VENEER

Exposed surfaces are number one select cherry, walnut, maple or oak veneers. Optional sketch face veneer patterns are available on some conference table tops. Select straight and quarter grain patterns are used overall to maintain consistency between individual units. CT5 edge profile tops are number one select cherry or maple veneers.

TOPS

Conference tops utilize 5-ply construction with mitered corners. High pressure laminate tops are 3-ply construction with .050 thickness for high impact resistance. Tables are profiled on all sides. Two-piece conference tops are joined together with wooden dowels. Under-top mending plates and butterfly bolts ensure permanent connection. 2mm edges on 1.1875" thick tops utilize 3-ply construction with externally banded hardwood. Launch edge profile tops are 1.1875" thick utilizing 3-ply construction. CT5 edge profile tops are 1.5" thick utilizing 5-ply construction.

BASES

Bases are attached to tops using support panels and wood screws. Wire access doors for cylinder bases are 2" from the bottom. See pages 545-567 for base options

ASSEMBLY

Structural joints are secured by 16-gauge steel angle brackets and wood glue blocks. Adjustable levelers feature insert nuts to prevent glide tear out.

Our unsurpassed conference offering includes an array of top shapes and sizes, numerous base styles, some with wire management capabilities, edge choices that complement our casegoods and distinct veneer patterns. available in cherry, walnut, maple or oak wood species.

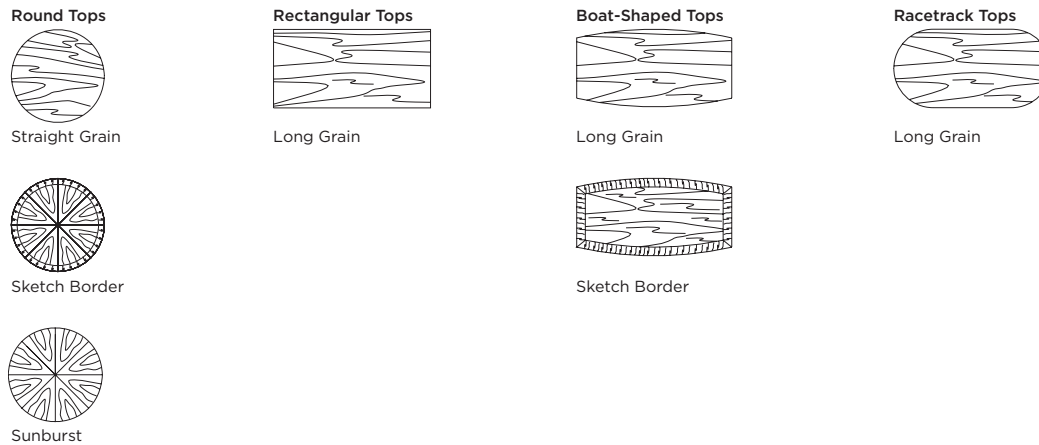

TOP SHAPES

Four top shapes are available in sizes ranging from 36" diameter to 48"D x 192"W rectangular.

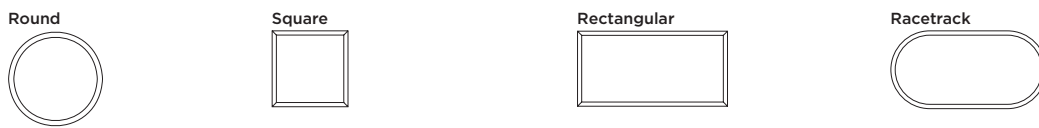

GRAIN PATTERNS

Some tops are available in a choice of straight, long, sketch border, or sunburst veneer grain patterns. Below are the options available on each top shape.

LAMINATE INSERT TOPS

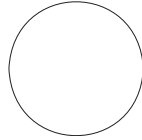

Four top shapes are available in sizes ranging from 36" diameter to 48"D x 144"W rectangular.

ROUND TOP STANDARD FEATURES

- Round Lumber Banded Edge; EK Cutback Edge is not Lumber Banded
- One-Piece Top
- One Base Required
- Straight Grain Tops available in Laminate
- Sketch Border and Sunburst not available in Oak or Laminate
- See pages 545-567 for Base Options
- See pages 570-571 for Power Supply and Base Applicability

Round Tops

- **NOTE:** All Round Conference Tops require Additional Weight in the Base when using Cylinder Bases to prevent the Table from tipping over. OFS provides Instruction Sheets and Clear 6ml Bags with Base. Customer must provide Dry Sand for the Additional Weight.

HOW TO ORDER

SPECIFY: Finish | edge | power cutout. See page 515 for the designator finish name.

MODEL NUMBER

CT3-7236-3G

Finish	Edge	Power Cutout
OSL	EM	QR

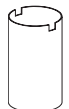

Our conference offering includes numerous base choices to complement our tops. For easy selection of bases we have compiled this quick reference guide of compatible bases with tops. After base is selected see pages 553-568 for specifications and ordering.

BASE OPTIONS FOR ROUND AND SQUARE TOPS

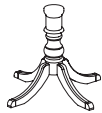

NOTE: All round and square conference tops require additional weight in the base when using cylinder bases to prevent the table from tipping over. OFS provides instruction sheets and clear 6 ml bags with base. Customer must provide dry sand for the additional weight.

Power	Accent Finish	Cord
X9	H8P	H7U

VENEER

Exposed surfaces are number one select cherry, walnut, maple, or oak veneers. Select straight and quarter grain patterns are used overall to maintain consistency between individual units.

TOPS

Caseloads tops are 1.1875" thick. Conference wall components tops are profiled on front side only. Freestanding conference caseloads tops are profiled 3 sides. High pressure laminate tops are available on credenzas and mobile carts.

ASSEMBLY

Structural joints are secured by 16-gauge steel angle brackets and wood glue blocks. Adjustable levelers feature insert nuts to prevent glide tear out.

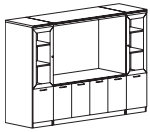

PULL OPTION

Select from pulls that match OFS casegoods series.
