TRIPP·LITE

## NEW PRODUCT ANNOUNCEMENT!

SmartRack® Euro-Series Rack Enclosures

Key Features

- 42U (2000 mm) or 47U (2200 mm) height
- 600 mm or 800 mm width
- 1000 mm or 1200 mm depth
- Load capacity up to 1360 kg
- Toolless mounting for vertical PDUs
- Available with or without modular side panels

House Critical Equipment

SmartRack enclosures have sturdy steel frames and locking cabinets to secure and organize up to 1360 kg of EIA-standard rack equipment. They provide safe homes for servers, storage, network hardware and all the indispensable devices that keep organizations efficient and productive.

Provide Efficient Cooling

Front-to-rear airflow supports efficient hot-aisle/cold-aisle configurations and exceeds server manufacturer requirements to keep equipment operating reliably.

Support Diverse Applications

Several heights, widths, depths and other variations are available, with a wide range of configuration options.

Make Installation Easier

SmartRack enclosures have been designed from the perspective of the installer, and that philosophy shows in the little details that make every installation task quicker and easier. Features like quick-adjust mounting rails, modular side panels and toolless mounting slots for

Toolless Mounting Slots

vertical PDUs and cable managers facilitate installation and configuration. Seamless compatibility with all EIA-standard rack equipment ensures trouble-free setup.
