

Document Supplies
Digital print media
to feed your imagination

Introduction

Xerox Supplies is as committed to protecting the environment as we are in offering you the widest portfolio of digitally optimised Paper and Specialty Media. Our range of options includes papers that are FSC and PEFC Certified and papers that are recycled so you can be sure you're preserving the planet while you're improving your document quality, your output and your bottom line.

Xerox Paper and Specialty Media

Xerox supplies are engineered to bring out the best in digital printing. Whether you need to create a high-end customer brochure, a captivating proposal or presentation, an eye-catching business card, poster, pamphlet or window decal, you get results with Xerox digitally optimised Paper and Specialty Media. All of our products have been designed, extensively tested and qualified by Xerox engineers to ensure optimum performance and outstanding productivity.

There's never been a better time to take advantage of the explosive growth of digital print. No matter what kind of business you are in, we have innovative, money-making or money-saving solutions that get results:

- Shorter run lengths
- Faster turnaround times
- Personalised content
- Performance guaranteed

Xerox Replacement Cartridges for HP, Brother, Lexmark and Kyocera printers

It's old news that Xerox invented toner technology, but our range of replacement cartridges for non-Xerox printers is proving the brand of choice for the environmentally aware user.

Our replacement cartridges achieve page yields higher than or equal to the OEM cartridge which means the cost per copy is as attractive as the print quality – and all with the Xerox Lifetime Guarantee.

If your office needs affordable colour printing then look no further than replacement print cartridges from Xerox.

Sustainability and Certification

Starting with the source of the fibre used to make the paper, through its manufacture and use, we strive to minimise environmental impact while meeting your exacting business needs. Over ten years ago, we adopted an environmental position on sourcing paper. The position states that our goal is to source paper from companies committed to sound environment, health and safety practices and sound environmental management. These stringent requirements cover all aspects of papermaking, from forest management to production of finished goods.

Our standards ensure:

- commitment to compliance with all applicable environment, health and safety regulatory requirements, including forestry codes of practice and regulations governing legal harvesting of wood.
- an effective mill environmental management system and objectives for continual improvement in environmental performance above and beyond regulatory compliance.
- performance guaranteed

Our effective procurement process:

- ensures the exclusion of illegally harvested wood raw materials.
- ensures the exclusion of wood raw materials derived from forest areas of significant ecological or cultural importance, unless certified to our accepted sustainable forest management standards.
- encourages all suppliers of wood raw materials to practice sustainable forest management.
- strictly limits the use of hazardous materials, including exclusion of elemental chlorine, in the processing and content of our papers.

These standards enabled us to gain certification by other outside independent groups to ensure that our papers not only meet our high standards, but meet the requirements of these cross-industry governing bodies. Xerox were one of the first paper providers to be awarded multi-site certification of all of our paper sales and distribution sites across Europe and North America.

Chain of Custody

Chain of Custody (CoC) is the path taken by the raw materials harvested from a certified forest all the way through processing, production, distribution and printing until it is a final product to be sold to an end customer.

We are proud to have earned CoC certification from the following organisations:

Programme for the Endorsement of Forest Certification

The Programme for the Endorsement of Forest Certification (PEFC) Council is an independent, non-profit, non-governmental organisation, which promotes sustainably managed forests through independent third party certification. PEFC provides an assurance mechanism to purchasers of wood and paper products that they are promoting the sustainable management of forests.

PEFC offers customers a badge of sustainability as requested by many end users, as proof of corporately responsible purchasing.

Forest Stewardship Council

The Forest Stewardship Council (FSC) is an international network, which promotes responsible management of the world's forests. It accredits independent third party organisations to FSC standards to ensure well managed forestry. Its trademark provides international recognition to organisations that support the growth of responsible forest management.

The FSC trademark can be displayed on products containing a mix of FSC certified, recycled and controlled fibre.

