U.S. Shipping Wheel Program for Maxxum Series Tractors

Case IH dealers are able to order a Maxxum Series tractor with returnable shipping wheels. The intention of this program is to help dealers sell Case IH tractors to their retail customers with the desired tires and wheels when Case IH can not offer a unique option from the factory.

Program Details:

1. While placing an order for the tractor the dealer chooses front and rear shipping wheel order codes where applicable.
2. Case IH will deliver the tractor to the dealer with the shipping wheels.
3. The dealer is invoiced per set for the following amounts

Order Codes	Maxxum Tractors
Rears - 8399906	\$(2,901)
Fronts - 8299905	\$(1,105)
Fronts - 8299906	\$(1,105)

4. Upon receipt of the tractor the dealer will dismount the shipping wheels, place them on a wooden skid and band them to the skid for return to a consolidation point. Wheels must be returned to the collection center clean, free of debris and shrink-wrapped.
5. Case IH has consolidation points set up in North America where the shipping wheels must be returned. The address of the U.S. consolidation point is:

CNH America
2700 Broening Hwy
Dundalk Marine Terminal - Lot 100/Building 100
Baltimore, MD 21222

6. Contact your Case IH Sales Support Specialist advising him/her of the location where you will be returning your shipping tires.
7. Your Case IH Sales Support Specialist will issue an RGA number.
8. Securely attach the RGA to your shipment so that it is identifiable to the receiving party.
9. Contact the freight line of your choice to make arrangements to return the shipping wheels to the consolidation point. Freight to return the shipping wheels from the Case IH dealer to the consolidation point must be pre-paid by the dealer. **The freight cost will NOT be reimbursed.**
10. Upon receipt of the shipping wheels at the consolidation point your Case IH dealer account will be credited the following amounts:

Rears - codes 8399906 credit	\$840
Fronts - codes 8299905 & 8299906 credit	\$560

If you have any questions regarding this program please contact your Sales Support Specialist.

General Information

Prices shown herein are suggested prices only and in no way are they to be construed as limiting or restricting the dealer in his determination of the ultimate retail selling price. It is understood that the dealers are free to determine their selling price. Subject to any Federal, State or local laws.

Where shown herein liquid capacities are U.S. measure unless otherwise noted.

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

Prices and specifications are subject to change without notice.

CONTENTS OF ORGANIZATION

Case Construction Equipment Inc issues price lists and revisions covering each Case contract. U.S. Price List is published in U.S. funds. Canadian Price List is published in Canadian funds. Assure that you are using the correct price list. The Canadian price lists are denoted by a Maple Leaf on the price list cover page and the symbol "(CDN)" is printed at the head of the Factory Supplied Attachments List columns.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory" and "Factory Supplied Attachments".

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory", "Factory Supplied Attachments", or "Third Party Supplied Attachments" pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" or "Third Party Supplied Attachments" heading are available for installation in the field.

ATTACHMENTS

Expect Attachments to be shipped within 2 -3 weeks from order entry.

General Information

DISTRIBUTION OF PRICE LISTS / REQUESTS FOR ADDITIONAL COPIES

Price lists will be provided electronically via that Dealer Portal.

Contact information for additional copies of Case Construction Equipment Price Lists

Additional price lists, divider tabs and binders may be ordered at the Document Management Center. From Dealer Portal click on Tools then Document Management Center link. Any questions you can call the Document Management Center at 262-636-7540

You will only receive price lists for contracts covered by your current Dealer Agreement with the Company.

The revisions are dated and are effective as of that date. However, PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

PL-200 SL SAP REVISION 12A

**EFFECTIVE FEBRUARY 11, 2013
REVISED JUNE 4, 2013**

THIS IS AN ELECTRONIC COPY ONLY – HARD COPIES WILL NOT BE DISTRIBUTED.

This price list is intended for dealers with the (SL) contract only.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

The models listed below are included in this price list and are part of the Compact Track Loader Family.

TR270
TR320
TV380

PLEASE NOTE: Retain the price book pages of the discontinued series for your records.

CNH America, LLC**

General Information

Prices shown herein are suggested prices only and in no way are they to be construed as limiting or restricting the dealer in his determination of the ultimate retail selling price. It is understood that the dealers are free to determine their selling price. Subject to any Federal, State or local laws.

Where shown herein liquid capacities are U.S. measure unless otherwise noted.

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

Prices and specifications are subject to change without notice.

CONTENTS OF ORGANIZATION

Case Construction Equipment Inc issues price lists and revisions covering each Case contract. U.S. Price List is published in U.S. funds. Canadian Price List is published in Canadian funds. Assure that you are using the correct price list. The Canadian price lists are denoted by a Maple Leaf on the price list cover page and the symbol "(CDN)" is printed at the head of the Factory Supplied Attachments List columns.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory" and "Factory Supplied Attachments".

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory", "Factory Supplied Attachments", or "Third Party Supplied Attachments" pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" or "Third Party Supplied Attachments" heading are available for installation in the field.

ATTACHMENTS

Expect Attachments to be shipped within 2 -3 weeks from order entry.

General Information

DISTRIBUTION OF PRICE LISTS / REQUESTS FOR ADDITIONAL COPIES

Price lists will be provided electronically via that Dealer Portal.

Contact information for additional copies of Case Construction Equipment Price Lists

Additional price lists, divider tabs and binders may be ordered at the Document Management Center. From Dealer Portal click on Tools then Document Management Center link. Any questions you can call the Document Management Center at 262-636-7540

You will only receive price lists for contracts covered by your current Dealer Agreement with the Company.

The revisions are dated and are effective as of that date. However, PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

SAP PRICE LIST 018 CG

EFFECTIVE AUGUST 19, 2013

THIS IS A COMPLETE REVISION

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:

PL-100 SP REVISION 38

SAP PRICE LIST 021 CH

EFFECTIVE DECEMBER 1, 2013

THIS IS A COMPLETE REVISION

This Complete Revision includes new or revised information and replaces all prior revisions.

The products included in this price list are eligible for the Performance Plus Program.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:

PL-100 PS REVISION 14

SAP PRICE LIST 017 C3

EFFECTIVE APRIL 1, 2014

THIS IS A COMPLETE REVISION

This price list is intended for dealers with AG and AL contracts only.

This Complete Revision includes new or revised information and replaces all prior revisions

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

Copyright 2014 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue

U.S. Shipping Wheel Program for PUMA (Short Wheel Base) Series Tractors

Case IH dealers are able to order a PUMA (SWB) Series tractor with returnable shipping wheels. The intention of this program is to help dealers sell Case IH tractors to their retail customers with the desired tires and wheels when Case IH can not offer a unique option from the factory.

Program Details:

1. While placing an order for the tractor the dealer chooses front and rear shipping wheel order codes where applicable.
2. Case IH will deliver the tractor to the dealer with the shipping wheels.
3. The dealer is invoiced per set for the following amounts

Rears - order code 8399906	\$(3,114)
Fronts - order code 8299906	\$(1,457)

4. Upon receipt of the tractor the dealer will dismount the shipping wheels, place them on a wooden skid and band them to the skid for return to a consolidation point. Wheels must be returned to the collection center clean, free of debris and shrink-wrapped.
5. Case IH has a consolidation point set up in North America where the shipping wheels must be returned. The address of the consolidation point is:

CNH America
2700 Broening Hwy
Dundalk Marine Terminal – Lot 100/Building 100
Baltimore, MD 21222

6. Contact your Case IH Sales Support Specialist advising him/her of the location where you will be returning your shipping tires.
7. Your Case IH Sales Support Specialist will issue an RGA number.
8. Securely attach the RGA to your shipment so that it is identifiable to the receiving party.
9. Contact the freight line of your choice to make arrangements to return the shipping wheels to the consolidation point. Freight to return the shipping wheels from the Case IH dealer to the consolidation point must be pre-paid by the dealer. **The freight cost will NOT be reimbursed.**
10. Upon receipt of the shipping wheels at the consolidation point your Case IH dealer account will be credited the following amounts:

Rears - code 8399906 credit	\$839
Fronts - code 8299906 credit	\$559

If you have any questions regarding this program please contact your Sales Support Specialist.

