36. WSCA-NASPO eMarket Center

- a. In July 2011, WSCA-NASPO entered into a multi-year agreement with SciQuest, Inc. whereby SciQuest will provide certain electronic catalog hosting and management services to enable eligible WSCA-NASPO entity's customers to access a central online website to view and/or shop the goods and services available from existing WSCA-NASPO Cooperative Contracts. The central online website is referred to as the WSCA-NASPO eMarket Center Contractor shall either upload a hosted catalog into the eMarket Center or integrate a punchout site with the eMarket Center.
- b. Supplier's Interface with the eMarket Center. There is no cost charged by SciQuest to the Contractor for loading a hosted catalog or integrating a punchout site.
- c. At a minimum, the Contractor agrees to the following:
 - (1) Implementation Timeline: WSCA-NASPO eMarket Center Site Admin shall provide a written request to the Contractor to begin enablement process. The Contractor shall have fifteen (15) days from receipt of written request to work with WSCA-NASPO and SciQuest to set up an enablement schedule, at which time SciQuest's technical documentation shall be provided to the Contractor. The schedule will include future calls and milestone dates related to test and go live dates. The contractor shall have a total of Ninety (90) days to deliver either a (1) hosted catalog or (2) punch-out catalog, from date of receipt of written request.

- (2) WSCA-NASPO and SciQuest will work with the Contractor, to decide which of the catalog structures (either hosted or punch-out as further described below) shall be provided by the Contractor. Whether hosted or punch-out, the catalog must be strictly limited to the Contractor's awarded contract offering (e.g. products and/or services not authorized through the resulting cooperative contract should not be viewable by WSCA-NASPO Participating Entity users).
 - (a) Hosted Catalog. By providing a hosted catalog, the Contractor is providing a list of its awarded products/services and pricing in an electronic data file in a format acceptable to SciQuest, such as Tab Delimited Text files. In this scenario, the Contractor must submit updated electronic data within five days of approval from the Lead State of product updates to the eMarket Center for the Lead State's approval to maintain the most up-to-date version of its product/service offering under the cooperative contract in the eMarket Center.
 - (b) Punch-Out Catalog. By providing a punch-out catalog, the Contractor is providing its own online catalog, which must be capable of being integrated with the eMarket Center as a. Standard punch-in via Commerce eXtensible Markup Language (cXML). In this scenario, the Contractor shall validate that its online catalog is up-to-date by providing a written update as needed, to the Lead State stating they have audited the offered products/services and pricing listed on its online catalog. The site must also return detailed UNSPSC codes (as outlined in line 3) for each line item. Contractor also agrees to provide e-Quote functionality to facilitate volume discounts.
- d. Revising Pricing and Product Offerings: Any revisions (whether an increase or decrease) to pricing or product/service offerings (new products, altered SKUs, etc.) must be preapproved by the Lead State and shall be subject to any other applicable restrictions with respect to the frequency or amount of such revisions. However, no cooperative contract enabled in the eMarket Center may include price changes on a more frequent basis than once per month. The following conditions apply with respect to hosted catalogs:
 - (1) Updated pricing files are required by the 1st of the month and shall go into effect in the eMarket Center on the 1st day of the following month (i.e. file received on 1/01/13 would be effective in the eMarket Center on 2/01/13). Files received after the 1st of the month may be delayed up to a month (i.e. file received on 11/06/09 would be effect in the eMarket Center on 1/01/10).
 - (2) Lead State-approved price changes are not effective until implemented within the eMarket Center. Errors in the Contractor's submitted pricing files will delay the implementation of the price changes in eMarket Center.
- e. Supplier Network Requirements: Contractor shall join the SciQuest Supplier Network (SQSN) and shall use the SciQuest's Supplier Portal to import the Contractor's catalog and pricing, into the SciQuest system, and view reports on catalog spend and product/pricing freshness. The Contractor can receive orders through electronic delivery (cXML) or through low-tech options such as fax. More information about the SQSN can

- be found at: www.sciquest.com or call the SciQuest Supplier Network Services team at 800-233-1121.
- f. Minimum Requirements: Whether the Contractor is providing a hosted catalog or a punch-out catalog, the Contractor agrees to meet the following requirements:
 - (1) Catalog must contain the most current pricing, including all applicable administrative fees and/or discounts, as well as the most up-to-date product/service offering the Contractor is authorized to provide in accordance with the cooperative contract; and
 - (2) The accuracy of the catalog must be maintained by Contractor throughout the duration of the cooperative contract between the Contractor and the Contract Administrator; and
 - (3) The Catalog must include a Lead State contract identification number; and
 - (4) The Catalog must include detailed product line item descriptions; and
 - (5) The Catalog must include pictures when possible; and
 - (6) The Catalog must include any additional WSCA-NASPO and Participating Addendum requirements. Although suppliers in the SQSN normally submit one (1) catalog, it is possible to have multiple contracts applicable to different WSCA-NASPO Participating Entities. For example, a supplier may have different pricing for state government agencies and Board of Regents institutions. Suppliers have the ability and responsibility to submit separate contract pricing for the same catalog if applicable. The system will deliver the appropriate contract pricing to the user viewing the catalog.
- g. Order Acceptance Requirements: Contractor must be able to accept Purchase Orders via fax or cXML. The Contractor shall provide positive confirmation via phone or email within 24 hours of the Contractor's receipt of the Purchase Order. If the Purchasing Order is received after 3pm EST on the day before a weekend or holiday, the Contractor must provide positive confirmation via phone or email on the next business day.
- h. UNSPSC Requirements: Contractor shall support use of the United Nations Standard Product and Services Code (UNSPSC). UNSPSC versions that must be adhered to are driven by SciQuest for the suppliers and are upgraded every year. WSCA-NASPO reserves the right to migrate to future versions of the UNSPSC and the Contractor shall be required to support the migration effort. All line items, goods or services provided under the resulting statewide contract must be associated to a UNSPSC code. All line items must be identified at the most detailed UNSPSC level indicated by segment, family, class and commodity. More information about the UNSPSC is available at: http://www.unspsc.com/FAQs.asp#howdoesunspscwork.
- i. Applicability: Contractor agrees that WSCA-NASPO controls which contracts appear in the eMarket Center and that WSCA-NASPO may elect at any time to remove any supplier's offering from the eMarket Center.

- j. The Lead State reserves the right to approve the pricing on the eMarket Center. This catalog review right is solely for the benefit of the Lead State and Participating Entities, and the review and approval shall not waive the requirement that products and services be offered at prices (and approved fees) required by the Master Agreement.
- k. Several WSCA-NASPO Participating Entities currently maintain separate SciQuest eMarketplaces, these Participating Entities do enable certain WSCA-NASPO Cooperative Contracts. In the event one of these entities elects to use this WSCA-NASPO Cooperative Contract (available through the eMarket Center) but publish to their own eMarketplace, the Contractor agrees to work in good faith with the entity and WSCA-NASPO to implement the catalog. WSCA-NASPO does not anticipate that this will require substantial additional efforts by the Contractor; however, the supplier agrees to take commercially reasonable efforts to enable such separate SciOuest catalogs

HARD DRIVE REMOVAL PROCEDURE

Digital copiers which have a hard drive shall not be removed from a state facility before the Contractor uninstalls the hard drive from the digital copier and transfers it to your agency.

Overview of Data Storage Device (hard drive) Removal Procedure

1. State Agency provides the Contractor with a written request to remove the digital copier.

State Agency schedules a date and time for removal of the copier with the Contractor. If you need to reschedule a removal time, you must provide a minimum of twenty four (24) hour notice to the Contractor. The Contractor may charge a rescheduling fee if twenty four (24) hour notice is not provided.

- State Agency identifies the person(s) ("Duly Authorized Agents") from the agency who will secure the hard drive(s) when removed from the digital copier and maintain the required documentation. It is important to have more than one person identified as a Duly Authorized Agent so pickup cancellations and rescheduling are avoided.
- 3. State Agency shall have the Data Storage Device Transfer Receipt (attached) completed with as much information as available.

The Contractor will assist with serial numbers, and other identification information. It is required that <u>all</u> hard drives be recorded on the Data Storage Device Transfer Receipt and <u>all</u> information is recorded. The Data Storage Device Transfer Receipt must be signed by both the Contractor and the Duly Authorized Agent. A copy of the signed Data Storage Device Transfer Receipt is to be provided to the Contractor.

4. State Agency shall secure the hard drive and the corresponding Data Storage Device Transfer Receipt. The Duly Authorized agent shall maintain all Data Storage Device Transfer Receipts and secure all Data Storage Devices in accordance with The State of Connecticut, Bureau of Enterprise Systems and Technology (BEST) current procedures regarding the storage and destruction of Data Storage Devices".

Encryption of Data Storage Devices

In addition to the removal of the hard drives, the Contract specifies that all digital copiers with hard drives will have encryption software installed at the Advanced Encryption Standard 256 ("AES256").

SHARP ELECTRONICS CORPORATION SERVICE LEVEL AGREEMENT (SLA)

1. Customer Level SLA

1.1 Purpose

The purpose of this addendum is to define service levels; penalties for the failure to perform at the service levels; as well as provide the Client Agency with a defined replacement process for equipment performing below expectations.

1.2 Customer Service Level Agreement

Contractor agrees to maintain the following service levels defined below as targets:

Performance Criteria	Target Level		
Average Uptime	98% or Better		
Average On-Site Response Time	4 Hours or Less		
First Time Fix	80% of all service calls or better		

These service levels will be measured on a quarterly basis between Contractor and the State.

1.3 Calculation of Service Level Points

Once per quarter, Contractor will produce reporting to be measured against the SLA and points will be assigned according to the following chart. These points will be added to produce a total Service Level score. This score will be used to determine the subsequent penalty according to the following schedule where the penalty can be up to 4% of the previous quarter's service and supplies billing (expressed as a negative %).

	Target Level	Below	Below	Below	Below
		Target 1	Target 2	Target 3	Target
					4
Average Uptime	98% or Higher	97.9% -	95.9% -	94.9% -	93.9%
		96%	94%	94%	or
					lower
Possible Points	4	3	2	2	0

	Target Level	Below	Below	Below	Below

Average On-site	4 or Less	4.1 - 5	5.1 – 6	6.1 – 7	7.1 or

Possible Points	4	3	2	2	0
First time Fix	80 % or	79.9% -	69.9% -	59.9% -	Less than
	Higher	70%	60%	50%	50%
Possible Points	4	3	2	2	0

1.4 Penalty Level

	Target Level	Below Target 1	Below Target 2	Below Target 3	Below Target 4
Total Score	12 – 10	9 – 7	6 - 4	3 – 1	0
Penalty/Award as a percentage of quarterly service and supplies billings	0%	-2.5%	-3.0%	-3.5%	-4.0%

The penalty shall be awarded to the Client Agency as a credit on the following period's service and supplies invoice.

1.4 Equipment Performance

Contractor guarantees each machine specified within any maintenance agreement will perform to either a) the monthly copies between service calls as measured by machine on a quarterly basis by group and segment listed below and/or b) the monthly uptime as measured by machine on a quarterly basis by segment listed below.

Group	Devices	Segments	Quarterly Uptime
В	Production Copiers	All	95%

If any unit fails to maintain this level of performance between calls and or the monthly uptime, excluding service calls caused by operator error that system will be subject to replacement at the Client Agency's discretion on a like-for-like basis with then current technology. Prior to installing a substitute product, supplier will be allowed sixty (60) days to remedy any quality or reliability issues. A designated factory authorized technician must certify each unit's ability to

produce acceptable impressions with acceptable copies between calls or uptime. The guarantee will remain in effect for the term of the contract or up to five (5) years from the date of purchase/rent, provided the equipment has not been subjected to abuse or neglect and has been continuously covered by a Maintenance Contract. This replacement policy will remain in effect for the term of the contract and is subject to the Client Agency remaining current with Contractor's payment requirements.

1.5 Additional Vendor Guarantees

- 1.5.1 **Training** On-going training as requested by the Client Agency to be performed within two (2) weeks of requested date for on-site training and two (2) hours for phone/technical support. A penalty of \$50 per incident that does not meet the turnaround time specified above to be credited on the next service bill.
- 1.5.2 **Loaner Unit/Backup Production** If any unit is inoperable for a period in excess of seventy two (72) hours, Contractor shall provide the Client Agency with either:
 - i) A loaner unit of similar speed and capabilities until such time as the unit(s) covered by this agreement are operable, or
 - ii) Provide the Client Agency with off-site manned production capabilities to accomplish the work of the unit that is inoperable at the sole cost of the Customer. Such costs shall be limited to cost of production (service and supplies), equipment, labor, power, transportation of jobs to and from the off-site production facility and facilities.
- 1.5.3 **Invoicing** Contractor shall maintain timely, accurate invoicing, less service run impressions, as defined below. Failure on the Contractor's part to maintain these levels as defined shall result in a \$50.00 per instance credit on the following invoice.

