		<p>All other Current and Future Products not specifically identified here will be offered at a 4% discount off SHI Advertised List price. Please see description below for more information on SHI's discount model for this contract.</p>		

All discounts articulated here represent the minimum discounts off SHI Advertised List Price; actual discounts may be significantly higher.

The comprehensive SHI offering for National IPA consists of all hardware, software, and services available to our customers in the public sector marketplace. The discount structure offered to National IPA is based on our Advertised Price List which can be located on www.shi.com. In many cases, SHI Advertised List Price already reflects a substantial discount off of Manufacturer Published List prices. Given the breadth of manufacturers and products that SHI offers, there will be many opportunities for SHI to secure additional discounts for eligible contract users. We work to provide your contract users with the most advantageous pricing available, above and beyond the minimum discounts offered, whenever possible.

SHI prides ourselves on being honest and transparent with our customers especially when it comes to pricing. We base our discount structure on SHI Advertised Price as this is a verifiable source. We do not inflate this Advertised Price for RFPs in order to make our discounts appear larger. Other vendors may use MSRP or Publisher List price, which can be unreliable as a pricelist may not exist for every product, a pricelist can change from day to day, and a pricelist can be inconsistent depending on where you source the information from. When a vendor manipulates contract language in this manner or uses a loose definition of cost, it results in an increase in profit for them and higher prices for customers.

SHI is willing to provide complete transparency over the life of the contract as it relates to our costs and what we charge National IPA customers.

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

1. **INDEPENDENT CONTRACTOR.** It is expressly understood that the relationship of Contractor to the City will be that of an independent contractor. Contractor and all persons employed by Contractor, either directly or indirectly, are Contractor's employees, not City employees. Accordingly, Contractor and Contractor's employees are not entitled to any benefits provided to City employees including, but not limited to, health benefits, enrollment in a retirement system, paid time off or other rights afforded City employees. Contractor employees will not be regarded as City employees or agents for any purpose, including the payment of unemployment or workers' compensation. If any Contractor employees or subcontractors assert a claim for wages or other employment benefits against the City, Contractor will defend, indemnify and hold harmless the City from all such claims.
2. **SUBCONTRACTING.** Contractor may not subcontract work under this Agreement without the express written permission of the City. If Contractor has received authorization to subcontract work, it is agreed that all subcontractors performing work under the Agreement must comply with its provisions. Further, all agreements between Contractor and its subcontractors must provide that the terms and conditions of this Agreement be incorporated therein.
3. **ASSIGNMENT.** This Agreement may not be assigned either in whole or in part without first receiving the other Party's written consent. Any attempted assignment, either in whole or in part, without such consent will be null and void and in such event the other Party will have the right at its option to terminate the Agreement. No granting of consent to any assignment will relieve either Party from any of its obligations and liabilities under the Agreement. Notwithstanding the foregoing, either Party may assign this Agreement and its rights, interests, liabilities and obligations thereunder to a successor pursuant to a merger, consolidation or sale of all or substantially all its assets following sixty (60) days written notice.
4. **SUCCESSORS AND ASSIGNS, BINDING EFFECT.** This Agreement will be binding upon and inure to the benefit of the parties and their respective permitted successors and assigns.
5. **NO THIRD-PARTY BENEFICIARIES.** This Agreement is intended for the exclusive benefit of the parties. Nothing set forth in this Agreement is intended to create, or will create, any benefits, rights, or responsibilities in any third parties.
6. **NON- EXCLUSIVITY.** The City, in its sole discretion, reserves the right to request the Products or Services set forth herein from other sources when deemed necessary and appropriate. No exclusive rights are encompassed through this Agreement.
7. **AMENDMENTS.** There will be no oral changes to this Agreement. This Agreement can only be modified in a writing signed by both parties. No charge for extra work or Product will be allowed unless approved in writing, in advance, by the City and Contractor.
8. **TIME OF THE ESSENCE.** Time is of the essence to the performance of the parties' obligations under this Agreement.
9. **COMPLIANCE WITH APPLICABLE LAWS.**
 - a. **General.** Contractor must procure all permits and licenses, and pay all charges and fees necessary and incidental to the lawful conduct of business. Contractor must stay fully informed of existing and future federal, state, and local laws, ordinances, and regulations that in any manner affect the fulfillment of this Agreement and must comply with the same at its own expense. Contractor bears full responsibility for training, safety, and providing necessary equipment for all Contractor personnel to achieve throughout the term of the Agreement. Upon request, Contractor will demonstrate to the City's satisfaction any programs, procedures, and other activities used to ensure compliance.

- b. **Drug-Free Workplace.** Contractor is hereby advised that the City has adopted a policy establishing a drug-free workplace for itself and those doing business with the City to ensure the safety and health of all persons working on City contracts and projects. Contractor will require a drug-free workplace for all Contractor personnel working under this Agreement. Specifically, all Contractor personnel who are working under this Agreement must be notified in writing by Contractor that they are prohibited from the manufacture, distribution, dispensation, possession, or unlawful use of a controlled substance in the workplace. Contractor agrees to prohibit the use of intoxicating substances by all Contractor personnel, and will ensure that Contractor personnel do not use or possess illegal drugs while in the course of performing their duties.
- c. **Federal and State Immigration Laws.** Contractor agrees to comply with the Immigration Reform and Control Act of 1986 (IRCA) in performance under this Agreement and to permit the City and its agents to inspect applicable personnel records to verify such compliance as permitted by law. Contractor will ensure and keep appropriate records to demonstrate that all Contractor personnel have a legal right to live and work in the United States.
 - i. As applicable to Contractor, under the provisions of A.R.S. § 41-4401, Contractor hereby warrants to the City that Contractor and each of its subcontractors will comply with, and are contractually obligated to comply with, all federal immigration laws and regulations that relate to their employees and A.R.S. § 23-214(A) (hereinafter "Contractor Immigration Warranty").
 - ii. A breach of the Contractor Immigration Warranty will constitute as a material breach of this Agreement and will subject Contractor to penalties up to and including termination of this Agreement at the sole discretion of the City.
 - iii. The City retains the legal right to inspect the papers of all Contractor personnel who provide services under this Agreement to ensure that Contractor or its subcontractors are complying with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any such inspections.
 - iv. The City may, at its sole discretion, conduct random verification of the employment records of Contractor and any subcontractor to ensure compliance with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any random verification performed.
 - v. Neither Contractor nor any subcontractor will be deemed to have materially breached the Contractor Immigration Warranty if Contractor or subcontractor establishes that it has complied with the employment verification provisions prescribed by Sections 274A and 274B of the Federal Immigration and Nationality Act and the E-Verify requirements prescribed by A.R.S. § 23-214 (A).
- d. **Nondiscrimination.** Contractor represents and warrants that it does not discriminate against any employee or applicant for employment or person to whom it provides services because of race, color, religion, sex, national origin, or disability, and represents and warrants that it complies with all applicable federal, state, and local laws and executive orders regarding employment. Contractor and Contractor's personnel will comply with applicable provisions of Title VII of the U.S. Civil Rights Act of 1964, as amended, Section 504 of the Federal Rehabilitation Act, the Americans with Disabilities Act (42 U.S.C. § 12101 et seq.), and applicable rules in performance under this Agreement.
- e. **State Sponsors of Terrorism Prohibition.** Per A.R.S. § 35-392, Contractor must not be in violation of section 6(j) of the Federal Export Administration Act and subsequently prohibited by the State of Arizona from selling goods of services to the City.

- b. The City is exempt from paying certain federal excise taxes and will furnish an exemption certificate upon request. The City is not exempt from state and local sales/use taxes.
11. **AMOUNTS DUE THE CITY.** Contractor must be current and remain current in all obligations due to the City during the performance of Services under the Agreement. Payments to Contractor may be offset by any delinquent amounts due the City or fees and charges owed to the City.
 12. **PUBLIC RECORDS.** Contractor acknowledges that the City is a public entity, subject to Arizona's public records laws (A.R.S. § 39-121 et. seq.) and that any documents related to this Agreement may be subject to disclosure pursuant to state law in response to a public records request or to subpoena or other judicial process.
 - 12.1. If Contractor believes document related to the Agreement contains trade secrets or other proprietary data, Contractor must notify the City and include with the notification a statement that explains and supports Contractor's claim. Contractor also must specifically identify the trade secrets or other proprietary data that Contractor believes should remain confidential.
 - 12.2. In the event the City determines it is legally required to disclose pursuant to law any documents or information Contractor deems confidential trade secrets or proprietary data, the City, to the extent possible, will provide Contractor with prompt written notice by certified mail, fax, email or other method that tracks delivery status of the requirement to disclose the information so Contractor may seek a protective order from a court having jurisdiction over the matter or obtain other appropriate remedies. The notice will include a time period for Contractor to seek court ordered protection or other legal remedies as deemed appropriate by Contractor. If Contractor does not obtain such court ordered protection by the expiration of said time period, the City may release the information without further notice to Contractor.
 13. **AUDITS AND RECORDS.** Contractor must preserve the records related to this Agreement for six (6) years after completion of the Agreement. The City or its authorized agent reserves the right to inspect any records related to the performance of work specified herein. In addition, the City may inspect any and all payroll, billing or other relevant records kept by Contractor in relation to the Agreement. Contractor will permit such inspections and audits during normal business hours and upon reasonable notice by the City. The audit of records may occur at Contractor's place of business or at City offices, as determined by the City.
 14. **BACKGROUND CHECK.** The City may conduct criminal, driver history, and all other requested background checks of Contractor personnel who would perform Services under the Agreement or who will have access to the City's information, data, or facilities in accordance with the City's current background check policies. Any officer, employee, or agent that fails the background check must be replaced immediately for any reasonable cause not prohibited by law.
 15. **SECURITY CLEARANCE AND REMOVAL OF CONTRACTOR PERSONNEL.** The City will have final authority, based on security reasons: (i) to determine when security clearance of Contractor personnel is required; (ii) to determine the nature of the security clearance, up to and including fingerprinting Contractor personnel; and (iii) to determine whether or not any individual or entity may provide Services under this Agreement. If the City objects to any Contractor personnel for any reasonable cause not prohibited by law, then Contractor will, upon notice from the City, remove any such individual from performance of Services under this Agreement.
 16. **DEFAULT.**
 - a. A party will be in default if that party:

- i. Is or becomes insolvent or is a party to any voluntary bankruptcy or receivership proceeding, makes an assignment for a creditor, or there is any similar action that affects Contractor's capability to perform under the Agreement;
 - ii. Is the subject of a petition for involuntary bankruptcy not removed within sixty (60) calendar days;
 - iii. Conducts business in an unethical manner as set forth in the City Procurement Rules Article 7 or in an illegal manner; or
 - iv. Fails to carry out any term, promise, or condition of the Agreement.
 - b. Contractor will be in default of this Agreement if Contractor is debarred from participating in City procurements and solicitations in accordance with Article 6 of the City's Procurement Rules.
 - c. **Notice and Opportunity to Cure.** In the event a party is in default then the other party may, at its option and at any time, provide written notice to the defaulting party of the default. The defaulting party will have thirty (30) days from receipt of the notice to cure the default; the thirty (30) day cure period may be extended by mutual agreement of the parties, but no cure period may exceed ninety (90) days. A default notice will be deemed to be sufficient if it is reasonably calculated to provide notice of the nature and extent of such default. Failure of the non-defaulting party to provide notice of the default does not waive any rights under the Agreement.
 - d. **Anticipatory Repudiation.** Whenever the City in good faith has reason to question Contractor's intent or ability to perform, the City may demand that Contractor give a written assurance of its intent and ability to perform. In the event that the demand is made and no written assurance is given within five (5) calendar days, the City may treat this failure as an anticipatory repudiation of the Agreement.
17. **REMEDIES.** The remedies set forth in this Agreement are not exclusive. Election of one remedy will not preclude the use of other remedies. In the event of default:
- a. The non-defaulting party may terminate the Agreement, and the termination will be effective immediately or at such other date as specified by the terminating party.
 - b. The City may purchase the Services required under the Agreement from the open market, complete required work itself, or have it completed at the expense of Contractor. If the cost of obtaining substitute Services exceeds the contract price, the City may recover the excess cost by: (i) requiring immediate reimbursement to the City; (ii) deduction from an unpaid balance due to Contractor; (iii) collection against the proposal and/or performance security, if any; (iv) collection against liquidated damages (if applicable); or (v) a combination of the aforementioned remedies or other remedies as provided by law. Costs includes any and all, fees, and expenses incurred in obtaining substitute Services and expended in obtaining reimbursement, including, but not limited to, administrative expenses, attorneys' fees, and costs.
 - c. The non-defaulting party will have all other rights granted under this Agreement and all rights at law or in equity that may be available to it.
 - d. Neither party will be liable for incidental, indirect, special, or consequential damages.
18. **CONTINUATION DURING DISPUTES.** Contractor agrees that during any dispute between the parties, Contractor will continue to perform its obligations until the dispute is settled, instructed to cease performance by the City, enjoined or prohibited by judicial action, or otherwise required or obligated to cease performance by other provisions in this Agreement.
19. **TERMINATION FOR CONVENIENCE.** The City reserves the right to terminate this Agreement in part or in whole upon thirty (30) calendar days' written notice.

