REPAIR & REPLACEMENT PARTS

NJPA CONTRACT #081209-FCC

PRICE BOOK

Effective February 15, 2011

POLICY STATEMENT GENUINE O.E.M. PARTS

Product Liability Claims

“Will-fit” parts have proven to be the cause or a factor in a high percentage of our product liability claims. Our USA cost of product liability insurance, defense and Company out-of-pocket settlements can exceed \$1,000,000 each year.

This cost is in addition to an even greater expense associated with the largest product and safety engineering effort in the mowing equipment industry. The “Will-fit” or “Might-fit” parts do not and can not measure up to our standards. Independent lab tests have proven this fact to us over and over again. Little differences in parts specifications make a huge difference in safety, reliability, downtime, and overall total ownership costs.

Because of these issues, we have a concerted effort to recover our costs from anyone involved in the manufacture or sale of non-O.E.M. parts for our equipment which are implicated in any product liability case.

Informing Our Customers

When purchasing parts from an authorized dealer, customers expect, unless they are informed clearly to the contrary, that the purchased parts are genuine O.E.M. parts. It is clearly an illegal, deceptive trade practice when a “Will-fit” part is delivered or sold without complete disclosure to the purchaser. Our company will not be a party to such a plainly unethical practice.

Warranty Policy

Our Company’s policy is, and has always been, the O.E.M. parts must be used for warranty repairs. Also, warranty claims are frequently received for failed “Will-fit” components, and “Will-fit” components are involved, as a cause, in a large number of warranty claims against the equipment on which they have been installed. All defective paint claims must be accompanied by before and after pictures of the unit. The parts warranty is 90 days from the end-users invoice date. The warranty is for parts only, no labor. All warranty claims must be in by December 2, 2009, for review in 2009.

YOUR DIRECT REPLENISHMENT SOLUTION

GENERAL PROVISIONS OF SALE ON ALAMO INDUSTRIAL PARTS

1. Prices shown are suggested list prices.
2. Prices are F.O.B. point of shipment. Orders are shipped complete unless specified otherwise.
3. Prices are subject to change without notice.
4. Parts not shown in this price book may be available on an “on demand” basis. Contact our Parts Division for pricing and availability of these parts.
5. In order to meet competitive situations, Alamo Industrial reserves the option to sell directly to governmental agencies without obligation to local dealers and distributors. This also applies to private experimental organizations engaged in research development.
6. Returns will be processed in accordance to the general policy as outlined in the Parts Sales Terms & Conditions manual. Please contact our Parts Division for a complete copy of the policy.
7. Parts may only be returned for the following reasons
 - a. Ordered in error and the return is within 30 days of the invoice date.
 - b. Alamo Industrial order error.
8. Safety items such as decals, guards, shields and deflectors cannot be returned.
9. Parts must be genuine Alamo Industrial parts originally purchased from Alamo Industrial or an authorized Dealer/Distributor as service parts on a parts invoice. They must be priced in the current Alamo Industrial Repair & Replacement Parts price book.
10. Parts must be current, returnable, and in new/resalable condition. The parts must be properly identified with the Alamo Industrial part number.

Hello,

Thank you for inquiring into Alamo Industrial O.E.M. parts. Please let us know at anytime if you are unable to locate the cost of a part or if you need assistance in determining what part is needed. We are available to help you make the right purchase.

If you would like to have an electronic version of this price book, please contact your assigned Account Services Representative. It is available as a PDF and an Excel file for an upload to your computer system.

Best regards,

OTHER SPECIFICATIONS

- 1) Tractors should not be ordered with mid-mount loader valves as they may interfere with the subframe structure.
- 2) New Holland TL-A models require a smaller replacement battery. We recommend Exide #34R-84N (Alamo #02982767).
- 3) The will require a modification to the front bolster for proper driveline clearance.

PL-100 PM REVISION 15

SAP PRICE LIST 017 C3

EFFECTIVE APRIL 1, 2014

THIS IS A COMPLETE REVISION

This price list is intended for dealers with AG contracts only.

This Complete Revision includes prices for the Model Year and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:
(for inquiries - not to place orders)
(262)636-7540
Internal E-mail: #NA DMC ORDER CENTER

Complete U.S. Price List is PL-100
Complete Canadian Price List is PLC-100

Periodic price list revisions are usually accompanied by a cover sheet which carries instructions on price page changes and where to insert replacement or new price pages. The revisions are dated and are effective as of that date.

U.S. Shipping Wheel Program for Puma Series Tractors

Case IH dealers are able to order a Puma Series tractor with returnable shipping wheels. The intention of this program is to help dealers sell Case IH tractors to their retail customers with the desired tires and wheels when Case IH cannot offer a unique option from the factory.

Program Details:

1. While placing an order for the tractor the dealer chooses front and rear shipping wheel order codes where applicable.
2. Case IH will deliver the tractor to the dealer with the shipping wheels.
3. The dealer is invoiced per set for the following amounts:

Rears - order code 8399906	\$(4,367)
Fronts - order code 8299906	\$(1,947)

4. Upon receipt of the tractor the dealer will dismount the shipping wheels, place them on a wooden skid and band them to the skid for return to a consolidation point. Wheels must be returned to the collection center clean, free of debris and shrink-wrapped.
5. Case IH has consolidation points set up in North America where the shipping wheels must be returned. The address of the U.S. consolidation point is:

CNH America
2700 Broening Hwy
Dundalk Marine Terminal- Lot 100/Building 100
Baltimore, MD 21222

6. Contact your Case IH Sales Support Specialist advising him/her of the location where you will be returning your shipping tires.
7. Your Case IH Sales Support Specialist will issue an RGA number.
8. Securely attach the RGA to your shipment so that it is identifiable to the receiving party.
9. Contact the freight line of your choice to make arrangements to return the shipping wheels to the consolidation point. Freight to return the shipping wheels from the Case IH dealer to the consolidation point must be pre-paid by the dealer. **The freight cost will NOT be reimbursed.**
10. Upon receipt of the shipping wheels at the consolidation point your Case IH dealer account will be credited the following amounts:

PL-100 PL REVISION 35 REVISED

SAP PRICE LIST 018 CC

EFFECTIVE JANUARY 23, 2014

THIS IS A COMPLETE REVISION

This Complete Revision includes new or revised information for Planters and replaces all prior revisions/bulletins.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

**Copyright 2014 By
CNH Industrial N.V.**

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH Industrial N.V. issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and "Factory Supplied Accessories."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and "Factory Supplied Accessories" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Accessories listed following the "Factory Supplied Accessories" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC Customer Service:
(for inquiries - not to place orders)
(262)636-7540

Internal E-mail: #NA DMC ORDER CENTER
Complete U.S. Price List is PL-100
Complete Canadian Price List is PLC-100

Periodic price list revisions are usually accompanied by a cover sheet which carries instructions on price page changes and where to insert replacement or new price pages. The revisions are dated and are effective as of that date.