Measurable	Service Level
Timely Invoicing	Invoices will be submitted no later than the 25 th of the
	month immediately following the close of a billing period.
Accurate Invoicing	Invoices do not require any credits for miss-billing
Service Impressions	Contractor will credit all service run impressions within the
	same billing cycle

2. Reporting and Billing

- 2.1 **Timely Reporting** Contractor shall produce reporting for the State within thirty (30) days of the closing of the reporting period. Failure to do so will result in a penalty of \$5.00 per work day beyond the thirty (30) day period.
- 2.2 **Timely Payment of Administrative Fees** Contractor shall produce payment for any State Specific Administrative Fee within thirty (30) days of the closing of the reporting period. Failure to do so will result in a penalty of \$5.00 per work day beyond the thirty (30) day period.
- 2.3 **Accuracy of Reporting** The State may request at any point proof of the reporting accuracy through the data set supporting the reporting. If the State has reason to believe that multiple and systemic reporting errors exist, that cannot be corrected to the State's satisfaction; the State may require an audit by a third party. If errors are found, the Contractor must reimburse the State for the cost of the auditor as well as correcting any administrative fee errors.
- 2.4 **Accuracy of Billing** The State may request at any point proof of the billing accuracy through the data set supporting the billing. If the State has reason to believe that multiple and systemic billing errors exist, that cannot be corrected to the State's satisfaction; the State may require an audit by a third party. If errors are found, the Contractor must reimburse the State for the cost of the auditor as well as correcting any billing errors.
- 2.5 **Penalties** All penalties under this, section two (2) of the Service Level Agreement, shall be payable to the State.

 - (b) Punch-Out Catalog. By providing a punch-out catalog, the Contractor is providing its own online catalog, which must be capable of being integrated with the eMarket Center as a. Standard punch-in via Commerce eXtensible Markup Language (cXML). In this scenario, the Contractor shall validate that its online catalog is up-to-date by providing a written update as needed, to the Lead State stating they have audited the offered products/services and pricing listed on its online catalog. The site must also return detailed UNSPSC codes (as outlined in line 3) for each line item. Contractor also agrees to provide e-Quote functionality to facilitate volume discounts.
- d. Revising Pricing and Product Offerings: Any revisions (whether an increase or decrease) to pricing or product/service offerings (new products, altered SKUs, etc.) must be preapproved by the Lead State and shall be subject to any other applicable restrictions with respect to the frequency or amount of such revisions. However, no cooperative contract enabled in the eMarket Center may include price changes on a more frequent basis than once per month. The following conditions apply with respect to hosted catalogs:
 - (1) Updated pricing files are required by the 1st of the month and shall go into effect in the eMarket Center on the 1st day of the following month (i.e. file received on 1/01/13 would be effective in the eMarket Center on 2/01/13). Files received after the 1st of the month may be delayed up to a month (i.e. file received on 11/06/09 would be effect in the eMarket Center on 1/01/10).
 - (2) Lead State-approved price changes are not effective until implemented within the eMarket Center. Errors in the Contractor's submitted pricing files will delay the implementation of the price changes in eMarket Center.
- e. Supplier Network Requirements: Contractor shall join the SciQuest Supplier Network (SQSN) and shall use the SciQuest's Supplier Portal to import the Contractor's catalog and pricing, into the SciQuest system, and view reports on catalog spend and product/pricing freshness. The Contractor can receive orders through electronic delivery (cXML) or through low-tech options such as fax. More information about the SQSN can

- be found at: www.sciquest.com or call the SciQuest Supplier Network Services team at 800-233-1121.
- f. Minimum Requirements: Whether the Contractor is providing a hosted catalog or a punch-out catalog, the Contractor agrees to meet the following requirements:
 - Catalog must contain the most current pricing, including all applicable administrative fees and/or discounts, as well as the most up-to-date product/service offering the Contractor is authorized to provide in accordance with the cooperative contract; and
 - (2) The accuracy of the catalog must be maintained by Contractor throughout the duration of the cooperative contract between the Contractor and the Contract Administrator; and
 - (3) The Catalog must include a Lead State contract identification number; and
 - (4) The Catalog must include detailed product line item descriptions; and
 - (5) The Catalog must include pictures when possible; and
 - (6) The Catalog must include any additional WSCA-NASPO and Participating Addendum requirements. Although suppliers in the SQSN normally submit one (1) catalog, it is possible to have multiple contracts applicable to different WSCA-NASPO Participating Entities. For example, a supplier may have different pricing for state government agencies and Board of Regents institutions. Suppliers have the ability and responsibility to submit separate contract pricing for the same catalog if applicable. The system will deliver the appropriate contract pricing to the user viewing the catalog.
- g. Order Acceptance Requirements: Contractor must be able to accept Purchase Orders via fax or cXML. The Contractor shall provide positive confirmation via phone or email within 24 hours of the Contractor's receipt of the Purchase Order. If the Purchasing Order is received after 3pm EST on the day before a weekend or holiday, the Contractor must provide positive confirmation via phone or email on the next business day.
- h. UNSPSC Requirements: Contractor shall support use of the United Nations Standard Product and Services Code (UNSPSC). UNSPSC versions that must be adhered to are driven by SciQuest for the suppliers and are upgraded every year. WSCA-NASPO reserves the right to migrate to future versions of the UNSPSC and the Contractor shall be required to support the migration effort. All line items, goods or services provided under the resulting statewide contract must be associated to a UNSPSC code. All line items must be identified at the most detailed UNSPSC level indicated by segment, family, class and commodity. More information about the UNSPSC is available at: http://www.unspsc.com/fAQs.asp#howdoesunspscwork.
- Applicability: Contractor agrees that WSCA-NASPO controls which contracts appear in the eMarket Center and that WSCA-NASPO may elect at any time to remove any supplier's offering from the eMarket Center.

- The Lead State reserves the right to approve the pricing on the eMarket Center. This j. catalog review right is solely for the benefit of the Lead State and Participating Entities, and the review and approval shall not waive the requirement that products and services be offered at prices (and approved fees) required by the Master Agreement.
- k. Several WSCA-NASPO Participating Entities currently maintain separate SciQuest eMarketplaces, these Participating Entities do enable certain WSCA-NASPO Cooperative Contracts. In the event one of these entities elects to use this WSCA-NASPO Cooperative Contract (available through the eMarket Center) but publish to their own eMarketplace, the Contractor agrees to work in good faith with the entity and WSCA-NASPO to implement the catalog. WSCA-NASPO does not anticipate that this will require substantial additional efforts by the Contractor; however, the supplier agrees to take commercially reasonable efforts to enable such separate SciQuest catalogs.

Data Storage Devices

With respect to any Ricoh manufactured Products which contain a hard drive, the options for hard drive security are as set forth in Section 3.7.4 of Attachment CC of the Master Agreement. If desired, Purchasing Entity may engage Contractor to perform the following hard drive services, and the PO shall detail the service:

Hard Drive Surrender Service.

Under this option, a Contractor service technician can remove the hard drive from the applicable Product (set forth on a PO) and provide Purchasing Entity with custody of the hard drive before the Product is removed from the Purchasing Entity's location, moved to another department or any other disposition of the Product. The cost for the Hard Drive Surrender Services is \$350 per device.

Data Overwrite Security System (DOSS).

For any Ricoh-manufactured Product containing a hard drive, such Product will include Data Overwrite Security System (DOSS). DOSS is a Ricoh product designed to overwrite the sector of the hard drive used for data processing after the completion of each job to prevent recovery. HARD DRIVE REMOVAL PROCEDURE

Digital copiers which have a hard drive shall not be removed from a state facility before the Contractor uninstalls the hard drive from the digital copier and transfers it to your agency.

Overview of Data Storage Device (hard drive) Removal Procedure

1. State Agency provides the Contractor with a written request to remove the digital copier.

State Agency schedules a date and time for removal of the copier with the Contractor. If you need to reschedule a removal time, you must provide a minimum of twenty four (24) hour notice to the Contractor. The Contractor may charge a rescheduling fee if twenty four (24) hour notice is not provided.

- 2. State Agency identifies the person(s) ("Duly Authorized Agents") from the agency who will secure the hard drive(s) when removed from the digital copier and maintain the required documentation. It is important to have more than one person identified as a Duly Authorized Agent so pickup cancellations and rescheduling are avoided.
- 3. State Agency shall have the Data Storage Device Transfer Receipt (attached) completed with as much information as available.

ORGANIZATION

The Contractor will assist with serial numbers, and other identification information. It is required that <u>all</u> hard drives be recorded on the Data Storage Device Transfer Receipt and <u>all</u> information is recorded. The Data Storage Device Transfer Receipt must be signed by both the Contractor and the Duly Authorized Agent. A copy of the signed Data Storage Device Transfer Receipt is to be provided to the Contractor.

4. State Agency shall secure the hard drive and the corresponding Data Storage Device Transfer Receipt. The Duly Authorized agent shall maintain all Data Storage Device Transfer Receipts and secure all Data Storage Devices in accordance with The State of Connecticut, Bureau of Enterprise Systems and Technology (BEST) current procedures regarding the storage and destruction of Data Storage Devices".

This Master Maintenance & Sale Agreement ("Agreement") sets forth the specific terms and conditions under which Ricoh USA, Inc. ("Contractor") agrees to sell the specific equipment, software, and/or hardware ("Products") identified on an Order (defined below) entered into pursuant to WSCA Contract #3091 and/or provide the services identified on an Order ("Services") entered into hereunder to Customer (defined above) from time to time

The following terms shall apply to all Service transactions:

- 1. <u>Services.</u> (a) In order to obtain Services from Contractor hereunder, Client Agency will issue a valid and signed purchase order to Contractor or use Client's P-Card referencing WSCA Contract #3091 and Contract #14PSX0125, (each referred to in this Agreement as an "Order"). Each Order must identify the specific Products to be serviced, the term of the Service engagement, the location at which Services shall be performed and the applicable Service charges (each, a "Service Charge") for such Order. Contractor may not be responsible to provide Services for the Products, in the event the term or locations are not identified on the Order accepted by Contractor.
- (b) Contractor will repair or replace in accordance with the terms and conditions of this Agreement and the manufacturer's specifications any part of the Products that becomes unserviceable due to normal usage (other than consumable supplies). Failure to permit Contractor to repair or replace the Products shall result in a material breach of this Agreement and excuse Contractor from any and all future performance hereunder subject to the terms and conditions included in WSCA Contract #3091 and Contract #14PSX0125. Replacement parts will be furnished on an exchange basis and will be new, reconditioned or used. Except for hard drives on Customer-owned equipment, all parts removed due to replacement will become the property of Contractor.
- (c) The Services provided by Contractor under an Order will not include the following: (i) repairs resulting from misuse (including without limitation improper voltage or the use of supplies that do not conform to the manufacturer's specifications) or the failure to provide, or the failure of, adequate electrical power, air conditioning or humidity control; (ii) repairs made necessary by service performed by persons other than Contractor representatives; (iii) service calls or work which Client Agency requests to be performed outside of Normal Business Hours (defined below) (unless covered under an extended hour service contract or mutually agreed at time of service call) and Service calls or work which Client Agency requests to be performed on Contractor Holidays (defined below); (iv) removable cassette, copy cabinet, exit trays, or any item not related to the mechanical or electrical operation of the Products; (v) consumable supplies such as paper or staples, unless expressly provided for in this Order; (vi) repairs and/or service calls resulting from attachments not purchased from Contractor; (vii) any software, system support or related connectivity unless specified in writing by Contractor; (viii) parts no longer available from the applicable manufacturer; (ix) electrical work external to the Products, including problems resulting from overloaded or improper circuits; (x) installation or de-installation and/or movement of the Products from one location to another unless specified in writing by Contractor; and (xi) repairs of damage or increase in service time caused by force majeure events. Damage to Products or parts arising from causes beyond the control of Contractor are not covered by this Agreement. Contractor may terminate its Service obligations under any Order for Serviced Products that have been modified, damaged, altered or serviced by personnel other than those employed by Contractor subject to WSCA Contract #3091 and Contract #14PSX0125.
- 2. <u>Service Calls</u>. Service calls will be made during 8:00am 5:00pm local service time, Monday through Friday ("Normal Business Hours") at the installation address shown on the applicable Order. Service does not include coverage on Contractor holidays, which include New Year's Day, Memorial Day, 4th of July, Labor Day, Thanksgiving and Christmas Day (collectively, "Contractor Holidays"). Travel and labor-time for the service calls after Normal Business Hours, on weekends and on Contractor Holidays, if and when available and only in the event and to the extent that Contractor agrees to provide such non-standard coverage, will be charged at overtime rates in effect at the time the service call is made. Customer is responsible for disconnecting, repairing and re-connecting unauthorized attachments or components.
- 3. <u>Engineering Changes</u>. Engineering changes, determined applicable by Contractor to maintain the advertised performance of the Products, will be controlled and installed by Contractor. Engineering changes which provide additional capabilities to the Contractor Equipment (defined below) covered herein will be made at Client Agency's request at Contractor's applicable time and material rates then in effect.
- 4. <u>Term.</u> Each Order shall become effective on the effective date of the Order and shall continue for the term identified in the Order subject to any earlier termination exercised under WSCA Contract #3091 and Contract #14PSX0125.
- 5. <u>Service Charges</u>. Client Agency acknowledges and agrees that: (i) alterations, attachments, specification changes, or use by Client Agency of supplies other than those conforming to Contractor's minimally acceptable written specifications that cause excessive service calls may require an increase in Service Charges; (ii) the transfer of the Products from the location indicated on the applicable Order may result in an increase of Service Charges or the termination of the Order; and (iii) the Toner Inclusive Program (if applicable) is based on manufacturer supply consumption rates. Delivery of supplies will not exceed agreed upon usage without additional charge. Consumption of covered supply products significantly in excess of expected usage may result in additional charges for supplies.