20. **TERMINATION FOR CONFLICT OF INTEREST (A.R.S. § 38-511).** Pursuant to A.R.S. § 38-511, the City may cancel this Agreement within three (3) years after its execution, without penalty or further obligation, if any person significantly involved in initiating, securing, drafting, or creating the Agreement for the City becomes an employee or agent of Contractor.
21. **TERMINATION FOR NON-APPROPRIATION AND MODIFICATION FOR BUDGETARY CONSTRAINT.** The City is a governmental agency which relies upon the appropriation of funds by its governing body to satisfy its obligations. If the City reasonably determines that it does not have funds to meet its obligations under this Agreement, the City will have the right to terminate the Agreement without penalty on the last day of the fiscal period for which funds were legally available. In the event of such termination, the City agrees to provide written notice of its intent to terminate thirty (30) calendar days prior to the stated termination date.
22. **PAYMENT TO CONTRACTOR UPON TERMINATION.** Upon termination of this Agreement, Contractor will be entitled only to payment for those Services performed up to the date of termination, and any authorized expenses already incurred up to such date of termination. The City will make final payment within thirty (30) calendar days after the City has both completed its appraisal of the Products and Services provided and received Contractor's properly prepared final invoice.
- Termination of this Agreement shall not affect the obligations of the City or Contractor under any existing Order issued under this Agreement, and such Order shall continue in effect as though this Agreement has not been terminated, and was still in effect with respect to such Order.
23. **NON-WAIVER OF RIGHTS.** There will be no waiver of any provision of this agreement unless approved in writing and signed by the waiving party. Failure or delay to exercise any rights or remedies provided herein or by law or in equity, or the acceptance of, or payment for, any Services hereunder, will not release the other party of any of the warranties or other obligations of the Agreement and will not be deemed a waiver of any such rights or remedies.
24. **INDEMNIFICATION/LIABILITY.**
- a. To the fullest extent permitted by law, Contractor agrees to defend, indemnify, and hold the City, its officers, agents, and employees, harmless from and against any and all liabilities, demands, claims, suits, losses, damages, causes of action, fines or judgments, including costs, attorneys', witnesses', and expert witnesses' fees, and expenses incident thereto, relating to, arising out of, or resulting from: (i) misconduct by Contractor personnel under this Agreement; (ii) any negligent acts, errors, mistakes or omissions by Contractor or Contractor personnel; and (iii) Contractor or Contractor personnel's failure to comply with this Agreement.
 - b. Contractor will update the City during the course of the litigation to timely notify the City of any issues that may involve the independent negligence of the City that is not covered by this indemnification.
 - c. The City assumes no liability for actions of Contractor and will not indemnify or hold Contractor or any third party harmless for claims based on this Agreement or use of Contractor-provided supplies or Services.
 - d. **IN THE EVENT OF ANY LIABILITY INCURRED BY CONTRACTOR OR ANY OF ITS AFFILIATES HEREUNDER, INCLUDING INDEMNIFICATION OF CITY BY CONTRACTOR, THE ENTIRE LIABILITY OF CONTRACTOR AND ITS AFFILIATES FOR DAMAGES FROM ANY CAUSE WHATSOEVER WILL NOT EXCEED \$5,000,000.00 OVER THE ENTIRE TERM OF THE AGREEMENT.**
25. **(RESERVED)**
26. **THE CITY'S RIGHT TO RECOVER AGAINST THIRD PARTIES.** Contractor will do nothing to prejudice the City's right to recover against third parties for any loss, destruction, or damage to City property, and will at the City's request and expense, furnish to the City reasonable assistance and

cooperation, including assistance in the prosecution or defense of suit and the execution of instruments of assignment in favor of the City in obtaining recovery.

27. **NO GUARANTEE OF WORK.** Contractor acknowledges and agrees that it is not entitled to deliver any specific amount of Products or Services or any Products or Services at all under this Agreement and acknowledges and agrees that the Products or Services will be requested by the City on an as needed basis at the sole discretion of the City. Any document referencing quantities or performance frequencies represent the City's best estimate of current requirements, but will not bind the City to purchase, accept, or pay for Products or Services which exceed its actual needs.
28. **OWNERSHIP.** All deliverables, Services, and information provided by Contractor or the City pursuant to this Agreement (whether electronically or manually generated) including without limitation, reports, test plans, and survey results, graphics, and technical tables, originally prepared in the performance of this Agreement, are the property of the City and will not be used or released by Contractor or any other person except with prior written permission by the City. Notwithstanding the foregoing, Contractor shall retain ownership rights to (1) all of its previously existing intellectual property, including any systems, derivatives, modifications and enhancements thereto, (2) confidential information of contractor, and (3) any tools or scripting applications used, developed or created by Contractor or its third-party licensors during the performance of this Agreement.
29. **USE OF NAME.** Contractor will not use the name of the City of Mesa in any advertising or publicity without obtaining the prior written consent of the City.
30. **PROHIBITED ACTS.** Pursuant to A.R.S. § 38-504, a current or former public officer or employee within the last twelve (12) months shall not represent another organization before the City on any matter for which the officer or employee was directly concerned and personally participated in during their service or employment or over which they had a substantial or material administrative discretion. Further, while employed by the City and for two (2) years thereafter, public officers or employees are prohibited from disclosing or using, without appropriate authorization, any confidential information acquired by such personnel in the course of his or her official duties at the City.
31. **FOB DESTINATION FREIGHT PREPAID AND ALLOWED.** All deliveries will be FOB destination freight prepaid and allowed unless otherwise agreed.
32. **RISK OF LOSS.** Contractor agrees to bear all risks of loss, injury, or destruction of goods or equipment incidental to providing these Services and such loss, injury, or destruction will not release Contractor from any obligation hereunder.
33. **SAFEGUARDING CITY PROPERTY.** Contractor will be responsible for any damage to City real property or damage or loss of City personal property when such property is the responsibility of or in the custody of Contractor or its employees.
34. **WARRANTY OF RIGHTS.** Contractor warrants it has title to, or the right to allow the City to use, the Products and Services being provided and that the City may use same without suit, trouble or hindrance from Contractor or third parties.
35. **PROPRIETARY RIGHTS INDEMNIFICATION.** Without limiting the foregoing, Contractor will without limitation, at its expense defend the City against all claims asserted by any person that anything provided by Contractor infringes a patent, copyright, trade secret or other intellectual property right and must, without limitation, pay the costs, damages and attorneys' fees awarded against the City in any such action, or pay any settlement of such action or claim. Each party agrees to notify the other promptly of any matters to which this provision may apply and to cooperate with each other in connection with such defense or settlement. If a preliminary or final judgment is obtained against the City's use or operation of the items provided by Contractor hereunder or any part thereof by reason of any alleged infringement, Contractor will, at its expense and without limitation, either: (a) modify the item so that it becomes non-infringing; (b) procure for the City the right to continue to use the item; (c) substitute for the infringing item other item(s) having at least equivalent capability; or (d) refund to the City an amount equal to the price paid, less reasonable usage, from the time of installation acceptance through cessation of use, which amount will be

calculated on a useful life not less than five (5) years, plus any additional costs the City may incur to acquire substitute Products or Services.

Information Technology Solutions

October 23, 2017

National IPA
City of Mesa
702 Capitol Avenue, Room 095
Frankfort KY 40601

Dear Ms. Williams:

Thank you for providing SHI the opportunity to participate in the City of Mesa's Request for Proposal for Information Technology Solutions and Services.

Before you read our response, please know that the soul of our company is supported by thousands of empowered employees who work together to determine the best course of action for our customers. We are a privately-owned company, and as such, our customers are our most valued shareholders. We are honored to have the opportunity to work with the City of Mesa. We have been pleased to work with the City for your software needs and other IT purchases over the last 6 years, and we will work diligently to ensure that this long-term relationship continues to provide value for you.

SHI prides ourselves on being honest and transparent with our customers especially when it comes to pricing. We base our discount structure on SHI Advertised Price as this is a verifiable source. We do not inflate this Advertised Price for RFPs in order to make our discounts appear larger. *Other vendors may* use MSRP or Publisher List price, which can be unreliable as a pricelist may not exist for every product, a pricelist can change from day to day, and a pricelist can be inconsistent depending on where you source the information from. When *a vendor* manipulates contract language in this manner or uses a loose definition of cost, it results in an increase in profit for them and higher prices for customers.

If awarded, SHI is willing to provide complete transparency over the life of the contract as it relates to our costs and what we charge National IPA customers.

In response to your bid requirements, we have provided our cost response under separate cover. If you have any questions regarding our response, please feel free to contact me or any of your SHI Team Members, introduced in our Letter of Transmittal.

Thank you again.

Sincerely,

Meghan Flisakowski
Public Program Manager

Putting our people in place to support the City of Mesa and National IPA is where we start. We believe that our team members must be empowered and have autonomy to respond to your requests. Additionally, we have ensured that your SHI support team has the training and resources they need to provide you with immediate, accurate, up-to-date information and the authority to take action for you whenever you need.

SHI has experienced tremendous growth in size and scope in response to our customers' expanding needs. Our organic growth, in conjunction with over two decades of stability, is successful because we

support a highly-skilled and tenured sales force with software-volume licensing experts, hardware procurement specialists, and certified IT services professionals.

As SHI has grown, we have retained the flexibility we are known for, in order to remain agile for our customers. For instance, we have few layers of management and empower our sales teams to make decisions that are in the best interest of their customers.

The City of Mesa will have the support of the entire SHI team:

Denise Verdicchio: Senior Director of Public Sector Sales. Denise has been an essential team member with SHI since 1995. As Senior Director of Public Sector Sales, Denise provides in-person client support and directly supports her team in the public sector; she has executive authority to approve terms and resolve issues and responds to inquiries within 8 business hours.

Alison Turner: Regional Director, Public Sector West. Alison coordinates the efforts of the Account Team in direct support of the City of Mesa and is the point of contact for any issues that arise and need escalation. With over 20 years in the industry, and with experience working in Education and Government during that time, Alison has the expertise and customer focus necessary to implement an exceptional Information and Technology Solutions and Services contract for the city. Alison will respond to inquiries within 8 business hours.

Amelia Jakubczyk: Account Executive. Amelia develops relationships with representatives throughout City of Mesa in support of all the city's IT needs. Amelia will conduct face-to-face meetings to understand the city's needs; will establish a customized service and support plan; and will construct a pricing strategy critical to the city's development. Amelia will respond to inquiries for resolution within 4 business hours; she has worked in this area and specifically with the City of Mesa for over 5 years and is excited to work with the city on this new endeavor!

Scott Garret: Contract Manager. Scott works closely with Amelia and the sales teams to ensure the sales teams are fully educated on the guidelines of the City of Mesa and IPA contract, including the reporting requirements. Scott will also work with the City and IPA to ensure we are providing necessary reports, accurately capturing the requested information, and to assist with any other contract-related requirements.

Inside Account Managers (IAM)—In partnership with the Account Executives in the field, our IAMs maintain direct relationships with you and have the responsibility of ensuring customer satisfaction. Functional areas such as pricing, availability, order entry, tracking, returns, product information, and expedites are an integral part of their daily activities. IAMs execute the plan established by the Account Executives for City of Mesa. We will evaluate the team regularly and add members as needed to ensure exceptional customer service. SHI Response:

Founded in 1989, SHI International Corp. is a global provider of technology products and services. Over the past 28 years, SHI has evolved from a \$1 million "software-only" regional reseller into a global, full lifecycle provider of technology, services, and solutions. SHI is ranked 9th among CRN's Solution Provider 500 list of North American IT solution providers. With over 3,500 employees worldwide, SHI is the largest Minority and Woman Owned Business Enterprise (MWBE) in the United States.

SHI International Corp. is headquartered in Somerset, New Jersey and has 30+ offices worldwide. As a privately held company, we have remained under the same ownership since 1989, and most Vice Presidents and Managers have been dedicated to SHI for more than 15 years.

SHI has been focusing on the specific needs of our Public Sector customers for over 20 years. Our first state-wide contract was awarded in 1994; since then we have continued to build and focus on the specific needs of public sector customers.

Today our Public Sector business unit consists of over 300 team members who are dedicated specifically to public entities across the country, allowing SHI to build connections and partnerships with each entity and to dive deeply into the infrastructure, procurement, and regulation obstacles that they face. For 2016 SHI reported earnings of \$7.5B, which demonstrates 15% growth over 2015. We are projecting earnings of \$8.2B for 2017 continuing to show substantial YoY growth. SHI has a financially strong and stable business model that has proven itself over time. Providing a compelling value to our entire customer base, SHI is able to offer the most advantageous pricing models of our top 4 competitors, while simultaneously maintaining our profitability with the lowest overhead cost structure in the industry.

Our breadth and depth of experience on Public Sector contracts of similar size and scope position us well for success as a partner with National IPA and the City of Mesa. Specifically for this contract, we are prepared to:

- Provide value by delivering an extensive catalog of items in each category accurately and efficiently;
- Offer consistent, aggressive pricing and world-class support to public entities regardless of size;
- Collaborate with National IPA to market this contract to public entities across the country.

With 28 years of experience supporting contracts that are similar in nature, complexity, responsibility, and scope to National IPA's request, we are ready to deliver on all of these requirements and more. SHI is able to provide our customers with full IT solutions, from commodity software and hardware to full end-to-end datacenter solutions. SHI offers a wealth of products, services, and resources which are all specifically in line with the requirements of this contract. This is, at our core, what we do – and the reason we will excel in the fulfillment of this contract more than other organizations who might have diverted focus. National IPA and City of Mesa users will benefit from SHI's laser focus on being the best at delivering the products and services they need, while continuing to keep our costs aggressive. A dedicated approach to the Public Sector business for the last twenty years has helped us to create solutions that are specific to the unique needs of State, Local, and Education customers across the country. We work constantly to understand your business and personnel and to stay current with your unique, evolving challenges.

Company Structure and Organization

SHI has experienced tremendous growth in size and scope due to our customers' expanding needs. Our organic growth and over two decades of stability are a direct result of backing a highly-skilled and tenured sales force with software volume licensing experts, hardware procurement specialists and certified IT services professionals.

In terms of organization, we have retained a small business feel in order to remain agile for our customers. We have few layers of management and empower our sales teams to make decisions that are in the best interest of their customers.

To ensure that we are meeting the needs of all Public entities, we have split our Public Sector business unit into three divisions:

- Public Sector Field
- SM Sled
- Federal

Public Sector Field

The Public Sector field organization supports State Government, Local Government, K-12, Higher Ed, and Public Healthcare entities across the country. Our sales teams are regionally aligned in order to provide local focus; subsequently, our Account Executives are able to live where they work. Each region is managed by a regional director who lives in that region.

Customers are supported by an Account Executive and a dedicated Inside Sales Team. Field territories are structured vertically and by geography. We have over 120 Account Executives (AEs) who live and work in their territories. Their emphasis is to be face-to-face with their customers as frequently as possible. We are in the process of expanding our field Account Executive team to ensure that each AE is focused on 25 accounts or less and in one specific vertical. This will enable us to continue to cater to the individualized needs of our customers.

Each Account Executive is supported by a team of Inside Account Mangers (IAMs). This group, totaling over 150 professionals, is located in our global headquarters in Somerset, NJ. This team is also aligned to match specific regions so that everyone who is working with you will have sensitive knowledge of National IPA member's regional environment and the nuances associated there. They are responsible for the day-to-day customer service questions such as order placement, order tracking, quotations, return authorizations, and product information.

SHI provides a comprehensive customer support plan to ensure we are meeting each customer's needs. SHI's Account Executives are empowered to make decisions around the support of their customers, and they have the autonomy to resolve issues as they arise. Because our Account Executives are accountable and responsible for ensuring customer satisfaction, SHI is able to provide high quality customer service and ensure efficient and effective response to questions and issues. In addition, the SHI Regional Directors are engaged with the account teams to provide executive level support and to meet with customers as needed.

