Ranchers, Land Managers Have New Flexible Tool for Weed Control

HighNoon™ Herbicide from Corteva Agriscience™ Stops Weeds Nearly Anywhere They Grow

Drought and drought recovery make now the time to plan your spring weed control so you manage the toughest broadleaf weeds across the West. New HighNoon™ herbicide gives ranchers, land managers and county noxious weed specialists the flexible tool they need to help manage those challenges across the diverse Western Rangeland.

What the Experts Have to Say

“When winter moisture germinates new weeds or stimulates regrowth, eliminating those unwanted thirsty plants helps moisture go to growing grass and rangeland recovery, rather than to growing weeds,” said Will Hatler, Range & Pasture field scientist with Corteva Agriscience™.

HighNoon™ herbicide provides a single product that controls more than 140 broadleaf weeds and delivers lasting residual control across a wide range of sites.

“In many states where noxious and invasive weeds pose the primary broadleaf weed threat, there is significant crossover among rangeland, pasture, roadsides and other non-crop use sites,” said Hatler.

HighNoon gives ranchers, county noxious weed directors and vegetation managers working on grazing land, roadsides, utility substations or rights-of-way a weed control option that simplifies the job.

“Residual control is important, especially during drought recovery,” Hatler said. “As moisture brings

on new weed flushes, HighNoon stays on the job, keeping weeds out of the way so you get a strong start rangeland recovery.” HighNoon™ herbicide was developed to provide focus, emphasis, and product simplification for the Western rangeland market. It controls weeds and brush and contributes to invasive grass management and fire prevention, improving forage growth and habitat maintenance.

HighNoon™ is specifically labeled for Western rangelands and was created for ranchers, land managers, and stewards of the land.

HighNoon, part of the Corteva Agriscience leading portfolio of crop protection solutions, is planned to be available in Colorado, Idaho, Montana, North Dakota, Nevada, Oregon, South Dakota, Utah, Washington and Wyoming.

Go to www.HighNoonHerbicide.com to download an interactive PDF that has extended information on the benefits you get with HighNoon.

The Foundation to Rangeland Restoration.

HighNoon™

HERBICIDE

For the visionary land stewards of the Western US Rangeland comes HighNoon™ herbicide, the foundation product for annual grass, broadleaf and brush control for Western rangelands.

HighNoon provides extended control of 140+ weeds while maintaining native grass safety. HighNoon gives ranchers, county noxious weed directors and vegetation managers working on grazing land, roadsides, utility substations or rights-of-way a weed control option that simplifies the job.

Learn more about how HighNoon can work on your operation at HighNoonHerbicide.com.

LINDSKOV'S LT —RANCH—

Building on Quality & Service Since 1981

Commercial Bred Heifers For Sale Fall 2022

Heifers all originated off the Lindskov Ranch or were purchased as heifer calves from some of the top commercial cow herds in the upper Midwest, including herds using Lindskov-Thiel genetics. These heifers are backed by years of genetic selection.

The Sixth Annual
CK CATTLE & WAGER CATTLE
PRODUCTION SALE

SATURDAY | FEBRUARY 11, 2023 | 3:00 PM

Highmore, South Dakota

100+ BULLS

45+ BRED HEIFERS

Featuring a powerful offering of
 Simmental & SimAngus Seedstock

FRKG CKCC PLATINUM 009H ET
 The first sons by the \$175,000 Platinum, and a full
 brother will sell on February 11, 2023.

Unmatched consistency, performance, and real
 world function, with a first class look!

ES RIGHT TIME FA110-4

The first daughters have entered production
 and are just what we expected. Right Time
 is the "fix all" sire to inject performance,
 carcass merit, and maternal excellence!

OMF EPIC E27

A powerful set of Epic sons sell! They
 offer an unbelievable blend of calving
 ease with breed leading performance
 and carcass value.

DEER VALLEY GROWTH FUND

A large selection of SimAngus bulls by Growth Fund will be
 offered. We love the consistency and doability that this set of
 brothers offer. Hybrid vigor is all-inclusive!

OMF HARD RIGHT H21

The first Hard Right sons will be featured in February 2023 at CK
 Cattle & Wager Cattle. Homozygous black and homozygous polled
 with 11 traits among the top 20% of the breed!

CKCC LINCOLN 0631H ET

Lincoln's first calf crop will sell, along with several maternal
 brothers to this breed leading performance SimAngus herd
 sire. He charts top 5% or better for WW, YW, ADG, CW,
 MWW, DOC, and REA!