 6. <u>Use Of Recommended Supplies; Meter Readings.</u> (a) It is not a condition of this Agreement that Client Agency use only Contractor-provided supplies. If Client Agency uses supplies other than those conforming to Contractor's minimally acceptable written specifications provided to the Client Agency at the time of the execution of this Agreement, including developer, toner, and fuser oil, and if such supplies are defective or not acceptable for use on the Product or cause abnormally frequent service calls

EXHIBIT A

or service problems, then Contractor may, at its option, assess a surcharge or terminate the applicable Order with respect to such Product. If so terminated, Client Agency will be offered Service on a "Per Call" basis at Contractor's then-prevailing time and material rates.

- (b) If Contractor determines that Client Agency has used more supplies than the manufacturer's recommended specifications as provided by Contractor, Client Agency will pay reasonable charges for those excess supplies and/or Contractor may refuse Client Agency additional supply shipments without a corresponding charge for the excess supplies. Client Agency agrees to provide Contractor true and accurate meter readings monthly and in any reasonable manner requested by Contractor, whether via telephone, email or otherwise. If accurate meter readings are not provided on a timely basis, Contractor reserves the right to estimate the meter readings from previous meter readings and Client Agency agrees to pay Service Charges based on such estimated meter reads. Appropriate adjustments will be made to subsequent billing cycles following receipt of actual and accurate meter readings.
- (c) As part of its Services, Contractor may, at its discretion and dependent upon device capabilities, provide remote meter reading and equipment monitoring services using its @Remote solution. This may allow for automated meter reading and submission, automatic placement of low toner alerts, automatic placement of service calls in the event of a critical Product failure and may enable firmware upgrades. The meter count and other information collected by @Remote ("Data") is sent via the internet to remote servers some of which may be located outside the U.S. @Remote cannot and does not collect Client Agency document content or user information. Contractor uses reasonably available technology to maintain the security of the Data; however, Client Agency acknowledges that no one can guaranty security of information maintained on computers and on the internet. Contractor retains full rights to the Data (but not Client Agency documents or information), which it or its authorized third parties may use to service the Serviced Products. Contractor may also use the Data for its normal business purposes including product development and marketing research, however, the Data will not be provided to market research consultants in a form that personally identifies the Client Agency. Contractor may dispose of the Data at any time and without notice. The @Remote technology is the confidential and proprietary information of Contractor and/or its licensors protected by copyright, trade secret and other laws and treaties. Contractor retains full title, ownership and all intellectual property rights in and to @Remote. In the event Client Agency does not rely on automatic meter reading devices or equipment monitoring services; Contractor reserves the right to assess a surcharge for manual meter reads in addition to the Service Charges.
- Basic Connectivity Services. If any software, system support or related connectivity Services or training related to the use of the Products are specifically set forth on an Order and accepted by Contractor, Contractor shall provide any such Services and/or training at the Client Agency's location set forth in the Order, as applicable, or on a remote basis. Client Agency shall provide Contractor with such access to its facilities, networks and systems as may be reasonably necessary for Contractor to perform such Services and/or training. Client Agency acknowledges that Contractor's performance of any such Services and/or training is dependent upon Client Agency's timely and effective performance of its responsibilities as set forth in the Order, as applicable. Unless connectivity Services are specifically identified in the Order as part of the Services to be performed by Contractor, Contractor shall have no obligation to perform and no responsibility for the connection of any hardware or software to any Client Agency network or system.

8. [Intentionally Deleted.]

- 9. <u>Client Agency Obligations</u>. Client Agency agrees to provide a proper place for the use of the Products, including but not limited to, electric service, as specified by the manufacturer. Client Agency will provide adequate facilities (at no charge) for use by Contractor representatives in connection with the Service of the Products hereunder within a reasonable distance of the Products. Client Agency agrees to provide such access to its facilities, networks and systems as may be reasonably necessary for Contractor to perform its Services, including but not limited to "360 degree" service access to the Products. Client Agency will provide a key operator for the Products and will make operators available for instruction in use and care of the Products. Unless otherwise agreed upon by Contractor in writing or designated in the applicable Order, all supplies for use with the Serviced Products will be provided by Client Agency and will be available "on site" for servicing.
- 10. Order, Delivery and Acceptance. For Equipment purchases only, Client Agency agrees to confirm delivery of all Products covered by each Order when the same is delivered by signing a delivery and acceptance certificate or written delivery acknowledgement._Client Agency shall have thirty (30) days after receiving goods and/or services to unpack, inspect and use before being invoiced by Contractor. Contractor reserves the right at any time to revoke any credit extended to Client Agency because of Client Agency's failure to pay for any Products when due or for any other credit reason.
- 11. **Returns; Damaged Products**. No Products may be returned without Contractor's prior written consent. Only consumable goods invoiced within sixty (60) days will be considered for return. Products returned without written authorization from Contractor may not be accepted by Contractor and are the sole responsibility of Client Agency. All nonsaleable merchandise (that has been opened or partially used) will be deducted from any credit due to Client Agency. All claims for damaged Products or delay in delivery shall be deemed waived unless made in writing and delivered to Contractor within ninety (90) days after receipt of Products.
- 12. <u>Warranty</u>. Contractor agrees to perform its Services in a professional manner, consistent with applicable industry standards. For any Products manufactured by Contractor ("Contractor Equipment"), Contractor's warranty is as set forth in the WSCA-NASPO MSA, Contract #3091 and Contractor's response to the solicitation. CLIENT AGENCY ACKNOWLEDGES THAT THE LIMITED WARRANTY CONTAINED HEREIN AND THEREIN DOES NOT ASSURE UNINTERRUPTED OPERATION AND USE OF THE CONTRACTOR EQUIPMENT. In connection with any other Product sale, Contractor shall transfer to Client Agency any Product warranties made by the applicable Product manufacturer, to the extent transferable and without recourse. Physical or electronic copies of any applicable Product warranty will be delivered by Contractor to Client Agency only upon Client Agency's specific written request.

CONTRACTOR ASSUMES NO OBLIGATION TO PROVIDE OR INSTALL ANY ANTI-VIRUS OR SIMILAR SOFTWARE AND THE SCOPE OF SERVICES CONTEMPLATED HEREBY DOES NOT INCLUDE ANY SUCH SERVICES. agreements for such purpose, with the third party supplier of the software ("Software Supplier"). Contractor has no right, title or interest in any third-party software. Client Agency is solely responsible for entering into Software Licenses with the applicable Software Supplier.

13. <u>Data Management</u>. Exhibit B

RICOH SERVICE LEVEL AGREEMENT ("SLA")

1. Client Agency Level SLA

1.1 Purpose

The purpose of this addendum is to define service levels; penalties for the performance of the service levels; as well as provide the Client Agency with a defined replacement process for equipment performing below expectations.

1.2 Client Agency Service Level Agreement

Contractor agrees to maintain the following service levels defined below as targets:

Performance Criteria	Target Level		
Average Uptime	96% or Better		
Average On-Site Response Time	4 Hours or Less		
First Time Fix	80% of all service calls or better		

These service levels will be measured on a quarterly basis between Contractor and the State.

1.3 Calculation of Service Level Points

Once per quarter, upon written request by the customer, Contractor will produce reporting to be measured against the SLA and points will be assigned according to the following chart. These points will be added to produce a total Service Level score. This score will be used to determine the subsequent penalty according to the following schedule where the penalty can be up to 4% of the previous quarter's service and supplies billing (expressed as a negative %).

		Below	Below	Below	Below

The penalty shall be awarded to the Client Agency as a credit or by check on the following period's service and supplies invoice.

1.4 Equipment Performance

Contractor guarantees that the Client Agency's fleet specified within any maintenance agreement, for units within the Urban service area, will average the monthly uptime as measured on a quarterly basis by product segment listed below.

Group	Devices	Segments	Quarterly Uptime
В	Copiers Color	All	95%
С	Wide Format Devices	All	95%
Е	Digital Duplicators	All	95%

If any unit fails to maintain this level of performance for the monthly uptime, excluding service calls caused by operator error that system will be subject to replacement at the Client Agency's discretion on a like-for-like basis with then current technology. Prior to installing a substitute product, Contractor will be allowed sixty (60) days to remedy any quality or reliability issues.

Should Contractor determine that it cannot maintain a unit of Equipment or an Accessory in good working order, Contractor shall, at its own expense, replace such Equipment with another unit of the same product designation as that Equipment (a "replacement unit") and Contractor shall bear all installation, transportation, removal and rigging charges in connection with the installation of such replacement unit; provided, however that (a) the replacement unit may be a

reconditioned and (b) if a replacement unit of the same product designation as the unit of Equipment it replaces is not available, the replacement unit may be a product of substantially similar or greater capabilities.

The replacement unit will be in "as new" condition, both in operation and appearance. In addition, all warranties and maintenance coverage that applied to the removed unit will also apply to the permanent replacement equipment.

A designated factory authorized technician must certify each unit's ability to produce acceptable impressions with acceptable copies between calls or uptime. The guarantee will remain in effect for the term of the contract or up to five (5) years from the date of acceptance of the Equipment, provided the equipment has not been subjected to abuse or neglect and has been continuously covered by a Maintenance Contract. This replacement policy will remain in effect for the term of the contract and is subject to the Client Agency remaining current with Contractor'spayment requirements.

1.5 Additional Contractor Guarantees

1.5.1 **Training** – On-going training as requested by the Client Agency to be performed within two (2) weeks of requested date for on-site training and two (2) hours for phone/technical support.

To aid end-users after the training session, Contractor provides a manual for every device for reference purposes. In addition, Contractor offers Quick Reference Guides and twenty four (24) -hour toll-free end-user technical support for everyday minor troubleshooting.

- 1.5.2 **Loaner Unit/Backup Production** If any unit is inoperable for a period in excess of seventy two (72)hours, Contractor shall provide the Client Agency with either:
 - i) A loaner unit of similar speed and capabilities until such time as the unit(s) covered by this agreement are operable, or
 - ii) Provide the Client Agency with off-site manned production capabilities to accomplish the work of the unit that is inoperable at the sole cost of the Contractor. Such costs shall be limited to cost of production (service and supplies), equipment, labor, power, transportation of jobs to and from the off-site production facility and facilities.
- 1.5.3 **Invoicing** Contractor shall maintain timely, accurate invoicing, less service run impressions, as defined below. The assigned copy machine operators, back-up personnel, and office personnel shall respond in a timely manner to the Contractor's e-mails, facsimiles, and phone calls in providing the readings. Receiving meters from end users is a necessary step in the process of generating a complete and accurate invoice.

Invoices that are generated without receiving the proper meter read information, due to the Client Agency's failure to provide such meters by the last day of the month, are not considered inaccurate. Failure on the Contractor's part to maintain these levels as defined shall result in a \$50.00 per instance credit on the following invoice. Client Agency will provide written notice of any such alleged invoicing problem and Contractor will be allowed a thirty (30) day cure period to address any such issue.

Measurable	Service Level
Timely Invoicing	Invoices will be submitted no later than the 25 th of the
	month immediately following the close of a billing period.
Accurate Invoicing	Invoices do not require any credits for miss-billing
Service Impressions	Contractor will credit all service run impressions within the
	same billing cycle

2. Reporting and Billing

- 2.1 **Timely Reporting** Contractor shall produce reporting for the Client Agency within thirty (30) days of the closing of the reporting period. Failure to do so will result in a penalty of \$5.00 per work day beyond the thirty (30) day period.
- 2.2 **Timely Payment of Administrative Fees** Contractor shall produce payment for any Client Agency Specific Administrative Fee within sixty (60) days of the closing of the reporting period. Failure to do so will result in a penalty of \$5.00 per work day beyond the sixty (60) day period.
- 2.3 **Accuracy of Reporting** The Client Agency may request at any point proof of the reporting accuracy through the data set supporting the reporting. If the Clietn Agency has reason to believe that multiple and systemic reporting errors exist, that cannot be corrected to the Client Agency's reasonable satisfaction; the Client Agency may require an audit by a third party whereby the Contractor will provide supporting documentation to allow such third party to confirm the accuracy of the reporting. If errors are found, the Contractor must reimburse the Client Agency for the cost of the auditor as well as correcting any administrative fee errors.
- 2.4 **Accuracy of Billing** The Client Agency may request at any point proof of the billing accuracy through the data set supporting the billing. If the Client Agency has reason to believe that multiple and systemic billing errors exist, that cannot be corrected to the Client Agency's reasonable satisfaction; the Client Agency may require an audit by a third party whereby the Contractor will provide supporting documentation to allow such third party to confirm the accuracy of the reporting. If errors are found, the Contractor must reimburse the Client Agency for the cost of the auditor as well as correcting any billing errors provided.
- 2.5 **Penalties** All penalties under this, section two (2) of the Service Level Agreement, shall be payable to the Client Agency.

