3/8" barrel with an excellent bore. The metal surfaces retain about 99% blue and anodized finishes and the polymer frame rates excellent. The pistol features three dot windage adjustable rear sight, interchangeable front sight, mounting rail on the dust cover and ambidextrous slide mounted safety. Included with the pistol are a factory hard case correctly end labeled and numbered to the gun, a pair of magazines, barrel wrench, trigger lock key, (2) different height front sights, blank for front sight slot, (1) different size replacement backstrap, mounting pin, trigger lock with a pair of keys, fired case, hang tag still on the gun, manual and paperwork. This gun appears as new in the box. This gun should make a nifty little trail gun, trainer or plinker. (88050-307) {MODERN} (200/300)
2100. **WALTHER P22 SEMI-AUTO TARGET PISTOL** serial #N013997, 22 LR, 5" barrel with an excellent bore. The metal surfaces retain about 99% blue and anodized finishes and the polymer frame rates excellent. The pistol features three dot windage adjustable rear sight, interchangeable front sight, mounting rail on the dust cover, frame extension and ambidextrous slide mounted safety. Included with the pistol are a factory hard case correctly end labeled and numbered to the gun, a pair of magazines, barrel wrench, trigger lock key, (2) different height front sights, (2) variable size Allen wrenches, (1) different size replacement backstrap, mounting pin, cable lock with a pair of keys, fired case, hang tag still on the gun, manual and paperwork. This gun appears as new in the box. (88050-212) {MODERN} (200/300)
2101. **WALTHER P22 SEMI-AUTO PISTOL** serial #A006105, 22 LR, 3 3/8" barrel with an excellent bore. The metal surfaces retain about 99% blue and anodized finishes and the polymer frame rates excellent. The pistol features three dot windage adjustable rear sight, interchangeable front sight, mounting rail on the dust cover and ambidextrous slide mounted safety. Included with the pistol are a factory hard case correctly end labeled and numbered to the gun, a pair of magazines, barrel wrench, trigger lock key, (2) different height front sights, blank for front sight slot, (1) different size replacement backstrap, mounting pin, trigger lock with a pair of keys, fired case, hang tag still on the gun, manual and paperwork. This gun appears as new in the box. (88050-540) {MODERN} (200/300)

2102. **RUGER STANDARD MODEL SEMI-AUTO PISTOL** serial #91546, 22 LR, 4 3/4" tapered barrel with an excellent bore. This 1954-made gun retains about 98% factory blue with light handling marks, high edge wear and few light stains from oxidation. The black checkered Delrin grips with single black Ruger Phoenix medallion rate near excellent with minor handling wear. The pistol includes a single magazine and an excellent condition Triple K model 39-28 leather belt holster with built in magazine holder and a retention strap. (88060-113) {C&R} (200/300)
2103. **WALTHER PP SEMI-AUTO PISTOL** serial #323518, 32 ACP, 3 7/8" barrel with an excellent bore. This importer marked former police issue pistol retains about 96% factory blue finish with high edge wear, scratches, and handling marks. The grips are replacement black checkered plastic factory thumb rest grips from a Sport PP model that very good to excellent with light handling wear. The pistol is proof dated 1962, the slide is scratch numbered to the gun and the police markings near the serial number have been heavily "X"-ed out. The pistol includes a factory box correctly end labeled and numbered to the gun, single magazine with finger rest, single magazine with plain base, brass cleaning rod and a manual. The inside of the cover has a "hit image" chart probably placed there by the police department but later covered with a warning sticker by the importer. (88060-141) {C&R} (300/500)
2104. **MAUSER MODEL 1914 SEMI-AUTO PISTOL** serial #90144, 32 ACP, 3 1/2" barrel with a slightly frosted bore. The metal surfaces retain about 95% factory blue that is starting to fade to purple with high edge wear, scratches and minor dings. The trigger and barrel retention pin retain strong Nitre blue exhibiting some handling wear. The checkered walnut factory wrap around grips rate fair with scattered light handling marks but several moderate to heavy dents on the forward edge of the grip on both sides. The pistol includes a pair of magazines and a brown leather flap holster showing moderate wear and a repair to the flap. The leather is crazing, cracking, scuffed with the remaining original stitching still intact. The markings inside the flap are too worn to distinguish but the back of the holster below the flap seam is stamped "L.Z.A. / [eagle] / J.Ba??". The last part of the stamping was obscured when the flap was re-stitched. The holster resembles a softshell made by Robert Larsen of Berlin but may not be correct. (88060-105) {C&R} (300/500)
2105. **WALTHER P1 SEMI-AUTO PISTOL** serial #315931, 9mm, 5" barrel with an excellent bore. This 3/66 dated pistol retains about 99% original Parkerized and anodized finishes with a few light handling marks. The checkered black plastic grips rate near excellent with a few light scratches and scuffs. The slide is date stamped 3/66 but the proof house date on the frame is 1968 and the un-numbered slide is likely a replacement. There are no importer marks found. (88071-3) {MODERN} (300/500)
2106. **COLT NEW SERVICE REVOLVER** serial #349270, 45 Colt, 5 1/2" barrel with an excellent bore. This 1940 made revolver retains about 95% non-factory reapplied blue finish with light high edge wear, backstrap toning to brown, cleaning marks in the metal, pinprick pitting and scattered oxidation blemishes. The unmarked checkered walnut factory grips with silver Colt medallions rate fair with the right panel sanded smooth with a few remnants of checkering and the left side diamond points moderately to heavily worn. They also include dents, dings, scuffs and later applied finish. The markings on the gun have softened from the metal preparation but are all present. The revolver includes a lanyard loop. This gun should make a good shooter. (87942-42) {C&R} (300/500)
2107. **COLT POLICE POSITIVE REVOLVER** serial #55253, 32 Colt New Police, 2 1/2" barrel with an excellent bore. This 1907 made revolver retains about 90% factory blue with most of the loss to the grip frame and frame along with high edge wear, oxidation blemishes and light pitting. The Nitre blue on the trigger and top of the hammer rates near excellent with light wear. The un-numbered checkered hard rubber factory grips with "Colt" in an oval rate excellent with light handling marks. The left side of the barrel is marked "Colt New Police 32" and the Rampant Colt is encircled with "Colt's New Police" and Maltese crosses. The butt is inventory numbered "2713" but there are no other markings. (87942-109) {C&R} (250/350)
2108. **COLT POLICE POSITIVE REVOLVER WITH GRAND RAPIDS POLICE MARKINGS** serial #77384, 38 Colt New Police, 4" barrel with a hint of frosting. This 1914 revolver retains about 60% factory blue with the cylinder mostly toned to pewter except the flutes, grip frame thinning to gunmetal gray, moderate high edge wear, oxidation blemishes, minor pitting and handling marks. One area of the cylinder shows moderate pitting with light pitting on the backstrap and the bottom of butt. The checkered fleur-de-lis hard rubber grips with stylized C around the escutcheons rate excellent but are not correctly numbered to the gun. The butt of the gun is marked "GRPD No. 143" purportedly for Grand Rapids Police Department (*The Book of Colt Firearms* by R.L. Wilson). This little gun spent some time in a holster but still times and locks up correctly. (87942-45) {C&R} (200/300)
2109. **AMERICAN TACTICAL IMPORTS MODEL HP9 SEMI-AUTO PISTOL** serial #T0620-08A05520, 9mm, 5" barrel with an excellent bore. This pistol retains about 99% blue and anodized finishes. The black plastic checkered factory grips rate excellent. The pistol features three dot sights and ambidextrous slide mounted decocker / safety. The pistol includes a single "TISAS" marked magazine with Mec-Gar "Plus 2" extended base plate. (88060-111) {MODERN} (150/350)
2110. **COLT MODEL 1896 NEW NAVY REVOLVER** serial #93529, 41 Colt, 4 1/2" barrel with an excellent bore. The metal surfaces of this 1898 made revolver retain about 75% factory blue finish with the grip frame toned to brown, high edge wear, a few oxidation blemishes and the finish generally thinning to purple. The checkered hard rubber grips with "Colt" in an oval rate very good with light handling wear. All appropriate parts including the grips are correctly assembly numbered to the gun. Timing and lock up remain excellent. A salty old Colt that should be good for the occasional trip to the range. (87942-44) {ANTIQUÉ} (250/450)
2111. **COLT DETECTIVE SPECIAL REVOLVER** serial #887359, 38 Special, 2" tapered barrel with an oxidized and pitted bore. The metal surfaces of this 1965 made revolver retain at best about 10% factory blue with most of the finish in the flutes and protected areas. The remaining surfaces are a combination of pewter, brown and smoky gray with scattered pitting, oxidation blemishes, dings and other handling wear. The checkered walnut factory grips with silver Colt medallions rate good with moderate diamond point wear and light handling marks. Lockup remains tight but timing is going to need attention. (87942-145) {C&R} (100/200)
2112. **COLT MODEL 1903 POCKET HAMMERLESS SEMI-AUTO PISTOL** serial #356354, 32 ACP, 3 3/4" barrel with a frosted bore. This 1920-made pistol retains about 85% factory blue with high edge wear, a few oxidation blemishes, pitting, thinning finish on the slide and handling marks. The checkered hard rubber factory grips have "Colt" in a scalloped border but are not correct for this gun and rate poor with a large section of each panel broken off. "70906 / K-1 MR" is scratched onto the left side of the frame above the trigger. A single correctly marked factory two-tone magazine is provided. (87942-65) {C&R} (300/500)
2113. **SMITH & WESSON MODEL 422 FIELD SEMI-AUTO PISTOL** serial #UBC8376, 22 LR, 4 1/2" barrel with an excellent bore. The pistol retains about 99% factory blue and anodized finishes with slight high edge wear and few handling marks. The checkered black synthetic grips with S&W logo rate excellent with a single grip screw missing but should still be available from parts suppliers. The pistol features black ramp front sight and drift adjustable black blade rear sight. The pistol includes a single factory magazine. (88050-305) {MODERN} (250/350)
2114. **BERETTA MODEL 70S SEMI-AUTO PISTOL** serial #A44224Y, 380 ACP, 3 1/2" barrel with an excellent bore. This pistol retains about 97% factory blue with light high edge wear, a cleaned area of pitting on the right side of the slide and light handling marks. The checkered synthetic grips with Beretta logo rate near excellent with a few light scratches. The pistol includes a single factory magazine with finger rest floorplate. (88060-135) {MODERN} (250/350)
2115. **SMITH & WESSON MODEL 1 1/2 SINGLE ACTION TOP-BREAK REVOLVER** serial #17472, 32 S&W (short), 3 1/2" barrel with a lightly frosted bore. The metal surfaces retain about 97% factory nickel plate with scattered light oxidation blemishes, turn ring on the cylinder and a few handling marks. The case-hardened colors on the hammer remain robust with light operational wear. The diamond checkered hard rubber grips with block letter S&W logo rate excellent. All appropriate parts and the grips are correctly numbered to the gun. Timing and lock remain excellent and barrel-to-frame fit is tight. (87949-31) {ANTIQUÉ} (300/500)

2116. **SMITH & WESSON THIRD MODEL DOUBLE ACTION TOP-BREAK HAMMER REVOLVER** serial #202549, 38 S&W, 5" barrel with a frosted bore. The metal surfaces retain about 99% non-factory reapplied nickel plate with scattered light handling marks, turn ring on the cylinder and minor pitting under the new finish. The hammer, trigger, triggerguard and top latch are now nickel plated. The grips are unmarked aftermarket hardwood with an acrylic spacer fitted in the butt section to convert the gun to a square butt when they are installed. The grips rate very good to excellent with light handling wear. All appropriate parts are correctly numbered to the gun. The timing is going to need attention but lock up is good and the barrel-to-frame fit has just a hint of play. (87942-73) {ANTIQUÉ} (75/150)
2117. **SMITH & WESSON MODEL ONE-AND-A-HALF SINGLE ACTION REVOLVER** serial #73467, 32 S&W, 3 1/2" barrel with a frosted bore. The metal surfaces retain about 96% non-factory reapplied nickel finish with light flaking, a few scattered scratches and limited bubbling. The case-hardened colors of the hammer and trigger are robust with light operational wear. The diamond checkered hard rubber grips with S&W monogram rate excellent. All correct parts, including the grips, are correctly numbered to the gun. The mainspring has been removed from the gun but is provided. (86520-3927) {ANTIQUÉ} [Richard "Stretch" Kennedy Collection] (75/150)
2118. **COLT AGENT REVOLVER** serial #42297LW, 38 Special, 2" Agent-marked barrel with an excellent bore. The serial number range of this gun places manufacture in 1955, but, according to [The Book of Colt Firearms](#) by R.L. Wilson the Agent was not available until 1962. Some sources state the production of the Agent started as early as 1955, probably using the then-available Courier frames. The metal surfaces retain about 90% plus blue and anodized finishes with the backstrap worn to pewter, front strap thinning, high edge wear, scattered scratches, dings and few minor pits. The checkered walnut factory grips with silver Colt medallions are correctly numbered to the gun and rate good to very good with light to moderate diamond point wear in addition, to handling marks. (86520-1993) {C&R} [Richard "Stretch" Kennedy Collection] (300/500)
2119. **SMITH & WESSON MODEL 10-5 REVOLVER** serial #C859545, 38 Special, 4" pinned barrel with an excellent bore. The metal surfaces retain about 98% original blue with light high edge wear, limited freckling, a turn ring on the cylinder and a few handling marks. The standard trigger and standard hammer retain bold case-hardened colors with light operational wear. The revolver is fitted with checkered rubber Pachmayr Presentation grips that rate near excellent with light handling wear. (88186-1) {MODERN} (300/500)
2120. **HENRY U.S. SURVIVAL MODEL H002B SEMI-AUTO RIFLE** serial #US106728B, 22 LR, 16" barrel with an excellent bore. This rifle retains about 99% factory black matte finish with a few light handling and storage marks. The matte finished black synthetic buttstock rates excellent. The rifle includes the original factory box that is correctly end labeled and numbered to the gun and a pair of factory magazines. This rifle has seen minimal use. (88186-2) {MODERN} (150/250)
2121. **RUGER 10/22 "LIBERTY" SEMI-AUTO RIFLE** serial #355-11458, 22 LR, 18 1/2" barrel with an excellent bore. The matte stainless steel surfaces rate very good to excellent with scattered light handling wear. The matte silver anodized receiver retains about 99% finish. The black one-piece synthetic factory stock with integral checkered buttplate rates very good to excellent with a few scattered handling marks. The rifle has been set up for Appleseed shoots and features a Volquartsen bolt, Tech Sights model TSR200 "AR-15" style receiver sight and front sight, quick detachable sling swivel studs and the original folding factory rear sight. The rifle also includes a single factory magazine, Tech Sights sight adjustment tool, (2) spare receiver sight inserts, (2) Allen wrenches of vary sizes and a 1 1/4" canvas web sling. Overall, a fine rifle for those who are anticipating an Appleseed shoot or enjoy that style of rifle shooting. (88186-3) {MODERN} (150/250)
2122. **WINCHESTER MODEL 94 LEVER ACTION RIFLE** serial #3754277, 30-30 W.C.F., 20" barrel with an excellent bore. The metal surfaces of this 1971 dated rifle retain about 97% factory blue with a few scattered oxidation blemishes and scratches. The smooth straight grip buttstock rates excellent with several small dings. The checkered synthetic buttplate rates very good to excellent with light scratches and dents. The smooth walnut forend rates very good to excellent with a few light dents, dings and scratches. The rifle features an adjustable blade step rear sight and bead front sight with hood. The perfect rifle for your next woodland deer hunt. (88103-1) {MODERN}(300/500)
2123. **SMITH & WESSON MODEL 10-6 MILITARY & POLICE REVOLVER** serial #D469810, 38 Special, 4" pinned heavy barrel with an excellent bore. The metal surfaces retain about 90% factory finish with moderate high edge wear, areas of thinning finish, scratches, several small impact marks around the window and recoil shield, oxidation stains and turn ring on the cylinder. The standard hammer and standard trigger retain bold case-hardened colors with moderate operational wear. The diamond checkered walnut factory grips with silver S&W medallions are not correctly numbered to the gun and rate good to very good with scattered diamond point compression, small chip missing from the front of the left panel, scuffs, scratches and dings. This M&P has seen some use but still times and locks up correctly. (88103-4) {MODERN} (200/400)
2124. **HARRINGTON & RICHARDSON AUTO-EJECTING THIRD MODEL TOP-BREAK REVOLVER** serial #276152, 32 S&W Long, 3 1/4" barrel with an excellent bore. This revolver retains about 90% factory blue with most of the loss to oxidation blemishes, pitting and handling wear. The checkered hard rubber factory grips rate excellent. The barrel, cylinder and grips are correctly numbered to the gun. The revolver still mechanically functions and barrel-to-frame fit is tight. (88103-3) {C&R} (100/200)
2125. **COLT MODEL 1908 VEST POCKET HAMMERLESS SEMI-AUTO PISTOL** serial #95374, 25 ACP, 2" barrel with a frosted bore. The metal surfaces of this 1913 made pistol retain about 70% factory nickel plate with wear and flaking on the grip frame, triggerguard, trigger and grip safety as well as minor loss in other areas. Also present is scattered fine scratches, pitting and the right side of the slide has been cleaned with the lightly scratched initials "MCP". The checkered hard rubber factory grips rate about excellent. The slide is correctly numbered to the gun and the pistol includes a single unmarked nickel plated magazine. (88002-79) {C&R} [Charles Hadley Collection] (250/350)
2126. **COLT MODEL 1877 "LIGHTNING" REVOLVER** serial #69969, 38 Long Colt, 2 1/2" barrel with an excellent bore. This revolver was made in 1888 and retains about 5 - 10% factory blue in the protected areas and a few faded swirls of case-hardened colors left on the frame. The grips are unmarked contemporary synthetic replacements that rate excellent. The mechanism seems fully functional with good timing and lockup. (87958-12) {ANTIQUÉ} (300/500)
2127. **COLT MODEL 1877 "LIGHTNING" REVOLVER** serial #140216, 38 Long Colt, 4 1/2" barrel with a frosted bore. The metal surfaces of this turn-of-the-century (1903) made gun are mostly pewter with brown mixed in and traces of factory blue in the protected areas. No case-hardened colors remain and the trigger is a purple / brown color. The checkered hard rubber factory grips are not correctly numbered to the gun and exhibit moderate to heavy wear to the diamond points with the Rampant Colt in a circle still showing some subdued details. The mechanism is still operational but the trigger return spring is in need of attention as it tends to stick. (87949-58) {ANTIQUÉ}(300/500)
2128. **ARMI SAN MARCO COLT MODEL 1860 ARMY PERCUSSION REVOLVER** serial #D47414, .44 cal., 7 1/2" octagon barrel with an excellent bore. The metal surfaces retain about 99% factory blue with scattered light scratches. The brass frame rates excellent with light scattered scratches. The smooth hardwood grips rate excellent. (8103-6) {ANTIQUÉ} (75/100)
2129. **JAPANESE TYPE 14 LARGE TRIGGERGUARD SEMI-AUTO PISTOL BY NAGOYA KOKUBUNGI ARSENAL** serial #94586, 8 mm Nambu, 4 5/8" barrel with a frosted bore. The pistol retains about 50% factory blue with the grip frame toning to brown, barrel / receiver assembly pewter along with oxidation stains, high edge wear and pitting. The hardwood grips rate about good with scattered light to moderate dents, dings and scratches. The firing pin and guide are un-numbered, all parts on the barrel / receiver assembly are not numbered to the gun but numbered alike (#249) and all parts on the frame assembly are correctly numbered to the gun. The frame is dated June, 1941, the markings on the frame are for the first run Nagoya Kokubungi Arsenal and the magazine retention spring is missing from the front of the grip. The pistol includes a single magazine that is not numbered to the gun (#274). (88103-2) {C&R} (150/250)

2130. **STEVENS MODEL 70 VISIBLE LOADER SLIDE ACTION RIFLE** serial #G948, 22 S.L.L.R, 22" round barrel with an about very good bore showing light oxidation and some fine pitting. The metal is overall brown with scattered modest surface oxidation with patches of contact wear. The plain walnut stock and grooved forearm rate near excellent with a few light blemishes in a nice oil finish. This rifle is partially disassembled and is missing the rear sight, magazine tube bands, lower front receiver screw along with other small action screws and parts. (57951-55) {C&R} [Tweed Herendeen Collection] (15/30)
2131. **WINCHESTER 1885 HIGHWALL RIFLE WITH CUSTOM DARR BARREL** serial #9660, 28-30, 29 3/4" octagon heavy barrel with a bright excellent bore. The barrel retains an overall dark patina with scattered fine oxidation and patches of more moderate oxidation mainly along the right side and belly of the barrel. There is no evidence of open sights being installed and the barrel is marked "B.W. DARR" on the top flat between the steel target blocks. The color case-hardened action has toned to a bright silver patina with scattered fine oxidation, the right side of the frame shows moderate pitting and oxidation. The plain walnut stock rates very good plus with light handling marks still retaining about 90-95% original finish with perhaps a little added oil, there is no forearm present. (57951-52) {ANTIQUÉ} [Tweed Herendeen Collection] (200/300)
2132. **STEVENS NO. 23 "SURE SHOT" RIFLE** serial #J9, 22 RF, 20" round barrel with a good bore showing pitting and oxidation staining the entire length. The barrel retains a gray-brown patina with scattered fine oxidation staining and generous traces of original blue along the belly of the barrel. The frame retains 95-97% original nickel with scattered specks of light freckling, scratches and a small rounded chip in the right side of the frame at the breech. The plain walnut stock rates good overall with handling marks and a repair to the right wrist secured by two pins in the left under an added gloss varnish. (7951-197) {ANTIQUÉ} [Tweed Herendeen Collection] (300/500)
2133. **REMINGTON MODEL 25 SLIDE ACTION RIFLE** serial #5188, 32-20, 24" barrel with a very good plus bore showing some faint oxidation at the muzzle. The metal surfaces retain about 80% original blue with scattered fine oxidation, the majority of loss along the magazine tube, belly of the frame, light edge wear and contact wear along the slide arm. The smooth pistolgrip walnut stock and grooved forearm rate very good plus with light handling marks. The front sight has been replaced with a folding Beach sight, the rear sight removed and mounted to the receiver is a Bushnell Sportview 3-9 x 20 mm scope with duplex reticle in a N5 side mount base. (57951-160) {C&R} [Tweed Herenden Collection] (300/500)
2134. **WINCHESTER MODEL 1903 SEMI-AUTO RIFLE** serial #11802, 22 Win. Auto, 20" barrel with a very good bore showing sparse fine pitting. The barrel has toned to a soft brown patina blending with gray and some sparse fine oxidation staining. The action has toned to a bright silver patina with scattered traces of brown and gray with scattered light impact marks and sparse spots of light oxidation. "off" and "on" have been scratched in the left side of the receiver and the right side of the triggerguard above the safety button. The plain pistolgrip walnut stock and forend rate very good plus with light handling marks. (57951-161) {C&R} [Tweed Herenden Collection] (400/600)
2136. **NUMRICH ARMS "HOPKINS & ALLEN" THE HERITAGE MODEL UNDERHAMMER PERCUSSION RIFLE** .45 cal., 32" octagon barrel with a bright excellent bore. The barrel and action retain 99% original blue with perhaps a speck or two of fine oxidation. The bright hammer sides are toning to brown and the brass buttplate, rear triggerguard and ramrod thimble have a pleasing ochre patina. The plain walnut stock and forend rate excellent with one or two light storage blemishes from the years, the buttstock is equipped with an iron patchbox retaining about 85% flaking gold-toned plate. A great looking, excellent condition muzzleloading rifle made in the 1960-1970's. (57951-67) {ANTIQUÉ} [Tweed Herenden Collection] (200/400)
2137. **STEVENS NO. 16 CRACKSHOT ROLLINGBLOCK RIFLE** serial #C34, 22 RF, 20" round barrel with a dark oxidized bore. The metal surfaces are an overall dark brown patina with scattered moderate surface oxidation, pinprick pitting and traces of gray and original blue finish. The plain walnut stock rates poor with a large flexing cracks and drilled hole in the wrist, handling marks, chips at the toe and worn flaking original finish, the forend is in good to about very good condition with light handling marks and flaking original finish. The checkered hard rubber buttplate rates good overall showing light wear, handling marks and ingrained dirt staining. (57951-127) {C&R} [Tweed Herenden Collection] (25/75)
2138. **STEVENS MODEL 1915 FALLINGBLOCK RIFLE** serial #N467, 22 LR, 24" round barrel with a good bore showing rifling but fine pitting the entire length. The barrel retains an overall pale brown patina with scattered oxidation staining and pinprick pitting blending with patches of gray and traces of original blue finish. The action retains more of a plum brown patina with spots of fine oxidation and a few light impact marks. The plain walnut stock and forend rate good to very good with handling marks, flaking finish and an area of dark staining along the lower left edge of the buttstock. The Stevens checkered hard rubber buttplate rates about very good showing light wear and is a bit proud of the wood. (57951-113) {C&R} [Tweed Herenden Collection] (100/200)
2139. **STEVENS FAVORITE NO. 17 FALLINGBLOCK RIFLE** serial #I31, 22 LR, 22" part round part octagon barrel with an about good bore still showing rifling but modest oxidation and pitting throughout. The metal surfaces bear an overall smoky gray patina with a few tiny impact marks blending with patches of pale brown and blue finish. The plain walnut stock and forend rate about very good with scattered handling marks and flaking original finish particularly on the buttstock. The checkered hard rubber Stevens Favorite grip rates about very good with light wear and ingrained dirt staining. (57951-180) {C&R} [Tweed Herenden Collection] (175/275)
2140. **STEVENS FAVORITE NO. 18 FALLINGBLOCK RIFLE** serial #S395, 25 Stevens, 24" part round part octagon barrel with a bright excellent bore. The barrel retains about 80% original blue toning to brown with patches of gray and minor oxidation, light edge and muzzle wear. The frame has toned to an overall gray brown patina with perhaps 20% original blue remaining with patches of fine oxidation staining. The plain walnut stock and forend rate very good plus with a few light handling marks. The barrel is equipped with a folding Beach front sight, No. 6 folding leaf rear sight and is drilled and tapped for target blocks; mounted on the rear tang is an adjustable vernier peep sight. (57951-112) {C&R} [Tweed Herenden Collection] (200/400)
2141. **STEVENS FEATHERWEIGHT NO. 101 SINGLE SHOT RIFLE** serial #W369, 44 Shot, 26 1/8" single bead plain barrel with a very good bore having some scattered fine pitting and oxidation. The metal surfaces retain an overall dark brown patina with some sparse fine oxidation staining and some areas of gray wear and fine pitting on either side of the frame. The plain walnut stock and forend rate good to very good with light handling marks and two small holes in the top of the wrist where a peep sight was previously installed. The checkered hard rubber buttplate rates good with a light chip and wear along the lower left edge and ingrained dirt staining. (57951-118) {C&R} [Tweed Herenden Collection] (200/400)
2142. **STEVENS TIP-UP NO. 14 LADIES RIFLE** serial #32501, 22 RF, 25 3/4" part round part octagon barrel with a very good plus bore remaining overall bright with some fine pitting primarily at the muzzle. The barrel is numbered "32501" and retains 99% quality applied blue; the barrel is equipped with a folding Beach front sight, no provision for a rear sight and most of the address has faded, most likely at time of polishing. The frame retains 97-98% original nickel with spots of light flaking, superficial scratches and is numbered "14" on the lower tang. The fancy walnut stock rates good to about very good with light handling marks. The stock has a thin vertical crack through the left side of the wrist that appears to be non-flexing along with some thin drying cracks in what appears to be a flaking added varnish and is equipped with a bright Swiss style buttplate. The forend rates near excellent with light handling marks, perhaps an added light varnish and is numbered to the frame. The forend iron and triggerguard retain 98% added blue toning to plum. Mounted on the rear tang is an Unmarked No. 1 folding aperture peep sight often found on Remington rifles. (57951-123) {ANTIQUÉ} [Tweed Herenden Collection] (300/500)

2143. **STEVENS NO.1 TIP-UP RIFLE** serial #22335, 32 RF, 24" octagon barrel with a dark oxidized bore. The barrel retains an overall brown patina with scattered fine oxidation staining along with minor impact marks and silvering along the edges. The frame retains about 40% dull original nickel flaking to a dull brown patina with fine oxidation, the majority of loss along the left side and belly of the frame. The plain walnut stock rates good with a thin crack in the left side of the rear tang, numerous handling marks and dried flaking finish. The crescent buttplate is nickel plated and the finish matches that of the frame. The barrel and frame are numbered alike. The barrel is equipped with open sights, the triggerguard is no longer present. (57951-62) {ANTIQUÉ} [Tweed Herenden Collection] (100/200)
2144. **STEVENS TIP-UP SINGLE BARREL SHOTGUN** serial #8567, 14 ga., 30" plain round barrel with octagon breech and a good bore showing modest pitting and oxidation. The metal surfaces have tone to a mottled pewter gray blending with brown and scattered fine oxidation and pinprick pitting. The plain walnut stock and forend rate good showing an old light cleaning and added varnish, the stock a bit shy of the buttplate. The barrel is numbered to the frame, the release plunger is missing its threaded head. (57951-121) {ANTIQUÉ} [Tweed Herenden Collection] (100/200)
2145. **STEVENS TIP-UP SINGLE BARREL SHOTGUN** serial #2008, 12 ga., 28" plain round barrel with octagon breech and a very good bore remaining overall bright with scattered fine oxidation. The barrel retains about 40% original blue toning to brown with scattered fine oxidation and gray wear along the muzzle and breech. The frame retains 75% original nickel with scattered fine flaking, majority of loss on the belly with has flaked to gun metal and brown. The plain walnut stock rates about very good with handling marks and a little added oil. The barrel is numbered to the gun. (57951-119) {ANTIQUÉ} [Tweed Herenden Collection] (100/200)
2146. **NEW YORK STATE MILITIA REMINGTON ROLLING BLOCK RIFLE** 50-70, 36" barrel with a very good bore that shows some scattered pitting but strong rifling. The metal surfaces are an overall dull gray patina with oxidation staining throughout, a few light band removal marks on barrel and some light pitting on buttplate. The walnut stock rates very good with an older added varnish, a few thin cracks on butt, several scattered abrasions, 8 holes on the left side of butt, a faint inspector's cartouche on left side of butt, a few areas of chipping in cleaning rod channel, scattered dings, handling marks and scratches. The last patent date on the upper tang is November 7th, 1871, there is a rack number "B/58" on top of buttplate and there is no cleaning rod present. A solid example of these New York militia Rolling Block rifles. (207951-141) {ANTIQUÉ} [Tweed Herenden Collection] (350/550)
2147. **REMINGTON ROLLING BLOCK SINGLE SHOT CARBINE** 50 CF, 25" barrel with a frosted very good plus bore that shows some scattered light pitting. The metal surfaces are an overall dull gray patina with oxidation staining throughout most of their length, a few light band removal marks and dings on barrel and some scattered areas of light pitting. The walnut buttstock appears to be from a New York State carbine and the forend appears to be a later replacement. The buttstock rates very good overall with an older added varnish, minor chips and cracks, a strong inspector's cartouche on the left side, a crisp "B 79" rack number on right side, a large added sling hole at heel and handling marks. The replacement forend rates about good and is in similar condition as the butt. The forend is a bit loose and the band and band screw are likely later replacements and the upper tang is marked "F/29". There is no front sight present and the carbine appears similar to the New York models but it has a rifle rear sight, longer barrel and there is no provision for a saddle bar. A good project gun overall. (207951-142) {ANTIQUÉ} [Tweed Herenden Collection] (200/400)
2148. **STEVENS FAVORITE SINGLE SHOT RIFLE** serial #A56, 22 LR, 23" half-octagon half-round barrel with a fair bore that shows oxidation and pitting throughout but visible rifling. The frame shows strong restored case colors with some scattered silvering scratches, freckling and some light pitting areas on lever. The barrel retains 98% restored blue with a couple silvering spots and scratches. The Stevens buttplate shows scratches, dings and abrasions and the walnut stock rates very good plus as-cleaned with an added varnish, a few dings, scratches and handling marks. The muzzle is fitted with a threaded muzzle device, the rifle has a folding open rear aperture and the stock and lever are a bit loose. An interesting Stevens Favorite rifle overall. (207951-193) {MODERN} [Tweed Herenden Collection] (150/350)
2149. **REMINGTON MODEL 2 SINGLE SHOT SPORTING RIFLE** 38 RF, 28 1/2" octagonal barrel with a near very good bore that shows scattered pitting and oxidation but strong rifling. The metal surfaces are an overall dull gray patina with scattered oxidation staining, a few dings, areas of pitting and a few light dings. The hardwood stock rates about good with an amateurishly refinished and repaired 3 1/2" area on both sides of tang, a few cracks, scattered abrasions, dings, handling marks and scratches. The lower tang is marked "543", the fixed rear sight may be a replacement, the butt displays a loose fit and the firing pin has come loose and will need mechanical attention to fix. A good project gun overall. (207951-65) {ANTIQUÉ} [Tweed Herenden Collection] (100/200)
2150. **STEVENS NO. 44 SINGLE SHOT RIFLE** serial #24707, 25-21, 26" half-octagon half-round barrel with a good plus bore that shows scattered light pitting and an area of heavier pitting toward muzzle. The frame is an overall dull brown patina with a couple impact marks, scattered freckling and oxidation staining. The barrel is a dull gray patina with scattered oxidation staining, freckling, silvering and some light pitting. The walnut stock rates very good as lightly-cleaned with an added varnish, a few abrasions, an 1 1/2" chipping area on front right of forend with an 1 1/2" crack protruding from it, scattered flaking, dings, handling marks and scratches. The butt displays a loose fit, there are two vacant holes on the upper tang, a couple of the screws exhibit light slot damage and the rifle is sighted with an open rear sight and a blade front sight. A near very good example of a Stevens No. 44 rifle overall. (207951-130) {C&R} [Tweed Herenden Collection] (200/400)
2151. **BELGIAN MELIOR SEMI AUTO PISTOL** serial #4122, 25 ACP, 2 1/4" barrel with a good bore that shows oxidation throughout much of its length but evident rifling. The metal surfaces show a balance between the original blue and fading and there is scattered freckling and silvering on the exposed edges. The "MirM" marked grips rate good plus showing a 1/2" crack at bottom right panel screw, scratches, a couple chips, handling marks and dings. The frame, bolt and slide are matching and this pistol appears to one of the earlier models and there is a 1/8" diameter hole on top of the left grip panel. An interesting vintage pocket pistol overall. (207914-5) {C&R} (100/200)
2152. **CHARTER ARMS EXPLORER II SEMI AUTO PISTOL** serial #B031281, 22 LR, 6" barrel with an excellent bore. The metal surfaces retain 98% original enamel with a few scattered spots of flaking. The green bakelite grips rate very good showing some flaking and handling marks. This pistol includes a factory 10" and 8" barrel both with excellent bores, two 15 round magazines and one 7 round magazine. A neat pistol overall. (208013-3) {MODERN}
2153. **BERNARDELI VEST POCKET SEMI AUTO PISTOL** serial #91449, 25 ACP, 2 1/4" barrel with an excellent bore. The metal surfaces retain 99% original blue finish and the "VB" marked checkered plastic grips rate near excellent with a couple minor handling marks. This pistol includes its original box in good condition with a few tears, crazing and flaking, its original manual and Stoeger warranty card. (207997-27) {MODERN} (75/150)
2154. **BRITISH NO. 4 MK 1 ENFIELD BOLT ACTION RIFLE BY BSA SHIRLEY** serial #U33678, 303 British, 25" barrel with a good bore that shows scattered oxidation and pitting but strong rifling. The metal surfaces of this 1945 dated and M/47C coded rifle retain about 70% of an arsenal blue finish with fading and thinning throughout. The beech stock rates very good with the butt appearing darker due to an armory added oil finish, scattered dings, handling marks, abrasions and scratches. There is a star marking on the top of receiver that may indicate corrosion in the bore and the bolt and rear band are matching to the receiver while the other parts appear un-numbered. The MKII rear aperture appears slightly bent and an Enfield style sling is included. A good representative example of a World War Two No. 4 Enfield rifle. (208050-795) {C&R} (200/300)