PURCHASED PROTECTION

Pricing and program details can be found on the Dealer Portal or by contacting the CPP hotline @ 1-866-606-1802. Not all models are eligible for CPP.

PL-100 HD REVISION 11

SAP PRICE LIST 016 C7 and 016 C8

EFFECTIVE OCTOBER 2, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with a GH contract only.

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:
(for inquiries - not to place orders)
(262)636-7540
Internal E-mail: #NA DMC ORDER CENTER

Complete U.S. Price List is PL-100
Complete Canadian Price List is PLC-100

Periodic price list revisions are usually accompanied by a cover sheet which carries instructions on price page changes and where to insert replacement or new price pages. The revisions are dated and are effective as of that date.

PL-100 FM REVISION 11

SAP PRICE LIST 026 C2

EFFECTIVE OCTOBER 1, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the AG and AL contracts.

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

Prices included in this price list are eligible for the Performance Plus Program.

**Prices in this revision are subject to change.
Please check eEquipment for the most current pricing.**

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and "Factory Supplied Accessories."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and "Factory Supplied Accessories" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Accessories listed following the "Factory Supplied Accessories" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

PL-100 FA REVISION 7

SAP PRICE LIST 026 C2

EFFECTIVE OCTOBER 1, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the AG and AL contracts.

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:
(for inquiries - not to place orders)
(262)636-7540
Internal E-mail: #NA DMC ORDER CENTER

Complete U.S. Price List is PL-100
Complete Canadian Price List is PLC-100

Periodic price list revisions are usually accompanied by a cover sheet which carries instructions on price page changes and where to insert replacement or new price pages. The revisions are dated and are effective as of that date.

PL-100 DT REVISION 20

SAP PRICE LIST 019 CH

EFFECTIVE NOVEMBER 7, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the Yield-Till system (DT) contract only.

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue

A & B MAINFRAMES:

The A Mainframe is 99 in. wide
The B Mainframe is 133 in. wide
Double bar 4 in. x 6 in. tubing,
20 in. rank
3-pt. hitch with Cat. II and III pins
Parking stand (qty 1)

Recommended maximum working
speed is 6 mph
Guidelines are affected by:
operating depth and speed, points,
shanks and how the 2500 is optioned;
e.g., coulters, coverboards, levelers,
bedders, etc.

C & D MAINFRAMES:

The C Mainframe is 135 in. wide
The D Mainframe is 170 in. wide
Double bar 6 in. x 6 in. tubing,
22 in. rank
3-pt. hitch with Cat. III pins
Parking stands (qty 2)

Requirements for Operation:
(continued)

ORDERING INSTRUCTIONS:

Use the 2500 Application Guideline
Chart to determine which Base
Machine,
Options and Accessories should be
ordered to equip the ecolo-til 2500 for
the customer's tillage application.

SHANKS, SHANK MOUNTS AND POINTS:

1 1/4" x 3" Parabolic shanks
Shear Bolt Shank Mounts
2" Straight Points

Where two Mainframe options are
available for the same size machine,
use the 2500 Configuration Chart
to help identify the best configuration
for your customer.

COULTER:

22" Coulters

Order the appropriate one considering
the following:

- Are there additional row spacings
the farmer may want to use that fit one
Mainframe over another?
- Is transport width a consideration?
- Will the farmer want to increase
the size of the ecolo-til 2500 in
the future?
- Does the farmer want a rigid
machine or folding wings?

COMMON STANDARD FEATURES:

Two (2) screw-adjust gauge wheels
per machine, with 20.5 x 8 tires
SMV emblem and reflectors
Warning and tail lights with a
7-Pin connector (all sizes)

Requirements for Operation:

OPERATING GUIDELINES:

Vary with soil conditions

13 - 17 Engine horsepower per foot or
33 Engine horsepower per shank in
lighter, looser soils
44 Engine horsepower per shank in
hard, tight, very compacted soils

The 2500 Configuration Chart also
identifies which Row Markers, if
applicable, can be used with a
configuration of machine.

TRANSPORT DIMENSIONS:

- Approximate width to the outside of the frame on machines with bolt-on wings or to the outside of the shanks in the folded position on machines with folding wings.
- Approximate height to the top of the machine (wings folded for models with folding wings), assuming the tractor lifts the machine to provide 6" of "under shank" clearance in the transport position.
- Transport dimensions may be wider if level'rs or bedders are added to the machine.

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH Industrial N.V. issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and "Factory Supplied Accessories."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and "Factory Supplied Accessories" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Accessories listed following the "Factory Supplied Accessories" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

PL-100 TPL REVISION 2

SAP PRICE LIST 003 CK

EFFECTIVE JULY 1, 2013

THIS IS A COMPLETE REVISION

This Complete Revision includes new or revised information Twin-Row Planters.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:
(for inquiries - not to place orders)
(262)636-7540
Internal E-mail: #NA DMC ORDER CENTER

Complete U.S. Price List is PL-100
Complete Canadian Price List is PLC-100

Periodic price list revisions are usually accompanied by a cover sheet which carries instructions on price page changes and where to insert replacement or new price pages. The revisions are dated and are effective as of that date.

PL-100 FW REVISION 42

SAP PRICE LIST 020 C5

EFFECTIVE MARCH 2, 2014

THIS IS A COMPLETE REVISION

This price list is intended for dealers with a 4WD contract only.

This is the price list for the Tier 4 B/Final AG and Scraper Models for 2014 Model Year.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue

Steiger Special Feature Requests

The Special Feature Request (SFR) process provides Case IH dealers with a method of offering features to their customers that are not addressed by the base unit and option configurations in the price book. Special features are developed as unique solutions to individual requirements. SFR codes are not listed in the price book. They are, however, factory approved custom solutions to fill the specialized needs of Case IH Steiger 4WD customers.

The Special Feature Request Process

Once the SFR request form is completed it is submitted electronically to the Case IH marketing team (nacaseihfr@cnh.com). The form is available under the Wholegoods tab on the Dealer Portal. The SFR request will be analyzed and preliminary approval or denial will be determined. Marketing determination will be based on the following factors:

- Market need / niche – is there an emerging market trend that requires a certain feature for increased efficiency or improved performance.
- Market potential / volume expectations – how large is the short term market potential and how many units will be impacted by the SFR. Are there longer term market growth opportunities that result from this special feature.
- Parts and service requirements – will the SFR address a gap in the parts product offering, or will the SFR introduce unnecessary complexity to the parts and/or service system.
- Manufacturing complexity – can the requested feature be manufactured and efficiently integrated into the plant.
- Safety and reliability – will the SFR introduce any degradation to the safety or reliability standards of the machine or operator.
- Other alternatives to address need – can the identified market need be satisfied through alternate means.

If the SFR is denied a detailed explanation will be provided to the initiator of the request. If the SFR receives preliminary marketing approval, it is forwarded to the Fargo plant and the SFR Coordinator for manufacturing and engineering review.

When the SFR Coordinator receives the marketing-approved SFR request, if engineering/manufacturing concurs they will begin the sequential process of developing a bid price. The following events takes place at Fargo when SFR bids are developed:

1. The costs to complete the SFR are determined and a final bid (SFR price) is developed
2. The final bid is reviewed for completeness and accuracy
3. The bid is approved, revised, or declined by Fargo Plant Management
4. If approved, the bid is given to the originator of the SFR request
5. The originator prices the bid to the customer

How Long Does a SFR Bid Take?

Once preliminary approval is received the completed bid price will be quoted within 15 business days via e-mail to the individual who originated the request. More complex SFR bids that require supplier input or confirmation may take longer.

Ordering Deadlines

You should note that quoted prices are valid for one month beginning on the quote date. If an order is not submitted within the 30 day period the bid is considered void. The SFR initiator must reply to nacaseihshr@cnh.com with acceptance of the bid. The confirmed SFR number must be added as a note to the tractor order.

Some Notes About Costs

The cost of developing a single special feature can sometimes be quite expensive. This high cost is due to one time engineering and manufacturing costs that are recovered in the price of the SFR. Orders for multiple units with the same SFR feature decrease the cost per unit by spreading this fixed cost (development and engineering) over the multiple units. In addition, all SFRs are kept on file. If a request matches a project completed earlier the development time and cost of the SFR may be reduced and the cost savings reflected in the quote to the originator."