SHI believes in regular and transparent communication with our customers. SHI Account Executives meet with the participating entities and individual contract users to review their business with SHI. During these review meetings, we discuss purchase history, as well as the customer's future plans. With open discussions, SHI can provide tremendous value in supporting future initiatives and will engage the support teams as needed to meet the customer's goals and objectives. If awarded, SHI will provide this level of service for all entities that use this contract to procure IT products, regardless of size.

SM Sled

The Small/Medium Sled division is focused on supporting the needs of the smaller K-12, local government, and higher education institutions across the country to ensure personalized attention regardless of customer's size. In this case, we have defined small as a K-12 district with 7500 Students or less, a higher-ed institution with 1500 students or less, or a city/town with 50,000 population count or less. These customers often are overlooked by large resellers yet have the same need to stay current with technology as their larger counterparts. SM Sled is based out of our global headquarters in Somerset, NJ and consists of a team of 170 Inside Account Executives (IAEs) who support their customers' needs from start to finish. They are organized into the same six regions as the field team and both a manager and a team lead support each region.

Sales Support Organizations

SHI has the largest team of Software and Licensing Specialists in the industry who are prepared to support our customers and our sales teams in whatever manner possible. SHI has the expertise in managing the varied features of the Publisher Licensing Programs; our award-winning team of Software and Licensing Specialists is available to assist you with selecting your licensing programs, executing the agreements, and supporting the agreement lifecycle.

Today SHI has dedicated teams that support 38 Strategic Software Partners and over 70 Emerging Technology Partners.

Over the past decade, IT has changed. Although there is still a need for commodity products, attention has turned more and more to building solutions that will solve customers' needs. In response to this, and working within our customer-centered foundation, we developed our Enterprise Solutions Group to include solution based support. This team has over 150 people who hold 3000+ certifications for various products and solutions. Their goal is to help address our customers' needs, acquire the right technology, and adopt that technology into their environment to achieve the desired outcomes. This team can bring together resources to talk across an entire solution whether that be end user, datacenter, or security. These teams are vendor-neutral and use their breadth of experience to help tailor conversations that will be optimal for a customers' specific environment. We engage our customers during the strategy and solution design phases of a project and assist with activities like strategic planning, assessments, white

boarding, proof of concepts, and obtaining demo units. Initiating conversations at this point in the conversation leads to a more optimized project and cost savings.

FEIN and D&B

SHI FEIN: 22-3009648

D&B Number: 61-142-9481 – SHI has included a copy of our D&B report as an Attachment to this response.

DISTRIBUTION, LOGISTICS

- A. *Describe how your company proposes to distribute the products/service nationwide.*
- B. *Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.*
- C. *Provide the number, size and location of your company's distribution facilities, warehouses and retail network as applicable.*
- D. *State any return and restocking policy and fees, if applicable, associated with returns.*
- E. *Describe the full line of products and services offered by your company.*

SHI Response:

SHI is proud of our tremendous network of distributors and partners. We maintain relationships with our large IT Distributors (Ingram Micro, Tech Data, and Synnex), as well as smaller, local distributors, and the manufacturers directly. With each transaction, we source from the supplier with inventory in the closest proximity to the customer and drop ship directly to their door. Most products are delivered within 3-5 business days via UPS Ground.

Our extensive network allows reduced time to market for National IPA members and prospective members. In addition, we have our own integration center located in New Jersey that can provide warehousing and complete configuration capabilities when such a solution best meets your needs. Of course, we always take the opportunity to find cost savings for our customers – and National IPA is no different. In addition to leveraging our partner relationships for savings at the vision and design phases of an IT project, when quoting and sourcing product, our sales teams also request information from all of our distributors' stock to obtain the best price for the National IPA member. In addition, we have sourcing specialists on our procurement team who monitor purchase orders with the partner and distributor community to ensure that no savings opportunities have been missed. In many instances, our sourcing specialists have the ability to aggregate purchases for a specific partner or product across multiple transactions or even multiple customers to realize a lower overall cost.

While SHI does maintain a warehouse/integration center in Somerset, New Jersey, it is our relationships with our major distributors that allow us to provide for efficient product delivery across the United States. This model reduces the overhead costs of maintaining our own additional warehouses. Our distribution model is important to SHI's own internal cost structure and allows us to offer our customers a very aggressive pricing model. Our major distribution centers are located in:

- Atlanta, GA
- Chicago, IL
- Dallas, TX
- Fontana, CA
- Fort Worth, TX
- Jonestown, PA
- Swedesboro, NJ
- Los Angeles, CA
- Memphis, TN
- Miami, FL
- Ontario, CA
- South Bend, IN
- Suwanee, GA

SHI receives electronic feeds from these major distributors as well as the top publishers/OEMs in the industry. We include advertised list price in our catalog and have based our discounts off of this pricing. All products will be offered to National IPA members at or below bid pricing for the life of the contract.

SHI's return policy is customer-centered – we will accept any request to return any unopened box up to 30 days after receipt, unless the manufacturer specifically has a no returns policy, in which case we note this to the customer. In order to request a return, a customer first contacts the customer's dedicated sales team, via email, phone, or through the "Request Return Authorization Number" section on the customer/SHI.com website. Your Inside Account Manager then generates a return authorization (RMA) number and provides that to you with a shipping label or account number. Finally, the IPA customer writes the RMA number on their return box, ships it to SHI, and we process the return. In some cases, to expedite a return, SHI will arrange to have the return-product picked up directly.

Once SHI receives the return, we will credit the customer's invoice. If you request a replacement order, we work with you to expedite a replacement even before we receive the return.

Occasionally, Software Publishers may require a customer to fill out a letter of destruction. In these cases, SHI provides the form to the customer, who signs and returns the form. To help simplify and expedite the process, SHI takes care of the rest – processing the letter of destruction with the Software Publisher.

Rarely, a customer might receive an incorrect or damaged product; if this occurs, SHI accepts return of that product within 30 days, with no restocking fees, regardless of the package being opened.

At any point, if customers encounter issues with their products, the SHI Account Team is accessible and eager to help!

SHI has a diversified product line that includes a broad range of computer products and services. Leading manufacturers have established SHI as an authorized partner. If awarded, National IPA contract users will benefit from having access to one of the most extensive IT product catalogs in the industry. The following lists contain a snapshot of some of the manufacturers whose products SHI is authorized to sell. If, by chance, we are not authorized for a specific product line that is of interest to a member, we will work with the manufacturer to become authorized. Upon award, we will work with National IPA to create a catalog inclusive of all products/partners that you would like to include.

Sourcing Non-Standard Products

SHI is committed to sourcing any product that our customers consider standard. In fact, one of our greatest strengths as a reseller has been our ability and willingness to source and purchase any product on our customers' behalf. This process is fast and efficient. SHI allows our Inside Account Managers to source products themselves, and to add them to SHI's product catalog without the assistance of another department. This means that a customer can request a product that does not currently exist in SHI's catalog, and that your Inside Account Manager will provide pricing and enter the customer's order within hours, rather than days.

MARKETING AND SALES

- A. *Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as your company's primary go to market strategy for Public Agencies to your teams nationwide, to include, but not limited to:*
- i. *Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days*
 - ii. *Training and education of your national sales force with participation from the executive leadership of your company, along with the National IPA team within first 90 days*

SHI Response:

SHI realizes the value of partnering with a widely respected organization like National IPA. Upon award this partnership would be immediately announced to the entire company, starting with our President and CEO, Thai Lee. This would be done via email to Thai along with the rest of the SHI Leadership, both sales and internal support. In addition, we would post an article on SHI's internal sharepoint site and announce on our upcoming all hands call.

SHI has retained a small business feel despite our growth. Denise Verdicchio, Sr. Director of Public Sector has worked for SHI for 22 years. She is personally working on this response and will continue to not only sponsor this partnership but will also be an active participant in creating and supporting all marketing plans. She, along with the rest of the Public Sector leadership, is fully committed to the success of this contract. National IPA and its members will benefit from this personal touch and commitment to success.

Ongoing training of our sales force on this contract will be critical to our success. Within the first week of award, SHI plans to have a call including all of our Public Sector Senior Leadership and Public Sector Marketing team as well as the appropriate sales, marketing, and contract personell for National IPA to create a specific design to enable our entire sales team. Discussion points will include:

- Train and enable all SHI Public Sector Field Account Executives and leadership
- Train and enable SHI's SM Sled Inside Account Executives and leadership
- Announce contract strategies such as social media, targeted email blasts, and press releases
- Facilitate current member market strategy
- Facilitate perspective member market strategy
- Create ongoing marketing plans.

We respectfully suggest having weekly touch point calls with Denise and the Public Sector marketing team until the contract is officially launched. Continuing monthly review calls over the life of the contract will allow us to stay focused, to analyze results for plans and strategies currently in place, to discuss new campaign and marketing ideas, and to review the overall success of the contract.

Since our Account Exectives live all over the country, we find the most efficient way to conduct traning and enablement is with regional webcasts. There are on average 20 Account Executives per region so this will allow each call to have a more collaborative feel and allow for in-depth questions and answers.

We would love to have National IPA conduct live training sessions at our global headquarters in Somerset, NJ for our SM Sled organization as well as any local Account Executives. In addition, we would welcome the opportunity to present SHI's overall capabilities to the National IPA team.

SHI would expect this initial training to take place within the first 60 days of contract award. From there, we can work closely with National IPA to create an ongoing training plan, including quarterly touchpoints with the Regional Teams. We would like to include the National IPA team on future in-person meetings to facilitate better relationships between our sales organizations.

Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:

- iii. Creation and distribution of a co-branded press release to trade publications*
- iv. Announcement, contract details and contact information published on the Supplier company website within first 90 days*
- v. Design, publication and distribution of co-branded marketing materials within first 90 days*
- vi. Commitment to attendance and participation with National IPA at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement*

SHI participates in hundreds of trade shows, conferences, and meetings across the country. National IPA has our commitment to participate at specified shows as well as looking for additional opportunities to broadcast and promote our partnership.

Specifically, SHI will attend, exhibit, and participate at the NIGP Annual Forum alongside National IPA suppliers. We are happy to assist National IPA in promoting and marketing this event and look forward to collaborating on a plan that will drive attendance.

SHI currently provides seminars and workshops to our public-sector customers across the country. We would be pleased to do the same for National IPA members. In all cases, we would work with you to determine the right topics, venue, timing, and participants. Some examples include:

Manufacturer Table Show – held annually, SHI will bring in manufacturers that currently do business with National IPA as well as emerging partners for a day of education and demonstration.

Technology Roundtables – this event brings together Public Sector IT Professionals and leading manufacturers to discuss current and future technology and how it can be used to solve problems or innovate solutions for the future.

Webinars – SHI frequently holds webinars for our customers. Topics range from Software Volume licensing (Microsoft EA, VMWare ELA), specific product features, and more broad solution areas.

Workshops – typically done in a half day, a workshop is meant to educate customers on all the aspects of a particular solution. One recent example is SHI's Video Surveillance Workshop. We have presented this workshop in 13 cities across the country and have discussed challenges, technology, policy, and future considerations.

Summits - SHI holds technology summits at our corporate headquarters in Somerset, NJ. Current summits include mobility and software asset management (held bi-annually). The State is welcome to attend these at no additional charge.

Custom Events - SHI will help National IPA coordinate any event that they believe will be beneficial to the participating entities.

In addition, SHI regularly publishes a widely read blog - <http://blog.shi.com/>. Recent posts include information on audits, E-Rate, VMWare VSphere Licensing Changes, and Microsoft O365 Productivity.

Immediately following is a sample marketing plan.

1. Overview

SHI has transformed itself from a \$1 million "software-only" regional reseller into a \$7.5 billion global provider of information technology products and services. From software and hardware procurement to deployment planning, configuration, data center optimization, IT asset management and cloud computing, SHI offers custom IT solutions for every aspect of your environment. Privately-held and under the guidance of our current ownership since 1989, SHI's goal is to foster long-term and mutually-beneficial relationships with our customers and partners every single day.

With 3,500 employees worldwide, SHI is the largest Minority/Woman Owned Business Enterprise (MWBE) in the United States and is ranked 9th on CRN's Solution Provider 500 list of North American IT solution providers.

SHI has a dedicated Public Sector sales force focused on selling solely to state and local government, K-12 schools, and higher education institutes. Digital Learning is one of SHI's core vertical sales initiatives for our education team, making a long-term relationship with National IPA a natural fit.

2. Potential Marketing Strategies

Social media SHI has an active presence on Twitter, LinkedIn, Facebook, and Instagram. We closely follow industry trendsetters and advertise new services, agreements, and relevant articles as they relate to our customers. We also use these platforms to amplify SHI Blog articles about new buying vehicles for SHI and our customers.

Targeted email blasts SHI's marketing team can create HTML email templates designed to inform thousands of targeted proprietary contacts about new contracts.

Ongoing enablement training for our K-12 sales force. Via our regularly scheduled roundtable calls, internal newsletters, live webinar trainings and in-person presentations, we strive to familiarize our sales reps with all new offerings so they are prepared to serve our customers. Additionally, we offer live webinars and trainings for our customers when relevant to keep them abreast of the latest IT news.

2. Potential Marketing Strategies (Continued)

Press Releases SHI uses our corporate website (SHI.com) and Business Wire to make important announcements, including occasionally highlighting strategic new contracts.

Events SHI attends and supports a plethora of events, often spearheaded by local SHI AEs to educate our customers on our resources. These include but are not limited to: co-sponsored regional IT events, road shows, customer-facing conventions, and webcasts.

These types of events allow SHI to market key differentiators to our clientele, including purchasing cooperatives such as National IPA.

Education-specific trade shows/conferences SHI attends many of the top trade shows in the education industry, and we use these opportunities to highlight key resources available to us to our customers, including education contracts.

The biggest of these shows is ISTE, the most comprehensive educational technology conference in the world for the past 30+ years with 18,000+ attendees.

SHI Blog and SHI.com Our subject matter experts, account executives, and partners contribute stories regularly to our customer-facing blog, informing them on insights, trends, and challenges impacting the IT industry today. We measure each post's impact through best of breed SEO and web analytics practices. Since our blog has a wide-ranging audience, our Public Sector marketing team is included in writers' meetings to ensure that we are effectively reaching our government and education-specific customers.

We have dedicated contract pages on our public-facing website highlighting key contract vehicles.

3. Closing Statement

SHI's National IPA contract provides us with the ability to continue servicing public sector together. SHI has demonstrated its distribution capability in generating revenue, creating interest for partner products and in transforming the way our mutual customers build, deliver and consume information technology. We have everything it takes to be successful in supporting this contract.

