

X-CAR

DASHBOARD MOUNT AND CAR CHARGING KIT

Make the most of your travel time to effortlessly charge your cellphone. When we get into our car in the morning, we don't have time to look for the right charging cable, open up the waterproof case, plug our smartphone in .. the X-CAR was designed with all these constraints in mind. Its magnetic fastening system allows you to fix your phone with one click, and start charging instantly. Just a 30 minute journey will allow you to head off with 8 hours battery life. Opt for the windshield bracket or ventilation grille bracket, both supplied in the pack. Position your phone in portrait or landscape mode just as easily and quickly for optimal GPS playback.

PRODUCT HIGHLIGHTS

COMPLETE

Two fixing systems are included in this pack. The windshield fixing system provides effective and long-lasting hold thanks to its suction cup with polyurethane base (the suction cup is washable, in order to always ensure excellent hold). You can also opt for the ventilation grille grip, more discrete and just as stable. On both systems, your cellphone is firmly stabilized thanks to the X-LINK magnetic connection system.

X-LINK

No more cables! Fix your smartphone with one click and charging starts immediately thanks to the X-LINK technology. Very easy to use, the system, directly integrated into the back of the phone, allows you to charge your phone. Magnets positioned under the case allow easy switching from portrait to landscape mode for easy GPS reading.

QUICK

Unlike induction charging, there is no power loss with the X-LINK magnetic connection (98% of charging power transferred). The flat cable linked to its 2.4 A cigarette lighter charger provides fast charging even on short journeys.

PRODUCT DESCRIPTION

X-PAD

Input voltage	5V
Output voltage	5V
USB Output current	2.1A
Connectors	Gold plated
Dimensions	58x58x15mm
Weight	30 g

CHARGER

Input voltage	12/24V
Output voltage	5V
USB Output current	2.4A
Charge indicator	LED
Dimensions	25.8x25.8x57mm
Weight	23 g

X-LINK compatible only

CABLE

Universal	USB A - MICRO USB
Length	1.2m
Weight	32 g

WINDSHIELD MOUNT

Total length	16cm (flexible: 12cm)
Attachment	Polyurethane Suction cup
Dimensions	65x65x165mm
Weight	106 g

VENTILATION GRILLE MOUNT

Attachment	Clamp + PU
Dimensions	47x 45x75mm
Weight	20 g

COMPLETE PRODUCT

Weight	212 g