Manufacturing Lead Time

The lead time to build a tractor with a SFR will vary upon the complexity of the feature and the availability of special parts. Lead times begin once the SFR has been accepted by the dealer and ordered.

Examples of SFRs

A few examples of Special Features Requests completed for Steiger customers are:

- Tire sizes and brands not offered in the price book
- Special configurations
- Replacement cabs

The Special Feature Request process allows Case IH to better serve your customers. By developing features to address customer's individual needs you are assisting them in becoming more productive and profitable. Use the SFR process to assist you in selling the complete line of Steiger tractors.

SFR Description / Market Analysis:

Briefly describe the Special Feature Request that you are applying for:

What market need or niche does this feature satisfy that is not available today?:

How many units will you retail with this special feature request over the next 30 days, and within the next year? Are these retails at risk if the SFR is denied and is the offering available on a competitive unit?:

Does this SFR address a current gap in the parts product offering – i.e. a complete cab or transmission not available through parts?:

Are there other alternatives to the SFR you are requesting – i.e. can the market need you've identified above be satisfied through other means?:

Ship by rail process for Fargo 4WD Tractors

High trucking costs can be a substantial expense to your agricultural dealership. In some cases, shipping by rail can offer a cost effective alternative. The intent of this summary is to establish a set of guidelines for you to obtain a quote, and to understand the process involved with shipping 4WD tractors from the Fargo ND plant by rail.

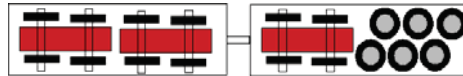

The Fargo tractor plant is served by the BNSF Railway. BNSF’s shipping area covers the US west of the Mississippi. As the originating railroad, BNSF can quote and arrange any tractor shipments from Fargo, even if it is outside their area of coverage where interconnections must be made with other railroads for the final destination. Rail shipment economies depend on geographic location, interconnecting railroads, the number of units being shipped, costs of shipping units from the final rail destination to the dealership, and rail transit times. When comparing rail costs to truck costs, keep in mind that a 4WD tractor with duals and ballast may have to ship on two trucks, or in the case of a Quadtrac, require an overweight permit. Weight is not an issue for shipping by rail.

The following is the process for shipping Fargo 4WD Tractors by rail:

1. Understand what will fit on train cars

Fargo tractors

- 1 wheeled unit with duals will fit on one 60ft car.
- 3 wheeled units and duals will fit on two 60ft cars.
- Dual tires are in stacks of two.
- 250,000 lbs per car weight limit

2. Contact at Burlington Northern Santa Fe (BNSF)

- LaToya Benson (BNSF Industrial Products Sales) is the point of contact for dealers to arrange rail shipments from Fargo or Racine.
 Office: (708) 924-6758
 Mobile: (312) 316-6827
 Email: LaToya.Benson@BNSF.com
- To request a shipping quote, send an email to LaToyaBenson@BNSF.com , include the following information:
 - Dealership name, city and state.
 - Potential volume of units to be shipped by rail.
 - Is the store location rail served or not rail served?
 - If the store is not rail served, then BNSF can help locate the nearest **Team Track Ramp** or **Transloader**. See below for definitions:
 - **Team Track Ramp:** This is a rail drop off point equipped with a ramp for unloading tractors. When the train arrives a notice is sent to the receiving dealership that is responsible for unloading the tractor and any duals within a 48 hour period.
 - **Transloader:** This is full service drop off point. The Transloader is a 3rd party who can be hired to unload and store the equipment. Some Transloaders have trucking services such that they can deliver equipment to a final destination. The Transloader is independent of BNSF and CNH.

- If your dealership is located in the US west of the Mississippi, refer to the BNSF map online showing **Team Track Ramps** and **Trans Loaders** at <http://domino.bnsf.com/website/bnsfpmtn.nsf/welcome>. If you are located east of the Mississippi or in Canada, contact BNSF to identify unloading locations.
- BNSF will establish a through rate, per car, from the plant to the final rail destination, a shipping pattern, and an estimated transit time. The shipping pattern contains specific instructions for the rail Bill of Lading. The rates are established using the CNH discount. Contract rates are good through the end of the calendar year (December 31st).
- BNSF will assist you to complete an application and establish an account for the dealership.

3. Place orders for tractors and notify Fargo shipping yard

- Orders must be marked to ship RR (Rail Road) in the COPS “Ship Via” field.
- Fargo orders must have code 429303 for mounted ballast.
- In the comments section of the order include: BNSF contract number, shipping pattern, and all the order numbers to ship by rail.
- Reliance Transportation is the releasing yard for the plant. Send Reliance a notification of the order numbers that will ship by rail.
Phone 701-293-3617
Fax 701-293-5920

4. The tractors are built and released to the releasing yard.

- The releasing yard will load the tractor(s) and any duals. The order will invoice and the terms will start. BNSF will pick up the rail car(s) at the next scheduled switch.

5. BNSF will bill the dealer directly.

- An invoice will be generated as soon as the load is billed out at the plant. The standard billing terms are 15 days. The bill will include the per car rate, and a fuel surcharge. During transport, BNSF Liability is limited to \$25,000 per car, and additional coverage is available through BNSF.
- Online tracking, fuel surcharge, and other tools are available at <http://www.bnsf.com>

6. Arrive final rail destination

- If the final destination is a **Team Track Ramp**, then on arrival the dealer will be notified and has a 48 hour window to unload the unit. There is a \$75 per day demurrage charge, for everyday beyond the 48 hour unloading window.
- If the final destination is a **Trans Loader**, then the unit will be unloaded and stored or per the agreement between the dealer and the Trans Loader facility.
- It is the dealer’s responsibility to move the equipment from the rail destination to the dealership.

You now have a process to obtain a quote for shipping Fargo tractors via rail. You be the judge if shipping by rail is right for your business.

PL-100 SE REVISION 35

SAP PRICE LIST 018 CD

EFFECTIVE AUGUST 20, 2013

THIS IS A COMPLETE REVISION

This Complete Revision includes new or revised information for Precision Disk Dual Rank Single Disk Drills and Precision Air Systems and replaces all prior price list revisions and price bulletins.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and "Factory Supplied Accessories."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and "Factory Supplied Accessories" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Accessories listed following the "Factory Supplied Accessories" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:

transport height.
Hardened wing pins with replaceable
wear bushings.
High quality powder paint on all
frame members.
Wing float: 15 degrees up, 10
degrees down.
Robust welded frame design, provides
superior durability over bolted designs.

HITCH:

Floating with Cat IV hitch.
Hardened pins with replaceable
wear bushings

ROW UNITS:

Single disk openers, with single
bevel 18" (46 cm) disk.
Parallel link row units for optimum
ground following and seed placement
(patent/pending).
Large range of opener travel from
8.5" up to 11.5" down from level
soil surface.
Three packer wheel down pressure
settings of 59, 71 and 84 lbs at 1.5"
seeding depth.
Depth adjustment, one handed
operation with 14 increments from
0" to 3.5" (0 to 8.9 cm) deep.
(patent/pending)
Integrated trash guard.

ROW UNITS: (cont.)

10" row spacing standard, 7.5" spacing
optional. Split rank is in base on both
7.5" and 10" mounted tank units.
Durable design featuring:

- Double row bearing with integral
double lip seals and external shield.
- Scraper with integral tungsten
carbide wear components.
- Solid 1.3" (34 mm) spindle
- Earth metal boron steel coulter.
- Heavy duty 1.25" (32 mm) main
pivot pins with oil impregnated
copper iron alloy bushings in all
locations.

DOWN PRESSURE:

Single point hydraulic down pressure
control, with optional in cab
adjustment from 200 to 1400 psi.
Variable pitch down pressure spring
for improved terrain following
(patent/pending).
Double acting down pressure cylinders
with nitro shafting for long life.