Paper for
colour printing

Optimum paper

Colotech+

Xerox Colotech+ uncoated paper is the benchmark for Digital Colour printing. Calendered to give a super smooth finish which enhances the brilliance and contrast on all colour laser printers and copiers, Colotech+ offers a pin-sharp image every time. Bleach type ECF.

Everyday paper

ColorPrint

ColorPrint is a smooth high white paper ideal for printing everyday office documents in colour. ColorPrint is optimised for digital printing and can be used all around the office on typical desktop or multi-functional printers. As well as giving superb colour reproduction it gives great results when reproducing those important black and white documents or images, with pin sharp detail and halftones. Bleach type ECF.

Creative paper

Packaging Board

Xerox Packaging Board prevents product loss by effectively protecting packed materials against physical damage, contamination and light. Product information can be printed directly onto the surface of the board, so no extra labels are needed. This information can be generic or personalised and offers a clear opportunity for branding and improved product placement and recognition. The smoothness, whiteness and brightness provide excellent print results. Bleach type ECF.

Committed to Sustainability

www.xerox.com/sustainablepaper

The leaf is Xerox' way of easily identifying our most sustainable papers, offered around the globe. Look for this leaf to quickly and easily find Xerox recycled, certified and environmentally innovative reams of paper.

Paper

Paper Sizes

Paper Grain Direction

Short & Long Grain

The grain direction for paper is either short grain or long grain. You have long grain whenever the fibres are parallel to the long side of the paper sheet.

A sheet is short grain when the fibres are parallel to the short side. Because the “aligned” fibres give a paper it’s different strength and folding characteristics, the grain direction is important to know for any Print Operator.

Depending on the planned application, (portrait or landscape, folding, multi-prints, etc), you need to decide between short and long grain papers to fit the application.

Paper sizes	
SRA1	900 x 640 mm
A1	841 x 594 mm
SRA2	450 x 640 mm
A2+	440 x 640 mm
A2	420 x 594 mm
iGen XXL	660 x 364 mm
iGen XL	571 x 364 mm
iGen max	521 x 364 mm
SRA3	450 x 320 mm
A3	420 x 297 mm
B4	257 x 364 mm
A4+	223 x 297 mm
US Quarto	215 x 279 mm
US Legal	215 x 355 mm
A4	210 x 297 mm
Quarto	203 x 254 mm
US F'scap	215 x 330 mm
A5	210 x 148 mm
A6	105 x 148 mm

Paper for black and white printing

Optimum paper

Exclusive

The benchmark paper for printing prestigious documents such as proposals, legal correspondence, letterheads, and presentations. The excellent bulk, stiffness, and very high whiteness of Xerox Exclusive are all features which give a professional and high value look to your documents. Bleach type ECF.

Specialty media

Premium Digital Carbonless paper

Use Xerox Digital Carbonless Paper to create multipart/NCR forms on your mono or colour digital printer or copier. Available in both pre-collated sets or singles, the range offers maximum choice and flexibility to produce forms in a range of size and colour sequences. To learn more go to www.xerox.co.uk/carbonless

Pre-Collated

Xerox Carbonless Pre-Collated Paper is the ideal way of producing small amounts of Carbonless forms in one simple process. The specification of the laser printer or copier used, determines the 'pre-collation' option required for automatic pre-collated multipart forms. Alternative colour collation can be supplied on request.

Perforated

Xerox offer pre-perforated stocks of unmatched quality - zero burrs or debris and absolutely flat sheets ensure perfect runnability. Sheets are perforated vertically (10mm from edge) to create 'tear out' or 'snap-apart' book.

Note: The CF/bottom sheets of the pre-collated sets are not perforated and are designed to stay in the book.

A4 Vertical 10mm Perforation

Part Number	Sets per unit	Coating type	Colour	Sheets/Pack	Packs/Box	List Price

DuraPaper

DuraPaper is a digitally optimised synthetic media. Ideal for outdoor applications where weather resistance and durability are paramount. It is chemical resistant and waterproof, lending itself to a variety of applications in the harshest environments.