- (2) The Indemnified Party shall notify the Contractor within a reasonable time after receiving notice of an Intellectual Property Claim. If the Contractor promptly and reasonably investigates and defends any Intellectual Property Claim, it shall have control over the defense and settlement of it. However, the Indemnified Party must consent in writing for any money damages or obligations for which it may be responsible. The Indemnified Party shall furnish, at the Contractor's reasonable request and expense, information and assistance necessary for such defense. If the Contractor fails to vigorously pursue the defense or settlement of the Intellectual Property Claim, the Indemnified Party may assume the defense or settlement of it and the Contractor shall be liable for all costs and expenses, including reasonable attorneys' fees and related costs, incurred by the Indemnified Party in the pursuit of the Intellectual Property Claim. 16. Individual Customers

Contractor shall acquire such insurance from an insurance carrier or carriers licensed to conduct business in each Participating Entity's state and having a rating of A-, Class VII or better, in the most recently published edition of Best's Reports. Failure to buy and maintain the required insurance may result in this Master Agreement's termination or, at a Participating Entity's option; result in termination of its Participating Addendum.
- b. Coverage shall be written on an occurrence basis. The minimum acceptable limits shall be as indicated below, with no deductible for each of the following categories:
 - (1) Commercial General Liability covering premises operations, independent contractors, products and completed operations, blanket contractual liability, personal injury (including death), advertising liability, and property damage, with a limit of not less than \$1 million per occurrence/\$2 million general aggregate;

Prior to commencement of performance, Contractor shall provide to the Lead State a written endorsement to the Contractor's general liability insurance policy or other documentary evidence acceptable to the Lead State that (1) names the Participating States identified in the Request for Proposal as additional insured's, (2) provides that no material alteration, cancellation, non-renewal, or expiration of the coverage contained in such policy shall have effect unless the named Participating State has been given at least thirty (30) days prior written notice, and (3) provides that the Contractor's liability insurance policy shall be primary, with any liability insurance of any Participating State as secondary and noncontributory. Unless otherwise agreed in any Participating Addendum, the Participating Entity's rights and Contractor's obligations are the same as those specified in the first sentence of this subsection. Before performance of any Purchase Order issued after execution of a Participating Addendum authorizing it, the Contractor shall provide to a Purchasing Entity or Participating Entity who requests it the same information described in this subsection.

Copies of renewal certificates of all required insurance shall be furnished within thirty (30) days after any renewal date. These certificates of insurance must expressly indicate compliance with each and every insurance requirement specified in this section. Failure to provide evidence of coverage may, at sole option of the Lead State, or any Participating Entity, result in this Master Agreement's termination or the termination of any Participating Addendum.

f. Coverage and limits shall not limit Contractor's liability and obligations under this Master Agreement, any Participating Addendum, or any Purchase Order.

18. Laws and Regulations

Any and all Products offered and furnished shall comply fully with all applicable Federal and State laws and regulations.

19. License of Pre-Existing Intellectual Property

Contractor grants to the Purchasing Entity a nonexclusive, perpetual, royalty-free, irrevocable, unlimited license to publish, translate, reproduce, modify, deliver, perform, display, and dispose of the Intellectual Property, and its derivatives, used or delivered under this Master Agreement, but not created under it ("Pre-existing Intellectual Property"). The license shall be subject to any third party rights in the Pre-existing Intellectual Property. Contractor shall obtain, at its own expense, on behalf of the Purchasing Entity, written consent of the owner for the licensed Pre-existing Intellectual Property.

20. No Waiver of Sovereign Immunity

In no event shall this Master Agreement, any Participating Addendum or any contract or any Purchase Order issued thereunder, or any act of a Lead State, a Participating Entity, or a Purchasing Entity be a waiver of any form of defense or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court.

This section applies to a claim brought against the Participating State only to the extent Congress has appropriately abrogated the Participating State's sovereign immunity and is not consent by the Participating State to be sued in federal court. This section is also not a waiver by the Participating State of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.

21. Ordering

 Master Agreement number and purchase order numbers shall be clearly shown on all acknowledgments, shipping labels, packing slips, invoices, and on all correspondence.

- b. The resulting Master Agreements permit Purchasing Entities to define project-specific requirements and informally compete the requirement among companies having a Master Agreement on an "as needed" basis. This procedure may also be used when requirements are aggregated or other firm commitments may be made to achieve reductions in pricing. This procedure may be modified in Participating Addenda and adapted to Purchasing Entity rules and policies. The Purchasing Entity may in its sole discretion determine which Master Agreement Contractors should be solicited for a quote. The Purchasing Agency may select the quote that it considers most advantageous, cost and other factors considered.
- c. Each Purchasing Entity will identify and utilize its own appropriate purchasing procedure and documentation. Contractor is expected to become familiar with the Purchasing Entities' rules, policies, and procedures regarding the ordering of supplies and/or services contemplated by this Master Agreement.
- Contractor shall not begin work without a valid Purchase Order or other appropriate commitment document compliance with the law of the Purchasing Entity.
- Orders may be placed consistent with the terms of this Master Agreement during the term of the Master Agreement.

- h. Orders must be placed pursuant to this Master Agreement prior to the termination date thereof, but may have a delivery date or performance period up to 120 days past the thencurrent termination date of this Master Agreement. Contractor is reminded that financial obligations of Purchasing Entities payable after the current applicable fiscal year are contingent upon agency funds for that purpose being appropriated, budgeted, and otherwise made available.

Notwithstanding the expiration or termination of this Master Agreement, Contractor agrees to perform in accordance with the terms of any Orders then outstanding at the time of such expiration or termination. Contractor shall not honor any Orders placed after the expiration or termination of this Master Agreement, or otherwise inconsistent with its terms. Orders from any separate indefinite quantity, task orders, or other form of indefinite delivery order arrangement priced against this Master Agreement may not be placed after the expiration or termination of this Master Agreement, notwithstanding the term of any such indefinite delivery order agreement. Placements made using the authority provided by this Contract will survive the Contract itself, per terms stated in Section 3.3.10 Survivability of the RFP #3091.

22. Participants

- Contractor may not deliver Products under this Master Agreement until a Participating a. Addendum acceptable to the Participating Entity and Contractor is executed. WSCA-NASPO Master Agreement Terms and Conditions are applicable to any Order by a Participating Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum. By way of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Participating Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the consent of the Purchasing Entity and Contractor, may be included in the ordering document (e.g. purchase order or contract) used by the Purchasing Entity to place the Order.
- b. Use of specific WSCA-NASPO cooperative Master Agreements by state agencies, political subdivisions and other Participating Entities (including cooperatives) authorized by individual state's statutes to use state contracts are subject to the approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the respective State Chief Procurement Official.
- c. Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities within the scope of those Participating Addenda. Financial obligations of Participating States are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating States incur no financial obligations on behalf of political subdivisions.
- d. WSCA-NASPO Cooperative Purchasing Organization LLC is not a party to the Master Agreement. It is a nonprofit cooperative purchasing organization assisting states in administering the WSCA/NASPO cooperative purchasing program for state government departments, institutions, agencies and political subdivisions (e.g., colleges, school

districts, counties, cities, etc.) for all 50 states, the District of Columbia and the territories of the United States.

- e. State Participating Addenda or other Participating Addenda shall not be construed to amend the terms of this Master Agreement between the Lead State and Contractor.
- f. Participating Entities who are not states may under some circumstances sign their own Participating Addendum, subject to the approval of participation by the Chief Procurement Official of the state where the Participating Entity is located.

23. Payment

Payments may be made via a State or political subdivision "Purchasing Card" with no additional charge.

24. Public Information

This Master Agreement and all related documents are subject to disclosure pursuant to the Purchasing Entity's public information laws.

25. Records Administration and Audit

- a. The Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Agreement and orders placed by Purchasing Entities under it to the extent and in such detail as shall adequately reflect performance and administration of payments and fees. Contractor shall permit the Lead State, a Participating Entity, a Purchasing Entity, the federal government (including its grant awarding entities and the U.S. Comptroller General), and any other duly authorized agent of a governmental agency, to audit, inspect, examine, copy and/or transcribe Contractor's books, documents, papers and records directly pertinent to this Master Agreement or orders placed by a Purchasing Entity under it for the purpose of making audits, examinations, excerpts, and transcriptions. This right shall survive for a period of five (5) years following termination of this Agreement or final payment for any order placed by a Purchasing Entity against this Agreement, whichever is later, to assure compliance with the terms hereof or to evaluate performance hereunder.
- b. Without limiting any other remedy available to any governmental entity, the Contractor shall reimburse the applicable Lead State, Participating Entity, or Purchasing Entity for any overpayments inconsistent with the terms of the Master Agreement or orders or underpayment of fees found as a result of the examination of the Contractor's records.
- c. The rights and obligations herein right exist in addition to any quality assurance obligation in the Master Agreement requiring the Contractor to self-audit contract obligations and that permits the Lead State to review compliance with those obligations.

26. Administrative Fees

- a. The Contractor shall pay to the WSCA-NASPO Cooperative Purchasing Organization, or its assignee, a WSCA-NASPO Administrative Fee of one-quarter of one percent (0.25% or 0.0025) no later than 60 days following the end of each calendar quarter. The WSCA-NASPO Administrative Fee shall be submitted quarterly and is based on all sales of products and services under the Master Agreement (less any charges for taxes or shipping). The WSCA-NASPO Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with proposal.
- b. Additionally, some states may require an additional fee be paid directly to the state only on purchases made by Purchasing Entities within that state. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Master Agreement. The Contractor may adjust the Master Agreement pricing accordingly for purchases made by Purchasing Entities within the jurisdiction of the state. All such agreements shall not affect the WSCA-NASPO Administrative Fee or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee.

27. WSCA-NASPO Summary and Detailed Usage Reports

In addition to other reports that may be required by this solicitation, the Contractor shall provide the following WSCA-NASPO reports.

- a. Summary Sales Data. The Contractor shall submit quarterly sales reports directly to WSCA-NASPO using the WSCA-NASPO Quarterly Sales/Administrative Fee Reporting Tool found at http://www.naspo.org/WNCPO/Calculator.aspx. Reports shall be due no later than 30 day following the end of the calendar quarter (as specified in the reporting tool).

Contractor shall also report detailed sales data by: (1) state; (2) b. entity/customer type, e.g. local government, higher education, K12, non-profit; (3) Purchasing Entity name; (4) Purchasing Entity bill-to and ship-to locations; (4) Purchasing Entity and Contractor Purchase Order identifier/number(s); (5) Purchase Order Type (e.g. sales order, credit, return, upgrade, determined by industry practices); (6) Purchase Order date; (7) Ship Date; (8) and line item description, including product number if used. The report shall be submitted in any form required by the solicitation. Reports are due on a quarterly basis and must be received by the Lead State and WSCA-NASPO Cooperative Development Team no later than thirty (30) days after the end of the reporting period. Reports shall be delivered to the Lead State and to the WSCA-NASPO Cooperative Development Team electronically through a designated portal, email, CD-Rom, flash drive or other method as determined by the Lead State. Detailed sales data reports shall include sales information for all sales under Participating Addenda executed under this Master Agreement. The format for the detailed sales data report is in shown in Attachment P.

- c. Report data for employees should be limited to ONLY the state and entity they are participating under the authority of (state and agency, city, county, school district, etc.) and the amount of sales. No personal identification numbers, e.g. names, addresses, social security numbers or any other numerical identifier, may be submitted with any report.
- d. Timely submission of these reports is a material requirement of the Master Agreement. The recipient of the reports shall have exclusive ownership of the media containing the reports. The Lead State and WSCA-NASPO shall have a perpetual, irrevocable, non-exclusive, royalty free, transferable right to display, modify, copy, and otherwise use reports, data and information provided under this section.