AFS Software

(please read all steps before beginning)

To Order AFS Software for Customers who have requested a current version, do the following:

1. Log into the CNH Precision Farming Store found on the dealer portal
2. Select the CNH Information Management tab
3. Click on Office Software
4. Copy the Link for AFS Software and paste into an email to your customer who is requesting this software Note: Using this link the customer will be able to download and install the current full version of AFS Software.
5. Order part number 88500-20-10 (AFS Mapping and Records unlock) from your parts counter. Your customer will receive an unlock code to enter into the software he downloaded from the link you provided. Note: Dealer may want to order and receive the unlock prior to sending the customer the link in step 4. AFS Software

(please read all steps before beginning)

- To Order AFS Software for Customers who have requested a current version, do the following:
1. Log into the CNH Precision Farming Store found on the dealer portal
 2. Select the CNH Information Management tab
 3. Click on Office Software
 4. Copy the Link for AFS Software and paste into an email to your customer who is requesting this software Note: Using this link the customer will be able to download and install the current full version of AFS Software.
 5. Order part number 88500-20-10 (AFS Mapping and Records unlock) from your parts counter. Your customer will receive an unlock code to enter into the software he downloaded from the link you provided. Note: Dealer may want to order and receive the unlock prior to sending the customer the link in step 4. That way the customer has both the software link and his unlock code in one email from the dealer.

AFS Pro 700 and AccuStat™ seed sensors. A software key may be required depending on the desired functions.

If optional Early Riser IV Display is selected the planter will come with high rate seed sensors.

DRIVE:

Variable rate hydraulic drive

DRIVE AND CARRYING WHEELS:

Four 7.60-15SL, 10PR Tires on dual arms
Can be adjusted forward or backward
Lift Assist standard on 16 RN

HITCH:

3 Point type, Cat III or Cat IVN.
When using lift assist wheels, quick hitch must be used.

HYDRAULIC COUPLERS:

Two standard ISO male couplers for fan
One 3/8 in. ISO coupler for fan case drain
Two standard ISO male couplers for frame fold and markers if ordered
Two needed on 16 Row with standard lift assist.

MISCELLANEOUS EQUIPMENT:

Enhanced lighting package

SEED DISCS, Order SEED DISCS from Parts Division. (See Parts Division Supplied Accessories at back of price list.)

Case Drain Kit:

Order appropriate kits(s) from Factory Supplied Accessories or the Parts Division.

When AFS monitor system is used Tractor Installation Kit is required unless tractor is equipped with ISO 11783 Implement harness and AFS mounting bracket. Order appropriate kit from Factory Supplied Accessories.

Tractor Requirements:

Horsepower
16 RN - 185 PTO hp with assist wheels

Radar (true ground speed sensor) or GPS speed input is required for operation with a hydraulic drive option.

Must have one remote valve for vacuum fan and one remote valve for wing fold/markers.

A third remote valve is required if optional lift assist wheels are installed.

0-25 psi case drain port on tractor for fan motor case drain (1/4 in. or 3/8 in. case drain coupler required depending on tractor case drain connection - 3/8 in. is supplied with planter)

Remote relief pressure should be 2700 psi w/16 gpm flow rate at couplers

Requirements for Operation: (cont'd)

Tractor Requirements: (cont'd)
12 Volt electrical system - 10 amp minimum.
7 pin connector socket
Three point quick hitch required for lift assist.

AFS Software

(please read all steps before beginning)

To Order AFS Software for Customers who have requested a current version, do the following:

1. Log into the CNH Precision Farming Store found on the dealer portal
2. Select the CNH Information Management tab
3. Click on Office Software
4. Copy the Link for AFS Software and paste into an email to your customer who is requesting this software Note: Using this link the customer will be able to download and install the current full version of AFS Software.
5. Order part number 88500-20-10 (AFS Mapping and Records unlock) from your parts counter. Your customer will receive an unlock code to enter into the software he downloaded from the link you provided. Note: Dealer may want to order and receive the unlock prior to sending the customer the link in step 4. That way the customer has both the software link and his unlock code in one email from the dealer.

For 7100, 7200 and 8900 Series Magnums and non-Case IH Row Crop Tractors order attachment number 419613A, tractor drawbar assist, or upgrade to a heavy-duty drawbar by ordering p/n 87427768 from Parts Division.

Electronic service tools required for dealer service

AFS Software

(please read all steps before beginning)

To Order AFS Software for Customers

who have requested a current version, do the following:

1. Log into the CNH Precision Farming Store found on the dealer portal
2. Select the CNH Information Management tab
3. Click on Office Software
4. Copy the Link for AFS Software and paste into an email to your customer who is requesting this software Note: Using this link the customer will be able to download and install the current full version of AFS Software.
5. Order part number 88500-20-10 (AFS Mapping and Records unlock) from your parts counter. Your customer will receive an unlock code to enter into the software he downloaded from the link you provided. Note: Dealer may want to order and receive the unlock prior to sending the customer the link in step 4. That way the customer has both the software link and his unlock code in one email from the dealer.

AFS Software

(please read all steps before beginning)

- To Order AFS Software for Customers who have requested a current version, do the following:
1. Log into the CNH Precision Farming Store found on the dealer portal
 2. Select the CNH Information Management tab
 3. Click on Office Software
 4. Copy the Link for AFS Software and paste into an email to your customer who is requesting this software Note: Using this link the customer will be able to download and install the current full version of AFS Software.
 5. Order part number 88500-20-10 (AFS Mapping and Records unlock) from your parts counter. Your customer will receive an unlock code to enter into the software he downloaded from the link you provided. Note: Dealer may want to order and receive the unlock prior to sending the customer the link in step 4. That way the customer has both the software link and his unlock code in one email from the dealer.

REFER TO SEED METER CHART FOR APPROVED SEED WITH BULK FILL. Order SEED DISCS from Parts Division (See Parts Division Supplied Accessories in back of price list).

Tractor Installation Kit and Case Drain:

A hydraulic case drain port is required for all 1200 planters. A tractor remote or standard motor return cannot be used for this purpose. If tractor is not equipped with a case drain port, consult the Tractor Price List or Parts Book to obtain the necessary case drain kit. If the tractor is equipped with a case drain port and it does not accept the 3/8 in. flush face male coupler supplied with the planter, order appropriate conversion parts from Parts Division (See Parts Division Supplied Accessories).

Tractor Requirements:

SEE TRACTOR/PLANTER COMPATIBILITY MATRIX.

Required for Direct Drive

Hydraulic System:

4 remotes (1 for lift/fold and markers, 1 for left vacuum fan and two seed drive motors, 1 for the right vacuum fan and two seed drive motors and liquid fertilizer - if equipped and 1 for bulk fill fan).

Relief pressure of 2700 PSI minimum w/51-58 gpm flow at couplers

Required for Optional 22 GPM PTO

Drive System:

3 Remotes (1 for lift/fold and markers, 1 for rear vacuum fan and two seed drives and 1 for bulk fill fan).

Relief pressure of 2700 PSI minimum w/34-39 gpm flow at couplers.

Requirements for Operation: (cont'd)

Required for Standard 36 GPM PTO

Drive System:

2 Remotes (1 for lift/fold and markers, 1 for right side vacuum fan, two seed drive motors).

Relief pressure of 2700 PSI minimum w/24-26 gpm flow at couplers.

0-25 psi case drain port on tractor for fan motor case drain (1/4 in. or 3/8 in. case drain coupler required depending on tractor case drain connection - 3/8 in. is supplied with planter).