A super fancy late May ET heifer out of our lead donor. This one would make a great show heifer for that young exhibitor along with having the cow power to produce herd bulls. She is a full sib to the mother of last year's sale feature, Black Ace Double Run 4-8, purchased by the Geppert and Werning programs in SD.

This March Primo daughter possesses massive rib shape and an outstanding profile. We really like this heifers structural integrity and the ease with which she gets out and travels. This one is backed by a powerful donor dam who was 4th overall at Junior Nationals. She would be a great project for a young junior exhibitor!

A true standout! Phenotypically, a female that has all the extras! On paper, one that lands in the top 5% of the breed for WW & YW. Sired by the Redemption whose dam was sold for 33K on Embryos of Snow! This heifer Granddam is the mother of Chestnut Knockout 204. Influential and predictable cow families on both sides. A Genotype and Phenotype heifer that is hard to let go.

HEIFER

100% FULL POSSESSION
EPDS: BW: -0.7 | WW: 62 | YW: 105 | Milk: 28

A daughter of the exciting new Krebs Ranch sire, Connealy Hayday, out of the Supreme Champion Female of the 2020 Central States Fair, who has since earned a spot in our donor pen. This sweet fronted, big topped, good haired heifer has a look of style and quality that catches the eye. Remember, the 2023 National Junior Heifer Show is in Nebraska this summer. She is broke, gentle and ready for the youngest of exhibitors.

Mohnen Bandolier

AAA 19771888

BW +0.7
WW +82
YW +148
Milk +31
\$B +155
\$C +260

Bandolier was the co-top selling bull in our 2021 sale for \$70,000. He was a true powerhouse of a bull and he is packing his same attributes into his sons. This will be one of the largest set of bulls in offering. He is siring cattle with a big rib cage, big hip, and a docile nature to them. His first daughters were the highlight of our fall female sale and look to have a big-time future in our herd.

Mohnen Stats

AAA 19776434

BW +0.6
WW +99
YW +160
Milk +30
\$B +156
\$C +291

Stats was the co-top selling bull in our 2021 sale for \$70,000. Stats sons were calving ease with an extreme growth curve that weaned off heavy and haven't slowed down a bit. These cattle have a touch more frame and length to them and sure to be sale highlights for sure. This Tahoe son should leave outstanding uddered cattle that have more growth than their sire.

Heiken Broadview

AAA 19421003

BW -0.3
WW +75
YW +137
Milk +22
\$B +176
\$C +296

Broadview did an outstanding job siring cattle that have a little more length and frame with added growth and outstanding carcass qualities. His first set of heifer calves are stunning and look to make great cows. He is a total outcross to many of the main pedigrees today. You will appreciate the look and quality of his bulls.

Sitz Barricade 632F

AAA 19078148

BW +3.6
WW +92
YW +154
Milk +19
\$B +163
\$C +301

If you love cattle that are loaded with muscle and power with unlimited depth of body you will need to take a look at this top notch set of Barricade sons. He is one of the most sought-after bulls in the Angus breed today. He has above average carcass traits with an outstanding set of growth EPD's to back him up.

Stone Creek Iconic 2228 is a standout herd sire prospect who has sensational phenotype, shape, style and eye appeal. He is easy moving, thick topped, heavy muscled, deep flanked, tremendous depth of rib and shape with structural correctness. 2228's Sire DB Iconic G95 offers great phenotype with additional growth and carcass merit. Iconic is a unique blend of physical excellence and outstanding EPDs. 2228's Dam, Crouch Lady Acclaim 703 is an impactful donor whose phenotype will surely attract your eye. She is packed with power, big topped, length of body and depth of rib all wrapped together in a feminine package. Stone Creek Iconic 2228 ranks in the top 1% of the angus breed for WW, MW, \$G, \$B & \$C and Top 2% for YW, CW, MARB & \$F.

Dakota AG

INSURANCE

Livestock • Equine • Farm & Ranch • Crop • LRP • PRF

Individual Livestock Policy Coverage Option

Mortality Only Coverage: Pays 100% of the value of the cow or bull in the event of death or humane destruction as a result of a life-threatening injury. Age: 24 hrs of age - 10 years of age.

Individual Equine Policy Coverage Options

Mortality Only (\$5,000 emergency colic surgery included), Major Medical & Surgical, stallion Infertility (Accident, Sickness & Disease), Prospective Foal Coverage & more!