B. Describe how your company will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through National IPA. Include a list of current cooperative contracts (regional and national) your company holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

SHI Response:

SHI realizes that the transition process is essential to National IPA's success. Below, please find a brief explanation, along with visual support, of SHI's collaborative process. H. Describe in detail how your company's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

SHI Response:

As previously articulated, SHI has experienced tremendous growth in size and scope due to our customers' expanding needs. Our organic growth and over two decades of stability are a direct result of backing a highly-skilled and tenured sales force with software volume licensing experts, hardware procurement specialists and certified IT services professionals.

In terms of organization, we have retained a small business feel in order to remain agile for our customers. We have few layers of management and empower our sales teams to make decisions that are in the best interest of their customers.

To ensure that we are meeting the needs of all Public entities, we have split our Public Sector business unit into three divisions:

- Public Sector Field
- SM Sled
- Federal

Public Sector Field

The Public Sector field organization supports State Government, Local Government, K-12, Higher Ed, and Public Healthcare entities across the country. Our sales teams are regionally aligned in order to provide local focus; subsequently, our Account Executives are able to live where they work. Each region is managed by a regional director who lives in that region.

Customers are supported by an Account Executive and a dedicated Inside Sales Team. Field territories are structured by vertical and geography. We have over 120 Account Executives (AE's) who live and work in their territories. The emphasis is on having them be face to face with their customers as frequently as possible. We are in the process of expanding our field Account Executive team to ensure that each AE is focused on 25 accounts or less and in one specific vertical. This will enable us to continue to cater to the individualized needs of our customers.

Each Account Executive is supported by a team of Inside Account Mangers (IAM's). This group totaling over 150 professionals is located in our global headquarters in Somerset, NJ. This team is also aligned to match specific regions so that everyone who is working with you will have sensitive knowledge of National IPA member's regional environment and the nuances associated there. They are responsible for the day-to-day customer service questions such as order placement, order tracking, quotations, return authorizations, product information etc.

SM Sled

The Small/Medium Sled division is focused on supporting the needs of the smaller K-12, local government, and higher education institutions across the country to ensure personalized attention regardless of customer's size. In this case, we have defined small as a K-12 district with 7500 Students or less, a higher education institution with 1500 students or less, or a city/town with 50,000 population count or less. These customers often are overlooked by large resellers yet have the same need to stay current with technology as their larger counterparts. This division is based out of our global headquarters in Somerset, NJ. This team consists of 170 Inside Account Executives (IAE's) who support their customers' needs from start to finish. They are organized into the same six regions as the field team and both a manager and a team lead support each region.

- I. Explain in detail how the sales teams will work with the National IPA team to implement, grow and service the national program.

SHI Response:

SHI has extensive experience administering contracts of this nature, and we are confident that we will exceed the requirements of the Scope of Work and Terms and Conditions. We take great pride in our ability to administer the agreement to the maximum benefit of the contract users.

The SHI sales team will work in conjunction with the National IPA sales team to promote the Master Agreement to both existing participating Public Agencies and prospective Public Agencies. As detailed previously in this response, the SHI Sales team will receive in-depth and ongoing training on the Master Agreement. Public Sector sales leadership will be actively involved in implementing and servicing this agreement. The entire team is committed to growth and success of this contract.

SHI Account Executives will promote this agreement actively within their account base during regular face-to-face meetings and calls with customers and prospects. In addition, we welcome joint sales calls with the National IPA sales team.

Scott Garrett, the dedicated National IPA Public Sector Operations Specialist, will coordinate regular communications with our sales team and actively follow up on all campaigns. He can quickly distribute leads and connect the National IPA team with their correct counterpart on the SHI sales team.

We understand the intricacies of implementing and maintaining a contract of this nature, supporting multiple state agencies and municipalities. When we enter into an agreement of this magnitude, we take great care to implement support and service plans to meet the needs of each individual agency, city, county, township, school district and higher education institution.

J. Explain in detail how your organization will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, etc.

SHI Response:

In addition to our extensive sales force promoting this contract actively and on a daily basis with our current customer base and prospective customers, SHI intends to collaborate with National IPA on an extensive marketing plan. We understand the goal is to increase the number of entities that buy via National IPA in all public sector verticals. We have a dedicated Public Sector Programs team with resources specifically identified to market and support growth for our national contracts such as National IPA. If SHI is awarded, the following team members will collaborate with the National IPA team to create and implement the marketing plan:

Scott's main focus will be onboarding and growing the National IPA contract vehicle. He will be responsible for coordinating calls and other communications between SHI Leadership and sales teams and National IPA. Having Scott in place will help us to stay focused on our joint goals and also to review success as we go so we can make changes as needed.

We have previously discussed our marketing plans in this response and fully expect to continue to generate new marketing and sales campaigns to continue to drive business over the life of the contract.

When there is interest from a prospective public agency we will work quickly with National IPA to get their account set up and introduced to their account team at SHI. Having Scott Garrett as the primary point of contact will help to ensure that this process is seamless for the customer.

L. Describe your company’s information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

SHI Response:

Regardless of the method of submission (email, fax, web), the order is routed to your dedicated Inside Sales Team for validation and the management of the order process. Upon receipt, the Inside Account Manager (IAM) will review the order to ensure that the order is complete and can be processed. If the order is not valid for any reason, the IAM will contact the customer within 2-4 business hours to request any necessary information. If lower pricing is available, the IAM will inform the customer and pass the lower price on. In a case where a price has increased, SHI will honor the price if the quote is within 30 days of the original quote. If the quote has expired, SHI will make a best effort to work with the manufacturer to honor the price.

Your dedicated sales team will enter all valid orders on the same day they are received. An automatic order confirmation will be generated and sent to the end user listed on the purchase order, as well as any other contacts the customer has designated. We can customize the information on the order acknowledgement email and can include any and all information required by the customer.

Once an order is entered, it is then directed to SHI's Procurement Department for processing. This team is then responsible for placing the order with the appropriate Distributor or Manufacturer. The orders are sent electronically and confirmed. All orders are placed within 24 hours of being received. Should there be a change in the delivery time, the Procurement team will notify the sales team immediately. At that point we will reach out to the end user to discuss options.

Should a product not be available at the time of order placement, the Inside Account Manager will reach out to the contact who placed the PO and advise that contact on all the options available. No substitutions will be ordered unless we have express, written authorization to do so by the end user.

Assuming there are no delays, the tracking number will be uploaded to the website upon shipping if/when provided by our vendors. In addition, the customer can opt to receive an advanced shipping notification which will be emailed automatically upon shipping of the product(s). See an example of the ASN below.

We have the flexibility to bill upfront, in arrears, or on a payment plan depending on the requirements of each purchase. We will have these discussions before the quote process takes place and confirm again before we enter the purchase order. In this way, we will alleviate incorrect billings. In the rare case that something is incorrectly billed, the customer can simply reach out to their sales team and they will work with our Accounting Department to correct.

SHI is able to accommodate sending either hard copy invoices, electronic invoices, or both. Summary billing is also available. We can accommodate changes to their preference at any time. Invoices will be sent only after the products have been delivered. Should we get an award, we would like to sit down with each National IPA customer to understand their requirements, typical acceptance procedures, and time frames.

SHI's open architecture systems allow us to integrate with virtually any eCommerce platform, whether through market leaders or a proprietary solution. Ariba, Perfect Commerce, PeopleSoft, SAP and Oracle are the most popular applications supported by SHI. In general, SHI can support systems that use cXML (commerce extensible mark-up language), or EDI (electronic data interchange) standards. This includes a wide range of applications, proprietary systems.

In addition, SHI supports the following Punch-out types:

- Ariba Punch-out
- Coupa
- ePlus Procure+
- Hubwoo
- Oracle OAG and cXML Punchout
- Perfect Commerce Roundtrip
- PeopleSoft Direct Connect
- SAP OCI Roundtrip
- Sciquest
- Verian ProcureIT

SHI's order entry system, procurement system, and invoicing system are all standardized on AX. This allows for seamless process and maximum efficiency from order placement to billing. SHI has a team of AX developers in house to accommodate our various customers' needs.

M. Provide the Contract Sales (as defined in Section 10 of the National Intergovernmental Purchasing Alliance Company Administration Agreement) that your company will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

\$_____.00 in year one

\$_____.00 in year two

\$_____.00 in year three

To the extent Supplier guarantees minimum Contract Sales, the administration fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

SHI Response:

Per addendum #2, this information is not required. At this time, SHI prefers not to guarantee sales as we have no history or data with which to accurately determine these numbers. We are open to working with National IPA on forecasts in the future.

N. Even though it is anticipated that many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

- i. Respond with Master Agreement pricing (Contract Sales reported to National IPA).*
- ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to National IPA under the Master Agreement.*
- iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to National IPA).*
- iv. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.*

Detail your strategies under these options when responding to a solicitation.

SHI Response:

We understand that some public agencies will choose to conduct their own formal solicitations even though this Master Agreement is in place. In these cases, SHI will evaluate each situation as it arises. We will do everything we can to ensure that the resulting sales are priced at or below the National IPA pricing and reported to National IPA. It is our goal to make this contract as successful and widely used as possible and will not look to steer business away from it, even if the agency chooses to do a formal solicitation. SHI has put forth our most aggressive pricing to National IPA in this proposal. For this reason we believe that responding with this pricing will be the most widely used strategy (as described in i.). If a publisher/OEM offers competitive pricing, SHI will pass that pricing along and report those sales to National IPA (as described in ii.). It is highly unlikely for SHI to offer pricing higher than what is in the Master Agreement unless we were using the Master Agreement pricing as a comparison to show the value of this agreement (as described in iv.).

2. Provide a description of the product lines that can be provided by your firm.

SHI Response:

Currently, SHI collaborates with thousands of Hardware and Software partners and will provide National IPA access to the most extensive IT catalog in the industry. In addition, SHI continually adds vendors and products to our databases to allow our customers the most updated, comprehensive choices possible. We are confident that our flexibility, extensive product offering, and our willingness to evolve along with Public Agencies' changing needs, are unique strengths that SHI happily leverages for National IPA members. We will also reach out to new vendors upon request, or when we identify new technologies that we believe members will want to purchase.

Over the past decade IT has changed. Although there is still a need for commodity products, attention has turned more and more to building solutions that will solve customers' needs. In response to shift,

and working within our customer-centered foundation, we developed our Enterprise Solutions Group to include solution based support. This team has over 150 people who hold 3000+ certifications for various products and solutions. Their goal is to help address our customers' needs, acquire the right technology, and adopt that technology into their environment to achieve the desired outcomes. This team can bring together resources to talk across an entire solution whether that be end user, datacenter, or security. These teams are vendor neutral and use their breadth of experience to help tailor conversations that will be optimal for a customers' specific environment. We engage our customers during the strategy and solution design phases of a project and assist with activities like strategic planning, assessments, white boarding, proof of concepts and obtaining demo units. Initiating conversations at this point in the conversation leads to a more optimized project and cost savings.

To help with the selection of product, equipment, and services (whether it be a Laptop, Desktop, All-in-One, Tablet, or other device) the SHI Team provides National IPA members with a customized procurement website, allowing authorized end-users to select from standard configurations and peripherals, as well as to provide necessary information to ensure a successful installation. The procurement website provides all service catalogs, approved hardware configurations, and inventory databases, allowing National IPA members to procure the best products for their needs.

National IPA members will benefit from SHI's laser focus on being the best at delivering the products and services it needs, while continuing to keep our costs aggressive with our low overhead. A dedicated approach to the Public Sector business for the last twenty years has helped us to create solutions that are specific to the unique needs of State, Local, and Education customers across the country. Because we provide a neutral vendor approach – not valuing one vendor more than any other – and because we use our experience and breadth of knowledge to assist in finding the right technology to meet the specific requirements of your environment, we are confident we are the best choice as your IT Solutions Partner.

SHI included an overview of some of our top partners in our response to section 3.2 Distribution, Logistics we have also included an additional list in the Attachment section of this response. SHI is happy to provide additional information regarding partners or answer questions about procuring a specific product if needed.

In addition to these myriad products and services, SHI can assist with technical evaluation of products as well. Evaluation may include full proof of concepts or simply obtaining evaluation units. In this way, we will enable National IPA members to make the best choices and scope each project appropriately. Beyond just offering competitive pricing for products covered under this contract, SHI will strive to help National IPA members to avoid costs associated with selecting the wrong technology, or with project delays due to incorrect scope. In addition, we will review buying programs and conduct price modeling to ensure that the technology you choose is being procured in the best way possible and at the most aggressive price.

4. *Provide a detailed description of any programs available for Participating Agencies seeking to set and meet goals for historically underutilized businesses (e.g. minority, woman, veteran, disabled, etc.). Discuss how transactions between offeror and tier one suppliers and Participating Agencies and tier one suppliers will be tracked and accounted for and any quality assurance measures that are in place to assure a high-performance standard for tier one suppliers.*

SHI Response:

SHI's Diversity Business Development initiative seeks to enhance business opportunities with companies whose corporate objectives include supplier diversity. As both a minority owned (MBE) and woman-owned (WBE) enterprise, SHI is the country's largest MWBE provider of information technology products and services. SHI also maintains its own internal supplier diversity program and seeks to engage MBE and WBE suppliers to meet SHI product requirements and operational needs.

SHI International Corp is a 100% minority owned company and a Corporate Plus member of the National Minority Supplier Development Council (NMSDC). SHI is certified by the New York & New Jersey Minority Supplier Development Council of the NMSDC and recognized by the 24 other regional affiliates of the NMSDC including the Canadian Aboriginal and Minority Supplier Council (CAMSC). SHI is also a woman owned business and certified with the Women's Business Enterprise National Council (WBENC) and certified as a MWBE with California Public Utilities Commission (CPUC).

SHI International Corp holds current State Government Certifications in the following states, cities, or counties: Delaware, Indiana, Massachusetts, Missouri, New Jersey, Wisconsin, Virginia, North Carolina, Prince George's County, Maryland, New York City, NY.

In 2004, SHI launched an executive initiative to increase SHI International Corp presence in the minority business community and established a diversity business development program. An executive-level position was created to better meet the expectations of our customers for SHI's participation in their M/WBE development and 2nd Tier programs. SHI is the only M/WBE that maintains a fully-staffed team dedicated to supplier diversity matters for our clients and vendor partners. Our team manages and distributes just over 175+ diversity spend reports to our clients today (see below). SHI continues to increase the number of diverse suppliers in SHI's Managed Partner Network which our internal operational requirements alongside accommodating our clients to meet their specific governmental,

educational and corporate diversity goals. In addition, we sponsor and support annually, on average, over 50 supplier diversity related events which include corporate client-sponsored events that value diversity spend opportunities across the country. SHI is a Corporate Plus member and a sustaining annual contributor to the Business Consortium Fund of the NMSDC.