2155. **POLISH M44 MOSIN NAGANT BOLT ACTION CARBINE BY RADOM** serial #KB11160, 7.62 Russian, 20" barrel with a bright excellent bore. The metal surfaces of this 1953 vintage carbine retain 98-99% original blue finish. The beech stock rates excellent with a couple light handling marks. All serial numbers are matching and an unmarked Soviet style canvas sling is included. An excellent example of these post-war M44 carbines. (208060-33) {C&R} (250/450)
2156. **INTERESTING TRAPDOOR CARBINE SHOTGUN CONVERSION** serial #182862, 45-70, 22" smoothbore barrel with a very good bore that shows some scattered oxidation and a ring near muzzle. The lockplate metal surfaces appear to have been polished long ago but show oxidation throughout while the other metal surfaces are a dull brown patina with some silvering and tool marks on barrel and scattered areas of oxidation. The walnut stock rates fair as-cleaned with an added dark oil finish, a filler repaired break at wrist, a couple further filler repairs around buttplate, a few scattered cracks, with the expected handling marks from the years. There is a saddle bar present on the left side of the stock, the breechblock is the 1884 type and the rear sight is the Buffington rifle type. The band lacks a groove for the sight so this is likely a cutdown rifle that was later converted to smoothbore after military service. An interesting Trapdoor shotgun overall. (208180-10) {ANTIQUE} [R.J. & John Waltz Collection] (200/400)
2157. **RUSSIAN M38 MOSIN NAGANT BOLT ACTION CARBINE BY IZHEVSK** serial #AR3849, 7.62 Russian, 20" counterbored barrel with a bright very good plus bore that shows some minor frosting. The metal surfaces of this 1943 vintage carbine retain 97% arsenal refurbished blue finish with some light fading on the barrel and light silvering on buttplate. The M44 style wartime stock rates very good showing a 1/4" hairline crack on the left side of stock at front, scattered flaking shellac and handling marks. The floorplate has an old lined-out number with a new number added that matches, while the bolt and buttplate are matching and there is a small import mark on the left side of the barrel. A solid Mosin carbine that will likely be a fun shooter. (208060-52) {C&R} (200/300)
2158. **YUGOSLAVIAN M59/66 SKS SEMI AUTO RIFLE** serial #F-160707, 7.62x39mm, 21" barrel with a bright excellent bore. The metal surfaces retain 97% arsenal blue finish with some scattered silvering on the triggerguard and top cover. The hardwood stock rates very good plus with a few handling marks and dings. The bolt carrier and stock are matching to the receiver, the magazine is numbered "SL-4-00-000", the top cover has a separate assembly number and the right side of triggerguard recess and triggerguard are numbered with an electropenciled number that is not fully legible. There is an import marking on the right side of the barrel and this is a nice Yugoslavian SKS overall. (208060-26) {C&R} (200/400)
2159. **YUGOSLAVIAN M59/66 SKS SEMI AUTO RIFLE** serial #V-692433, 7.62x39mm, 21" barrel with a bright excellent bore. The metal surfaces retain 97% arsenal blue with silvering scratches on top cover and magazine. The beech stock rates excellent with a few light handling marks. The bottom of triggerguard, magazine, stock, bolt and top cover are matching and the right side of triggerguard recess and top of triggerguard are electropenciled numbered "6673". The action still has some cosmoline in it and there is a Century Arms import mark on the right side of the barrel. A nice 59/66 that appears to have seen little if any use since importation. (208060-27) {C&R} (200/400)
2160. **BRITISH NO 5 MK 1 "JUNGLE CARBINE" BY ROF FAZAKERLEY** serial #D4543, 303 British, 19" barrel with a very good plus bore that shows some scattered light frosting. The metal surfaces of this 11/44 dated Jungle Carbine retain 60% original enamel with scattered flaking and thinning with the heaviest thinning on the barrel and flash suppressor and some scattered small areas of light pitting. The correct hard rubber buttplate shows wear throughout and the hardwood stock rates very good as cleaned with scattered dings, handling marks and scratches. The bolt is matching and there are no other visible numbered parts and carbine has the correct hollowed-out bolt handle and 800-meter rear sight. There are no import markings but there are British proof markings on the right side of barrel above the woodline. A solid Jungle carbine overall. (208060-36) {C&R} (300/500)
2161. **ARGENTINE 1891 CALVARY BOLT ACTION CARBINE BY DWM** serial #B8639, 7.65 Argentine, 17" barrel with a good bore that shows moderate pitting throughout but evident rifling. The metal surfaces have mostly turned a dull brown patina with generous traces of an arsenal blue finish and scattered light oxidation. The walnut stock rates very good with a tight 1 1/4" crack at rear of upper tang, square armorer repair at the toe of the butt, scattered dings, handling marks, scratches and abrasions. The Argentine crest is fully intact, the rear sight is numbered "49", the remaining visible parts are matching to the receiver. A solid example with a hard-to-find intact Argentine crest. (208060-19) {C&R} (200/300)
2162. **CZECH K98K BOLT ACTION RIFLE BY BRNO** serial #5843m, 8mm Mauser, 24" barrel with an excellent bore. The metal surfaces of this post war rifle retain 90% arsenal blue with the receiver ring having been scrubbed, scattered silvering on floorplate, triggerguard, bands and barrel, scattered light oxidation and some light pitting on bolt. The laminated stock rates very good showing a few tight lamination cracks on butt, a small crack on front of handguard, scattered dings, scratches and handling marks. The stock has a faint Waffenamts, crisp Czech cartouches and the stock is mismatched while the bolt handle is matching and the remaining parts appear un-numbered. The rifle has the large triggerguard and appears to have been assembled using wartime parts. A black leather sling is included which is likely post-war. A solid K98k that may be good for the shooter or reenactor. (208060-7) {C&R} (200/400)
2163. **CZECH VZ-24 BOLT ACTION RIFLE BY BRNO** serial #D58809, 8mm Mauser, 24" barrel with a good bore that shows moderate pitting throughout but strong rifling. The metal surfaces retain 85% refurbished blue finish with fading throughout the barrel and bands, lighter fading on the receiver and floorplate areas and some light pitting on bolt handle and receiver. The walnut stock rates very good plus with a lightly added varnish and showing scattered light dings and handling marks. The bolt stop, magazine follower and stock are mismatched but the bolt handle and triggerguard are matching. The rampant lion crest is fully intact and the rifle lacks the distinctive Czech front sight ears and a cleaning rod. A solid VZ-24 rifle with a hard-to-find intact lion crest. (208060-53) {C&R} (200/300)
2164. **JAPANESE TYPE 99 ARISAKA BOLT ACTION RIFLE BY NAGOYA** serial #59149, 7.7 Arisaka, 25" barrel with an excellent bore. The metal surfaces of this 4th series rifle show a fading original blue finish that is turning to a brown patina with some scattered small areas of freckling and light impact marks on the upper and lower tang and some scattered pitting on buttplate. The hardwood stock rates very good as cleaned with a 1/2" chip at upper right of buttplate, scattered scratches, dings and handling marks. The Chrysanthemum is fully intact, and the front band, bolt, safety, firing pin and extractor are all matching to the receiver. A solid Arisaka that may prove to be a good shooter. (208050-35) {C&R} (200/400)
2165. **HOPKINS & ALLEN SINGLE SHOT SHOTGUN** serial #14465, 12 gauge 30" shortened plain cylinder bore barrel with a very good bore that shows scattered areas of oxidation and pitting. The in-the-white receiver shows scattered freckling and oxidation staining while the barrel shows a blue finish that is fading to a brown patina with scattered freckling. The checkered walnut stock and plain forend rate good plus with an added oil finish, a crossbolt repaired crack to right side of wrist, a few further cracks on butt, a few abrasions, scattered flaking, dings, scratches and handling marks. The shotgun has a falling block type action and the patent date is June 23, 1885. A neat shotgun overall. (207951-105) {ANTIQUE} [Tweed Herendeen Collection] (75/150)
2166. **REMINGTON ROLLING BLOCK M1902 SINGLE SHOT RIFLE** serial #9912, 7mm Mauser, 30" barrel with a fair bore that shows oxidation throughout but visible rifling. The metal surfaces are a dull gray patina with some pitting on the right side of receiver and barrel, silvering on bands and buttplate and dings and oxidation staining on buttplate. The hardwood stock rates very good as-cleaned with a few areas of chipping, a thin 1/2" crack at left rear of handguard, scattered dings, scratches and handling marks. There is a 1/4" gap between handguard and stock, both a front sight protector and cleaning rod are present. A good example of these late model Rolling Block rifles. (208116-89) {C&R} (200/400)

2167. **UNMARKED FLOBERT PISTOL** 5.5mm, 11 3/4" half-octagon half-round barrel with a very good bore that shows scattered oxidation and pitting. The frame, hammer and triggerguard are a dull brown patina with scattered oxidation staining, while the barrel retains 40% of a later applied blue with scattered fading and freckling. The checkered stock rates very good with some minor chips, a few scattered dings, scratches and handling marks. The pistol lacks a maker's mark but the left side of the barrel and the right side of frame are marked with commercial proofs with the frame having a "(Crown)/B" marking. This pistol is a larger style and it loads from the breech and the loading gate has a deep abrasion on top and the front sight is a bit off-center. An interesting Flobert pistol overall. (207420-29) {C&R} (200/400)
2168. **ISHAPORE MODEL 2A BOLT ACTION RIFLE** serial #A23277, 7.62 NATO, 25" barrel with an excellent bore. The receiver, triggerguard and magazine of this 1965 dated rifle have been cleaned of their black enamel finish giving them a gray patina appearance with scattered silvering, oxidation staining and freckling. The other metal surfaces retain 50% arsenal black enamel with scattered flaking, freckling and oxidation staining. The hardwood stock rates about very good as-cleaned with an added oil finish, a faint Indian cartouche on butt, a reinforcement screw in forestock, a few abrasions on left side of butt, a spliced repair on underside of stock, a couple repairs on handguard, scattered dings, handling marks and scratches. The bolt, nosecap, rear sight and magazine are matching to the receiver but the stock appears un-numbered. There is a PW Arms import marking on the left side of the receiver, a couple of the screws exhibit slot damage and the front handguard shows a gap between the stock and a canvas Enfield style sling is included. A solid example of these late model Indian Enfields. (208119-6) {C&R} (200/300)
2169. **STEVENS MODEL 35 SINGLE SHOT PISTOL** serial #33121, 25 Stevens, 6" barrel with a good plus bore that shows some scattered pitting and oxidation but evident rifling. The metal surfaces retain perhaps 40% original blue with freckling and fading throughout. The smooth walnut grips rate very good with scattered scratches, dings and handling marks. A solid example of these interesting Stevens pistols. (208112-67) {C&R} (100/200)
2170. **WINCHESTER MODEL 69A BOLT ACTION RIFLE** 22 LR, 25" barrel with an excellent bore. The metal surfaces retain 50-60% original blue with scattered fading, silvering, oxidation staining and a couple spots of cleaned pitting on barrel. The Bishop replacement stock rates near excellent with an added oil finish and a few light scratches, dings and handling marks. The rifle has a peep rear sight and a fixed blade front sight. There is no magazine release present, the bolt handle is loose and the bolt is not cocking properly and will require mechanical attention. A good project gun overall. (207951-50) {MODERN} [Tweed Herendeen Collection] (50/100)
2171. **STEVENS TIP UP SINGLE SHOT SHOTGUN** serial #8958, 12 Gauge, 30" plain improved cylinder choked barrel with a good plus bore that shows a few pits and some scattered oxidation. The barrel surfaces are an overall dull gray patina with scattered oxidation and some scattered light silvering. The receiver is a light gray patina with freckling and light pitting throughout. The walnut stock rates very good as lightly-cleaned with scattered dings, scratches and handling marks. The barrel is matching numbered to the receiver and its fit is a bit loose. A very good example of these interesting Stevens shotguns. (207951-70) {ANTIQUÉ} [Tweed Herendeen Collection] (150/300)
2172. **MOSIN NAGANT M91 BOLT ACTION RIFLE BY REMINGTON** 7.62x54 Russian, 30 1/2" shortened barrel with a very good bore that shows a few areas of moderate pitting. The metal surfaces of this 1917 dated rifle retain 90% original blue with fading on the bands and barrel and scattered lighter fading and freckling and silvering on the buttplate. The walnut stock rates very good retaining much of its factory oil finish and showing a crisp "English Contract" cartouche and a strong "US/(Flaming Bomb)" cartouche and a repaired 4 1/2" crack on handguard, a 3/4" chip at lower right of butt and a few scattered dings and handling marks. The barrel shank is unserialized, the buttplate and floorplate are matching to each other but the Remington made bolt is numbered differently. The front band screw exhibits slot damage and there are no import markings on this rifle. A good representative example for the budding Mosin Nagant collector. (208081-1) {MODERN} (200/400)
2173. **DEACTIVATED U.S. MODEL 1888 TRAPDOOR SINGLE SHOT RIFLE BY SPRINGFIELD ARMORY** serial #537067, 45-70, 26" shortened and plugged barrel. The lockplate and breechblock are an overall dull gray patina with oxidation throughout and some light pitting and the buttplate shows heavier oxidation throughout. The barrel shows an older reapplied enamel finish with flaking throughout much of its length and the bands are a brown patina with oxidation and freckling. The walnut stock rates good overall with an added oil finish, a faint cartouche, a few cracks and the expected overall handling marks. The hammer and breechblock still operate and the rifle has the correct bayonet and Buffington rear sight. The barrel is loose in the stock and the rear sight is unable to flip up at rear. A well-used deactivated Trapdoor that will make a good wall-hanger. (208092-1) {ANTIQUÉ} (100/200)
2174. **UNIT MARKED DREYSE M1907 SEMI AUTO PISTOL** serial #65366, 32 ACP, 3 3/4" barrel with a very good bore that shows some minor oxidation spots. The metal surfaces retain 93% original blue with scattered light fading, freckling, a couple small spots of light pitting, a few dings and silvering scratches. The rubber grips rate very good with a few dings, abrasions, handling marks and scratches. The frontstrap is marked with a unit marking that reads "B.16.R." and a single magazine is included. A very good example of an interesting World War One pistol. (207879-322) {C&R} [Craig Brown Collection] (200/400)
2175. **CHILEAN MODEL 1935 BOLT ACTION CARBINE BY MAUSER OBERNDORF** serial #8294, 7mm Mauser, 22" barrel with a very good bore that shows some scattered frosting and light pitting but strong rifling. The metal surfaces retain 98% of a reapplied polish blue with light freckling on triggerguard, floorplate, bands and buttplate. The walnut stock rates very good plus as-cleaned with an added varnish, scattered dings, handling marks and flaking. The bolt parts, floorplate, triggerguard and front band are all matching to the receiver but the remaining parts appear un-numbered. There is no cleaning rod present and a correct black leather sling is included. A restored Chilean 1935 that will likely make a good shooter. (208060-1) {C&R} (200/300)
2176. **SOUTH AMERICAN CONTRACT VZ-24 BOLT ACTION RIFLE BY BRNO** serial #VZ2402395/305, 7mm Mauser, 23" barrel with a very good bore that shows some scattered frosting and light pitting but strong rifling. The receiver and bolt show oxidation staining throughout and a few small spots of light pitting on the bolt. The barrel, bands and floorplate are an overall dull gray patina with a few dings on barrel and front band, scattered freckling and oxidation staining. The hardwood stock rates about very good as-cleaned with the buttplate being proud of wood, an added dark oil finish, a 1 1/2" crack on handguard in front of rear sight, a few abrasions, scattered dings, handling marks and scratches. The stock is mismatched and the other parts appear un-numbered, the right side of the receiver is marked "PMO1579.18" which is some sort of inventory number and the receiver has a Brno rollmark. There is a Century import mark on the underside of the barrel and a reproduction Arisaka style sling is included that shows a minor tear at rear. A solid example of an interesting VZ-24 contract rifle. (208119-4) {C&R} (200/300)
2177. **RUSSIAN MOSIN NAGANT M44 BOLT ACTION CARBINE BY IZHEVSK** serial #SK2571, 7.62x54 Russian, 20" barrel with a very good bore that shows some scattered frosting and pitting but strong rifling. The metal surfaces of this 1944 dated carbine retain 95% arsenal refurbished blue with some scattered light fading and some scattered areas of freckling. The hardwood stock rates very good with an added varnish finish, scattered flaking varnish, dings and handling marks. The buttplate is force-matched, the bolt and floorplate are both numbered "9382", there is no cleaning rod present and there is a Century import mark on the underside of barrel. A very good arsenal refurbished M44 overall. (208050-848) {C&R} (150/250)

2178. **AUSTRALIAN MKIII LEE ENFIELD BY LITHGOW** serial #C16569, 303 British, 25" barrel with an excellent bore. The metal surfaces of this 1941 dated rifle retain 90% arsenal parkerized finish with some scattered thinning and light fading. The hardwood stock rates very good with some faint Australian cartouches on right side of butt, a couple crisp markings on underside of pistolgrip, a thin 1/2" crack on both sides of handguard in front of rear sight, a few scattered dings and handling marks. The rear sight is mismatched, the magazine is un-numbered but is of Australian manufacture and the noscap and bolt are matching to the receiver. The receiver is marked "FTR" and the left side of rear band is marked "MA55" both of which are arsenal rebuild markings. A very fine Australian Enfield for your military collection. (208060-13) {C&R} (200/400)
2179. **GERMAN SAUER 38 (H) SEMI AUTO PISTOL** serial #469689, 32 ACP, 3 1/2" barrel with an excellent bore. The metal surfaces of this third variation pistol retain 90% original blue with scattered even fading and some light oxidation and silvering on the exposed edges of the slide. The checkered grips rate very good showing scattered scratches and dings. The right side of frame is marked with an "(Eagle)/N", the left side of triggerguard is marked with an "(Eagle)/37 and the left grip panel is marked with an intertwined "SS". This pistol includes a single unmarked magazine. A sweet Sauer overall. (208112-18) {C&R} [Marsell Collection] (300/500)
2180. **JAPANESE TYPE 38 ARISAKA BOLT ACTION CARBINE BY KOISHIKAWA** serial #195665, 6.5 Arisaka, 19" barrel with a very good plus bore that shows some scattered frosting. The metal surfaces of this early no-series carbine retain 95% original blue with some freckling and silvering on the bands, triggerguard, floorplate, both tangs and barrel and oxidation staining on floorplate. The beech stock rates very good with an added varnish finish, a crisp inspection stamp on underside of pistolgrip, scattered scratches, dings and handling marks. The Chrysanthemum is ground, and numerous parts are mis-matched. A solid Arisaka carbine overall. (208060-31) {C&R} (200/400)
2181. **ITALIAN 91/28 CARCANO BOLT ACTION CARBINE BY TERNI** serial #12832, 6.5 Carcano, 18" barrel with a very good bore that shows some scattered light pitting and oxidation but strong rifling. The metal surfaces of this 1929 dated carbine show a fading arsenal blue finish with some cleaned pitting throughout both sides of magazine, further pitting on front band and scattered silvering, oxidation staining and freckling. The beech stock rates about very good as-cleaned with the buttplate being proud of wood, a couple synthetically repaired cracks on the front of handguard, a few scattered abrasions, scattered dings, scratches and handling marks. The barrel is matching to the receiver but the other parts appear un-numbered and there is a Century import mark on the underside of barrel. There is no cleaning rod present but a black leather military style sling is included. A good example overall. (208119-5) {C&R} (100/200)
2182. **ITALIAN 91/24 CARCANO BOLT ACTION CARBINE BY ROMA** serial #6826, 6.5 Carcano, 18" barrel with a very good bore that shows some scattered pitting and oxidation but strong rifling. The metal surfaces are an overall dull gray patina with scattered oxidation staining and some scattered areas of pitting. The hardwood stock rates good plus with an added dark oil finish, several carvings including a five-pointed star on right side of butt and the word "HAZIS" on right side of stock, a few cracks and handling marks throughout. The barrel is matching to the receiver and there do not appear to be any other numbered parts and there is a Century import mark on the underside of barrel. The front magazine and front band screws show slot damage and the rear band is a bit loose. There is no cleaning rod present but a military style leather sling is included. A solid example of an interwar Carcano carbine. (208119-3) {C&R} (100/200)
2183. **JAPANESE TYPE 38 ARISAKA BOLT ACTION CARBINE BY NAGOYA** serial #62111, 6.5 Arisaka, 19" barrel with a very good bore that shows a few scattered areas of light pitting. The metal surfaces of this 5th series carbine retain 90% of an arsenal blue finish with some fading on the barrel and bands, and scattered freckling. The buttplate shows scattered oxidation staining and the hard wood stock rates very good as sanded with a few scattered dings, dents, handling marks, abrasions and light chips. The floorplate, bolt, firing pin, safety and front band are matching to the receiver but the extractor appears un-numbered and the Chrysanthemum has three strikes across it but it appears mostly intact. A solid Nagoya made T38 carbine overall. (20860-32) {C&R} (200/400)
2184. **BUDAPEST M95/34 BOLT ACTION CARBINE** serial #6702E, 8x56R, 19" barrel with a very good plus bore that shows some minor frosting. The metal surfaces retain 95% arsenal reworked blue with some blued-over pinprick pitting on buttplate, a couple spots of light pitting on magazine, some scattered light fading and light freckling. The hardwood stock rates very good overall with an armory added varnish, a few scattered dings and handling marks. The bolt is electropenciled matching and the stock has been renumbered to match and the remaining parts are numbered differently or un-numbered. The barrel is "S" marked, the carbine includes a period leather sling and there is a small Century import mark on the underside of barrel. A nice example of a reworked M95 Mannlicher. (208119-7) {C&R} (100/200)
2185. **DEACTIVATED GERMAN GEW 98 BOLT ACTION RIFLE BY SPANDAU** serial #8074a, 8mm Mauser, 29" plugged barrel. The in-the-white receiver of this 1900 dated and "S" marked rifle show scattered oxidation and oxidation staining, while the buttplate shows oxidation throughout. The blued surfaces have turned a silver pewter with oxidation and oxidation staining throughout. The hardwood stock rates good plus with faint Imperial cartouches scattered dings, abrasions, scratches, chips and handling marks throughout. The bolt parts are mismatched, the stock appears un-numbered but all other visible parts are matching to the receiver. There is a unit marking on the stock which reads "1.0.J.R.2.55" likely for a Jager regiment and the rifle has the older 200 meter rear sight with the sight being only able to go back to 400 meters. The rifle has had its extractor removed and the front of the firing pin ground off so as to prevent firing and no cleaning rod is included. A neat display item for the military collector. (207879-432) {C&R} [Craig Brown Collection] (200/400)
2186. **RUSSIAN NAGANT DOUBLE ACTION REVOLVER BY IZHEVSK** serial #SHCHT136, 7.62 Nagant, 4 1/2" barrel with a very good bore that shows some scattered frosting. The metal surfaces of this 1944 dated revolver retain 98% arsenal refurbished blue with some light silvering and freckling on both sides of barrel. The checkered bakelite grips rate very good plus with some light dings and handling marks. The cylinder and frame are numbered matching, there is a small Century Arms import mark on the barrel and the left side of frame is marked "SHCHT" which is a translation of the gun's Cyrillic serial number prefix. A nice arsenal refurbished Nagant revolver. (208050-610) {C&R} (200/300)
2187. **FRENCH MAS-36 BOLT ACTION RIFLE BY ST. ETIENNE** serial #N66017, 7.5 French, 23" barrel with a very good plus bore that shows perhaps some minor frosting in the grooves. The metal surfaces of this post-war rifle retain 90% of an arsenal parkerized finish with oxidation staining throughout the buttplate, oxidation on triggerguard, some scattered silvering, some parkerized over pinprick pitting on bands and floorplate and a few dings on left side of receiver. The beech stock rates very good overall with some stains on butt, an added oil finish on forend and handguard, a couple small cracks on left side of butt and a small crack behind receiver, scattered dings, scratches and handling marks. The bayonet, floorplate, triggerguard, forend and bolt are all matching to the receiver and the buttstock appears unmarked and there is a small Century import mark on the left side of the receiver. The rifle has the post war rear band and sights and it is a very good example overall. (208050-811) {C&R} (200/400)
2188. **FRENCH MAS-36 BOLT ACTION RIFLE BY ST. ETIENNE** serial #L3674, 7.5 French, 23" barrel with a bright excellent bore. The metal surfaces of this post-liberation rifle retain 95% arsenal parkerized finish with some light oxidation stain spots on left side of receiver and floorplate, scattered silvering, several light impact marks on buttplate and some light oxidation on triggerguard. The beech stock rates very good overall with the forend and handguard showing some added oil finish and the butt appearing lightly-cleaned and overall scattered dings, a minor chip at bottom left of butt, handling marks and light scratches. The bolt, triggerguard and floorplate are matching to the receiver and the other parts appear un-numbered. The rifle appears to have post-war features and there is a small Century Arms import mark on the left side of the receiver. A very good plus example for the French collector. (208050-813) {C&R} (200/400)

