

2-Port Mini DisplayPort to HDMI Hub, DP1.2, TAA

MODEL NUMBER: B155-002-HD

Converts and splits a Mini DisplayPort video signal for display on two HDMI monitors, projectors or televisions at the same time. Ideal for offices, conference rooms, retail settings, trade shows and classrooms.

Description

The B155-002-HD 2-Port Mini DisplayPort to HDMI Splitter converts and splits a Mini DisplayPort video signal for display on two HDMI-enabled monitors, projectors or televisions at the same time. Ideal for offices, conference rooms, retail settings, trade shows and classrooms, this compact splitter features a built-in Mini DisplayPort cable that connects to the source. It lets you use your existing HDMI displays instead of buying new Mini DisplayPort monitors or docking stations.

The B155-002-HD supports video resolutions up to 1080p @ 60 Hz (1920 x 1080), as well as HDCP, EDID and DDC. Orange LEDs next to each output port indicate whether the splitter is powered on and transmitting a signal to the connected displays. The splitter works with all operating systems and is small enough to carry in your backpack or computer bag. Plug-and-play convenience means no software or drivers are needed. An included USB Micro-B cable connects between the source and the splitter to provide power, so no external power supply is required.

Features

Converts and Splits Mini DisplayPort Signal to 2 HDMI Displays Simultaneouslyldeal for offices, conference rooms, trade shows and classroomsBuilt-in Mini DisplayPort cable connects to sourceIncluded USB Micro-B cable supplies power to splitterSave money on new Mini DisplayPort displays or docking stations

Top-Shelf PerformanceSupports video resolutions up to 1080p @ 60 Hz (1920 x 1080)Complies with HDCP, EDID and DDCLEDs indicate whether splitter is powered on and transmitting signal to connected displays