MOUNTED TANK:

Integral seed tank and easy access
meter system
Durable rotomolded 70 bu. plastic
tank with sliding access hatch and 4
clean-out ports.
Variable rate seed drive, adjustable
from the cab.
Seeding rate monitoring and blockage.
Manual 2 section seed control (half
width), optional 4-Section GPS-based
overlap control.

Weight - 17,000 lbs. (7700 kg)

SPLIT RANK:

Split Rank system is standard to allow seeding with only the front or rear ranks (7.5 in./15 in.) or (10 in./20 in.) with simple hydraulic control and flow divider valves incorporated into the air delivery system

OPTIONAL FEATURES:

In cab downpressure adjustment.
High flotation wheel package.
Weight brackets.
Hydraulic work switch.
4-Section GPS-based overlap control.
Seed meter rain shield kit (order through parts).

Note: Meets the following ASAE safety standards:

S276.7: Slow-Moving Vehicle Identification Emblem.
S279.15: Lighting and Marking of Agricultural Equipment on Highways.
S318.16: Safety for Agriculture Field Equipment
S338.5: Safety Chain for Towed Equipment.
S365.8 Braking Criteria for Agricultural Field Equipment

Requirements for Operation:

Monitor and Control System: Case IH AFS Pro 700 or ISO 11783 compliant monitor/electronics. Cab mounted AFS Pro 700 virtual terminal display provides operator feedback including but not limited to: Low-bin level, Fan Pressure, Ground speed, Rate per acre, Accumulated acres, population graph, individual meter monitor/status, row unit down pressure.
- The Precision Disk 500T is not compatible with the Pro600 display
- The Precision Disk 500T must use v28* CNH display software or newer.

Standard Equipment

Requirements for Operation: (cont.)

Tractor equipped with ISO 11783 (ISOBUS) compliant Tractor ECU (TECU) [that sends at least one standard ground speed message on the implement CAN bus]. Otherwise, order GPS speed sensor from Factory Supplied Accessories. The drill software requires ground speed information to maintain the correct seeding rate.

3.8 PTO hp minimum per opener, plus as required for additional towed implements (air cart etc.)

30 GPM minimum recommended hydraulic flow for all mounted tank drills.

Maximum allowable hydraulic pressure lower than either 3000 psi or factory settings for individual tractors.

Three hydraulic control valves for wing folding, row unit down pressure and mounted tank operation.

Additional control valves may be required for air cart/additional implement operation.

2400 psi minimum hydraulic pressure.

Do not tow more than two implements behind the tractor while transporting between fields.

Do not tow the implement at speeds over 20mph.

Requirements for Operation: (cont.)

Tractor equipped with 12 volt electrical system with a 7 pin auxiliary electric outlet for warning lights.

Tractor draw bar that can be locked in a stationary position with an intermediate draw bar chain support.

The total towed weight should be less than 1.5 times the maximum operating weight provided by the tractor manufacturer.

The total towed weight should be reduced based on tractor condition and road condition.

Minimum requirements are a starting point only and should be increased based on operating conditions in the field (hills, soil conditions, speed etc), road transport conditions and other implements that are used with the drill.

Product specifications are based on information available at the time of publication. These specifications are subject to change without notice.

Dealer requirements for Unloading:

- roll-on roll-off the trailer

Suggested Crop/Meter Roller Cross Reference

Extra Fine -low rates of sorghum

Fine - higher rates of sorghum, medium rates of wheat and flax

Coarse - soybeans and higher rates of wheat, rice, barley and oats.

4" x 6" (10cm x 15cm) structural steel frame members with 6" x 10" x 3/8" wall (15 cm x 25 cm x 9.5 mm wall) main spars.
Three section design, with hydraulic wing fold
Two rank toolbar, with individual 4" x 4", 3/8" wall (10 cm x 10 cm, 9.5 mm wall) rotating sub-bars.
∇" frame design for optimal transport height
Hardened wing pins with replaceable wear bushings.
High quality powder paint on all frame members.
Wing float: 15 degrees up, 10 degrees down.
Robust welded frame design, provides superior durability over bolted designs.

HITCH:

Floating with Cat IV hitch.
Hardened pins with replaceable wear bushings

ROW UNITS:

Single disk openers, with single bevel 18" (46 cm) disk.
Parallel link row units for optimum ground following and seed placement (patent/pending).
Large range of opener travel from 8.5" up to 11.5" down from level soil surface.
Three packer wheel down pressure settings of 59, 71 and 84 lbs at 1.5" seeding depth.
Depth adjustment, one handed operation with 14 increments from 0" to 3.5" (0 to 8.9 cm) deep. (patent/pending)
Integrated trash guard.

ROW UNITS: (cont.)

10" row spacing standard, 7.5" spacing optional.
Split rank is in base on both 7.5" and 10" mounted tank units.
Durable design featuring:
- Cast frame, link and adjustment handle.
- Heavy duty rubber smooth faced concave 4" x 12" (10 cm x 30 cm) packer wheel
- High strength chrome silicon springs
- Double row bearing with integral double lip seals and external shield.
- Scraper with integral tungsten carbide wear components.
- Solid 1.3" (34 mm) spindle
- Earth metal boron steel coulter.
- Heavy duty 1.25" (32 mm) main pivot pins with oil impregnated copper iron alloy bushings in all locations.

DOWN PRESSURE:

Single point hydraulic down pressure control, with optional in cab adjustment from 200 to 1400 psi.
Variable pitch down pressure spring for improved terrain following (patent/pending).
Double acting down pressure cylinders with nitro shafting for long life.

Requirements for Operation:

- Monitor and Control System: Case IH AFS Pro 700 or ISO 11783 compliant monitor/electronics. Cab mounted AFS Pro 700 virtual terminal display provides operator feedback including but not limited to: Low-bin level, Fan Pressure, Ground speed, Rate per acre, Accumulated acres, population graph, individual meter monitor/status, row unit down pressure.
- The Precision Disk 500T is not compatible with the Pro600 display
 - The Precision Disk 500T must use v28* CNH display software or newer.

Tractor equipped with ISO 11783 (ISOBUS) compliant Tractor ECU (TECU) [that sends at least one standard ground speed message on the implement CAN bus]. Otherwise, order GPS speed sensor from Factory Supplied Accessories. The drill software requires ground speed information to maintain the correct seeding rate.

3.8 PTO hp minimum per opener, plus as required for additional towed implements (air cart etc.)

30 GPM minimum recommended hydraulic flow for all mtd. tank drills.

Maximum allowable hydraulic pressure lower than either 3000 psi or factory settings for individual tractors.

Three hydraulic control valves for wing folding, row unit down pressure and mounted tank operation. Additional control valves may be required for air cart/additional implement operation.

2400 minimum hydraulic pressure.

Do not tow more than two implements behind the tractor while transporting between fields.

Do not tow the implement at speeds over 20mph.

Requirements for Operation: (cont.)

- Tractor equipped with 12 volt electrical system with a 7 pin auxiliary electric outlet for warning lights.
- Tractor draw bar that can be locked in a stationary position with an intermediate draw bar chain support. The total towed weight should be less than 1.5 times the maximum operating weight provided by the tractor manufacturer.
- The total towed weight should be reduced based on tractor condition and road condition.

Minimum requirements are a starting point only and should be increased based on operating conditions in the field (hills, soil conditions, speed etc), road transport conditions and other implements that are used with the drill.

Product specifications are based on information available at the time of publication. These specifications are subject to change without notice.

Dealer requirements for Unloading:
-roll-on roll-off the trailer.

Suggested Crop/Meter Roller Cross Reference

- Extra Fine - low rates of sorghum
- Fine - higher rates of sorghum, medium rates of wheat and flax
- Coarse - soybeans and higher rates of wheat, rice, barley, and oats

Requirements for Operation:

3.8 PTO hp minimum per opener, plus as required for additional towed implements (air cart etc.)
15 GPM minimum recommended hydraulic flow for all non-mounted tank drills (plus additional required for air cart etc.).

Two hydraulic control valves for wing folding and row unit down pressure.

Additional control valves may be required for air cart/additional implement operation.

Maximum allowable hydraulic pressure lower than either 3000 psi or factory settings for individual tractors.