28. Standard of Performance and Acceptance.

Any standard of performance under this Master Agreement applies to all Products purchased under this Master Agreement, including any additional, replacement, or substitute Product(s) and any Product(s) which are modified by or with the written approval of Contractor after Acceptance by the Purchasing Entity. The Acceptance Testing period shall be thirty (30) calendar days or other time period identified in the solicitation or the Participating Addendum, starting from the day after the Product is delivered or, if installed, the day after the Product is installed and Contractor certifies that the Product is ready for Acceptance Testing. If the Product does not meet the standard of performance during the initial period of Acceptance Testing, Purchasing Entity may, at its discretion, continue Acceptance Testing on a day-to-day basis until the standard of performance is met. Upon rejection, the Contractor will have fifteen (15) calendar days to cure the standard of performance issue(s). If after the cure period, the Product still has not met the standard of performance, the Purchasing Entity may, at its option: (a) declare Contractor to be in breach and terminate the Order; (b) demand replacement Product from Contractor at no additional cost to Purchasing Entity; or, (c) continue the cure period for an additional time period agreed upon by the Purchasing Entity and the Contractor. Contractor shall pay all costs related to the preparation and shipping of Product returned pursuant to the section. No Product shall be accepted and no charges shall be paid until the standard of performance is met. The warranty period will begin upon Acceptance.

29. Warranty

The Contractor warrants for a period of a minimum of 90 days from the date of Acceptance that:
(a) the Product performs according to all specific claims that the Contractor made in its response to the solicitation, (b) the Product is suitable for the ordinary purposes for which such Product is used, (c) the Product is suitable for any special purposes identified in the solicitation or for which the Purchasing Entity has relied on the Contractor's skill or judgment, (d) the Product is designed and manufactured in a commercially reasonable manner, and (e) the Product is free of defects. Upon breach of the warranty, the Contractor will repair or replace (at no charge to the Purchasing Entity) the Product whose nonconformance is discovered and made known to the Contractor. If the repaired and/or replaced Product proves to be inadequate, or fails of its essential purpose, the Contractor will refund the full amount of any payments that have been made. The rights and

remedies of the parties under this warranty are in addition to any other rights and remedies of the parties provided by law or equity, including, without limitation, actual damages, and, as applicable and awarded under the law, to a prevailing party, reasonable attorneys⁷ fees and costs.

31. Title of Product

Upon Acceptance by the Purchasing Entity, Contractor shall convey to Purchasing Entity title to the Product free and clear of all liens, encumbrances, or other security interests. Transfer of title to the Product shall include an irrevocable and perpetual license to use any Embedded Software in the Product. If Purchasing Entity subsequently transfers title of the Product to another entity, Purchasing Entity shall have the right to transfer the license to use the Embedded Software with the transfer of Product title. A subsequent transfer of this software license shall be at no additional cost or charge to either Purchasing Entity or Purchasing Entity's transferee.

32. Waiver of Breach

Failure of the Lead State, Participating Entity, or Purchasing Entity to declare a default or enforce any rights and remedies shall not operate as a waiver under this Master Agreement or Participating Addendum. Any waiver by the Lead State, Participating Entity, or Purchasing Entity must be in writing. Waiver by the Lead State or Participating Entity of any default, right or remedy under this Master Agreement or Participating Addendum, or by Purchasing Entity with respect to any Purchase Order, or breach of any terms or requirements of this Master Agreement, a Participating Addendum, or Purchase Order shall not be construed or operate as a waiver of any subsequent default or breach of such term or requirement, or of any other term or requirement under this Master Agreement, Participating Addendum, or Purchase Order.

33. Assignment of Antitrust Rights

Contractor irrevocably assigns to a Participating Entity any claim for relief or cause of action which the Contractor now has or which may accrue to the Contractor in the future by reason of any violation of state or federal antitrust laws (15 U.S.C. § 1-15 or a Participating Entity's state antitrust provisions), as now in effect and as may be amended from time to time, in connection with any goods or services provided to the Contractor for the purpose of carrying out the Contractor's obligations under this Master Agreement or Participating Addendum, including, at a Participating Entity's option, the right to control any such litigation on such claim for relief or cause of action.

34. Debarment

The Contractor certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract) by any governmental department or agency. This certification represents a recurring certification made at the time any Order is placed under this Master Agreement. If the Contractor cannot certify this statement, attach a written explanation for review by the Lead State.

35. Governing Law and Venue

- a. The procurement, evaluation, and award of the Master Agreement shall be governed by and construed in accordance with the laws of the Lead State sponsoring and administering the procurement. The construction and effect of the Master Agreement after award shall be governed by the law of the state serving as Lead State (in most cases also the Lead State). The construction and effect of any Participating Addendum or Order against the Master Agreement shall be governed by and construed in accordance with the laws of the Participating Entity's or Purchasing Entity's State.
- b. Unless otherwise specified in the RFP, the venue for any protest, claim, dispute or action relating to the procurement, evaluation, and award is in the Lead State. Venue for any claim, dispute or action concerning the terms of the Master Agreement shall be in the state serving as Lead State. Venue for any claim, dispute, or action concerning any Order placed against the Master Agreement or the effect of a Participating Addendum shall be in the Purchasing Entity's State.
- c. If a claim is brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for (in decreasing order of priority): the Lead State for claims relating to the procurement, evaluation, award, or contract performance or administration if the Lead State is a party; the Participating State if a named party; the Participating Entity state if a named party; or the Purchasing Entity state if a named party.

WSCA-NASPO eMarket Center

- a. In July 2011, WSCA-NASPO entered into a multi-year agreement with SciQuest, Inc. whereby SciQuest will provide certain electronic catalog hosting and management services to enable eligible WSCA-NASPO entity's customers to access a central online website to view and/or shop the goods and services available from existing WSCA-NASPO Cooperative Contracts. The central online website is referred to as the WSCA-NASPO eMarket Center Contractor shall either upload a hosted catalog into the eMarket Center or integrate a punchout site with the eMarket Center.
- b. Supplier's Interface with the eMarket Center. There is no cost charged by SciQuest to the Contractor for loading a hosted catalog or integrating a punchout site.
- c. At a minimum, the Contractor agrees to the following:
 - (1) Implementation Timeline: WSCA-NASPO eMarket Center Site Admin shall provide a written request to the Contractor to begin enablement process. The Contractor shall have fifteen (15) days from receipt of written request to work with WSCA-NASPO and SciQuest to set up an enablement schedule, at which time SciQuest's technical documentation shall be provided to the Contractor. The schedule will include future calls and milestone dates related to test and go live dates. The contractor shall have a total of Ninety (90) days to deliver either a (1) hosted catalog or (2) punch-out catalog, from date of receipt of written request.

- (2) WSCA-NASPO and SciQuest will work with the Contractor, to decide which of the catalog structures (either hosted or punch-out as further described below) shall be provided by the Contractor. Whether hosted or punch-out, the catalog must be strictly limited to the Contractor's awarded contract offering (e.g. products and/or services not authorized through the resulting cooperative contract should not be viewable by WSCA-NASPO Participating Entity users).
 - (a) Hosted Catalog. By providing a hosted catalog, the Contractor is providing a list of its awarded products/services and pricing in an electronic data file in a format acceptable to SciQuest, such as Tab Delimited Text files. In this scenario, the Contractor must submit updated electronic data within five days of approval from the Lead State of product updates to the eMarket Center for the Lead State's approval to maintain the most up-to-date version of its product/service offering under the cooperative contract in the eMarket Center.
 - (b) Punch-Out Catalog. By providing a punch-out catalog, the Contractor is providing its own online catalog, which must be capable of being integrated with the eMarket Center as a. Standard punch-in via Commerce eXtensible Markup Language (cXML). In this scenario, the Contractor shall validate that its online catalog is up-to-date by providing a written update as needed, to the Lead State stating they have audited the offered products/services and pricing listed on its online catalog. The site must also return detailed UNSPSC codes (as outlined in line 3) for each line item. Contractor also agrees to provide e-Quote functionality to facilitate volume discounts.
- d. Revising Pricing and Product Offerings: Any revisions (whether an increase or decrease) to pricing or product/service offerings (new products, altered SKUs, etc.) must be preapproved by the Lead State and shall be subject to any other applicable restrictions with respect to the frequency or amount of such revisions. However, no cooperative contract enabled in the eMarket Center may include price changes on a more frequent basis than once per month. The following conditions apply with respect to hosted catalogs:
 - (1) Updated pricing files are required by the 1st of the month and shall go into effect in the eMarket Center on the 1st day of the following month (i.e. file received on 1/01/13 would be effective in the eMarket Center on 2/01/13). Files received after the 1st of the month may be delayed up to a month (i.e. file received on 11/06/09 would be effect in the eMarket Center on 1/01/10).
 - (2) Lead State-approved price changes are not effective until implemented within the eMarket Center. Errors in the Contractor's submitted pricing files will delay the implementation of the price changes in eMarket Center.
- e. Supplier Network Requirements: Contractor shall join the SciQuest Supplier Network (SQSN) and shall use the SciQuest's Supplier Portal to import the Contractor's catalog and pricing, into the SciQuest system, and view reports on catalog spend and product/pricing freshness. The Contractor can receive orders through electronic delivery (cXML) or through low-tech options such as fax. More information about the SQSN can

- be found at: www.sciquest.com or call the SciQuest Supplier Network Services team at 800-233-1121.
- f. Minimum Requirements: Whether the Contractor is providing a hosted catalog or a punch-out catalog, the Contractor agrees to meet the following requirements:
 - Catalog must contain the most current pricing, including all applicable administrative fees and/or discounts, as well as the most up-to-date product/service offering the Contractor is authorized to provide in accordance with the cooperative contract; and
 - (2) The accuracy of the catalog must be maintained by Contractor throughout the duration of the cooperative contract between the Contractor and the Contract Administrator; and
 - (3) The Catalog must include a Lead State contract identification number; and
 - (4) The Catalog must include detailed product line item descriptions; and
 - (5) The Catalog must include pictures when possible; and
 - (6) The Catalog must include any additional WSCA-NASPO and Participating Addendum requirements. Although suppliers in the SQSN normally submit one (1) catalog, it is possible to have multiple contracts applicable to different WSCA-NASPO Participating Entities. For example, a supplier may have different pricing for state government agencies and Board of Regents institutions. Suppliers have the ability and responsibility to submit separate contract pricing for the same catalog if applicable. The system will deliver the appropriate contract pricing to the user viewing the catalog.
- g. Order Acceptance Requirements: Contractor must be able to accept Purchase Orders via fax or cXML. The Contractor shall provide positive confirmation via phone or email within 24 hours of the Contractor's receipt of the Purchase Order. If the Purchasing Order is received after 3pm EST on the day before a weekend or holiday, the Contractor must provide positive confirmation via phone or email on the next business day.
- h. UNSPSC Requirements: Contractor shall support use of the United Nations Standard Product and Services Code (UNSPSC). UNSPSC versions that must be adhered to are driven by SciQuest for the suppliers and are upgraded every year. WSCA-NASPO reserves the right to migrate to future versions of the UNSPSC and the Contractor shall be required to support the migration effort. All line items, goods or services provided under the resulting statewide contract must be associated to a UNSPSC code. All line items must be identified at the most detailed UNSPSC level indicated by segment, family, class and commodity. More information about the UNSPSC is available at: http://www.unspsc.com and http://www.unspsc.com/FAQs.asp#howdoesunspscwork.
- Applicability: Contractor agrees that WSCA-NASPO controls which contracts appear in the eMarket Center and that WSCA-NASPO may elect at any time to remove any supplier's offering from the eMarket Center.

- j. The Lead State reserves the right to approve the pricing on the eMarket Center. This catalog review right is solely for the benefit of the Lead State and Participating Entities, and the review and approval shall not waive the requirement that products and services be offered at prices (and approved fees) required by the Master Agreement.
- k. Several WSCA-NASPO Participating Entities currently maintain separate SciQuest eMarketplaces, these Participating Entities do enable certain WSCA-NASPO Cooperative Contracts. In the event one of these entities elects to use this WSCA-NASPO Cooperative Contract (available through the eMarket Center) but publish to their own eMarketplace, the Contractor agrees to work in good faith with the entity and WSCA-NASPO to implement the catalog. WSCA-NASPO does not anticipate that this will require substantial additional efforts by the Contractor; however, the supplier agrees to take commercially reasonable efforts to enable such separate SciQuest catalogs.

Financial Audit for State Grants.

For purposes of this paragraph, the word "Contractor" shall be deemed to mean "nonstate entity," as that term is defined in Section 4-230 of the Connecticut General Statutes. Such audit shall include management letters and audit recommendations. The contractor will comply with federal and state single audit standards as applicable.

Lead State Terms that shall not apply to Connecticut.

The parties hereby agree that any provision in the Standard Terms and Conditions of the National Association of State Procurement Officials, the Nevada's Negotiated Terms and Conditions or the Master Agreement between NASPO and West Publishing Corporation and any of its Exhibits, shall not apply to Connecticut or any of the participating entities from Connecticut if the provision violates sovereign immunity or conflicts with this Participating Addendum. Further the parties agree that in any instance where a provision requires the State to indemnify the Contractor or that the parties are bound by binding arbitration that constitutes a violation of sovereign immunity, and therefore is not applicable.

Data Storage Devices.

