Honeywell Support Discontinuation – PW6K, Mercury Series 2 Controllers, SIOs, Casi M5

Audience: HIS

Offering Manager: Mayur Kumar, Fredrik B

In order to focus on providing the most innovative and latest technology products to our customers, it is sometimes necessary to discontinue products so focus can be dedicated to developing new, improved offerings.

This notice is to advise you that Honeywell will discontinue Cyber and Technical Telephone Support for all Mercury Series 2 and related Mercury Powered PW6K Honeywell products on below mentioned dates.

Without cybersecurity updates, your and your customers' private information and the integrity of their systems and networks can be compromised. You may keep using the product(s) at your own risk, or you may upgrade to the latest products, which you can find in the table below.

Please contact your Honeywell Sales Representative for more information about migration options and requirements.
