 = Organic  = Natural  = Regionally Sourced  = Kosher  = Gluten Free  = Special Order

= Organic

Self explanatory! If you see this symbol, the product is certified organic by any of the nationally recognized certifications. For our local guys, it might be NOFA-NY and for some of the national brands it might be USDA.

= Natural

"Natural" stands for nearly every product Regional Access carries, representing our commitment to good for you food. If this symbol is missing, consider it a warning! Perhaps the product has a small amount of preservative to keep it shelf stable, or in the case of some dried fruits, it may have sulphur dioxide (SO₂) added to retain color.

= Regionally Sourced

Some of the items we get most excited about. This designation means the product is manufactured in the Northeastern United States. Some of the best foods out there come from MA, ME, NJ, and of course, NY!

= Kosher

Kosher certified product. Please keep in mind there are many different Kosher certifications out there, so its best to enquire with your sales rep if your customer, restaurant, deli or dining hall needs a particular one.

= Gluten Free

Applied to any product that is gluten free so it can be ordered by those on a special diet with confidence. In addition to sufferers of Celiac Disease, many people have adopted gluten free diets to easily limit carbohydrate consumption, or just because they have discovered they feel better after doing so!

= Special Order

PLEASE NOTE: This is not a stock item, and often requires additional lead time to bring in for you. Please ask your sales rep when you place your order. It may even be an item with seasonal or limited availability.

Product ID This is the internal code Regional Access uses to distinguish between products. Please use this code when you place your order, as it increases efficiency and ensures you receive the product you wanted!

Description The product description.

Pack Pack size. PLEASE NOTE: Items that are priced by the pound are designated by a \$/# symbol. The corresponding price refers to the **price per pound**, not the total price of the item.

List Price The list price of the item. PLEASE NOTE, prices are subject to change, so check with your sales rep for the most current pricing. As mentioned above, on items with a \$/# symbol the List Price refers to the **price per pound**, not the total price of the item.

Enjoy! And please call our sales team at 607-319-5150, ext. #5 with any questions.

Bottle Green Presse

Bottlegreen Drinks Co. has been creating tasteful, natural soft drinks since 1989. Back then, founders Kit and Shireen Morris planted 10 acres of vines with the dream of making fine wines from the locally abundant elderflowers. But first they created a cordial which tasted so fresh and so deliciously different, it changed their plans forever.

Café Kubal

Kubal (kuB'aa) is a Mayan word from one of the dialects spoken in the highlands of Guatemala. Translated, Café Kubal means "coffee for the soul." To us, coffee is beyond a product. It is beyond a beverage. It is a response to what we are called to do. It is an act of true soulfulness: a responsibility, a passion, a love. 100% Organic & Fair Trade certified.

Natalie's - Orchid Island Juice Co.

Natalie's Orchid Island Juice Co. is a family owned company that uses only the finest fruits from their own orchards and from the US - fresh squeezing juice daily to order. In their award winning, environmentally friendly plant, the OIJC process is unique in that the rinds never touch the juice, keeping the bitter oils in the rinds from diminishing the clean, sweet pure taste of this premium Florida juice. These juices are gently gourmet pasteurized and are Orthodox Kosher.

5 Spoke Creamery

Great cheese starts with great milk. At 5 Spoke Creamery all of their cheeses are hand made in the farmstead tradition (produced on site with a closed herd) from the raw milk of grass-fed cows. The milk comes from Holstein cows that are free of pesticides and hormones. They milk the cows at 4:00 A.M. and make the cheese at 9:00 A.M.!

Cooperstown Cheese

Cooperstown Cheese Company's line of Toma cheeses recall the classic, bloomy rind cheeses of France. It is extra thick so the texture ranges from molten at the rind to dense and rich in the center. Their Jersey Girl Colby cheese, with raw grass fed cow's milk, has a deep yellow hue and a rich, earthy flavor.

Finger Lakes Farmstead Cheese

At Finger Lakes Farmstead Cheese, they make European-style farmstead cheeses using fresh, raw milk from their family farm. Their cows graze from early spring to late fall: grazing keeps the herd happy and healthy, and is known for its positive effect on cheese flavor.