Neither the Contractor nor Contractor parties shall remove from a Client Agency facility for any time or any reason any hard drives or other data storage devices that are installed in or are in any other way considered to be a part of the Equipment, such as any "plug in" devices (collectively, "Data Storage Devices"). HARD DRIVE REMOVAL PROCEDURE

Digital copiers which have a hard drive shall not be removed from a state facility before the Contractor uninstalls the hard drive from the digital copier and transfers it to your agency (note that Hard Drive Removal service must be purchased at an additional cost quoted by Contractor).

Overview of Data Storage Device (hard drive) Removal Procedure

- 1. State Agency provides the Contractor with a written request to remove the digital copier.
 - State Agency schedules a date and time for removal of the copier with the Contractor. If you need to reschedule a removal time, you must provide a minimum of twenty four (24) hour notice to the Contractor. The Contractor may charge a rescheduling fee if twenty four (24) hour notice is not provided.
- 2. State Agency identifies the person(s) ("Duly Authorized Agents") from the agency who will secure the hard drive(s) when removed from the digital copier and maintain the required documentation. It is important to have more than one person identified as a Duly Authorized Agent so pickup cancellations and rescheduling are avoided.
- 3. State Agency shall have the Data Storage Device Transfer Receipt (attached) completed with as much information as available.
 - The Contractor will assist with serial numbers, and other identification information. It is required that <u>all</u> hard drives be recorded on the Data Storage Device Transfer Receipt and <u>all</u> information is recorded. The Data Storage Device Transfer Receipt must be signed by both the Contractor and the Duly Authorized Agent. A copy of the signed Data Storage Device Transfer Receipt is to be provided to the Contractor.
- 4. State Agency shall secure the hard drive and the corresponding Data Storage Device Transfer Receipt. The Duly Authorized agent shall maintain all Data Storage Device Transfer Receipts and secure all Data Storage Devices in accordance with The State of Connecticut, Bureau of Enterprise Systems and Technology (BEST) current procedures regarding the storage and destruction of Data Storage Devices".

Encryption of Data Storage Devices

In addition to the removal of the hard drives, the Contract specifies that all digital copiers with hard drives will have encryption software installed at the Advanced Encryption Standard 256 ("AES256").

These service levels will be measured on a quarterly basis between Contractor and the State.

Servicing Territory – 50 miles within an authorized Canon servicing dealer who is trained to maintain Canon devices.

Production Equipment - units with rated speeds 91 pages per min or faster and/or graphic production color units (excludes imageRUNNER color units).

Loaner Unit/Backup Production – If any unit in Groups B is inoperable for a period in excess of seventy two (72) hours, Contractor shall provide the Client Agency with either:

- i) A loaner unit of similar speed and capabilities until such time as the unit(s) covered by this agreement are operable, or
- ii) Provide the Client Agency with off-site manned production capabilities to accomplish the work of the unit that is inoperable at the sole cost of the Contractor. Such costs shall be limited to cost of production (service and supplies), equipment, labor, power, transportation of jobs to and from the off-site production facility and facilities.

Prior to installing a substitute product, Contractor will be allowed sixty (60) days to remedy any quality or reliability issues. The guarantee will remain in effect for the term of the Contract or up to five (5) years from the date of purchase/rent, provided the equipment shows no evidence of abuse or neglect and has been continuously covered by any of the Cost Per Copy (CPC) Service Plans listed

below the purchase pricing in Contractor's Price List or supplemental Base+Click plans in the Service and Supply tabs contained in Contractor's Price List.. i. Notwithstanding the expiration or termination of this Master Agreement, Contractor agrees to perform in accordance with the terms of any Orders then outstanding at the time of such expiration or termination. Contractor shall not honor any Orders placed after the expiration or termination of this Master Agreement, or otherwise inconsistent with its terms. 22. Participants

- Contractor may not deliver Products under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed. Financial obligations of Participating States are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating States incur no financial obligations on behalf of political subdivisions.
- d. WSCA-NASPO Cooperative Purchasing Organization LLC is not a party to the Master Agreement. It is a nonprofit cooperative purchasing organization assisting states in administering the WSCA/NASPO cooperative purchasing program for state government departments, institutions, agencies and political subdivisions (e.g., colleges, school

This right shall survive for a period of five (5) years following termination of this Agreement or final payment for any order placed by a Purchasing Entity against this Agreement, whichever is later, to assure compliance with the terms hereof or to evaluate performance hereunder.
- b. Without limiting any other remedy available to any governmental entity, the Contractor shall reimburse the applicable Lead State, Participating Entity, or Purchasing Entity for any overpayments inconsistent with the terms of the Master Agreement or orders or underpayment of fees found as a result of the examination of the Contractor's records.
- c. The rights and obligations herein right exist in addition to any quality assurance obligation in the Master Agreement requiring the Contractor to self-audit contract obligations and that permits the Lead State to review compliance with those obligations.

26. Administrative Fees

- a. The Contractor shall pay to the WSCA-NASPO Cooperative Purchasing Organization, or its assignee, a WSCA-NASPO Administrative Fee of one-quarter of one percent (0.25% or 0.0025) no later than 60 days following the end of each calendar quarter. The WSCA-NASPO Administrative Fee shall be submitted quarterly and is based on all sales of products and services under the Master Agreement (less any charges for taxes or shipping). The WSCA-NASPO Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with proposal.
- b. Additionally, some states may require an additional fee be paid directly to the state only on purchases made by Purchasing Entities within that state. For all such requests, the fee level, payment method and schedule for such reports and payments will be incorporated into the Participating Addendum that is made a part of the Master Agreement. The Contractor may adjust the Master Agreement pricing accordingly for purchases made by Purchasing Entities within the jurisdiction of the state. All such agreements shall not affect the WSCA-NASPO Administrative Fee or the prices paid by the Purchasing Entities outside the jurisdiction of the state requesting the additional fee.

In addition to other reports that may be required by this solicitation, the Contractor shall provide the following WSCA-NASPO reports.

The Acceptance Testing period shall be thirty (30) calendar days or other time period identified in the solicitation or the Participating Addendum, starting from the day after the Product is delivered or, if installed, the day after the Product is installed and Contractor certifies that the Product is ready for Acceptance Testing. If the Product does not meet the standard of performance during the initial period of Acceptance Testing, Purchasing Entity may, at its discretion, continue Acceptance Testing on a day-to-day basis until the standard of performance is met. Upon rejection, the Contractor will have fifteen (15) calendar days to cure the standard of performance issue(s). If after the cure period, the Product still has not met the standard of performance, the Purchasing Entity may, at its option: (a) declare Contractor to be in breach and terminate the Order; (b) demand replacement Product from Contractor at no additional cost to Purchasing Entity; or, (c) continue the cure period for an additional time period agreed upon by the Purchasing Entity and the Contractor. Contractor shall pay all costs related to the preparation and shipping of Product returned pursuant to the section. No Product shall be accepted and no charges shall be paid until the standard of performance is met. The warranty period will begin upon Acceptance.

A subsequent transfer of this software license shall be at no additional cost or charge to either Purchasing Entity or Purchasing Entity's transferee.

32. Waiver of Breach

Failure of the Lead State, Participating Entity, or Purchasing Entity to declare a default or enforce any rights and remedies shall not operate as a waiver under this Master Agreement or Participating Addendum. Any waiver by the Lead State, Participating Entity, or Purchasing Entity must be in writing. Waiver by the Lead State or Participating Entity of any default, right or remedy under this Master Agreement or Participating Addendum, or by Purchasing Entity with respect to any Purchase Order, or breach of any terms or requirements of this Master Agreement, a Participating Addendum, or Purchase Order shall not be construed or operate as a waiver of any subsequent default or breach of such term or requirement, or of any other term or requirement under this Master Agreement, Participating Addendum, or Purchase Order.

33. Assignment of Antitrust Rights

Contractor irrevocably assigns to a Participating Entity any claim for relief or cause of action which the Contractor now has or which may accrue to the Contractor in the future by reason of any violation of state or federal antitrust laws (15 U.S.C. § 1-15 or a Participating Entity's state antitrust provisions), as now in effect and as may be amended from time to time, in connection with any goods or services provided to the Contractor for the purpose of carrying out the Contractor's obligations under this Master Agreement or Participating Addendum, including, at a Participating Entity's option, the right to control any such litigation on such claim for relief or cause of action.

34. Debarment

The Contractor certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract) by any governmental department or agency. This certification represents a recurring certification made at the time any Order is placed under this Master Agreement. If the Contractor cannot certify this statement, attach a written explanation for review by the Lead State.

35. Governing Law and Venue

- a. The procurement, evaluation, and award of the Master Agreement shall be governed by and construed in accordance with the laws of the Lead State sponsoring and administering the procurement. The construction and effect of the Master Agreement after award shall be governed by the law of the state serving as Lead State (in most cases also the Lead State). The construction and effect of any Participating Addendum or Order against the Master Agreement shall be governed by and construed in accordance with the laws of the Participating Entity's or Purchasing Entity's State.
- b. Unless otherwise specified in the RFP, the venue for any protest, claim, dispute or action relating to the procurement, evaluation, and award is in the Lead State. Venue for any claim, dispute or action concerning the terms of the Master Agreement shall be in the state serving as Lead State. Venue for any claim, dispute, or action concerning any Order placed against the Master Agreement or the effect of a Participating Addendum shall be in the Purchasing Entity's State.
- c. If a claim is brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for (in decreasing order of priority): the Lead State for claims relating to the procurement, evaluation, award, or contract performance or administration if the Lead State is a party; the Participating State if a named party; the Participating Entity state if a named party; or the Purchasing Entity state if a named party.

36. WSCA-NASPO eMarket Center

- a. In July 2011, WSCA-NASPO entered into a multi-year agreement with SciQuest, Inc. whereby SciQuest will provide certain electronic catalog hosting and management services to enable eligible WSCA-NASPO entity's customers to access a central online website to view and/or shop the goods and services available from existing WSCA-NASPO Cooperative Contracts. The central online website is referred to as the WSCA-NASPO eMarket Center Contractor shall either upload a hosted catalog into the eMarket Center or integrate a punchout site with the eMarket Center.
- b. Supplier's Interface with the eMarket Center. There is no cost charged by SciQuest to the Contractor for loading a hosted catalog or integrating a punchout site.
- c. At a minimum, the Contractor agrees to the following:
 - (1) Implementation Timeline: WSCA-NASPO eMarket Center Site Admin shall provide a written request to the Contractor to begin enablement process. The Contractor shall have fifteen (15) days from receipt of written request to work with WSCA-NASPO and SciQuest to set up an enablement schedule, at which time SciQuest's technical documentation shall be provided to the Contractor. The schedule will include future calls and milestone dates related to test and go live dates. The contractor shall have a total of Ninety (90) days to deliver either a (1) hosted catalog or (2) punch-out catalog, from date of receipt of written request.

- (2) WSCA-NASPO and SciQuest will work with the Contractor, to decide which of the catalog structures (either hosted or punch-out as further described below) shall be provided by the Contractor. Whether hosted or punch-out, the catalog must be strictly limited to the Contractor's awarded contract offering (e.g. products and/or services not authorized through the resulting cooperative contract should not be viewable by WSCA-NASPO Participating Entity users).
 - (a) Hosted Catalog. By providing a hosted catalog, the Contractor is providing a list of its awarded products/services and pricing in an electronic data file in a format acceptable to SciQuest, such as Tab Delimited Text files. In this scenario, the Contractor must submit updated electronic data within five days of approval from the Lead State of product updates to the eMarket Center for the Lead State's approval to maintain the most up-to-date version of its product/service offering under the cooperative contract in the eMarket Center.
 - (b) Punch-Out Catalog. By providing a punch-out catalog, the Contractor is providing its own online catalog, which must be capable of being integrated with the eMarket Center as a. Standard punch-in via Commerce eXtensible Markup Language (cXML). In this scenario, the Contractor shall validate that its online catalog is up-to-date by providing a written update as needed, to the Lead State stating they have audited the offered products/services and pricing listed on its online catalog. The site must also return detailed UNSPSC codes (as outlined in line 3) for each line item. Contractor also agrees to provide e-Quote functionality to facilitate volume discounts.
- d. Revising Pricing and Product Offerings: Any revisions (whether an increase or decrease) to pricing or product/service offerings (new products, altered SKUs, etc.) must be preapproved by the Lead State and shall be subject to any other applicable restrictions with respect to the frequency or amount of such revisions. However, no cooperative contract enabled in the eMarket Center may include price changes on a more frequent basis than once per month. The following conditions apply with respect to hosted catalogs:
 - (1) Updated pricing files are required by the 1st of the month and shall go into effect in the eMarket Center on the 1st day of the following month (i.e. file received on 1/01/13 would be effective in the eMarket Center on 2/01/13). Files received after the 1st of the month may be delayed up to a month (i.e. file received on 11/06/09 would be effect in the eMarket Center on 1/01/10).
 - (2) Lead State-approved price changes are not effective until implemented within the eMarket Center. Errors in the Contractor's submitted pricing files will delay the implementation of the price changes in eMarket Center.
- e. Supplier Network Requirements: Contractor shall join the SciQuest Supplier Network (SQSN) and shall use the SciQuest's Supplier Portal to import the Contractor's catalog and pricing, into the SciQuest system, and view reports on catalog spend and product/pricing freshness. The Contractor can receive orders through electronic delivery (cXML) or through low-tech options such as fax. More information about the SQSN can