Farm & Ranch

We insure all sizes of farm and ranch operations throughout the Midwest. We have access to every major carrier in the United States, don't hesitate to call an agent for a **FREE-NO OBLIGATION** quote today!

Livestock Risk Protection (LRP)

This new & exciting subsidized coverage option offers protection against unexpected future declines in the market value of cattle and swine. Coverage is available for Feeder Cattle, Fat Cattle, Swine and Unborn Livestock as long as the livestock are born before the SCE end date. *Unborn Livestock Definition:* Livestock not born on the effective date but expected to be marketed before the end date.

Livestock Specified Perils, Livestock Herd Coverage

This policy option provides coverage for losses caused by death or humane destruction of livestock as a result of a specified peril. Coverage is for both owned and non-owned livestock in your care, custody, and control.

Perils Covered: fire – lightning - explosion or smoke - windstorm, hail or tornado - smothering by blizzard or snowstorm - collision with vehicles, aircraft or falling objects - riot, civil commotion or vandalism - earthquake or volcanic eruption – flood, drowning, mudslide or tidal waves – accidental shooting – electrocution – attack by wild dogs or animals – collapse of buildings, barns, bridges or culverts – sinkhole collapse – hypothermia due to precipitation – leakage of gas or anhydrous ammonia – contaminated feed or water.

Available Endorsements: coverage in transit – grazing poisoning – livestock born during the policy period – frozen semen & embryos in storage or transit.

Rainfall Pasture, Rangeland and Forage (PRF)

Covers pasture, rangeland, or forage for perennial haying and/or grazing purposes. It was designed to help protect a producer's operation from the risks of forage loss due to the lack of precipitation.

Other Available Insurance Options:

Prospective Offspring Coverage (Pregnancy) – Trucking – Feedlot – Short-Term Cattle Coverage – Frozen Semen & Embryo Endorsement (Storage & Transit) – Single Trip Transit Coverage – Cargo Coverage & More.

Blair Brothers sired calves are designed to bring you a premium in today's market

Blair Brothers have been selecting for high marbling, grid-topping genetics for over 25 years...

let us help your calves rise to the top of the markets in years to come

✓ **New factors are driving active demand for black-hided cattle:**

- ◆ Feed efficient, fast-gaining genetics that produce heavy carcass weights are driving record premiums for calves with elite Angus genetics over commodity-type calves
- ◆ Record USDA Choice, Certified Angus Beef, and Prime premiums are driving record grid premiums for Blair Brothers sired calves

Offering 500 Yearling Angus Bulls by **Private Treaty** starting in February 2023

List of sires:

- Baldrige Beast Mode
- E&B New Addition
- GAR Transcendent
- GAR Hometown
- Baldrige Movin On
- Deer Valley Growth Fund
- Deer Valley Unique
- Tex Playbook
- Tehama Tahoe
- Sitz Milestone
- GAR Inertia
- E&B Plus One
- GB Fireball
- B/B Grid Premium
- Tehama Patriarch

Blair Brothers sired calves sold at Faith, SD were Corbitt Wall's "Top Quote of the Day" for Oct 17, 2022

Long and Extended. Deep Bodied. Wide Based. Extra Stout. Long aged bull dripping with Angus breed character that we are proud to represent at public auction. Simply put, he's the best individual we feel we have raised to date. He bred all our Angus cows, and we sampled him on a select set of commercial heifers. We are all in on Say When, and are looking for a partner to keep moving our program forward. Sells with 50 units of in herd use semen.

153 aka "Goose" has been a standout since birth and that's what made our decision easy to keep him and use him on our own cows. He's a big bodied bull that's stout from the ground up. A very nice profiling bull that's big hipped and goes back to our very best cow family...be sure to keep his heifers for replacements. Don't miss "Goose" sale day, and that's with two O's.

This Powermax sired heifer calf is thick. She's the type of female that ties an attractive head into a feminine neck and shoulder. But her mass is second to none, she has a ton of hip and she will be sure to add those extra pounds to her progeny. Powermax is taking the breed by storm and he's created a wave with his calf crop. This heifer is no exception, she is sure to add value to any program.

AI Bred on 5/27/22 to BRCHE Cool Dot

Check out this opportunity! This is a no doubt herd changing opportunity. My plan was to offer her in her entirety but last minute I just couldn't do it but will leave the option in there and whatever is meant to happen will happen. This was also Bevins show heifer from last year and has the best disposition to go with her superior quality. Don't miss out on adding this instant donor to your arsenal.