2189. **RUSSIAN MOSIN NAGANT M91 BOLT ACTION RIFLE BY TULA** serial #211736, 7.62 Russian, 31" counterbored barrel with a very good bore that shows frosting throughout and some scattered light pitting but strong rifling. The barrel surfaces of this 1897 dated rifle are a silver pewter with some scattered oxidation staining and a couple spots of light pitting, while the other parts of the gun are a dull gray patina with scattered oxidation staining, a few areas of light to moderate pitting, a few dings on the rear sight and the bolt root appears lightly polished. The one-piece stock and Finnish handguard rate about very good with a couple small cracks at front of stock, a couple cracks on right side of recoil bolt, a couple Finnish plug repairs, scattered abrasions, areas of chipping, dings, scratches and handling marks. The bolt knob has been renumbered to match by the Finns, there is a Finnish army "SA" marking on the left side of barrel shank and the parts appear to be a mix of Czarist and Communist manufacture with the magazine having a sling swivel hole with an added piece of metal over the hole. A well-used example that likely saw its share of service. (208190-8) {ANTIQUÉ} (200/400)
2190. **U.S. MODEL 1884 TRAPDOOR "CADET" SINGLE SHOT RIFLE BY SPRINGFIELD ARMORY** serial #474101, 45-70, 30" barrel with a very good plus bore that shows a couple small spots of pitting. The breechblock shows a faded case-color finish with some scattered oxidation staining, the upper tang showing a generous amount of case colors. The lockplate, barrel and bands show a fading later applied blue with scattered areas of oxidation staining, freckling and silvering, while the triggerguard and lower tang retain about 50% original blue with scattered freckling, fading and silvering. The walnut stock rates very good with an added oil finish, a crisp "70" rack number on right side of butt, scattered dings, scratches and handling marks. The breechblock is marked "U.S./MODEL/1873" but the rifle falls into the 1884 serial number range and the rifle has the Buffington style rear sight and a smooth buttplate. An interesting Trapdoor that was likely a conversion from a full-length rifle. (207953-2) {ANTIQUÉ} (250/500)
2191. **UNIT MARKED WALTHER MODEL 4 SEMI AUTO PISTOL** serial #125875, 32 ACP, 3 1/2" barrel with an about very good bore that shows scattered pitting and oxidation but strong rifling. The metal surfaces retain 50% original blue with scattered fading, freckling and silvering. The Walther checkered grips rate about very good with some scattered flaking, dings, scratches and handling marks. The front strap is marked with a unit marking that reads "100.R.8.1." and a single magazine is included. A solid Walther Model 4 with the added bonus of a unit marking. (207879-315) {C&R} [Craig Brown Collection] (250/450)
2192. **BRITISH NO. 5 MK 1 BOLT ACTION "JUNGLE CARBINE"** serial #B7672, 303 British, 19" barrel with a very good bore that shows some scattered light frosting. The metal surfaces of this Indian refurbished carbine are turning a gray patina with scattered areas of silvering, some light pitting on left side of magazine and scattered light oxidation staining. The hardwood stock rates very good overall with an armory added oil finish, a painted rack number "102" on the left side of butt, a few areas of chipping, a couple abrasions, an armory added reinforcement screw, scattered dings, handling marks and scratches. The bolt and rear sight appear to be Indian replacements with the bolt being numbered matching to the rear band, the other parts appear un-numbered but the gun is indeed a real Jungle Carbine, as the barrel and receiver have the proper cuts, the correct flash hider and bayonet lug are present and there are faint Fazakerley markings on the left side of the receiver. There is a Century import marking on the barrel and a star marking on the top of the receiver. A canvas Enfield style sling is included with this carbine. A very good Jungle Carbine for the budding Enfield or military collector. (208155-2) {C&R} (200/400)
2193. **UNIT MARKED J.P. SAUER 1913 SEMI AUTO PISTOL** serial #54154, 32 ACP, 3" barrel with a very good plus bore that shows a few minor spots of oxidation. The metal surfaces retain 60% original blue with scattered fading, silvering and light oxidation staining. The S&S marked plastic grips rate very good showing some scattered dings, handling marks and light scratches. The front strap is marked "Res.J.R.71.M.G." likely for a reserve machine gun unit and a single magazine is included. A fine example of a World War One pistol. (207879-331) {C&R} [Craig Brown Collection] (300/500)
2194. **BAVARIAN POLICE MARKED J.P. SAUER 1913 SEMI AUTO PISTOL** serial #104189, 32 ACP, 3" barrel with an excellent bore. The metal surfaces retain 85% original blue with scattered light fading, some silvering on high edges and some oxidation staining on trigger. The S&S marked plastic grips rate very good plus with some light handling marks and a couple dings. The left side of frame is marked with a Weimar "1920" property stamp and the front strap is marked "PwB" which is a Bavarian police property marking. The pistol includes a single magazine that is numbered matching on the front of the baseplate. A very good example of a Bavarian police marked 1913 pistol. (207879-324) {C&R} [Craig Brown Collection] (250/450)
2195. **ITALIAN M91 CARCANO BOLT ACTION RIFLE BY TERNI** serial #XL1766, 6.5 Carcano, 30" barrel with a very good frosted bore that shows some scattered light oxidation. The metal surfaces of this 1897 dated rifle show an arsenal blue finish that is fading to a brown patina with oxidation staining throughout bolt, rear sight base and buttplate, some scattered small areas of pitting, a few dings on buttplate and some freckling on the receiver and magazine. The beech stock rates near very good as lightly cleaned with a lightly added oil finish, a faded cartouche on the left side of the butt, a few large chipped areas, a 3/4" crack at front of handguard, and overall handling marks and scratches. The rifle has the correct older rear sight and there is a cleaning rod present that appears to be a replacement. A solid example of an early Carcano infantry rifle. (208190-9) {ANTIQUÉ} (200/300)
2196. **ITALIAN M41 CARCANO BOLT ACTION RIFLE** serial #AP1479, 6.5 Carcano, 27" barrel with a frosted very good bore that shows some scattered light pitting. The metal surfaces of this FAT/43 coded rifle retain 95% arsenal blue with scattered fading, freckling on magazine and oxidation staining on buttplate and bolt. The beech stock rates very good with a faint cartouche on left side of butt, a repair behind the upper tang, a 1/2" crack in front of rear sight, a few scattered dings, scratches and handling marks. The stock is numbered matching to the receiver and the right side of stock is marked "MADE IN ITALY". A very good World War Two Carcano. (208139-9D32273) {C&R} (150/250)
2197. **POLISH M44 MOSIN NAGANT BOLT ACTION CARBINE BY RADOM** serial #KC03261, 7.62 Russian, 20" barrel with a bright excellent bore. The metal surfaces of this 1952 dated carbine retain 98% arsenal blue with some light silvering and fading on bands, handguard cap and buttplate. The beech stock rates excellent with a few light dings and handling marks. All serial numbers are matching with the buttplate being numbered "3261" and there is a small CDI import mark on the left side of the receiver. This carbine includes a Soviet style canvas sling. A nice Polish M44 that appears to have seen little if any use since importation to the U.S. (208119-2) {C&R} (250/450)
2198. **SWISS K11 BOLT ACTION CARBINE** serial #89822, 7.5 Swiss, 23" barrel with a very good bore that shows some scattered frosting. The metal surfaces retain 80% arsenal blue with scattered silvering and fading. The walnut stock rates very good with an armory varnish finish, a crisp Swiss cartouche on right side of butt, a few small abrasions, overall scattered dings, handling marks and scratches. The rear sight is numbered "790" but the bolt, magazine, trigger, front sight and plastic bolt knob are all matching to the receiver. The plastic bolt knob is a bit loose and it shows a couple cracks, this rifle includes a Swiss leather sling and muzzle cap and there do not appear to be any import marks. A very good plus example of these Swiss straight pull carbines. (208152-6) {C&R} (200/400)
2199. **CZECH VZ-52 SEMI AUTO RIFLE** serial #A65299, 7.62x45, 21" barrel with a very good plus bore that shows perhaps a bit of minor frosting. The metal surfaces on this late 70's production revolver retain 95% blue with silvering on some high edges most prominent on the front of the cylinder. The barrel has toned to plum and the cylinder is a plum blue while the frame remains blue with a few specks of oxidation and a couple of spots of light pitting. The case colors on the trigger and hammer remain strong. The smooth walnut finger-groove grips with inset S&W medallions are dated "1991" and rate near excellent with a few minor handling blemishes. The gun is sighted with a red ramp front and white outline adjustable rear sights though the white outline is fading. (128002-127) {MODERN} [Charles Hadley Collection] (200/400)
2289. **GLENFIELD MODEL 60 SEMI-AUTO RIFLE** serial #26457985, 22 LR, 22" barrel with a bright excellent microgroove bore. The metal surfaces retain 98% original finish with the blue barrel and magazine tube showing a few light freckles and a couple of small spots worn to silver and the black alloy receiver showing a little bubbling and light flaking. The hardwood pistolgrip Monte Carlo stock has been refinished and rates near excellent showing a few minor handling blemishes. The hard rubber buttplate is in about excellent condition and hangs slightly proud of the wood. The original factory sights are intact. This rifle would likely make a good shooter. (128050-832) {MODERN} (50/100)
2290. **MARLIN MODEL 60 SEMI-AUTO RIFLE** serial #09350644, 22 LR, 22" barrel with a bright excellent microgroove bore. The barrel's metal surface retain 90% original blue with some areas toning to gray and light oxidation scattered throughout. The black alloy receiver shows several minor handling marks. The pistolgrip Monte Carlo hardwood stock rates very good to near excellent with multiple light dings and scratches. The gun is sighted with its factory sights. (128050-827) {MODERN} (50/100)
2291. **GLENFIELD MODEL 60 SEMI-AUTO RIFLE** serial #71574693, 22 LR, 22" barrel with a bright bore showing a bulge about mid length. The barrel and magazine tube retain 97% original blue with the barrel beginning to tone toward gray and some light freckling primarily on the magazine tube. The alloy receiver retains 98% original matte black finish with light handling marks and operational wear. The press-checkered Monte Carlo pistolgrip stock has been refinished and rates near excellent with a couple of minor handling marks. The hard rubber buttplate is in about excellent condition and hangs proud of the wood. The gun is sighted with its original factory sights. (128050-820) {MODERN} (25/75)
2292. **WINCHESTER MODEL 190 SEMI-AUTO RIFLE** serial #614930, 22 S,L,LR, 20 1/2" barrel with a bright excellent bore. The barrel and magazine retain 98% original blue with a few minor handling marks and a few small spots of oxidation. The alloy receiver rates very good plus with several light scratches and minor handling marks. The pistolgrip hardwood stock rates near excellent with several minor handling blemishes. The gun is sighted with a front bead and rear leaf sights. (128050-788) {MODERN} (75/150)
2293. **MARLIN MODEL 60 SEMI-AUTO RIFLE** serial #18496388, 22 LR, 22" barrel with a bright excellent microgroove bore. The metal surfaces on the steel barrel and alloy receiver retain 99% original blue with a faint handling mark or two and a speck or two of oxidation. The hardwood Monte Carlo pistol grip stock appears to have been lightly cleaned with an added finish and rates excellent. The black hard rubber buttplate hangs slightly proud of the wood. The gun is sighted with its factory sights and mounted to the grooved receiver is a Weaver M34 Medalist rifle scope with mildly foggy optics. A nice shooter that appears to have seen little use. (128050-822) {MODERN} (50/150)

2294. **BROWNING MODEL BL-22 LEVER ACTION RIFLE** serial #37B17919, 22 S,L,LR, 20" barrel with a bright excellent bore. The barrel, magazine tube and lever retain 95% original blue with a little flaking and areas of light oxidation and mild pitting. The frame is a faded blue that has primarily toned to a gray patina with a little oxidation and pinprick pitting. The hardwood stock and forearm have been cleaned and rate very good to near excellent. Original sights are intact. This little lever action will likely make a good shooter. (128050-844) {MODERN} (100/200)
2295. **AGAWAM MODEL M-68 LEVER ACTION SINGLE SHOT RIFLE** serial #15190, 22 S,L,LR, 18" barrel with a bright excellent bore. The metal surfaces retain 98% original blue with a few specks of oxidation and a couple of light handling marks. The hardwood stock and forearm rate near excellent showing a ding and a few mild scratches. The gun is sighted with a front post and rear leaf sights. A nice Martini style single shot that appears to have seen little use. (128050-818) {MODERN} (50/100)
2296. **AGAWAM MODEL M-68 LEVER ACTION SINGLE SHOT RIFLE** serial #13937, 22 S,L,LR, 18" barrel with a bright excellent bore. The metal surfaces retain 97% original blue with a little silvering on some high edges, several light scratches and a few specks of oxidation. The hardwood stock and forearm rate near excellent showing a few mild handling blemishes. The gun is sighted with a front post and rear leaf sights. A nice Martini style single shot 22 that appears to have seen light use. (128050-823) {MODERN} (50/100)
2297. **ITHACA MODEL M-49 LEVER ACTION SINGLE SHOT RIFLE** serial #490316392, 22 S,L,LR, 18" barrel with a bright excellent bore. The barrel and faux magazine tube retain 90% original blue fading toward brown with some spotty oxidation and a few minor handling marks. The black enamel on the alloy receiver and lever rates very good showing multiple minor handling blemishes and a couple of small spots of flaking. The hardwood forearm and checkered buttstock rate near excellent showing a few minor handling marks. The gun is sighted with a front post and rear leaf sights. A good Martini style single shot that would likely make a fine shooter. (128050-831) {MODERN} (50/100)
2298. **WINCHESTER MODEL 67 BOLT ACTION SINGLE SHOT RIFLE** 22 S,L,LR, 27" barrel with a lightly pitted bore. The metal surfaces retain 85% reapplied blue with some fading toward brown, spotty oxidation and light pitting. The walnut pistolgrip stock has been cleaned with an area in the forend that is reshaped, likely as a grip, showing multiple minor dings, scratches and tool marks and an added finish that is flaking in a couple of spots. The factory sights are intact but the bolt for this rifle is not present. (128050-829) {MODERN} (20/75)
2299. **DEUTSCHE WERKE MODEL 1 SINGLE SHOT RIFLE** 22 LR, 23" barrel with a bright very good bore showing a little light frosting. The metal surfaces retain 90% original blue with some fading toward brown, a little light freckling, a few small spots of oxidation and a little handling and operational wear. The walnut pistolgrip stock with checkered grip has likely been lightly cleaned and rates near excellent with several minor dings and scratches. The distinctive action tips up for loading and is marked "Mod 1" with the Deutsche Werke "Dormant Lion" logo. The gun is fitted with sling swivels. There is a brass disc imbedded in the left side of the stock marked "9194 / Cal 22LR / DW" that likely replaces the Deutsche Werke medallion seen on other DW rifles. The metal buttplate with Deutsche Werke logo is blue with a little light oxidation. The tip of the forend is marked "9194" and the side of the frame is marked "D.R.P. / Germany". The gun is sighted with what appears to be original front bead and rear U-notch sights. An interesting pre-war rifle. (128050-838) {C&R} (100/300)
2300. **DEUTSCHE WERKE MODEL 1 SINGLE SHOT RIFLE** 22 LR, 23" barrel with a very good lightly frosted bore. The metal surfaces are primarily a gray-brown patina with a fair amount of blue on the frame and action, an abundance of light cleaning marks along the barrel, and a couple of spots of light pitting. The walnut pistolgrip stock has been cleaned, is fitted with a Deutsche Werke "Dormant Lion" medallion on its left side, and rates very good to near excellent. The distinctive action tips up for loading and is marked "Mod 1" with the Deutsche Werke logo and the V-notch rear sight is integrated into its front edge. The tip of the forend is marked with a number where only an "8" is still legible. The Deutsche Werke logo marked metallic buttplate hangs slightly proud of the wood and is blue with a little light oxidation. The side of the frame is marked "D.R.P. / Germany". The front bead sight is intact. (128050-840) {C&R} (75/150)
2301. **DEUTSCHE WERKE MODEL 1 SINGLE SHOT RIFLE** 22 LR, 19" barrel with a lightly pitted bore. The barrel retains 95% reapplied blue with some thinning toward brown, a little light pitting and mild oxidation. The frame and action are a gray-brown patina with some added cold blue. This boys rifle's flat hardwood board stock has a Deutsche Werke "Dormant Lion" logo pressed into the its left side and has been lightly cleaned with an added finish and rates near excellent. The tip of the forend on this simple wood stock is marked with a number where only a "7" is still legible and it does not incorporate a buttplate. The distinctive action tips up for loading and is marked "Mod 1" with the Deutsche Werke logo and the U-notch rear sight is integrated into its front edge. The side of the frame is marked "D.R.P. / Germany". The post front sight is intact. (128050-837) {C&R} (75/150)
2302. **DEUTSCHE WERKE MODEL 1 SINGLE SHOT RIFLE** 22 LR, 19" barrel with a lightly frosted bore. The metal surfaces retain 80% original thinning blue toning toward brown with a few spot of light oxidation. 2351. **SAVAGE SPORTER BOLT ACTION RIFLE** serial #129468, 22LR, 24" barrel with a custom compensator made from a section of a Sturm, Ruger and Co. barrel permanently attached to the muzzle. The trigger does not function and the stock has several cracks running its full length and no buttplate is present. Likely a nice wallhanger or donor gun. (217951-59) {MODERN} [Tweed Herendeen Collection] (15/20)
2352. **CUSTOM STEVENS 044 FALLING BLOCK RIFLE**, serial #2691, 22LR, custom 28" heavy 2" octagon barrel marked B. W. Darr on the top with a bright excellent bore. The barrel shows heavy oxidation and pitting on its exterior and has two scope mounts attached. The receiver shows some case-hardened colors remaining along with heavy pitting and oxidation. The smooth walnut pistolgrip buttstock rates very good overall with minor handling marks and a 1 1/2" crack ahead of the checkered steel buttplate. The action seems to function well mechanically. Will likely make a nice benchrest rifle. (217951-91) {MODERN} [Tweed Herendeen Collection] (100/200)
2353. **STEVENS TIP-UP RIFLE** serial #13836, 38-35 Stevens, 28" full octagon barrel with a good bore showing pitting and oxidation throughout. The barrel has toned to a mix of brown and mottled gray patina. The nickel frame is mostly a gray patina with about 30% nickel finish remaining. The target grade stock has minor handling marks in the finish and wears a smooth steel crescent buttplate which is now a gray patina. This rifle is sighted with a Beach combination front sight, a leaf rear sight and a tang mounted Vernier-type flip-up peep sight. (217951-124) {ANTIQUE} [Tweed Herendeen Collection] (150/250)
2354. **WINCHESTER MODEL 1300 SLIDE ACTION SHOTGUN** serial #L1731344, 12 ga, 24" deer slug rifle-sighted barrel choked cylinder with a bright excellent bore. The metal surfaces retain about 98% original finish with only minor handling marks. 2355. **WINCHESTER MODEL 120 RANGER SLIDE ACTION SHOTGUN** serial #L1702607, 12 ga, 28" ventilated rib Win-choke barrel with a bright excellent bore. The metal surfaces retain about 90% original finish with heavy oxidation, pitting and scratches throughout. The smooth walnut pistolgrip buttstock and grooved forend rate very good plus with only minor handling marks. The included choke is full. (218140-34) {MODERN} (100/200)
2356. **MOSSBERG MODEL 500A SLIDE ACTION SHOTGUN** serial #K296082, 12 ga, 18 1/2" plain rifle-sighted barrel choked cylinder with a bright excellent bore. The metal surfaces retain about 95% original finish, the loss mostly due to the slide operation and light handling marks. The checkered walnut pistolgrip buttstock and forend rate excellent and wear a factory rubber recoil pad. (218140-7) {MODERN} (100/200)
2357. **REMINGTON MODEL 870LW WINGMASTER SLIDE ACTION SHOTGUN** serial #S488820K, 20 ga, 26" plain barrel choked improved cylinder with a bright excellent bore. The metal surfaces retain about 97% original finish, the loss mostly due to wear on the slide action. The checkered walnut pistolgrip buttstock and forend rate excellent with only minor handling marks and it wears a factory recoil pad. (218194-5) {MODERN} (150/250)
2358. **BROWNING BPS FIELD MODEL SLIDE ACTION SHOTGUN** serial #03998MX121, 12 ga, 22" ventilated rib Invector-Plus choked barrel with a bright excellent bore. The metal surfaces retain about 97% original finish with light handling marks. The checkered walnut straight grip buttstock and forend rate excellent with only minor handling marks and a factory recoil pad. This shotgun is sighted with a fiber optic tube front sight and the included choke is full. (218116-60) {MODERN} (200/400)
2359. **BROWNING AUTO-5 MAGNUM BUCK SPECIAL SEMI-AUTO SHOTGUN**, serial #69V32467, 12 ga, 23 1/2" plain buck barrel choked modified with a very good bore showing minor frosting throughout. The metal surfaces of this Belgian-made shotgun retain about 92% original blue, the loss due to fading overall, on the high points and around the feed opening. The checkered walnut pistolgrip buttstock and forend rate very good with minor dings, dents and handling marks and it wears a factory rubber recoil pad. This shotgun is sighted with rifle sights (center insert removed) featuring a Williams WGRS rear peep sight and the top of the receiver has six drilled and tapped screws installed perhaps for a past scope mount. (218116-50) {MODERN} (200/300)
2360. **WINCHESTER MODEL 1890 SECOND MODEL TAKEDOWN SLIDE ACTION RIFLE** serial #478935, 22 Short, 24" octagon barrel with a heavily pitted dark bore. The metal surfaces retain about 90% of a reblued finish. The smooth walnut straight grip buttstock and grooved forend rate very good as finished with only minor handling marks with a smooth crescent steel buttplate. This rifle is fitted with its original sights. (218050-801) {C&R} (150/250)
2361. **WINCHESTER MODEL 1906 SLIDE ACTION RIFLE** serial #280702, 22 S,L,LR, 20" round barrel with a fair highly pitted bore. The metal surfaces retain about 75% of a cleaned and reblued finish and the trigger housing and rear frame assembly have a different serial #386744. The refinished smooth walnut straight grip buttstock and grooved forend rate excellent with a hard rubber buttplate. (218050-787) {C&R} (100/200)

2362

2362. **ARMY & NAVY SINGLE SHOT STALKING RIFLE** serial #55323, 300 Sherwood, 26" barrel with a near excellent bore that is mostly bright but has some areas of light pitting and oxidation. The barrel is mostly a mottled brown with some areas of light pitting and light surface oxidation. The frame and pistolgrip cap retain about 40-50% of the original vibrant case color, the balance has flaked to a rich brown with gray blending through. The top to the barrel above the chamber is marked "Army & Navy C.S.L. London" and a few of the screws have some light slot damage. The checkered walnut stocks rate excellent with a few light dings and other light handling marks. The buttstock features a integral wood pad and has a blank silver oval monogram plate on the toe line. Rifle features a simple post front sight and has a folding leaf rear sight. A near excellent example of these classic single shot rifles. (47951-9) {ANTIQUE} [Tweed Herendeen Collection] (400/600)

2363

2363. **CUSTOM WINCHESTER 1885 HIGH WALL FALLING BLOCK RIFLE** serial #66961, 32 CF, 26" heavy round custom barrel with a bright excellent bore. The barrel is unmarked and remains in the white and is bright steel. The frame has about 95% of a later applied blue finish that covers some light tool marks. The lever is mostly a mottled gray with some minor pitting along the edges of the lower tang. The buttstock features a capped pistolgrip and cheekrest and flat steel shotgun style buttplate. The stock rates very good with a few small cracks on the right side of the wrist and added finish. The forearm has been fitted to the barrel and has an ebony inlaid schnabel tip. The barrel is equipped with a set of target blocks. A good project rifle with lots of potential awaiting your finishing touches. (47951-170) {ANTIQUE} [Tweed Herendeen Collection] (400/600)

2364. **PERKINS PERCUSSION HALF STOCK FOWLER** serial #1309/1283, 12 Bore, 38 1/4" part round, part octagon barrel with a wedding band transition and a 2/3 underlug and a very good, lightly pitted bore. The metal surfaces are an overall rich mottled brown that is mixing with gray and areas of light surface oxidation. The top barrel flat is marked "London" the back action percussion lock has "Perkins" along with some loose foliate scroll engraving. The checkered hardwood stock is fitted with silver furniture and rates about very good with a few small cracks and a 5" repair on the right side of the forend. The silver accents all have a light tarnish and feature a long tang triggerguard with replacement brass end, a small trapdoor located on the toe line (likely to hold a replacement nipple) and shotgun style buttplate. Much of the silver has loose foliate engraving. The wedge pin is bordered on each side with bone type escutcheons. The nipple is a modern replacement and the brass tipped ramrod is likely the original. The action functions correctly. An overall very nice British fowler in very good overall condition. (47951-207) {ANTIQUE} [Tweed Herendeen Collection] (300/500)
2365. **STEVENS TIP-UP RIFLE** serial #1201, 38 RF, 24 1/4" octagon barrel with an about very good bore that is lightly pitted, but has good rifling. The barrel is a mottled brown that is blending with gray and has a few areas of light surface oxidation with fine pitting. The frame and crescent buttplate retain about 90% of the original nickel finish that has some light edge wear and flaked areas with light surface oxidation. The walnut buttstock rates about very good and has been lightly sanded with oil finish added. The stock has a few light dings and has been repaired around the wrist on the right side. Rifle is equipped with the factory combination front and rear sights. An about very good condition example overall that should make a decent shooter still. (47951-110) {ANTIQUE} [Tweed Herendeen Collection] (200/400)

2366. **STEVENS IDEAL NO. 44 1/2 FALLING BLOCK RIFLE** serial #9255, 25 RF, 28" part round, part octagon barrel with a near excellent bore that has some areas of light pitting. The barrel retains about 90% of what appears to be original blue that is lightly flaking to brown. The frame and remaining metal parts are a mottled brown that is blending with gray and have a few traces of the original case color still visible. The barrel is numbered differently and currently sits a little offset to the frame. The frame has a small repaired crack on the right side at the rear of the block, and the small set screw that retains the lever pin is missing. The walnut stocks rate about very good and have added finish over light dings and handling marks and a few small cracks. Rifle is equipped with a globe style front sight, the rear sight has been removed, the slot filled with a blank. Target blocks have been mounted to the barrel and an additional dovetail cut toward the rear. An about very good example overall that could benefit from a little TLC. (47951-109) {C&R} [Tweed Herendeen Collection] (200/400)
2367. **STEVENS IDEAL NO. 44 FALLING BLOCK RIFLE** serial #63288, 22 LR, 26" round barrel with an excellent bore. The metal surfaces are overall a mottled gray with areas of brown patina, oxidation and fine pitting blending in. The frame and crescent buttplate more brown than gray and the screws have some light slot damage. The walnut stocks rate about very good and have added finish over a few small crack, light dings and other handling marks. There are no sights present, both the front and rear dovetails are vacant but target blocks have been mounted to the barrel. The barrel also has a copper band which has been installed about 2 3/4" from the muzzle. A very good condition example overall that functions mechanically and should make a great shooter. (47951-125) {C&R} [Tweed Herendeen Collection] (200/400)
2368. **WINCHESTER MODEL 1886 LEVER ACTION RIFLE** serial #149918A, 45-70, 23 3/4" round barrel with an excellent bore. The unmarked replacement barrel remains in-the-white and has some light brown patina forming. The remaining metal surfaces are a mottled gray with light handling marks and light oxidation staining blending through. The walnut straight grip buttstock has two diamond patterns checkered into the either side of wrist area and has evidence of having been lightly sanded with oil finish added. The stock has light scratches and handling marks, the metal around the tang is quite proud and the toe has been reshaped. Additionally the hard rubber buttplate has a small chip in the right side. The original magazine tube and forearm are not present and have been replaced with a walnut 1885 forearm that rates very good and features an ebony inlaid schnabel tip. There is a small crack along the top edge on the right side along with a few light handling marks. The forearm has not been mounted and is held in place with tape. The barrel appears unpolished and is without sights, a Lyman rear aperture sight is mounted to the left side of the receiver. A project in the works that would make a handy single shot in its current configuration, but may be worth a proper restoration. (47951-30) {MODERN} [Tweed Herendeen Collection] (200/300)
2369. **TAURUS MODEL 63 SEMI-AUTO RIFLE** serial #XC7348, 22 LR, 23" barrel with an excellent bore. The metal surfaces retain about 98-99% original blue with a few areas of very light handling wear present. The smooth walnut stocks rate near excellent but have light scratches and other mild handling marks on each. The buttstock has some light flaking along the edge on the left side where it meets the smooth steel buttplate. A true reproduction of the original classic Winchester of the same model, this rifle features similar sights and the magazine tube through the buttstock as the original. A great little plinker in near excellent overall condition. (48100-193) {MODERN} [Walter "Walt" Rauch Collection] (200/300)
2370. **MARLIN MODEL 880 SS BOLT ACTION RIFLE** serial #05497582, 22 LR, 22" barrel with a bright excellent bore. The stainless steel metal surfaces rate excellent and remain bright. Rifle is equipped with a black composite stock which rates excellent as well. The original sights are intact and included are the original box, manual and a single detachable magazine. An excellent condition 22 bolt rifle. (48100-201) {MODERN} [Walter "Walt" Rauch Collection] (100/200)
2371. **JAPANESE TYPE 99 ARISAKA RIFLE BY KOKURA** serial #(series 24)6416, 7.7 Arisaka, 26" barrel with an excellent bore. The metal surfaces retain most of what appears to be the original blue, with areas of brown blending throughout. The receiver markings are crisp and the mum remains unmolested. The military hardwood stocks rate about very good and have the usual assortment of minor dings, divots and other marks associated with service use. There is a minor chip, possibly the result of a bullet strike on the underside of the forearm. The bolt parts are mismatched and numbered to a different rifle and some of the screws have minor slot damage. Rifle is equipped with what appears to be a "last ditch" era buttstock but retains the earlier hardware and sights, minus the wings, and has the block for the mono-pod which is not present. There is no provision for a cleaning rod, but a military rubber coated sling is included that has moderate to heavy crazing and cracking. A very good condition example overall. (48199-197) {C&R} [Walter "Walt" Rauch Collection] (300/500)
2372. **JAPANESE TYPE 99 ARISAKA RIFLE BY TOKYO KOGYO** serial #(series 32)25947, 7.7 Arisaka, 26" barrel with a near excellent bore that has some light oxidation and pitting toward the muzzle. The metal surfaces are mostly a mottled brown with areas of gray blending throughout. The receiver markings are crisp and the mum has been lightly ground, but is still mostly visible. The military hardwood stocks rate very good and have the usual assortment of minor dings, divots and other marks associated with service use. There is a minor crack about 2" long with some chipping along the right side at the rear of the receiver. The bolt parts are matching with the exception of the knurled safety cap which is numbered to a different rifle. Rifle is equipped with aircraft sight wings and has the block for the mono-pod which is not present. A very good condition example overall. (48199-198) {C&R} [Walter "Walt" Rauch Collection] (300/500)
2373. **JAPANESE TYPE 99 ARISAKA RIFLE BY TOKYO KOGYO** serial #(series 33)91325, 7.7 Arisaka, 26" barrel with a near excellent bore that is mostly bright but has a light ring with bulge about 2" from the muzzle. The metal surfaces are mostly mottled brown with areas of light surface oxidation and gray metal blending throughout. The receiver markings are crisp and the mum is unmolested, the "Type 99" characters are not present and do not appear to have been stamped by the arsenal. The military hardwood stocks rate near excellent and have added lacquer over the usual assortment of light dings and other marks associated with service use. The bolt parts are all matching and numbered to the rifle. This later war rifle is equipped with a basic block front sight, no mono-pod block and includes a short cleaning rod. A very good condition late war example that should not be fired due to the ring in bore and is sold as a collectible only. (48199-199) {C&R} [Walter "Walt" Rauch Collection] (200/400)
2374. **RFI ENFIELD NO.1 MK III BOLT ACTION RIFLE** serial #82143L, 303 British, 25" barrel with an excellent bore. The metal surfaces retain about 60-70% arsenal blue that is mostly fading to gray and blending with mottled browns. The receiver markings are crisp including the three-tiger logo and date of "1951". The hardwood stocks rate very good and have several light dings, small divots and other minor handling marks. The buttstock has two crisp, circle cartouches on the right side and several proofs visible under the wrist. The rear handguard shows an older arsenal repair with a couple of small cracks. Rifle appears to be complete with a matching bolt and nose cap, and includes an unmarked magazine. A near excellent example overall that was imported by Century Arms. (48100-179) {C&R} [Walter "Walt" Rauch Collection] (200/400)
2375. **LITHGOW ENFIELD NO.1 SMLE MK III BOLT ACTION RIFLE** serial #B25583, 303 British, 25" barrel with a very good bore that is mostly bright but appears to have some light pitting about midway down. The metal surfaces retain most of the arsenal gray parkerized finish which is flaking to brown throughout. The hardwood stocks rate excellent and have several light dings and other military use handling marks. The buttstock has several arsenal type markings on the right side, including the Lithgow crest and a date of "7/46" under "R / MA". The receiver is dated "1923" and the bolt is matching, the stock is numbered to a different rifle. The rifle appears to be complete and includes a single unmarked magazine. There is a cut-out for the magazine disconnect, however the hardware has been removed and is not included. A near excellent example overall. Imported by IA CO in CA. (48100-191) {C&R} [Walter "Walt" Rauch Collection] (250/450)