Relief pressure valve of 2700 psi minimum

Planter Electrical requirements:

Requirements for Operation: (cont'd)

Tractor Installation Kit and Case Drain:
A hydraulic case drain port is required for all 1200 planters. A tractor remote or standard motor return cannot be used for this purpose. If tractor is not equipped with a case drain port, consult the Tractor Price List or Parts Book to obtain the necessary case drain kit. If the tractor is equipped with a case drain port and it does not accept the 3/8 in. flush face male coupler supplied with the planter, order appropriate conversion parts from Parts Division (See Parts Division Supplied Accessories).

Tractor Requirements:
SEE TRACTOR/PLANTER
COMPATIBILITY MATRIX.

Required for Optional Direct Drive
System:

On-Row:

2 remotes (1 for lift/fold and markers, 1 for the vacuum fan and two seed drive motors.

Relief pressure of 2700 PSI minimum with 27-30 gpm flow at couplers

Bulk Fill:

3 remotes (1 for lift/fold and markers, 1 for the vacuum fan and two seed drive motors, and 1 for Bulk Fill fan).
Relief pressure of 2700 PSI minimum with 37-43 gpm flow at couplers.

Note: Bulk Fill can be shut off through the AFS PRO 700 display during planter lift, thus reducing flows to 27-30 gpm flow at couplers.

Requirements for Operation: (cont'd)

Required for Standard 22 GPM PTO
Pump Drive System:

On-Row:

1 Remote (for lift/fold and markers).
Relief pressure of 2700 PSI minimum with 17 gpm flow at couplers.

Bulk Fill:

2 remotes (1 for lift/fold and markers, 1 for the vacuum fan and two seed drive motors).
Relief pressure of 2700 PSI minimum with 27-30 gpm flow at couplers

Note: Bulk Fill can be shut off through the AFS PRO 700 display during planter lift, thus reducing flows to 17 gpm flow at couplers.

0-25 psi case drain port on tractor for fan motor case drain (1/4 in. or 3/8 in. case drain coupler required depending on tractor case drain connection - 3/8 in. is supplied with planter).

Relief pressure valve of 2700 psi minimum

22 GPM PTO pump is standard Equipment. If the PTO pump is selected, the tractor must have a 1,000 RPM PTO. The PTO coupler supplied with the machine is for a 1-3/4 in. PTO shaft. If the tractor is equipped with a 1-3/8 in. PTO shaft, then order a 1-3/8 in. couple (1958267C1) from the Parts Division.

Requirements for Operation: (cont'd)

Planter Electrical requirements:
12 Volt electrical system
7 pin connector socket
AFS 9 Pin Connection
(TRACTOR INSTALLATION KIT)

Tractor front end weights or wheel weights or liquid ballast may be required on some tractor models for road transport of planter and 3 point hitch is also required.

Tractor vertical load requirements:
7,000 lbs. with 2-point hitch
(Bulk Fill - full)

Electronic service tools required for dealer service.

AFS Software

(please read all steps before beginning)
To Order AFS Software for Customers who have requested a current version, do the following:

1. Log into the CNH Precision Farming Store found on the dealer portal
2. Select the CNH Information Management tab
3. Click on Office Software
4. Copy the Link for AFS Software and paste into an email to your customer who is requesting this software Note: Using this link the customer will be able to download and install the current full version of AFS Software.
5. Order part number 88500-20-10 (AFS Mapping and Records unlock) from your parts counter. Your customer will receive an unlock code to enter into the software he downloaded from the link you provided. Note: Dealer may want to order and receive the unlock prior to sending the customer the link in step 4. That way the customer has both the software link and his unlock code in one email from the dealer.

Tractor Installation Kit and Case Drain:
A hydraulic case drain port is required for all 1200 Series planters. A tractor remote or standard motor return cannot be used for this purpose. If tractor is not equipped with a case drain port, consult the Tractor Price List or Parts Book to obtain the necessary case drain kit. If the tractor is equipped with a case drain port and it does not accept the 3/8 in. flush face male coupler supplied with the planter, order appropriate conversion parts from Parts Division (See Parts Division Supplied Accessories).

Tractor Requirements:
SEE TRACTOR/PLANTER
COMPATIBILITY MATRIX.

Required for Optional Direct Drive
System:

On-Row:
2 remotes (1 for lift/fold and markers, 1 for the vacuum fan and two seed drive motors.
Relief pressure of 2700 PSI minimum with 28-31 gpm flow at couplers

Bulk Fill:
3 remotes (1 for lift/fold and markers, 1 for the vacuum fan and two seed drive motors, and 1 for Bulk Fill fan).
Relief pressure of 2700 PSI minimum with 38-44 gpm flow at couplers.

Note: Bulk Fill can be shut off through the AFS PRO 700 display during planter lift, thus reducing flows to 28-31 gpm flow at couplers.

Requirements for Operation: (cont'd)

Required for Standard 22 GPM PTO
Pump Drive System:

On-Row:
1 Remote (for lift/fold and markers).
Relief pressure of 2700 PSI minimum with 18 gpm flow at couplers.

Bulk Fill:
2 remotes (1 for lift/fold and markers, 1 for the vacuum fan and two seed drive motors.
Relief pressure of 2700 PSI minimum with 28-31 gpm flow at couplers

Note: Bulk Fill can be shut off through the AFS PRO 700 display during planter lift, thus reducing flows to 18 gpm flow at couplers.

0-25 psi case drain port on tractor for fan motor case drain (1/4 in. or 3/8 in. case drain coupler required depending on tractor case drain connection - 3/8 in. is supplied with planter).

Relief pressure valve of 2700 psi minimum

22 GPM PTO pump is standard Equipment. If the PTO pump is selected, the tractor must have a 1,000 RPM PTO. The PTO coupler supplied with the machine is for a 1-3/4 in. PTO shaft. If the tractor is equipped with a 1-3/8 in. PTO shaft, then order a 1-3/8 in. couple (1958267C1) from the Parts Division.

AFS Software

(please read all steps before beginning)

To Order AFS Software for Customers

who have requested a current version,

do the following:

1. Log into the CNH Precision Farming Store found on the dealer portal
2. Select the CNH Information Management tab
3. Click on Office Software
4. Copy the Link for AFS Software and paste into an email to your customer who is requesting this software Note: Using this link the customer will be able to download and install the current full version of AFS Software.
5. Order part number 88500-20-10 (AFS Mapping and Records unlock) from your parts counter. Your customer will receive an unlock code to enter into the software he downloaded from the link you provided. Note: Dealer may want to order and receive the unlock prior to sending the customer the link in step 4. That way the customer has both the software link and his unlock code in one email from the dealer.

Tractor Installation Kit and Case Drain:

A hydraulic case drain port is required for all 1200 Series planters. A tractor remote or standard motor return cannot be used for this purpose. If tractor is not equipped with a case drain port, consult the Tractor Price List or Parts Book to obtain the necessary case drain kit. If the tractor is equipped with a case drain port and it does not accept the 3/8 in. flush face male coupler supplied with the planter, order appropriate conversion parts from Parts Division (See Parts Division Supplied Accessories).

Tractor Requirements:

SEE TRACTOR/PLANTER
COMPATIBILITY MATRIX.

Required for Optional Direct Drive

Hydraulic System:

On-Row:

3 remotes (1 for lift/fold and markers, 1 for the vacuum fan and one seed drive right side, 1 for one vacuum fan and one seed drive left side). Relief pressure of 2700 PSI minimum with 39-45 gpm flow at couplers

Bulk Fill:

4 remotes (1 for lift/fold and markers, 1 for the vacuum fan and seed drive right side, 1 for vacuum fan and seed drive left side and 1 for bulk fill fan). Relief pressure of 2700 PSI minimum with 49-58 gpm flow at couplers.