EPDS: BW: -1.7 | WW: 54 | YW: 96 | Milk: 19

AI Bred on 6/17/22 to **GHC REAGAN 9012**

AC Judy 2305 is a direct daughter of a cornerstone in our program, CC WZD Katelyn Dee 6760, a female that is averaging just shy of \$9,000 on her daughters to this point. She is extra smooth, maternally designed and has an awesome temperament. We think her build and pedigree make her a versatile breeding piece. She comes with a pregnancy sired by the \$40,000 calving ease specialist, GHC Reagan 9012.

One of the 1ST sons of Foreigner your 2021 BHSS champion bull & 2022 RES National champion bull in Denver. His dam is a tremendous Outsider daughter that will enter our donor pen this spring. Kolt is a powerful made bull with a good level hip, sound at the ground, and attractive through his front end. We feel that Kolt has the ability to make a top end herd bull for his new owner

Why Not

Use a Registered Charolais Bull?

If your goal, as a beef producer, is to market a calf with wide market acceptance, why not use a registered Charolais bull? In a recent analysis of seven years of extensive Superior Livestock video auction marketing data including more than two million head of cattle, Charolais-sired steer calves outsold all other English-Continental breed cross steers by \$3.73 per hundred weight.¹

Use genetic verification through CharAdvantage to earn more premiums.

Why?

- Market demand
- Predictability
- Increased weaning & yearling weights
- Easy calving
- More live calves
- Adaptability
- Value of Charolais-cross females

THERE ARE NO SICK DAYS ON THE RANCH

365 days a year, no matter the weather, you are preserving a way of life through passion and commitment.

At Monument Health, we believe protecting your health and well-being is just as important as preserving your way of life.

Monument Health offers preventive care options that help detect and prevent serious diseases and medical issues before they become major problems. You are constantly navigating a variety of occupational risks including respiratory diseases, infections, skin cancer, sore bones and muscles, hearing loss, depression, anxiety and disabling injuries. We believe that with proper preventative care and access to knowledgeable health professionals, you can live a long, healthy and productive life.

Stop by our booths inside The Monument Ice Arena during The Black Hills Stock Show & Rodeo and Rodeo Rapid City to learn more.

I just like her, when picking out heifers she was at the top of the list. Easy keeping with some length and thickness. Maternal backs her up and I have no doubts that she will make a great replacement in any program.

This one has the look of a show heifer with the numbers and performance to make an excellent cow prospect. We like this pedigree so much that we are keeping a flushmate as our herd sire.

The first calf to sell sired by RV Cuda 0343, calving ease specialist and high selling bull from Ravine Creek in 2021. Dam has a stacked pedigree -- Maternal Granddam, Churchill Lady 1162Y, has produced champions and high sellers at all levels and Maternal Grand sire Bentley is a consistent power bull. Good looking female out of a first calf heifer with outstanding carcass and \$indexes too!

When we bought these embryos out of the gold rush sale this is exactly what we thought. Big legged, big hipped bull that is a maternal brother to ECR Copper Candi 1333 to Reserve Champion Hereford Bull at Denver and the High Seller at BHSS last year. Here's his replica in a polled package. Owned with Jacque Weller.

A Dark red bull with pigment out of a first calf heifer. This bull just keeps getting better the older he gets! When I decided to AI to Big Country Ryan said they will explode as they get older and he was not wrong! The maternal strength behind this calf will make his replacements even more valuable. Be sure and find him on sale day! Would like to keep an in herd semen interest.

One look behind this bull is all it takes. Big over the top and carries that red meat all the way down. He is goggle eyed and has a great appeal from the side. He will produce progeny that eat less and still stand out with their peers. Good carcass bull without giving up the maternal traits.

Lead off bull in 2022 NWSS Hereford pen. His maternal brother holds the title of Reserve Jr. National Hereford Champion Bull. He's packed with bone, muscle and has a foot under him that would compliment anyone's program. He's the type of bull that we strive to exhibit at the BHSS.

This heifer we decided to sell just because she is horned, otherwise she would be going into the replacement pen. Mostly red with a splash of white. Her bloodlines are really cool and she has the phenotype to go with it.

This moderate framed heifer is neat. I have no doubts that she is going to carry on traditions of fertility and having a flawless udder. The replacements we have on this cow is yearly and she never misses a beat. She will make a good moderate framed cow and produce consistent offspring.