2400 minimum hydraulic pressure.
Do not tow more than two implements behind the tractor while transporting between fields.

Do not tow the implement at speeds over 20mph.

Tractor equipped with 12 volt electrical system with a 7 pin auxiliary electric outlet for warning lights.

Tractor draw bar that can be locked in a stationary position with an intermediate draw bar chain support.

The total towed weight should be less than 1.5 times the maximum operating weight provided by the tractor manufacturer.

Standard Equipment

Requirements for Operation: (cont.)

The total towed weight should be reduced based on tractor condition and road condition.

Tow-between or tow-behind air delivery system compatible with Precision Disk 500 air disk drill. Recommend Case IH Precision Air 2280/2330/3380/or 3430 with ISO 11783 control system, with Case IH AFS Pro 700 Display/in-cab display.

- the Precision Disk 500 is not compatible with the Pro600 display
- The Precision Disk 500 must use v28* CNH display software or newer.

Case IH Precision Air 3580 air system is not recommended for use with Precision Disk 500 30 ft. or 40 ft. drill.

DO NOT USE Precision Air 3380 or 3430 TOW-BETWEEN air system with DELUXE AUGER with a Precision Disk 500, 30 ft. size, as interference MAY occur between the auger and drill front wheel spars when the drill is folded up (transport position) and the auger is in transport position.

Optional hydraulic in-cab row unit down-pressure control and hydraulic work-switch require Case IH AFS Pro 700 monitor/in cab display.

Minimum requirements are a starting point only and should be increased based on operating conditions in the field (hills, soil conditions, speed etc), road transport conditions and other implements that are used with the drill.

Product specifications are based on information available at the time of publication. These specifications are subject to change without notice.

Requirements for Operation: (cont.)

Dealer requirements for Unloading:
- roll-on roll-off the trailer.

4" x 6" (10 cm x 15 cm) structural steel frame members with 6" x 10" x 3/8" wall (15 cm x 25 cm x 9.5 mm wall) main spars.
Three section design, with hydraulic wing fold.
Two rank toolbar, with individual 4" x 4", 3/8" wall (10 cm x 10 cm, 9.5 mm wall) rotating sub-bars.
∇" frame design for optimal transport height
Hardened wing pins with replaceable wear bushings.
High quality powder paint on all frame members.
Wing float: 15 degrees up, 10 degrees down.
Robust welded frame design, provides superior durability over bolted designs.

HITCH:

Floating with Cat IV hitch.
Hardened pins with replaceable wear bushings

ROW UNITS:

Single disk openers, with single bevel 18" (46 cm) disk.
Parallel link row units for optimum ground following and seed placement (patent/pending).
Large range of opener travel from 8.5" up to 11.5" down from level soil surface.
Three packer wheel down pressure settings of 59, 71 and 84 lbs at 1.5" seeding depth.
Depth adjustment, one handed operation with 14 increments from 0" to 3.5" (0 to 8.9 cm) deep. (patent/pending)

ROW UNIT: (cont.)

Integrated trash guard.
10" row spacing standard, 7.5" spacing optional. Optional 7.5"/15" split rank configuration available with air pack header inserts.

Standard Equipment

Requirements for Operation: (cont.)

Tractor equipped with 12 volt electrical system with a 7 pin auxiliary electric outlet for warning lights.

Tractor draw bar that can be locked in a stationary position with an intermediate draw bar chain support.

The total towed weight should be less than 1.5 times the maximum operating weight provided by the tractor manufacturer.

The total towed weight should be reduced based on tractor condition and road condition.

Tow-between or tow-behind air delivery system compatible with Precision Disk 500 air disk drill.

Recommend Case IH Precision Air 2280/2330/3380/or 3430 with ISO 11783 control system, with Case IH AFS Pro 700 Display/in-cab display.

- the Precision Disk 500 is not compatible with the Pro600 display
- The Precision Disk 500 must use v28* CNH display software or newer.

Case IH Precision Air 3580 air system is not recommended for use with Precision Disk 500 30 ft. or 40 ft. drill.

DO NOT USE Precision Air 3380 or 3430 TOW-BETWEEN air system with DELUXE AUGER with a Precision Disk 500, 30 ft. size, as interference MAY occur between the auger and drill front wheel spars when the drill is folded up (transport position) and the auger is in transport position.

Optional hydraulic in-cab row unit down-pressure control and hydraulic work-switch require Case IH AFS Pro 700 monitor/in cab display.

Requirements for Operation: (cont.)

Minimum requirements are a starting point only and should be increased based on operating conditions in the field (hills, soil conditions, speed etc), road transport conditions and other implements that are used with the drill.

Product specifications are based on information available at the time of publication. These specifications are subject to change without notice.

Dealer requirements for Unloading:

- 40' needs Crane with suitable lift capacity to hoist drill off trailer or a sunken dock that will surround 3 sides of the trailer and allow you to tow drill off after hitch and wheel spars are attached

Field Equipment

Requirements for Operation:

3.8 PTO hp minimum per opener, plus as required for additional towed implements (air cart etc.). HP requirement will be higher in tough soil conditions, deeper seeding depths and hilly terrain.

30 GPM minimum recommended hydraulic flow (plus additional required for air cart etc.).

Two hydraulic control valves for wing folding and row unit down pressure.

Additional control valves may be required for air cart/additional implement operation.

2450 psi minimum hydraulic pressure (produced at couplers)

Do not tow more than two implements behind the tractor while transporting between fields.

Do not tow the implement at speeds over 20 mph.

Tractor equipped with 12 volt electrical system with a 7 pin auxiliary electric outlet for warning lights.

Tractor draw bar that can be locked in a stationary position with an intermediate draw bar chain support.

The total towed weight should be less than 1.5 times the maximum operating weight provided by the tractor manufacturer.

The total towed weight should be reduced based on tractor condition and road condition.

Tow-between or tow-behind air delivery system compatible with Precision Disk 500 air disk drill.

Standard Equipment**

AIR SYSTEM CAPACITIES: (continued)

Note: Transport lighting meets ASAE 279.11 standard.

Requirements for Operation:

Do not tow the implement at speeds over 20 mph (32 kmph).

Do not tow a loaded air system while transporting the implement between fields.

Do not tow more than two implements behind the tractor while transporting between fields.

The total towed weight should be less than 1.5 times the maximum operating weight provided by the tractor manufacturer.

The total towed weight should be reduced based on tractor condition and road conditions.

Tractor draw bar that can be locked in a stationary position with an intermediate draw bar chain support

Tractor equipped with 12-volt electrical system with a 7 pin auxiliary electric outlet for warning lights

Closed center or load sensing hydraulic system for tractor required

One hydraulic control valve for fan and auger

Maximum Case Drain pressure must be less than 25 psi (172 kPa).

Requirements for Operation: (cont.)

Case Drain oil flow:
1 US gpm (3.8 lpm),
VR Cart - 3.5 US gpm (13.2 lpm)

Electrical system: capable of 6.5 amp nominal, 16 amp peak current draw (VR Cart - 3.5 amp nominal/peak)

Variable drive carts require a 12 volt, 550 cold cranking amp battery that is not supplied. The recommended battery is 12V lead acid, deep cycle, BCI group size 24, minimum 120 minutes RC (reserve capacity).

20 US gpm (75.7 lpm) @
5000 fan RPM hydraulic oil flow

Additional 1.25 US gpm (4.7 lpm) per meter required for variable rate meter drives

Typical hydraulic pressure requirement is 2500 psi (17.2 MPa) but the requirement may increase to 3000 psi (20.7 MPa) with high product rates*

* Minimum requirements are a starting point only and should be increased based on operating conditions and other implements that are used with the drill. Maximum allowable hydraulic pressure lower than either 3000 psi (20.7 MPa) or factory settings for individual tractors.

AIR SYSTEM CAPACITIES:

Product Rate:
Maximum rate per primary
2.5in. (6.4 cm) Line
40 lbs. / min @ 5000 fan RPM

Transport lighting meets
ASAE 279.11 standard.

Turning radius can be reduced when
a Tow Between Cart is used with a
3 point hitch equipped QUADTRAC.
A drawbar extension may be required.