Diversity Spend Client Reporting

SHI tracks and reports 1st and 2nd tier spend with minority, women, veteran and disabled/small disadvantaged/HUB zone owned businesses and makes these reports available to all customers that track such spend. As a 6.8 billion dollar company, SHI reports these results to over 150+ of our customers on a quarterly basis.

2016 Percentage of Diverse Spend

Total Spend	SHI Addressable Spend	SHI Total Diverse Spend	% of Diversity spend
\$6,449,294,928	\$193,478,848	\$104,302,045	53.9%

MBE Partner Network & Initiative

SHI has an active program to recruit minority, women, veteran and disabled/small disadvantaged/HUB zone owned businesses as “Go To” partners for both SHI internal services and Client Services requests. The success of this program is coupled with an executed Partner Teaming Agreement with several minority, women, veteran and disabled/small disadvantaged/HUB zone owned businesses, and we actively mentor several seeking to promote them not only internally, but also to other SHI customers. To date, these businesses have gained entrance to several of SHI customers as a direct result of SHI’s referral. Our diversity team engages our Director of Partner Network to attend supplier diversity events with the sole purpose to recruit additional “Go To” minority-owned businesses.

Tier II Program

The growth, development, and mentorship of minority, women, veteran and disabled/small disadvantaged/HUB zone owned businesses is a commitment SHI regards as crucial to our major clients’ continued success. Capturing and retaining the loyalty of our clients who value diversity spend is an integral part of our professional services strategy and one which has mutual benefit. As a Large M/WBE, we continue to grow an effective Tier II program by accessing our Services Partner database using qualified certified minority, women, veteran and disabled/small disadvantaged/HUB Zone owned businesses where it complements our major clients overall supplier diversity program today.

SHI plays a key role as a Primary vendor or Tier I supplier to a vast number of our major business segment clients. Not only do we provide Tier I quarterly reports to 150+ clients, by customer request, we also provide Tier 2 reporting where the totals reflect a direct link to our customer procuring professional services through subcontract arrangement that is directly tied to the performed service for the client.

SHI understands there is value along with a continued commitment on your organization’s part to help increase your Tier 2 spend with minority, women, veteran and disabled/small disadvantaged/HUB zone owned businesses. In support of this commitment, SHI International is in partnership with these diversity businesses as our sub-service providers to furnish your company when they meet your quality, service, and price standards.

SHI International Corp continues to remain committed to growing its program and providing mentoring and support to fellow minority, women, veteran and disabled/small disadvantaged/HUB zone owned businesses.

5. Describe how your firm proposes to distribute the products/services nationwide.

SHI Response:

SHI is proud of our tremendous network of distributors and partners. We maintain relationships with our large IT Distributors (Ingram Micro, Tech Data, and Synnex), as well as smaller, local distributors, and the manufacturers directly. With each transaction, we source from the supplier with inventory in the closest proximity to the customer, and drop ship directly to their door. Most products are delivered within 3-5 business days via UPS Ground.

Our extensive network allows reduced time to market for National IPA members and prospective members. In addition, we have our own integration center located in New Jersey that can provide warehousing and complete configuration capabilities when such a solution best meets your needs. Of course, we always take the opportunity to find cost savings for our customers – and National IPA is no different. In addition to leveraging our partner relationships for savings at the vision and design phases of an IT project, when quoting and sourcing product, our sales teams also request information from all of our distributors’ stock to obtain the best price for the National IPA member. In addition, we have sourcing specialists on our procurement team who monitor purchase orders with the partner and distributor community to ensure that no savings opportunities have been missed. In many instances, our sourcing specialists have the ability to aggregate purchases for a specific partner or product across multiple transactions or even multiple customers to realize a lower overall cost.

While SHI does maintain a warehouse/integration center in Somerset, New Jersey, it is our relationships with our major distributors that allow us to provide for efficient product delivery across the United States. This model reduces the overhead costs of maintaining our own additional warehouses. Our distribution model is important to SHI’s own internal cost structure and allows us to offer our customers a very aggressive pricing model. Our major distribution centers are located in:

- Atlanta, GA
- Chicago, IL
- Dallas, TX
- Fontana, CA
- Fort Worth, TX
- Jonestown, PA
- Swedesboro, NJ
- Los Angeles, CA
- Memphis, TN
- Miami, FL
- Ontario, CA
- South Bend, IN
- Suwanee, GA

6. Identify all subcontractors that will be involved in processing agency orders under this contract and describe their distribution/delivery processes.

SHI Response:

SHI is not using any subcontractors as part of this contract; however if SHI needs assistance with distribution/delivery processes, SHI has an Elite Partner Network that we call upon for service delivery on occasion. We consider this partner network our “burst” partners for those times when we do not have the SHI FTE to deliver on a project.

SHI has each potential partner fill out an extensive qualification checklist. This list is used to vet the types of services offered, certifications held, overall experience, and where they are able to do business. One of our top priorities is confirming that our partners' resources are certified for the work we are subcontracting them to perform. Please note that our practice managers/SAs/Program Managers will be asking for proof of certification as needed.

We will inform National IPA in advance of any subcontractor that we intend to use.

7. *Provide the number, size and location of your firm's distribution facilities, warehouses, and retail network as applicable. Provide information on the productivity of your facilities and systems as follows:*

- a. *How many orders are processed daily on an average*
- b. *How many devices does your facility configure daily on an average*
- c. *What is the highest number of orders processed in a single day*
- d. *What is the highest number of devices configured in a single day from the facilities described*

SHI Response:

As described above, SHI utilizes a network of distributors and partners. SHI's internal procurement team processes an average of 6000 orders per day.

SHI Integration Center, Piscataway, NJ

- 400 orders for configuration, per day.
- 1800 units per day
- 3000+ is the highest number of orders processed in a single day
- Depending on the configuration and device types considered, we have processed orders for over 3000 in a day, and configured over 40,000 units in a month.

On average, our top three distributors process 21,000 orders per day with a max of 36,000 in a day at peak time

8. *State any return and restocking policy, and any fees, if applicable associated with returns.*

SHI Response:

SHI's return policy is customer-centered – we will accept any request to return any unopened box up to 30 days after receipt, unless the manufacturer specifically has a no returns policy and we have noted this on the quote. In order to request a return, a customer first contacts the City of Mesa's dedicated sales team, via email, phone, or through the "Request Return Authorization Number" section on the City of Mesa/SHI.com website. Your Inside Account Manager then generates a return authorization (RMA) number and provides that to you with a shipping label or account number. Finally, the City of Mesa customer writes the RMA number on their return box, ships it to SHI, and we process the return. In some cases, to expedite a return, SHI will arrange to have the return-product picked up directly.

Once SHI receives the return, we will credit City of Mesa's invoice. If you request a replacement order, we work with you to expedite a replacement even before we receive the return.

Occasionally, Software Publishers may require a customer to fill out a letter of destruction. In these cases, SHI provides the form to the City of Mesa customer, who signs and returns the form. To help

simplify and expedite the process, SHI takes care of the rest – processing the Letter of destruction with the Software Publisher.

Rarely, a customer might receive an incorrect or damaged product; if this occurs, SHI accepts return of that product within 30 days, with no restocking fees, regardless of the package being opened.

At any point, if customers encounter issues with their products, the SHI Account Team is accessible and eager to help!

9. Describe your invoicing process. Is electronic invoicing available? Is summary invoicing available? Are there other options on how an agency receives an invoice?

SHI Response:

SHI is able to accommodate sending either hard copy invoices, electronic invoices, or both. Upon award, we will work with the National IPA members to understand preferences and set up the account accordingly. We can accommodate changes to preferences at any time. An invoice will be sent only after the products have been delivered and accepted by the member. Should we get an award, we would like to sit down with the National IPA and each member to review any additional requirements and provide our recommendations based on best practices with other customers.

10. Describe your delivery commitment:

- a. What is your fill rate guarantee?*
- b. What are your delivery days?*
- c. Do you offer next day delivery?*
- d. How do you facilitate emergency orders?*
- e. Are shipping charges exempt for ALL who use this contract?*
- f. Describe how problems (such as a customer ordering a wrong product or a customer receiving a defective product; etc.) are resolved.*

SHI Response:

SHI relies on our extensive distribution network for the large majority of our shipments. On average, across our largest distributors, our fill rate is between 93%-100%. In most cases, where we are not filling orders on time, it is due to constrained items. In these cases, we notify the customer immediately and either source from a different distributor at the same cost to customer, continue to wait, or cancel the order based on what the customer wishes to do.

Most products are delivered within 2-5 days of being ordered. At the time of quoting and again at order placement, the SHI sales team will inform the end-user of the exact delivery timeframe expected. Should this change, we will notify the customer immediately upon learning of any changes. We will communicate with the customer however they prefer but typically, communications of this type are done via email. Updates will be provided at least every 24 hours, or on an agreed upon time frame, until the product is delivered.

When there is a delay, SHI will provide any alternatives available. Alternatives may include a different distribution source, comparable products, cancelling the order, or potentially discounting to account for the delay.

Shipments are made Monday through Friday. Next day and Saturday delivery are available for in-stock items but are subject to a shipping fee and will require that the order be received before the cut off time

(dependent on time zone). SHI will handle shipping in the same way for any and all National IPA member, regardless of size and location. Standard shipping will be covered but special delivery requirements or expedited shipping may be subject to an additional charge.

If there is ever an issue with delivery, such as the wrong or defective products, the customer simply needs to request a return by reaching out to the Inside Account Manager or by navigating to the “Request Return Authorization Number” section of the custom IPA website.

Describe the types of customer service available to agencies that use this contract:

- a. Is online support available?*
- b. Is phone support available?*
- c. Can agencies request a dedicated service representative and/or a dedicated service team? If a dedicated customer service representative and/or team are assigned, what types of services does the representative/team provide? How do you help the customer manage our account?*
- d. How are problems resolved?*
- e. What are the location and hours of your call centers?*
- f. What response time is guaranteed when a customer service request is made?*
- g. Do you measure/track the success of your customer service program? If so, how do you do this, and what are your findings?*
- h. Describe in detail your company’s ability to hold/warehouse customers’ orders and if there are any cost associated.*

SHI Response:

SHI provides a comprehensive customer support plan to ensure we are meeting each customer’s needs. Customers are supported by a dedicated Account Executive and a dedicated Inside Sales Team. Field territories are structured vertically and geographically. We have over 120 Account Executives (AEs) who live and work in their territories. Their emphasis is on ace-to-face connections with their customers as frequently as possible. We are in the process of expanding our field Account Executive team to ensure that each AE is focused on 25 accounts or less and in one specific vertical. This will enable us to continue to cater to the individualized needs of our customers.

The field based Account Executives are responsible for meeting with their customers in person as often as possible and for the overall relationship between the customer and SHI. In addition, they can bring in resources as needed, be it SHI’s own Field Solution Engineers or other subject matter experts or OEM specific resources.

SHI’s Account Executives are empowered to make decisions around the support of their customers, and they have the autonomy to resolve issues as they arise. Because our Account Executives are responsible for ensuring customer satisfaction, SHI is able to provide high quality customer service and ensure efficient and effective response to questions and issues. In addition, the SHI Regional Directors are engaged with the account teams to provide executive-level support and to meet with customers as needed.

Each Account Executive is supported by a team of Inside Account Mangers (IAMs). This group totals over 150 professionals and is located in our global headquarters in Somerset, NJ. This team is also aligned to

match specific regions so that everyone who is working with you will have sensitive knowledge of National IPA member's regional environment and the nuances associated there.

SHI's Inside Account Managers maintain direct relationships with the customers and have the responsibility of ensuring customer satisfaction. Functional areas such as pricing, availability, order entry, tracking, returns, product information, and expediting of orders are an integral part of their daily activities. They execute the plan established by the Account Executive for a customer. The IAMs all have experience working exclusively with Public Sector accounts and they are regionally assigned support for the customers.

The sales teams can be reached on line via the National IPA custom website or via email/phone.

Upon award, each National IPA member will be provided with information about the account team that is dedicated to support them. Following a support plan for City of Mesa. A similar plan will be put together to IPA members.

If customers are unable to locate their Path of Escalation, they can click on the link at the bottom of all IAM email correspondences, which reads “***How was my service? Contact – Senior_Management@shi.com***”. This will also escalate all issues directly to Senior Management for immediate action.

Once an issue has been escalated, management will set up a call to help get all affected parties on the same page, and follow up with regular updates until resolution.

We are including a sample escalation path for City of Mesa. Each IPA member would receive an escalation path that includes their specific team information.

SHI believes in regular and transparent communication with our customers. Our Account Executives meet with the City of Mesa and individual contract users to review their business with SHI. During these review meetings, we discuss purchase history, as well as the customer's future plans. With open discussions, SHI can provide tremendous value in supporting future initiatives and will engage the support teams as needed to meet the customer's goals and objectives.

As part of our customer care, we encourage and actively solicit customer feedback. Our Director of Quality, Bernadette Hunsicker, collects customer comments and concerns to ensure they are addressed and resolved as quickly as possible. SHI sends an annual customer satisfaction survey to request feedback on our performance and the services we provide. By soliciting feedback, we remain in touch with our customers' needs.

We have a World Class Support Incentive Program for IAMs who receive positive feedback from customers and partners. IAMs who receive three compliments will receive \$150 to their net pay with unlimited payout potential. Compliments can be sent through the Senior_Management@shi.com email or in any form directed at complimenting the IAMs service and support.

SHI can hold inventory of products in our warehouse, at no additional charge to the customer, for thirty days. After the initial thirty days, SHI may charge a small inventory fee. We may also require the customer to sign a purchase guarantee. All of these factors would be discussed up front with the customer before a purchase is made.

11. Describe how your company will assist customers in navigating OEM warranty process.

SHI Response:

SHI will pass on any included Manufacturer warranties at the time of purchase. In addition, we will educate the end-user on any and all available extended warranty, maintenance, and service programs at the time of quote. Should the customer have the need to use the warranty SHI can facilitate the interaction between the customer and the OEM. We will gladly provide any contact information, process information, or assist in escalating with the OEM when necessary.

SHI can offer 3rd party, non-manufacturer warranties that will allow our customers to extend the life of mission critical devices with world-class service and support.

12. Describe how your firm will notify customers of new products.

SHI Response:

In addition to aggressive pricing, will provide National IPA members with product and technology expertise to help ensure that you stay up to date on the latest technology changes, product roadmaps, product transitions, and current manufacturer programs. As a successfully functioning partnership is based on communication, SHI proposes scheduling regular review meetings with each customer. The purpose of these meetings will be to discuss all aspects of the partnership including but not limited to the following:

- Product Roadmaps
- Forecasting of Product Requirements
- Future Product and Services
- Industry trends and updates

SHI Account Executives are supported by our Hardware and Advanced Solutions and Software Licensing teams which consists of vendor-dedicated subject matter experts. This team not only ensures that we are delivering the most up to date product and technology information in a timely manner but also that we are providing access to the best pricing, programs, and levels available to National IPA members.