Note: Bulk Fill can be selected to be shut off during planter lift. Flows at couplers to 39-45 gpm.

Requirements for Operation: (cont'd)

Required for Standard 22 GPM PTO

Pump Drive System:

On-Row:

2 Remote (1 for lift/fold and markers), 1 for one vacuum fan and one seed drive right side). Relief pressure of 2700 PSI minimum with 29-32 gpm flow at couplers.

Bulk Fill:

3 remotes (1 for lift/fold and markers, 1 for one vacuum fan and one seed drive on right side and 1 for bulk fill fan). Relief pressure of 2700 PSI minimum with 39-45 gpm flow at couplers

Note: Bulk Fill can be selected to be shut off during planter lift. Flows at couplers 29-32 gpm.

0-25 psi case drain port on tractor for fan motor case drain (1/4 in. or 3/8 in. case drain coupler required depending on tractor case drain connection - 3/8 in. is supplied with planter).

Relief pressure valve of 2700 psi minimum

22 GPM PTO pump is standard

Equipment. If the PTO pump is selected, the tractor must have a 1,000 RPM PTO. The PTO coupler supplied with the machine is for a 1-3/4 in. PTO shaft. If the tractor is equipped with a 1-3/8 in. PTO shaft, then order a 1-3/8 in. couple (1958267C1) from the Parts Division.

A third oil cooler is required on the tractor for MX Magnum Series tractors when the direct drive hydraulic Bulk Fill option is ordered on the planter.

AFS 9 Pin Connection

(TRACTOR INSTALLATION KIT)

Tractor front end weights or wheel weights or liquid ballast may be required on some tractor models for road transport of planter and 3 point hitch is also required.

Tractor vertical load requirements:

13,800 lbs. with 2-point hitch

Electronic service tools required for dealer service.

AFS Software

(please read all steps before beginning)

To Order AFS Software for Customers who have requested a current version, do the following:

1. Log into the CNH Precision Farming Store found on the dealer portal
2. Select the CNH Information Management tab
3. Click on Office Software
4. Copy the Link for AFS Software and paste into an email to your customer who is requesting this software Note: Using this link the customer will be able to download and install the current full version of AFS Software.
5. Order part number 88500-20-10 (AFS Mapping and Records unlock) from your parts counter. Your customer will receive an unlock code to enter into the software he downloaded from the link you provided. Note: Dealer may want to order and receive the unlock prior to sending the customer the link in step 4. That way the customer has both the software link and his unlock code in one email from the dealer.

REFER TO SEED METER CHART FOR APPROVED SEED WITH BULK FILL.
Order SEED DISCS from Parts Division. (See Parts Division Supplied Accessories at back of price list.)

Tractor Installation Kit and Case Drain:

A hydraulic case drain port is required for all 1200 Series planters. A tractor remote or standard motor return cannot be used for this purpose. If tractor is not equipped with a case drain port, consult the Tractor Price List or Parts Book to obtain the necessary case drain kit. If the tractor is equipped with a case drain port and it does not accept the 3/8 in. flush face male coupler supplied with the planter, order appropriate conversion parts from Parts Division (See Parts Division Supplied Accessories).

Tractor Requirements:

SEE TRACTOR/PLANTER COMPATIBILITY MATRIX.

Tractor PTO Hp recommended
275 hp and greater.

Requirements for Operation: (cont'd)

Required for optional Direct

Drive System:

5 remotes (1 for lift/fold and markers,
2 for the vacuum fan and two seed
drive motors, and 1 for Bulk Fill fan,
1 for hydraulic hitch).

Relief pressure of 2700 PSI minimum
with 69 gpm flow at couplers.

Note: Bulk Fill can be shut off through
the AFS display during planter lift,
thus reducing hydraulic demand.

Required for standard 40 gpm PTO

Drive System:

3 remotes (1 for lift/fold and markers,
1 for hydraulic hitch, and 1 for seed
drive and vacuum fan).

Relief pressure of 2700 PSI minimum
with 34 gpm flow at couplers.

0-25 psi case drain port on tractor
for fan motor case drain (1/4 in. or
3/8 in. case drain coupler required
depending on tractor case drain
connection - 3/8 in. is supplied
with planter).

If the standard PTO pump is selected,
the tractor must have a 1,000 RPM
PTO. The PTO coupler supplied with
the planter is for a 1-3/4 in. PTO shaft.

Planter Electrical requirements:

12 Volt electrical system
7 pin lighting connector socket
AFS 9 Pin Connection
(TRACTOR INSTALLATION KIT)

Tractor front end weights or wheel
weights or liquid ballast may be
required on some tractor models
for road transport of planter.
Towing vehicle weight should be
1-1/2 times planter weight.

Requirements for Operation: (cont'd)

Tractor vertical load requirements:

3,020 lbs. on drawbar (empty)

Electronic service tools required
for dealer service.

AFS Software

(please read all steps before beginning)

To Order AFS Software for Customers

who have requested a current version,
do the following:

1. Log into the CNH Precision Farming
Store found on the dealer portal
2. Select the CNH Information
Management tab
3. Click on Office Software
4. Copy the Link for AFS Software and
paste into an email to your
customer who is requesting this
software Note: Using this link the
customer will be able to download
and install the current full version
of AFS Software.
5. Order part number 88500-20-10
(AFS Mapping and Records unlock)
from your parts counter. Your
customer will receive an unlock
code to enter into the software he
downloaded from the link you
provided. Note: Dealer may want
to order and receive the unlock
prior to sending the customer the 1
link in step 4. That way the
customer has both the software link
and his unlock code in one email
from the dealer.

ASSEMBLY:

Planters come fully assembled and tested from the factory, except for row unit press wheels on wings and sub bar row unit extensions. Factory Supplied Accessories ordered with planter will not be assembled.

Requirements for Operation:

REFER TO SEED METER CHART FOR APPROVED SEED WITH BULK FILL.
Order SEED DISCS from Parts Division. (See Parts Division Supplied Accessories at back of price list.)

Tractor Installation Kit and Case Drain:

A hydraulic case drain port is required for all 1200 Series planters. A tractor remote or standard motor return cannot be used for this purpose. If tractor is not equipped with a case drain port, consult the Tractor Price List or Parts Book to obtain the necessary case drain kit. If the tractor is equipped with a case drain port and it does not accept the 3/8 in. flush face male coupler supplied with the planter, order appropriate conversion parts from Parts Division (See Parts Division Supplied Accessories).

Tractor Requirements:

SEE TRACTOR/PLANTER COMPATIBILITY MATRIX.

Tractor PTO Hp recommended
275 hp and greater.

**EARLY RISER® 1265 36R30 PLANTERS

**(Ex Works - See Standard Equipment)
Standard Equipment**

Requirements for Operation: (cont'd)

Required for optional Direct

Drive System:

5 remotes (1 for lift/fold and markers,
2 for the vacuum fan and two seed
drive motors, and 1 for Bulk Fill fan,
1 for hydraulic hitch).

Relief pressure of 2700 PSI minimum
with 69 gpm flow at couplers.

Note: Bulk Fill can be shut off through
the AFS display during planter lift,
thus reducing hydraulic demand.