DuraPaper is ideal for frequently handled documents such as workshop manuals, and can be readily folded.

DuraPaper 255 µm

Part Number	Format	Material	Sheets/Pack	List Price
003R97513	SRA3	Polyolefin	200	£200.00

Applications:

- ID cards
- Licenses
- Important travel documents
- Place mats
- Wipe clean menus
- Maps
- Baggage tags
- Sporting bibs
- Flags and banners
- Clothing tags and much more

Synthetic media

DuraPaper Labels

DuraPaper Label is a digitally optimised synthetic label, ideal for outdoor applications where weather resistance and durability are paramount. It is chemical resistant and waterproof, lending itself to a variety of applications in the harshest environments. Ideal for underwater applications the product is certified BS5609.

DuraPaper Labels are a self-adhesive tear-resistant synthetic product specifically designed for colour digital printing. The aggressive adhesive ensures your messages stay put.

Part Number	Labels/Sheet	Label Size	Surface Finish	Sheets/Pack	List Price
003R97344	1	210 x 297 mm	Matt	50	£35.00
003R98645	1	297 x 420 mm	Matt	150	£210.00
003R98688	1	320 x 450 mm	Matt	100	£190.00

Applications:

- Outdoor notices and signage
- Use on oil and chemical drums
- Health and safety signs
- Use in clean environments e.g. kitchens, hospitals
- Product labelling outdoors e.g. plant labelling
- Labelling of machinery or spares
- White goods labelling

DuraDocument Paper

Xerox DuraDocument Paper is an advanced digital print media made from a tri-laminate construction. A thin layer of polyester is sandwiched between two layers of paper resulting in a print media which looks like paper but is totally tear resistant.

This product is ideal for applications which require a durable solution - like luggage tags or quality clothing tags, and high value concert tickets... the possibilities are endless!

DuraDocument Paper 135 µm

Part Number	Format	Material	Sheets/Pack	List Price
007R96123	SRA3	Paper/Polyester/Paper	250	£100.00

DigiBoard range

DigiBoard

Xerox DigiBoard is SRA3, 210g/m² packaging board, which is pre-creased, partially cut and perforated. The creases are specially designed to ensure the surface remains flat to maintain print quality. Once printed, simply guillotine or remove perforations, tear away unwanted board and fold your DigiBoard sheet into the final product. The perfect short run solution for production of mug boxes, tent cards, pillow packs, business card boxes, folders and gift boxes.

Magnetic media

DocuMagnet

DocuMagnet is one of several magnetic media products specifically designed for your high-speed laser applications. This unique product combines a 54mm x 86mm magnet integrated into an A4 coated or uncoated carrier sheet. It is available in a standard 1 up configuration only and is approved for running in Xerox digital printers. The Xerox DocuMagnet provides the perfect way for your customers to keep your information at hand. It could be their gas, electricity or water service account details, or the local mini cab telephone number.

DocuMagnet 430 µm

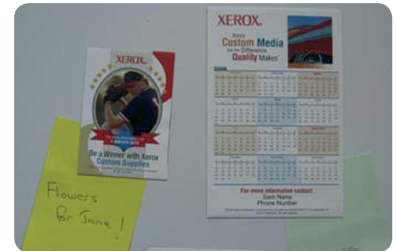

Part Number	Format	Cards/sheet	Colour	Surface Finish	Sheets/Pack	List Price
003R96072	A4	1	White	Matt	500	£216.24

Applications:

- Gas, Water, Electricity details
- Finance, Banking and Insurance
- Restaurants and food delivery
- Property sales
- Promotional advertising
- Recruitment agencies
- Health – Doctor, Dentist

UltraMagnet

The Xerox UltraMagnet is an unmagnetised, cut-sheet solution with a glossy coated paper facesheet which can be used to produce customised, multi-up, personalised magnets on the Xerox iGen Digital Colour Press. This product provides an unprecedented amount of flexibility and creativity allowing on-demand and short run production of direct mail and promotional advertising magnets. Create business cards, calenders, promotional fridge magnets...the possibilities are endless.