For example, a current trend in education is creating learning spaces that support creativity, collaboration, innovation, and critical thinking. Based on this trend, we provide ongoing facilitation to our sales teams around the latest technology specific to education. Our Account Executives then bring this information to their clients and help engage them in a conversation about how they can make use of this technology in their environment. We bring internal or partner-based resources to their doorstep to talk over product roadmaps and transitions and how these may impact future plans.

We publish content frequently. Our widely read blog (blog.shi.com) features articles about Public Sector focused technology, software publisher licensing programs, and more. Links to some recent blogs are included below:

[SHI Partners with SciQuest Edge to Offer an Enhanced Procurement Program](#)

SHI International Corp. is now a participating supplier in the new SciQuest Edge purchasing solution, a program offering instant, pre-negotiated savings.

[Preview of new My Home page](#)

The MyHome page in the site will be updated soon.

In addition, SHI currently provides seminars and workshops to our public sector customers across the country. We will be pleased to do the same for National IPA and their members. In all cases, we will work with you to determine the right topics, venue, timing, and participants. Some examples include:

Manufacturer Table Show – held annually, SHI will bring in manufacturers that currently do business with the State as well as emerging partners for a day of education and demonstration.

Technology Roundtables – this event brings together Public Sector IT Professionals and leading manufacturers to discuss current and future technology and how it can be used to solve problems or innovate solutions for the future.

Webinars – SHI frequently holds webinars for our customers. Topics range from Software Volume licensing (Microsoft EA, VMWare ELA), specific product features, and more broad solution areas.

Workshops – typically done in a half day, a workshop is meant to educate customers on all the aspects of a particular solution. One recent example is SHI's Video Surveillance Workshop, held in 13 cities across the country, in which we discussed challenges, technology, policy, and future considerations.

Summits - SHI holds technology summits at our corporate headquarters in Somerset, NJ. Current summits include mobility and software asset management (held bi-annually). National is welcome to attend these at no additional charge.

Custom Events - SHI will help IPA and City of Mesa coordinate any event that they believe will be beneficial to the participating entities.

13. Describe how your company will assist and support customers when their standardized is reaching EOL (end of life).

SHI Response:

We understand that a standard reaching end of life requires careful planning to avoid disruption. Our customers receive end of life information early via regular and transparent communication. Once a standard is identified as reaching end of life, we will meet with the customer to discuss options. These may include extending warranty through a third party and continuing to use the product, conducting a buy out and using those funds towards procuring new product, or transitioning/migrating to a new solution. We will engage the customer in a strategic planning session to offer all options and help determine the best course of action.

At times, having a product reach end of life presents a unique opportunity to save money. Your Account Team will monitor the lifecycles of your standard hardware. When a product is coming to End of Life, SHI can often purchase the products at substantially lower pricing. Your Account Team will bring these opportunities to the attention of the National IPA customer in order to determine the timing of the specials versus the timing in which the customer is looking to purchase the products. SHI can hold inventory for these products in our warehouse, at no additional charge to the customer, for thirty days. After the initial thirty days, SHI may charge a small inventory fee. We may also require the customer to sign a purchase guarantee. All of these factors would be discussed up front with the customer to help them make the determination whether an end of life buy-in is an appropriate cost saving measure.

14. *Describe if technical support questions are handled the same way as a customer service request? If not, describe the type(s) of technical support available, the location of technical support, and the hours of technical support. Is it the intent to use employees of your company or will this be an outsourced function?*

SHI Response:

Technical support is not handled in the same manner as customer service. Typically, technical support is handled directly by the OEM/Publisher. In these cases, SHI can assist in getting the customer connected to the right person at the OEM/Publisher.

SHI does offer technical support/helpdesk services for an additional fee.

Customers don't always have, on staff, the expertise needed for the spike in the number of calls to their Help Desk when deploying new technologies or upgrading versions of existing technologies. For many, having the option to funnel that increase in calls to a turn-key solution provided by a third party is much more attractive than increasing internal head-count.

In addition, outsourcing this service can increase overall productivity. Having a resource that can not only answer problems but can also provide end users with user-based tips and tricks can decrease employee downtime.

SHI Technical Support provides your customers Tier 1 Help Desk support for inquiries related to technology deployment, everyday usage and upgrades covering multiple manufacturers. In addition to everyday applications such as Office or Acrobat, this support can be expanded to cover a customer's custom applications. If needed, SHI Technical Support has the ability to provide higher technical and engineer level support for those same technologies.

SHI offers:

- Phone support with a live technician or engineer
- Options for 8x5 or 24x7 support coverage
- Knowledge support for all software publishers as defined in the supported products list
- Optional components that include training modules, knowledge-based websites, engineering time and health checks.

Describe what other services you offer that would be applicable to this contract (e.g., cloud, services, maintenance, implementation, design, analysis, training, repair, etc.)

SHI Response:

Customer Innovation Center

The SHI Customer Innovation Center is an 8,000 square-foot secure data center that lets your team evaluate and compare how hardware, software and cloud technologies from various OEMs and providers will perform in your environment.

Compare state-of-the-art equipment from SHI's partners - or ship us your own - to design architecture and test proof-of-concepts while collaborating with your own staff or IT industry experts.

SHI has worked with some of our top partners to help make our vision of an independent, multi-vendor environment with technologies from leading manufacturers a reality. Manufacturers' products that are

part of the SHI CIC today include: HP, Dell, EMC, Cisco, NetApp, Veritas, APC, Tripp Lite, Eaton, Pure, Tintri, Nutanix, Lenovo, VMware, Microsoft, Brocade, qLogic, Emulex.

Customers can participate in:

- Demonstrations – evaluate product features and functions in a real working environment
- Bake-offs – compare products under workloads
- Proofs-of-concept – Test next generation equipment without disrupting your datacenter
- Hands-on training – get a deep dive walkthrough from our solution architects.

The CIC is staffed with trained team members who are knowledgeable on the products and the solutions. As technology advances and changes, the SHI CIC will follow ensuring that we have the products and demonstrations that our customers want to see.

When IPA/City of Mesa is ready to evaluate solutions and products, whether it is Virtualization, Cloud Integration, or the latest EUC products, your dedicated account team will work with you to schedule time and develop a plan with the CIC so you can see the best options in the industry, and choose the right solutions based on observation, not speculation.

In addition, we coordinate Executive Briefing opportunities for customers as desired. In these cases, we partner with the manufacturers of interest and hold the briefing at their location. For instance, we have hosted customers at the Lenovo’s Briefing Center in Raleigh, North Carolina, Microsoft’s Briefing Center in Seattle, Washington, and Dell’s Briefing Center in Austin, Texas.

Cloud Solutions

Organizations are moving the cloud faster than ever. Identifying workloads, improving cloud service levels and optimizing cloud performance are all challenges, and SHI has created a variety of services to assist with this transition.

Software Maintenance Administration/Renewal Management Services

SHI has built a tool in response to our customers’ needs around expiring warranties, support agreements, and product maintenance programs. The Renewal Organizer, available as a value add to SHI customers only, and at no additional cost, compiles your technology renewals in a centralized, rolling **36-month** timeline for simplified budgeting and renewal management. The tool is delivered via an interactive on-line portal, with 24/7/365 availability. Each renewal box will contain information relevant to that renewal such as:

- Contract start date
- Contract end date
- Contract Number
- Customer PO.

Through this tool we are able to offer National IPA/City of Mesa proactive management of maintenance, warranty, and support plans will save both time and money. All products purchased through SHI with an expiration date of any kind will automatically be loaded into the Commonwealth’s renewal organizer. Quotes will automatically be sent to the Commonwealth 90 days before the expiration of the service. IPA’s and City of Mesa’s account team will then actively work with the end user to go over options. Regular follow up will continue until the PO is placed or the end user indicates that they are no longer interested in renewing the maintenance or support agreement.

Following is an example of what a customer can expect to see using the PRO Timeline:

In order to be able to provide this level of detail for our customers, SHI collects the maintenance expiration date in our order entry system each time a customer purchases product maintenance. Through our Renewal Organizer, SHI provides visibility and clarity around renewals to each agency, thus complementing the workflow of their own software and hardware renewal lifecycle efforts. These efficiencies support our customers' existing operating processes, and in some instances SHI's Renewal Organizer service even replaces or fills a void in our customers' existing workflows, freeing up our customers' time for other activities. If City of Mesa takes advantage of our PRO timeline it will receive the following benefits:

- Improved management of technology and renewals, as SHI provides proactive notification of maintenance renewal periods for all relevant technologies in your environment
- Improved budgeting and ordering efficiencies
- More support (road maps, licenses options, potential for volume purchasing)
- Reduce overall maintenance spend by avoiding unnecessary costs associated with selecting a less-than-ideal buying program or pattern (e.g., contractual vs. transactional buying programs, individual purchases vs. leveraging cumulative spend, etc.)
- Reduce overhead (makes it much easier to manage multiple suppliers)
- Simple setup, SHI guides customers through the onboarding and acquisition stage
- No cost and no risk to initiate the service
- Assistance with negotiating with the manufacturers to co-term maintenance or warranty contracts, when permitted by the manufacturers' programs

15. Describe options for leasing and financing and the various payment methods accepted.

SHI Response:

SHI offers flexible leasing plans for hardware and finance plans for software to ease upfront costs and increase IT flexibility. More and more customers are moving away from owning IT and moving into the business of IT. SHI financing can help them seamlessly make this shift. SHI has an internal leasing and financing group which allows us to be extremely flexible in terms of payment options and paperwork.

We can accommodate almost any payment method/schedule and will work with the customer to construct a plan that best suits their needs.

TAB 3 - PRICING FORMS.

The cost portion of the Response should include the following criteria:

- 1. Provide price proposal as requested on the Pricing Document (Attachment A – “National” TAB) attached herein. In addition to indicating your proposed discounts on the Price Page, you must also apply those discounts to the sample items listed in the City’s Market Basket listed in Attachment A.*
- 2. Propose and provide details of additional discounts or rebates for volume orders, special manufacturers’ offers, free goods program, total annual spend, etc.*

SHI Response:

SHI has included the necessary pricing forms as a separate document to our response.

All discounts articulated here represent the minimum discounts off SHI Advertised List Price; actual discounts may be significantly higher.

The comprehensive SHI offering for National IPA consists of all hardware, software, and services available to our customers in the public sector marketplace. The discount structure offered to National IPA is based on our Advertised Price List which can be located on www.shi.com. In many cases, SHI Advertised List Price already reflects a substantial discount off of Manufacturer Published List prices. Given the breadth of manufacturers and products that SHI offers, there will be many opportunities for SHI to secure additional discounts for eligible contract users. We work to provide your contract users with the most advantageous pricing available, above and beyond the minimum discounts offered, whenever possible.

SHI prides ourselves on being honest and transparent with our customers especially when it comes to pricing. We base our discount structure on SHI Advertised Price as this is a verifiable source. We do not inflate this Advertised Price for RFPs in order to make our discounts appear larger. *Other vendors may* use MSRP or Publisher List price, which can be unreliable as a pricelist may not exist for every product, a pricelist can change from day to day, and a pricelist can be inconsistent depending on where you source the information from. When *a vendor* manipulates contract language in this manner or uses a loose definition of cost, it results in an increase in profit for them and higher prices for customers.

If awarded, SHI is willing to provide complete transparency over the life of the contract as it relates to our costs and what we charge National IPA customers.

In addition, SHI welcomes the opportunity to discuss our price offering for National IPA in more detail, and we are willing to offer alternate pricing models at your request.

TAB 4 - QUALIFICATIONS. (ABILITIES, EXPERIENCE AND EXPERTISE).

The following information should be included:

- 1. Provide a brief history and description of your firm. Discuss firm's national presence in the IT solutions industry.*

SHI Response:

SHI has provided an answer to this question in the Attachment D portion of this response.

- 2. Provide the total number and location of sales persons employed by your firm.*

SHI Response:

SHI has provided an answer to this question in the Attachment D portion of this response as it relates to our capabilities to support a National Contract. The City of Mesa has a dedicated account team that includes the following team members:

Account Executive - Amelia Jakubczyk: Amelia develops relationships with representatives throughout City of Mesa in support of all the City's IT needs. Amelia will conduct face-to-face meetings to understand the City's needs; will establish a customized service and support plan; and will construct a pricing strategy critical to the City's development. Amelia will respond to inquiries for resolution within 4 business hours; she has worked in this area for over 5 years.

Regional Director, Public Sector West – Alison Turner: Alison coordinates the efforts of the Account Team in direct support of the City of Mesa and is the point of contact for any issues that arise and need escalation. With over 20 years in the industry, and with experience working in Education and Government during that time, Alison has the expertise and customer focus necessary to implement an exceptional Information and Technology Solutions and Services contract for the city. Alison will respond to inquiries within 8 business hours.

Inside Account Managers (IAMs) — Rob DiGiovanni, EJ Williams, and Jason Miller: SHI's Inside Account Managers maintain direct relationships with the customers and have the responsibility of ensuring customer satisfaction. Functional areas such as pricing, availability, order entry, tracking, returns, product information, and expediting of orders are an integral part of their daily activities. They execute the plan established by the Account Executive for a customer. There are three Inside Account Managers mentioned above who support City of Mesa; they all have experience working exclusively with Public Sector accounts, and specific experience with Maricopa County.

These three Inside Account Managers report to **Corrin Bennett, Inside Sales Manager**. SHI Response:

Founded in 1989, SHI International Corp. is a global provider of technology products and services. Over the past 28 years, SHI has evolved from a \$1 million “software-only” regional reseller into a global, full lifecycle provider of technology, services, and solutions. SHI is ranked 9th among CRN's Solution Provider 500 list of North American IT solution providers. With over 3,500 employees worldwide, SHI is the largest Minority and Woman Owned Business Enterprise (MWBE) in the United States.

SHI International Corp. is headquartered in Somerset, New Jersey and has 30+ offices worldwide. As a privately held company, we have remained under the same ownership since 1989, and most Vice Presidents and Managers have been dedicated to SHI for more than 15 years.

SHI has been focusing on the specific needs of our Public Sector customers for over 20 years. Our first state-wide contract was awarded in 1994; since then we have continued to build and focus on the specific needs of public sector customers.