NYMilk

As the name suggests, all NYMilk is produced right here in NEW YORK - at most, just a 6 hour drive from where you're standing! So, nymilk is very fresh, but it also benefits the environment. Because nymilk ships locally instead of cross-country, we reduce emissions and our carbon footprint. And, nymilk is certified organic, which means that our farms are third-party certified to use sustainable farming methods without the use of antibiotics, added growth hormones or dangerous pesticides. Just green pastures, clean water, fresh air and sunshine!

Fruit Spreads & Preserves

Fruit Spreads & Preserves: Fruit Spreads

Cross Creek Farm

Cross Creek Farm is a small family owned and operated farm located in the foothills of Berkshire, NY. Most of the fruit from their delicious small batch handmade apple butter comes from the Cornell University Orchards right here in Ithaca, NY! The sugar free apple butter contains no sweetener at all, just fruit and spices. Abandon your bland pureed apple butters, and enjoy the sparkling taste and textures of Cross Creek Farms instead.

Kimes

For over 50 years now, Kime's Cider Mill has been a family owned and operated enterprise. The 3rd generation is now beginning to learn the business from their fathers. One of the keys to Kime's success is their location. This region of Adams County is well known for its rolling hills and rich fertile soil. Fruit grown here has exceptional flavor. By using tree-ripened fresh fruit, they are able to produce all natural fruit spreads with superior quality and great taste.

Red Jacket Orchards

Red Jacket is committed to nurturing the tastiest fruits from our fertile lands and pressing the freshest juices possible, and are passionate about delivering amazing flavor and quality fit for our own family's table. In reverence to the environment, Red Jacket employs Integrated Pest Management (IPM) practices and is certified by Food Alliance as a sustainable producer of plums, apricots, and prunes. PLEASE NOTE: SOME RED JACKET JUICES ARE SEASONAL, AND NOT AVAILABLE YEAR ROUND.

Hardwick Beef

At Hardwick Beef, they provide the very best beef from animals that are raised on grass, without any antibiotics or added hormones. As animals are moved from one fresh paddock to another, grass is continually being grazed when the vitamins, minerals, and proteins are at their best. Consequently, cattle get the best possible nutrition, manure is spread evenly across the land, and the farmland actually improves with use. These are the types of farming methods that Regional Access was founded to support.

Olli Salumeria

The way we make our artisanal slow-cured meats is based on original 160-year old family recipes that were handed down to our 4th generation Italian salumiere, Olli Colmignoli. Our products are made with pork from pasture-raised, heritage-breed pigs from family-owned sustainable farms. Based in Virginia, these meats are setting a new standard and garnering accolades from the nation's top chefs. The retail salamis are shelf stable and packed in a modified atmosphere white parchment to preserve the nuanced flavors of the premium ingredients.

Vermont Smoke and Cure

Made from scratch in Vermont by Chris, Larry and The Smokehouse Crew! These are some of the finest summer sausage, bacon, ham and other smoked meats in the world, using pure ingredients and old fashioned ways. They have been at it for over 45 years, in their smokehouse in the hills of Central Vermont. These aren't your father's super salty, teriyaki-like sticks made with who-knows-what! These sticks, made with natural beef and pork (Cracked Pepper), or just beef (BBQ), deliver great flavor, not too much salt, and a satisfying snack flavor punch! The shelf stable pepperoni and summer sausage have been a favorite here at Regional since we opened the first sample package.

The best lamb we have ever tasted at Regional Access, and it's grown right down the road in Bath, NY where sheep graze the rolling pastures of a 530-acre farm located in the Finger Lakes region of Western New York. Hormone free, no antibiotics, all grain fed and pastured. Even the grain they are fed comes from the farm! If you get a chance, stop by the farm and check out the award winning fleeces, sheepskins, and wool!

Regional Pantry

We, at Regional Access, are very excited to announce the formation of our new brand for local sustainable products. The name, "The Regional Pantry", is appropriate in many ways. It ties our name to what promises to be a line of retail products which will be intimately associated with our goals of creating an efficient, sustainable, regional production system of high quality, minimally processed, nutritious foods.