Cow prospect that offers the added look, bone, and power to compete in the show ring. Her dam is one of our favorites for her great udder and front pasture look. 226K is very gentle and will be kid broke and ready for NAJRAE in Brookings this year.

If you're looking for a heifer for a first time showman, look no further. This heifer will be very competitive in the show ring and an even better cow in the long run. Out of a great dam with an outstanding pedigree that's proven herself year after year.

Here's a heifer that was weaned a little bit later, resulting in her not making our online sale, but has definitely done great things since. Awesome cow family and an impressive build. She should have a fun show career yet go out and raise some elite ones once the halter is hung up. Don't forget about the NAJRAE being held in Brookings, SD in 2023!!

HEIFER

EPDS: BW: -2.1 | WW: 76 | YW: 120 | Milk: 33

One of the best opportunities at a first class Red Angus female maker, she is an easy moving, moderate framed heifer with a stacked pedigree. She stands on an ideal foot and leg. Yet, she is stout but still very feminine. Her EPD profile is very respectable: from birth, to performance, to calving ease. This is a great opportunity to buy a heifer out of the front of our program that will have a good chance at raising the next generation herd bull.

BRED HEIFER

EPDS: BW: -1.4 | WW: 62 | YW: 98 | Milk: 25

Confirmed AI bred to Ideal Berry 912 on July 26.

2130 is a more moderate female sired by the WEBR Headliner 59G. From a cow that is pure power, big topped, and big sided. She has the same look as her dam. AI bred to Ideal Berry 912 brings you the same DNA that the breed legend Mulberry 26P provides without the \$1300 per straw price.

An awfully special female being offered here folks! The "Star" cow family has been synonymous with elite quality for many years. J68 is another added to that list of great ones! A breathtaking female from the profile that's style and balance is so captivating. But study her underneath and this is genuinely one of the biggest footed, heaviest structured females we've ever generated. Her blend of power and balance is so unique, that we can't wait to see the impact she will make in production. This heifer is destined for one of two things, your donor pen or ours!

This young bull is very sound structured, good footed, and soft bodied. He is out of a moderate, awesome bodied cow that is perfect uddered and maintains her condition incredibly well. With the current climate and economic conditions, his ability to be a calving ease sire that can generate valuable calves out of first calf heifers while still make moderate, easy fleshing females should make him a productive herd sire.

Bloodlines bred for...

functionality, longevity and growth with credentials and experience to back it up!

Sired by the National Champion, C-Bar Blakes Bonanza, this young bull comes with a neat look from the side, is big and square out of his hip, and still sets down on a good set of feet and legs. His dam has been very low maintenance and has always calved a calf by herself. I'd expect him to accomplish breeding objectives for a variety of cattlemen.

An exciting herd sire prospect, with a little extra mass and stoutness.

PARAMOUNT

Authenticate your Red Angus genetics.

Now is a paramount time to verify your genetics in the Feeder Calf Certification Program. The Red Angus Live Animal Specification, recognized by the USDA, acknowledges Red Angus are genetically Angus and meet requirements to be included in many Angus branded-beef programs.

Capitalize on Red Angus-based opportunities.
 Visit RedAngus.org

When you see this bull in person, he has an awesome herd sire look. High neck set, deep bodied, great structured, and still comes with masculinity, power and performance. His dam's first calf went on to be the Reserve Champion Red Angus bull calf at the American Royal in 2021. Lot 26 is just a really solid bull all around and I'd be excited to see his rookie calf crop.

EPDS: BW: N/A | WW: N/A | YW: N/A | Milk: N/A

An absolute stud! For our inaugural trip to Rapid City, we wanted to bring our best. K06 is a perfect example of that. This massive, powerhouse herdsire weaned off incredible and never looked back. He's as stout hipped, big ribbed, and pulled apart as you can make one, but still so flexible on his feet and legs. His donor dam, C9CC Star F225, has become a household name across the breed and will continue to play a monumental part in our program! K06, a scale crushing stud with unbelievable quality!

EPDS: BW: N/A | WW: N/A | YW: N/A | Milk: N/A

We've always emphasized the maternal side of the pedigree bracket, but when you stack a breed changing herd sire on top of it, something good is bound to happen! K03 is the result of that, and I can assure you, he's never had a bad day in his life. This dark-pointed January calf is tremendous in his center rib shape, the power to his hip, and flexibility at the surface. From the reproductive side, he's a perfect sheathed bull that's exceptional in his testicular development! This herd sire is geared to do it all, sire elite bulls and females alike!