UltraMagnet 1200 g/m²

Part Number	Format	Colour	Surface Finish	Sheets/Pack	List Price

Applications:

- T-shirts
- Sweatshirts
- Tote bags
- Caps
- Mousemats

Card solutions

DocuCard

A highly durable synthetic card - the premium solution. Xerox qualified 120gsm base sheet and a 178 micron synthetic card. The card itself is designed to be waterproof, tear-proof and durable making it suitable for membership cards, identification cards and loyalty cards where durability and professional looking images are a factor.

All solutions are available in customised configurations that can be supplied to you pre-printed on the face and reverse of both the card and carrier sheet. Use your laser printer to add variable data. Alternatively select from the stocked blank options and create your applications in house.

Part Number	Format	Cards/sheet	Thickness	Surface Finish	Sheets/ Pack	List Price
003R97246	A4	1	178 µm	Uncoated	100	£32.95
003R97571	A4	1	178 µm	Uncoated	500	£110.00

Applications:

- ID cards
- Exhibition tickets
- Security passes
- Warranty cards
- PIN number cards
- Membership cards
- Hotel loyalty cards
- Retail loyalty cards

DocuGlossCard

The gloss finish of the card makes the printed images stand out, providing an ideal solution where photo reproduction and visual appeal are critical. Xerox qualified 120gsm base sheet and a 254 micron laminated card for extra durability.

Part Number	Format	Cards/sheet	Thickness	Surface Finish	Sheets/ Pack	List Price
003R97678	A4	1	254 µm	Gloss	500	£85.00

Applications:

- ID cards
- Security passes
- Warranty cards
- Membership cards
- Hotel loyalty cards
- Retail loyalty cards
- Wallet size calendars

Card solutions

ValuPeelCard

The Xerox ValuPeelCard is a card solution with a true integrated card construction. This card solution provides for an easy to print, clean release card with a durable laminate plastic backing.

Part Number	Format	Cards/Sheet	Surface Finish	Thickness	Sheets/Pack	List Price
003R97952	A4	1	Matt	163 µm	500	£ 78.00

Finishing - online binding

Document Binder 120 covers

The Xerox DB120-D is the on-line perfect binder compatible with the Xerox DC2045, 2060, 5252, 6060, 7000, 8000, DT/DP 75/90, and the NUVERA 120/144 Production Systems. This unique finisher provides automated, high quality, and cost effective binding of collated documents. Binding is achieved at the rated speed of the printer on-line and can/will also function as a walk up finisher in the off-line manual mode. The output is outstanding with the professional appearance of wrap-around, perfect-type binding but w/o any trimming operation required. Quality and reliability are guaranteed – it is basically impossible to separate any sheet from its cover.

Xerox replacement cartridges
for non-Xerox printers

Xerox has created a range of print cartridges for use with HP, Brother, Lexmark and Kyocera printers. The quality of Xerox replacement cartridges is just what you would expect from the leaders in toner technology. The savings you'll make may be more of a surprise.

Xerox invented toner technology over 70 years ago and has an unsurpassed level of experience in the area of laser printing and knows exactly what is needed to make a perfect print. Page after page.

Here's just a few reasons why customers are choosing Xerox replacement cartridges:

Performance:

Xerox cartridges are developed to equal, and even exceed the performance of the originals. The range is compatible with over 300 HP, Brother, Lexmark and Kyocera printers.

Expertise:

The Xerox brand is trusted and recognised throughout the industry.

Value:

You can make a 25 % saving compared to the OEM price without risking your print quality.

Confidence:

All Xerox cartridges are triple tested. Using Xerox Replacement Cartridges won't affect your printer warranty.

Lifetime Guarantee:

Xerox offers an unconditional Lifetime Guarantee on every cartridge. Should your Xerox cartridge fail to satisfy your expectations we will replace it or refund your money.