Requirements for Operation:

Do not tow the implement at speeds
over 20 mph (32 kmph)

Do not tow a loaded air system while
transporting the implement between
fields.

Do not tow more than two implements
behind the tractor while transporting
between fields.

The total towed weight should be less
than 1.5 times the maximum operating
weight provided by the tractor
manufacturer.

The total towed weight should be
reduced based on tractor condition
and road conditions.

When operating a Tow-Between Air
System with a Steiger QUADTRAC
use high capacity drawbar in the
extended length position.

Category IV tractor drawbar that can
be locked in a stationary position with
an intermediate drawbar chain support

Tractor equipped with 12-volt electrical
system with a 7 pin auxiliary electric
outlet for warning lights

Closed center or load sensing
hydraulic system for tractor required
One hydraulic control valve for fan
and auger

Two hydraulic control valves - one for
fan and meter drive second for auger

Requirements for Operation: (cont.)

Maximum Case Drain Pressure must
be less than 25 psi (172 kPa)

1 US gpm (3.8 lpm) Case Drain oil flow,
VR Cart - 4.8 US gpm (18.1 lpm)

Electrical system capable of 7 amp
nominal, 19 amp peak current draw
(VR Cart - 4.0 amp nominal/peak)

Variable drive carts require a 12 volt,
550 cold cranking amp battery that is
not supplied. The recommended
battery is 12V lead acid, deep cycle,
BCI group size 24, minimum 120
minutes RC (reserve capacity).

20 US gpm (75.7 lpm) @ 5000 fan RPM
hydraulic oil flow

Additional 1.25 US gpm (4.7 lpm) per
meter required for variable rate
meter drives

Requirements for Operation: (cont.)

Typical hydraulic pressure requirement
is 2500 psi (17.2 MPa) but the
requirement may increase to 3000 psi
(20.7 MPa) with high product rates*

* Minimum requirements are a starting
point only and should be increased
based on operating conditions and
other implements that are used with
the drill. Maximum allowable hydraulic
pressure lower than either 3000 psi
(20.7 MPa) or factory settings for
individual tractors.

Requirements for Operation:

TRACTOR MONITOR INSTALLATION

KIT IS REQUIRED FOR OPERATION

(include brackets and harness).

See Parts Division for ordering information.

Do not tow the implement at speeds over 20 mph (32 kmph)

Do not tow a loaded air system while transporting the implement between fields.

Do not tow more than two implements behind the tractor while transporting between fields.

The total towed weight should be less than 1.5 times the maximum operating weight provided by the tractor manufacturer.

The total towed weight should be reduced based on tractor condition and road conditions.

When operating a Tow-Between Air System with a Steiger QUADTRAC use high capacity Drawbar in the extended length position.

Category IV tractor drawbar that can be locked in a stationary position with an intermediate drawbar chain support.

Tractor equipped with 12-volt electrical system with a 7 pin auxiliary electric outlet for warning lights

20 US gpm (75.7 lpm) @ 5000 fan RPM hydraulic oil flow

Additional 1.25 US gpm (4.7 lpm) per meter required for variable rate meter drives

Requirements for Operation: (cont.)

Typical hydraulic pressure requirement is 2500 psi (17.2 MPa) but the requirement may increase to 3000 psi (20.7 MPa) with high product rates*

* Minimum requirements are a starting point only and should be increased based on operating conditions and other implements that are used with the drill. Maximum allowable hydraulic pressure lower than either 3000 psi (20.7 MPa) or factory settings for individual tractors.

TRACTOR MONITOR INSTALLATION

KIT IS REQUIRED FOR OPERATION

(include brackets and harness).

See Parts Division for ordering
information.

Do not tow the implement at speeds
over 20 mph (32 kph).

Requirements for Operation: (cont.)

Do not tow a loaded air system while
transporting the implement between
fields.

Do not tow more than two implements
behind the tractor while transporting
between fields.

The total towed weight should be less
than 1.5 times the maximum
operating weight provided by the
tractor manufacturer.

The total towed weight should be
reduced based on tractor condition
and road condition.

Category IV tractor drawbar that can
be locked in a stationary position with
an intermediate drawbar chain
support.

Tractor equipped with 12-volt electrical
system with a 7 pin auxiliary electronic
outlet for warning lights

Closed center or load sensing
hydraulic system for tractor required.

One hydraulic control valve for fan
and auger.

Maximum Case Drain Pressure must
be less than 25 psi (172 kPa).

Case Drain oil flow:
4.8 US gpm (18.1 lpm)

Electrical system capable of 4 amp
nominal, 4 amp peak current draw
(13A fully burden with field lighting
and all run blockage).

Requirements for Operation: (cont.)

Variable drive carts require a 12 volt, 550 cold cranking amp battery that is not supplied. The recommended battery is 12V lead acid, deep cycle, BCI group size 24, minimum 120 minutes RC (reserve capacity).

20 US gpm (75.7 lpm) @ 5000 fan RPM hydraulic oil flow.

Additional 1.25 US gpm (4.7 lpm) per meter required for variable rate meter drives.

Typical hydraulic pressure requirement is 2500 psi (17.2 MPa) but the requirements may increase to 3000 psi (20.7 MPa) with high product rates*.

* Minimum requirements are a starting point only and should be increased based on operating conditions and other implements that are used with the drill. Maximum allowable hydraulic pressure lower than either 3000 psi (20.7 MPa) or factory settings for individual tractors.

Requirements for Operation: (cont.)

SHIPPING WHEELS - Recommended when air cart shipped directly from Saskatoon Plant.

All 3580 air carts shipped directly from Saskatoon will have the tires/wheels removed to reduce shipping height. To facilitate unloading off the trailer it is highly recommended dealers order a set of unloading wheels which can easily be installed on the shipping frame. Order the unloading wheels from Parts Division (P/N 84335879).

AIR CART AUGER EXTENDED HOPPER

An extended hopper is available for the air cart auger. It provides the additional reach needed to load the air cart from semi trailers. The hopper involves no hydraulics and is simply bolted into place after removing the original factory supplied hopper. Mounted wheels make it easy to roll the hopper in and out of position under the trailer.

Notes: The extended hopper does NOT quite cover the discharge area of the air cart rear tank.
The air cart auger is NOT available from the factory without the standard auger hopper.
This extended hopper must be ordered directly from the manufacturer.
This extended hopper may not be compatible with Precision Air 3580 ordered with optional 800 or 900 metric tires. Contact vendor for more information.

Appendix: Section 5 - Single / Dual Fan Selection Guide

Notes:

The Tractor is required to deliver 20 gpm @ 2500 psi (measured at the couplers) to meet high end single or dual fan applications. This table is for a Standard Air Package Lay-out and Air Velocities as recommended in the Operator's Manual.

Dual = enhanced hydraulic capabilities may be required to meet the fan hydraulic requirements (i.e. engine drive, PTO drive)

Appendix Section 17, 18 & 19 - Meter Roller Selection Guide

Select the meter roller recommended for the appropriate product rate. (If your product is not listed here, choose a similar product.)

The product delivery rates shown in parenthesis are typical for each roller under normal operating conditions. These rates are effected by a number of variables – such as product density, seed size, seed coatings, humidity, ground speed, and header coverage width. You may need to verify the product delivery rates for your conditions.

FARMALL® C SERIES TRACTORS

PL-100 FC REVISION 14

SAP PRICE LIST 028 C2

EFFECTIVE MARCH 1, 2014

THIS IS A PARTIAL REVISION

This price list is intended for dealers with the AG and AL contracts.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

Copyright 2014 By

CNH Industrial, N.V.

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH Industrial N.V. issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and "Factory Supplied Accessories."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and "Factory Supplied Accessories" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Accessories listed following the "Factory Supplied Accessories" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

SUGAR CANE HARVESTERS

PL-100 SC REVISION 8

SAP PRICE LIST 015 SC

EFFECTIVE NOVEMBER 29, 2012

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the Sugar Cane Harvester (SC) contract only.