ADVANCING BEEF... RESEARCH EDUCATION PROMOTION

A catalyst for change, the Beef Checkoff acts to create demand for beef through research, education and promotion. Calving ease front end and ultra dark red 116J is ready to get to work! Backed by a no miss, great uddered card shark cow. Outcross pedigree on the topside

The greater the distance,
the greater the opportunity.

We started a little more than a hundred years ago. A single wire strung from one fencepost to the next, a phone line bridging an impossible distance. We set out to connect one family to another and then another, until eventually it touched us all.

LGNZ Kingman is a black, polled Balancer bull that will add plenty of bone and muscle to your cow herd. With an excellent set of feet and legs LGNZ Kingsman is built to last. This cow family has produced excellent calves year after year and LGNZ Kingsman meets that criteria with ease. With his sire coming out of a successful program in Styles Angus, LGNZ Kingsman has a bright future ahead of him.

Big Energy is a homo polled, homo black high percent bull that is soft made, soggy midedd and excellent structured. He is thick over his top and combines calving ease along with growth (has an adjusted WW of 749 lbs and is currently gaining over 4 lbs per day) This is the first progeny out of Reform and if this bull is any indication of the quality he can produce we are very excited for the future of this herd sire. His 17 year old donor dam has been one of the most influential females in our herd and we are still utilizing her in our ET program today. Big Energy is a bull that will make awesome replacement females but will not give up pounds at weaning. Selling full possession and 1/2 semen interest.

High Voltage is an extremely long spine, soft footed bull that is thick from front to back. He has been a stand out since weaning and offers plenty of performance and eye appeal. His dam has been our Number 1 donor cow and this flush was a home run. He is a maternal sibling to BABR Branded Man 3400A and BABR Maria 5256C. We selected the sire to add a bit more frame and growth to the mating. He is has an adjusted weannig weight of 832lbs and is gaining 4.5 lbs/day. This is a bull that will add pounds at weaning, without giving up quality on replacement females.

Forbes 8088 needs no introduction, pair that with a pretty special Gentleman Jack female and you create a bull that is a true standout. K206 has the look and presence to breed the keeping kind of females, but has the masculinity and burley look to make performance driven bulls. A genetic package like this does not come around very often, so take advantage of it while you can.

Here is a bull that is as rugged as they come! His structure is designed to cover cow country while his muscularity and build are traits every cow man is looking for. His sire, Whirlwind, was a bull that we found after walking through his sire group at the 2020 Lazy TV Ranch bull sale. His calves are stamped with beef bull material, which is exactly why he paired up great with this Sandstone daughter.

A double black double polled bull that will put some meat in em' He's been a favorite in the pasture all summer as he's stout, deep and thick. His mother is easy fleshing and pretty moderate. A nice bull that should calve with the Limousin look

GENERATIONS OF QUALITY AND CUSTOMER SERVICE

For over 53 years, the Leonard family has been supplying commercial cattlemen with the best in Limousin and Angus bull power. Through the years, we've concentrated on only one goal: to supply our customers with bulls that will increase their bottom line by siring calves with superior performance and feed efficiency.

Along with the bulls we've made customer service a top priority. Our philosophy is simple: **"Your success is our success"** and we're proud over 80% of our bulls sell to repeat customers each year.

CELL HUNK 0487H

The newest addition to our bull battery is this thick made, homozygous polled purebred. He, along with all the member of our bull battery, ranks in the top 1% of the Limousin breed for weaning and yearling weight EPD's.

Available at private treaty are 100 coming two-year-old Limousin, Lim-Flex and Angus bulls. Many are half-brothers. Give us a call and see why calves sired by Leonard bulls consistently top the market.

Your Success is Our Success!

A deep-sided, easy-keeping bull with added performance and EPDs to set him apart. The calves from his sire's first calf crop have greatly exceeded our expectations with added growth, scrotal circumference, and docility. Out of a Bear cow, this homozygous black and homozygous polled bull has combined two of the top herd sires in our program.

Her name says it all. She is a classy heifer that puts together a great balance of soundness, style, and shape. Her dam is a great Kreb's Angus cow that always produces really nice, really maternal females for us, which makes this cross with class on class extra appealing. She is sure to be a great addition to anyone's cow herd.