Required for standard 40 gpm PTO

Drive System:

3 remotes (1 for lift/fold and markers,
1 for hydraulic hitch, and 1 for seed
drive and vacuum fan).

Relief pressure of 2700 PSI minimum
with 34 gpm flow at couplers.

0-25 psi case drain port on tractor
for fan motor case drain (1/4 in. or
3/8 in. case drain coupler required
depending on tractor case drain
connection - 3/8 in. is supplied
with planter).

If the standard PTO pump is selected,
the tractor must have a 1,000 RPM
PTO. The PTO coupler supplied with
the planter is for a 1-3/4 in. PTO shaft.

Planter Electrical requirements:

12 Volt electrical system
7 pin lighting connector socket
AFS 9 Pin Connection
(TRACTOR INSTALLATION KIT)

Tractor front end weights or wheel
weights or liquid ballast may be
required on some tractor models
for road transport of planter.
Towing vehicle weight should be
1-1/2 times planter weight.

Requirements for Operation: (cont'd)

Tractor vertical load requirements:

2,360 lbs. on drawbar (empty)

Electronic service tools required
for dealer service.

AFS Software

(please read all steps before beginning)

To Order AFS Software for Customers

who have requested a current version,
do the following:

1. Log into the CNH Precision Farming
Store found on the dealer portal
2. Select the CNH Information
Management tab
3. Click on Office Software
4. Copy the Link for AFS Software and
paste into an email to your
customer who is requesting this
software Note: Using this link the
customer will be able to download
and install the current full version
of AFS Software.
5. Order part number 88500-20-10
(AFS Mapping and Records unlock)
from your parts counter. Your
customer will receive an unlock
code to enter into the software he
downloaded from the link you
provided. Note: Dealer may want
to order and receive the unlock
prior to sending the customer the 1
link in step 4. That way the
customer has both the software link
and his unlock code in one email
from the dealer.

APPENDIX

SEED MONITOR SYSTEM

- 1) GPS Antenna/Receiver packages are available through Parts Division. For details on functionality of monitors, see MONITOR CHART at the end of the Planter section.
- 2) TRACTOR INSTALLATION KIT IS REQUIRED FOR OPERATION when using the Case IH AFS Monitor System. Order appropriate attachment from Factory Supplied Accessories section.
- 3) AFS Desktop Mapping Software and Data card ARE NOT INCLUDED with this package. Current versions of AFS Mapping Software can be ordered in the OTHER EQUIPMENT section of this price book. Data cards are available through the Parts Division.

SEED DISCS

- 4) Seed discs are required for operation. ORDER ONE SEED DISC PER PLANTER ROW. For further details on seed disc selection, please refer to the SEED DISC MATRIX CHARTS at the back of the Planter section. Additional seed discs are available through Parts Division. For Soybeans, the 8045 or 10045 disk is recommended for soybean seed weighing 2000 - 2600 seeds/lb. Seed discs are only available through Parts Division in packages of 8 discs. See Parts Division Supplied Accessories page.

PLANTER FAN CASE DRAIN

- 5) A hydraulic case drain port is required for all 1200 Series planters. A tractor remote or standard motor return cannot be used for this purpose. If tractor is not equipped with a case drain port and the appropriate case drain kit is not listed below, consult the Tractor Price List or Parts Book to obtain the necessary case drain kit.
- 6) If the tractor is equipped with a case drain port and it does not accept the 3/8 in. flush face male coupler supplied with the planter, order the appropriate conversion parts from Parts Division (See Parts Division Supplied Accessories at the back of the Planter section).
- 7) The case drain from the fan motor MUST be connected to a low-pressure return (less than 25 psi). A tractor remote or standard motor return cannot be used for this purpose.

TRACTOR INSTALLATION KITS (WIRING HARNESS)

- 8) If used with 4WD tractor, requires AFS 10 ft. Extension Harness (p/n 87446386) available through Parts Division.
- 9) IF USED WITH RADAR SPEED INPUT, AN ADAPTER CABLE IS REQUIRED
For STX, Steiger, MX180-305 and Magnum 180 - Magnum 380 use Adapter p/n 324847A2 (adapter plugs into harness and into the bottom of the tractor's A-post for Magnum Tractors and at the fuse box for Steiger Tractors).
For older Magnum tractors, use Adapter p/n A177090 (adapter tees into the tractor's radar connection behind the instrument panel).
Adapters for Case IH tractors are available through the Parts Division.
- 10) IF THIS MONITOR INSTALLATION KIT IS USED WITH GPS INPUT, AN ADAPTER CABLE IS REQUIRED.
When using a Case IH or Trimble branded GPS receiver (100, 110, 130, 162, 252, 262, or 372), use a 9-pin to Flat-5 Adapter (p/n 87302445) to plug into the flat-5 connector on the tractor harness. A power/data cable is also required. For a 100, 110 or 130 order p/n 277885A1 from Parts Division. For a 162, 252, 262, or 372 order p/n 87298129. If a null modem port is available from the GPS receiver (or EZ Guide) a Null Modem Cable (p/n 87297613) can be used to plug into the 9-pin serial port on the AFS Pro 600 or AFS Pro 700 display.

APPENDIX

DRIVES / PTO PUMP

- 11) For 1215, Single arm wheels will be assembled centered between rows except on 30 inch row spacing. Dual arm wheels must be ordered for the following:
- 30 inch row spacing

Dual arm wheels are not available for 1215 6RW and 8RW planters

For 1235 Stacker Planters - One wheel speed sensor is standard. If operating in uneven terrain, a second wheel can be equipped by ordering an additional sensor through Factory Supplied Attachments. Hydraulic drive is not compatible with the Early Riser IV Monitor. An AFS Pro 700 display is required if you desire variable rate control. Hydraulic drive option requires tractor radar or GPS input.

- 12) For 1255 Front Fold Planters. The 14 gpm PTO pump drive is for planters equipped with an Early Riser IV monitor, while the 22 gpm pump drive is for use with AFS Pro 700 display equipped machines only. PTO Pump is Supplied with PTO Pump drive system. 1-3/4 in. PTO pump coupler is included. Requires PTO pump restraint. See Factory Supplied Attachments.

For 1245 Pivot Transport Planters ordered with planter mounted PTO pump drive system. The 1 3/4" Driveline shaft is included with planter mounted pump kits. Order 1-3/8 in is optional. driveline shaft from Section 12 as required.

When using planter mounted PTO drive pumps, the lower 3 point hitch draft arms must be held against the tractor with the following Spring Retainer (order each of the following from Parts Division)

- 189585A1 - qty 1 (linkage)
- 189586A1 - qty 1 (linkage)
- 189587A1 - qty 1 (spring)
- 198121A1 - qty 2 (lynch pin)

The quick hitch attachment must be removed from all tractors before connecting the PT planter with the PTO driveline system.

For 7100, 7200, 8900 and MX Series Case IH Tractors adjust the lower 3 point link draft arms to the maximum height and secure them to the tractor sway blocks using the spring retainer.

For 9300 and STX Series Case IH Tractors remove the tractor sway blocks, adjust the lower 3 point link draft arms to the maximum height and secure them to the tractor using the spring retainer.

For all other tractors, adjust the lower 3 point draft arms to the maximum height and if required, remove the tractor sway blocks and/or the lower draft arm bumpers to gain sufficient clearance.

Secure the lower 3 point draft arms to the tractor using the spring retainer. Examine tractor clearance to the PTO driveline system when making sharp turns and adjust 3 point hitch system as required.