This Complete Revision includes new or revised information and replaces all prior revisions.
This is the first revision out of SAP.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

Copyright 2012 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:
(for inquiries - not to place orders)
(262)636-7540
Internal E-mail: #NA DMC ORDER CENTER

Complete U.S. Price List is PL-100
Complete Canadian Price List is PLC-100

Periodic price list revisions are usually accompanied by a cover sheet which carries instructions on price page changes and where to insert replacement or new price pages. The revisions are dated and are effective as of that date.

PL-100 MG REVISION 44

SAP PRICE LIST 019 C4

EFFECTIVE APRIL 1, 2014

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the AG contract only.

This complete price list replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue

FLEX HOE and PRECISION HOE AIR DRILLS

PL-100 AS REVISION 14

SAP PRICE LIST 016 CD

EFFECTIVE May 15, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the (AS) contract only.

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

TIRES:

All tires are stubble rated

Requirements for Operation:

Tractor power
Opener selection, ground speed, seeding depth, soil texture, moisture conditions, field topography and hitched configurations are all factors affecting required horsepower.

**FLEX HOE 400 AIR DRILL - 7.2 IN. SPACING
US PRICE LIST**

(Ex Works - See Standard Equipment)

Standard Equipment

Requirements for Operation: (continued)

Tractor power

The mentioned recommendations
below are strictly a guideline.

Drawbar horsepower:

Single-shoot in average soil
conditions 4 to 7 HP per foot

Double-shoot in heavy soil
conditions 7.5 HP per foot

Hydraulic System

Closed Center Load Sensing
(CCLS) with 35 U.S. gpm
minimum flow at 2600 p.s.i.
at the tractor SCV couplers

Do not tow the implement at speeds
over 20 mph.

Do not tow a loaded air system while
transporting the implement between
fields.

Do not tow more than two implements
behind the tractor while transporting
between fields.

The total towed weight should be less
than 1.5 times the maximum operating
weight provided by the tractor
manufacturer.

The total towed weight should be
reduced based on tractor condition
and road conditions.

Requirements for Operation: (continued)

Tractor draw bar that can be locked in a
stationary position with an intermediate
draw bar chain support.

Tractor equipped with 12-volt electrical
system with a 7 pin auxiliary electric
outlet for warning lights.

* Minimum requirements are a starting
point only and should be increased
based on operating conditions
in the field, road transport conditions
and other implements that are used
with the drill.

** Set up facilities are available for an
additional charge on the invoice. Please
see the Set up facilities chart for more
information.

US PRICE LIST

(Ex Works - See Standard Equipment)

Standard Equipment

Requirements for Operation: (continued)

Tractor power

The mentioned recommendations
below are strictly a guideline.

Drawbar horsepower:

Single-shoot in average soil
conditions 4 to 7 HP per foot

Double-shoot in heavy soil
conditions 7.5 HP per foot

Hydraulic System

Closed Center Load Sensing
(CCLS) with 35 U.S. gpm
minimum flow at 2600 p.s.i.
at the tractor SCV couplers

Do not tow the implement at speeds
over 20 mph.

Do not tow a loaded air system while
transporting the implement between
fields.

Do not tow more than two implements
behind the tractor while transporting
between fields.

The total towed weight should be less
than 1.5 times the maximum operating
weight provided by the tractor
manufacturer.

The total towed weight should be
reduced based on tractor condition
and road conditions.

Requirements for Operation: (continued)

Tractor draw bar that can be locked in a
stationary position with an intermediate
draw bar chain support.

Tractor equipped with 12-volt electrical
system with a 7 pin auxiliary electric
outlet for warning lights.

* Minimum requirements are a starting
point only and should be increased
based on operating conditions
in the field, road transport conditions
and other implements that are used
with the drill.

** Set up facilities are available for an
additional charge on the invoice. Please
see the Set up facilities chart for more
information.

Width will vary based on opener selection

HYDRAULICS:

Depth control - Rockshaft rotated by 2 raise/lower cylinders located on the outboard end of the center section
Wing lift - 2 cylinders on 3 section implements, 4 cylinders on 5 section implements

TRANSPORT HEIGHT:

27 ft. - 11 ft. 8 in.
33 ft. - 14 ft. 8 in.
39 ft. - 17 ft. 9 in.
45 ft. - 14 ft. 6 in.
51 ft. - 17 ft. 6-1/2 in.
57 ft. - 17 ft. 6-1/2 in.

DEPTH CONTROL:

Single point mechanical adjustment with hydraulic shutoff poppet valve actuated by contact onto center section rockshaft

TRANSPORT LENGTH:

27 ft. to 39 ft. models - 27 ft. 3 in.
45 ft. to 57 ft. models - 31 ft. 11 in.

FRAME:

Vertical folding for transport#
4 in. x 4 in. HSS tubing, air hoe drill frame is supported across the rear by the presswheels and across the front by the single or dual walkbeam front castors.
Barrel shaped wing hinge bolts and polyurethane flex tubes and pads allow the frame to flex torsionally across the entire width of machine.

TIRES:

All tires are stubble rated

Requirements for Operation:

Tractor power
Opener selection, ground speed, seeding depth, soil texture, moisture conditions, field topography and hitched configurations are all factors affecting required horsepower.

Standard Equipment**

Requirements for Operation: (continued)

Tractor power

The mentioned recommendations
below are strictly a guideline.

Drawbar horsepower:

Single-shoot in average soil
conditions 4 to 7 HP per foot

Double-shoot in heavy soil
conditions 7.5 HP per foot

Hydraulic System

Closed Center Load Sensing
(CCLS) with 35 U.S. gpm
minimum flow at 2600 p.s.i.
at the tractor SCV couplers

Do not tow the implement at speeds
over 20 mph.

Do not tow a loaded air system while
transporting the implement between
fields.

Do not tow more than two implements
behind the tractor while transporting
between fields.

The total towed weight should be less
than 1.5 times the maximum operating
weight provided by the tractor
manufacturer.

The total towed weight should be
reduced based on tractor condition
and road conditions.

Requirements for Operation: (continued)

Tractor draw bar that can be locked in a
stationary position with an intermediate
draw bar chain support.

Tractor equipped with 12-volt electrical
system with a 7 pin auxiliary electric
outlet for warning lights.

* Minimum requirements are a starting
point only and should be increased
based on operating conditions
in the field, road transport conditions
and other implements that are used
with the drill.

** Set up facilities are available for an
additional charge on the invoice. Please
see the Set up facilities chart for more
information.

IMPLEMENT WIDTH AND SHANK**SPACING:**

- 60 ft. - 12 inch spacing
- 70 ft. - 12 inch spacing

HITCH:

Rigid trussed hitch attached to mainframe

HYDRAULICS:

- Boom fold - 2 cylinders sequenced for fold/unfold procedure
- Depth control - Rockshaft rotated by 4 multi-function cylinders located on each wing frame section
- Transport raise - These are the same cylinders as the depth control cylinders

DEPTH CONTROL:

Single point mechanical adjustment with hydraulic shutoff poppet valve actuated through cable connection to rockshaft

FRAME:

- Patented rearward folding for transport
- Main frame - 5 sections of 12 in. x 12 in. HSS
 - 60 ft. unit - 10 ft. center, 15 ft. inner, 10 ft. outer
 - 70 ft. unit - 10 ft. center, 15 ft. inner, 15 ft. outer
- Wing frames - 4 in. x 4 in. HSS
- 4 rank - Patented tandem paired-rank design

PACKING SYSTEM:

- Select to match opener selection, seed row spacing, soil type and moisture conditions
- In-line "V" steel or semi-pneumatic rubber
- Walkbeam pneumatic packing

TRANSPORT LIGHTS:

- Rear - 2 red signal/tail light assemblies

TRANSPORT WIDTH:

212 in. for both 60 and 70 ft. models

TRANSPORT HEIGHT:

162 in. for both 60 and 70 ft. models

TIRES:

All tires are stubble rated

Requirements for Operation:

- Tractor power
 - Opener selection, ground speed, seeding depth, soil texture, moisture conditions, field topography and hitched configurations are all factors affecting required horsepower.

The mentioned recommendations below are strictly a guideline.