This bull comes from one of the best & reliable cow families in my herd. Being super stout & hairy, you can't go wrong with this one! The After Hours sired calves were the most highly sought after in our 2022 September Pasture Sale. He has been a personal favorite of mine all summer long. He'll definitely make some solid replacement heifers in the future.

Check out this powerful black, polled, purebred bull that has a fresh new outcross pedigree! He will impress you with his muscle and volume. A power packed, maternal prospect with great EPD's as well.

When it comes to your to-do list, put your future first.

If you haven't noticed our past bull consignments, we like to bring easy feeding, production oriented aged bulls to Rapid City. "The Judge" is no differen. He is a long bodied performance bull whose dam is a full sister to our Road Warrior bull. This bull will check all the boxes to produce high value commercial calves. Did I mention he was the Resrve Main bull at the 2022 Iowa State Fair! Performance with style!

A balanced trait bull with a tremendous pattern, sired by 5575G our 2yr old bull selection from Scott Warnings 2021 Sale, that blends Turnpike with their 6026D red baldy donor. His is dam is a young productive angus cow with a beautiful udder who delivers a heavy calf at weaning and breeds back on time each year. He's a versatile bull that will deliver pounds without sacrificing maternal quality in the females he sires.

FEMALES FIRST

Simmental cows set the bar for fertility, weaning weights and exceptional calving ease suited to all environments.

And, the American Simmental Association offers the industry's most expansive selection of cow-calf tools – like Cow Herd DNA Roundup – to identify longer-lasting replacement heifers. Get years of information on your commercial herd before investing years of time.

Simmental stands for better females.

Draxxin® KP
(tulathromycin and ketoprofen injection)
INJECTABLE SOLUTION

zoetis

IMPORTANT SAFETY INFORMATION: Draxxin KP has a pre-slaughter withdrawal time of 18 days in cattle. Not for use in female dairy cattle 1 year of age or older, including dry dairy cows. Not for use in beef calves less than 2 months of age, dairy calves, and veal calves. A withdrawal period has not been established for this product in pre-ruminating calves. Do not use in animals previously found to be hypersensitive to tulathromycin and ketoprofen. See full Prescribing Information, attached.

*Draxxin KP animals showed a numerically improved attitude and respiratory scores compared with saline-treated and Draxxin-treated animals.

Brief Summary of full Prescribing Information

(tulathromycin and ketoprofen injection)
INJECTABLE SOLUTION

For subcutaneous injection

Antibiotic: 100 mg of Tulathromycin/mL

Non-Steroidal Anti-inflammatory Drug: 120 mg Ketoprofen/mL

CAUTION: Federal law restricts this drug to use by or on the order of a licensed veterinarian

DESCRIPTION

DRAXXIN KP (tulathromycin and ketoprofen injection) Injectable Solution is a ready to use sterile parenteral preparation containing tulathromycin, a semi-synthetic macrolide antibiotic of the subclass triamitide and ketoprofen a non-steroidal anti-inflammatory drug. **ACTIVE INGREDIENTS:** Each mL of DRAXXIN KP contains 100 mg of tulathromycin as a free base and 120 mg ketoprofen as a free acid in a 50% propylene glycol vehicle. **INACTIVE INGREDIENTS:** monothioglycerol (5 mg/mL), 2-pyrrolidone (70 mg/mL), citric acid (20 mg/mL) and sodium hydroxide/hydrochloric acid added to adjust pH. DRAXXIN KP contains an equilibrated mixture of two isomeric forms of tulathromycin in a 9:1 ratio and a racemic mixture of ketoprofen.

The chemical names of the tulathromycin isomers are (2R,3S,4R,5R,8R,10R,11R,12S,13S,14R)-13-[[2,6-dideoxy-3-C-methyl-3-O-methyl-4-C-[(propylamino)methyl]-α-L-ribo-hexopyranosyl]oxy]-2-ethyl-3,4,10-trihydroxy-3,5,8,10,12,14-hexamethyl-11-[[3,4,6-trideoxy-3-(dimethylamino)-β-D-xylo-hexopyranosyl]oxy]-1-oxa-6-azacyclotetradecan-15-one and (2R,3R,6R,8R,9R,10S,11S,12R)-11-[[2,6-dideoxy-3-C-methyl-3-O-methyl-4-C-[(propylamino)methyl]-α-L-ribo-hexopyranosyl]oxy]-2-[(1S,2R)-1,2-dihydroxy-1-methylbutyl]-8-hydroxy-3,6,8,10,12-pentamethyl-9-[[3,4,6-trideoxy-3-(dimethylamino)-β-D-xylo-hexopyranosyl]oxy]-1-oxa-4-azacyclotetradecan-13-one, respectively.