- 13) For 1245 Pivot Transport & 1255 Front Fold Planters ordered with tractor mounted PTO pump drive system. 1-3/4 in. PTO pump coupler is included. If a 1-3/8 in. spline coupler is required, order 1958267C1 from the Parts Division. Requires PTO pump restraint. See Factory Supplied Attachments.
- 14) For 1255 Front Fold Planters. Mechanical drive versions come equipped with a single transmission (two for 24R) and two electric clutches. This provides section shut off capabilities for either the left half or right half of the planter. 1255 front fold planters equipped with optional hydraulic drive contain two drive motors providing two section control (one motor controlling the left half and one controlling the right).

APPENDIX

TILLAGE TOOLS

- 15) Standard tine wheel residue managers are recommended for most tillage and residue conditions. No-Till residue managers are specifically recommended for heavy, matted, no-till residue conditions. No-Till residue managers are designed to reduce the "throwing" effect of residue into the next row unit. Floating residue managers require less field adjustment as the unit is designed to "float" through varying field conditions and surfaces.
- 16) For 1245 Pivot Transport Planters. Floating residue managers cannot be factory installed with no-till fertilizer openers. If floating residue managers are desired with no-till fertilizer openers, order the residue managers from Factory Supplied Accessories section along with offset fertilizer shanks for the wing rows (6 for 12R and 12/23, 10 for 16R, and 16/31, 16 for 24R20"). Offset shanks (p/n 118038A1) can be ordered from the Parts Division.

AFS ACCUROW CONTROL

- 17) GPS controlled row unit shut off system to disengage two, three or four rows at a time when overlapping areas of the field that have been previously planted. Kit consists of 1 air clutch per row, 1 air compressor, 1 air tank (2 for 24R, 16/31, 32R, & 36R), air valves, tubing, ECU electronics, wiring harness, mounting bracket and hardware. For planters equipped with AFS Pro 700 display only. Complete kit consists of one AccuRow Control Package and one Completing Package choice, the exception being 1245 split row machines (12/23 & 16/31) where a complete system can be obtained by ordering a single number.

FERTILIZER SYSTEMS

- 18) If this kit is intended to be installed on a planter with Serial Number prior to Y8S008000 or any planter with a "CBJ" prefix, a different control harness (P/N 398139A2) is required. An MCC controller (P/N - 405513A1) is also required if installing this kit on a 12R or a 16R PT planter on a prior to serial number Y8S008000.

ROW UNITS

- 19) Row Unit - Single pin quick adjust down pressure spring, 14 in. staggered left or right hand double disk openers with HEAVY-DUTY SINGLE ROW TRIPLE LIP bearings quick adjustable staggered covering disks, 6.5 x 12 in. press wheel and quick adjustable 4 x 16 in. depth equalizing gauge wheels per row with special profile tires. Mounting equipment - planter unit is complete with parallel linkage, head brackets and U-bolts for mounting on 7 x 7 inch toolbar. 4 x 4 inch and 2-1/2 x 2-1/2 inch toolbar mounting parts are available through Parts Division. Includes meter/hopper, air system tee and hose from cover to tee, tie straps to attach tee to 7 x 7 in. toolbar, small clamps, and two "O" rings.

FAN SYSTEMS

- 20) The following items are not included in any package but are necessary to complete an ASM planting system. When possible, a part number has been added for your reference:
 - 362013A1 - 4.5 in./11cm diameter flexible hose in 25 ft./7.6m lengths
 - 362014A1 - 4.5 in./11cm diameter rigid tubing in 20 ft./6.1m lengths
 - 300767A1 - End cap for rigid tube
 - Longer hydraulic hoses are required if used for a trailing application.
 - A wiring harness for monitor and lighting
 - Case drain kit. For current production Case IH tractors, kits can be ordered through Factory Supplied Accessories (see matrix).

DRIVE/CARRYING WHEELS

- 21) Attachment does not include tire/rim assembly. Parts can be reversed to convert to right hand drive wheel.
Remove chain to convert to carrying wheel. Speed sensor, bracket, and sprocket can be ordered from Parts Division.
If wheel kit is to be used on a 12 Row 36 in. stacker bar frame, order wheel mounting brackets (P/N 386109A1 and 386110A1) from the Parts Division.

APPENDIX

PNEUMATIC DOWN PRESSURE

22) This kit allows planters ordered with pneumatic down pressure to be controlled from the cab via a AFS Pro 600 or AFS Pro 700 display. For planters equipped with AFS Pro 600 or AFS Pro 700 display only. Complete kit consists of two attachment numbers, (one Pneumatic Kit and one Compressor Kit). The Compressor Kit is not required for planters equipped with AccuRow control row clutches, the compressor from the AccuRow system will be reused. A short pig-tail harness (P/N - 84235625 ordered from the Parts Division) will be required for connection into the planter Rate ECU for any planter built between serial number Y8S008001-YBS028000, with the exception of ER1255 24R30 planters built between YAS008301 and YAS008330 and between serial number YAS008416 and YBS007277.

All 1235 & 1255 planters built after serial number YBS028000 and 1245 planters built after YBS028800 do not require the pig tail harness, the planter is already equipped with it.

SEED METER, VACUUM AND BULK SETTINGS

Seed Singular Settings:

The Advanced Seed Meter will accurately plant most seeds. The chart is a guideline to help optimize performance. It provides the range setting for seed sizes best suited for respective disks.

IMPORTANT: If your seed meters are equipped with the older style singulator that uses a lever instead of a dial for adjustment, divide the singulator setting value from this chart in half.

Advanced Seed Meter Recommended Settings(e)

TABLE NOTES:

- Seed disk designation indicates number of holes and hole diameter; i.e. seed disk 4855 contains 48 holes with each hole diameter of 5.5 mm.
- Vacuum level is set by controlling fan speed control with seed on disk. Setting is in inches of water (inch H₂O).
- Meter cover indicates baffle position number. Meter inspection without draining seed can be made when baffle is set to position 0 (fully closed).
- Do not use Singulator dial (lever) settings to control gross population; excessive doubles or skips will occur. Higher dial setting decreases singulator interference with seed disk holes.
- Use the Seed Population/Spacing Chart and Seed Disk RPM Chart in this Section to determine disk RPM.

Crop	Seeds/lb	Seed Disk Ordering Number	(a) Seed Disk Number	(b) Vacuum Setting In (H ₂ O)	(c) Baffle Setting	(d) Singulator Dial Setting	Bulk Fill Settings If Equipped

- b. Vacuum level is set by controlling fan speed control with seed on disk. Setting is in inches of water (inch H2O).
- c. Meter cover indicates baffle position number. Meter inspection without draining seed can be made when baffle is set to position 0 (fully closed).
- d. Do not use Singulator dial (lever) settings to control gross population; excessive doubles or skips will occur. Higher dial setting decreases singulator interference with seed disk holes.
- e. Use the Seed Population/Spacing Chart and Seed Disk RPM Chart in this Section to determine disk RPM.

** Additional care is needed for peanut seeds larger than 800 seeds/pound. For optimum planter performance, reduce ground speed.								
Adjustment for drive wheel slip and selecting/maintaining the proper vacuum setting are critical for planting the desired population.								
Always verify planter performance by digging seeds.								
‡ For peanuts smaller than 800 seeds per pound, see the following pages for suggested planting speeds.								
Select 48 hole disk if seed crowds together on the 60 hole disk. Brushes can be removed.								
Remove the straight brush from the holder for Virginia peanuts.								