2376. **ROSS MARK II BOLT ACTION RIFLE WITH U.S. MARKINGS** serial #1523, 303 British, 28" barrel with a very good, gray bore that is lightly frosted throughout. The metal surfaces are an overall mottled brown with areas of gray, the receiver has a gray appearance with some light oxidation staining and brown patina flaking through. The military walnut stock has been modified and shortened for sporting use. The stock rates very good and has a small crack at the front of the bottom metal and several dings and light handling marks throughout. The stock's markings are faint but still mostly visible and include a circle cartouche with arsenal markings along the right side. The serial number and the U.S. "(ordnance bomb) / US" acceptance markings at the pistolgrip are very faint but can still be seen under the right light. Rifle appears to function correctly and is in very good condition overall as modified. A thin leather sporting sling is included. (48100-195) {MODERN} [Walter "Walt" Rauch Collection] (200/300)
2377. **SAVAGE MODEL 23A SPORTER BOLT ACTION RIFLE** serial #136474, 22 LR, 23" barrel with an excellent bore. The metal surfaces retain about 90% original blue that has flaked to brown and mixing with areas of gray and light surface oxidation throughout. The smooth walnut stock rates excellent and few dings and other light handling marks present. The stock features a schnabel tip, a pistolgrip, sling swivels and the serrated steel buttplate. The original front sight is intact, the rear sight has been replaced with a slot blank. At one point an aperture sight had been installed at the rear of the receiver but has since been removed and a vintage J.C. Higgins 6X riflescope has been installed to a Weaver base atop the receiver. The scope features a crosshair reticle and has very good optics. A single detachable magazine is included. A lovely vintage 22 LR in near excellent overall condition. (48100-204) {C&R} [Walter "Walt" Rauch Collection] (200/300)
2378. **REMINGTON NYLON 66 SEMI-AUTO RIFLE** serial #A2106898, 22 LR, 19 1/2" barrel with an excellent bore. The metal surfaces retain about 95% original blue with some light handling marks scattered about. The brown Zytel stock rate excellent and has a few light handling marks as well. The original sights are intact and mounted to the grooved receiver is a 3-7X20 riflescope. The scope is not maker marked but features a duplex reticle and has excellent optics. An excellent example of these vintage rifles, this one made in 1977. (48100-206) {MODERN} [Walter "Walt" Rauch Collection] (200/400)
2379. **REMINGTON MODEL 31 SLIDE ACTION SHOTGUN** serial #76104, 12 Ga, 24" round barrel with an added Weaver compensated choke system and an excellent bore. The metal surfaces retain about 85% original blue that is lightly flaking to brown and has some areas of wear on the edges and bearing surfaces. The receiver has a few small light tool marks on the upper edge on the right side. The walnut pistolgrip buttstock and ribbed forearm rate near excellent and have light added finish over light handling marks. The forearm does have a tiny crack forming at its base. The buttstock has the original hard rubber buttplate and an "Action" leather recoil boot has been added. Included is a single Weaver screw-in choke marked "S" for skeet. A near excellent example that should still be a good performer at the clays range. (48100-200) {MODERN} [Walter "Walt" Rauch Collection] (150/250)
2380. **REMINGTON MODEL 870 WINGMASTER SLIDE ACTION SHOTGUN** serial #S702598V, 12 Ga, 20" ported barrel with a cylinder choke and an excellent bore. The metal surfaces retain about 95-97% of a matte blue finish that has areas of speckled light surface oxidation and some fine pitting present, mostly on the barrel. The grooved walnut forearm rates excellent and has some residual tape and Velcro material on the right side. The buttstock has been replaced with a Knoxx Copstock folding recoil reducing buttstock. The wire stock features a composite pistolgrip and can tame most 12 gauge loads to be manageable in either the folded or extended positions. The barrel is equipped with adjustable open sights and included is an extended magazine tube for additional capacity. An excellent example setup for tactical or home defense use. (48100-202) {MODERN} [Walter "Walt" Rauch Collection] (300/400)
2381. **SAVAGE MODEL 1904 BOLT ACTION RIFLE** serial #929, 22 S.L.L.R., 18" barrel with poor bore that is moderately pitted throughout most of its length. The metal surfaces are mostly a mottled gray with areas of light to minor pitting and brown patina mingling throughout. The barrel markings are still strong and mostly crisp. The walnut stock rates about very good and appears to have been lightly sanded with a few areas of light chipping and other light handling marks. The buttplate is proud of the wood and bears a fading retailer's marking with "NY, USA / Manufacturers / of / High Power / Repeating Rifles / Ammunition", much is obscured by pitting and wear. Rifle appears to be complete, including the sights and still operates, although the bolt spring appears to be weak. A good candidate for a full restoration and possibly a bore sleeve. (48100-210) {C&R} [Walter "Walt" Rauch Collection] (25/50)
2382. **STEVENS MODEL 11 JUNIOR ROLLING BLOCK RIFLE** 22 LR, 20" barrel with a good bore that has areas of light pitting but good rifling still visible. The metal surfaces retain about 90% of what appears to be the original blue that is lightly flaking to brown and has handling marks throughout. The "slab" style hardwood stock rates about very good and has an assortment of light handling marks and scratches, there are two small bilateral cracks at the base of the upper tang. Rifle is equipped with a simple blade front sight and has a v-notch block rear. A very good example overall that may prove to be a good shooter. (48100-208) {C&R} [Walter "Walt" Rauch Collection] (75/150)
2383. **STEVENS NO. 14 1/2 LITTLE SCOUT ROLLING BLOCK RIFLE** 22 LR, 18" barrel with an about good bore that has light to moderate pitting throughout. The barrel retains about 75% original blue that is flaking to brown and mingling with light handling marks along with some areas of light surface oxidation. The frame retains about 60% of the original case color that is blending to brown, the balance being a mottled brown/gray. The walnut stocks rate good and feature a splinter forearm and straight grip buttstock. The both have light dings and other handling marks, the buttstock has two minor chips including one at the right of the tang, the other at the toe. The original sights including the silver blade front and v-notch block rear, are intact. An about good to very good example overall. (48100-207) {C&R} [Walter "Walt" Rauch Collection] (75/150)
2384. **PAGE-LEWIS ARMS MODEL D RELIANCE BOLT ACTION RIFLE** 22 LR, 20" round barrel with a very good bore that is lightly pitted but has strong rifling still. The metal surfaces are a rich mottled brown with light surface oxidation scattered throughout and areas with light handling wear and tool marks. The hardwood stock rates about good and has a few minor cracks running through much of the forearm section along with some light scratches and other handling marks. Rifle is equipped with a simple half-moon front sight and v-notch rear. Page-Lewis was involved with Savage/Stevens in the 1920's when this classic "boy's rifle" was produced. A good example overall that may still make a decent shooter. (48100-209) {C&R} [Walter "Walt" Rauch Collection] (50/75)
2385. **FRENCH M80 GRAS BOLT ACTION CARBINE CONVERTED TO FLARE** About 30mm Flare, 15" barrel with a dark, oxidized bore. The general condition is poor overall. The metal surfaces are a mottled brown with areas of oxidation and light pitting scattered about. The receiver markings are soft but still mostly visible. The military buttstock has been converted but has several large cracks and is separated with bolt and nut, and pinned repairs. The forearm is missing. An interesting conversion overall that could have been military or made for local French law enforcement post-war. (48101-1) {ANTIQUUE} [Walter "Walt" Rauch Collection] (25/50)
2386. **CENTURY ARMS TANTAL SPORTER SEMI-AUTO CARBINE** serial #TTL-C00272, 5.45x39, 16 1/2" barrel with an excellent bore. The metal surfaces retain about 95% arsenal parkerized finish with some light handling wear and edge wear throughout. Carbine features the metal side-folding buttstock and has been fitted with a Tufforce modular quadrail complete with rail covers. The original military style grip has been replaced with an "Ergo" style black composite grip that has cleaning tools stored inside. The front sight has been painted bright orange and the original rear sight has been removed. Installed in its place is a full length picatinny top rail with integral peep sight. A large, flash hider has been installed at the muzzle and an oversized knob has been installed on the bolt handle. No magazine is included. An excellent example overall of the AK-74 inspired carbines. (48153-3) {MODERN} (300/500)

2387. **MOSSBERG MODEL 1500 MOUNTAINEER GRADE II BOLT ACTION RIFLE** serial #M007265, 30-06, 22" barrel with an excellent bore. The metal surfaces retain about 95-97% original blue with specks of light surface oxidation and staining mingling throughout. The checkered American walnut Monte Carlo stock rates excellent and has a few light handling marks and some light flaking of the lacquer finish. Rifle has no provisions for sights but mounted to the receiver via a Leupold one-piece base and rings is a Simmons 4X32 rifle scope. The scope features a duplex reticle and has bright, clear optics, the objective bell has a small dent on the right side. An excellent condition example overall. (48139-31D32090) {MODERN} (200/400)
2388. **UBERTI MODEL 1885 CUSTOM HIGH WALL FALLING BLOCK RIFLE** serial #10895/1444, 32-40 Win, 27" heavy round barrel with an excellent bore. The barrel retains about 95% of a matte blue finish that has some light handling wear and fine tool marks throughout. The frame, lever, hammer and block retain about 90% of factory smoky gray case color that is more gun metal gray along the edges. The forearm is missing but the factory straight grip walnut buttstock rates excellent and has a few light scratches. The stock features a blued crescent steel buttplate with storage compartment. A few of the screws have minor slot damage. The barrel has target blocks mounted with additional holes tapped for variability, two of the holes have been filled in. An excellent single shot project rifle that is in excellent condition and in a great caliber, awaiting your finishing touches. (47966-17) {MODERN} (200/400)
2389. **CUSTOM MAUSER 98K BOLT ACTION RIFLE** serial #2691n, 458 Win Mag, 26" barrel with a bright, excellent bore. The metal surfaces retain about 95% of a professionally applied blue finish that has light handling wear on some of the edges. There are visible German military markings still present on either side of the receiver. The checkered walnut Monte Carlo style Bishop stock rates about very good with a repaired crack running from the bottom metal through the checkering on the right side. There are light handling marks and excess epoxy present as well and a hardware store crossbolt added; the stock will need replacement. Mounted to the receiver is a one-piece Buehler scope base with 1" rings. A fair good condition Mauser sporting rifle. (47951-75) {MODERN} [Tweed Herendeen Collection] (300/500)
2390. **STEVENS MODEL 35 OFFHAND TARGET PISTOL** serial #52815, 22 LR, 6" part round, part octagon barrel with an excellent bore. The metal surfaces retain about 70% original blue that is flaking to brown the balance fading to mottled gray. There are a few specks of light surface oxidation present and some very light tool marks. The walnut stocks rate excellent with a few light handling marks and what appears to be added finish. The grips likely have been lightly sanded as the metal is proud along the edges. The base of the grip frame is nickel silver with some light fading along the corners and edges. The original sights are intact and the action appears to function correctly. A nice example overall that is in excellent condition and should still make a great shooter. (48171-15) {C&R} (250/450)
2391. **WINCHESTER MODEL 1885 LOW WALL FALLING BLOCK RIFLE** 22 Short, 23 3/4" octagon No. 1 weight barrel with an excellent bore. The metal surfaces retain about 95% of a later applied blue finish that has some light handling and tool marks along with edge wear and areas of light surface oxidation mingling about. The walnut stocks rate about very good and have added finish over light handling marks and small dings and divots. The handguard features a scant schnabel tip with ebony inlay and has a small repair to the right side and several cracks, the longest running most of the full length along the belly. The straight grip buttstock appears to have been lightly sanded and has been repaired on either side of the wrist area. There is also a small crack forming at the base of the upper tang notch and the steel crescent buttplate is proud around the edges. The front sight is intact, the rear dovetail is vacant and mounted to the tang is a combination aperture sight. The lower tang is missing, but some of the trigger parts are included. A quaint rimfire low wall that would benefit from a small amount of restoration. (47951-18) {MODERN} [Tweed Herendeen Collection] (200/300)
2392. **STEVENS TIP-UP RIFLE** serial #16721, 22 Short, 24" octagon barrel with a bright, excellent sleeved bore. The barrel is an overall a mottled brown that is fading to gray and has some light impact and tool marks present. The underside is stamped "22 Short" along with "17" and "645". The frame and triggerguard retain about 80% original nickel that is flaking to brown patina. The hammer is brown while the crescent buttplate is a mottled gray with areas of light surface oxidation. The walnut buttstock rates near excellent and has some light dings and light chipping at the toe. Rifle is equipped with a Beech combination front sight and has a folding rear. A Lyman combination aperture sight has been mounted to the upper tang. A near excellent example overall that should make a terrific shooter. (47951-178) {ANTIQUÉ} [Tweed Herendeen Collection] (200/400)
2393. **STEVENS TIP-UP RIFLE** serial #25162, 22 LR, 24" part round part octagon barrel with an about very good, lightly pitted bore that has strong rifling throughout. The barrel is an overall mottled brown that is fading to gray and has some light handling marks. The remaining metal surfaces retain about 85% original nickel finish that is lightly flaking along the edges and bearing surfaces. The walnut buttstock rates very good and has a lightly crazed added lacquer finish over light dings and other minor handling marks. The stock has a small crack forming at the base of the upper tang and two small chips on the right side where it meets the frame. The front sight is missing, the original rear is intact and rifle appears to be in very good condition overall. (47951-114) {ANTIQUÉ} [Tweed Herendeen Collection] (200/300)
2394. **STEVENS TIP-UP SINGLE BARREL SHOTGUN** serial #12704, 12 Ga, 32" plain barrel choked improved modified with a single bead sight and an about very good lightly pitted bore. The metal surfaces are an overall rich mottled brown with areas of speckled light oxidation and light handling marks throughout. The walnut stocks rate very good and have several light dings and small scratches. The buttstock has a small crack with chip along the lower tang. An about very good condition example overall. (48027-2) {ANTIQUÉ} (150/250)
2395. **STEVENS TIP-UP RIFLE** serial #3186, 25-20 S.S., 26 1/8" part round part octagon barrel with a good bore that has decent rifling but has some areas of light pitting. The metal surfaces are overall a mottled brown that is fading to gray, the frame has remnants of the original nickel finish. There are several light to moderate tool marks. The firing pin bushing appears to have been replaced and the frame bridge shows an old repair, likely to fit the bushing. The walnut buttstock rates very good and has a few light dings and a small chip with two small cracks at the toe. The original front sight is intact, a rudimentary rear sight has been added to an additional dovetail at the rear of the barrel. The original rear dovetail has been filled with a target block with an additional mount as well that currently hold a Wollensak 4X rifle scope. The scope features a crosshair reticle and has very good optics. An about good example overall. The frame and firing pinbushing should be professionally inspected if any thought is given to actually using this arm. (47951-116) {ANTIQUÉ} [Tweed Herendeen Collection] (100/200)
2396. **STEVENS TIP-UP RIFLE** serial #11263, 22 LR, 24" octagon barrel with a poor bore that is dark and has minor to moderate areas of pitting. The metal surfaces are moreover a mottled gray with light pinprick pitting over much of the surface. The walnut buttstock rates very good and shows evidence of having been lightly sanded with finish added over a few light dings. There is a 2" crack at the base of the left side of the tang, and a few very small drying cracks. The metal is proud of the wood. The original sights are intact, but missing are the firing pin and pieces of the extractor. The barrel still locks into the frame but sits loose. An about good example that may be good for parts or restoration. (47951-107) {ANTIQUÉ} [Tweed Herendeen Collection] (50/75)
2397. **FRANK WESSON TWO-TRIGGER SPORTING RIFLE** serial #383, 32 RF, 24" octagon barrel with an about very good bore that is lightly pitted but has strong rifling. The metal surfaces are an overall mottled brown and have a few light handling and tool marks. The walnut buttstock rates about good and has a weathered appearance. The stock features a crescent buttplate and has several light chips and handling marks along with two slivers missing along the edges of the upper tang. The stock has a leather wrapped repair around the wrist, the lower tang screw is missing. The original blade style front sight and sporting rear are intact, the rear sight elevator is missing. The underside of the barrel has a vacant dovetail about midway from the muzzle to the frame. A very good example overall. (47951-4) {ANTIQUÉ} [Tweed Herendeen Collection] (200/300)

2398. **FRANK WESSON TWO-TRIGGER SPORTING RIFLE** serial #796, 32 RF, 24" part round part octagon barrel with a very good bore that is lightly pitted but has strong rifling throughout. The metal surfaces are a mottled gray with spotty brown patina overall. There are some light handling and tool marks present, and some of the screws have minor slot damage. The walnut stock rates very good and has a few light handling marks and small chips, along with a small crack on the right side emanating from the upper tang. The front sight is present but the rear sight dovetail is vacant as is the mounting hole in the upper tang for a target sight. The hammer does not function correctly, likely the mainspring is broken and in need of mechanical attention. An overall about very good example overall. (47159-8) (ANTIQUE) [Tweed Herendeen Collection] (100/200)
2399. **CIMARRON MODEL 1885 HIGH WALL FALLING BLOCK RIFLE** serial #S01727, 405 Win, 30" heavy octagon barrel with an excellent bore. Barreled action only. The barrel retains about 99% original blue with a few light handling marks noted. The frame and lever retain about 90% of the factory case colors with some light tool marks and flaking to gun metal gray. The barrel is equipped with a blade front sight and has a semi-buckhorn rear. Some of the screws have minor slot damage. There are no stocks and the action is frozen in the open position and may need mechanical attention. A good project for a skilled craftsman. (47966-8) (MODERN) (100/200)
2400. **HELWAN MODEL 951 BRIGADIER SEMI-AUTO PISTOL** serial #1053788, 9mm, 4 1/2" barrel with an excellent bore. The metal surfaces retain about 75% original blue and enamel finish that is flaking to gray throughout. The slide is bowed near the center. The left grip panel is cracked with the upper half missing, the right grip is intact. Pistol has been stripped and completely disassembled and it is not known if all the parts are present. No magazine is included. Imported by Interams. (47666-147) (MODERN) (50/100)
2401. **SMITH & WESSON MODEL 38 BODYGUARD AIRWEIGHT REVOLVER** serial #BSA3380, .38 Special, 1 7/8" barrel with bright excellent bore. The satin nickel finish on this flat latch revolver rates near excellent showing a few spots of light fine oxidation staining and a light turn ring along the five shot cylinder. The shrouded hammer and smooth combat style trigger show bold case-hardened colors. The revolver has a 1/10" serrated ramp front sight with square notch rear sight and is fitted with a set of checkered black rubber Uncle Mike's boot grips and remains in very good condition. (108002-49) (MODERN) [Charles Hadley Collection] (300/500)
2402. **SMITH & WESSON MODEL 49 BODYGUARD REVOLVER** serial #ACM5800, .38 Special, 1 7/8" barrel with bright very good bore that has a spot of light pitting half way down its length. The metal surfaces retain 95% nickel finish with overall light scratches and handling marks showing a light turn ring along the five shot cylinder. There is a serrated 1/10" ramp front sight with square notch rear sight and the smooth combat style trigger and standard hammer case-hardened colors have faded to a dull gunmetal grey. The revolver is stocked with a set of faux ivory Magna style grips with silver S&W medallions by Ajax and show light handling marks in overall very good condition. (108002-46) (MODERN) [Charles Hadley Collection] (300/500)
2403. **SMITH & WESSON MODEL 64-3 MILITARY AND POLICE REVOLVER** serial #ADH1875, .38 Special, 3" heavy barrel with bright excellent bore. The stainless finish on this revolver rates near excellent showing overall scratches with some light holster wear along the muzzle and turn ring around the cylinder. The revolver has a standard hammer and smooth combat style trigger with a hard chrome finish and 1/8" serrated ramp front sight with square notch rear. A set of two piece checkered rubber Uncle Mike's grips give this revolver a nice feel. The letters "CYA" are stamped on the left side above the trigger and likely stand for California Youth Authority. This revolver will likely perform well as a target of personal defense gun. (108002-97) (MODERN) [Charles Hadley Collection] (200/400)
2404. **SMITH & WESSON MODEL 64-3 MILITARY AND POLICE REVOLVER** serial #ACV5349, .38 Special, 3" heavy barrel with bright excellent bore. The stainless finish on this revolver rates near excellent with overall scratches, light dings, spots of light fine oxidation staining and a turn ring on the cylinder. The hard chrome finish rates very good overall with light operational marks on the smooth combat trigger and standard hammer. The revolver has a 1/8" serrated ramp front sight with square notch rear and is fitted with a set of wrap around checkered rubber Pachmayr grips. The model number was double stamped on the yoke making it read as a model 64-33 and the letters "CYA" are stamped along the left side of the frame above the trigger and likely stand for California Youth Authority and this should make a nice shooter or personal defense gun. (108002-18) (MODERN) [Charles Hadley Collection] (200/400)
2405. **SMITH & WESSON MODEL 64-3 MILITARY AND POLICE REVOLVER** serial #ADH1711, .38 Special, 3" heavy barrel with bright excellent bore. The stainless steel finish rates near excellent showing overall light scratches and handling marks with a few spots of light fine oxidation staining and a turn ring along the cylinder. The standard hammer and smooth combat trigger retain near all of their hard chrome finish with some light operational marks visible. The revolver has a 1/8" serrated front ramp sight with square notch rear sight and has a correct set of two piece checkered rubber Uncle Mike's grips. The letters "CYA" are stamped in the frame above the trigger on the left side and likely stands for California Youth Authority. (108002-98) (MODERN) [Charles Hadley Collection] (200/400)
2406. **SMITH & WESSON 38 SAFETY HAMMERLESS FOURTH MODEL REVOLVER** serial #159804, .38 S&W, 1 9/16" shortened barrel with about good lightly pitted bore. The metal surfaces retain 95% added chrome finish showing buff marks, spots of flaking and mostly washed barrel and frame markings. The front sight has been replaced and most of the screw slots show wear. The mother-of-pearl grips rate excellent showing some light staining and a few light handling marks. The revolver still times correctly and lockup remains tight. (108002-43) (MODERN) [Charles Hadley Collection] (75/150)
2407. **SMITH & WESSON 38 SAFETY HAMMERLESS FOURTH MODEL REVOLVER** serial #198646, .38 S&W, 1 1/2" shortened barrel with about good bore with light pitting and oxidation along its length. The metal surfaces retain 85% of their original nickel finish with loss due to flaking, oxidation, operational wear and cleaning. The faux mother-of-pearl grips rate excellent and the revolver seems to time well and lockup remains tight. (108002-153) (MODERN) [Charles Hadley Collection] (75/150)
2408. **SMITH & WESSON 32 SAFETY HAMMERLESS THIRD MODEL REVOLVER** serial #182107, .32 S&W, 1 1/2" barrel with an about good lightly oxidized and pitted bore. The metal surfaces retain near all of their reapplied nickel finish with buffing marks and spots of pitting showing through the finish. The S&W logo and most of the lettering is partially washed out and a set of mother-of-pearl grips fit this revolver well. The gun times well and lockup remains tight. (108002-33) (MODERN) [Charles Hadley Collection] (100/200)
2409. **HARRINGTON & RICHARDSON SECOND MODEL HAMMERLESS TOP BREAK REVOLVER** serial #261549, .32 S&W, 3" barrel with about very good bore. The nickel-plated surfaces rate excellent showing overall light handling marks, turn ring and light scratches on the cylinder. The trigger and triggerguard retain near all of their original blue finish and the checkered target logo grips rate very good with a small abrasion and crack on the heel of the right panel. (108060-139) (C&R) (100/200)
2410. **BERETTA MODEL 21A BOBCAT SEMI-AUTO PISTOL** serial #DAA015707, 25 ACP, 2 1/2" barrel with bright excellent bore. The metal surfaces retain 95% original blue finish with a few light scratches visible. The black checkered plastic grips rate excellent and this pistol comes with a factory box that is correctly numbered and labeled to the gun, manual, related literature and four magazines. (108171-3) (MODERN) (150/250)
2411. **SMITH & WESSON MODEL 38 BODYGUARD AIRWEIGHT REVOLVER** serial #J331664, .38 Special, 1 7/8" barrel with bright excellent bore. The metal surfaces retain 95% original nickel-plated finish with areas of flaking and spots of fine oxidation staining on the ejector and cylinder as well as a light turn ring. The standard hammer and shrouded trigger show remnants of case-hardened color. The revolver has a one piece textured rubber Hogue Mono-Grip that has a few minor tears along the edges and remains in good overall condition. (108002-47) (MODERN) [Charles Hadley Collection] (200/400)

2412. **SMITH & WESSON 32 "BICYCLE" 2ND MODEL HAMMERLESS TOP BREAK REVOLVER** serial #120380, .32 S&W, 2" barrel with good lightly frosted bore. The metal surfaces are mostly plum and pewter color patinas with trace amounts of blue in protected areas. There are scattered patches of light fine oxidation staining near overall and mottled case-hardened colors on the trigger. The checkered hard rubber grips rate near excellent with slightly rounded points showing a few light handling marks. The revolver functions but will need mechanical attention as it doesn't time correctly. A scarce variant with a 2" barrel in overall very good condition. (108002-102) {C&R} [Charles Hadley Collection] (300/500)
2413. **SMITH & WESSON 32 DOUBLE ACTION FOURTH MODEL REVOLVER** serial #53052, .32 S&W, 3" barrel with overall good lightly pitted bore. The metal surfaces retain 85% original nickel finish with loss due to flaking and spots of oxidation staining. The hammer and trigger show remnants of case-hardened colors and the hard rubber checkered grips rate very good with minor flattening of the points. This is an overall very good fourth model that appears to function well mechanically. (108002-103) {ANTIQUÉ} [Charles Hadley Collection] (150/250)
2414. **SMITH & WESSON 32 SAFETY HAMMERLESS THIRD MODEL REVOLVER** serial #234333, 1 7/8" shortened barrel with bright excellent bore. The metal surfaces retain about 90% later added nickel finish with overall light handling marks, spots of oxidation, flaking and fine oxidation staining. The mother-of-pearl grips rate about excellent with some light staining and the left side panel has a small repaired chip at the top left edge. The revolver seems to time correctly and lock up remains tight. (108002-100) {MODERN} [Charles Hadley Collection] (50/100)
2415. **HARRINGTON & RICHARDSON 32 TOP BREAK REVOLVER** serial #42693, 2" shortened barrel with about good frosted bore. The metal surfaces have been cleaned bare and remain a dull gun metal grey with scattered spots of oxidation staining near over all. There are no grips present and the revolver will need mechanical attention as it does not function properly. (108002-113) {MODERN} [Charles Hadley Collection] (25/75)
2416. **NORTH AMERICAN ARMS MODEL NAA-22LR REVOLVER** Serial #B24126, 22 LR, 1 1/8" barrel with bright excellent bore. The stainless steel surfaces rate excellent showing a few minor handling marks. The laminated rosewood grips rate fair with cracks in both panels likely from over tightening. The revolver seems to function well mechanically. (108171-17) {MODERN} (75/150)
2417. **COLT SINGLE ACTION BUNTLINE SCOUT REVOLVER** serial #171280F, 22 Magnum, 6" barrel with bright excellent bore. The alloy frame retains 95% black anodized finish with a few minor chips visible. The barrel and cylinder show about 85% thinning blue with silvering along the muzzle and cylinder. A set of aftermarket stag grips with silver Colt medallions fit this revolver fairly well. The action is crisp and the revolver times correctly. Included with this revolver is a second 22 Magnum cylinder and a plastic travel case. (108171-9) {MODERN} (200/400)
2418. **SMITH & WESSON M&P 40 SEMI-AUTO PISTOL** serial #DTC4274, 40 S&W, 4 1/4" barrel with excellent bore. 2538. **STEVENS OFF HAND TARGET NO. 35 SINGLE SHOT PISTOL** serial #55741, 22 LR, 8" part octagon part round barrel with a fair-poor bore which shows only remnants of rifling. The metal surfaces are an overall dull plum brown patina with pewter undertones and some scattered light oxidation and a few scattered areas of very light pinprick pitting. The hammer shows some remnant traces of pale fire blue. The smooth walnut grips rate good and very good, the left side showing some dings and abrasions, the right side some light handling marks, they are pencil-numbered to the gun. Barrel-to-frame fit is loose, the extractor is no longer present and the barrel and frame are numbered to two different pistols. The front sight is intact, remnants of the rear sight are intact, it having been modified and repaired a number of times over the years. A good restoration candidate. (37420-31) {C&R} (50/100)

2539. **PLANT MANUFACTURING EAGLE ARMS COMPANY SINGLE ACTION SPUR TRIGGER REVOLVER** serial #6660, .30 CF, 3 1/2" ribbed octagon barrel with a bright about excellent bore. This is really a lovely and very interesting little revolver. The arm started life off as a Plant front-loading revolver with rear-mounted ejector on the right side of the frame, now with a neatly filed loading groove where the cartridge ejector was once located. The cylinder was bored-through for the use of modern metallic centerfire cartridges. The barrel retains about 30% original bright blue, the balance is flaked to a plum patina, the cylinder retains perhaps 55% original bright blue, the balance is flaked to a pleasing smooth plum. The frame retains a nice 85% original silverplate with wear on the high edges and contact points and some light scratching on the right side of the frame. Hammer and trigger are a silvery case-hardened patina. The smooth rosewood grips rate very good plus with much original varnish and only minor handling marks and dings from the years, they are stamp-numbered to the gun. Overall a really nice example whose owner thought enough of it to have the arm converted to a more usable fashion after the expiration of the Rollin White patent. (37420-24) {ANTIQUE}

2539

(200/400)

2540. **WARNER ARMS CORPORATION 32 TOP BREAK DOUBLE ACTION REVOLVER** serial #B9519, 32 S&W, 3" ribbed round barrel with a very good plus to near excellent bore. The metal surfaces retain about 98 to 99% original nickel finish with some light flaking at the muzzle and perhaps a minor handling mark here or there. The triggerguard retains some very good original blue, fading to a darker gray on the bow, while hammer and trigger show very nice color case-hardening. The checkered hard rubber grips rate very good plus to excellent, they are un-numbered but fit very well. Barrel-to-frame lockup is excellent and the gun functions well mechanically. Really a nice example overall in a very seldom-encountered state of condition. (37420-27) {C&R} (40/100)
2541. **ITALIAN VETTERLI-VITALI MODEL 1870/87/15 BOLT ACTION RIFLE BY TORINO** serial #CD6788 6.5 Carcano, 34" barrel with a very good bore that exhibits some oxidization. Metal surfaces retain 95% arsenal bluing with some wear on bands and triggerguard. There is some light pitting on both sides of the magazine and oxidization on the bolt. Stock is in very good condition overall and has several minor dings and handling marks. There is a 2" crack on the right side of the butt at the rear. Stock has two sets of numbers, one of which matches the receiver serial number. Overall a very good example of an Italian Vetterli that was converted for World War One. (1X207420-80){ANTIQUE} (100/200)
2542. **ITALIAN VETTERLI-VITALI MODEL 1870/87/15 BOLT ACTION RIFLE BY BRESCIA** serial #MQ8953 6.5 Carcano, 34" barrel with a good bore that has some pitting. Metal surfaces retain about 90% arsenal blued finish with some wear on the barrel, left side of the receiver, and rear band. Barrel, triggerguard and bolt exhibit light oxidation. Stock is excellent with an added coat of finish and a couple minor handling marks. Stock has two sets of serial numbers, one of which matches the receiver number. Overall a nice example of a converted Italian Vetterli. (1X207420-81) {ANTIQUE} (100/200)
2543. **ITALIAN VETTERLI-VITALI MODEL 1870/87/15 BOLT ACTION RIFLE** serial #25664 6.5 Carcano, 34" barrel with a good bore that has pitting and oxidation. Metal surfaces retain about 90% arsenal blued finish with some light oxidation on the magazine and barrel. Cocking knob and front band finish are turning patina; rear band is somewhat loose. Stock is in very good condition with two 2" cracks near magazine, and stock also has scattered finish loss and minor handling marks. Serial number on butt matches that of the receiver. Overall a good example of a converted Vetterli that will make a nice wallhanger. (1X207420-79) {ANTIQUE} (100/200)
2544. **IVER JOHNSON CHAMPION SINGLE BARREL SHOTGUN** serial #FUUR, .410 bore, 26" plain barrel choked full with a bright excellent bore. The smooth walnut pistolgrip buttstock and forend rate excellent displaying just a few light handling marks. This gun is in near excellent condition. (1X177420-88) {C&R} (50/100)
2545. **R.G. INDUSTRIES MODEL RG26 SEMI-AUTO PISTOL** serial #U021429, 25 ACP, 2 5/8" barrel with an excellent bore. The metal surfaces retain about 75% original applied blue finish with most of the loss to the slide which has worn to a mottled mix of blue and gray. The checkered plastic factory grips rate near excellent with a few light scratches. The pistol includes a single magazine. (88072-1) {MODERN} (20/50)
2546. **ROHM RG10S DOUBLE ACTION REVOLVER** serial #30691, 22 LR, 3 1/8" barrel with excellent bore. The matte black finish on this revolver rates excellent showing a light turn ring along the cylinder and a few light handling marks. The checkered white plastic grips rate very good overall showing some light discoloration with slightly rounded points. An inexpensive German-made pistol in overall excellent condition. (1X107914-3) {MODERN} (40/100)
2547. **IVER JOHNSON BOSTON-BULLDOG REVOLVER** serial #5780, 38 S&W, 2 1/2" octagon barrel with a frosted bore. The metal surfaces retain about 96% original nickel plate with scattered light oxidation, scratches, bubbling and a few stray pits. The checkered hard rubber grips with bulldog head rate excellent. The mainspring has been removed but is provided and the single action sear and the base pin retention lever is in need of attention. (1X87899-1) {C&R} (20/75)
2548. **BERETTA MODEL 21-A BOBCAT SEMI-AUTO PISTOL** serial #BAS34833V, 25 ACP, 2 3/8" barrel with excellent bore. The nickel finish on this compact pistol rates excellent showing only a few minor handling marks. This pistol has fixed sights and smooth walnut grips with PB medallions. The grips show light impact marks along the right panel and this pistol comes with a single eight round magazine. This double action pistol remains in overall excellent condition. (108095-1) {MODERN} [Charles Hadley Collection] (100/250)
2549. **FOREHAND ARMS COMPANY TOP BREAK REVOLVER** serial #316533, 32 S&W, 3 1/4" barrel with lightly frosted bore. The barrel address reads "Forehand Arms Co., Worcester Mass. U.S.A. / Pat. Jan. 11 Nov. 29 '87, Jan. 8 '88". The double action revolver has a blade front sight with u-notch rear sight and has a set of checkered walnut grips with crisp points that remain in excellent condition. A Hunter open-top russet colored leather holster with silver snaps is included with the revolver. (1X107874-5) {MODERN} (25/75)
2550. **SAVAGE MODEL 24B OVER-UNDER COMBINATION GUN** 22 Magnum/410 Bore, 24" barrels with excellent bores. The barrels retain 90-95% original blue with some fading to brown and scattered light oxidation and light handling marks. The fading case colors on the frame rate very good, fading in places toward gray with light freckling and oxidation. The walnut pistolgrip stock and forearm rate very good to near excellent with multiple minor handling blemishes. The gun is fitted with a hard rubber buttplate and its original sights. (127908-17) {MODERN} (200/400)
2551. **BRITISH PERCUSSION FOWLER** 10 gauge, 45" part-octagon part-round London marked barrel with an oxidized and pitted bore. The metal surfaces are a blend of pewter and brown with scattered oxidation blemishes, even pitting and limited handling wear. There are a few traces of blue finish on the steel buttplate but it generally matches the rest of the metal surfaces. There are light wedges of floral engraving on the lock and triggerguard with the lock's engraving still fairly crisp but the triggerguard has softened from pitting. The one-piece buttstock rates fair with a number of cracks and splits that have been repaired on the wrist and forward of the lock. There are also two professionally applied metal repairs, one on each side of the wrist. The forend end section, running forward of the barrels wedding band is a later replacement piece of wood with a single ramrod ferrule mounted about midway. It is separated from the forend by about 1/2" and is broken off about 6" from the muzzle. The lock remains fully functional and a period wood ramrod is present. The top of the barrel is marked "LONDON" with several proof marks and the side of the lock is marked "LONDON WARRANTED". This should make a great wall hanger. (1X7898-6) {ANTIQUE} (100/300)