The chemical name of ketoprofen is 2-(3-Benzoylphenyl) propanoic acid.

INDICATIONS

Draxxin® KP is indicated for the treatment of bovine respiratory disease (BRD) associated with *Mannheimia haemolytica*, *Pasteurella multocida*, *Histophilus somni*, and *Mycoplasma bovis*, and control of pyrexia associated with BRD in beef steers, beef heifers, beef calves 2 months of age and older, beef bulls, dairy bulls, and replacement dairy heifers. Not for use in reproducing animals over one year of age, dairy calves, or veal calves.

DOSAGE AND ADMINISTRATION

Inject subcutaneously as a single dose in the neck at a dosage of 2.5 mg tulathromycin and 3 mg ketoprofen/kg (1.1 mL/100 lb) bodyweight (BW). Do not inject more than 10 mL per injection site. Use this product within 56 days of the first puncture and puncture a maximum of 20 times. If more than 20 punctures are anticipated, the use of automatic injection equipment or a repeater syringe is recommended. When using a draw-off spike or needle with bore diameter larger than 16 gauge, discard any product remaining in the vial immediately after use.

Table 1. DRAXXIN KP Cattle Dosing Guide

Animal Weight (lb)	Dose Volume (mL)
150	1.7
200	2.3
250	2.8
300	3.4
350	4.0
400	4.5
500	5.7
600	6.8
700	8.0
800	9.1
900	10.2
1000	11.4

CONTRAINDICATIONS

The use of DRAXXIN KP Injection is contraindicated in animals previously found to be hypersensitive to tulathromycin and ketoprofen.

WITHDRAWAL PERIODS AND RESIDUE WARNINGS: Cattle must not be slaughtered for human consumption within 18 days following last treatment with this drug product. Not for use in female dairy cattle 1 year of age or older, including dry dairy cows; use in these cattle may cause drug residues in milk and/or in calves born to these cows or heifers. Not for use in beef calves less than 2 months of age, dairy calves, and veal calves. A withdrawal period has not been established for this product in pre-ruminating calves.

USER SAFETY WARNINGS:

NOT FOR HUMAN USE. KEEP OUT OF REACH OF CHILDREN.

The Safety Data Sheet (SDS) provides more detailed occupational safety information. To obtain a Safety Data Sheet contact Zoetis Inc. at 1-888-963-8471.

ANIMAL SAFETY WARNINGS and PRECAUTIONS

The effects of DRAXXIN KP on bovine reproductive performance, pregnancy, and lactation have not been determined. Not for use in reproducing animals over one year of age because reproductive safety testing has not been conducted. Administration of tulathromycin and ketoprofen injection may result in injection site swelling that appears the day after treatment and may persist for at least 32 days post-injection. This may result in trim loss of edible tissue at slaughter.

As a class, cyclo-oxygenase inhibitory NSAIDs (Ketoprofen) may be associated with gastrointestinal, hepatic and renal toxicity. Sensitivity to drug-associated adverse effects varies with the individual patient. Patients at greatest risk for renal toxicity are those that are dehydrated, on concomitant diuretic therapy, or those with renal, cardiovascular, and/or hepatic dysfunction. Use judiciously when renal impairment or gastric ulceration is suspected.

Since many NSAIDs possess the potential to induce gastrointestinal ulceration, concomitant use of DRAXXIN KP with other anti-inflammatory drugs, such as other NSAIDs and corticosteroids, should be avoided or closely monitored. Discontinue use if fecal blood is observed.

ADVERSE REACTIONS

Repeated administration of NSAIDs can result in gastric or renal toxicity. Sensitivity to drug-associated adverse effects varies with the individual patient. Patients at greatest risk for toxicity are those that are dehydrated, on concomitant diuretic therapy, or those with pre-existing gastric ulcers, renal, cardiovascular, and/or hepatic dysfunction.

HOW SUPPLIED

DRAXXIN KP Injection is available in the following package sizes:

50 mL vial; 100 mL vial; 250 mL vial; 500 mL vial

STORAGE CONDITIONS

Store at or below 25°C (77°F), with excursions up to 40°C (104°F). Protect from freezing.

APPROVED BY FDA under NADA # 141-543