SEED METER, VACUUM AND BULK SETTINGS

Seed Population/Spacing Chart

Use this table to determine expected seed spacing or different populations and row widths.

Determining Seed Disk RPM

Use the table on the following page to approximate seed disk RPM for you planting speed, seed spacing and seed disk.

For all Case IH 1200 Series hydraulic drive planters, seed disk RPM must be greater than 12 RPM for reliable results.

For all Case IH 1200 Series planters - ground and hydraulic drive, seed disk RPM should NEVER exceed 60 RPM. Damage to meter components will occur.

Shaded areas in the chart indicate **optimal** RPM range. Values in italic indicate RPMs slower than 12 RPM.

Seed Disk RPM Formula

Use the following formula to calculate Seed Disk RPM for your specific planting parameters:

$$\frac{1}{\text{Disk Holes}} \times \frac{1}{\text{Spacing}} \times \text{Speed (mph)} \times 1056 = \text{Disk RPM}$$

Disk Holes = No. of holes in the seed disk.

Spacing = Seed spacing in inches.

Speed = Planting speed in mph.

1056 = Constant value.

Example:

48 Hold Disk
4.25 Inch Seed Spacing
5.0 MPH Planting Speed

Divide 1 by 48 (no. disk holes) = 0.021

Divide 1 by 4.25 (seed spacing) = 0.235

Multiply 0.021 x 0.235 x 5 (mph) x 1056 = 26 RPM

Using a 48 hole seed disk and seed spacing of 4.25 inch, when traveling at 5 mph, the seed disk will rotate at 26 RPM, well within the required range of 12-60 RPM.

PL-100 MH REVISION 43

SAP PRICE LIST 017 C6

EFFECTIVE JANUARY 17, 2014

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the AG and AL contracts only.

This Complete Revision includes new or revised information and replaces all prior revisions.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

Copyright 2014 By

CNH Industrial, N.V.

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH Industrial N.V. issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and "Factory Supplied Accessories."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and "Factory Supplied Accessories" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Accessories listed following the "Factory Supplied Accessories" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Standard Equipment

STANDARD FEATURES:

- Quick attach design:
 - Euro Style Quick-Attach
 - Type 7 HD and Type 8
- 4-Bar bucket linkage
- Bucket level indicator
- Parking stand
- Grille guard (included with front mounting brackets)
- MSL loader equipped with Single Lever Multi-Coupler 4

TRACTOR REQUIREMENTS:

1. The front end loader option requires the joystick and minimum of five rear remote valves on the tractor. When the loader option is enabled:
 - If five rear remote valves are present, the loader is operated by joystick using rear remote valves four and five,
 - or, if six rear remote valves are present, the loader is operated by joystick using rear remote valves four, five and six.
2. Front end loader controls are allocated as follows:
 - Rear remote valve four control raise/lower,
 - Rear remote valve five control dump/crowd,
 - Rear remote valve six, if equipped, controls the third function.
3. When the loader option is enabled, automatic functions for the joystick are disabled.
4. In the case where a joystick is added as a dealer installed accessory, the tractor may have five or six rear remote valves and four paddles. Paddle four is inoperative in this situation.

PL-100 HF REVISION 25

SAP PRICE LISTS 018 CA and 014 CB

EFFECTIVE SEPTEMBER 2, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with Hay and Forage contracts only.

This Complete Revision includes revisions and prices for all 2014 Model Year products.
to use for the 2014 model order writing program.

The prices included in this revision supersede any prices established prior to the effective date
shown unless specifically identified in a price bulletin as superseding this price list.

**Copyright 2013 By
CNH America LLC**

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and "Factory Supplied Accessories."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and "Factory Supplied Accessories" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Accessories listed following the "Factory Supplied Accessories" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:
(for inquiries - not to place orders)
(262)636-7540
Internal E-mail: #NA DMC ORDER CENTER

Complete U.S. Price List is PL-100
Complete Canadian Price List is PLC-100

Periodic price list revisions are usually accompanied by a cover sheet which carries instructions on price page changes and where to insert replacement or new price pages. The revisions are dated and are effective as of that date.

GENERAL INFORMATION:

Mechanical Design:

Laterally-mounted, draper-belt conveyor; folds up under windrower belly frame when not in use, allowing single windrow or swath formation.

Merger folds down and forward (further forward at the left end) when deployed for merging application. Movable deflector allows operator to control distance crop is thrown.

Crop Delivery Direction:

Right side, behind right front tire

Windrower Compatibility:

Tier II, 6-cylinder models (non-drapeer) and all Tier III, 6-cylinder models (except with dealer-installed draper ready)

Header Compatibility:

RD162, RD163, RD182, and RD193

Disc Heads

Belt Construction:

Two ply vulcanized endless construction w/vee-guide tracking rib on inner surface and lateral cleats on the outer surface to positively move material

Belt Tensioning:

Adjustable spring tension to minimize shock loading

Belt Tracking:

Eye bolt adjustment at front end of driver roll

Merger Conveyor Flotation:

Table can float upward or rearward to minimize damage in the event of contact with an obstruction or obstacle

HYDRAULIC SYSTEM:

DWA raise/lower, deflector raise/lower, and conveyor belt drive:

Common system utilizing optional windrower-mounted auxiliary

HYDRAULIC SYSTEM:(continued)

hydraulic system

Pump Type:

Engine-mounted, fixed-displacement

Pump Capacity @ Rated Speed, gpm:

Tier II - 11.3 gpm (42.8 lpm);

Tier III - 15.1 gpm (57.2 lpm)

Belt Drive Type:

Fixed-displacement gear motor drive through #50 chain

OPERATOR CONTROLS:

Raise/Lower

Propulsion handle-mounted

button control- fully up or fully down

Belt Speed

Right-hand console mounted,

two-action On/Off switch and

variable speed toggle switch

Side Deflector

**WR102 CARTED WHEEL RAKE
US PRICE LIST**

(Ex Works Mountville, PA)

Standard Equipment

GENERAL:

Carted "Vee"-Type rake
8, 10, and 12 wheel configurations
High clearance frame design
Hydraulic lift and lower of raking wheel frames
55 in. diameter raking wheels with (40) 7mm diam. tines
Raking wheels supported on greasable tapered roller bearings
Shock absorbing, constant ground contact pressure of each raking wheel
Independent adjustable spring suspension of LH and RH frames
Manual raking wheel frame angle adjustment
Manual windrow width adjustment - from 3 ft. to 6 ft. 7 in.
Right or left wheel frame raking capability
(2) 205-75 x 15 in. tires
For transport, wheel frames fold horizontally above main frame

SPECIFICATIONS:

Raking/Maximum working width:
8 wheel - 18 ft.
10 wheel - 21 ft.
12 wheel - 24 ft. 6 in.
Minimum windrow width:
(8, 10, 12 wheel) - 3 ft.
Maximum windrow width:
(8, 10, 12 wheel) - 6 ft. 7 in.
Transport width:
(8, 10, 12 wheel) - 8 ft. 5 in.
Minimum transport height:
(8, 10, 12 wheel) - 7 ft. 9 in.
Overall transport length:
8 wheel - 19 ft.
10 wheel - 19 ft.
12 wheel - 22 ft.