2552. **GERMAN GEHA BOLT ACTION SHOTGUN** serial #3318, 12 Ga, 27" cylinder bore barrel with a good bore that shows frosting throughout and a ring of oxidation near muzzle. The metal surfaces are turning a dull brown patina with oxidation and oxidation staining throughout. The walnut stock rates good with an added varnish finish, a 1 3/4" crack at upper tang, two 1 1/2" cracks on left side, a 1 1/2" chip on right side of receiver, a 1/2" crack on right side of butt, a deep 2 1/2" scratch on left side of upper tang, a couple 1/2" chips at upper tang, a minor area of paint staining on left side of receiver, scattered dings, handling marks, scratches, abrasions and chips. The right side of butt has the letters "CL" carved into and the left side of butt is marked with a heart cartouche and there is a disc inletted which shows two screws and oxidation staining. An interesting piece of history overall. (1X207951-15) {C&R} [Tweed Herendeen Collection] (50/100)
2553. **GERMAN G29/40 BOLT ACTION RIFLE BY STEYR (SPORTERIZED)** serial #7191a, 22 CF, 23" unmarked heavy barrel with an excellent bore. The barrel appears to be in-the-white with scattered oxidation staining while the receiver and bolt-stop area retain about 90% arsenal blue with scattered fading. The triggerguard and floorplate have turned a dull brown patina with scattered scratches and the buttplate shows oxidation and oxidation staining throughout. The cutdown beech stock rates very good with a 1" added cut to the bolt, scattered large abrasions, dings, chips, scratches and handling marks. The floorplate and triggerguard are matching to the receiver and the rifle is sighted with a Lyman All-American 6x power scope. The scope tube retains about 70% original blue with a couple large areas of silvering loss at front and it has a fine crosshair reticle with slightly cloudy optics. As with any arm of unknown caliber it is imperative to get this rifle checked out prior to firing. An aftermarket leather sling that shows crazing and flaking throughout is included with this rifle. An interesting Mauser target rifle overall. (1X207951-68) {MODERN} [Tweed Herendeen Collection] (100/200)
2554. **WINCHESTER MODEL 50 SEMI-AUTO SHOTGUN** serial #6328, 12 ga, 28" plain barrel choked modified with a bright excellent bore. The metal surfaces retain 98% original blue finish having loss due to light scratches and wear on the high edges. The checkered walnut pistolgrip buttstock and forend rate very good displaying just a few light handling marks over a moderately flaking varnish. This shotgun seems to function well mechanically. (1X177927-78) {C&R} (200/400)
2555. **BELGIAN GUILD GUN BOXLOCK DOUBLE SHOTGUN** serial #37341, 16 ga, 29 1/2" solid rib barrels choked modified and modified with very good pitted bores. The barrels retain 80% of their original blue finish which are toning to a dark brown patina having scattered scratches and rub marks. The breeches display nice golden leaf inlaid geometric borders. The boxlock frame has toned to a dull gray patina and is embellished with two running dogs on the right and a dog hunting a wild boar on the left, all done with natural habitat backgrounds surrounded by open foliage scroll. The fences and top of the frame show nice stippling. The triggerguard displays an open scroll engraving with a dog's head in the center. The checkered walnut pistolgrip buttstock with a shadow lined left side cheekpiece rates very good as refinished long ago, having a hole on the toeline from a removed sling swivel and having scattered dings and scratches. The splinter forend rates excellent displaying some lightly scattered dings and having a 3" chip on the right side that have been nicely rounded; both stocks exhibit worn and flat checkering and have a glossy added varnish. The buttstock is fitted with a red rubber recoil pad which provides a length of pull of 14 3/4". The gun features an engraved grip cap, automatic safety, cocking indicators and extractors. The gun will require mechanical attention and the right barrel fails to fire. A nicely engraved Belgian double shogun. (1X177764-1) {C&R} (300/500)
2556. **PARKER SIDE LEVER DOUBLE HAMMER SHOTGUN** 12 ga, 28 3/4" matted rib damascus barrels both choked improved cylinder, having very good bores with some light pitting primarily near the breech ends. The barrels have toned to a dark brown patina having some scattered dings, scratches, rub marks and specks of surface oxidation. The locks and frame have toned to a dark brown patina having light traces of original case colors in the protected areas. The smooth walnut pistolgrip buttstock rates about very good having been refinished long ago displaying some dings, scratches and having some separation around the locks and tangs. The checkered walnut forend rates good displaying a 3" crack on the belly emanating from the forend iron which has been repaired with a thin piece of wire. Both stocks show some added varnish and the buttplate is proud of the wood. (1X177591-17) {C&R} (175/275)
2557. **SAVAGE MODEL 775A SEMI-AUTO SHOTGUN** serial #237121, 12 ga, 30" plain barrel choked full having a bright near excellent bore. The barrel retains about 70% original blue which is fading to a gray with some light oxidation stains present. The receiver is embellished in a light scroll engraving having two ducks in flight on the right and two pointers on the left surrounded by open scroll. The checkered walnut pistolgrip buttstock rates about very good displaying a large chip on the left cheek, along with having some scattered dings and scratches. The checkered walnut forend rates very good displaying some light scattered dings and scratches. The buttstock is fitted with a Pachmayr hard rubber buttplate. The gun functions well, but it will require mechanical attention as it fails to fire. (1X177785-38) {MODERN} (75/150)
2558. **SWEDISH M96 MAUSER BOLT ACTION RIFLE BY CARL GUSTAFS** serial #474855, 6.5x55 Swedish, 29" barrel with fair bore that has scattered pitting but strong rifling. Receiver is dated "1919", buttplate, bolt parts, and rear sight are all matching, but remaining parts are mismatched. An aftermarket flash suppressor has been installed, and an aftermarket leather sling is included. Stock disc shows a "3" for bore condition, and stock rates very good overall with scattered handling marks and a 1/2" hairline split at tang. Overall an interesting Swedish Mauser. (1X207264-1) {C&R} (150/250)
2559. **PERCUSSION FULL STOCK SPORTING RIFLE BY CONESTOGA RIFLE WORKS** .50 cal., 35" octagonal barrel with an oxidized and pitted bore. The metal surfaces are predominately a brown patina with scattered dents and scratches especially around the breech end of the barrel. The lock is a dark smoky gray patina with hammer mostly a lighter gunmetal gray. The brass furniture has turned to a pleasing golden ochre patina. The lock and the barrel are both marked "Conestoga Rifle Works Lancaster PA". The hardwood stock rates good overall with a thin 3" crack through the wrist and long repairs approximately 16" from the muzzle along the barrel with a few light handling marks and marks from being cleaned. Some of the stock pins and hardware are modern replacements and do not fit the wood properly. The lock still functions but the brass tipped wooden ramrod is obviously not correct and is short. These rifles were reported to be economy rifles for the local trade marketed by Henry Leman under his trade name Conestoga Rifle Works. (2X57535-6) {ANTIQUÉ} (50/100)
2560. **SAVAGE MODEL 755A SEMI AUTO SHOTGUN** serial #581816, 12 Ga, 20" shortened plain barrel unchoked, with an excellent bore. 2592. **WALTHER MODEL 8 SEMI AUTO PISTOL** serial #398376, 25 ACP, 2 7/8" barrel with a poor bore that shows oxidation and pitting throughout. The metal surfaces have dulled to a brown patina with scattered freckling and some small spots of light pitting. The checkered grips rate very good with scattered dings, handling marks and scratches. The right grip panel has a blue disc that is marked "6,35" and the left panel has a blue disc that is marked "W" for Walther. A single magazine is included. A good example of an early Walther pocket pistol. (208112-19) {C&R} [Marsell Collection] (150/250)
2593. **MAUSER MODEL 1910 SEMI AUTO PISTOL** serial #154806, 25 ACP, 3 1/4" barrel with a good bore that shows oxidation and pitting throughout but strong rifling. The metal surfaces of this "(Crown)/U" marked pistol retain about 80% original blue with a small area of light pitting at left rear of frame, scattered silvering scratches, fading with heavy fading on the left side and scattered freckling. The checkered walnut grips rate very good, with an added oil finish and show a few dings, scratches and handling marks. All visible serialized parts are matching and a single magazine is included. A very good example overall. (208112-79) {C&R} [Marsell Collection] (200/400)
2594. **MAUSER HSC SEMI AUTO PISTOL** serial #725669, 32 ACP, 3 1/2" barrel with an excellent bore. The metal surfaces retain 90% original blue with scattered freckling and silvering. The grips rate very good with a minor chip at top front of right panel, scattered scratches, dings and handling marks. The slide is marked with a "(Eagle)/N" proof on the front right side and a single magazine is included. A very good example overall. (208112-12) {C&R} [Marsell Collection] (250/450)
2595. **MAUSER MODEL 1934 SEMI AUTO PISTOL** serial #365489, 32 ACP, 3 3/4" barrel with a very good plus bore that shows a few light pits. The metal surfaces of this Mauser Banner marked pistol retain 70% original blue with scattered fading, oxidation spots and silvering. The checkered walnut grips rate very good showing scattered dings, handling marks and scratches. The slide serial number has been defaced but it appears to match the frame and the remaining numbers are matching to the frame. A single magazine is included with this pistol. A solid example that may make a good shooter. (208112-71) {C&R} [Marsell Collection] (200/300)
2596. **MAUSER MODEL 1914 SEMI AUTO PISTOL** serial #67567, 32 ACP, 3 3/4" barrel with a poor to fair bore that shows oxidation and pitting throughout but visible rifling. The metal surfaces of this Mauser Banner marked pistol retain 60% of an arsenal quality blue with scattered fading, silvering and some areas of blued-over pitting. The walnut grips rate good with an older added varnish, flaking, dings, a few areas of chipping and the right panel of the points showing flattening throughout. All visible serialized parts are matching and a single magazine is included. A good example overall. (208112-52) {C&R} [Marsell Collection] (200/400)
2597. **COLT FRONTIER SCOUT SINGLE ACTION REVOLVER** serial #71338F, 22 LR, 4 3/4" barrel with a bright excellent bore. The metal surfaces retain 90% original blue with some scattered fading along the barrel and ejector housing and some light silvering on the edges of the frame. The Colt grips rate very good plus showing some scattered light dings, scratches and handling marks. A very good Frontier Scout overall. (208112-63) {MODERN} [Marsell Collection] (200/400)
2598. **ENFIELD 1853 STYLE MUSKET** .58 Cal, 39" smoothbore barrel with a moderately oxidized bore. The metal surfaces retain 98% of a reapplied blue finish with some light wear on front sight and the brass parts appear polished bright with some silvering scratches and freckling. The walnut stock rates very good as-refinished with an added varnish, a repaired 1" crack at upper tang, a repaired 6" crack on the left side of barrel at rear, a few scattered dings, light scratches and handling marks. The lockplate is marked "(Crown)/VR/Tower" but there do not appear to be any other markings on the gun and it is likely a newly made reproduction or an assembled piece. The rear sight has been resoldered on and the hammer appears to function well. A good piece for the budding Civil War collector or reenactor. (207944-2) {ANTIQUE} (200/400)
2599. **MAUSER MODEL 1914 SEMI AUTO PISTOL** serial #86549, 32 ACP, 4" barrel with a good bore that shows light to moderate pitting throughout much of its length but evident rifling. The metal surfaces retain about 60% original blue with scattered fading, silvering, oxidation staining and small areas of pitting. The checkered grips rate very good showing scattered scratches, dings and handling marks. All visible serialized parts are matching and a single magazine that shows freckling and light pitting throughout is included. A solid example of a Model 1914 Mauser pistol. (208112-70) {C&R} [Marsell Collection] (200/400)
2600. **IVER JOHNSON SMOKER SINGLE ACTION REVOLVER** serial #6965, 32 RF, 3" barrel with an oxidized and pitted bore. The metal surfaces retain 95% original nickel with scattered silvering scratches, light pitting and oxidation spots. The smooth walnut grips rate very good plus with an added varnish and showing scattered dings, handling marks and flaking. The barrel, cylinder and grip frame are all matching and the hammer is not cocking properly and will require mechanical attention to fix. A good project gun overall. (208112-75) {ANTIQUE} [Marsell Collection] (25/75)
2601. **COLT MODEL 1877 LIGHTNING DOUBLE ACTION REVOLVER** serial #160154, 38 Colt, 4 1/2" barrel with a dark oxidized bore. The metal surfaces retain 90% of a reapplied nickel finish with scattered oxidation, finished-over pitting and flaking. The rampant Colt grips rate good with flattening throughout, a few scratches, handling marks and dings. The grip frame, frame and triggerguard are matching; there do not appear to be any other serialized parts. The double action appears to function well, with the cylinder showing a bit of play. A good entry-level example for the Colt collector. (208112-55) {C&R} [Marsell Collection] (200/400)
2602. **WALTHER MODEL 7 SEMI AUTO PISTOL** serial #57497, 25 ACP, 3" barrel with a fair bore that shows oxidation throughout much of its length but visible rifling. The metal surfaces retain 95% quality reapplied blue with scattered freckling, silvering and light fading. The Walther grips rate very good with the right panel being loose and overall dings, scratches, flaking and handling marks are observed. There is no rear sight assembly present but a single magazine is included with this pistol. A good example overall. (208112-85) {C&R} [Marsell Collection] (150/250)
2603. **RUGER MKII SEMI AUTO PISTOL** serial #19-45914, 22 LR, 4 3/4" barrel with an excellent bore. The metal surfaces retain 98-99% original blue. The checkered Ruger grips rate about excellent with some handling marks and a single 10 round factory magazine is included. A nice MKII that will likely make a great shooter. (208112-64) {MODERN} [Marsell Collection] (200/300)

2604. **SAVAGE MODEL 1907 SEMI AUTO PISTOL** serial #97741, 32 ACP, 4" barrel with a very good bore that shows some scattered light pitting but strong rifling. The metal surfaces retain 90% original blue with some silvering to the high edges and scattered light freckling and fading. The "SAVAGE QUALITY" marked grips rate very good with light dings, handling marks and scratches. The left side of the frame is marked "SAVAGE" above the grips and a single magazine is included. A very good example overall. (208112-73) {C&R} [Marsell Collection] (200/400)
2605. **SOVIET TT-33 TOKAREV SEMI AUTO PISTOL BY TULA** serial #SM1952, 7.62x25mm, 4 1/2" barrel with a very good bore that shows a few scattered areas of pitting but strong rifling. The metal surfaces of this 1939 vintage pistol retain 98% reapplied phosphate with some scattered silvering scratches and areas of finished-over pitting. The correct Tula marked grips rate very good plus with a few light dings and handling marks. There is no added safety or visible import markings on this pistol. The frame, barrel and slide are all matching but the magazine is numbered to a different gun. A good entry-level Tokarev pistol. (208112-66) {C&R} [Marsell Collection] (200/300)
2606. **EAST GERMAN MAKAROV SEMI AUTO PISTOL** serial #4945, 9x18 Makarov, 3 3/4" barrel with a bright excellent bore. The metal surfaces of this 1965 dated pistol retain 98% original blue with some light silvering to the high edges of slide. The checkered plastic grips rate very good showing some scattered dings and handling marks. The frame and slide are matching and there is a Century import mark on the right side of frame. A single unmarked magazine is included. A nice example of these sought-after Makarov pistols. (208050-561) {C&R} (250/450)
2607. **ITALIAN VETTERLI MODEL 1870/87 BOLT ACTION RIFLE BY TORINO** serial #E3175, 10.4mm, 34" barrel with a good bore that shows oxidation throughout but visible rifling. The metal surfaces are an overall dull brown patina with some light pitting spots on magazine, scattered freckling and oxidation staining and the buttplate and magazine well showing the heaviest freckling. The hardwood stock rates very good as-lightly cleaned with several strong Italian cartouches, scattered dings, scratches and handling marks. The stock is numbered matching to the barrel, the bolt is numbered "13" but there do not appear to be any other serialized parts. A very good example of these early Italian rifles. (208152-2) {ANTIQUE} (200/300)
2608. **DIANA "THE DIANA" SEMI AUTO PISTOL** serial #11408, 25 ACP, 2" barrel with a good bore that shows a large area of pitting on the left side but visible rifling. The metal surfaces retain about 60% original blue with thinning and silvering throughout, some scattered oxidation staining and a small spot of light pitting on the left side of frame. The Diana marked grips rate about very good with a couple minor chips, scattered dings, handling marks and scratches. The slide is marked "THE DIANA 'PATENT'/AUTOMATIC PISTOL CAL 6.35/ (Trumpeter On Horse)"; the pistol appears to be of Belgian or French manufacture as the frame is marked "FEU", for fire and there do not appear to be any further markings. A single magazine is included with this pistol. An interesting pistol overall that may benefit from further research. (208139-77D32374) {MODERN} (50/100)
2609. **UNMARKED MAUSER 98 STYLE BOLT ACTION MILITARY RIFLE** 8mm CF, (Likely 8mm Mauser), 24" barrel with a good plus bore that shows scattered pitting and oxidation but strong rifling. The metal surfaces retain perhaps 25% of an arsenal quality blue with the floorplate retaining most of the remaining blue and the balance having faded to a brown patina with scattered oxidation staining and some pitting on rear band and throughout buttplate. The hardwood stock rates very good as-lightly cleaned with an added varnish, a 1 1/2" crack at upper tang, some chipping around buttplate, a few staining areas, scattered dings, scratches and handling marks. The serialized parts are mismatched. The rifle closely resembles the 1924 style rifles as the receiver is similar to that of a Kar98a and the front sight protector looks like that of the Polish WZ-29. There is no cleaning rod present but a black leather sling is included. An interesting rifle that may benefit from further research. (208139-56D32206) {MODERN} (150/300)

2670. UNMARKED SILVER HANDLE DAGGER MADE FROM A SABER

This unique single blade dagger is overall 19 1/4" and constructed without guard. The blade itself is 14 3/8" overall with a stopped central fuller. It is an overall dark gray and pewter patina with scattered overall light oxidation and remnants of light pinprick pitting, showing a few nicks along its edge and grind marks from being sharpened many years ago. The nickel silver handle is hallmarked "B&S" in an oval, likely Brooks and Son, and shows what appears to be a shining sun, an import or export mark. The handle is rectangular in cross section, the four facets showing some very light incise engraving the rear-most facets with some foliate and floral engraving, the domed butt exposing the tang of the blade and what appears to be a small screw-eye cap. The arm comes with a period leather sheath, hand-stitched, quality-done by some local saddler no doubt. It features a throat-mounted leather flap as a keeper or stop for one's boot. Overall an interesting period "Bowie" or dagger with a rather nice silver handle. (36965-45)

(300/500)

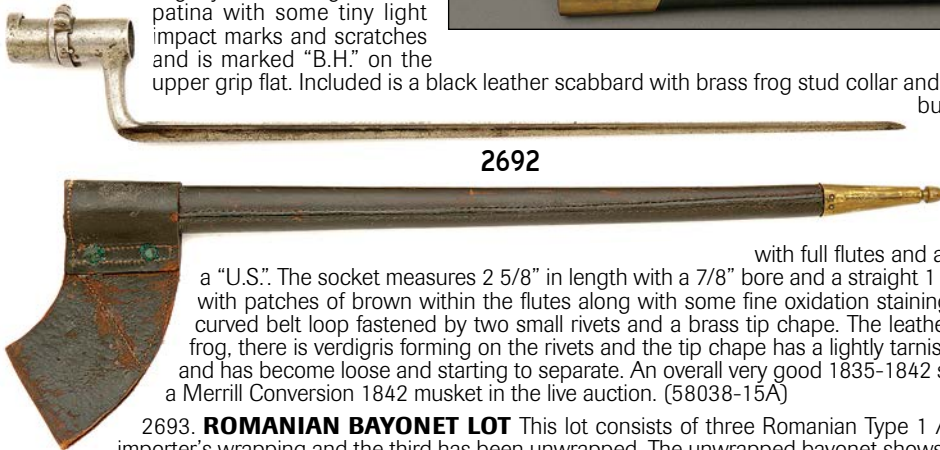

2671. **LOT OF ANTIQUE WHALING IMPLEMENTS** This lot consists of two hand-forged iron implements, the first is an early heart-shaped dual-edged (two flute) harpoon head. The head itself is an overall brown oxidized patina and about 45" in length. It features a heart-shaped blade which shows some minor damage at the tip. It is roughly 4 1/2" wide and 5 3/4" at its longest portion. This flattens slightly at the shaft for roughly 6" and then is circular, the shaft itself running 32" to the socket. The tapered socket is hand-folded and forged and measuring 8" in length and roughly about 1 1/2" in diameter. The second implement is a dual lobed v-shaped flensing knife. The hand forged iron blubber flensing knife is a 7" wide and about 5 1/2" at its longest point, the two interior lobes sharpened. It is hand forged flat for roughly 5 1/2" where the 6" socket begins. The item shows hand forged folds and overlaps and is an overall oxidized brown patina with light pitting. There is a crooked haft, likely of hickory or ash, attached measuring roughly 16" to the crook, the "handle" portion about 7 1/2". The wood is a dull tobacco patina showing some very small areas of dry rot and numerous powder post beetle holes. An interesting pair of implements from the days of iron men in wooden ships. (37546-140,141)
2672. **BRASS HILTED INDIAN TALWAR** This is an iron-bladed brass-hilted Indian talwar. The blade measures roughly 29" and has a single shallow stopped fuller along its spine edge. The blade is lightly wrinkled and is an overall deep brown patina showing light and moderate oxidation and pitting. The one-piece cast hilt features a crossguard, small lightly engraved bow and a disc-shaped pommel. It is a dull ochre patina and shows overall very light geometric incise engraving; the number "476" is lightly engraved on its obverse. An interesting Indian talwar overall. (37438-12)
2673. **RH RUANA MODEL 10B FIXED BLADE KNIFE** This is an older Bonner Montana skinner with sheath measuring 6 1/4" overall with a 3 1/2" hollow ground high carbon trailing point blade equipped with thumb serrations. The blade remains overall bright with some light staining and scratches along the centerline and main edge and is signed and dated "RH Ruana 1982" along the upper rear edge of the obverse side. The aluminum handle remains overall bright with a few light scuffs and stains from age and is marked "R.H. RUANA / BONNER / MONTANA" in oval on the reverse guard. The polished elk horn grip panels rate excellent and are fastened by two large bright pins. The leather sheath has a hone in pocket and plain nickel snaps. The leather shows a couple light scuffs and stains and verdigris is forming on the hardware. (56019-24L)

2674. **IMPORTED NON-REGULATION U.S. OFFICERS EAGLEHEAD SWORD** This is a straight-bladed foot officers sword with brass and wood hilt. The blade is 31 1/2" with a half-length stopped fuller. It is an overall dark gray and brown patina showing remnants of a light foliate etch, the ricasso is unmarked. There is a one-piece crossguard and bow with simple curved clamshell counter-guard showing a Federal Eagle, the bow showing light foliate decoration. The handle proper shows brass straps which retain wooden grip panels which were likely either leather wrapped or some other material like ivory or mother-of-pearl, these are wrapped with common copper wire; there is an eaglehead pommel cast-in-relief. There is a simple stamped brass scabbard included which is lightly engraved, has dual hangers as well as a stud for frog and a very scant drag. An interesting imported non-regulation foot officers sword overall. (37535-95)
2675. **RH RUANA MODEL 19B SKINNER FIXED BLADE KNIFE** This knife with sheath measures 9 7/8" overall with a 5" upswept square point high carbon skinning blade. The blade has been lightly sharpened, shows a few light scratches and stains and lacks Rudy Ruana signature. The aluminum handle remains overall bright with light age and storage staining. The reverse guard is marked "M" next to oval "R.H. RUANA / BONNER / MONTANA" maker mark. The polished elk horn panels rate excellent and are fastened by four bright pins. The original Ruana marked sheath rates very good plus with light oxidation staining and left strap trimmed at the plain bright strap. (56019-24Q)
2676. **RH RUANA MODEL 22H HATCHET** This vintage hatchet with sheath measuring 10 1/2" overall with a 5 1/16" high carbon head crafted from 3/8" stock. The head and haft remain overall bright with scattered tiny scratches from years of storage, the obverse side of the haft is signed "RH Ruana". The aluminum finger grip handle remains bright with light storage marks primarily along the edges and is marked "R.H. RUANA / BONNER / MONTANA" in oval on the reverse guard. The polished elk horn panels rate excellent and are fastened by four bright pins. The original Ruana sheath is equipped with reinforced tight stitched seams, head strap with single bright snap, embossed Ruana deer head over knife logo and is in near excellent condition with some minor light stains and verdigris on the hardware. (56019-24M)
2677. **A.G. RUSSELL SAFETY AXE** This handy little axe measures 10 5/8" overall with a 4 1/2" high carbon steel blade. The axe head remains unsharpened and bright except for a few scattered specks of fine freckling and staining. The rear obverse side of the head is marked with oval "A.G. RUSSELL / SOLINGEN GERMANY / SPRINGDALE ARK." The steel guard remains bright and the spring strong. The hickory handle with grooved neck rates excellent. (56019-24N)
2678. **EK MODEL 4 FIGHTING KNIFE** This first generation Model 4 knife serial #151 measures 12" overall with a 6 1/2" extended tang double edge tool steel blade. The blade has been cleaned and polished bright with remnants of pinprick pitting and oxidation and light markings along the edges from being nicely sharpened. The rectangular brass guard has a nicely tarnished brass patina and the rock maple handles rate excellent and are secured by large poured lead rivets. There is no sheath present. (56019-24P)
2679. **DON ZACCAGNINO CAMP AXE** Handcrafted by Don "Zack" Zaccagnino of Pahokee, Florida this handy little axe measures 12" overall with a 3 7/8" full tang stainless steel blade equipped with a 4 1/8" main edge. The head and haft remain bright, the main edge unsharpened and the reverse side of the haft is marked with oval "ZACK" maker mark next to "ZX-II-05" The contoured black micarta finger groove handles rate excellent and are equipped with a brass lined lanyard hole and fastened by six ground brass rivets. Included is a maker mark black leather belt sheath with stitched seams and plain brass snap on the handle strap. (56019-24R)
2680. **BUCK MODEL 104 KNIFE SET** This 1987 set contains a Model 102 Woodsman and 103 Skinner with leather sheath. The Woodsman measures 7 3/4" overall with a 4" clip point blade; the Skinner measures 8" overall with a 4" upswept skinning blade. The stainless steel blades remain bright and unsharpened. The aluminum pommels and guards remain bright as do the black phenolic resin handles and aluminum and black micarta spacers. The dual pouch black leather sheath rates excellent and is marked "BUCK" on the cover flap and "104" on the back of the sheath. (56019-24S)
2681. **CONTEMPORARY FACSIMILE RANDALL MODEL 16 FIGHTING KNIFE** This knife was made to somewhat resemble a Model 16 Special Fighter knife with a 7" carbon steel blade and is 11 5/8" overall length. The blade has been cleaned and polished with numerous buff and grind marks from being cleaned and sharpened along with some patches of staining and pinprick pitting. There is a crooked and darkened amateur applied facsimile Randall Made "FLA." maker mark on the obverse blade flat. The brass hilt has been cleaned to a bright patina with spots of light tarnished and buff marks. The stag handle has been cleaned bright with light sanding marks also present on the spacer collar. Included is a facsimile black leather roughback sheath with unmarked brass snaps, a lightly struck Randall Made logo and a gray Arkansas hone in pocket. (56249-1A)
2682. **CONTEMPORARY FACSIMILE RANDALL MODEL 2 FIGHTING STILETTO** Crafted to resemble a Randall Model 2 Stiletto this knife measures 13" overall with a 8 1/8" double edge carbon steel blade. The blade has been cleaned bright with numerous light scuffs, stains and spots of light pitting at the hilt. The blade has an uneven honed main edge, ground center edge and crooked darkened maker mark definitely not of Randall quality. The double brass hilt shows numerous light marks trying to remove tarnish and more solder around the tang than usual on true Randall knives. The commando shaped stacked leather washer handle rates very good showing light wear and staining and is separated from the hilt and Duralumin buttcap by lightly stained red, white and blue spacers. Included is a reproduction dark brown leather roughback sheath with plain brass snaps, Arkansas hone in pocket and "made up" Randall markings with an uneven border around the football shaped logo and edge marks by the size numbers. (56249-1B)
2683. **U.S. M5A1 BAYONET** This is an U.S. M5A1 bayonet by Imperial with scabbard. The bayonet measures 11 1/4" overall with a 6 5/8" spear point shaped blade equipped with a 3" sharpened false edge. The metal surfaces retain 98% original parkerized finish with only very minimal edge wear. The checkered black plastic grips rate excellent as does the BM CO. U.S. M8 green bodied scabbard. (58059-4D)
2684. **EK MODEL 1P FIGHTING KNIFE** This second generation fighting knife measures 12 1/2" overall with a 6 3/4" extended full tang stainless steel blade equipped with a 3 1/4" sharpened false edge and top thumb serrations on the top edge. The blade remains bright and unsharpened with etched short double banner maker mark and Richmond marking on one side of the blade. The grooved green micarta handles rate excellent and are fastened by three poured lead rivets. Knife includes an unmarked green nylon sheath and original two piece cardboard box with printed end label and hang tag. (58059-4A)
2685. **CUSTOM HI POWER SURVIVAL BOWIE BY CRAWFORD** This older Crawford knife measures 12" overall with a 6 3/4" full tang stainless steel blade equipped with a 6" double edge bowie style blade ending at a broad rectangular shaped ricasso. The blade remains bright, unsharpened and marked "Crawford" along the rear top edge on the obverse side of the blade. The nickel silver double guard remains bright as does the black highlighted full filework tang. The Sambar stag handle rates excellent with a small check at the front of the obverse scale. The scales are equipped with a lanyard hole and are fastened by two large bright pins. Included is an unmarked brown leather sheath with a single angular cut handle strap. A nice earlier Pat Crawford knife now known for his many tactical patterns. (58059-4B)