Today our Public Sector business unit consists of over 300 team members who are dedicated specifically to public entities across the country, allowing SHI to build connections and partnerships with each entity and to dive deeply into the infrastructure, procurement, and regulation obstacles that they face. For 2016 SHI reported earnings of \$7.5B, which demonstrates 15% growth over 2015. We are projecting earnings of \$8.2B for 2017 continuing to show substantial YoY growth. SHI has a financially strong and stable business model that has proven itself over time. Providing a compelling value to our entire customer base, SHI is able to offer the most advantageous pricing models of our top 4 competitors, while simultaneously maintaining our profitability with the lowest overhead cost structure in the industry.

SHI has had the pleasure of serving the City's software and product needs since 2011. Our relationship with the City began with the award of the previous WSCA SVAR Contract and has continued since using other cooperative contracts. SHI's value to the City comes from our extensive expertise in understanding complex licensing, determining the best products for the City's needs, customer service and overall ease of use. To date the City has spent \$6.6m with SHI, mostly in software and some miscellaneous products.

We value the relationship with the City of Mesa and look forward to serving the City's needs for years to come.

SHI Response:

SHI’s ecommerce site was developed in house. As such, it is one of the most flexible tools in the industry. In addition, we offer approval routing that allows for one user to create and send a quote to another user for approval. Also, quotes that are requested via email, fax, or phone can be published by the Inside Account Managers to the ecommerce site for visibility and future reference.

While the master catalog will be available to all participating entities, each individual customer under this contract will also have the opportunity to request their own customized product catalog based upon any customer-specific needs. Custom catalogs are built based on input from the customer’s IT standards groups, via the definition of base systems and permitted options, and licensing programs.

SHI.COM Public Sector catalog (<https://www.publicsector.shidirect.com/>) is a public walk-up site and requires no password. It has been available to the public for over 16 years. SHI hosts a public page for each individual state and vertical. In addition to the public site link, SHI will provide City of Mesa a custom e-commerce site. This personalized, password-protected site is accessible only to authorized users, determined by City of Mesa. The City’s web portal will display only the products and other website requirements that are part of this contract.

SHI’s web-based procurement platform provides the latest in functionality and the best in user-friendly interface. SHI.COM also offers functionality designed specifically for business-to-business. Whether used as a stand-alone procurement system or integrated with your own current procurement systems,

SHI.COM provides the functionality and customized user experience needed to manage IT procurement workflow.

If awarded, SHI’s web administration team will work with the key stakeholders at City of Mesa to integrate with any e-Procurement catalogs whether state-hosted or punchout (roundtrip). This process typically takes about 1 week.

Above is a sample screenshot that shows what the City’s custom e-commerce site might look like. Upon receipt of contract, your site will be configured to fit all of the contract requirements. If the City wishes to view this site please go to <https://www.publicsector.shidirect.com/>, select “Sign in” on the top right hand side of the public site. A drop down box will appear. Click “Register” to be directed to the new user registration page seen below.

A screenshot of the "New User Registration" page. On the left is a sidebar with "Options" and links for "Sign In", "Forgot User Name", and "Forgot Password". The main content area has the heading "New User Registration" and the question "Do you have a Customer Token / Access Key ?" with "Yes" and "No" buttons. Below this is the section "Enter your Customer Token / Access Key" with input fields for "Customer Token" and "Customer Access Key", and a "Next" button.

You will select “Yes” when asked if you have a token and access key. Your token is **90949** and your access key is **MU5XB2J3PL**. Once you enter these you will be asked to create a user name and password. Once complete you will be directed to the site. Today the site is in development and as such only shows sample products and pricing. Upon award, we will work with you to create a custom catalog, add appropriate contract numbers, and the additional content desired by the City.

The SHI Ecommerce Specialists are available to provide training to those employees authorized to access contract pricing and information at SHI.COM. SHI can schedule trainings based on the customer’s level

of access to the site. Upon award of contract, your Account Executive will work with the customers to determine the program and schedule that would work best for them.

Your Catalog

With thousands of manufacturers represented, your product catalog is fully customized to reflect contracted products and pricing available through SHI, as well as special pricing programs for which you are eligible, such as licensing programs or other volume programs. The catalog can be as broad or as narrow as you need to fit your needs.

The screenshot shows the SHI catalog landing page for a user named "Your Company". The page features a navigation bar with categories like Hardware, Software, Brands, Solutions, Tools, and My Account. On the right, a 'Shopping Cart Actions' panel includes: Update, Undo, Remove All, Send Cart, and Save as Quote. A 'Check Out' button is located at the bottom right. Three callout boxes provide instructions: one points to the configuration options for the Lenovo item, another points to the 'Save as Quote' button, and a third points to the 'Check Out' button.

Saved Quote

The saved quote remains valid on SHI.COM for thirty days. At any time within those thirty days, the user can change/add to the items saved in the quote or send the contents of the quote (with saved pricing) back to the shopping cart to finalize the purchase.

The screenshot shows the SHI.COM interface. At the top, there is a navigation bar with links for Hardware, Software, Brands, Solutions, Tools, and My Account, along with a 'US PRO DEMO' indicator. The main content area is divided into two sections: 'Quote List' and 'Quote Details'.

Quote List: This section features a search form with two input fields: 'Quote #' (containing '1135818') and 'Email:' (containing 'amanda@example.com'). Below these fields are 'Search' and 'Clear' buttons. A callout box points to the search area with the text: "To retrieve your published quote, enter the quote number and the email address, then click Search". Below the search form is a dropdown menu labeled 'View all quotes for:' with 'Myself' selected.

Quote Details: This section displays the details for the selected quote. It includes fields for Quote # (1135818), Quote Name (test), Created Date (4/8/2016 5:20:00 PM), Expiration Date (4/30/2016), Total (\$17.45), and Comments. To the right, there are fields for Contact, Company, Email, Phone, Fax, and Address, all of which are currently blank.

Below the details is a table listing the items in the quote:

Product Id	Product Details	Quantity	Price	Extended Price
24990112	HP 932 - CN057AN - print cartridge - black Manufacturer : HP, Inc. Mfr Part # : CN057ANR140	1	\$17.45	\$17.45
Total:				\$17.45

At the bottom of the 'Quote Details' section, there are four buttons: 'Add to Cart', 'Print View', 'Delete Quote', and 'Back'. A callout box points to the 'Add to Cart' button with the text: "Click Add to Cart to move the items from the quote into your cart. You can make changes once the items are in your shopping cart".

Configuring a System

The process of selecting and configuring a product begins when the user clicks a configurable system in Search Results or within featured products. The systems are displayed with a picture, summary of its characteristics, and price before adding options. SHI.COM presents all products in the same fashion, with consistent groupings of options by category.

Customize the System

Prior to adding the product to the Shopping cart, the user is brought given the option to configure the base system with options designated as acceptable by the City of Mesa. The user simply clicks on the options he wants included in the final product.

As options are selected, SHI.COM updates the general availability of each configuration based upon the availability of each component. As the user adds and removes components to the base system, SHI.COM calculates an estimated time to ship to the user. SHI.com also tells the end user what selected component is contributing the longest lead-time. This is designed to allow the end user to make informed decisions based upon their particular needs: for some users, getting a useable system quickly may be more important than obtaining a particular option or upgrade that would delay the production of the machine.

The screenshot shows the SHI.COM website interface for configuring an HP ProBook 640 G1 laptop. The main product title is "HP ProBook 640 G1 - 14" - Core i5 4310M". The base system price is \$815.00, and the price as configured is \$1,570.00. The configuration options are listed under "System Options" and include:

- Image for Laptops (+ \$19.00)
- PC Configuration: Asset Tagging & Reporting - Per 1x Unit (+ \$3.00)
- PC Configuration: Custom BIOS Adjustments (+ \$6.00)
- Custom Configuration: HDD Encryption - Per 1x drive / Custom (+ \$12.00)

Additional items can be required or optional based on your standards, such as:

- Electronic HP Care Pack Next Business Day (+ \$593.00)
- HP 2012 90W Docking Station - Docking station - US (+ \$122.00)
- C2G Cat5e Snagless Unshielded (UTP) Network Patch Cable - patch cable - 3.1 m - (+ \$)
- Acer V246HLBD - LED monitor - 24" (+ \$136.00)

Red callout boxes highlight that users can customize the description and specifications, and that the price as configured will update as options are selected. A summary view of the configured system is shown on the right, displaying the base system price (\$815.00) and the price as configured (\$1,570.00).

If additional information needs to be captured with each hardware purchase. Therefore, SHI has designed an "interview page" in which SHI can collect all of the pertinent information. The interview page will be completely customized to collect the information as required by the City of Mesa. If additional information isn't required, this step would be skipped in the order process.

When the user has completed the interview page, SHI will then request the ship to address and any additional Email addresses for employees who should receive notices regarding this order (i.e. order acknowledgment, ship notification, etc.)

Approval Routing

Only authorized users will be able to submit orders on SHI.com. However, if the City of Mesa would like to allow agencies to request products, but not to place orders, SHI has support for approval routing through SHI.com. Using our approval routing, end user can select the products they wish to purchase and submit their selection as a requisition. With support for as many levels of approval routing as required, SHI.com will forward the requisition to the appropriate people to obtain approval.

Once the order is approved, the requestor (and anyone else listed to receive notices) will receive an Email stating that the requisition has been approved and will be processed at SHI. At this time, the order will upload into SHI's internal order processing system.

SHI provides online order status and reporting for all orders placed with SHI, whether the orders are submitted online or directly to the Account Team. Access to the order information is controlled by the permissions assigned to each individual user name. The order data is tied to a specific customer account, and the individual accounts are then grouped together to accommodate reporting groups that match the customer’s organizational hierarchy. For example, individual departments can be grouped with cities and counties to allow reporting across an entire local government entity or an entire State. Additionally, SHI tracks all contract data at the highest level of the hierarchy, allowing us to provide reports across the entire City of Mesa contract.

In short, SHI makes it simple for all contract users to access the reporting information that they need. Whether the reporting requirement is for a single agency looking for the history of their purchases only, or if the City of Mesa that wants to understand statewide purchasing trends, the process to access that report is fast and intuitive.

The following lists the standard fields that are available within a standard, detailed report today via the State’s ecommerce site today:

Customer Name	Manufacturer Name	Manufacturer Part Number
Product Description	Version	Operating System
Media	Language	Product Type
License Program	License Pool	License Level
License Point Value	Maintenance Term	Maintenance Time Remaining
UNSPSC Number	UNSPSC Segment	UNSPSC Family
UNSPSC Class	UNSPSC Commodity	Order Date
SHI Order Number	Invoice Number	Ship Date
SHI Part Number	Quantity	Unit Price
Extended Price	Customer PO	Ship to Company
Ship to Address	Ship to City	Ship to State
Ship to Zip Code		

In addition to the data fields above, SHI will create customized data fields for any customer who wishes to capture additional information, and the customer would then have access to reporting based upon those additional fields. This custom capability is helpful for tracking purchases, expenditures, and chargebacks. SHI works with each individual account to understand reporting requirements and to ensure we continue to meet and exceed those requirements.

The City of Mesa and IPA can identify Procurement Officers or others that can be granted a higher level of access, allowing them to run reports and view activity across authorized users.

The level of access any user has is determined by the permissions assigned. The Account Teams and SHI's Web Administration Team works with the customer to understand their needs for user authorization and access to information. Those users who only need access to their own purchase history are limited. Likewise, those users who need higher level will have the appropriate access rights.

The SHI eCommerce Specialists are available to provide training to those employees authorized to access contract pricing and information at SHI.com. SHI can schedule trainings based on the customer's level of access to the site. Upon award of contract, David Rounds will work with the customers to determine the program and schedule that would work best for them. SHI will also work with the City of Mesa to define and establish an Employee Purchase Program. We will create a separate and secure site for employees to purchase products at the State contract prices.

3. Describe any national awards and/or other recognition that your website has received.

SHI Response:

While we take pride in the design and usability of our website, our primary focus is always on the needs of our customers rather than on external recognition. With that in mind, we are extremely proud that this year alone we have won 10 awards for exceptional service in three distinct categories: partnership, supplier, and employer – including the prestigious Citi Lean Partner Award and Microsoft US Public Sector 2017 Partner of the Year – largely in part because of the efforts and dedication our team puts toward our public and partner/procurement websites. Our success as a partner in the Public Sector, in fact, stems from the personalized procurement websites, standard with most SHI contracts, which allow authorized end-users a vast selection from standard configurations and peripherals, as well information to ensure successful installations. These custom, procurement websites provide customers with all service catalogs, approved hardware configurations, and inventory databases, which in turn allow our customers to procure the best products and product support for their needs.

4. Describe the hours your website is available? What are your hours of downtime, such as for system maintenance?

SHI Response:

The website is available 24 hours a day. Downtime is minimal and if a major system repair is necessary SHI works to schedule it at a time that will be of least inconvenience to our customers. We will also notify customers of any planned downtime in advance.

5. Does your website offer real time product availability?

SHI Response:

Yes. Please see the information provides above regarding our website for a complete overview.

6. How does your company leverage your website to inform customers of the additional savings that may be available?

SHI Response:

SHI can customize our web page to include any information that National IPA/City of Mesa would like to see. In this case, we can publish additional savings opportunities for specific products on the home page of the catalog or highlight products that have savings opportunities within the catalog itself.

SHI can and will add relevant content to the website on a regular basis. This may include product announcements, end of life information, support information, or promotions, webinar or special event

invitations, and other industry news that will be of interest to City of Mesa. SHI will notify City of Mesa of any information before it gets posted.

The contents of SHI’s web site and the catalog are kept up to date using data feeds from our suppliers. We make daily updates to product information, availability, and pricing; ensuring that contract users are always accessing the latest products and at the correct price.

7. Describe the types of email confirmations that your website generates. What events trigger an email going to the customer?

SHI Response:

SHI acknowledges this requirement and can comply.

SHI will acknowledge all orders received within 2 hours of receipt. All orders will be placed within 24 hours of receipt. Upon placement, the end user will receive an order placement acknowledgement via email. A sample of that is included below. We can customize the information on the order acknowledgement email and can include any and all information required by the State.

9. Describe the types of online reporting that are available. Is customized reporting available?

SHI Response:

SHI fully understand s your need for flexibility in reporting, as well as your need for reports from the highest organizational level to the most granular. We have created our databases to remain flexible enough to be able to incorporate any organizational structure and to provide reports on any level within the organization. We begin with the most granular reporting level, this can be by department or local government entity and then SHI groups the ordering units to the statewide level. In addition, we capture the contract number, allowing us to run a report across all purchases made under the contract. SHI has the capability to collect customized data fields, which can be established at the State Level, the Agency Level, and /or per individual customer. We are pleased to offer both standard and customized reports to the State, in addition to the required reporting above.