- be found at: www.sciquest.com or call the SciQuest Supplier Network Services team at 800-233-1121.
- f. Minimum Requirements: Whether the Contractor is providing a hosted catalog or a punch-out catalog, the Contractor agrees to meet the following requirements:
 - Catalog must contain the most current pricing, including all applicable administrative fees and/or discounts, as well as the most up-to-date product/service offering the Contractor is authorized to provide in accordance with the cooperative contract; and
 - (2) The accuracy of the catalog must be maintained by Contractor throughout the duration of the cooperative contract between the Contractor and the Contract Administrator; and
 - (3) The Catalog must include a Lead State contract identification number; and
 - (4) The Catalog must include detailed product line item descriptions; and
 - (5) The Catalog must include pictures when possible; and
 - (6) The Catalog must include any additional WSCA-NASPO and Participating Addendum requirements. Although suppliers in the SQSN normally submit one (1) catalog, it is possible to have multiple contracts applicable to different WSCA-NASPO Participating Entities. For example, a supplier may have different pricing for state government agencies and Board of Regents institutions. Suppliers have the ability and responsibility to submit separate contract pricing for the same catalog if applicable. The system will deliver the appropriate contract pricing to the user viewing the catalog.
- g. Order Acceptance Requirements: Contractor must be able to accept Purchase Orders via fax or cXML. The Contractor shall provide positive confirmation via phone or email within 24 hours of the Contractor's receipt of the Purchase Order. If the Purchasing Order is received after 3pm EST on the day before a weekend or holiday, the Contractor must provide positive confirmation via phone or email on the next business day.
- h. UNSPSC Requirements: Contractor shall support use of the United Nations Standard Product and Services Code (UNSPSC). UNSPSC versions that must be adhered to are driven by SciQuest for the suppliers and are upgraded every year. WSCA-NASPO reserves the right to migrate to future versions of the UNSPSC and the Contractor shall be required to support the migration effort. All line items, goods or services provided under the resulting statewide contract must be associated to a UNSPSC code. All line items must be identified at the most detailed UNSPSC level indicated by segment, family, class and commodity. More information about the UNSPSC is available at: http://www.unspsc.com/fAQs.asp#howdoesunspscwork.
- Applicability: Contractor agrees that WSCA-NASPO controls which contracts appear in the eMarket Center and that WSCA-NASPO may elect at any time to remove any supplier's offering from the eMarket Center.

- j. The Lead State reserves the right to approve the pricing on the eMarket Center. This catalog review right is solely for the benefit of the Lead State and Participating Entities, and the review and approval shall not waive the requirement that products and services be offered at prices (and approved fees) required by the Master Agreement.
- k. Several WSCA-NASPO Participating Entities currently maintain separate SciQuest eMarketplaces, these Participating Entities do enable certain WSCA-NASPO Cooperative Contracts. In the event one of these entities elects to use this WSCA-NASPO Cooperative Contract (available through the eMarket Center) but publish to their own eMarketplace, the Contractor agrees to work in good faith with the entity and WSCA-NASPO to implement the catalog. WSCA-NASPO does not anticipate that this will require substantial additional efforts by the Contractor; however, the supplier agrees to take commercially reasonable efforts to enable such separate SciQuest catalogs.

The Lead State shall not be required to provide advance written notice or a cure period and may immediately terminate this Master Agreement in whole or in part if the Lead State, in its sole discretion, determines that it is reasonably necessary to preserve public safety or prevent immediate public crisis. If the Contractor promptly and reasonably investigates and defends any Intellectual Property Claim, it shall have control over the defense and settlement of it. However, the Indemnified Party must consent in writing for any money damages or obligations for which it may be responsible. The Indemnified Party shall furnish, at the Contractor's reasonable request and expense, information and assistance necessary for such defense. If the Contractor fails to vigorously pursue the defense or settlement of the Intellectual Property Claim, the Indemnified Party may assume the defense or settlement of it and the Contractor shall be liable for all costs and expenses, including reasonable attorneys' fees and related costs, incurred by the Indemnified Party in the pursuit of the Intellectual Property Claim. Unless otherwise agreed in writing, this section is not subject to any limitations of liability in this Master Agreement or in any other document executed in conjunction with this Master Agreement.

If after the cure period, the Product still has not met the standard of performance, the Purchasing Entity may, at its option: (a) declare Contractor to be in breach and terminate the Order; (b) demand replacement Product from Contractor at no additional cost to Purchasing Entity; or, (c) continue the cure period for an additional time period agreed upon by the Purchasing Entity and the Contractor. - a. In July 2011, WSCA-NASPO entered into a multi-year agreement with SciQuest, Inc. whereby SciQuest will provide certain electronic catalog hosting and management services to enable eligible WSCA-NASPO entity's customers to access a central online website to view and/or shop the goods and services available from existing WSCA-NASPO Cooperative Contracts. The central online website is referred to as the WSCA-NASPO eMarket Center Contractor shall either upload a hosted catalog into the eMarket Center or integrate a punchout site with the eMarket Center.
- b. Supplier's Interface with the eMarket Center. There is no cost charged by SciQuest to the Contractor for loading a hosted catalog or integrating a punchout site.
- c. At a minimum, the Contractor agrees to the following:
 - (1) Implementation Timeline: WSCA-NASPO eMarket Center Site Admin shall provide a written request to the Contractor to begin enablement process. The Contractor shall have fifteen (15) days from receipt of written request to work with WSCA-NASPO and SciQuest to set up an enablement schedule, at which time SciQuest's technical documentation shall be provided to the Contractor. The schedule will include future calls and milestone dates related to test and go live dates. The contractor shall have a

- total of Ninety (90) days to deliver either a (1) hosted catalog or (2) punch-out catalog, from date of receipt of written request.
- (2) WSCA-NASPO and SciQuest will work with the Contractor, to decide which of the catalog structures (either hosted or punch-out as further described below) shall be provided by the Contractor. Whether hosted or punch-out, the catalog must be strictly limited to the Contractor's awarded contract offering (e.g. products and/or services not authorized through the resulting cooperative contract should not be viewable by WSCA-NASPO Participating Entity users).
 - (a) Hosted Catalog. By providing a hosted catalog, the Contractor is providing a list of its awarded products/services and pricing in an electronic data file in a format acceptable to SciQuest, such as Tab Delimited Text files. In this scenario, the Contractor must submit updated electronic data within five days of approval from the Lead State of product updates to the eMarket Center for the Lead State's approval to maintain the most up-to-date version of its product/service offering under the cooperative contract in the eMarket Center.
 - (b) Punch-Out Catalog. By providing a punch-out catalog, the Contractor is providing its own online catalog, which must be capable of being integrated with the eMarket Center as a. Standard punch-in via Commerce eXtensible Markup Language (cXML). In this scenario, the Contractor shall validate that its online catalog is up-to-date by providing a written update as needed, to the Lead State stating they have audited the offered products/services and pricing listed on its online catalog. The site must also return detailed UNSPSC codes (as outlined in line 3) for each line item. Contractor also agrees to provide e-Quote functionality to facilitate volume discounts.
- d. Revising Pricing and Product Offerings: Any revisions (whether an increase or decrease) to pricing or product/service offerings (new products, altered SKUs, etc.) must be preapproved by the Lead State and shall be subject to any other applicable restrictions with respect to the frequency or amount of such revisions. However, no cooperative contract enabled in the eMarket Center may include price changes on a more frequent basis than once per month. The following conditions apply with respect to hosted catalogs:
 - (1) Updated pricing files are required by the 1st of the month and shall go into effect in the eMarket Center on the 1st day of the following month (i.e. file received on 1/01/13 would be effective in the eMarket Center on 2/01/13). Files received after the 1st of the month may be delayed up to a month (i.e. file received on 11/06/09 would be effect in the eMarket Center on 1/01/10).
 - (2) Lead State-approved price changes are not effective until implemented within the eMarket Center. Errors in the Contractor's submitted pricing files will delay the implementation of the price changes in eMarket Center.
- e. Supplier Network Requirements: Contractor shall join the SciQuest Supplier Network (SQSN) and shall use the SciQuest's Supplier Portal to import the Contractor's catalog and pricing, into the SciQuest system, and view reports on catalog spend and

product/pricing freshness. The Contractor can receive orders through electronic delivery (cXML) or through low-tech options such as fax. More information about the SQSN can be found at: www.sciquest.com or call the SciQuest Supplier Network Services team at 800-233-1121.

- f. Minimum Requirements: Whether the Contractor is providing a hosted catalog or a punch-out catalog, the Contractor agrees to meet the following requirements:
 - (1) Catalog must contain the most current pricing, including all applicable administrative fees and/or discounts, as well as the most up-to-date product/service offering the Contractor is authorized to provide in accordance with the cooperative contract; and
 - (2) The accuracy of the catalog must be maintained by Contractor throughout the duration of the cooperative contract between the Contractor and the Contract Administrator; and
 - (3) The Catalog must include a Lead State contract identification number; and
 - (4) The Catalog must include detailed product line item descriptions; and
 - (5) The Catalog must include pictures when possible; and
 - (6) The Catalog must include any additional WSCA-NASPO and Participating Addendum requirements. Although suppliers in the SQSN normally submit one (1) catalog, it is possible to have multiple contracts applicable to different WSCA-NASPO Participating Entities. For example, a supplier may have different pricing for state government agencies and Board of Regents institutions. Suppliers have the ability and responsibility to submit separate contract pricing for the same catalog if applicable. The system will deliver the appropriate contract pricing to the user viewing the catalog.
- g. Order Acceptance Requirements: Contractor must be able to accept Purchase Orders via fax or cXML. The Contractor shall provide positive confirmation via phone or email within 24 hours of the Contractor's receipt of the Purchase Order. If the Purchasing Order is received after 3pm EST on the day before a weekend or holiday, the Contractor must provide positive confirmation via phone or email on the next business day.
- h. UNSPSC Requirements: Contractor shall support use of the United Nations Standard Product and Services Code (UNSPSC). UNSPSC versions that must be adhered to are driven by SciQuest for the suppliers and are upgraded every year. WSCA-NASPO reserves the right to migrate to future versions of the UNSPSC and the Contractor shall be required to support the migration effort. All line items, goods or services provided under the resulting statewide contract must be associated to a UNSPSC code. All line items must be identified at the most detailed UNSPSC level indicated by segment, family, class and commodity. More information about the UNSPSC is available at: http://www.unspsc.com/FAQs.asp#howdoesunspscwork.

- i. Applicability: Contractor agrees that WSCA-NASPO controls which contracts appear in the eMarket Center and that WSCA-NASPO may elect at any time to remove any supplier's offering from the eMarket Center.
- j. The Lead State reserves the right to approve the pricing on the eMarket Center. This catalog review right is solely for the benefit of the Lead State and Participating Entities, and the review and approval shall not waive the requirement that products and services be offered at prices (and approved fees) required by the Master Agreement.
- k. Several WSCA-NASPO Participating Entities currently maintain separate SciQuest eMarketplaces, these Participating Entities do enable certain WSCA-NASPO Cooperative Contracts. In the event one of these entities elects to use this WSCA-NASPO Cooperative Contract (available through the eMarket Center) but publish to their own eMarketplace, the Contractor agrees to work in good faith with the entity and WSCA-NASPO to implement the catalog. WSCA-NASPO does not anticipate that this will require substantial additional efforts by the Contractor; however, the supplier agrees to take commercially reasonable efforts to enable such separate SciQuest catalogs.

IN WITNESS WHEREOF, the parties hereto have caused this Contract to be signed and intend to be legally bound thereby.

For equipment installed by Xerox, Risk of loss will pass to Customer upon acceptance and for equipment designated as "Customer Installable," the equipment delivery date. The term for a lease Order shall commence upon acceptance of the Equipment; provided, however, for customer-installable Equipment, the term for a lease Order shall commence upon delivery of the Equipment.

GENERAL TERMS: The following terms apply to all transactions:

SOFTWARE TERMS: The following additional terms apply only to transactions covering Application Software and/or Xerox-brand Equipment:

1) Software License. Xerox grants you a non-exclusive, non-transferable license to use in the U.S.: (a) software and accompanying documentation provided with Xerox-brand Equipment ("Base Software) only with the Xerox-brand Equipment with which it was delivered; and (b) software and accompanying documentation identified in this Agreement as "Application Software" only on any single unit of equipment for as long as you are current in the payment of all applicable software license fees." Base Software" and "Application Software" are referred to collectively as "Software". You have no other rights and may not: (1) distribute, copy, modify, create derivatives of, decompile, or reverse engineer Software; (2) activate Software delivered with the Equipment in an inactivated state; or (3) allow others to engage in same. Title to, and all intellectual property rights in, Software will reside solely with Xerox and/or its licensors (who will be considered third-party beneficiaries of this Section). Software may contain code capable of automatically disabling the Equipment. Disabling code may be activated if: (x) Xerox is denied access to periodically reset such code; (y) you are notified of a default under this Agreement; or (z) your license is terminated or expires. The Base Software license will terminate; (i) if you no longer use or possess the Equipment; (ii) you are a lessor of the Equipment and your first lessee no longer uses or possesses it; or (iii) upon the expiration or termination of this Agreement, unless you have exercised

your option to purchase the equipment. Neither Xerox nor its licensors warrant that Software will be free from errors or that its operation will be uninterrupted. The foregoing terms do not apply to Diagnostic Software or to software/documentation accompanied by a clickwrap or shrinkwrap license agreement or otherwise made subject to a separate license agreement.