2686. **SOG S1 VIETNAM SPECIAL FORCES KNIFE** Manufactured in 1986 as a replica to the original MACV-SOG knife this version measures 11" overall with a 6 3/8" bowie style carbon steel blade. The blade retains 98% original gun blue, the obverse side is etched with square "SOG Specialty Knives" logo while the reverse is marked "VIETNAM /5th SPECIAL FORCES GROUP" along the top edge and MACVSOG logo. The double guard and lanyard hole equipped pommel retain all its original applied tarnished finish. The finger grip stacked leather washer handle rates excellent and is centered between brown and white spacers. Included is an original factory black leather sheath with hone in pocket. (58059-4C)
2687. **U.S. MODEL 1860 LIGHT CALVARY SABER BY PROVIDENCE TOOL CO.** 34 3/4" blade with wide and narrow fullers. The blade has toned to bright pewter with scattered freckling and oxidation staining. The obverse ricasso is marked "PROV. / TOOL / CO." and the reverse ricasso is dated "1862". The leather buffer washer shows modest wear but remains intact. The hilt has a triple branch guard with Phrygian pommel and a leather covered wood grip. The brass has a mellowed ochre patina and is decorated with light scroll along the branches, guard, spine and edges of the pommel. The leather covering remains mostly intact with light crackling and chips, the wire wrapping is no longer present. The steel scabbard has toned to gun metal with scattered fine oxidation, pinprick pitting with generous traces of flaking dull nickel. (58180-17) [R.J. & John Waltz Collection] (200/400)
2688. **IMPORTED MODEL 1902 OFFICERS SWORD** 29 3/4" blade with three-quarter length unstopped fullers. The lightly etched blade retains about 85% bright nickel with scattered fine oxidation with heavier concentrations along the forte. The hilt retains about 90% flaking nickel and the guard is slightly bent with hairline cracks across the branches. The brown plastic fingergroove grip rates good to very good with light handling marks, the hilt has loosened slightly over the years. The steel scabbard retains about 85% flaking original nickel with scattered fine oxidation staining with the majority of loss between the collar and hangers, the exposed surfaces acquiring a pale gray brown patina. (57940-27) (75/150)
2689. **U.S. MODEL 1841 BAYONET FOR A COLT CONVERSION WHITNEY/ COLT CONVERSION MISSISSIPPI RIFLE** measuring 30 1/8" overall with a 25 1/4" blade and a cast brass hilt and is serial #1. The blade has toned to pewter with light marks from being cleaned, still showing modest pinprick pitting the first 12" of the blade and on the ricasso; the blade is unmarked. The cast brass hilt is bright goldenrod with some scattered light handling marks and spots of pitting, the topstrap is numbered "1" where serial numbers were properly marked. There is no scabbard present, an about very good condition first run saber bayonet for an early rifle from two of Americas most prolific gun makers. (57967-17A) [Larry & David Holmes Collection]
2690. **SOCKET BAYONET** This includes a U.S. marked socket bayonet measuring 20 7/8" overall with 2 7/8" socket with .734" bore, and has a 1 9/16" shank. The metal is bright as the bayonet has been bead blasted over its entire length and the U.S. marking is very light. There are spots of light oxidation and pitting present and the keeper ring is missing. The bayonet is in about good overall condition. (107536-83)

2691. **U.S. MODEL 1863 RIFLE BAYONET** This is an U.S. Model 1863 Zouave rifle bayonet with scabbard. The bayonet measures 24 7/8" overall with a 20 3/16" blade and has a 4 3/4" brass hilt. The unstopped fuller blade has toned to a pleasing bright patina with sparse fine oxidation staining. The hilt has a lightly tarnished goldenrod patina with some tiny light impact marks and scratches and is marked "B.H." on the upper grip flat. Included is a black leather scabbard with brass frog stud collar and tip chape. The leather shows light cracking but remains intact and the brass ends have a pleasing yellow patina with a few tiny impact marks. An very good plus "Zouave" rifle bayonet. (58038-12) (450/600)

2692. **U.S. MODEL 1835-1842 SOCKET BAYONET** The blade measures 18" with full flutes and a wide back flute measuring 17" ending with a "U.S.". The socket measures 2 5/8" in length with a 7/8" bore and a straight 1 1/2" shank. The surfaces have toned to gray with patches of brown within the flutes along with some fine oxidation staining. Included is a black leather scabbard with curved belt loop fastened by two small rivets and a brass tip chape. The leather shows cracking and flaking mainly on the frog, there is verdigris forming on the rivets and the tip chape has a lightly tarnished patina with a small dent in the rear side and has become loose and starting to separate. An overall very good 1835-1842 socket bayonet with scabbard removed from a Merrill Conversion 1842 musket in the live auction. (58038-15A)

2693. **ROMANIAN BAYONET LOT** This lot consists of three Romanian Type 1 AKM bayonets, two of which are still in the importer's wrapping and the third has been unwrapped. The unwrapped bayonet shows a few dings on handle and some cosmoline and oxidation stain specks on the blade. The scabbard is numbered differently than the bayonet and its leather parts show flaking and crazing, while the metal scabbard shows silvering and some freckling. The bayonets that are in-the-wrapper are assumed to be in very good to very good plus overall. A great lot for the AK enthusiast. (208006-10)

The knife is marked only on the butt and has a leather washer grip and correct leather sheath with sharpening stone. Second is a stiletto style knife by W.H. Fagan & Son and is so marked on the ricasso. The knife measures 10 1/4" long with a 5 3/4" doubled edged blade. The blade has some light oxidation staining and fine pin-prick pitting and gray patina throughout. Knife was made in Sheffield, England and features a leather washer grip and alloy guard and pommel. It also includes its leather sheath which has a blacked out ink portion along the back. Both are in excellent condition. (46850-8K)
2760. **GERBER KNIFE LOT** This lot consists of a Gerber Guardian series fighting knife with sheath. The knife measures 7 1/4" long overall and has a 3 1/2" double edged blade marked "Design by R.W. Loveless" on one side and has light sharpening marks around the edges. The included black leather sheath has integral retention clips and a Velcro back but has no belt loop or leg straps. An excellent example of these popular defense knives. (47758-28)
2761. **COLD STEEL KNIFE LOT** This lot consists of a Cold Steel Tanto fixed blade knife with sheath. The knife measures 11 1/4" long with a 3 3/4" tanto San Mai steel blade. The grip features a checkered rubber handle with brass guard and pommel. The original black leather sheath is included, an excellent condition example overall. (47758-27)
2762. **CORPSMAN'S KNIFE LOT** This lot consists of a USMC medical Corpsman's knife with scabbard. This World War II vintage knife measures 16 1/2" long with an 11 1/4" heavy utility blade. The steel has areas of moderate to heavy oxidation with pitting but the "USMC / ChATILLION, N.Y." stamping remains visible. The grip is the three brass rivet variation and has some light cracks and other handling marks. The included brown leather scabbard is in very good condition and has some light crazing and cracking and a few small staple reinforcements along the edge. The brass has a mild tarnish and the back is marked "USMC / BOYT / 43". A very good example overall. (48012-1)
2763. **GERMAN BAYONET LOT** This lot consists of a German Ersatz M1915 sawback bayonet with scabbard. The bayonet measures 19" long with a 14" blade. The blade is still somewhat bright with areas of brown patina, oxidation and staining throughout. There is a single illegible mark on the spine. The all steel handle has a brown guard and latch with remnants of green paint remaining on the grip. The included metal body scabbard has only some of the original black paint, the remainder is flaked to gray mingling with brown. A very good condition example overall. (48012-4)

2764. **ITALIAN KNIFE LOT** This lot consists of a World War II vintage Italian Fascist Officer's knife with steel scabbard. The knife measures about 12 1/2" long with a 7 1/2" double edged blade. The steel has areas of light speckled brown patina and staining freckled about and an "E" over "G" stamp on the ricasso. The handle features an ebony grip with an "S" guard rounded pommel. The grip components currently sit loose and the felt or leather around the base of the guard is missing. The included scabbard retain most of its original black finish that is lightly flaking and mixing with areas of light oxidation. An interesting piece of WWII memorabilia in very good condition overall. (48012-2)
2765. **FILIPINO KNIFE LOT** This lot consists of Filipino style knife measuring 11 3/4" long with a 7 1/2" double edged spear shaped blade and reed wrapped hollow grip. The metal surfaces are mostly a mottled brown patina with a few sparse areas of light oxidation present. The hollow grip could accommodate an appropriate handle making it a fine spear. The knife is housed in an open front carved wood scabbard. An overall excellent condition example that appears to be hand forged. (48012-3)
2766. **BRITISH BAYONET LOT** This lot consists of a British Pattern 1853 Enfield bayonet with turned wood handle insert. The bayonet measures 20 1/2" long with a 17 1/4" blade. The blade's face is marked with a faint "(crown) / R / 54" with some other markings visible but which are not legible. The metal is an overall rich mottled brown mixing with areas of light surface oxidation and staining. There are assorted light nicks and other fine handling marks from use. The included wood handle insert appears to be of a similar vintage and has several light dings and marks as well. There is a small chip on one side that has faded and softened from years of handling. An overall excellent example that would be an interesting addition to any vintage arms collection. (47940-29) (250/400)
2767. **BRITISH BAYONET LOT** This lot consists of a East India Pattern 1844 socket bayonet. The bayonet measures 2 3/4" long overall with a 16" blade that has some faint marking partially visible on the face. The metal surfaces are an overall mottled gray patina with areas of fine pinprick pitting throughout, the spring attachment on the socket has an old repair but still appears functional. A very good example overall. (47940-30) (200/300)
2768. **U.S. ZOUAVE BAYONET LOT** This lot consists of a U.S. Model 1862 Zouave bayonet with scabbard. The bayonet measures 24 7/8" long with a 20" yataghan style blade simply marked "H" on the ricasso. The steel is a mottled gray with fine pinprick pitting and a few spots of light oxidation throughout, the edge of the blade has a few small nicks. This saber style bayonet has a solid brass grip which has a mild ochre patina and several light handling marks. The grip is marked "B.H." on the spine and has a small "C" on the right side of the guard. The included scabbard has a taped repair to the leather body, which is dry and is cracked and flaking throughout. The seam on the backside is split and the brass has a similar ochre appearance as the grip. An about very good example overall. (47940-28) (300/500)
2769. **JAPANESE BAYONET LOT** This lot consists of a Japanese Type 30 Arisaka bayonet with scabbard made by Toyoda Automatic Loom Works under Nagoya supervision. The bayonet measures about 20" long with a 15 1/2" blade that is arsenal marked on the ricasso. The bayonet has a blued finish and features a straight guard and angled bird's head pommel. There is light handling wear to the metal surfaces and light handling marks to the hardwood grip panels. The included steel scabbard has some light handling wear and well along with specks of fine surface oxidation throughout. An excellent example overall. (48059-5F)
2770. **JAPANESE BAYONET LOT** This lot consists of a Japanese Type 30 Arisaka bayonet with scabbard made under Kokura supervision an unknown contractor. The bayonet measures about 20" long with a 15 3/4" blade that is arsenal marked on the ricasso. The bayonet has a blued finish and features a hooked quillion guard and flat bird's head pommel. There is light handling wear to the metal surfaces and light handling marks to the hardwood grip panels. The included steel scabbard has more moderate handling wear and fading. An excellent example overall. (48059-5G)
2771. **JAPANESE BAYONET LOT** This lot consists of a Japanese Type 30 Arisaka bayonet with scabbard made by Kokura. The bayonet measures about 20" long with a 15 1/2" blade that is arsenal marked on the ricasso. The blade remains in-the-white and is mostly bright with some areas of light staining, the grip is mostly a mottled brown and features a hooked quillion guard and angled bird's head pommel. There is light handling wear to the metal surfaces and light handling marks to the flat based hardwood grip panels. The included steel scabbard has more moderate handling wear and is fading to gray. An excellent example overall. (48059-5K)
2772. **JAPANESE BAYONET LOT** This lot consists of a Japanese Type 30 Arisaka bayonet with scabbard made under supervision of Kokura by an unknown contractor. The bayonet measures 20" long with a 15 1/2" bright steel blade that is arsenal marked on the ricasso. Bayonet features a blued steel hooked quillion guard and flat bird's head pommel, the hardwood grip panels have a few light handling marks. The included steel scabbard has a few small dents and is lightly fading to gray. An excellent example overall. (48059-5M)
2773. **JAPANESE BAYONET LOT** This lot consists of a Japanese Type 30 Arisaka bayonet with scabbard made by Jinsen. The bayonet measures 20" long with a 15 1/2" bright steel blade that is arsenal marked on the ricasso and has a few areas of light staining present. Bayonet features a blued steel hooked quillion guard and flat bird's head pommel, the hardwood grip panels have a few light handling marks. The included steel scabbard has a few light handling marks and a few areas of light surface oxidation. An excellent example overall. (48059-5N)
2774. **LOT OF U.S. BAYONETS** This lot consists of two U.S. M1 bayonets with scabbards by the Utica Cutlery Company. Both measure about 14 1/2" long overall with 10" blades, marked "U.C. / U.S." with the ordnance bomb in center on the ricasso. One appears to have been lightly sharpened while the other has evidence of heavy sharpening and reshaping. Both have arsenal type parkerized finishes with areas of light oxidation and graying. Each has correct black composite grips and includes the correct M7 scabbard. Two very good examples overall. (48059-5H,5L)
2775. **U.S. BAYONET LOT** This lot consists of a U.S. M7 bayonet by General Cutlery with an M8A1 scabbard. Bayonet is marked "M7" & "GEN CUT" on the guard and measures 11 5/8" long with a 6 1/2" blade that has been sharpened along the edge. An excellent example overall. (48059-5J)
2776. **RUSSIAN BAYONET LOT** This lot consists of a Russian AK47 bayonet with steel scabbard. The bayonet measures 12 1/4" long with a 7 3/4" blade. The metal surfaces have some light handling wear, the hardwood grips have a few light handling marks. An excellent example overall. (48059-5Q)
2777. **RUSSIAN BAYONET LOT** This lot consists of a Russian AK47 bayonet with steel scabbard. The bayonet measures 12 1/4" long with a 7 3/4" blade. The metal surfaces have some light handling wear, the hardwood grips have a few light handling marks. An excellent example overall. (48059-5U)
2778. **AK BAYONET LOT** This lot consists of an AKM style bayonet with scabbard. This Russian style AK-47 bayonet measures about 10 1/4" long with a 5 1/2" blade that has the saw back and wire cutter hole. The grip and included scabbard with wire cutter tip are black composite and numbered alike. The bayonet is otherwise unmarked with the exception of a small "3" on the side of the pommel. An excellent example overall. (48059-5S)
2779. **RUSSIAN BAYONET LOT** This lot consists of a Russian SVD bayonet with scabbard. The bayonet measures 11" long with a 6" sawback blade, wire cutter and round pommel grip. The grip is the red composite and includes the leather hanger. The steel scabbard has the tan colored rubber collar. An excellent example overall. (48059-5R)
2780. **CHINESE BAYONET LOT** This lot consists of a Chinese AKS bayonet with scabbard. The bayonet measures 10 3/4" long with a 6" blade and features a black composite grip and scabbard. Similar in style to the Russian AKM series bayonet, the Chinese model is unique in that it has the black composite grip and does not have the saw back blade or wire cutter. An excellent example overall. (48059-5T)

2781. **GERMAN BAYONET LOT** This lot consists of a German 1884/98 bayonet by Herder for the K98k Mauser rifle. The bayonet measures 15" long with a 9 3/4" long blade numbered "4766d" and is marked "RICH.A.HERDER" on the ricasso and dated "39" along the spine. The grip features the reddish brown phenolic grip panels and there are a few small Waffenamts on the pommel. There are light handling marks and areas of gray peeking through. The included steel scabbard is numbered to a different bayonet and has some areas of light oxidation. An excellent example overall. (48059-5P)
2782. **U.S. BAYONET LOT** This lot consists of a U.S. Model 1917 bayonet by Remington with scabbard. The bayonet measures 21 3/4" long with a 16 3/4" blade. The blade has a few small nicks along its edge, and has crisp markings on the ricasso. The grip features the two-groove hardwood panels. The scabbard has a green leather body marked "J.L.R." on the back. An excellent example overall. (48059-5I)
2783. **U.S. BAYONET LOT** This lot consists of five U.S. bayonets without scabbards. Included are one Model 1913/17 bayonet and four Model 1917 bayonets. Each measures about 21 3/4" - 22" long with 17" blades, some have seen light sharpening. Most of the metal surfaces are a mottled gray with handling wear and some specks of light surface oxidation scattered about. The earlier style bayonet has light impact marks and some distortion to the grip and guard. The remainder have light handling marks but all are in about very good condition overall. (48059-5A,5B,5C,5D,5E)
2784. **U.S. BAYONET LOT (TWO TOTAL)** This lot consists of a U.S. Model 1873 socket bayonet for the Springfield trapdoor rifle. The bayonet is in poor overall condition and has a broken tip leaving the measurements to be 19" overall with a 16" blade. The metal surfaces have minor to moderate oxidation with pitting throughout, the face of the blade is marked "U.S." with the "S" being only partially visible. Included is an all leather scabbard with brass tip that is in similar overall condition. The leather is heavily cracked and crazed with a few small tears. Second is a U.S. Model 1861 Navy bayonet by Collins & Company. Commonly referred to as the "Plymouth rifle bayonet" this saber style bayonet measures 26 1/2" long with a 21 1/2" blade. The yataghan style blade has been modified and rounded at the tip, the steel is a mottled gray with areas of light oxidation, staining and fine pitting throughout. The edge appears blunted and has several small nicks, possibly from a youth's re-enactment of some heroic battle. The ricasso is marked "COLLINS & Co. / HARTFORD / CONN", the stamping is soft but still visible. The brass grip has a mild ochre patina with light handling marks, the spine is numbered "127". Included is a correct leather body scabbard, the leather being heavily crazed with minor flaking and the seam along the back is split. The brass tip has some small dents. An about very good example overall. (47967-66, 67)
2785. **KNIFE LOT** This lot consists of two theater knives from World War II with sheaths. First is a Ka-Bar style fighting knife that measures 11 1/2" with a 7" blade and a plexiglass lined grip. The knife appears to be handmade and has a picture of a young woman that appears to be from that era under the grip on one side and the initials "J.A.P." on the other. The blade has a few light handling marks and nicks along the edge and there is a chip with portion missing to the grip near the pommel. The second measures 10" with a 5" Kinfolks blade and features a plexiglass and wood washer grip with aluminum guard and bolster. The blade has some light gray patina with some specks of light oxidation staining. Both of the brown leather sheaths have some light crazing and flaking but are in very good condition overall. (47644-100F)
2786. **LOT OF FIGHTING KNIVES** This lot consists of two U.S. World War II vintage fighting knives with sheaths. The first is a Western Shark that measures 10 1/4" long with a 5 3/4" blade and leather washer grip with a brass guard. The steel has some areas of light gray patina and is mostly bright. The brass has a mild ochre patina and the leather shows some light separation along the tang. The sheath is the original style and rates excellent as well. The second is a Western Seebee that measures 9" long with a 5" blade. The blade is a rich mottled gray with areas of light pitting, the leather washer grip has been replaced with aluminum scales. The tan leather sheath is similar to those used with the Navy pilot's series knives. (47644-100I)
2787. **LOT OF FIGHTING KNIVES** This lot consists of two jet Pilot's survival knives by Camillus with scabbards. The first is the earlier style which measures 10 1/2" long and has an about 6" blade and a leather washer grip. The steel has a fading blue finish with areas of light pitting. The scabbard is likely the original and has several sets of initials carved into it. The second is the later style about 9 1/2" long with an about 5" blade and has a gray parkerized finish. The scabbard is tan leather and rates excellent. Both include the sharpening stones and are in excellent condition overall. (47644-100H)
2788. **KNIFE LOT** This lot consists of two vintage fixed blade knives with scabbards. The first is a Marbles hunting knife that measures 9" long with an about 5" fullered blade. The ricasso is marked "Marble's / Gladstone / Mich. U.S.A.". Knife features a leather washer grip with brass guard and aluminum pommel and rates excellent with the original brown leather sheath. Second is a U.S. Navy Mark I fighting knife by Camillus that measures 9 1/2" long with a 5" parkerized blade and leather washer grip. It is also in excellent condition with some light wear from sliding in and out of the included gray scabbard. (47644-100G)
2789. **LOT OF FIGHTING KNIVES** This lot consists of two commando fighting knives with sheaths. First is a Cattaugaugus 225Q that measures 10 1/2" with a 6" blade that has been polished bright and has a leather washer grip. Second is a Case 337-Q with the same blade length and an overall length of 10 3/4". The metal is polished bright and the leather washer grip is ribbed. There is some light oxidation around the edges of the pommel. Each comes in a correct brown leather sheath and all are in excellent overall condition. (47644-100E)
2790. **KNIFE LOT** This lot consists of two U.S. military knives. First is a Western Seebee fixed blade fighting knife that measures 9 1/2" long and has a 5" blade and a leather washer grip. The blade has a few light handling marks and some light nicks along the edge. The grip has some light handling and tool marks as well. Included is a correct style tan leather sheath that is likely a later replacement. Second is a U.S. Camp folding knife marked "U.S. Marine Corp" along the side. Knife features four blades including a 2 1/2" knife blade, screwdriver, can opener and leather punch. The blades have some light pitting and gray patina. Each is in very good condition. (47644-100J)
2791. **KNIFE LOT** This lot consists of a USN Mark 2 fighting knife by Robeson Cutlery with scabbard. The knife measures 12" long and has a 7" blade with a parkerized finish and leather washer grip. The finish is fading to gray and mixing with areas of light oxidation, the guard and pommel are a rich mottled brown. The leather is shrinking causing the grip to be a little loose but is otherwise intact. Included is a correct composite scabbard with canvas belt loop and retention strap. A very good condition example overall. (47644-100B)
2792. **KNIFE LOT** This lot consists of a U.S. M3 fighting knife by Imperial with scabbard. The knife measures 11 3/4" long with a 6 3/4" blade and has a leather washer grip. The metal surfaces have a gray parkerized finish that is lightly fading along the edges. Included is a correct M8 scabbard and all are in excellent condition. (47644-100A)
2793. **KNIFE LOT** This lot consists of a U.S. Army Air Force survival machete by Case. This fixed blade variation measures 15 1/2" long with a 10" curved blade. The blade is marked "CASE XX" and has a blued finish that is fading to gray where it contacts the edge guard. The machete features a wood grip that has some minor chipping and handling wear, there is a portion missing on one side of the pommel. The metal guard is included and this example is in about very good overall condition. (47644-100C)
2794. **KNIFE LOT** This lot consists of an unmarked Bowie style knife with sheath. The knife measures about 14 1/2" with a heavy 9 1/2" blade. The knife features a black composite grip and brass guard and is very similar in appearance to the USMC Raider knife. The steel remains mostly bright with a few areas of light staining and patina, the brass guard has a medium ochre patina. The included brown leather sheath is similar to the issued Raider scabbards was well. An excellent condition example that is lightly a newer copy of these classic knives. (47644-100D)

2795. **LOT OF KNIVES** This lot includes two items. First is a contemporary stag handle stone blade skinning style knife. The knife is unmarked and measures 10 3/4" overall and the 4 1/2" blade is secured with epoxy under a leather wrap and remains in overall excellent condition. Second is a Western Cutlery Model 648A fixed blade hunting knife. The knife measures 8" overall with a 4 1/4" drop point blade. The jugged bone handles are secured with two brass rivets and there are red, white, and black spacers separating the handles from the brass guard and aluminumommel. The blade appears untouched and the knife comes with a fitted leather sheath that has a Western Cutlery marked snap and is in overall excellent condition. (106229-A23FE)
2796. **KNIFE LOT** This lot includes a fixed blade MK3 Mod 0 navy dive knife. The knife measures 10 3/4" overall with a matte black finish, serrated spine and checkered molded handle. The knife comes with a plastic sheath marked MK3 Mod 0 / U.S.N. with leg tie. This diver's knife remains in excellent condition and is numbered 2V376. (107644-100)
2797. **BOKER KNIFE LOT** This lot includes an Applegate-Fairbairn "mini-smatchet" combat knife with sheath and original box. The double edge knife measures 9" overall with grooved nylon handle and 4 3/4" blade. The metal surfaces are bead blasted for a non reflective finish and the knife's edges remain untouched. Item is in excellent condition. (107569-6)
2798. **CASE KNIFE AND HATCHET COMBO** This lot includes a Case XX 561 Stag handle hatchet and knife with tooled maker marked sheath. The knife measures 9 1/4" overall with a 4 3/4" clip point blade with untouched edge. The hatchet has a clean untouched edge and all items remain in excellent condition. (107569-2)
2799. **REPLICA SWORD LOT** This lot consists of two Spanish made replica side swords. Both swords are maker marked "M. Garcia" and "Toledo" and they measure 38" in length with 31" blades. The first sword is a plain in-the-white blade and scabbard that shows scattered scuff markings and scratches. The black nylon handle shows some fibers and it has an area of scotch tape added for stability and the leather scabbard shows scattered dents, scratches and the tip chape has become loose. The second sword is half in-the-white and half florally engraved and it shows scattered light oxidation staining and freckling. The black string nylon wrapped handle is starting to unwrap, while the brass tips of the scabbard show oxidation staining and the leather scabbard shows scattered dents, dings and flaking finish. (1X207240-57)
2800. **JAPANESE TYPE 32 OTSU NCO SABER** The shorter version of the pattern 1899 regulation army saber, this saber measures 35 1/2" overall with a 30 1/2" single nearly full length blade. The blade shows a bright arsenal cleaning with a few sparse specks of staining and very light scuffing along the main edge from a nice professional sharpening and is numbered "123661" on the reverse ricasso. The iron hilt with checkered backstrap with factory markings still present on the front of the bow and a nicely plugged hole where the finger strap was removed and is now a brownish gray patina with scattered fine staining. The checkered Asian hardwood grip rates excellent. The steel scabbard has a brown and gray patina with scattered oxidation staining and spots of more modest surface oxidation towards the tip and is numbered to the saber on the drag. An overall very good plus arsenal refurbished Type 32 saber. (1X57671-4) (300/500)
2801. **LOT OF KNIVES** This lot includes two folding combination knives. First is a two blade Henkel multi-tool measuring 3 1/2" with overall open length of 6" to the tip of the pen-style blade with bottle opener. There is a 5/16" square cutout in the handle, likely for turning a gate valve that is missing its handle. Its second blade is an interesting claw style that is likely for pulling tacks or brads. Second is a four-blade multi-function pocketknife with 2" drop point blade, bottle opener, screwdriver, nail file and grooming hook, and scissors. The item is unmarked and the instruments all remain in very good to excellent condition. (1X107536-110,111)
2802. **ENFIELD STYLE SOCKET BAYONET** This bayonet has the appearance of a standard Pattern 1853 socket bayonet measuring 20 7/6" overall with a 17 1/2" blade that is 3/4" wide, has a 3" socket and a rounded 1 3/8" shank. The blade is equipped with shallow flutes and ends at a distinct right angle at the shoulder. The blade has toned to pale gray with brown highlights and scattered oxidation staining, the socket and shank an overall pale brown with a couple spots of oxidation. The face is marked "J II" and the shoulder is marked "TD" at the end of the blade; the clasp rotates freely. An overall very good plus Enfield bayonet that was removed from the Orson Blunt Enfield musket in the last auction. (1X57967-5A) [Larry & David Holmes Collection]
2803. **U.S. MODEL 1873 SOCKET BAYONET LOT** This lot consists of a single U.S. marked model 1873 socket bayonet. The metal surfaces retain a few traces of blue on the blade with the remainder worn to pewter. The metal surfaces have scattered pitting, stains from oxidation and the socket is brown with a few traces of blue. The blade measures 18" with an overall length of 21". The locking ring is present and the blade is marked "US / J". No sheath is present. (1X87899-8)
2804. **MOSIN NAGANT BAYONET** A second variation M1891/30 socket bayonet without locking ring. The bayonet is 21 3/4" overall and is a mix of brown and plum color patinas. It is numbered "3086" and has a small split in the socket near the front. This bayonet remains in good overall condition. (2X107807-5)

The cross guard is straight and an additional barrel band has been added to the rear of the handle. The handle is numbered "75657" and the metal surfaces are an overall gray-brown mix. A metal scabbard with round button, that is mostly a brown patina with overall light dings is included. (2X107536-52)
2809. **GERMAN FASCHINENMESSER** This is a third model steel hilted Faschinenmesser with 18 1/4" blade. The blade is a dull gunmetal gray and shows overall light and moderate pitting with some areas very similar to blood protein, the handle is a bright silvery gunmetal also with light sparse pitting. The guard is regimentally marked "122.R.(cursive)H.147." In the past, these have been attributed to the Kingdom of Wurttemberg, there is no scabbard present. (3X36980-7)
2810. **BRITISH PATTERN 1856 ENFIELD BAYONET** This is a Pattern 1856 Enfield saber bayonet with scabbard used by both sides during the Civil War. The bayonet measures 28 1/8" overall with a 22 5/8" yataghan style blade and is equipped with an iron hilt. The metal surfaces have toned to pewter with scattered pinprick pitting and oxidation staining. The blade is marked with a knight head maker mark on one side of the ricasso and crown over "20" on the other ricasso. The checkered black plastic grips show moderate wear with smooth checkering, numerous chips and areas of loss at the spring mounting point. The black leather scabbard with iron ends show moderate crazing and scuffing to the leather and the ends fading to gun metal with patches of modest oxidation staining. A fair to good saber bayonet removed from a Whitney Enfield style musket. (1X57967-35A) [Larry & David Holmes Collection]

2811. **TURKISH BAYONET LOT** This lot consists of a Turkish M1874 bayonet for the Martini-Peabody rifle. The blade measures 22 1/2" and has been cleaned and its finish is turning a brown patina with scattered oxidation staining, pitting and a few chips on the underside. The crossguard and pommel are turning a silver pewter with oxidation staining and pitting. The checkered walnut grips rate fair showing a poor fit, several missing chunks, chips and areas of flattened checkering. No scabbard is included with this bayonet. (1X207536-79)
2812. **MONTERO MACHETE AND SHEATH LOT** This lot consists of a single 24" Montero machete with black synthetic handle held on with four rivets. The edge is not sharpened but should work up to a great edge with a little effort. The machete includes a well-constructed leather sheath with decorative leather rosettes and tassels. The word "HONDURAS" is stamped on the face of the sheath. The sheath exhibits light storage wear but should clean up nicely. The perfect combination for your next trip into the pucker brush. (1X87899-7)
2813. **GERMAN LIGHT CAVALRY SABER** 30 1/2" curved unmarked blade having a smoky gray patina with some sparse fine pinprick pitting and a few light nicks along the edge. The steel hilt has a "P" shaped guard with dual langets and pale brown patina with scattered sparse surface oxidation. The checkered black horn grip rates about very good with a thin vertical crack on both sides of the grip. The saber comes in its original steel scabbard having a brown patina with scattered surface oxidation and staining, a few patches more moderate in areas. An overall very good unmarked saber. (1X57546-10) [Bleecker Williams Collection] (200/400)

2814. **IVORY HANDLE KNIFE AND TURNSCREW SET BY MCFALL** Handcrafted by Ken McFall of Lakeside, AZ this is a rather neat set. The knife measures 6 7/8" overall with a 3 1/8" full straight tang drop point wind carbon damascus blade. The blade remains unsharpened and retains all its nice wavy damascus finish and is etched "K. McFall / Lakeside Az." on the obverse side of the blade. The handle is composed of a parallelogram shaped bright nickel silver bolster and ivory scales fastened by eight tiny bright pins. The ivory rates excellent and has a pleasing cream color. The turnscREW measures 4 1/4" overall with a 1 7/8" full tang wind carbon blade and is quite heavy for its size. The blade remains unmolested, retains all its flowing wavy finish is is marked "McFall" at the bolster on the obverse side. The handle is composed of a small bright nickel silver single bolster and a semi-coffin shaped ivory handle matching the finish of the knife. Included with the set is a zippered padded case. A neat looking handcrafted set. (1X56020-K99) (500/700)

