Working Student Software Engineer 🌈
Potsdam/Berlin

You want to gain practical experience during your studies and work with a creative team that drives innovative products? Then look forward to the exciting working environment at D-LABS! Here you will find a lot of freedom in your choice of technology and design as well as self-reliant work on your projects.

WHO WE ARE MISSING, IS YOU!

YOUR PROFILE

> You are currently studying software engineering, e.g. computer science.
> Ideally, you already have some experience in a JavaScript framework (e.g. React, AngularJS, Vue, OpenUI5) or a backend web framework (e.g. Express, Django, Ruby on Rails).
> You are interested in learning and applying agile software development methods and tools such as Scrum and Continuous Integration.
> You are open to new technologies and contribute your own ideas.

YOUR TASKS

> New and on-going development of non-trivial web and mobile applications as prototypes, minimum viable products or full-fledged products
> Active participation in the conception phase of new products and services, including an assessment of the technical feasibility of initial solution ideas
> Writing easily understandable, maintainable, robust and extensible source code while adhering to design patterns, coding standards and conventions and avoiding code smells
> Sparring partner and source of inspiration for an interdisciplinary team

You know you're the one for us — but you don't fulfill all requirements? Convince us! We love to hear from you.

SOME OF YOUR BENEFITS

Advanced Training   Flexibility   Company Culture   Family Friendliness

Are you ready?

Send us your application including your portfolio or show us on a self-made website, who you are!