Drawbar horsepower:

- Single-shoot in average soil conditions 4 to 7 HP per foot
- Double-shoot in heavy soil conditions 7.5 HP per foot

Hydraulic System

- Closed Center Load Sensing (CCLS) with 35 U.S. gpm minimum flow at 2600 p.s.i. at the tractor SCV couplers

- Do not tow the implement at speeds over 20 mph.
- Do not tow a loaded air system while transporting the implement between fields.
- Do not tow more than two implements behind the tractor while transporting between fields.

Requirements for Operation:
(continued)

- * Tractor power
Opener, ground speed, seeding depth, soil texture, soil moisture, field topography and hitched configurations are all factors affecting required horsepower.

- * Tractor power
The recommendations below are strictly guidelines.

Drawbar HP: - 6.0 to 7.5 HP per foot

Hydraulic System - Closed Center
Load Sensing (CCLS) with
35 U.S. gpm minimum flow of
2600 p.s.i. at the tractor SCV
couplers

Do not tow a loaded air system while transporting implement between fields.

Do not tow the implement at speeds over 20 mph.

Do not tow more than two implements behind the tractor while transporting between fields.

The total towed weight should be less than 1.5 times the maximum operating weight provided by the tractor manufacturer.

Requirements for Operation:
(continued)

The total towed weight should be reduced based on tractor condition and road conditions.

Tractor drawbar that can be locked in a stationary position with an intermediate draw bar chain support.

Tractor equipped with 12-volt electrical system with a 7 pin auxiliary electric outlet for warning lights.

**Minimum requirements are a starting point only and should be increased based on operating conditions in the field, road transport conditions and other implements that are used with the drill.

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue

PL-100 FT REVISION 18

SAP PRICE LIST 018 CF

EFFECTIVE MAY 16, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with FT contract only.

This Complete Revision includes new or revised information and replaces all prior revisions.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:
(for inquiries - not to place orders)
(262)636-7540
Internal E-mail: #NA DMC ORDER CENTER

Complete U.S. Price List is PL-100
Complete Canadian Price List is PLC-100

Periodic price list revisions are usually accompanied by a cover sheet which carries instructions on price page changes and where to insert replacement or new price pages. The revisions are dated and are effective as of that date.

NOTES:

1. The offset bars or C-S mountings are used in front of the pull-hitch lift wheels.
2. To sidedress, NO shanks can be mounted on the back tube in front of the lift wheel.
3. With a 24" coulter on the offset bar and the shank on the front tube of the unit, a Uni-Sealer CANNOT be used because it will hit the tire on the lift wheel of the pull-hitch.
4. When specifying 18" sealers, a 14" sealer is required on the center shank of an odd-row configuration for HD Spring mounts.
5. When specifying 18" sealers with in-line transport, a 14" sealer is required for clearance by the inline transport or the 18" sealer will need to be removed for transport.

Standard Equipment

TYPICAL USE:

Inject fertilizer beneath the surface into the root zone to avoid residue tie-up and maximize effectiveness
Sidedress clear liquid fertilizer after planting row crops, with 30 in., 36 in., 38 in., or 40 in. row spacing
Pre-plant application with minimal ground disturbance
Inject into standing small grain crops

HITCH SYSTEM:

Combination single/double clevis
850/1,000 gallon version has 4 in. x 4 in. pull frame
1,300 gallon version has 4 in. x 8 in. pull frame
Swinging hose stand to keep hydraulic hoses out of the way

FRAME AND WINGS:

850/1,000 gallon version has 4 in. x 4 in. tubing, double rank for the first 7 coulters
1,300 gallon version has 4 in. x 6 in. tubing and double rank with diagonal bracing for the first 11 coulters
All versions have parallel linkage for level lift front-to-back; tank remains stationary.
Constant and consistent tongue weight whether the tank is empty or full because tanks are centered directly over the wheels.
Wings are hydraulic fold for narrower transport
1,300 gallon version wings follow ground contours from 6 degrees down to 30 degrees up;
Outer wing folds backwards for transport
25 in. of crop clearance to frame

HYDRAULICS:

3000 PSI hydraulic cylinders, hoses and fittings
Male ISO couplers on hydraulic hoses to tractor
1,300 gallon version has patented 1000 psi active hydraulic down-pressure to keep coulters in the ground

WHEELS AND TIRES:

Tires and hubs are fully rated for loads
850 gallon version has 14L - 16.1 12PR tires with 8-bolt hub; choose from adjustable wheel spacing from 62 in. to 80 in., or fixed 120 in. spacing
1,000 gallon version has 320/85 R38 tires with 8-bolt hub on fixed 120 in. spacing
1,300 gallon version has 420/80 R46 tires with 10-bolt hub and 20.5 x 8 pin-adjust gauge wheels; adjustable wheel spacing of 120 in., 144 in. and 156 in.

TRANSPORT:

Manual cylinder stops
Tanks mounted lengthwise for better rearward visibility
Combination warning and tail lights with 7-pin connection
SMV emblem and reflectors
ASAE highway transport chain

PL-100 MM REVISION 13

SAP PRICE LIST 019 C4

EFFECTIVE APRIL 1, 2014

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the AG contract only.

This is a revised price list for the Tier 4B Models for 2014 Model Year.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

Copyright 2013 By

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:
(for inquiries - not to place orders)
(262)636-7540
Internal E-mail: #NA DMC ORDER CENTER

Complete U.S. Price List is PL-100
Complete Canadian Price List is PLC-100

Periodic price list revisions are usually accompanied by a cover sheet which carries instructions on price page changes and where to insert replacement or new price pages. The revisions are dated and are effective as of that date.

PL-100 CA REVISION 21

SAP PRICE LIST 020 C1

EFFECTIVE OCTOBER 1, 2013

THIS IS A COMPLETE REVISION

This price list is intended for dealers with the LT contract only.

The prices included in this revision supersede any prices established prior to the effective date shown unless specifically identified in a price bulletin as superseding this price list.

NOTE: Dealers should retain prior price list pages for any discontinued machines or attachments remaining in inventory.

Product included in the price list are eligible for Volume Bonus.

**Prices in this revision are subject to change.
Please check the eEquipment for the most current pricing.**

CNH America LLC

GENERAL INFORMATION

ADVANCE FREIGHT

Advance freight will be added to the machinery invoice as a separate net charge for machinery shipped from field locations or from other than specified Ex Works locations.

PRICES

Prices are Ex Works factory, where the goods are manufactured, except where noted. For detailed information concerning prices, please refer to your OPERATING GUIDE.

CONTENTS OF ORGANIZATION

CNH America LLC issues price lists and revisions covering each Case IH contract. The U.S. Price List is published in U.S. funds and the Canadian Price List is published in Canadian funds. Ensure that you are using the correct price list. U.S. or Canada is referenced at the top of each page and the Canadian price lists have a Maple Leaf on the price list cover page.

Freight, duty and sales taxes are NOT included in any wholegoods or attachment prices shown in the price list. Any appropriate freight, duty, Federal, State, and Provincial taxes will be added to the machinery invoice as separate net charges.

PROCEDURE

The price pages for each machine (or group of machines) lists both "Factory Supplied Options" and/or "Factory Supplied Attachments."

Each price list is comprised of the various machines sold under that contract. Each price book section has "Factory Supplied Options" and/or "Factory Supplied Attachments" price pages. When ordering and pricing a machine follow the ordering instructions listed for that machine. Attachments listed following the "Factory Supplied Attachments" heading are available for installation in the field.

GENERAL INFORMATION

DISTRIBUTION OF PRICE LISTS

Price lists and periodic price list revisions will be posted on the Dealer Portal, and distributed electronically when possible.

Printed copies of current price lists, index tabs and binders can be purchased from the Document Management Center (DMC). Orders should be placed only through the DMC web site link located on the Dealer Portal.

Document Management Center (DMC)
2205 Durand Avenue
Racine, WI 53403

DMC customer service:
(for inquiries - not to place orders)
(262)636-7540
Internal E-mail: #NA DMC ORDER CENTER

Complete U.S. Price List is PL-100
Complete Canadian Price List is PLC-100

Periodic price list revisions are usually accompanied by a cover sheet which carries instructions on price page changes and where to insert replacement or new price pages. The revisions are dated and are effective as of that date.