2815. **LOT OF GERBER TOUCHE' BELT BUCKLE KNIVES** Three total: (2) Slim line buckles measuring 2 7/8" overall with black ABS plastic clips, 2" drop point stainless steel blades and ivory micarta handles. The blades remain bright and unsharpened. One handle reads "AIR FORCE" in bold block letters and the other shows a brown bear in wooded forest stream scrimshawed and signed by Boucher; (1) wood inlay buckle measuring 1 3/4" X 2 3/4" with black ABS plastic clip having angular walnut inlays, 2" drop point stainless steel blade and an ivory micarta handle showing a strutting tom turkey also scrimshawed and signed by Boucher. Knives include original display boxes one of which is to a different model knife. (1X56020-K195)
2816. **U.S. MODEL 1873 TROWEL BAYONET** Made for the trapdoor rifle, this bayonet measures 14 3/8" overall with a 10" trowel shaped blade and a 3 1/2" socket with sliding mortise butt. The blade has toned to a bright silver patina with scattered fine oxidation and a thin 1 3/8" crack in the rear right side of the blade. The socket and shoulder retain about 80% original blue toning to brown with scattered fine oxidation staining. The included steel scabbard rates fair at best with a separated seam, the leather covering rates about fair as well with a matching separated seam and modest scuffing and tears; the belt loop is no longer present. (57569-4)
2817. **LEATHER SCABBARD FOR A U.S. MODEL 1880 HUNTING KNIFE** This third type leather scabbard measures 14 5/8" overall and is equipped with a brass collar plate and belt hook. The leather rates very good overall with light crazing and scuffing. The belt tab is Watervliet Arsenal and the seams remain tight and intact. The brass surfaces have a darkened tarnished ochre patina and the rear of the belt hook is Watervliet Arsenal marked. (57569-5A)
2818. **ANTIQUE BONE HANDLE BOWIE** This blacksmith style bowie measures 13 3/8" overall with a 8 3/8" straight point heavyweight steel blade. The blade has toned to a darky smoky gray patina with grind marks, spots of oxidation and some sort of flaking protective coating. The oval brass guard is crafted from 3/8" thick brass stock and along with with the brass semi-oval butt cap and circular pommel disk have a tarnished ochre patina. The bone handle rates good with numerous drying cracks over time, scattered spots of flaking varnish and is secured with an exposed steel nut. There is no sheath present. (57569-5)
2819. **CONTEMPORARY SHEFFIELD WELLS FARGO U.S. MAIL KNIFE** This knife measures 13 1/4" overall with a 8 3/8" full tang tool steel wide blade. There were a lot of different style faux "Wells Fargo Express" knives made in the 1960-1970's out of true knives of different manufactures. The blade on this model has toned to pewter with fine oxidation and vertical grind marks; the obverse side is marked "MALEMAN & YEOMANS / CUTLERS, SHEFFIELD" centered between various British proofs, while the reverse side shows spurious "Property of / Wells Fargo & Co.s Express / Official U.S. Mail Knife". The wood grips are fastened by iron pins and rate very good with light handling marks and spurious arched "WELLS FARGO / U.S. / R.W.P.O. / EXPRESS" markings. There is no scabbard, included however is a hinged soft wood case with a dark blue baize lined interior. A good to very good imaginary Wells Fargo mail knife. (57569-3)
2820. **CONTEMPORARY INDIAN BONE HANDLE BELT DAGGER** This is a modern made dagger measuring 17" with a 9 1/4" triangular steel blade. The blade has a bright patina with numerous horizontal grind marks and is incise engraved with numerous geometric shapes. The concave polished bone handle is decorated with intricately carved male figures and geometric shapes on a shaded black background. The handle is centered between a glued oval hardwood buttcap and red baize buffer washer and has a few chips and age cracks, one of which is more pronounced, the washer and buttcap did not seat properly and there are areas of glue on the handle. Included is a matching bone scabbard with the addition of deer and other animal shapes and a loose fitting brass tip chape decorated with different geometric shapes. The collar is equipped with a red baize lining that is starting to separate from the interior of the scabbard. An overall good condition dagger most likely for the tourist trade. (57536-87)
2821. **BRASS HANDLE THEATRICAL SHORT SWORD** This is a theatrical short sword made from a U.S. Model 1832 Foot Artillery sword measuring 23 7/8" overall with a 18 1/4" blade that has been shortened and the tip rounded. The blade has toned to pewter with scattered fine oxidation and pinprick pitting, the etching has all but faded with only remnants of the Henderson Ames maker mark remaining. The brass hilt has toned to a tarnish ochre patina and the buffer washer is missing leaving the blade loose-fitting to the hilt. Included is a non-original steel scabbard with brass mounts. The body shows light dents, a separating seam and flaking added black paint, the brass mounts have a tarnished patina with light dents a small hole in the throat. (56754-10)

2822. **UNMARKED BRASS HILTED SHORT SWORD** This sword measures 22 7/8" overall with a 17 5/8" straight double edged blade. The blade shows an old light cleaning that removed any markings and is now a bright patina with overall pinprick pitting and scattered fine oxidation staining. The brass hilt is equipped with straight pierced disk finials, a grooved handle and bulbous pommel. The brass shows an old light cleaning with scattered fine pinprick pitting and impact marks. There is no scabbard present. (57536-77)

2823. **UNMARKED 1831 FOOT ARTILLERY SWORD** This sword measures 25" overall with a 19" double edge blade and a slightly rounded tip. The blade has been lightly sharpened and shows brush marks from being cleaned, still showing patches of light pitting and oxidation and illegible proofs on the ricasso. The hilt is equipped with grooved finials, a grooved handle and bulbous pommel. The brass has a nice bright ochre patina with a few tiny impact marks and several proof marks on the guard. There is no scabbard present. (57536-68)

2824. **EXPERIMENTAL M-4 FIGHTING KNIFE WITH SHEATH** This is a rather interesting looking knife measuring 15 3/8" overall with a 10 3/8" bead blasted steel blade equipped with a 3 5/8" false edge. The unmarked blade and aluminum guard nearly all their matte gray finish with scattered finish. The grooved stacked leather washer handle rates excellent and terminates at a bright aluminum pommel fastened by four small brass pins. Included is an unmarked red leather sheath with steel reinforced tip, handle strap and wire hook attachment. A neat long blade M-4 for the military knife collector. (57968-6) (150/250)

2825. **UNMARKED GERMAN LETTER OPENER** This is a neat little letter opener that resembles a German dress bayonet. The opener measures 8 3/4" overall with a 5 1/2" single edge fullered blade. The blade retains about 80% original nickel with scattered light scratches and patches of modest flaking and oxidation. The guard has a single curved quillion on one side and the other side mimics the muzzle ring being removed and along with the solid birds head pommel has a deep brown patina with scattered fine oxidation. Included is a steel scabbard with flaking black lacquer and German decals at the throat. (56242-5)

2826. **U.S. MODEL 1816 SOCKET BAYONET** The blade measures 16" with full face flutes and a half-length shallow back flute ending with "U.S." above inspectors initials. The socket measures 3" with a 1 7/32" shank, the socket is marked "G 16" in front of the mortice cut-out. The metal surfaces have a bright silver patina with scattered spots of oxidation and pitting. There is no scabbard present. (57586-4)

2827. **FAIRBAIRN SYKES COMMANDO KNIFE** This variation of the infamous fighting knife measures 11 3/4" overall with a 7" double edge blade. The blade and oval guard retain about 98% original blue with minor rub wear, the rear right side of the guard is marked "ENGLAND". The grooved copper handle retains 95% original black finish fading lightly along the edges and is numbered "3" on the pommel. Included is a brown leather sheath with a brass tip chape. The leather shows modest scuffing on the belt loop, the handle strap and lower body tabs are broken with only traces of the tabs remaining. A very good later Fairbairn fighting knife. (58006-9)

2828. **LOT OF FENCING FOILS** This lot contains a pair of fencing foils measuring 41" overall with 34 1/4" rectangular cross-section blades. The metal surfaces have a faded gun metal finish with scattered light staining, the blades show scattered light oxidation, tiny nicks and bends from use, the flat button tips remain intact. The fortes and dome shaped steel guards are lightly scroll engraved and the thin wood handles are wrapped in braided steel wire and rate very good with light cracks at the pommel. One of the foils has a loose handle which no longer lines up properly with the pommel. (57536-71)

2829. **UNMARKED 1873 RIFLE BAYONET** This is a socket bayonet for the 45-70 trapdoor rifle. The bayonet measures 21" overall with an 18" full flute blade, 1 3/16" shank and 3" socket. The surfaces were cleaned bright now blending to brown with a thin covering of fine oxidation and "U.S." no longer visible, the clasp does rotate freely. There is no scabbard. (57665-10B)

2830. **UNMARKED CADET STYLE SOCKET BAYONET** This lot consists of an unmarked socket bayonet that appears similar in some respects to the U.S. 1858 cadet bayonet but the dimensions are different. The socket measures 3", the blade 17" and the face flute 15". The bayonet is finished brightly and it shows scattered oxidation staining spots and freckling. No scabbard is included with this bayonet. An interesting bayonet for the U.S. antique arms collector. (208056-5A)

2831. **PRUSSIAN BAYONET LOT** This lot consists of a socket bayonet for the Prussian Potsdam 1809 musket. The blade shows oxidation staining throughout, a few scattered dings and a few areas of scattered light pitting. The right side of the elbow is numbered "51" and no scabbard is included. (207951-206A) [Tweed Herendeen Collection]

2832. **RUSSIAN SWORD LOT** This lot consists of a Russian Shashka saber with scabbard. This 37" military saber features a 31 1/2" slightly curved blade and has a carved hardwood grip with brass guard and pommel. The ricasso has a faint stamping and a date of 1942. The steel is bright and the blade has a near full length fuller. The included wood scabbard has a canvas covering with a steel throat and chape. The scabbard is equipped with four brass collards, one which would attach to hanger, the remaining three hold a model 1891 Mosin-Nagant socket bayonet. The canvas has some light flaking to the black coating and the steel has some light oxidation and is flaking to brown. All of the brass parts have a mild ochre patina. A near excellent military example of the Caucasian inspired saber. (47884-22) [Craig Brown Collection]

2833. **GERMAN SHORT SWORD LOT** This lot consists of a German made artillery style lion's head short sword with scabbard. This Imperial era sword measures 23 3/4" long with an 18 1/4" yataghan style blade that has a light gray patina and has been lightly ground and sharpened along the edge. The blade is maker marked on the ricasso but only "W&ST" remains visible. The spine is marked with a "(crown) / L" and date of "93". The brass lion's head grip has a very light patina and is marked "1525" and "F.M.2.43." along the side of the guard. The included black leather bodied scabbard features a brass throat and chape. The chape is marked with an "E" and "43" at the tip. The leather has minor crazing and some light cracking and flaking but remains intact. A very good example of these early German blades. (47884-20B) [Craig Brown Collection]

2834. **GERMAN PRESENTATION BAYONET LOT** This lot consists of a German Model 1871 Hirschfanger presentation bayonet with scabbard. The bayonet measures 24 3/3" with a 19 3/4 bright steel blade. The blade features etched military motif designs with foliate oak backgrounds and is marked "(crown) / (crossed swords)" with "C K Co.". One side of the blade is marked "Westf. Jager Bat.Nr.7" (Westfalian Jager Battalion No.7) with a blue background, the other side has a "(crown) / R" and the words "Bur Erinnerung an meine Dienstzeit" meaning "For memory of my service" in a blued flowing banner. The bayonet features black, hard rubber checkered grip panels with five rivets, the button to release the locking lug is missing. The included black leather bodied scabbard features a nickel steel throat and chape and has a white leather frog. The body has some light flaking but rates excellent overall. The Royal Prussian Westfalian Jager Battalion No.7 was in service during the Great War and though no name is included on the inscription it is highly likely that this was a treasured memento from a veteran of that time. The 1871 Hirschfanger model bayonets are rare in their own right, and are considered scarce. Records indicate that examples were privately purchased for "walking out", this could be an example of one of those purchases. (47884-20D1) [Craig Brown Collection]
2835. **GERMAN PRESENTATION BAYONET LOT** This lot consists of a German model 1871/84 dress bayonet with scabbard. The bayonet measures 15" long with a 10" long blade that is etched on both sides and is marked with the WKC "night's helmet" logo on the ricasso. One side of the blade is marked "Deutsch - Sud - West - Afrika," while the other is marked "Bur Erinnerung an meine Dienstzeit" - translated "For memory of my service" inside a blued banner with the side profile of Kaiser Wilhelm in center. The banners and logos are bordered with oak leaf and foliate pattern backgrounds and borders. The metal surfaces are mostly bright with speckled areas of light gray patina. The grip features wood grip panels that rate excellent and have a few light dings. The included black leather bodied scabbard rates excellent and has a nickel steel throat and chape. The scabbard includes a frog that has more flaking and is equipped with a plain white cotton troddel with tassel. An excellent example overall. (47884-20D2) [Craig Brown Collection]
2836. **PRUSSIAN BAYONET LOT** This lot consists of a Prussian Model 1860 Fusilier bayonet with scabbard. Made for the Model 1860 Dreyse rifle this bayonet measures 25" long with a 20" blade that is mostly bright with some speckled light gray patina. The ricasso is marked "(oval)G.WB" and "g", the obverse is marked "(crown) / W" over "62" and "(crown) / A". The grip is brass and features a steel "S" guard marked "I.W.D. 549", the grip is stamped "3355". The grip has a more moderate patina, the edge of the blade shows light grind marks but has not been sharpened. The included black leather bodied scabbard features a brass throat and chape which is marked "I.W.D. 549" on the lug. The leather has some light crazing and added lacquer, the brass a medium ochre patina. A very good to near excellent example overall. (47884-20A1) [Craig Brown Collection]
2837. **PRUSSIAN BAYONET LOT** This lot consists of a Prussian Model 1865/71 Pioneer or "pionierfachinenmesser" bayonet with scabbard. It measures 24" long with an 18 3/4" long blucher style sawback blade. The ricasso is marked with a "(crown) / Erfurt" and "GEBR. SIMSON / SUHL" on the obverse. The grip is brass with a steel "S" guard that is marked "R.P.16.156", there are several small Imperial proofs present as well. The steel metal all has a light gray patina, the brass, a mild ochre and rates excellent overall. The included scabbard features a leather body with brass throat and chape, the throat has the same "R.P.16.156" marking. The black leather is lightly crazed and is separated along the back seam, the brass has a light ochre patina. A terrific example of the early "brush wood" bayonets. (47884-20A2) [Craig Brown Collection]
2838. **BRITISH BAYONET LOT** This lot consists of a British Model 1888 Mk I Lee Metford bayonet with scabbard. This second type bayonet was made by Wilkinson and measures about 16 1/2" long with a 12" double edged blade. The blade has lightly sharpened edges and the metal is a mottled gray patina with some brown on the grip. Along with some areas of very light pitting there is a minor nick on one side of the blade that measures about 1/4". The grip features wood panels that are held with two brass rivets, one side is cracked and there are light dings and handling marks to each. The ricasso is marked with the manufacture logo and several other arsenal markings typical of British blades. The included scabbard is a simple leather design that is quite faded and has a brass ring hanger. The front of the scabbard is cut for straps which are no longer present, the top restraining strap is missing as well. A very good example overall. (47308-1G)
2839. **GERMAN BAYONET LOT** This lot consists of a German 1938 series dress bayonet by Weyersberg, Kirschbaum & Co with scabbard. The bayonet measures 15 1/4" long and has a 10" blade with the WKC king and knights cowl logo on the ricasso. The blade has a mottled light gray patina with a few areas of light staining. The nickel finish grip has moderate amounts of flaking exposing brown metal underneath. The grip features black checkered composite panels that are held with two rivets, one side has an inlaid ornate crown "front". The included steel scabbard retains nearly all its original black finish and includes a black leather frog. The frog shows evidence of drying with light cracks and minor crazing. Examples with these custom work orders are believed to be quite scarce, this one is in near excellent condition overall. (47884-20D3) [Craig Brown Collection]
2840. **GERMAN BAYONET LOT** This lot consists of a Model 1871 bayonet by Alex Coppel with scabbard. The bayonet measures 23 1/2" long with an 18" lightly sharpened blade that is marked with the Coppel name on the ricasso and "(crown) / Erfurt" on the reverse, and is dated 1880 with a "(crown) / W" at the base of the spine. The steel has light gray patina, the brass grip is faded. The grip features an "S" guard that is marked "60.B.3.23". The included leather bodied scabbard features a brass throat and chape, the throat is marked in similar fashion to the guard but the marking has been struck. The brass has some minor dings and dents, the leather has some light flaking and fading. Overall a very good example of the first of the Imperial German bayonets. (47884-20A3) [Craig Brown Collection]
2841. **GERMAN BAYONET LOT** This lot consists of a German 1871 sawback bayonet by Weyersberg, Kirschbaum & Co with scabbard. The bayonet measures 23 1/2" long with an 18 1/2" sawback blade that bear the WKC maker's mark on the ricasso and is dated 1896 with a "(crown) / W" on the spine. The steel has a mottled gray patina with areas of light oxidation staining and light pitting. The brass grip has light handling marks and a mild ochre patina. The "S" shaped guard is marked "16.R.5.2.". The included leather bodied scabbard features a brass throat and chape, the throat is marked in similar fashion to the guard but with a different series of letters and numbers. The black leather has some minor fading and also included is a brown leather frog. These early Imperial German sawback bayonets were issued to NCO's and designated rank among the troops. A near excellent example overall. (47884-20A4) [Craig Brown Collection]
2842. **GERMAN BAYONET LOT** This Lot consists of a German 1871 bayonet with scabbard. The bayonet measures 23 1/2" long with an 18 1/2" heavily sharpened blade. The maker's mark is not legible but the spine is marked "(crown) / W" and is dated 1875. The steel has varying amounts of light gray patina with some areas of very light pitting scattered about. The brass grip has a light ochre patina and some light handling marks, the "S" shaped guard is marked "3.R.1.174.". The included steel scabbard has a moderately flaking black finish exposing brown metal underneath. Also included is a tan leather frog. An about very good example of these early Imperial German bayonets. (947884-20A5) [Craig Brown Collection]
2843. **GERMAN BAYONET LOT** This Lot consists of a German 1871 bayonet with scabbard. The bayonet measures 23 1/2" long with an 18 1/2" blade. The blade is marked "Gebr. Weyersberg / Solingen" on the ricasso. The spine is not marked nor dated. The steel has varying amounts of very light gray patina, the brass grip has a more mild ochre patina and some light handling marks. The "S" shaped guard is marked "178.R.4.22" and the scabbard has been stamped to match. The leather bodied scabbard features a brass throat and chape. The brass has a medium patina while the leather seam is becoming separated. A near excellent example overall. (47884-20A6) [Craig Brown Collection]
2844. **GERMAN BAYONET LOT** This lot consists of a German Model KS 1898 sawback bayonet with scabbard. The bayonet measures about 15" long with a 10" blade marked "(crown) / Erfurt" on the ricasso and is dated 1909 with a "(crown) / W" on the base of the spine. The metal surfaces have a mottled light gray patina, the edge has been lightly sharpened. The guard is marked "6.J.3.85." and the black composite checkered grip panels rate very good. The steel bodied scabbard has faded to gray and has been marked "6.J.2.40.". A black leather frog is also included and has some minor flaking and crazing. A very good example overall. (47884-20A7) [Craig Brown Collection]

2845. **GERMAN BAYONET LOT** This lot consists of a German 1989 KS series bayonet with scabbard. The bayonet measures 13 1/2" long overall with about an 8" blade that has the WKC knight's cowl logo on the ricasso. The steel blade is mostly bright with some light gray patina scattered about. The grip is painted black and has black checkered composite grip panels. The included black steel scabbard has some light flaking and includes a black leather frog that has some light crazing. An excellent example overall. (47884-20A8) [Craig Brown Collection]
2846. **SWORD LOT** This lot consists of a military cutlass style sword with scabbard that measures about 35" long with a 30" curved blade and a wood grip. The blade is marked "MC" on the ricasso along with a makers mark that appears that is could be Russian or Turkish in origin. A few of the characters are still legible. The blade has a bright steel finish that is mixing with areas of light surface oxidation throughout, the tip is slightly malformed. The grip features a traditional style wood handle that is grooved and includes an aluminum pommel and steel guard. The included wood bodied scabbard has a thin leather cover that is moderately flaking and has a steel throat and chape. Purportedly this sword has been in the consignor's family for at least three generations, and hung in a family member's place of business as part of the décor from the 1940's -1960. Little was known of its origin and it was believed to come from the eastern Mediterranean area. A very good condition example overall that may benefit from further research. (48191-1)

Ammunition

2847. **LOT OF SHOTSHELLS** This lot consists of (5) twenty-five round boxes of Smith & Wesson 12 gauge 2 3/4" shotshells in very good plus condition. All five boxes are loaded with: 3 3/4 dram, 1 1/4 ounce of #5 lead shot. The nickel-plated heads exhibit scattered oxidation and/or bubbling of the plate on a limited number of shells. (87240-62H)
2848. **LOT OF SHOTSHELLS** This lot consists of (5) twenty-five round boxes of Smith & Wesson 12 gauge 2 3/4" shotshells in very good plus condition. All five boxes are loaded with: 3 3/4 dram, 1 1/4 ounce of #5 lead shot. The nickel-plated heads exhibit scattered oxidation and/or bubbling of the plate on a limited number of shells. (87240-62E)
2849. **LOT OF ASSORTED SHOTSHELLS** This lot consists of (6) twenty-five round boxes of Smith & Wesson and Federal 12 gauge 2 3/4" shotshells in very good to excellent condition. Three boxes of Smith & Wesson shotshells are loaded with: 3 1/4 dram, 1 ounce of #8 lead shot. One box of Smith & Wesson shotshells is loaded with: 3 3/4 dram, 1 1/4 ounce of #7 1/2 lead shot. One box of Smith & Wesson "Waterfowl Magnum" shotshells is loaded with: 4 1/4 dram, 1 1/2 ounce of copper plated #2 lead shot (these are no longer legal for waterfowl but would make great coyote loads). One box of Federal short "Magnum" shotshells is loaded with: maximum dram equivalent, 1 1/2 ounce of #2 lead shot (another good coyote "thumper"). (87240-62I)
2850. **LOT OF ASSORTED SHOTSHELLS** This lot consists of (5) twenty-five round boxes of Winchester 12 gauge shotshells in very good to excellent condition. Miscellaneous

3425

3425. **UNMARKED BOARD-SAWN TRAINING RIFLE** This is an overall 49 1/2" "rifle" board-sawn from hardwood, likely maple. Its edges have been rounded and it is stained a walnut color. There features a simple iron buttcap affixed with 10 iron brads and the butt section has been weighted with poured lead in a rhomboid shape. There is a front "swivel" eyelet attached, the rear is lost to the years. The arm has a "triggerguard" and it would appear as though some type of "bolt" as there is a small dowel protruding from the right side of the "receiver". There is no evidence of a conventional barrel although there is a small nub which might've served as the muzzle. There is a chip missing at the "nosecap" and what is likely a Roman numeral "VIII" is incise carved to the rear of this, an interesting wooden "training rifle" for the research may prove its origin. (37546-121)

A very good example, sure to be an appropriate addition to a Colt collector's repertoire. (45461-69)

3525. COLLECTIBLE LOT This lot consists of two items. First is a reproduction ammunition poster from the United States Cartridge Company. The poster is a reprint of an 1881 vintage ad and measures 35" x 21 1/2". It features the rimfire and centerfire cartridges from that period as well and shotshells and loading equipment. The poster is in very good condition with prominent folds and a few small tears. Second is a user's manual for the Springfield M1903 rifle by the Civilian Marksmanship Program. (5953-35A1)

3526. COLLECTIBLE COLT PAPER LOT This lot consists of three items. First is a two-page typed letter from the Union Metallic Cartridge Company on company letterhead dated "Dec. 23, 1886". The letter was addressed to a Mr. Hugh Harbison and is signed by an "A.C. Hobbs" and pertains to the testing of the 41 caliber cartridges being used in the Colt revolvers. Harbison was the treasurer of Colt Firearms during that period and the letter refers to the ballistics and quality of the U.M.C. 41 caliber cartridges as opposed to the Winchester Repeating Arms cartridges also available at the time. The right corner of the first page of the letter is separated and has been repaired by tape. The second item is a small handwritten note from Sgt. Charles Kelsey of the 4th Cav. at Fort Garland Colorado requesting pricing and information of the "Bulldog" revolver and is dated "Feb. 8th, 1880". The last item is a Colt Military and Sporting Arms product catalog dated 1890. This vintage paperback catalog has a gray cover featuring the Rampant Colt in center. The cover has some light tattering along the edges and the 38 pages inside are slightly discolored from age and have areas of light foxing and staining. A terrific 126 year old example of these vintage catalogs. A must have for the serious Colt collector. (45698-67)

3526

3527. PACK POMMEL BAG LOT This lot consists of a set of tan leather 1917 style pommel bags for use with a military pack saddle. The bags are unmarked but are in excellent condition with minor scuffs but no rips or tears. One side has a single large pocket while the other has two smaller pockets and loops for securing pencils. Similar to known Quartermaster's bag examples made by K.C. Saddlery. (43559-42A)

3528. LOT OF LEG O' MUTTON CASES This lot consists of two, brown leather leg of mutton cases. The first one measures 32" long and is 8" wide at the base and has a green felt interior. The leather has some light scratches but is sound. The second measures 29 1/2" long and is 6" wide at the base. The leathers is more stressed than the first and has evidence of drying cracks and moderate crazing. The interior partition has become separated and case is in about good condition overall. (47240-61)

3529. LEG O' MUTTON CASE LOT This lot consists of a brown leather leg of mutton case by Abercrombie & Fitch. The case measures 30" long and is 7" wide at the base. The leather hinge for the butt cover has become separated and there is light crazing and staining throughout, but the case is otherwise intact. A very good example overall. (46283-12)

3530. LEATHER RIFLE CASE LOT This lot consists of a tooled, brown leather rifle case that measures 48" long. Designed for scoped rifles, the case has a shearling lining and has moderate to heavy flaking and crazing to the exterior. Case features a flap closure with buckle latch and a single carry handle. Loops for additional straps are present, the straps are not. An about very good example overall. (46286-5A)

3531. CROSSBOW LOT This lot consists of a WHAM-O Powermaster hunting crossbow. This vintage crossbow features a hardwood stock and aluminum alloy bow with about an 80 lb. draw. The string is present but frayed and should be replaced and the wood has some mild handling marks. Four original wood bolts are included, three have fishing tips, the fourth has a broadhead. A fifth incomplete pistol bolt is also included. The natural fletchings have mostly deteriorated from age. The original box is also included but is in poor condition overall with many tears and sections of the lid missing. A vintage crossbow in very good overall condition that would make a great display or conversation item. (45694-12)

3532. CROSSBOW LOT This lot consists of a Barnett Demon compound crossbow. This camo finish crossbow has a 150 lb. draw and can deliver a bolt at about 268 feet per second. The trackless design, straight limbs and glass filled nylon wheels add to this performance and a safety is included as well which all add to its superb accuracy. Crossbow also features a lightweight magnesium stock and has an adjustable front pin sight and rear peep sight. Other features include a bolt retainer, a braided Fast-Flite serving on the string and a weight of about 6.5 pounds. A terrific crossbow for target or hunting. (45694-11)

3533. CROSSBOW LOT This lot consists of a Horton Hunter HD175 crossbow. The crossbow is finished in Realtree woodlands camo and appears to be in excellent condition overall. It features a 175 lb. cocking weight and has will send a bolt out at over 300 fps. Crossbow also features a safety, a triple twist string and SpeedMax hybrid cable system, palm swell grip and mount for a quiver. The Horton Mult-A-Range 4X32 scope is included and has excellent optics. Also included are 12 Easton XX75 aluminum Realtree bolts and one Horton Carbon Strike MX carbon fiber bolt. Eleven field tips are also included. An excellent high performance hunting crossbow. (48059-7)

3643. **CONTICO TRAVEL CASE** This lot includes a black hard plastic travel case measuring 52"x12"x4 1/2" with gray egg crate style foam lining. This case has four clasp style closures with two spots for pad locks (not provided). The case is in very good overall condition. (2X105268-3)
3644. **LOT OF GUN CASES** This lot consists of three cases with hard plastic outer shells beginning with a black one measuring 52"x12"x5" with interior featuring a total of four foam inserts showing mild soiling and minimal wear. The exterior shows a few light handling marks and the case features four metal latches and plastic carry handle. The second one is for hand guns but virtually identical in color and construction with a ribbed aluminum frame but with two latches. There are three layers of foam showing mild soiling and the exterior shows light handling marks. The last one, unlike the others, is maker marked (Gun Guard) and features a tan 38"x11"x4 1/2" exterior and green egg crate style foam inserts, two metal latches and dual plastic carry handles. This is an excellent condition hard case. (1X77016-6)
3645. **GUN CASE LOT** This is a leather rifle scabbard measuring 48"x7" (at its widest point) and marked "C. G. v S.". The thick brown leather is rigid with the surface showing scattered light scuffing and mildew staining and there are a couple of sections showing creasing. The body is attached by fully intact rawhide stitching. The fabric stitching is beginning to separate at the muzzle where a small section of leather is missing; it does appear to be sufficiently structurally sound to allow for effective carry of a rifle. The scabbard features fully intact heavy leather attachment loops for manual carrying and an additional one for a separate buckle for attachment to the flap-over lid. An about very good example overall. (2X76358-1)
3646. **LOT OF GUN CASES** This lot consists of 20 soft sleeves for long arms including 11 that are of zipper closure, four of which that are not fully functional. There are two with strap closure including one that is missing a portion of the top part and also included are seven that feature drawstrings for security purposes. The overall condition is good to very good with some showing mild staining and soiling including mildew on a few and interior wear that has resulted in tearing on some. (2X77243-26)
3647. **WALTHER 22 CALIBER CONVERSION KIT FOR 1911 STYLE PISTOLS** This lot consists of a single 22 L.R. single shot conversion kit designed for 1911 style 45 ACP pistols. The box is marked "Einstecklauf Kal. 22 L.R. Fur Pistole" by Lothar Walther along with caliber and pistol model markings. The kit consists of a single threaded barrel with lock washer and knurled brass nut, 45 ACP firing pin, brass rod with knurled steel handle to eject casings and nylon bore brush. All parts rate excellent and appear to have seen little use. (1X87644-71)
3648. **BRITISH COMMEMORATIVE COIN LOT** This lot consists of a coin commemorating King George III. The bronze coin is turning a dull brown patina and shows scattered oxidation stains and some wear. 3663. **WHITETAIL MOUNT** This is a custom mount on a pedestal base of a typical 10 point whitetail deer. The deer's tip to tip measurement is 12 1/2" with an outside spread of 20". There are four tines on the viewer's left and six on the right. The deer sits on a custom hardwood base that has a steel shaft for the mount to securely rest on, which allows it to be swiveled in any direction. The round base has a 23" diameter with a 12"X12"X36" raised panel midsection with 18"X18"X1 3/4" top. The pedestal has a dark walnut finish and is handsomely crafted and with the mount in place measures almost 78" tall. (2X107820-10) [Please note: crating and freight shipping will apply]

3664. **WHITETAIL MOUNT** This is a traditional style mount of a typical 8 point whitetail deer with 5 3/4" tip to tip and 15 1/2" outside spread measurements. The deer's neck is turned to the viewer's right and its head points sharply downwards. The hair appears matted in some spots but the mount remains in very good to excellent condition. (1X107858-7E) [Please note: crating and extra shipping will apply]

3662

3664

3665. **WHITETAIL MOUNT** This is a traditional forward facing mount of a typical 8 point whitetail deer with 3 1/4" tip to tip and 13 1/4" outside spread measurements. The deer's head tips slightly towards the viewer's right side and the antlers are loose but remain affixed to the mount. The neck and head appear massive in comparison to the antlers and this mount remains in overall very good condition. (2X107858-7D) [Please note: crating and extra shipping will apply]

3666. **WHITETAIL MOUNT** This is a traditional style mount of a typical 11 point whitetail deer with 7 1/4" tip to tip and 19 3/4" outside spread measurements. The head is turned to the viewer's right and appears to have been well groomed. This thick body mount remains in excellent condition. (108091-1) [Please note: crating and extra shipping will apply]

3667. **GUN ART** This lot includes a framed representation of an 1860 style percussion revolver. The cast gun is in two sections showing a left side and right side view. The frame measures 21"X15" and has a red felt backing. This is a neat representation in very good overall condition. (2X107202-2)

3668. **LOT OF FRAMED HK ADVERTISING POSTERS** Two total: (1) cutaway view for an HK USP pistol. The full color print is well labeled and illustrated and is secured inside an aluminum frame that measures 22 1/2"X28 1/2" overall. This would make a neat visual aid for any firearms instructor or piece of décor for any gun enthusiast and remains in excellent condition; (1) P7 Semi-Auto Pistol advertising print that shows a large image of the handgun with several smaller pictures of its use in both the military and law enforcement. The print measures 16 1/2"x23 1/2" and is affixed to an antique white backer. It is in a black aluminum frame measuring 18 1/2"X24 1/2" overall with no glass front. The picture has a few scuff marks towards the top and remains in excellent condition. (107999-31B)