The maximum raking angle and minimum width adjustment may cause rake tine interference. The maximum raking angle may result in poorer raking performance.

TRACTOR REQUIREMENTS:

8 wheel - 30 hp (minimum)
10 wheel - 30 hp (minimum)
12 wheel - 50 hp (minimum)
Tractor rear remote valve:
1 - double acting

OTHER STANDARD EQUIPMENT:

Adjustable clevis hitch
Adjustable parking jack

¹ All adapter kits for 6-cylinder windrowers will operate both center-delivery and double-swath headers. Factory adapter kits for MY13 4-cylinder windrower will operate both center-delivery and double-swath headers

² Factory installed adapter kits are ordered with the windrowers from wholegoods using Section 9 Code BD listed in the price book

³ Parts Division Supplied adapter kits are ordered from the Parts Division

⁴ Dealer installed kit 87656845 includes additional hydraulic components (over and above those required to operate a center-delivery header) that must be installed to operate a double-swath header on a 4-cylinder windrower (MY12 & Prior).

⁵ Dealer installed kit 87347506 includes additional hydraulic components (over and above those required to operate a center-delivery header) that must be installed to operate a double-swath header on a 4-cylinder windrower (MY12 & Prior).

⁶ When dealer installing a Draper Header Adapter (87347738 or 87532169) on windrowers that will have a 30 or 36-foot draper header attached, it will be necessary to replace the 2.50 in. (63.5 mm) internal bore diameter header lift cylinders with new cylinders that have an internal bore diameter of 2.75 in. (70 mm). The part number of the 2.75 in. (70 mm) bore diameter lift cylinder is: 87352604 (2 required). Windrowers ordered with the factory installed draper header adapter kit have the larger cylinders installed.

* * To attach a MY09 or newer draper header to a MY09 WD--3 Series windrower with dealer-installed draper reed, or to a MY08 WD--3 Series windrower or an WD--2 windrower, an additional wiring harness kit (#87496882) must be ordered to control the synchronized reel speed system that is standard equipment on the draper header. **A MY09 draper header cannot be installed on a WD--2 Series windrower.** A MY09 or newer windrower with Factory or Dealer-Installed draper reed can accept a MY08 or prior HB header without modification, however the reel speed control will not have the auto reel-speed-to-ground-speed synchronization function.

1. Two Accumulator Models:

Model 3104 - fits all versions of current LB334 balers (and prior LBX331, LBX332 & LB333)

Model 4104 - fits all versions of current LB434 balers (and prior LBX431, LBX432 & LB433)

2. Accumulator Features:

- Case IH branded
- Integrated VT electronics for LB series 3 balers:
 - Accumulator controller plugs into baler control
 - Both baler and accumulator are displayed on a VT terminal
 - Dump and see the status of the accumulator from the baler work page
- PhiBer In cab control box for LBX series 1 & 2:
 - informs operator number of bales and location on accumulator
 - can be programmed to dump bales in any of four patterns
 - can manually dump all bales at any time
- Hydraulic bale push-off roller:
 - ensures bales are grouped together for rapid retrieval,
 - eliminates tipping tables that scuff the ground like other accumulators
- Few moving parts to maintain, only four grease points
- Four automatic dump patterns or manually eject at anytime.
- Dual caster action wheels provide maximum flotation and allow the accumulator to follow the baler with ease.
- Options:
 - Silage bale roller
 - Bale scale (separate control box in cab)
 - Heavy duty tires (10ply)
 - Hose kit

PL-100 GH REVISION 42 REVISED

SAP PRICE LIST 017 C7

EFFECTIVE FEBRUARY 3, 2014

THIS IS A COMPLETE REVISION

This price list is intended for dealers with a GH contract only.

This Complete Revision includes new or revised information for 2014 Model Year, and replaces all prior price list revisions and price bulletins.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

transport locking pins
Tool box
Tie down shipping points
Chassis rear tow points
Back up safety alarm
Service platforms
Right front service ladder
(2) 10 lb. dry chemical
(ABC) fire extinguishers

ADVANCED FARMING SYSTEMS:

Pre-wired for AFS yield and moisture
sensors, and GPS antenna
AFS Pro 700 Display
Interface for AFS AccuGuide, ACS and
Yield and Moisture Monitoring
AFS Desktop software for PC

HYDRAULICS:

Closed center system: header lift, reel
lift, unloader swing and steering
Open center system: reel drive,
unloader engage, feeder and
separator engage and power brakes
Electro-hydraulic control system for
separator, feeder, unloader swing,
unloader engage, reel raise/lower,
reel fore/aft and header lift
Single point/single lever header
multi-coupler

FEEDER:

Single lever header quick attach
Undershot - slatted with friction drive
slip clutch
Feeder reverser, electrically controlled,
hydraulic
Three strand roller chain w/bolted slats
Feeder silencer ready
(2) 3.15 inch (80 mm) diameter
lift cylinders

CLEANING:

Auger bed with 5 extended wear
augers and single point cleanout
control
Cross Flow™ cleaning fan - includes
low air flow adjustment for grass
seeds, variable speed with cab
controls, 450/1250 RPM
Left side fan air inlet shield/screen
Fan air inlet bottom shield/screen
Residue discharge dual speed
External sieve adjustment
(chaffer center section and shoe)

11/111 Bull gear final drive 117 cc
pump and 107 cc motor
Electric shift 4 speed w/hydrostatic
drive
Heavy-duty propulsion system
20 mph (32 kph) max road speed

BRAKES:

Manual dual caliper disc
Electro-hydraulically released, spring
applied park brake

CHASSIS:

Composite, hinged trim panels with
transport locking pins
Chassis jacking points
Tie down shipping points
Chassis tow points
Removable Tool box
Large Enclosed Tool box
Service tool connection
Combine reverse safety alarm
Service platforms on both sides
of chassis
Fan bottom shield
Two 10 lb. dry chemical
fire extinguishers

HYDRAULICS:

Closed center load sensing system
Single point/single lever header
multi-coupler
Electro-hydraulic control:
Feeder raise/lower with variable
rate control
Reel fore & aft, raise/lower
Unloader swing, Unloader drive clutch
Separator Drive (Includes rotor drive,
cleaning sieves, elevator drive and
straw chopper drive)
Feeder drive clutch
Hydraulic Drives:
Reel speed control
Cross Flow Plus™ cleaning fan with
speed control
Dual straw spreader drive with adj.
speed control
Ride control feeder lift
circuit accumulator

FEEDER:

Single lever header quick attach
54 in. (1,366 mm) wide
Wear resistant floor and chain supports
Undershot-serrated slat conveyor
Four strand, 3 section conveyor with
bolt on slats

PL-100 FAM REVISION 3

SAP PRICE LIST 005 CJ

EFFECTIVE SEPTEMBER 9, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the AG and AL contracts.

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:

PL-100 FD REVISION 13

SAP PRICE LIST 026 C2

EFFECTIVE OCTOBER 1, 2013

THIS IS A COMPLETE REVISION

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:

PL- 100 FN REVISION 11

SAP PRICE LIST 026 C2

EFFECTIVE OCTOBER 1, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the AG and AL contracts.

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

PL-100 MA REVISION 14

SAP PRICE LIST 016 C3

EFFECTIVE OCTOBER 2, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with AG and AL contracts only.

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:
(for inquiries - not to place orders)