All reports can be set up on a subscription basis and will be delivered automatically daily, weekly, quarterly etc. In addition, the State will have a dedicated account team that will be able to review and discuss purchases and reporting whenever there is a need.

These standard reports provide an overview of your purchases from SHI. Our system allows for the tracking of Customer Specific Fields, therefore we are able to generate these reports in many ways. SHI will provide these reports in any time frame that you require, and in one of three formats: *detail* of all transactions, *summary* by part number, or *summary* by manufacturer name.

- *Spend by Manufacturer* – summary of total dollars spent in period with one specific manufacturer, all manufacturers, or a sub-set thereof.
- *Spend by Product* – summary of total dollars spent in period for one specific product, all products, or sub-set thereof.
- *Spend by Product Type* – summary of total dollars spent in period for shrink-wrap versus licensing or by UNSPSC.

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT A- RESPONSE FOR NATIONAL COOPERATIVE CONTRACT**

1.0 Scope of National Cooperative Contract

1.1 Requirement

The CITY OF MESA, AZ (hereinafter defined and referred to as “Principal Procurement Agency”), on behalf of itself and the National Intergovernmental Purchasing Alliance Company (“National IPA”), is requesting proposals for INFORMATION TECHNOLOGY SOLUTIONS. The intent of this Request for Proposal is that any contract between Principal Procurement Agency and Supplier resulting from this Request for Proposal (hereinafter defined and referred to as the “Master Agreement”) be made available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit (“Public Agencies”), through National IPA’s cooperative purchasing program. The Principal Procurement Agency has executed a Principal Procurement Agency Certificate with National IPA (an example of which is included as Exhibit D) and has agreed to pursue the Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with National IPA as a Participating Public Agency in National IPA’s cooperative purchasing program. Registration with National IPA as a Participating Public Agency is accomplished by Public Agencies entering into a Master Intergovernmental Cooperative Purchasing Agreement, an example of which is attached as Exhibit C. The terms and pricing established in the resulting Master Agreement between the Supplier and the Principal Procurement Agency will be the same as that available to Participating Public Agencies through National IPA.

All transactions, purchase orders, invoices, payments etc., will occur directly between the Supplier and each Participating Public Agency individually, and neither National IPA, any Principal Procurement Agency nor any Participating Public Agency, including their respective agents, directors, employees or representatives, shall be liable to Supplier for any acts, liabilities, damages, etc., incurred by any other Participating Public Agency.

This Exhibit A defines the expectations for qualifying Suppliers based on National IPA’s requirements to market the resulting Master Agreement nationally to Public Agencies. Each section in this Exhibit A refers to the capabilities, requirements, obligations, and prohibitions of competing Suppliers on a national level in order to serve Participating Public Agencies through National IPA.

These requirements are incorporated into and are considered an integral part of this RFP. National IPA reserves the right to determine whether or not to make the Master Agreement awarded by the Principal Procurement Agency available to Participating Public Agencies.

1.2 Marketing, Sales and Administrative Support

During the term of the Master Agreement National IPA intends to provide marketing, sales and administrative support for Supplier pursuant to this section 1.2 that directly promotes the Supplier’s products and services to Participating Public Agencies

Requirements for National Cooperative Contract

EXHIBIT A- NATIONAL IPA RESPONSE FOR NATIONAL COOPERATIVE CONTRACT**

through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis.

The National IPA marketing team will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through:

- A. Marketing collateral (print, electronic, email, presentations)
- B. Website development and support
- C. Trade shows/conferences/meetings
- D. Advertising
- E. Social Media
- F. Sales Team Support

The National IPA sales teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies and prospective Public Agencies through:

- A. Individual sales calls
- B. Joint sales calls
- C. Communications/customer service
- D. Training sessions for Public Agency teams
- E. Training sessions for Supplier teams

The National IPA contracting teams will work in conjunction with Supplier to promote the Master Agreement to both existing Participating Public Agencies prospective Public Agencies through:

- A. Serving as the subject matter expert for questions regarding joint powers authority and state statutes and regulations for cooperative purchasing
- B. Training sessions for Public Agency teams
- C. Training sessions for Supplier teams
- D. Regular business reviews to monitor program success
- E. General contract administration

Suppliers are required to pay an administrative fee of 1.0 % of the greater of the Contract Sales under the Master Agreement and Guaranteed Contract Sales under this Request for Proposal. Supplier will be required to execute the National IPA Administration Agreement (refer to Exhibit B).

Deleted: 3

Commented [PB1]: Typically on national contracts we see contract fees ranging from 0.25% to 1.00%. We understand the need for an administrative fee, but we are concerned that a fee of 3.0% will render this contract less competitive and that therefore it will not be as widely used as other purchasing options available to this customer set. In order to ensure that this contract is as widely adopted and successful as possible, we would recommend an administrative fee of 1.0%. This will allow this vehicle to will be more in line with other national purchasing vehicles, and in turn, we believe, will render a larger dollar fee than the higher percentage would provide, since the contract will be more widely adopted. SHI will agree to the higher administrative fee if that is the route that National IPA decides to take; however we wanted to share our thoughts and experiences around the "sweet spot" for this fee.

Capitalized terms not otherwise defined herein shall have the meanings given to them in the Master Agreement or in the National Intergovernmental Purchasing Alliance Company Administration Agreement between Supplier and National IPA (the "National IPA Administration Agreement")

1.3 Estimated Volume

The dollar volume purchased under the Master Agreement is estimated to be approximately \$500 million annually. While no minimum volume is guaranteed to Supplier, the estimated annual volume is projected based on the current annual volumes among the Principal Procurement Agency, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS
EXHIBIT A- NATIONAL IPA RESPONSE FOR NATIONAL COOPERATIVE CONTRACT**

available to them through National IPA, and volume growth into other Public Agencies through a coordinated marketing approach between Supplier and National IPA.

1.4 Award Basis

The basis of any contract award resulting from this RFP made by Principal Procurement Agency will be the basis of award on a national level through National IPA. If multiple suppliers are awarded by Principal Procurement Agency under the Master Agreement, those same suppliers will be required to extend the Master Agreement to Participating Public Agencies through National IPA. Utilization of the Master Agreement by Participating Public Agencies will be at the discretion of the individual Participating Public Agency. Certain terms of the Master Agreement specifically applicable to the Principal Procurement Agency are subject to modification for each Participating Public Agency as Supplier, such Participating Public Agency and National IPA shall agree. Participating Agencies may request to enter into a separate supplemental agreement to further define the level of service requirements over and above the minimum defined in the Master Agreement, including but not limited to invoice requirements; order requirements; specialized delivery; diversity requirements such as minority and woman owned businesses, historically underutilized business; and governing law. As part of such supplemental agreements, Participating Agencies may negotiate other terms of the Master Agreement, and may require offeror. Any supplemental agreement developed as a result of the Master Agreement is exclusively between the Participating Agency and the Supplier (Contract Sales are reported to National IPA).

Deleted: and/or manufacturer to accept additional and/or modified licensing terms or separate subscription/user access provisions

Deleted: Participating Agencies may also contract directly with the offeror's authorized tier one suppliers pursuant to a request process based on factors as defined by the Participating Agency. These contracts would constitute individual contracts between the Participating Agency and tier one suppliers who have accepted the terms of the Master Agreement under a separate supplemental agreement between the Participating Agency and the tier one supplier. Sales under these contracts are tracked and reported to National IPA by the offeror.

1.5 Objectives of Cooperative Program

This RFP is intended to achieve the following objectives regarding availability through National IPA's cooperative program:

- A. Provide a comprehensive competitively solicited and awarded national agreement offering the Products covered by this solicitation to Participating Public Agencies;
- B. Establish the Master Agreement as the Supplier's primary go to market strategy to Public Agencies nationwide;
- C. Achieve cost savings for Supplier and Public Agencies through a single solicitation process that will reduce the Supplier's need to respond to multiple solicitations and Public Agencies need to conduct their own solicitation process;
- D. Combine the aggregate purchasing volumes of Participating Public Agencies to achieve cost effective pricing.

2.0 REPRESENTATIONS AND COVENANTS

As a condition to Supplier entering into the Master Agreement, which would be available to all Public Agencies, Supplier must make certain representations, warranties and covenants to both the Principal Procurement Agency and National IPA designed to ensure the success of the Master Agreement for all Participating Public Agencies as well as the Supplier.

2.1 Corporate Commitment

**NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE COMPANY EXHIBITS

Supplier also commits that its sales force will be compensated, including sales incentives, for sales to Public Agencies under the Master Agreement in a consistent or better manner compared to sales to Public Agencies if the Supplier were not awarded the Master Agreement.

Deleted: Pricing Commitment¶

Supplier commits the not-to-exceed pricing provided under the Master Agreement pricing is its lowest available (net to buyer) to Public Agencies nationwide and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, that the Supplier will match such lower pricing to that Participating Public Agency under the Master Agreement.

MASTER INTERGOVERNMENTAL COOPERATIVE PURCHASING AGREEMENT

This Master Intergovernmental Cooperative Purchasing Agreement (this “**Agreement**”) is entered into by and between those certain government agencies that execute a Principal Procurement Agency Certificate (“**Principal Procurement Agencies**”) with National Intergovernmental Purchasing Alliance Company (“**National IPA**”) to be appended and made a part hereof and such other public agencies (“**Participating Public Agencies**”) who register to participate in the cooperative purchasing programs administered by National IPA and its affiliates and subsidiaries (collectively, the “**National IPA Parties**”) by either registering on a National IPA Party website (such as www.nationalipa.org), or by executing a copy of this Agreement.

RECITALS

WHEREAS, after a competitive solicitation and selection process by Principal Procurement Agencies, a number of suppliers have entered into “**Master Agreements**” (herein so called) to provide a variety of goods, products and services (“**Products**”) to the applicable Principal Procurement Agency and the Participating Public Agencies;

WHEREAS, Master Agreements are made available by Principal Procurement Agencies through the National IPA Parties and provide that Participating Public Agencies may purchase Products on the same terms, conditions and pricing as the Principal Procurement Agency, subject to any applicable federal and/or local purchasing ordinances and the laws of the State of purchase; and

WHEREAS, in addition to Master Agreements, the National IPA Parties may from time to time offer Participating Public Agencies the opportunity to acquire Products through other group purchasing agreements.

NOW, THEREFORE, in consideration of the mutual promises contained in this Agreement, and of the mutual benefits to result, the parties hereby agree as follows:

1. Each party will facilitate the cooperative procurement of Products.
2. The Participating Public Agencies shall procure Products in accordance with and subject to the relevant federal, state and local statutes, ordinances, rules and regulations that govern Participating Public Agency’s procurement practices. The Participating Public Agencies further acknowledge and agree that they are solely responsible for their compliance with all applicable “safe harbor” regulations, including but not limited to any and all obligations to fully and accurately report discounts and incentives.
3. The Participating Public Agency represents and warrants that the Participating Public Agency is not a hospital and is not purchasing Products on behalf of a hospital.

SCOPE OF WORK

This Scope of Work and the Technical Requirements will be compiled into any resulting contract as Exhibit A.

1. **INTENT.** The City of Mesa (the "City") is requesting proposals from firms qualified to provide Information Technology Solutions and Services to be delivered to various locations throughout the City. Requirements and qualifications are defined in detail in the following Scope of Work and Technical Requirements Sections of this Request for Proposal (RFP).
2. **NATIONAL CONTRACT REQUIREMENTS.** The City, as the Principal Procurement Agency, as defined in Attachment D, has partnered with the National Intergovernmental Purchasing Alliance Company ("National IPA") to make the resultant contract (also known as the "Master Agreement" in [products](#) distributed by National IPA) from this solicitation available to other public agencies nationally, including state and local governmental entities, public and private primary, secondary and higher education entities, non-profit entities, and agencies for the public benefit ("Public Agencies"), through National IPA's cooperative purchasing program. The City of Mesa is acting as the contracting agency for any other Public Agency that elects to utilize the resulting Master Agreement. Use of the Master Agreement by any Public Agency is preceded by their registration with National IPA as a Participating Public Agency in National IPA's cooperative purchasing program. Attachment D contains additional information on National IPA and the cooperative purchasing agreement.

Deleted: materials

National IPA is a channel partner with, Vizient (formally, Novation). Together we leverage over \$100 billion in annual supply spend to command the best prices on products and services. With corporate, pricing and sales commitments from the Supplier, National IPA provides marketing and administrative support for the Supplier that directly promotes the Supplier's products and services to Participating Public Agencies through multiple channels, each designed to promote specific products and services to Public Agencies on a national basis. Public Agencies benefit from pricing based on aggregate spend and the convenience of a contract that has already been advertised and competed. The Supplier benefits from a contract that allows Participating Public Agencies to directly purchase goods and services without the Supplier's need to respond to additional competitive solicitations. As such, the Supplier must be able to accommodate a nationwide demand for services and to fulfill obligations as a nationwide Supplier and respond to the National IPA documents Attachment D.

The City anticipates spending approximately \$10 million over the full potential Master Agreement term for IT Solutions. While no minimum volume is guaranteed to the Supplier, the estimated annual volume of IT Solutions purchased under the Master Agreement through National IPA is approximately \$500 million. This projection is based on the current annual volumes among the City, other Participating Public Agencies that are anticipated to utilize the resulting Master Agreement to be made available to them through National IPA, and volume growth into other Public Agencies through a coordinated marketing approach between the Supplier and National IPA.

All discounts articulated here represent the minimum discounts off SHI Advertised List Price; actual discounts may be significantly higher.

The comprehensive SHI offering for National IPA consists of all hardware, software, and services available to our customer public sector marketplace. The discount structure offered to National IPA is based on our Advertised Price List which can be found on www.shi.com. In many cases, SHI Advertised List Price already reflects a substantial discount off of Manufacturer Published Price. Given the breadth of manufacturers and products that SHI offers, there will be many opportunities for SHI to secure additional discounts for eligible contract users. We work to provide your contract users with the most advantageous pricing available beyond the minimum discounts offered, whenever possible.

SHI prides ourselves on being honest and transparent with our customers especially when it comes to pricing. We base our pricing structure on SHI Advertised Price as this is a verifiable source. We do not inflate this Advertised Price for RFPs in order to make our discounts appear larger. Other vendors may use MSRP or Publisher List price, which can be unreliable as a pricelist may not exist for every product, a pricelist can change from day to day, and a pricelist can be inconsistent depending on where you source the information from. When a vendor manipulates contract language in this manner or uses a loose definition of cost, it results in an increase in profit for them and higher prices for customers.

If awarded, SHI is willing to provide complete transparency over the life of the contract as it relates to our costs and what we charge National IPA customers.