2) SOFTWARE SUPPORT. Xerox (or a designated servicer) will provide the software support set forth below ("Software Support"). For Base Software, Software Support will be provided during the initial Term and any renewal period but in no event longer than 5 years after Xerox stops taking customer orders for the subject model of Equipment. For Application Software, Software Support will be provided as long as you are current in the payment of all applicable software license and support fees. Xerox will maintain a web-based or toll-free hotline during Xerox's standard working hours to report Software problems and answer Software-related questions. Xerox, either directly or with its vendors, will make reasonable efforts to: (a) assure that Software performs in material conformity with its user documentation; (b) provide available workarounds or patches to resolve Software performance problems; and (c) resolve coding errors for (i) the current Release and (ii) the previous Release for a period of 6 months after the current Release is made available to you. Xerox will not be required to provide Software Support if you have modified the Software. New releases of Software that primarily incorporate compliance updates and coding error fixes are designated as "Maintenance Releases" or "Úpdates". Maintenance Releases or Updates that Xerox may make available will be provided at no charge and must be implemented within six months. New releases of Software that include new content or functionality ("Feature Releases") will be subject to additional license fees at Xerox's then-current pricing. Maintenance Releases, Updates and Feature Releases are collectively referred to as "Releases". Each Release will be considered Software governed by the Software License and Software Support provisions of this Agreement (unless otherwise noted). Implementation of a Release may require you to procure, at your expense, additional hardware and/or software from Xerox or another entity. Upon installation of a Release, you will return or destroy all prior Releases.

Intellectual Property Indemnity: Xerox will defend, and pay any settlement agreed to by Xerox or any final judgment for, any claim that a Xerox-brand Product infringes a third party's U.S. intellectual property rights. You will promptly notify Xerox of any alleged infringement and permit Xerox to direct the defense. Xerox is not responsible for any non-Xerox litigation expenses or settlements unless it pre-approves them in writing. To avoid infringement, Xerox may modify or substitute an equivalent Xerox-brand Product, refund the price paid for the Xerox-brand Product (less the reasonable rental value for the period it was available to you), or obtain any necessary licenses. Xerox is not liable for any infringement based upon a Xerox-brand Product being modified to your specifications or being used or sold with products not provided by Xerox.

3) DIAGNOSTIC SOFTWARE. Software used to maintain the Equipment and/or diagnose its failures or substandard performance (collectively "Diagnostic Software") is embedded in, resides on, or may be loaded onto the Equipment. The Diagnostic Software and method of entry or access to it constitute valuable trade secrets of Xerox. Title to the Diagnostic Software shall at all times remain solely with Xerox and/or Xerox's licensors. You agree that (a) your acquisition of the Equipment does not grant you a license or right to use the Diagnostic Software in any manner, and (b) that unless separately licensed by Xerox to do so, you will not use, reproduce, distribute, or disclose the Diagnostic Software for any purpose (or allow third parties to do so). You agree at all times (including subsequent to the expiration of this

- Agreement) to allow Xerox to access, monitor, and otherwise take steps to prevent unauthorized use or reproduction of the Diagnostic Software.
- 4) REMOTE SERVICES. Certain models of Equipment are supported and serviced using data that is automatically collected by Xerox or transmitted to or from Xerox by the Equipment connected to Customer's network (" Remote Data") via electronic transmission to a secure off-site location ("Remote Data Access"). Remote Data Access also enables Xerox to transmit to Customer Releases for Software and to remotely diagnose and modify Equipment to repair and correct malfunctions. Examples of Remote Data include product registration, meter read, supply level, Equipment configuration and settings, software version, and problem/fault code data. Remote Data may be used by Xerox for billing, report generation, supplies replenishment, support services, recommending additional products and services, and product improvement/development purposes. Remote Data will be transmitted to and from Customer in a secure manner specified by Xerox. Remote Data Access will not allow Xerox to read, view or download the content of any Customer documents or other information residing on or passing through the Equipment or Customer's information management systems. Customer grants the right to Xerox, without charge, to conduct Remote Data Access for the purposes described above. Upon Xerox s request, Customer will provide contact information for Equipment such as name and address of Customer contact and IP and physical addresses/locations of Equipment. Customer will enable Remote Data Access via a method prescribed by Xerox, and Customer will provide reasonable assistance to allow Xerox to provide Remote Data Access. Unless Xerox deems Equipment incapable of Remote Data Access, Customer will ensure that Remote Data Access is maintained at all times Maintenance Services are being performed.

LEASE TERMS: The following additional terms apply only to lease transactions:

- 1) NON-CANCELABLE LEASE. SUBJECT TO STATE LAW, LEASE ORDERS CANNOT BE CANCELED OR TERMINATED EXCEPT FOR FISCAL YEAR FUNDS NON-APPROPRIATION OR AN UNCURED XEROX PERFORMANCE FAILURE AS EXPRESSLY PROVIDED HEREIN, AND YOUR OBLIGATION TO MAKE ALL PAYMENTS DUE OR TO BECOME DUE SHALL BE ABSOLUTE AND UNCONDITIONAL AND SHALL NOT BE SUBJECT TO ANY DELAY, REDUCTION, SET-OFF, DEFENSE, COUNTERCLAIM OR RECOUPMENT FOR ANY REASON WHATSOEVER.
- 2) LEASE COMMENCEMENT, & CREDIT HISTORY. Xerox reserves the right to review and approve Customer's credit prior to acceptance of an Order, and Customer authorizes Xerox or its agent to obtain credit reports from commercial credit reporting agencies.
- 3) DEFAULT & REMEDIES; LATE CHARGES & COLLECTION COSTS. You will be in default under this Agreement or an Order if (1) Xerox does not receive any payment within fifteen (15) days after the date it is due or (2) if you breach any other obligation hereunder. If you default, Xerox, in addition to its other remedies (including the cessation of Basic Services), may require immediate payment, as liquidated damages for loss of bargain and not as a penalty, of: (a) all amounts then due, plus interest on all amounts due from the due date until paid at the rate of one percent (1%) per month (not to exceed the maximum amount permitted by law); (b) the Lease Minimum Payments (less the Maintenance Services and Consumable Supplies components thereof, as reflected on Xerox's books and records) remaining in the initial Term of an Order, discounted at 4% per annum; and (c) all applicable

Taxes.. Customer will notify Xerox and make the Equipment available for removal by Xerox in the same condition as when delivered (reasonable wear and tear excepted) within 30 days after notice of default.

Forum and Choice of Law. The parties deem the Contract to have been made in the City of Hartford, State of Connecticut. Both parties agree that it is fair and reasonable for the validity and construction of the Contract to be, and it shall be, governed by the laws and court decisions of the State of Connecticut, without giving effect to its principles of conflicts of laws. To the extent that any immunities provided by Federal law or the laws of the State of Connecticut do not bar an action against the State, and to the extent that these courts are courts of competent jurisdiction, for the purpose of venue, the complaint shall be made returnable to the Judicial District of Hartford only or shall be brought in the United States District Court for the District of Connecticut only, and shall not be transferred to any other court, provided, however, that nothing here constitutes a waiver or compromise of the sovereign immunity of the State of Connecticut. The Contractor waives any objection which it may now have or will have to the laying of venue of any Claims in any forum and further irrevocably submits to such jurisdiction in any suit, action or proceeding.

Sovereign Immunity. The parties acknowledge and agree that nothing in the solicitation or the Contract shall be construed as a modification, compromise or waiver by the State of any rights or defenses of any immunities provided by Federal law or the laws of the State of Connecticut to the State or any of its officers and employees, which they may have had, now have or will have with respect to all matters arising out of the Contract. To the extent that this section conflicts with any other section, this section shall govern.

Summary of State Ethics Laws. Pursuant to the requirements of section 1-101qq of the Connecticut General Statutes, the summary of State ethics laws developed by the State Ethics Commission pursuant to section 1-81b of the Connecticut General Statutes is incorporated by reference into and made a part of the Contract as if the summary had been fully set forth in the Contract.

Contractor agrees that the penalty shall be awarded to the Client Agency as a credit provided, however, that the credit shall be applied solely against meter/impression charges reflected on subsequent invoices until the credit has been completely applied. If the order associated with the SLA has expired or has been terminated, any remaining credit will be forfeited.

1.5 Equipment Performance

Contractor guarantees each machine specified within any maintenance agreement will perform to either a) the monthly copies between service calls as measured by machine on a quarterly basis by group and segment listed below and/or b) the monthly uptime as measured by machine on a quarterly basis by segment listed below.

Group	Devices	Devices Segments Quarterly V	
В	High Production Copiers	All	95%

If any unit fails to maintain this level of performance between calls and or the monthly uptime, excluding service calls caused by operator error that system will be subject to replacement at the Client Agency's discretion on a like-for-like basis with then current technology. Prior to installing a substitute product, Contractor

will be allowed thirty (30) days to remedy any quality or reliability issues. A designated factory authorized technician must certify each unit's ability to produce acceptable impressions with acceptable copies between calls or uptime. The guarantee will remain in effect for the term of the Contract or up to five (5) years from the date of purchase/rent, provided the equipment has not been subjected to abuse or neglect and has been continuously maintained by Xerox under a Xerox maintenance agreement. This replacement policy will remain in effect for the term of the Contract and is subject to the Client Agency remaining current with supplier's payment requirements.

1.6 Additional Contractor Guarantees

- 1.6.1 **Training** On-going training as requested by the Client Agency to be performed within two (2) weeks of requested date for on-site training and two (2) hours for phone/technical support. A penalty of \$50 per incident that does not meet the turnaround time specified above to be credited on the next service bill.
- 1.6.2 **Loaner Unit/Backup Production** Contractor agrees to provide a loaner or to measure uptime on an individual unit basis, with the following accepted exclusive remedy:
 - i. Contractor agrees the vast majority of on-site equipment repairs will be completed within five (5) business hours. However, in the unlikely event that the repair time exceeds twelve (12) consecutive working hours, Xerox agrees as Client Agency's exclusive remedy, to provide a loaner if available; or
 - ii. At the Client Agency's option, to issue a service credit, equal to 1/30" of the equipment's monthly maintenance component for each day the equipment is inoperable and is not available for Client Agency's use, beginning with the day of the Client Agency's initial service call. Such credit may be applied against future meter charges only. Under no circumstance will any credits reduce the Monthly Minimum Charge. If an order associated with the SLA has expired or has been terminated, any remaining credit will be forfeited.
- 1.6.3 **Invoicing** Contractor shall maintain timely, accurate invoicing, less service run impressions, as defined below. Failure on the Contractor's part to maintain these levels as defined shall result in a \$50.00 per instance credit on the following invoice.

Measurable	Service Level
Timely Invoicing	Invoices will be submitted no later than the 25 th of the
	month immediately following the close of a billing period.
Accurate Invoicing	Invoices do not require any credits for miss-billing
Service Impressions	Contractor will credit all service run impressions within the
	same billing cycle

2. Reporting and Billing

- 2.1 **Timely Reporting** Contractor shall produce reporting for the State within thirty (30) days of the closing of the reporting period. Failure to do so will result in a penalty of \$5.00 per work day beyond the thirty (30) day period.
- 2.2 **Timely Payment of Administrative Fees** Contractor shall produce payment for any State Specific Administrative Fee within thirty (30) days of the closing of the reporting period. Failure to do so will result in a penalty of \$5.00 per work day beyond the thirty (30) day period.
- 2.3 **Accuracy of Reporting** The State may request at any point proof of the reporting accuracy through the data set supporting the reporting. If the State has reason to believe that multiple and systemic reporting errors exist, that cannot be corrected to the State's satisfaction; the State may require an audit by a third party. If errors are found, the Contractor must reimburse the State for the cost of the auditor as well as correcting any administrative fee errors.
- Accuracy of Billing The State may request at any point proof of the billing accuracy through the data set supporting the billing. If the State has reason to believe that multiple and systemic billing errors exist, that cannot be corrected to the State's satisfaction; the State may require an audit by a third party. If errors are found, the Contractor must reimburse the State for the cost of the auditor as well as correcting any billing errors.
- 2.5 **Penalties** All penalties under this, section two (2) of the Service Level Agreement, shall be payable to the State.