Oils & Vinegars: Olive Oil

Casa Pareja

Casa Pareja is an artisanal unfiltered olive oil, which is made in accordance with the strictest guidelines of the EEC Organic bylaws. Juan takes great pride in his oil, which he makes with a blend of Arbequina, Cuquillo and Hojiblanca olives that are carefully harvested from his own trees. Much like the great oils of Italy, the fruit of these ancient trees (most are about 400 years old) gives us an oil with real integrity and balance, combining a refined taste of fruit, full body, and gentle acidity.

Elyros

Elyros Extra Virgin Olive Oil is produced from Cretan Olive trees called "Koronaeki" in the Apokorona and Sfakia regions of Crete, Greece. Some of these trees are the oldest in the world—being thousands of years—and are considered the best to produce olive oil. When the olives are mature, they are collected by hand and processed at a traditional olive mill in Stylos, Apokornas, where they are cold pressed only once. They use traditional methods of pressing to secure the highest nutritional value and give it the perfect aroma and taste.

Esporao

Almost 50% of Portuguese olive groves can be found on the plains of the Alentejo, which explains the regional importance of this tree, which is happy to grow in stony soil and in extreme climate conditions. At Herdade do Esporão, olive growing is much more than a farming activity. The cultivation of olive trees, the olive harvest and the production of olive oil are tasks that arise by force of the region, that are an obligatory ritual of veneration of a place – the Alentejo.

Olea Estates

Olea's olive orchards are located a few miles outside Sparta in Greece, near the old village of Goritsa. For more than 150 years, four generations of the Chronis family have been hand picking the olives from the same trees, processing them in the same way and delivering the rich, extra virgin Olea olive oil for your enjoyment. They also make the best calamata olives we have ever tasted at Regional Access!

Zoe

A sensuous balance of delicate fruit and luscious butter accompanies an aromatic bouquet of pepper, fresh basil, almond and artichoke heart. This sought after olive oil is first cold pressed predominantly from the Cornicabra olive groves in Castilla-La Mancha, Spain, and is blended with well-rounded Spanish varieties such as the Picual and Hojiblanca to ensure a consistent delicate flavor.

Verjooz

From our friends right down the road at Red Newt Winery in the heart of the Finger Lakes Wine Country. VERJOOZ is made using green Vinifera grapes which are harvested at veraison with approximately 10-12 brix sugar content. The grapes are grown at Sawmill Creek Vineyards located on the east side of Seneca Lake. You'll find the flavors of our verjuice to reflect a bright burst of sunshine in your mouth. Using Verjooz in sauces and dressing will add a zippy yet complex element that complements wine, instead of detracting from it like a too acidic vinegar.

Regional Pantry

We, at Regional Access, are very excited to announce the formation of our new brand for local sustainable products. The name, "The Regional Pantry", is appropriate in many ways. It ties our name to what promises to be a line of retail products which will be intimately associated with our goals of creating an efficient, sustainable, regional production system of high quality, minimally processed, nutritious foods.

Arnaud

In the heart of Frances' beautiful Region of Provence the Arnaud family has been curing olives for three generations. Arnaud olives are seasoned with local Herbes de Provence, wild fennel, or mellow, roasted garlic... and finished with a dash of red wine vinegar and local sunflower oil for rich texture and delicious finish.

Olea Estates

Olea's olive orchards are located a few miles outside Sparta in Greece, near the old village of Goritsa. For more than 150 years, four generations of the Chronis family have been hand picking the olives from the same trees, processing them in the same way and delivering the rich, extra virgin Olea olive oil for your enjoyment. They also make the best calamata olives we have ever tasted at Regional Access!

Prepared Foods: Quiche and Tarts

Pika's Farm Table

A Regional Access favorite. The best NYS produced soups and quiches made from scratch with butter, farm fresh eggs and cheeses, and local signature ingredients. Pika never uses trans-fats, hydrogenated oils, color enhancers, additives or preservatives. The soups are dreamy, using local produce and other fine ingredients, and the quiches are immediately flashfrozen after the bake in order to guarantee freshness.

Ducktrap River of Maine

In 30 years, Ducktrap River of Maine has gone from two workers to 93 employees. What started as a small trout farm selling to local businesses has blossomed into a full scale 45,000 sq. ft. seafood smoking facility that sends high quality, all natural smoked products all across the country. All the fish is 100% natural, free of preservatives and artificial ingredients.