3669. **MINIATURE REDHEAD HEN CARVED IN THE CHESAPEAKE BAY STYLE** This is a very nicely carved miniature replica (1/3rd size, can't be certain) of a standard Chesapeake Bay Redhead hen decoy. All the paint is in mint condition with no marks or damage. Overall length is 6.5 inches. This is a cute little mini for the den or library shelf. (58088-3A)

3670. **BLACK DUCK WORKING DECOY** This gunning black duck decoy appears carved along the lines of an early Mason or Hayes glass eye decoy (c. 1920s) except that it has an atypical section of wood inlet into the body at the area of the neck. The body finish is a repaint and it still has the hanging metal weight rigging attached to the bottom. The head has separated from the neck area and there is a line present, but the head is not loose. The body has a split line running through the middle of the body (back-to-bottom and not side-to-side) suggesting that this might be 2-piece manufacture. The length of this decoy is 16 1/2". The lower section of the bill has split off and is missing. (58088-3B)

3671. **CORK BLACK BRANT PAIR CARVED BY RON SAYLOR** This pair of semi-smooth cork black brant are branded on the wooden bottom with "SAYLOR." Ron Saylor is a well-known decoy hunting rig carver based in Florence, Oregon who is known for his cork birds. The overall length of these decoys is 20 inches. Each bird has a slightly different pose, with one bird having a more slightly elevated head than the second. A nice rig pair of brant decoys that were gunned over only once or twice then put on a shelf. Great condition. (58088-3C)

3672. **GRIP AND MEDAL LOT** Two items total: (1) pair of Smith & Wesson checkered hard rubber grips for a small frame 32 caliber top-brake or early hand ejector revolver. The grips are in very good plus condition with a few minor handling marks, crisp checkering, the left panel has faded to near brown and may be from another revolver. (1) Colorado Gun Collectors Association award medallion, (1) 3/8" bronze medallion with flintlock assembly above mountain top while the back is nicely engraved "DISPLAY / OF / EXCELLENCE / 1990". Included is a hinged blue baize case with blue and white interior. (58110-26) [Robert Brooks Collection]

3673. **U.S. MODEL 1873 BAYONET SCABBARD** This is a type II scabbard with sheet metal body and leather throat and belt loop clamped with a brass escutcheon marked "N.G.P.". The metal surfaces retain an overall brown patina with perhaps 10% flaking black lacquer. The leather rates very good plus with light scuffs and handling marks but remains intact and the brass escutcheon has a pleasing tarnished ochre patina. (57278-8)

3674. **VERY RARE GERMAN SNIPERS TRENCH PLATE** This lot consists of a German military steel sniper's trench plate. This breastplate shaped heavy steel plate measures 18" tall and is about 13 1/2" wide. The plate features two folding legs which extend to support it in standing position and it has a 4" x 2 1/2" window with pivoting cover. The plate is a solid 3/8" steel which has a small crack at the top center that is about 2" in length and has light oxidation throughout. Much of the original green paint remains and included is a tan canvas carry strap. Designed to protect a sniper in the prone shooting position it offers protection from counter attack and stray fire. A unique piece of German military history. (47884-63) [Craig Brown Collection]

3675. **VERY RARE GERMAN FIRST WORLD WAR LOT** This lot consists of a vintage German Army Pioneer shovel with cover. The shovel measures 44" long overall and has a rounded head that measures 9 1/2" x 9 1/2". The head has a beveled edge and has been painted black. It is unmarked and remains in excellent overall condition. The brown leather cover is in excellent condition as well and is dated "1918"; the makers name is not clearly visible. An excellent example that likely could have seen service in two World Wars. (47884-64)

3676. **DUCK DECOY LOT.** This lot contains 6 RedHead Mallard duck decoys. All of the decoys are as-new and the paint remains excellent as they are still factory wrapped. These decoys would be a mallard magnet for the fall. (178125-1)

3677. **FINE ART LOT.** This lot contains one 33" x 25" framed whitetail print by Jim Kasper. The print has a view of 24" x 15 1/2" and shows a doe and a large 10 point buck standing in tall grass with freshly cut birch trees in the background. The print has been expertly double-matted with suede, using acid free materials. This print is # 160/600 and is dated 1986. (178113-7C)

3678. **FINE ART LOT.** This lot contains one 27" x 31 1/2" Ducks unlimited print titled "Green Wings". The print has a view of 18" by 23" and shows a young boy sitting on the edge of a boat near a pond holding a Browning Auto-5 next to two chocolate labs and with faint Green-Wing teals flying in the background, likely the artist displayed the ducks faint as the boy is daydreaming. The print has been expertly double-matted with suede using acid free materials. (178113-7G)

3679. **FINE ART LOT.** This lot contains one 34" x 26 1/2" framed Ducks Unlimited print titled "Common Loons". The print has a view of 25" x 17" and shows two loons on the edge of a swamp with one chick being hatched from its shell. Fourth is a 326 page illustrated hardcover title American Pistol Shooting, by Major William D. Frazer, copyright 1929. There are a few light scuffs and scratches on the cover and some light ingrained dirt staining on the pages but the book remains in very good condition. Fifth is a 202 page hardcover title Experiments of a Handgunner, by Walter F. Roper, copyright 1949. The book has moderate staining from some kind of a liquid but remains in about good condition. Sixth is a 219 page hardcover title The Art of Handgun Shooting, by Charles Askins Jr., copyright 1941. There are several light scuffs and some foxing is present on some of the pages. The spine is starting to loosen up and the book remains in good overall condition. Seventh is an illustrated 168 page hardcover title Hand Gunner's Guide including the art of the quick-draw and combat shooting, by Chic Gaylord, copyright 1960. The book is complete with dust jacket that shows overall light scuffing and the book appears well kept and remains in overall very good condition. (107644-098P)
3931. **LOT OF BOOKS** Three total. A Naturalist in Alaska, by Adolph Murie; c. 1961 Devin-Adair Company. 301 pages hardcover with jacket with a 4" section missing at the spine and scattered areas of tears and creasing. The book has a deckled main edge and the top exhibits mild foxing. Sportsmen Say, by Gene L. Letourneau; c. 1975 Guy Gannett Publishing Co., this second printing 1976. 215 pages hardcover with jacket that is missing nearly the entire front section, the cover rates excellent and the main and bottom edges have some large brown liquid stains. The Time of the Buffalo, by Tom McHugh; c. 1972 Tom McHugh. 339 pages hardcover with jacket and library stickers on the front and rear end papers. The edges show some areas of dirt and discoloration and the corners show moderate wear. The overall condition of the lot is about very good plus. (1X76012-1I)
3932. **BOOK LOT** The Mauser Archive, by Jon Speed; c. 2007 Collector Grade Publications Inc. 546 pages hardcover with jacket and featuring 870 illustrations. This publication utilizes hundreds of original, previously unpublished company documents that were not discovered at the time of the author's two previous titles on the subject. Among the things that these documents include are actual production and sales data for all types of Mauser products from 1884 to 1946, inventory lists, cost and sale price calculations and account ledgers. The condition rating is excellent plus with little if any indication of use. (77884-16HM) [Craig Brown Collection]

3933. **BOOK LOT** Cut and Thrust Weapons, by Eduard Wagner; c. 1967 Jean Layton and Artia Prague. This second impression 1969, 491 pages hardcover chronicles how the weapons developed and in what ways they were used through the centuries. The thoroughly illustrated book deals only with those of European origin or those which were taken over and used by European armies. This is a large (13"x9 1/2"x2 1/2") and heavy (7.2 lbs.) book showing very little wear but with areas of mild dirt staining over its white hardcover. (77884-16HN) [Craig Brown Collection]
3934. **LOT OF BOOKS** Total of four hardcovers. Military Commission to Europe, in 1855 and 1856: Report of Major Alfred Mordecai, of the Ordnance Department; printed 1860. Report dated March 30, 1858 by the Major to the Secretary of War, John B. Floyd on observations "on certain military subjects" made by Mordecai during his visit to Europe. Report of The Secretary of War, Communicating the Report of Captain George B. McClellan, One of the Officers Sent to The Seat of War in Europe, in 1855 and 1856. Printed 1857. Report dated Feb. 25, 1857 by Secretary of War, Jefferson Davis to J. M. Mason, President of the Senate. The conditions of the two previously listed books are quite similar, as each exhibits evidence of contact with liquid on the back covers and pages and overall mild to moderate edge wear and fading. The next book shows less fading and no liquid stains, but with corner wear and fraying along the top and bottom edges of the spine. It is titled Report of Colonel R. Delafield, U.S. Army, and Major of the Corps of Engineers, on the Art of War in Europe in 1854, 1855 & 1856; printed 1861. Report issued under the orders of Jefferson Davis, Secretary of War and includes several pullout maps and exhibits moderate foxing through most pages and a bruise to the lower page edge. Peacock Pie: A Book of Rhymes, by Walter de la Mare; dated 1925, 179 pages hardcover rating very good plus with a name written in ink on the front end paper. (77884-16HP) [Craig Brown Collection]

Gun Parts

3935. **LOT OF S&W N FRAME STAG GRIPS** This lot consists of a set of excellent condition unmarked "Magna style" stag grips for a Smith & Wesson square butt N frame revolver that includes the screw. (88100-87A)
3936. **COLT BARREL LOT** This lot consists of a single barrel for a Government Model pistol manufactured by Flannery. The barrel is 5" long with an excellent bore chambered in 45 ACP and is marked with "P" proof mark on the left side lug and "F" mark on the right side. The exterior of the barrel shows considerable operational marks. The barrel includes the link and link pin. (88100-118A)
3937. **HECKLER & KOCH P9S BARREL AND PARTS LOT** This lot consists of (10) parts. Included are (1) 9mm chambered 4" factory barrel with an excellent bore equipped with a removable C&A three-port compensator that screws onto the muzzle. The "9 PARA" and "[eagle] / N" markings on the top of the chamber of the barrel are light but the remainder of the proofs are strong including a British Nitro re-proof on the side of the barrel's chamber. Also included are: (1) recoil spring, (1) bolt head carrier assembly, (1) catch spring, (1) firing pin, (1) compression spring (mainspring), (4) unidentified and different sized coil springs. The barrel and bolt head carrier show light use but the remaining parts rate about excellent. (88100-170A)
3938. **COLT .22-.45 CONVERSION UNIT LOT** This lot consists of a single Colt .22-45 Conversion Unit for converting the Government model pistols to 22 LR. The 5" barrel with a floating chamber has an excellent bore. The metal surfaces retain about 96% factory blue with scattered light scratches, scuffs and operational wear. This post-war kit includes a complete slide with Coltmaster adjustable rear sight, barrel with floating chamber, ejector, slide stop, recoil spring and a magazine marked "Colt / 22-ACE-LR / SERVICE MODEL". The magazine is blued with scattered light pitting and a few oxidation blemishes. The kit includes a brown hinged box with one torn and poorly repaired corner, edge scuffing and few small areas of peeling. The internal compartment spacers are present. The last item is a factory instruction pamphlet that is repaired on the seams and folds but is clean. (88100-226A)
3939. **COLT .22-.45 CONVERSION UNIT LOT** This lot consists of a single Colt .22-45 Conversion Unit for converting the Government model pistols to 22 LR. The 5" barrel with a floating chamber has an excellent bore. The metal surfaces retain about 98% factory blue with light scratches and the color toning to plum. The kit includes a complete slide with Accro adjustable rear sight, barrel with floating chamber, ejector, slide stop, barrel bushing, recoil spring, recoil spring guide and a magazine marked "Colt / CAL. 22LR". The magazine is blued with light wear and the bushing is a replacement that has toned to gray. The kit includes a woodgrain two-piece box with several repairs, peeling and scattered light scuffs. Also included is a factory instruction pamphlet that rates about very good plus. (88100-226B)
3940. **COLT SERVICE MODEL ACE PARTS LOT** This lot consists of seven pieces. Included are: (1) complete slide with improved Stevens adjustable rear sight, (1) 5" 22 LR barrel with floating chamber and excellent bore, (1) barrel bushing, (1) recoil spring guide, (1) recoil spring, (1) ejector and (1) magazine. The slide retains about 97% original two-tone Parker-Lubrite finish with light high edge wear, scattered scratches and light operational marks. This post 1945 slide is not numbered under the firing pin stop. The blue finished magazine shows light wear and is marked "Colt / 22-ACE-LR / SERVICE MODEL". Rare, seldom seen, and hard-to-find parts for the Service Ace. (88100-226E)
3941. **RARE KONGSBERG MODEL 1912/1914 RIMFIRE CONVERSION UNIT** This lot consists of (10) pieces. Included is a 5" 22LR barrel with a bright excellent bore for converting the Kongsberg 1912 and 1914 pistols to fire 22 LR cartridges. The barrel is chambered for proprietary steel cartridges machined like a 45 ACP, chambered for the 22 long rifle cartridge. The bore and the chamber are offset so that the standard firing pin may be used, striking the rim of the 22 LR cartridge case. The chamber is machined slightly different to preclude an actual 45 ACP from being chambered into it. The barrel and cartridges are finished bright and rate very good to excellent overall, with light handling and usage marks and a few minor oxidation stains. The barrel and cases have the Kongsberg firing proofs. The kit includes a single barrel, (7) steel cartridge cases, (1) recoil spring and (1) Colt marked blue finished plain base contemporary magazine. A rare accessory for the model 1912 and 1914 Norwegian pistol. (88100-228A) {NON-GUN} [Walter Walt Rauch Collection] (400/600)

3942. **RARE A.F. STOEGER 22 CAL. "ATTACHMENT" SINGLE SHOT CONVERSION KIT LOT**

This lot consists of a Stoeger 22 LR "Attachment" single shot conversion unit for the Government Model pistol serial #303, box and instructions. The unit is designed to replace the slide assembly on a Government Model pistol. The unit is slid onto the rails and held in position with the original slide stop. The barrel lock lever is rotated and the barrel will tilt up on the hinge allowing it to be loaded. The barrel is closed, hammer cocked and the shot taken. Upon opening the ejector / extractor will lift the cartridge case about 1/4" then snap back into position. The metal surfaces retain about 95 - 96% factory blue with light high edge wear, scratches, lightly cleaned pitting and operational wear. The right side of the slide is marked "A F STOEGER INC. NEW YORK N.Y." with no other markings found except the serial number. The unit includes the original factory two-piece

box that rates very good to excellent with light edge wear, scratches and scuffs. It also includes the original three-fold brochure and instruction sheet which has one seam starting to tear but rates near excellent otherwise. The brochure shows the "Attachment" with a different style release and nose configuration by the front of the barrel. Overall, a rarely seen accessory for the timeless Government model. Please also see the other Stoeger "Attachment" offered in the following lot. (88100-227A)

3943. **RARE A.F. STOEGER 22 CAL. "ATTACHMENT" SINGLE SHOT CONVERSION KIT LOT**

This lot consists of a Stoeger 22 LR "Attachment" single shot conversion unit for the Government Model pistol. The unit is designed to replace the slide assembly on a Government Model pistol. The unit is slid onto the rails and held in position with the original slide stop. The barrel lock lever is rotated and the barrel will tilt up on the hinge allowing it to be loaded. The barrel is closed, hammer cocked and the shot taken. Upon opening the ejector / extractor will lift the cartridge case about 1/4" then snap back into position. The metal surfaces retain about 95% factory blue that is starting to thin on the sides along with light high edge wear, a few scratches and the occasional ding. There are no markings or serial number found on this unit. This may be a very early unit as the barrel latch lever is smaller than the other unit offered in this sale and is un-numbered. (88100-227B)

3944. **UNMARKED 22 CALIBER CONVERSION UNIT FOR GOVERNMENT MODEL STYLE PISTOLS** This unit consists of a single unmarked one-piece 22 LR conversion unit for a Colt Government Model style pistol. The unit has a 5" barrel with an excellent bore. The surfaces of the slide assembly retain about 99% black anodized finish with a few minor scratches and dings. Includes a fixed barrel and slide assembly with a lighter, smaller reciprocating bolt, with a pair of Luger style ears to retract it. There is an ejection port cut into the side of the slide assembly and the unit slides onto the rails and is locked in place with the guns original slide stop. It is equipped with drift adjustable service style rear sight and Patridge front sight. Cuts in the slide indicate it may have had an adjustable rear sight at one time that was removed. No magazine is provided. (88100-228B)

3945. **KIMBER PLATINUM 22 CALIBER 1911 CONVERSION UNIT** This lot consists of (4) pieces. Included are a (1) slide assembly complete with factory Bo-Mar style black blade adjustable rear sight, 5" barrel with an excellent bore and recoil spring assembly. Also included are (1) factory hard case correctly labeled to the gun, (1) factory marked polymer magazine and (1) instruction pamphlet. The slide retains about 99% black anodized finish with scattered light handling marks. Overall, the unit rates excellent. (88100-229A)

3946. **SIG SAUER 22 LR CONVERSION UNIT FOR MODELS P-228 THRU P-226 LOT** This lot consists of (8) pieces. This kit is designed to convert Sig P-228/ 229 / 226 / 220 series of pistols to fire 22 LR. Included are (1) complete slide assembly with three dot fully adjustable sights, (1) 4 1/2" barrel with an excellent bore chambered in 22 LR, (1) recoil spring, (1) recoil spring rod and (2) ten round polymer magazines. Also included is (1) unmarked factory hard case and (1) instruction pamphlet. The metal surfaces of the slide retain about 99% black matte anodized finish. The kit appears to have seen only light occasional use. (88100-229B)

3947. **ATKINSON M16 / AR15 22 LR MKII CONVERSION UNIT LOT** This lot consists of (4) pieces. Included are (1) Atkinson MkII marked bolt / recoil spring / chamber insert assembly with about 70% plus blue finish remaining along with scattered light scratches on the side of the bolt. Also included are (2) blue finished ten round magazines and (1) factory hard case marked "BINGHAM LTD. / ATLANTA GA. / U.S.A. The finish on the magazines rates very good plus with light handling wear. (88100-230B)

3948. **ATKINSON M16 / AR15 22 LR CONVERSION UNIT LOT** This lot consists of (3) pieces. Included are (1) unmarked bolt / recoil spring / chamber insert assembly with about 95% plus Parkerized finish remaining along with light operational wear. Also included are (1) unmarked Parkerized thirty round magazine and (1) factory hard case. The finish on the magazine rates excellent with light handling wear. (88100-230A)

3949. **LOT OF ROHM RG 14 AND RG 23 GUN PARTS** This lot includes approximately 94 parts. 4002. **WALTHER SPORTMODELL V BOLT ACTION RECEIVER** serial #15285, Receiver only. The metal surfaces on this vintage action are currently in the white and rate excellent with some light handling wear and gray patina. The metal appears to have been lightly polished and some of the lettering is faint but still visible, including the "(crown)"B" & "U" proofs. The bolt assembly is included as are the sights. The rear base radius has been opened up, the front sight has an extra tall insert. The trigger mechanism has been cut and modified as well and the lower portion is no longer present. A very good example that would make a terrific smallbore project for the right craftsman. (44458-18) {MODERN} (50/100)
4003. **LOT OF STEVENS PARTS** This lot consists of various parts for a Stevens Model 77C 16 ga shotgun. Included are the bolt assembly, trigger assembly, magazine tube with spring, slide with grooved forearm and buttstock with vented recoil pad. Other small parts including the stock bolt, magazine follower and top cap, and screws are also included. The buttstock appears to have been lightly sanded but rates excellent, the forearm has a crack running up the barrel groove (would not be visible if installed), and the metal parts appear to all be in excellent condition. (47606-1)
4004. **LOT OF WINCHESTER 97 PARTS** This lot consists of various parts for a Winchester 1897 shotgun. Included are a 20" 12 gauge riot barrel assembly with shroud and bayonet lug, the buttstock and the bolt, bolt carrier and other small receiver parts. The buttstock has several dings and other minor handling marks and a 3" crack running along the left side of the wrist. The barrel assembly includes the magazine tube and forearm which rate excellent. The heatshield shroud has a small crack on the left side near the lug. The remainder of the metal parts have a mottled brown patina but rate excellent overall. (47249-12)

4005. **MARLIN PARTS LOT** This lot consists of a complete bolt assembly and magazine for a Marlin 782 bolt action rifle in 22 Magnum. The bolt has minor handling wear and the blue is fading to gray. The magazine has light handling marks. Both are in excellent useable condition. (47722-16S19466A)
4006. **TARGET GRIP LOT** This lot consists of five pairs of wood target grips for number series High Standard 22 pistols. First is a set of checkered walnut wrap-around grips with a left side thumbrest, which have a minor chip at the toe of the left panel. The second set is similar but is not checkered and has an open back. This set has a moderate chip to the toe of the right panel and some tape residue on both sides. The third set is also wrap-around style, but with finger grooves. This set is unfinished and has a few minor chips with a more moderate portion missing from the leading edge of the left side. The last two are panel style and have adjustable bases. No grips screws are included. A very good assortment of custom grips for the High Standard shooter. (47565-5A)
4007. **HIGH STANDARD BARREL LOT** This lot consists of a 10", High Standard Olympic Trophy barrel in 22 LR with a bright, excellent bore. The metal surfaces retain probably about 90% original blue with light handling marks and tool marks throughout. This is the tapered "Space Gun" style barrel with mounting rails and detents for barrel weights. Barrel is equipped with a fixed front and adjustable rear sight and is in very good condition overall. (47565-4A)
4008. **HIGH STANDARD BARREL LOT** This lot consists of a 4 1/2" tapered barrel for the High Standard Supermatic and Citation series pistols. The barrel has a bright excellent bore and has some light handling wear to the factory blue finish which has about 97-98% remaining. Barrel is equipped with a fixed front sight and is in excellent overall condition. (47565-4B)
4009. **HIGH STANDARD PARTS LOT** This lot consists of barrel weights and other assorted parts for High Standard pistols. Three barrel weights and brackets are included, as well as a barrel release plunger and a small package of assorted screws. Also included are four factory patches and a promotional sticker. All are in excellent condition. (47565-5B)
4010. **BLACK POWDER FRAME AND PARTS LOT** This lot includes three frames, two barrels and a cylinder. The cylinder is for a Manhattan that is mostly a brown color patina. The cylinder scene is mostly visible and there is fine oxidation staining near all over. The chambers are dark and have scattered pitting throughout their .38 caliber bores. The first frame is a brass Tipping & Lawden pepper box pistol frame serial #3739 that is completely stripped and has a lovely ochre color patina. The markings remain crisp and the frame is in overall excellent condition. The second brass frame is for a M.F.A. Co., Hero pistol that is stripped but comes with a 3" barrel with dark pitted bore. The markings are slightly washed and the frame is a dark ochre patina with areas of oxidation staining and light pitting present. The third frame is similar to the last and is marked only "FARO" and has a very dark color patina and comes with a 2 3/8" barrel with a dark pitted bore. (106299-A23FA)
4011. **TIPPING & LAWDEN PARTS** This lot includes six items. First is a stripped frame that retains 95% original silver plate that has overall light tarnish, minor high edge wear, and handling marks. The frame is serial #1996 and remains in excellent condition. Second is a set of light colored walnut grips that show several light handling marks and are numbered 5330 and are in overall very good condition. Also included with this lot are four small internal parts listed as follows: grip screw escutcheon, main spring, trigger, and hammer. The hammer is numbered to the gun and the parts are in overall very good condition. (106229-A23FB)
4012. **STAG GRIP LOT** This lot includes a set of stag grips likely for a Colt Army Special or similar style revolver. The grips are off white in color with dark veins and remain in excellent condition. (106229-A23FC)
4013. **GLOCK BARREL** This lot includes a conversion barrel for the Glock 3 Pistol. The barrel is manufactured by Lone Wolf Distributors and measures 4" with a bright excellent bore. The bottom of the barrel is marked with a wolf head and the numbers 40-9 and remains in excellent condition. (10813-8A)
4014. **BROWNING BARREL** This lot includes a 24" round 12 ga., barrel likely for a Light Twelve shotgun. The round barrel has rifle sights and a bright excellent smooth bore choked modified. There are a few light scratches and some silvering around the muzzle. This 2 3/4" chambered barrel is serial #N34988 and rates near excellent overall. (108060-12A)
4015. **BROWNING BARREL** This lot includes a 26" ventilated rib 12 ga., barrel likely for a Light Twelve shotgun. The barrel is serial #C92910 and chambered for 2 3/4" shotshells with a bright excellent bore choked Improved Cylinder. There are a few light superficial scratches and a single silver colored bead sight is installed. An about excellent barrel overall. (108060-12B)
4016. **LOT OF COLT GRIPS** This lot includes an assortment of 1911 grips, 1917 grips and a set of Franzite 22 target grips. There are 14 sets of various wood and plastic grips to include multiple variations of reinforced ribs and grip screws escutcheons. The grips range in condition from good to excellent. (107644-102AN)

4022. **LOT OF BUTTSTOCKS** This lot includes two finished European style double barrel shotgun stocks. The first is a walnut checkered pistol grip stock measuring 15 3/4" overall. It has been drilled for a sling swivel stud and has overall light handling marks. Second is a checkered walnut pistol grip stock measuring 16" overall with an oval brass monogram plate located near the toe. The stock has a few light handling marks and they both rate very good overall. (107568-8D)
4023. **LOT OF BUTTSTOCKS** This lot includes two checkered walnut buttstocks for British style double guns. First is an unknown sidelock style stock measuring 15" overall with straight grip and dark finish. The stock has the letter "M" carved in the toe with several light handling marks and remains in overall very good condition. Second is a straight grip stock with checkered butt inletted for a side plate action measuring 15 1/4" overall with oval silver monogram plate in the toe that has the initials "LTV" engraved. Aside from a few light handling marks this stock remains in about excellent condition. (107569-8E)

4024. **REMINGTON BUTTSTOCK** This lot includes a checkered pistolgrip buttstock measuring 13" overall with ventilated recoil pad likely for an 870 or 1100 style shotgun. There are scattered light handling marks with a couple of long thin shallow scratches and spots of flaking varnish. This is an overall very good condition stock. (107569-8F)
4025. **LOT OF BUTTSTOCKS** This lot includes two walnut checkered pistolgrip buttstocks likely for an American style double. The first is a scalloped stock that measures 14 3/4" overall with an Old English buttplate. The stock has a few light handling marks and silver shield monogram plate at the toe that is blank. It remains in excellent condition. Second is a straight-cut fancy checkered stock that has a dark oil finish and is fitted with Old English buttplate. A blank brass oval monogram plate is inletted at the toe and remains in excellent condition. (107569-8G)
4026. **LOT OF BUTTSTOCKS** This lot includes two walnut checkered pistol grip buttstocks. First is likely an Ithaca double stock that measures 14 1/2" overall that has a crack in the wood between the tang recesses. There are overall light handling marks and a repaired chip along the toe and included is a broken checkered Ithaca buttplate. Second is likely a Browning Citori or 101 stock measuring 16 1/4" overall with light handling marks, in about excellent condition. (107569-8H)
4027. **LOT OF GUN PARTS** This lot includes a variety of quick release sling swivels and buttplates. First is a steel checkered widow's peak buttplate likely for a Model 70 Winchester. The metal surfaces retain 70% blue with overall light scratches and spots of fine oxidation staining and remains in near excellent condition. Second are a set of swivel studs likely for a Model 54 or 70 Winchester that retain 85% blue with overall light scratches and in excellent condition. Third is a checkered Model 70 Winchester Repeating Arms Co. marked hard rubber buttplate that is missing the tip of the toe. The partial buttplate remains in good condition. Fourth are an assortment of quick release swivels to include (3) Ruger style and (3) Remington style all in excellent condition. Also included are two unidentified screw-in style swivels, one with wood screw pattern stud, the other with machine screw threads. (107569-15)
4028. **STOCK LOT** This lot consists of a Czech VZ-24 walnut stock in near very good condition. The stock shows dings, abrasions, handling marks and scratches throughout. There is also a minor crack in the barrel channel on the right side. The stock includes the buttplate, two rear sling swivels, stock disc, nose cap and front band keeper. The stock has two sets of serial numbers that are indiscernible and the stock disc is marked "10HN/770" both of which are lined out. (2X204337-8)
4029. **STOCK LOT** This lot includes a semi-inletted walnut stock with right side shadowline cheekpiece. The stock is possibly for a Howa style rifle and will likely be very attractive when finished. (2X107465-2A)
4030. **STOCK LOT** This lot consists of three stocks for the 1903 series rifles. First is a military walnut stock that has been modified for sporting use. It rates very good overall with a few light dings and handling marks and a small crack near the toe. The stock measures 31" overall and included are sling swivels and the crossbolts, no other hardware is included. Next are two brown composite full-length military style training or drill stocks. Neither include any hardware or furniture. One is in excellent condition, the other rates about good and has several chips, cracks and other blemishes. (1X44395-2S1)
4031. **MOSSBERG BARREL LOT.** This lot contains one Mossberg 500 barrel. The barrel is a 12 ga, 24" slugster barrel choked cylinder, having a bright excellent bore. The metal surfaces retain 98% original blue finish having some scattered light handling marks. This barrel is in excellent condition. (1X177758-21A)
4032. **RUGER BARREL** This lot includes a 26" blued tapered barrel in 270 Win with a bright excellent bore. The barrel retains about 95% blue finish and has been drilled and tapped for a quarter rib that is not installed. One pin is in place, the other is missing and the barrel remains in about excellent condition. (3X107494-13C)
4033. **RUGER BARREL LOT** This lot includes a round, tapered 18 1/2", blued 10/22 barrel with bright, about excellent bore. The barrel retains 95% blue finish with a few light scratches and spots of fine oxidation staining. (2X107494-13A)
4034. **LOT OF REVOLVER PARTS** Four items total: (2) sets of smooth walnut grips similar in shape and design to that of a Stevens Tip Up pistol. The panels have light handling marks and are pencil-numbered with no matching numbers; (2) unmarked and unnumbered back straps likely for a Model 1860 Army revolver. The first one is mostly a blue brown patina and the other is toning toward a plum color and both remain in very good condition. (2X107244-25BU)
4035. **SMITH & WESSON BARREL** This lot includes a nickel finish 2" 38 caliber barrel with bright excellent bore. This is a standard barrel, likely for a model 64 revolver. There are faint tooling marks along either side and the barrel remains in near excellent condition. (2X107494-14D)
4036. **LOT OF ACCESSORIES** This lot includes two aftermarket accessories: First is a MSAR P/N 218 sight rail with screws and wrench, second is an unmarked swivel stud with screws for use on a Picatinny rail system. Both items are in excellent condition. (1X104427-104A)
4037. **DUTCH M1 CARBINE BLANK FIRING ADAPTER** This lot consists of a single Dutch M1 Carbine blank firing adapter. The adapter shows some light oxidation staining, silvering and red paint at bottom. It is marked with "Eagle/BMVIDG/186". A unique lot for the M1 Carbine collector. (1X207647-42)
4038. **PERCUSSION CYLINDER LOT** This lot includes (2) .38 caliber six shot blued, round cylinders, likely for reproduction Colt Model 1851 Navy Revolvers. The cylinders are unmarked, one retaining about 90% blue finish and the other 95%, both with overall light scratches and a couple spots of light fine oxidation staining. There are no nipples present and the cylinders remain in very good plus condition overall. (1X107244-26Q,P)
4039. **RUGER RED LABEL STOCK.** This lot contains one Boyds Ruger Red Label buttstock. The stock features an adjustable comb and is fitted with a decelerator adjustable recoil pad; the recoil pad internal buttstock parts are not present but could easily be ordered from Boyds. The stock rates excellent to as-new with a light handling mark here and there. Included is the original box. (178125-2)
4040. **PEREGRINE M.33 FALLING BLOCK ACTION** serial #84, Action only. Made by Peregrine in Silverthorne, CO. The stainless steel metal surfaces remain in the white and are bright. These actions are well known and being out of production are highly desired by precision rifle builders. Whether a long range target, silhouette or classic sporting rifle, whatever genre you desire can be fulfilled. The action features dual set triggers and is without a manual safety. Like new and never installed it is set up for centerfire operation. The best machining and manufacturing has been put into the design and building of these actions and the operation is smooth, like a fine watch. Included are a set of 1" scope rings that would mount to target block mounts. (48085-35) (MODERN)
